§ **Adjusted EBITDA margin:** 5.5%-5.6% at Multivarejo and 5.8%-5.9% at Assaí;

§ **Financial Result:** around 1% of net sales;

§ **LATAM synergies:** should surpass US\$85 million in savings for the Brazil perimeter.

*"We closed the second quarter of the year with great prospects for the GPA business. Driven by the assertiveness of the new promotional dynamics and adjustments made in the operation of the Multivarejo business, we registered a significant acceleration of the sales level, with gains in market share and improved profitability in all brands. This result reaffirms a new trend of revenue for the business. Assaí continues to deliver consistent sales growth, with market share evolution, coupled with a solid result."*

## OPERATING PERFORMANCE BY BUSINESS

### Tax Credits

#### 2Q18

**Multivarejo** sold a portion of the tax credits related to the exclusion of ICMS from the PIS / COFINS calculation bases. The gain from this sale amounted to approximately R\$ 50 million (R\$ 45 million net of tax). The amount was recognized as deduction from net revenue.

In the quarter, **Assaí** reversed R\$369 million of a provision accrued in 2Q17 related to ICMS ST credits for periods prior to the Supreme Court (STF) decision. The changes in the monetization prospects motivated by the new legislation made it possible to justify this reversal of the provision. The amount was recognized as a deduction from cost of good sold.

#### 2Q17

In the second quarter of last year there was recognition of non-recurring tax credits in **Multivarejo** related to the restitution of ICMS ST (Tax Substitution). The amount of R\$ 447 million was recognized as a deduction from cost of good sold.

### Multivarejo

**Gross sales revenue of R\$7.0 billion**, with solid **same-store sales growth excluding the calendar effect of 5.3%**. Multivarejo captured 100 bps in market share in the quarter (source: Nielsen), led by the banners Extra Hiper and Pão de Açúcar. The expansion of commercial actions and more-successful promotional campaigns drove the strong growth at Multivarejo, with sales volumes recovering and accelerating across all banners.

**Gross profit excluding tax credits** amounted to R\$1,816 million, with gross margin of **28.1%**. The success of these actions combined with the increased customization of offerings (My Discount) enabled the segment to maintain gross margin at similar levels to 2Q17, despite more promotional activations in the period.

**Selling, general and administrative expenses** amounted to R\$1,489 million, **reduction of 2.7% from 2Q17**. As a ratio of net revenue, these expenses **decreased 80 bps** (23.1%) compared to 2Q17. This improvement was due to the closing of hypermarket stores and ongoing initiatives to capture efficiency gains to mitigate the effects from inflation, led by productivity gains in stores.

**Adjusted EBITDA excluding tax credits** amounted to R\$358 million, **improving 18.6% from 2Q17**, as result of the significant evolution of sales and greater operational efficiency. **Margin reached 5.6%, improving 90 bps.**

## Assaí

**Gross margin came to R\$5.7 billion**, representing robust growth of 22.8%. This growth translated into a market share gain of around 200 bps in the quarter (source: Nielsen). **Same-store net sales ex-calendar grew 4.7% (2.5% ex-conversions).**

**Gross profit excluding tax credits came to R\$868 million**, with gross margin of **16.4%**. Despite the negative effect from food deflation in the quarter of around -2.8%, the gross margin expansion of 50 bps was mainly due to the successful expansion over the past two years:

- 17 organic stores with accelerated maturation, reflecting a well-defined business model and market demand;
- Positive impact from store conversions, resulting in more attractive stores that better meet the needs of target market.

Regarding the new tax framework for ICMS-ST, it is important to note that 2Q17 and 2Q18 are on a comparable basis.

**Selling, general and administrative expenses** corresponded to 10.4% of net revenue, in line with 2Q17, reflecting the maturation of stores, despite the increase in expenses due to stronger individual customer and the higher number of stores.

**Adjusted EBITDA excluding tax credits** amounted to R\$321 million, with margin **expanding 50 bps to 6.1%**.

## FINANCIAL PERFORMANCE

### Other Income and Expenses

Other Operating Income and Expenses came to R\$90 million and were mainly related to:

- Expenses associated with store closures/conversions (Extra Hiper into Assaí and Extra Super into Compre Bem), in the amount of R\$46 million;
- Expenses with the integration and restructuring of Multivarejo, in the amount of R\$43 million.

### Financial result

The Company's financial result amounted to R\$148 million, or 1.3% of net sales, improving 50 bps from 2Q17. The main variations were as follows:

§ Decrease in **debt cost**: in line with the decline in the CDI interest rate, from 10.9% in 2Q17 to 6.4% in 2Q18;

§ Increase in the **cost of selling receivables**: despite the lower interest rate there was an increase in the volume anticipated due to the growth of sales and greater participation of non-food;

§ Variations in **contingencies and other expenses:** corresponded to 0.4% of net revenue, in line with 1Q18.

## Net Income

**In the Food segment, the profit of the controlling shareholders of continuing operations** totaled R\$ 462 million, 2.4 times higher than 2Q17. Excluding tax credits reached R\$ 185 million, reversing the loss of the same period of the previous year.

**Consolidated net income of controlling shareholders of continuing operations** reached R\$ 431 million, 2.7 times higher than 2Q17. Excluding tax credits totaled R\$ 153 million, reversing the loss in 2Q17.

## Earnings per Share

Diluted earnings per common share was R\$ 1.68439 and earnings per preferred share was R\$ 1.84454 in the quarter.

## Net Debt

Net debt, adjusted for the balance of unsold receivables, stood at R\$2,711 million. The Company maintained its low financial leverage, with the ratio of net debt to EBITDA falling from -1.16x in June 2017 to -1.03x in June 2018.

The Company's cash balance stood at R\$3,054 million and R\$88 million in unsold receivables, representing R\$3,143 million in cash and equivalents. The Company also has around R\$1.3 billion in pre-approved/confirmed credit facilities.

## Contingencies

Following the trend of the last quarters, there was a reduction of R\$ 340 million in the quarter in total of possible and probable contingencies. This decrease is the result of favorable decisions regarding tax contingencies and a reduction in the volume of labor lawsuits.

## Capital Expenditure

CAPEX in the Food segment came to R\$ 330 million, 15.1% higher than in 2Q17, mainly due to the following:

- Expansion of Assaí: 3 Assaí stores were opened, one of which was converted from an Extra Hiper. Around 20 stores are slated to open this year, including new and converted ones.
- Renovation of Pão de Açúcar stores: 6 stores were renovated in the quarter under the Generation 7 concept, as part of the plan to renovate around 20 stores in 2018. Furthermore, 30 stores will be included in the Premium Project to offer customers a high-end experience with higher quality perishables and customer service and a unique assortment.

The Company also announced two pilot projects for the Extra Super banner to increase penetration in its target public:

- **Compre Bem:** The pilot project involves the conversion of 20 stores in order to enter a market niche currently dominated by regional supermarkets. The store model will be better adapted to the needs of consumers in the regions where the stores are located. The service and assortment of the perishables category will be strengthened, while other categories will have a leaner assortment. Compre Bem will be managed independent of the Extra Super banner, with the focus on simplifying operating costs, especially logistics and IT.
- **Mercado Extra:** pilot project at 10 stores, with 4 stores already opened in 2T18. The goal is to reinvigorate Extra Super by reinforcing the quality of perishables and customer service, with the focus on the B and C income groups. There will be no change in the operating model of the stores, which will continue to be managed by the Extra banner.

**Growth and changes:** The growth and changes presented in this document refer to variations from the same period last year, except where stated otherwise.
