Indicate by check mark whether the registrant by furnishing the information contained in this Form is also thereby furnishing the information to the Commission pursuant to Rule 12g3-2(b) under the Securities Exchange Act of 1934.

Yes No

Agreement with Repsol YPF Brasil S/A

(Rio de Janeiro, January 02, 2006). PETRÓLEO BRASILEIRO S/A - PETROBRAS, [Bovespa: PETR3/PETR4, NYSE: PBR/PBRA, Latibex: XPBR/XPBRA], a Brazilian international energy company, announced that it has signed a Reference Value Termination Agreement with REPSOL YPF BRASIL S/A (REPSOL YPF) in connection with the Asset Exchange Contract between PETROBRAS and REPSOL YPF.

On December 28, 2000, Petrobras and REPSOL YPF signed an Asset Exchange Contract (Contract), under which Petrobras, in exchange for shares in Eg3 in Argentina, assigned to Repsol YPF a 30% stake in Refineria Alberto Pasqualini (REFAP), the right to market fuels in approximately 230 of BR Distribuidora's gas stations and a 10% stake in the Albacora Leste oil field.

Clause 4 of the Contract established that over an 8 year period, starting January 1, 2001, the parties receiving in exchange the Eg3 and REFAP shares should review on an annual basis the Reference Values used for valuing the Eg3 Group and REFAP, adjusting such values in accordance with the provisions of the above mentioned clause in such a way that, at the end of the period, a final value should be determined for the Ag3 and REFAP shares, establishing the definitive value of both sets of assets and the corresponding payment to the party with net amounts to receive.

Under the Reference Value Termination Agreement signed on December 29, 2005, effective on January 1, 2006, the Companies agree to proceed to the early termination and settlement of the Reference Values. The present value of the final net amount owed by REPSOL YPF to PETROBRAS as the result of adjusting the Reference Values over the full 8 year period, including projections for the years 2006, 2007 and 2008, for Eg3/PESA and REFAP, amounts to US\$82 million, including interest at the rate of 8% p.a., as established in the Contract.

This amount is definitive and not subject to any review or validation by any of the parties involved and thus terminates the process of the adjustment and quantification of the Reference Values, as also provided for in the Termination Agreement, including the determination of all rights and obligations assumed by the same in this respect, no parties having any right to contest any of the other parties involved, judicially or extra-judicially, under any pretext whatsoever.

The data supplied by REFAP S.A. and by Petrobras Energia S.A. PESA, successor of Eg3, was obtained as specifically provided for in clause 4.1.6 of the Contract, in which provision was made for the parties, by mutual agreement, to shorten the 8 (eight) year period for the adjustment of the Reference Values, provided that the said term for terminating the period of adjustment of the Reference Values under no circumstances be less than 5 (five) years, or, in practical terms, January 1, 2006.

Petrobras further informs that during the period prior to the Reference Values Termination Agreement, that the parties involved had agreed, under the terms of the Contract, to opt to defer payment of adjustments to the Reference Values, remunerating amounts owed at the end of each year according to a rate of interest established in the Contract.

FORWARD-LOOKING STATEMENTS

This press release may contain forward-looking statements. These statements are statements that are not historical facts, and are based on management's current view and estimates of future economic circumstances, industry conditions, company performance and financial results. The words "anticipates", "believes", "estimates", "expects", "plans" and similar expressions, as they relate to the company, are intended to identify forward-looking statements. Statements regarding the declaration or payment of dividends, the implementation of principal operating and financing strategies and capital expenditure plans, the direction of future operations and the factors or trends affecting financial condition, liquidity or results of operations are examples of forward-looking statements. Such statements reflect the current views of management and are subject to a number of risks and uncertainties. There is no guarantee that the expected events, trends or results will actually occur. The statements are based on many assumptions and factors, including general economic and market conditions, industry conditions, and operating factors. Any changes in such assumptions or factors could cause actual results to differ materially from current expectations.
