Thomas Ganswindt leaves Siemens

Thomas Ganswindt (46), member of the Siemens Corporate Executive Committee, will leave the company at his own request on September 30, 2006. Looking for new challenges, Ganswindt will serve as President and CEO of the Elster Group, Luxembourg. Elster, formerly Ruhrgas Industries, is a leading supplier of metering solutions.

Thomas Ganswindt began his career at Siemens early in 1989 at the Numerical Controllers Division in the Automation Group. He subsequently held various management positions at Transportation Systems (TS), including serving as head of the signaling and control systems business for main line and mass transit. In this function, Ganswindt was a major force behind the innovative concepts that have helped make Siemens a global leader in the field of signaling and control systems. As a member of the TS Group Executive Management, he played a decisive role in the Group's turnaround. Later, as President of the Information and Communication Networks Group (ICN) the former fixed network business of Siemens he systematically implemented restructuring measures necessitated by industry conditions, and prepared the business for the technology shift toward converging networks and products. Ganswindt was appointed to the Managing Board of Siemens AG in December 2002 and to the Corporate Executive Committee in October 2004, where he had special responsibility for the Information and Communications (I&C) business area. A new course had to be set as part of the strategic reorientation of I&C, and most of the associated measures have already been carried out or initiated.

About Elster Group

Elster Group (formerly Ruhrgas Industries), is the world's leading manufacturer and supplier of high quality integrated metering solutions to the gas, electricity and water industries. The group has over 9,000 staff and operations in 37 countries, focused in North and South America, Europe and Asia. Elster's high quality products and systems reflect the wealth of knowledge and experience gained from over 170 years of dedication measuring precious resources and energy. The Elster Group is headquartered in Luxembourg.

About Siemens

Siemens (Berlin and Munich) is a global powerhouse in electrical engineering and electronics. The company has around 461,000 employees working to develop and manufacture products, design and install complex systems and projects, and tailor a wide range of services for individual requirements. Siemens provides innovative technologies and comprehensive know-how to benefit customers in 190 countries. Founded more than 155 years ago, the company focuses on the areas of Information and Communications, Automation and Control, Power, Transportation, Medical, and Lighting. In fiscal 2005 (ended September 30), Siemens had sales from continuing operations of EUR 75.4 billion and income from continuing operations of EUR 3.058 billion.
