Houston, Texas

WILCOX 14
Corporate Profile

**Includes cured non-consent properties. Reserve information based on 12/31/05.*

Corporate Profile (as of 12/31/05)

Ø

Established as separate entity July 2005.

Ø

Total employee count: 111

Ø

Principal Offices: Houston, Texas

Denver, Colorado

Ø

Field Offices: Rio Vista, California

Laredo, Texas

Ø

Net producing wells: 487

Ø

Proved Reserves*: 379 Bcfe

Ø

Historical drilling success: >80%

Ø

Significant proved, probable and other development drilling
location inventory of just under 600.

Corporate Profile (*continued*)

Ø

Issued 50 MM common shares July 2005 under Section 144A.

Ø

Initial financing included borrowings of \$325 MM.

Ø

Became publicly traded entity in February 2006.

Ø

Stock trades on NASDAQ under symbol "ROSE".

Ø

First Quarter 2006 production of 85.4 MMcfe/day, up 17% from Second Half 2005

Ø

Cumulative earnings of \$27 MM through First Quarter 2006.

Ø

Book capitalization at March 31, 2006

Debt \$240 MM

Equity 757

Total \$997 MM

Key Elements of Strategy

The following are key elements of our strategy:

Ø

Further development of the significant remaining upside potential of our properties.

Ø

Exploration growth focus in the niche areas in which we have technological and operational advantages.

Ø

Target opportunities where we believe our reservoir management and operational expertise will enhance the value and performance of acquired properties.

Ø

Maintain the technological expertise that helped us to achieve a historical drilling success rate of over 80%.

Ø

Strive to minimize our operating costs by concentrating our assets within specific geographic areas.

Ø

Actively manage our exposure to commodity price risk in the marketing of our oil and natural gas production.

2006-2008 Business Plans – Three Year Goals

Ø

Double production to over 200 MMcfe/d.

Ø

Increase proved reserves to 1 Tcfe.

Ø

Increase enterprise value to over \$3 Billion.

Ø

Increase stock price to over \$45/share.

Proved Reserves (at 12/31/05)

Ø

Contractual gas sales continuing.

Ø

Non-consent property status report presented to Calpine.

Ø

Settlement discussions underway.

Ø

Objective is global solution:

§

Calpine conveys good title for non-consent properties for \$68 MM.

§

Preferential right properties retained by Calpine. Rosetta retains \$7 MM.

§

Settlement statement finalized.

§

Other administrative matters settled to satisfaction of Rosetta.

Drilling Activity Recap – 2006 Year To Date

Sacramento Basin

Ø

167 producing wells and over 62,000 net acres
in the Rio Vista Field.

Ø

Current average net production 34 MMcfe/d*.

Ø

143 currently shut-in or idle wells, 88 proved and
probable potential drilling locations, 40 potential
development drilling locations, and numerous
workover and recompletion projects.

Ø

Over 50 leads and prospects in the Sacramento
Basin Extension have been catalogued to date,
with numerous wells identified and believed to
contain bypassed pay.

Ø

Began a drilling program in early November
2005, drilled 13 wells to date, all successful. 5
wells currently on production, 8 wells to be
producing by July 2006.

Ø

Expect to drill an additional 16 wells in 2006.
Two drilling rigs active in field.

Ø

One completion rig currently working on Rosetta
properties in the Rio Vista Field area, has
performed 18 recompletions since June 30,
2005. Expect to get 2 more completion rigs by
July 2006.

**Includes cured non-consent properties.*

Rio Vista Wells (*November 5, 2005 – June 5, 2006*)

Ø

Over 1.1 Tcf of gas produced to the North, East and South of Rio Vista field.

Ø

Only 5 penetrations to date in this 90-square mile field.

Ø

Welch 13 well, completed in Winters Play with initial producing rate of 3 MMcfe/d.

Ø

Wilcox 14 well has reached total depth with good log shows, will test third week in June.

Ø

Identification of additional locations currently underway.

South Texas Trends

S. Callaghan and El Corazon Ranch (42,000 *est.* of the total) average

Ø

The Company has approximately
70,000 net acres (*est.*) square miles of 3-D seismic.

Ø

220 active operated and 100
non-operated wells.

Ø

Current net production is 24
MMcfe/day.

Ø

90 proved and probable locations.

Ø

Drilled three wells to date, all
successful. Net production is 5.5
MMcfe/day.

Ø

Plan to drill 13 additional wells in
2006.

Ø

Two rigs under contract.
South Texas – Lobo

Perdido Acreage

Ø

Company owns a 50% non-operated working interest in approximately 18,000 net acres (*est.*) in the Perdido Sand Trend.

Ø

Horizontal drilling has been very successful in developing these sands at 9,500 to 12,000 feet.

Ø

Currently have 28 producing wells of which 8 are horizontal.

Ø

Last three infill horizontal wells are averaging a total of 24 MMcfe/d gross.

Ø

Current net production is 13 MMcfe/d.

Ø

All future 48 locations will be horizontal.

Ø

3 new wells drilled in 2006 to date. One well is producing 10 MMcfe/d, second well is being fracture stimulated and is scheduled to be producing second week of June 2006. The third well is waiting on a completion rig.

Ø

7 additional wells planned for 2006.

South Texas – Perdido

Gulf of Mexico Activity Areas

Ø

Working interest in 11 blocks ranging from 20% to 100% (NRI of 15% - 79%).

Ø

Current net production is 8 MMcfe/day from 6 producing wells.

Ø

22,000 net acres (*est.*) under lease.

Ø

A recent discovery at Main Pass 118 tested 12.4 MMcf/day and 512 Bbls/day.

Ø

An additional adjacent prospect (much larger amplitude) on MP 117 is currently drilling. Rosetta's W.I. = 25%.

Ø

Successful bidder in 2006 offshore lease sale with a 50% working interest in two South Timbalier blocks.

New Leases

Drilling

Current Producer

Texas State Waters

Ø

The Company is exploring in the Vicksburg and Frio trends in Galveston Bay, Texas, pursuing sands that exhibit strong hydrocarbon indicators on 3-D seismic.

Ø

Current net production is 3 MMcfe/day.

Ø

Three successful wells have been drilled.

Ø

Five additional locations are planned, with working interest of 28.9%. Two will be drilled in 2006.

Rocky Mountain Focus Areas

Ø

Producing formation – Niobrara chalk at
2,500 feet.

Ø

Company owns 72,000 net acres in this
shallow gas play.

Ø

Expect to drill approximately 213 additional
locations, majority 80-acre spacing, on our
existing leases and leases being finalized
with 70 planned in 2006.

Ø

This 3-D supported play has been approved
for 40-acre spacing. 61 square miles of 3-D
survey acquired in 2006.

Ø

Drilling and completion cost per well is
\$200,000.

Rosetta Leases

DJ Basin

Rocky Mountains – DJ Basin

Ø

8,481 net acres with Fruitland
Coal potential at 1,600 feet.

Ø

Company has identified 49
drillable development
locations.

Ø

Drilling and completion costs
of \$280,000 per well.

Ø

Drilled and completed 3 wells
to date.

Rosetta

Leases

San Juan Basin

Rocky Mountains – San Juan Basin

Uinta Basin

Rosetta

Leases

Ø

Actively pursuing an emerging Mesa Verde and Wasatch basin-centered gas play in Eastern Utah, 6500-7500 ft. depths.

Ø

The Company has 2,800 net acres under lease in the Uinta Basin.

Ø

35 drillable locations (4 probable).

Ø

Leased additional acreage to South.

Ø

Successful farmout of additional acreage.

Ø

3-D seismic shoot completed and processed.

Forward-Looking Statements

This presentation may contain “forward-looking statements” within the meaning of

the US Private Securities Litigation Reform Act of 1995. Forward-looking statements are based on current expectations, estimates and projections that involve a number of risks and uncertainties, which could cause actual results to differ materially from those reflected in these statements. These risks include, but are not limited to: the risks inherent and specific to, the oil and gas industry and risk that effect business’ in general. Additional information on these and other factors which could affect the Company’s operations or financial result are included in the Company’s other reports on file with the United States Securities and Exchange Commission. Forward-looking statements are based on the estimate and opinion of the Company’s management at the time the statements are made. The Company assumes no obligation to update forward-looking statements should circumstance or management’s estimates or opinions change.
