COROWARE, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)

NOTE 1 – BASIS OF PRESENTATION

The accompanying unaudited interim consolidated financial statements of CoroWare, Inc. (“CoroWare” or “the Company”) have been prepared in accordance with accounting principles generally accepted in the United States of America and the rules of the Securities and Exchange Commission (“SEC”), and should be read in conjunction with the audited financial statements and notes thereto contained in the Company’s annual report filed with the SEC on Form 10-K for the year ended December 31, 2012. The consolidated financial statements include the accounts of the Company and its wholly-owned operating subsidiary, CoroWare Technologies, Inc. Also included in the consolidated statements are the Company’s inactive wholly-owned subsidiaries, Innova Robotics, Inc., Robotic Workspace Technologies, Inc., and Robotics Software Service, Inc. (herein referred to as the “Subsidiaries”). The Company also consolidates its 51% interest in Aricon, LLC. All significant inter-company balances and transactions have been eliminated in the consolidated financial statements. In the opinion of management, all adjustments consisting of normal recurring adjustments necessary for a fair presentation of financial position and the results of operations for the interim periods presented have been reflected herein. The results of operations for interim periods are not necessarily indicative of the results to be expected for the full year. Notes to the financial statements which would substantially duplicate the disclosure contained in the audited financial statements for the most recent fiscal year ended December 31, 2012 as reported in Form 10-K have been omitted.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Subsequent Events

The Company evaluated events occurring between the end of the current period and the date these financial statements were issued for potential subsequent event disclosures.

Recent Accounting Pronouncements

Management does not expect the impact of any other recently issued accounting pronouncements to have a material impact on its financial condition or results of operations.

Reclassifications

None

NOTE 3 – FINANCIAL CONDITION AND GOING CONCERN

The Company has a loss from operations for the three months ended March 31, 2013 of \$470,045. Because of this loss, the current working capital deficit, and the projection of additional losses for the remainder of 2013, the Company will require additional working capital to develop its business operations.

The Company intends to raise additional working capital through the use of public offerings and/or related party financings.

There are no assurances that the Company will be able to either (1) achieve a level of revenues adequate to generate sufficient cash flow from operations; or (2) obtain additional financing through either private placements, public offerings, bank financing and/or related party financing necessary to support the Company's working capital requirements. To the extent that funds generated from operations, any private placements, public offerings, bank financing and/or related party financings are insufficient, the Company will have to raise additional working capital. No assurance can be given that additional financing will be available or, if available, will be on terms acceptable to the Company.

These conditions raise substantial doubt about the Company's ability to continue as a going concern. The consolidated financial statements do not include any adjustments relating to the recoverability and classification of asset carrying amounts or the amount and classification of liabilities that might be necessary should the Company be unable to continue as a going concern.

-7-

NOTE 4 – ACCOUNTS RECEIVABLE FACTORING

On March 21, 2010, the Company established a \$200,000 factoring line with an asset-based lender, CapeFirst Funding, LLC (“Capefirst”) that is secured by accounts receivable that the Lender may accept and purchase from the Company. The agreement calls for Capefirst to advance up to 80% of the net face amount of each assigned account or up to 50% of eligible assigned purchase orders. The agreement calls for a maximum facility amount of \$200,000 with a purchase fee of 2% of the net face amount of each assigned account and a collection fee of 0.1% compounded daily. In the event of a dispute or in the event of fraud, misrepresentation, willful misconduct or negligence on the part of the Company, Capefirst may require the Company to immediately repurchase the assigned accounts at a purchase price that includes the amount of the assigned account plus the discount fee, interest and collection fee and may include a processing fee of 10%.

(i) \$21,000 Tangiers financing:

During the quarter ending March 31, 2013, Tangiers converted \$25,218 of principal and interest into 168,121,345 shares of the Company’s common stock.

(j) \$131,377 AGS financing:

During the quarter ending March 31, 2013, AGS converted \$2,635 of principal and interest into 75,000,000 shares of the Company’s common stock.

(k) \$20,000 Asher financing:

During the quarter ending March 31, 2013, Asher converted \$6,600 of principal and interest into 130,000,000 shares of the Company’s common stock.

(l) \$17,500 Asher financing:

During the quarter ending March 31, 2013, Asher converted \$5,000 of principal and interest into 100,000,000 shares of the Company’s common stock.

(m) \$27,500 Asher financing:

During the quarter ending March 31, 2013, Asher converted \$100 of principal and interest into 10,000,000 shares of the Company’s common stock extinguishing the debt.

During the three months ended March 31, 2013, conversions were as follows:

Financing or other contractual arrangement:	Principal converted	Shares Issued
Yorkville convertible note financing	\$ 25,715	196,137,255
Panache convertible note financing	12,607	162,490,000
Ratzker convertible note financing	9,125	125,000,000
Westmount convertible note financing	3,263	19,196,530

Edgar Filing: CoroWare, Inc, - Form 10-Q

Asher convertible note financing	15,700	242,222,222
Redwood convertible note financing	30,750	209,817,812
Magna convertible note financing	10,000	94,000,000
Tangiers convertible note financing	33,328	247,641,345
Ridge Point convertible note financing	22,425	405,000,000
MD Global	6,593	75,360,000

Several of the convertible notes are in default, however, the terms of the agreements allow conversion of the debt during periods of default. In computing the derivative liability associated with the conversion, one of the inputs is maturity of the instruments which, in this case, is technically in the past. Accordingly, management has estimated a debt maturity date of ten months from the period-end date for purposes of the derivative liability calculations. During the three months ended March 31, 2013 the Company realized a gain on the derivative valuation of \$741,568.

of directors.

-10-

e) Preferred Stock, Series E:

On March 9, 2012 the Board approved by unanimous written consent an amendment to the Corporation's Certificate of Incorporation to designate the rights and preferences of Series E Preferred Stock. There are 1,000,000 shares of Series E Preferred Stock authorized with a par value of \$0.001. Each share of Series E Preferred Stock has a stated value equal to \$1.00 and shall be entitled to receive dividends at the rate of 5% per annum on the stated value before dividends are declared on any other outstanding shares of stock of the Company. These preferred shares rank higher than the common shares and pari passu with all other classes of preferred stock. Each outstanding share of Series E Preferred Stock shall be convertible into the number of shares of the Corporation's common stock determined by dividing the Stated Value by the Conversion Price which is defined as \$0.0001. Mandatory conversion can be demanded by the Company prior to October 1, 2013. The holders of the Series E Preferred Stock shall have no voting power.

There were 50,000 Preferred, Series E shares issued as of March 31, 2013.

f) Increase in Authorized Shares:

On February 22, 2013, the Majority Stockholders authorized an increase in the number of authorized shares of common stock from three billion (3,000,000,000) shares of common stock to thirteen billion (13,000,000,000) shares of common stock. This change was effective March 25, 2013.

g) Reverse split:

On July 6, 2012, the Company effected a one-for-two hundred (1:200) reverse split of the Company's Common Stock. All common share amounts within this document have been adjusted to reflect this change.

NOTE7 – COMMITMENTS

The Company leases its principal operating facilities in Kirkland, Washington under a 5 year operating lease which runs through July 31, 2015 and provides for monthly payments of \$3,735 with a built in annual escalation clause increasing monthly rent by \$249 at each anniversary date.

Future non-cancelable minimum lease payments are as follows:

Years Ending December 31,

2013	\$ 52,041
2014	55,029
2015	33,117
	\$ 140,187

NOTE 8 – INVESTMENT IN JOINT VENTURE

On September 27, 2012, the Company partnered with a private investor to launch a joint venture – Aricon, LLC to develop and market mobile robot platforms, applications, and solutions for the construction industry.

The joint venture is currently comprised of CoroWare (51% ownership), who agreed to contribute 38,000,000 shares of restricted CoroWare common stock, (1) mobile robot for prototype development, \$10,000 cash, and mobile robotics development expertise; and Lucas Snyder (49% ownership), a private investor who agreed to contribute \$50,000 cash, construction industry expertise, and customer relationships. The Company received \$20,000 from the private investor during the three months ended March 31, 2013.

Through its combined expertise in construction and robotics, ARiCON intends to address the growing need for Computer Aided Production (CAP) solutions, with its initial focus on the development of robotic layout systems.

NOTE 9 – SUBSEQUENT EVENTS

Recent financings:

(a) \$14,000 Tangiers financing:

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

This report contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934. These statements relate to future events or our future financial performance. In some cases, you can identify forward-looking statements by terminology such as "may" "should," "expect," "plan," "anticipate," "believe," "estimate," "predict," "potential" or "continue," the negative of such terms, or other comparable terminology. These statements are only predictions. Actual events or results may differ materially from those in the forward-looking statements as a result of various important factors. Although we believe that the expectations reflected in the forward-looking statements are reasonable, they should not be regarded as a representation by CoroWare, Inc., or any other person, that such expectations will be achieved. The business and operations of CoroWare, Inc. are subject to substantial risks, which increase the uncertainty inherent in the forward-looking statements contained in this report.

BACKGROUND

CoroWare, Inc is a public holding company whose principal subsidiary, CoroWare Technologies, Inc. ("CTI"), has expertise in information technology consulting, mobile robotics, and affordable collaboration. Through our subsidiary, CoroWare delivers custom engineering services, hardware and software products, and subscription services that benefit customers in North America, Europe, Australia, Asia and the Middle East. Our customers span multiple industry sectors and comprise universities, large enterprises and small businesses, software and hardware product development companies, and non-profit organizations. The company also maintains a Near Shore practice which is comprised of multiple subcontracting companies with whom the company maintains close working relationships. Through these relationships, the Company is able to provide services in South America.

COROWARE TECHNOLOGIES, INC.

CTI is a software professional services company with a strong focus on Information Technology integration and robotics integration, business automation solutions, and unmanned systems solutions to its customers in North America and Europe.

CTI's expertise includes the deployment and integration of computing platforms and applications, as well as the development of unmanned vehicle software and solutions for customers in the research, commercial, and homeland security market segments. CTI shall continue to offer its high value software systems development and integration services that complement the growing trend in outsourced software development services in Asia, Latin America, and Eastern Europe.

CoroWare Technologies comprises three separately managed lines of business:

- CoroWare Business Solutions : IT and lab management; business intelligence; software architecture, design and development; content delivery; partner and program management.
- Robotics and Automation : Custom engineering such as visualization, simulation and software development; and mobile robot platforms.
- Enhanced Collaboration Solution : Collaboration and conferencing products, solutions and subscription services.

The Company's revenues are principally derived from standing contracts that include Microsoft (partner management and IT professional services), a European auto manufacturer (simulation software custom development), and other customers whose product development groups require custom software development and consulting companies. Existing contract revenues vary month by month based on the demands of the clients. The Company's collaboration effort is in the early stages of growth and will require additional working capital to compete effectively against new

entrants in this rapidly growing market.

RESULTS OF OPERATIONS

THREE MONTHS ENDED MARCH 31, 2013 COMPARED TO THREE MONTHS ENDED MARCH 31, 2012:

During the three-month period ended March 31, 2013 (the "2013 Period") revenues were \$318,588 compared to revenues of \$353,376 during the three-month period ended March 31, 2012 (the "2012 Period"). Our revenues were flat compared to the previous year as customers moderated spending on software development services for IT consulting and software development projects; continued to purchase CoroCall hosted services instead of videoconferencing infrastructure; and delayed capital expenditures until later in the calendar year.

Cost of revenues was \$198,628 for the 2013 Period compared to \$212,489 for the 2012 Period. Cost of revenues represents primarily labor and labor-related costs in addition to overhead costs. Gross profit on these 2013 revenues amounted to \$119,960 (38% gross profit percentage) compared to \$140,887 (40% gross profit percentage) for the 2012 Period. The increased gross profit percentage resulted from improving our efficiency of delivering products and services.

Research and development was \$13,235 (4% of gross revenues) for the 2013 Period compared to \$0 (0% of gross revenues) in the 2012 Period. The decreased research and development investment resulted from completing our software development and testing initiatives, including CoroCall Business Class HD Video Conferencing and CoroWare Billing Integration Framework.

Operating expenses were \$349,610 during the 2013 Period compared to \$229,109 during the 2012 Period. General and Administration expenses increased by 44% to \$234,180 in the 2013 Period compared to \$163,129 for the 2012 Period as the Company increased its payroll and travel costs in an effort to increase public awareness of its products. Sales and marketing expenses increased by 98% to \$97,958 in the 2013 Period compared to \$49,490 for the 2012 Period as the Company adjusted sales compensation plans to bring them in line with the Company's cost of sales objectives. Loss from operations was \$229,650 during the 2013 Period compared to \$88,222 in the 2012 Period.

Total other income was \$687,062 during the 2013 Period compared to other expense of \$432,280 in the 2012 Period. Other income is comprised primarily of derivative revaluation gain. Derivative valuation gain in the 2013 Period was \$741,568 compared to derivative expense of \$189,357 in the 2012 Period. Keeping the number of shares constant, the liability associated with the embedded conversion features increases as our share price and volatility increases and, likewise, decreases when our share price and share price volatility decreases. Derivative income (expense) displays the inverse relationship. The derivative expense in the 2012 Period is the result of consistent share price (\$.0001 at December 31, 2012 versus \$0.0001 at March 31, 2013) and a slight decrease share price which resulted in an insignificant change in the calculated Monte Carlo values. During the 2013 Period, the share price decreased (\$.0004 at December 31, 2012 versus \$0.0001 at March 31, 2013) with a slight increase in the volatility which resulted in an insignificant change in the calculated Monte Carlo values. The derivative expense in the 2013 Period is primarily due to expense recognized in connection with redemptions on various debentures during the quarter. Interest expense for the three month 2012 Period is \$54,506 compared to \$207,293 for the three month 2012 Period. The debt discount amortized using the effective interest method was \$100,794 during 2012 compared to \$5,542 during 2013. Under this method, the amount of amortization increases exponentially as the underlying carrying value of the amortized debt increases.

Net Income for the 2013 Period was \$470,045 compared to a net loss of \$520,502 for the 2012 Period.

Basic weighted average shares outstanding were 1,492,563,825 during the 2013 Period compared to 6,824,014 in the 2012 Period. There is no fully diluted calculation for the 2012 Period as the effect would be anti-dilutive.

LIQUIDITY AND CAPITAL RESOURCES

At March 31, 2013, we had current assets of \$280,327, current liabilities of \$86,461,984, negative working capital of (\$86,181,657) and an accumulated deficit of \$103,153,803. For the three months ending March 31, 2013, we had net cash flows used in operating activities of (\$371,868), net cash flows used in investing activities of \$-0- and net cash flows provided by financing activities of \$375,701.

We will need to obtain additional capital in order to expand operations and become profitable. In order to obtain capital, we may need to sell additional shares of our common stock or borrow funds from private lenders. There can be no assurance that we will be successful in obtaining additional funding. We will still need additional capital in order to continue operations until we are able to achieve positive operating cash flow. Additional capital is being sought, but we cannot guarantee that we will be able to obtain such investments. Financing transactions may include the issuance of equity or debt securities, obtaining credit facilities, or other financing mechanisms. If we do not obtain additional capital, we may cease operations.

However, even if we are able to raise the funds required, it is possible that we could incur unexpected costs and expenses, fail to collect significant amounts owed to us, or experience unexpected cash requirements that would force us to seek alternative financing. Furthermore, if we issue additional equity or debt securities, stockholders may experience additional dilution or the new equity securities may have rights, preferences or privileges senior to those of existing holders of our common stock. If additional financing is not available or is not available on acceptable terms, we will have to curtail our operations.

OFF-BALANCE SHEET ARRANGEMENTS

We do not have any off balance sheet arrangements that are reasonably likely to have a current or future effect on our financial condition, revenues, results of operations, liquidity or capital expenditures.

CONTRACTUAL OBLIGATIONS

The following table sets forth the contractual obligations of the Company as of December 31, 2012:

Contractual Obligations	Total	Payments due by Period			More than 5 years
		Less than 1 year	1-3 years	3-5 years	
Convertible debt, net	\$ 2,480,635	\$ 2,258,830	\$ 221,805	\$ -	\$ -
Notes payable	232,332	232,332	-	-	-
Notes payable, related parties	202,612	202,612	-	-	-
Long-term debt	980,450	980,450	-	-	-
Total	\$ 3,896,029	\$ 3,674,224	\$ 221,805	\$ -	\$ -

EFFECT OF RECENT ACCOUNTING PRONOUNCEMENTS

Refer to Form 10-K for the year ended December 31, 2012.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

As a smaller reporting company, as defined in Rule 12b-2 of the Securities Exchange Act of 1934, as amended (the "Exchange Act"), we are not required to provide the information required by this item.

ITEM 4. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

With the participation of Lloyd T. Spencer, who serves as the Chief Executive Officer (the principal executive officer) and Interim Chief Financial Officer (the principal financial officer); the Company's management has evaluated the effectiveness of the Company's disclosure controls and procedures (as defined in Rule 13a-15(e) under the Securities Exchange Act of 1934, as amended (the "Exchange Act")), as of the end of the quarterly period covered by this Quarterly Report on Form 10-Q. As of the end of the period covered by this Report, we conducted an evaluation, under the supervision and with the participation of our chief executive officer and interim chief financial officer, of our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934). Based on this evaluation, our chief executive officer and interim chief financial officer concluded that our disclosure controls and procedures are not effective to ensure that information required to be disclosed by us in reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in Securities and Exchange Commission rules and forms. The ineffectiveness of our disclosure controls and procedures is the result of certain deficiencies in internal controls constituting material weaknesses as discussed below.

The Company has historically had limited operating revenue and, as such, all accounting and financial reporting operations have been and are currently performed by a limited number of individuals. The parties that perform the accounting and financial reporting operations are the only parties with any significant knowledge of generally accepted accounting principles. Thus, we lack segregation of duties in the period-end financial reporting process. This lack of additional accounting/auditing staff with significant knowledge of generally accepted accounting principles in order to properly segregate duties could result in ineffective oversight and monitoring and the possibility of a misstatement within the consolidated financial statements. However, the material weaknesses identified did not result in the restatement of any previously reported financial statements or any other related financial disclosure, nor does management believe that it had any effect on the accuracy of the Company's consolidated financial statements for the current reporting period.

The Company is currently reviewing its policies and is evaluating its disclosure controls and procedures so that it will be able to determine the changes it can and should make to make such controls more effective.

Changes in Internal Controls over Financial Reporting

There were no changes in the Company's internal control over financial reporting during the Company's last fiscal quarter that have materially affected, or are likely to materially affect, the Company's internal control over financial reporting.
