NOTICE TO THE MARKET

São Paulo, Brazil, May 13, 2011 - Braskem is re-submitting today, according to the International Financial Reporting Standards (IFRS), its Interim Financial Reports (ITR) for the year 2010 - first quarter (1Q10), second quarter (2Q10) and third quarter (3Q10), following the Brazilian Securities and Exchange Commission (CVM) ruling. Due to adjustments made for these quarters, 3Q10 and 4Q10 Net Revenue and Cost of Goods Sold (COGS) figures were changed, mostly related to freights reallocation, previously considered as a reducer of net revenue and now considered as COGS. In order to reflect such changes, we are re-submitting our 4Q10 earnings release (with no change to annual figures) and, also, our 1Q11 earnings release, as comparison in this report are made against the 4Q10.

We apologize for any inconvenience this event may cause.

FORWARD-LOOKING STATEMENTS

This press release may contain forward-looking statements. These statements are statements that are not historical facts, and are based on management's current view and estimates of future economic circumstances, industry conditions, company performance and financial results. The words "anticipates", "believes", "estimates", "expects", "plans" and similar expressions, as they relate to the company, are intended to identify forward-looking statements. Statements regarding the declaration or payment of dividends, the implementation of principal operating and financing strategies and capital expenditure plans, the direction of future operations and the factors or trends affecting financial condition, liquidity or results of operations are examples of forward-looking statements. Such statements reflect the current views of management and are subject to a number of risks and uncertainties. There is no guarantee that the expected events, trends or results will actually occur. The statements are based on many assumptions and factors, including general economic and market conditions, industry conditions, and operating factors. Any changes in such assumptions or factors could cause actual results to differ materially from current expectations.
