**TELEMIG CELULAR PARTICIPAÇÕES S.A. RECORDS
THE HIGHEST NET INCOME OF ITS HISTORY**

- EBITDA of R\$431.2 million or 40.6% of net service revenues for the year
- Client base reached 3.3 million for the year
- Positive free cash flow of R\$199.8 million for the year
- Negative net debt of R\$450.1 million by year-end
- Market share in the Triângulo Mineiro region estimated at 12%

Brasília, Brazil, March 16, 2006 Telemig Celular Participações S.A. (BOVESPA: TMCP3 (Common)/TMCP4 (Preferred); NYSE: TMB), the holding company of the wireless telecommunications service provider in the State of Minas Gerais, today announced its fourth quarter and year-end 2005 results. The Company acquired 301,770 new customers in the quarter, increasing its client base to 3,344,184. EBITDA reached R\$102.2 million in 4Q05, representing 36.6% of net service revenues. For the year, EBITDA reached R\$431.2 million, representing 40.6% of net service revenues.

Operating Highlights:

Net additions of 301,770 customers in 4Q05

The Company's customer base reached 3,344,184 in the fourth quarter of 2005, representing a 20% increase when compared to the same period of last year. Net additions amounted to 301,770 for the quarter and 566,902 year-over-year.

In 4Q05, prepaid net additions were 245,289, bringing the total prepaid base to 2,487,662 or 74% of the total base. The postpaid base increased by 56,481 subscribers, ending the quarter with 856,522 subscribers or 26% of the total base.

CLIENT BASE (000s)

Churn rate

In the fourth quarter of the year, blended annualized churn rate decreased to 29% from the 38% registered in the previous quarter as a result of lower churn rates in both postpaid and prepaid segments. When compared to the previous quarter, the annualized churn rate for the prepaid segment decreased to 32% from the 44% registered in the 3Q05. During the 3Q05 prepaid churn rate was high as a consequence of the credit profile of clients acquired during Christmas sales of 2004 and, in 4Q05, prepaid churn rates returned to normal levels. The postpaid segment, which accounts for most of the revenues generated, is the segment where we focus most of our retention efforts. The success of the Company's retention program can be seen as the postpaid churn rate decreased to 18% when compared to the 22% registered in the previous quarter. Despite the increasingly competitive environment, this was the eleventh consecutive quarter with a postpaid churn rate equal or below 25%.

CHURN RATE (annualized)

Operating revenues

Net service revenues totaled R\$279.1 million in the quarter, an increase of R\$3.6 million or 1.3% over the previous quarter, primarily resulting from the 5.3% increase in total traffic (2.9% increase in incoming traffic and 7.9% increase in outgoing traffic). For 2005, net service revenues reached R\$1,061.5 million in line with the previous year.

It is worth noting that service revenues recorded in 2005 is not directly comparable to that posted in 2004 since part of 2004 revenues had not been impacted by the changes related to the migration to Personal Mobile Service (SMP) occurred in August 2004. After these new rules took effect, the Company started offering the Provider Selection Code (CSP) and, therefore, customers started using CSP in national (VC2 and VC3) international long-distance calls from mobiles phones. Therefore, the Company stopped receiving VC2 and VC3 revenues and started receiving interconnection revenues for the use of its network in these calls. Additionally, the Company adopted the bill & keep rules that establish that SMP Companies' network remuneration for traffic within the same registration area will only be paid when the traffic balance is lower than 45% or exceeds 55%, which generated a significant decrease in interconnection revenues.

Net equipment revenues in the quarter totaled R\$25.0 million, an increase of 36.2% when compared to the R\$18.4 million registered in 3Q05. This increase was already expected due to stronger sales associated with seasonal factors during the fourth quarter. For the year, net equipment revenues reached R\$87.5 million, a reduction of 6.5% when compared to the previous year, related to the launch of the GSM/EDGE network in 2004.

As a result, total net revenues amounted to R\$304.0 million in the quarter, 3.5% higher when compared to the previous quarter. Year-to-date, total net revenues reached R\$1,148.9 million, slightly lower than the R\$1,154.0 million registered in 2004.

Data revenues, as a percentage of net service revenues, reached 6.7% for the quarter and 5.9% for the year.

In the fourth quarter of the year, handset subsidies for client acquisitions were R\$17.2 million or R\$32.8 per gross addition, compared to R\$9.1 million or R\$25.5 per gross addition registered in the 3Q05. This increase was already expected due to higher sales during Christmas sales.

Operating costs and expenses

Cost of services in the fourth quarter of 2005 totaled R\$72.7 million, 25.4% higher when compared to the previous quarter. This difference is mainly due to higher interconnection costs and higher Fistel costs related to Christmas sales. For the year, cost of services reached R\$260.9 million, 10.8% lower when compared to the previous year. Such decrease is mostly related to the Bill & Keep introduction and to reduced cloned calls.

Selling and marketing expenses in 4Q05 reached R\$77.5 million, an increase of 27.4% over the previous quarter. This increase can be explained by higher marketing and advertising expenses related to the more aggressive acquisition campaigns during the Christmas season. In 2005, selling and marketing expenses totaled R\$245.1 million, higher than the R\$174.3 million reported 2004. This increase is primarily due to higher advertising and promotion expenses related to the launch of operations at the Triângulo Mineiro region, to greater retention efforts and to more aggressive customer acquisition campaign.

Customer acquisition cost in the fourth quarter of 2005 increased to R\$147 from the R\$141 registered in 3Q05. For the year, customer acquisition cost reached R\$145 as compared to the R\$118 registered in the previous year. Retention costs, as a percentage of net service revenues, increased to 15.7% in 4Q05, compared to 12.0% registered in 3Q05. For the year, retention costs, as a percentage of net service revenues, reached 13.3% .

G&A reached R\$3.0 million in 4Q05, representing a significant decrease when compared to the positive R\$18.7 million registered in the previous quarter. This reduction is related to the following non-recurrent events: a) positive effect related to the recognition of PIS and COFINS recoverable credit, amounting to R\$ 37.9 million, resulting from the success in the lawsuit questioning the constitutionality of the increase in these taxes calculation base; and, b) negative effect of a provision related to value added tax (VAT ICMS) in the amount of R\$14.8 million. For the year, G&A reached R\$52.1 million below the R\$64.8 million registered in the previous year. For the coming quarters G&A is expected to remain in the range of 6% to 8% of net services revenues.

Bad debt as a percentage of net service revenues increased to 2.3% when compared to the 1.8% registered in the previous quarter. When calculated against total net revenues, bad debt reached 2.1% as compared to the 1.7% registered in the 3Q05. For the year, bad debt remained under control reaching 2.0% as a percentage of net service revenues and 1.8% as a percentage of total net revenues.

BAD DEBT

Average revenue per user (ARPU)

Postpaid MOU (minutes of use) in 4Q05 totaled 194, higher than the 191 registered in the previous quarter. For the year, postpaid MOU reached 191, below the 201 registered in the previous year. Postpaid ARPU (average revenue per user) reached to R\$70.2 in 4Q05 compared to the R\$69.5 registered in the previous quarter. For the year, postpaid ARPU reached R\$68.3, below the R\$78.6 registered in 2004, as consequence of the implementation of the SMP rules in 2004.

In the fourth quarter of the year, prepaid MOU remained fairly stable when compared to the previous quarter, reaching 31 minutes. For the year, prepaid MOU reached 32 minutes. Prepaid ARPU totaled R\$11.4 in 4Q05, in line with the R\$11.7 registered in 3Q05. For the year, prepaid ARPU reached R\$11.9.

As a result, blended ARPU reached R\$26.7 for the quarter in line with the previous quarter. For the year, blended ARPU decreased to R\$26.8 from the R\$33.6 registered in 2004.

ARPU (R\$)

Market share estimated at 38% in the quarter

Total market share was estimated at 38% in the fourth quarter of the year. Excluding *Triângulo Mineiro* region, market share was estimated at 41% compared to 42% registered in the previous quarter. For the *Triângulo Mineiro* region, market share was estimated at 12%, higher than the 8% registered in the previous quarter.

Total gross sales share for 4Q05 was estimated at 34%. Excluding *Triângulo Mineiro* region, gross sale share was estimated at 34% compared to the 35% registered in the 3Q05. For the *Triângulo Mineiro* region, gross sale share was estimated at 35%.

EBITDA margin of 40.6% of net service revenues in the year

EBITDA and EBITDA margin (excluding handsets revenues) in the fourth quarter of 2005 reached R\$102.2 million and 36.6%, respectively, compared to R\$123.7 million and 44.9% registered in the previous quarter. For the year, EBITDA and EBITDA margin reached R\$431.2 million and 40.6%, respectively.

EBITDA (R\$ million)**Depreciation and amortization**

In 4Q05, depreciation and amortization expenses reached R\$51.9 million, slightly below the R\$52.7 million reported in the previous quarter. For the year depreciation and amortization expenses reached R\$224.9 million below the R\$270.3 million registered in the previous year. This decrease is mainly explained by the total obsolescence of part of the Company's TDMA network.

Net financial income of R\$6.6 million

	R\$ million	
	3Q05	4Q05
Interest Expense ^(a)	(27.2)	(14.6)
Interest Income ^(b)	34.9	34.9
Foreign Exchange Gain (Loss) ^(c)	17.5	(13.7)
Net Financial Income (Expense)	25.2	6.6

Note: a) **Interest expense**: includes financial expenses related to debt, losses on hedging operations (if any), taxes on gains resulting from hedging operations and own capital interest revenues (if any); b) **Interest income**: includes results of cash investing activities and gains on hedging operations (if any); and, c) **Foreign exchange gain (loss)**: almost exclusively reflects currency devaluation changes on debt principal and interest payable.

Interest income cash investing activities	32.6	32.7
Net Financial Income (Expense)	25.2	6.6

* Net of PIS/COFINS.

** Net financial expense not related to debt is primarily associated with taxes such as CPMF, PIS, COFINS and IOF

Net income of R\$174.1 million in the year

Net income in 4Q05 totaled R\$39.9 million, or R\$2.256 per ADS (R\$0.113 per thousand shares). For the year, net income reached R\$174.1 million, or R\$9.839 per ADS (R\$0.492 per thousand shares), the highest net income of the Company's history.

Total debt of R\$236.2 million

As of December 31, 2005, total debt was R\$236.2 million, 100% of which was denominated in foreign currencies (99.3% denominated in U.S. Dollars and 0.7% denominated in a currency basket index from BNDES). Of the total debt denominated in foreign currencies, 100% was hedged.

Negative net debt of R\$450.1 million for the year

As of December 31, 2005, the Company's indebtedness was offset by cash and cash equivalents (R\$706.3 million) but was impacted by accounts payable from hedging operations (R\$20.0 million), resulting in a negative net debt of R\$450.1 million.

NET DEBT (R\$ million)

Investments totaled R\$125.1 million for the quarter

During the fourth quarter of 2005, Telemig Celular's capital expenditures were R\$125.1 million. For the year investments totaled R\$276.7 million. The breakdown of such investments is as follows:

CAPEX breakdown

CAPEX (R\$ million)	4Q04	1Q05	2Q05	3Q05	4Q05	2005

(1) Last twelve months.

Outlook

Telemig Celular expects mobile penetration within the Company's area to reach 47% by the next quarter. For the first quarter of 2006, Telemig Celular expects to maintain gross sales share at approximately 25-30%. Net additions are expected to come primarily from prepaid subscribers. ARPU's for both postpaid and prepaid subscribers are expected to slightly decrease as a consequence of seasonal factors. Total capital expenditures for the year are expected to reach approximately R\$330-350 million.

GLOSSARY OF KEY INDICATORS

I) Average Subscribers

a) Average subscribers monthly

$$\frac{\text{Sum of subscribers at the beginning and the end of the month}}{2}$$

b) Average subscribers quarterly and year to date

$$\frac{\text{Sum of the average subscribers for each month of the period}}{\text{Number of months in the period}}$$

II) Churn Rate (Annualized)

a) Churn % quarterly

$$\frac{\text{Sum of deactivations} / \text{Sum of average monthly opening subscribers for the 3 months} \times 12}{3}$$

b) Churn % - year to date

$$\frac{\text{YTD deactivations} / \text{Sum of avg monthly opening subscribers since beginning of the year} \times 12}{\text{Number of months in the period}}$$

III) MOU Minutes of Use (Monthly)

$$\frac{\text{Number of total billable minutes for the period} / \text{Average subscribers for the period}}{\text{Number of months in the periods}}$$

IV) ARPU Average Revenue per User

$$\frac{\text{Net service revenues for the period (excluding roaming-in revenues)}}{\text{Average subscribers for the period}}$$

V) Customer Acquisition Cost

(Sum of Marketing salaries, Selling salaries, Consulting (Sales and Marketing), Commissions, Handsets subsidies, Advertising and promotions, FISTEL tax (activation tax), less Activation fee for the period)
 Number of gross activations in the period

VI) Free Cash Flow

Free Cash Flow = (EBITDA - CAPEX - Taxes - Net Financial Expenses* - Minority Interests - Working Capital Variation)

* Considers interest paid.

VII) Working Capital Variation

Working Capital Variation = (Δ Current Assets - Δ Cash & Cash Equivalents)
 (Δ Current Liabilities - Δ Short Term Loans and Financing - Δ Loan Interest - Δ Dividends)

VIII) Interest Coverage Ratio

Interest Coverage Ratio = EBITDA / Interest Paid

IX) Current Liquidity Ratio

Current Liquidity Ratio = Current Assets / Current Liabilities

X) EBITDA

EBITDA = Operational Revenues - Operational Costs - Operational Expenses* - Bad Debt

* Does not include profit sharing.
