Material Fact

Banco Bradesco S.A. informs the Market, its shareholders and clients that the Company's Board of Directors, in a meeting held on February 17th, 2009, decided to submit to the appreciation of a Special Stockholders Meeting, to be held on March 10th, 2009, at 4:30 p.m., among others, the following proposal:

To submit to reverse split the common and preferred shares at the ratio of 50 (fifty) to 1 (one), with the simultaneous stock split of each share submitted to reverse split at the ratio of 1 (one) to 50 (fifty), pursuant to the respective types.

Considering:

that, within the shareholding structure, there is a large number of shareholders with interest lower than 50 shares, considering that most of these shareholders are under the condition of inactive, generating a significant volume of services and operating costs to the Company; and

the provisions in Article 12 of Law # 6,404/76 and CVM Rules # 323 and # 358, of January 19, 2000 and January 3rd, 2002, respectively, the Board of Directors

understood as proper to submit to examination and approval of the shareholders a **reverse split** proposal of common and preferred shares at the ration of 50 (fifty) to 1 (one), with the purpose of adjusting the shareholding structure, with the consequent decrease in operating controls/costs to the Company and its shareholders, providing greater efficiency to the operational system of book-entry shares and disclosure of information to shareholders.

However, if this was the operation's final step, Bradesco's common and preferred shares would have the unit quotation price increased proportionally to the reverse split, i.e., by 50 times. Thus, aiming to keep the share quotation value in the market at an attractive level for trading, providing better liquidity to shares in the domestic market and to DRs - Depositary Receipts in the international market, to promote, subsequently, the **stock split** of each share at the ratio of 1 (one) to 50 (fifty).

The intended operation - reverse stock split at the ratio of 50 (fifty) to 1 (one), with the simultaneous stock split at the ratio of 1 (one) to 50 (fifty) - will be equally reflected on the U.S. and Spanish markets, with ADRs, and with GDRs, respectively.

Thus we propose:

Reverse split of common and preferred shares, followed by stock split, as follows:

Reverse Stock Split

To submit to reverse split 3,069,869,800 (three billion, sixty-nine million, eight hundred and sixty-nine thousand, eight hundred) non-par registered book-entry shares, representing the Capital Stock.

../.

I. Purpose

To adjust the shareholding structure, with the consequent decrease in operating controls/costs to the Company and its shareholders, providing greater efficiency to the operational system of book-entry shares and disclosure of information to shareholders;

II. Reverse Split Ratio

At the ratio of 50 (fifty) shares to 1 (one) share of the respective type, changing 3,069,869,800 (three billion, sixty-nine million, eight hundred and sixty-nine thousand, eight hundred) non-par registered book-entry shares, representing the Capital Stock, into 61,397,396 (sixty-one million, three hundred and ninety-seven thousand, three hundred and ninety-six) non-par registered book-entry shares.

III. Term for a Possible Adjustment to the Positions by Shareholders

After the operation ratification by the Brazilian Central Bank, the Company will publish a **Material Fact**, establishing a term of not less than 60 days, as of its publication, so that common or preferred shareholders in a number not multiple of 50 can, at their free and exclusive discretion, round their positions either in the Bradesco Depositary Institution or in each Brokerage Firm in which they have shares under Custody, accordingly.

The shareholders that want to complement their positions to a multiple of 50 shares, immediately higher, by type, may do it by means of trading on BM&FBOVESPA S.A. Securities, Commodities and Futures Exchange, through the Brokerage Firm of their free choice.

In the event of a possible lack of liquidity in the market for acquisition of shares for position rounding, and if of their interest, shareholders may trade with the Company's Controlling Shareholders (in this case, the shareholder shall go to a Bradesco Branch).

For that, the Company and the Controlling Shareholders, exclusively for this operation, undertake to:

The Company

a) exempt shareholders who wish to complement the multiple of 50 shares, immediately higher, by type, from the brokerage fee and other fees, exclusively for purchases carried out by means of Bradesco S.A. Corretora de Títulos e Valores Mobiliários and Ágora Corretora de Títulos e Valores Mobiliários S.A., Bradesco Organization's companies; and

b) open a specific credit line.

Controlling Shareholders:

In the event of a possible lack of liquidity in the market for acquisition of shares, and, if shareholders are interested in selling, at market prices, the number of shares needed to the rounding of their share positions to a multiple of 50 shares, immediately higher, by type (in this case, the shareholder shall go to a Bradesco Branch).

Stock Split

To submit to split 61,397,396 (sixty-one million, three hundred and ninety-seven thousand, three hundred and ninety-six) non-par registered book-entry shares, resulting from the reverse split mentioned in the previous item.

I) Purpose

To keep the share quotation value in the market at an attractive level for trading, providing better liquidity to the shares in the domestic market and to DRs - Depositary Receipts in the foreign market.

II) Stock Split Proportion

At the ratio of 1 (one) share to 50 (fifty) shares, operation in which shareholders will have their share positions added by 4,900%, receiving 49 (forty-nine) shares for each share of the same type held on the date of the reverse split operation, changing 61,397,396 (sixty-one million, three hundred and ninety-seven thousand, three hundred and ninety-six) non-par registered book-entry shares into 3,069,869,800 (three billion, sixty-nine million, eight hundred and sixty-nine thousand, eight hundred) non-par registered book-entry shares.

The stock split, in the aforementioned ratio, shall be implemented at least 60 days after the publication of the aforementioned Material Fact , i.e., on the same day of the reverse split (simultaneously).

Additional Procedures Fractions of Shares

After the term set forth for the adjustment by shareholders, the possible fractions of shares will be separated, grouped in whole numbers and sold in an Auction to be held on BM&FBOVESPA S.A. - Securities, Commodities and Futures Exchange, and the respective amounts shall be at the disposal of shareholders entitled to them.

For the holders of rights, the Company shall:

- a) assign credit for those who are in its records as checking account holders in a Financial Institution;
- b) pay BM&FBOVESPA S.A. Securities, Commodities and Futures Exchange, which will transfer the respective amounts to the holders of rights registered in its records, by means of its Custody Agents.

Those who do not hold a checking account in a Financial Institution, but have their data in Bradesco's registrations updated, will be notified and shall go to a Bradesco branch of their choice, with their identity card, to receive the amount they are entitled to.

For unidentified or not located shareholders, the respective amounts will be at their disposal at the Company, and, when required, will be paid restated by the SELIC rate or other index that replaces it.

 Holders of Depositary Receipts (DRs), Traded in the United States and Spain

Simultaneously to the operation in the Brazilian Market, also in compliance with the term set forth for adjustment to positions, the following will be processed in the Foreign Market:

- a) US Market (NYSE) - ADRs and European Market (Latibex) - GDRs: they will be submitted to reverse split and stock split at the same ratio;
- b) the resulting fractions, similarly to the operations in Brazil, shall be separated, grouped in whole numbers and sold on the respective Stock Exchanges, and the amounts will be credited to the holders of fractions;
- c) after the operation, DRs - Depositary Receipts shall continue to be traded at the ratio of one (1) share to one (1) DR, in the aforementioned Markets.

Considering that the reverse split and the stock split shall be processed in the same proportion, this operation, if approved by the Shareholders Meeting and by the proper Regulatory Bodies, shall not change:

a) the number of shares comprising the Capital Stock and, consequently, the caput of Article 6 of Banco Bradesco S.A.'s Bylaws; and

b) the amount of Monthly Dividends of R\$0.013219250 per common shares and R\$0.014541175 per preferred share.
