Yes No

Adjustment in Gasoline and Diesel Prices

(Rio de Janeiro, April 30, 2008). PETRÓLEO BRASILEIRO S/A - PETROBRAS, [Bovespa: PETR3/PETR4, NYSE: PBR/PBRA, Latibex: XPBR/XPBRA, BCBA: APBR/APBRA], a Brazilian international energy company, is adjusting the price of the below-listed products at the refineries, as of midnight of May 2nd according to the following table:

Adjustment in realization price:	without CIDE, PIS/Cofins and ICMS
Gasoline	10 %
Diesel	15 %

The prices of gasoline and diesel which the adjustment applies do not include federal taxes (CIDE, PIS/Cofins) and state taxes (ICMS).

These price adjustments were calculated by the Company taking into account the new levels of international oil price. They incorporate medium and long-term perspectives and are in accordance with the specifications defined in the Strategic Plan to maintain the price of oil products linked to the international market.

It is with the income received from the sale of our products that Petrobras is able to achieve its investment program, consequently discovering more oil and gas, constructing and operating industrial plants and developing transportation and logistics network that guarantees the domestic supply of oil products and the returns for its stockholders.

FORWARD-LOOKING STATEMENTS

This press release may contain forward-looking statements. These statements are statements that are not historical facts, and are based on management's current view and estimates of future economic circumstances, industry conditions, company performance and financial results. The words "anticipates", "believes", "estimates", "expects", "plans" and similar expressions, as they relate to the company, are intended to identify forward-looking statements. Statements regarding the declaration or payment of dividends, the implementation of principal operating and financing strategies and capital expenditure plans, the direction of future operations and the factors or trends affecting financial condition, liquidity or results of operations are examples of forward-looking statements. Such statements reflect the current views of management and are subject to a number of risks and uncertainties. There is no guarantee that the expected events, trends or results will actually occur. The statements are based on many assumptions and factors, including general economic and market conditions, industry conditions, and operating factors. Any changes in such assumptions or factors could cause actual results to differ materially from current expectations.
