Overview

We are an energy company engaged primarily in the acquisition, exploration, development and production of oil and natural gas shale plays in the Denver-Julesburg Basin (“D-J Basin”) in Colorado, which contains hydrocarbon bearing deposits in several formations, including the Niobrara, Codell, Greenhorn, Shannon, J-Sand, and D-Sand. As of September 30, 2014, we held approximately 16,511 net operated D-J Basin acres located in Weld and Morgan Counties, Colorado, comprised of approximately 2,379 net operated acres in the Wattenberg Extension area of the D-J Basin we previously referred to as our “Niobrara Asset,” and 14,132 net operated acres in the Wattenberg and Wattenberg Extension areas of the D-J Basin that we recently acquired from Continental Resources, Inc. (“Continental”) and previously referred to as our “Wattenberg Asset,” which we now collectively refer to as our “D-J Basin Asset.” Our wholly-owned subsidiary, Red Hawk Petroleum, LLC (“Red Hawk”), currently holds interests in 53 wells in our D-J Basin Asset, 14 of which are operated by Red Hawk and currently producing, 17 of which are non-operated and Red Hawk has an after-payout interest in 22. We also operate 5 additional wells in our D-J Basin Asset through Condor Energy Technology, LLC (“Condor”), our partially-owned subsidiary. We believe our current D-J Basin Asset could contain approximately a gross total of 1,300 gross (166 net) drilling locations, based on 40 and 80 acre spacing.

In addition, as of September 30, 2014, we had approximately 6,686 gross (3,283 net acres) of oil and gas properties in the Mississippian Lime play located in Comanche, Harper, and Kiowa Counties, Kansas, which we own an indirect 49% working interest in and operate, which we refer to as our “Mississippian Asset.” We hold the Mississippian Asset pursuant to a term assignment which expires on December 29, 2014. If we drill at least three horizontal wells on these leasehold interests prior to this date, then we have the option, in our sole discretion, to extend the primary term with respect to some or all of the leases subject to the assignment for an additional one (1) year period upon payment of an additional \$200 per net acre covered by the leases upon which the option is exercised. We do not believe we will be able to drill and complete the three horizontal wells necessary to hold this acreage by December 29, 2014. However, we are in current discussions to extend the primary term of the term assignment and are hopeful that an extension will be obtained, although there can be no assurances that an extension will be obtained on commercially reasonable terms, or at all. If we successfully obtain the primary term assignment extension, we anticipate that the drilling of the three wells will commence in the first half of 2015. If, however, we are unsuccessful in obtaining an extension of the primary term assignment, and our term assignment expires with respect to the Mississippian Asset, we will likely be required to impair the Mississippian Asset in full.

We have also entered into agreements to acquire a 5% interest in a Canadian publicly-traded company which is in the process of acquiring a 100% working interest in production and exploration licenses covering an approximate 380,000 acre oil and gas producing asset located in the Pre-Caspian Basin in Kazakhstan, which we plan to close upon receipt of required approvals from the Kazakhstan government and satisfaction of other customary closing conditions, which are planned to be satisfied on or before July 2015.

We believe that the D-J Basin shale play represents among the most promising unconventional oil and natural gas plays in the U.S. We plan to continue to seek additional acreage proximate to our currently held core acreage located in the Wattenberg and Wattenberg Extension areas of Weld County, Colorado. Our strategy is to be the operator, directly or through our subsidiaries and joint ventures, in the majority of our acreage so we can dictate the pace of development in order to execute our business plan. The majority of our capital expenditure budget for the next 12

calendar months will be focused on the acquisition, development and expansion of our D-J Basin Asset. Due to unexpected delays in obtaining necessary spacing, pooling and drilling permits, and securing required drilling, completion, and water sourcing and disposal vendors and resources, we have been delayed in executing upon our anticipated full development plan for 2014 by approximately six months. Accordingly, we plan to drill and complete, and participate in the drilling and completion of, approximately 19 additional total wells (equivalent to 3 net wells to us) in our D-J Basin Asset through mid-2015, including both operated and non-operated wells, 11 of which will be long lateral wells. We plan to utilize projected cash flow from operations, the approximately \$13.5 million gross (\$11.0 million net, after origination-related fees and expenses) available under our current senior debt facility, our cash on hand, and proceeds from future potential debt and/or equity financings to fund our operations and business plan.

Condor Energy Technology LLC (“Condor”), in which we own a 20% interest and manage with an affiliate of MIE Holdings Corporation (described in greater detail below under “Strategic Alliances” – “MIE Holdings”), has drilled, completed and operates five horizontal wells in the D-J Basin Asset, all from the Niobrara “B” Bench target zone. The day-to-day operations of Condor are managed by our management, and Condor’s Board of Managers is comprised of our Chief Executive Officer, Mr. Frank Ingriselli, and two designees of MIE Holdings Corporation (“MIE Holdings”). In addition, as of September 30, 2014, MIE Holdings had loaned us approximately \$6.17 million to fund operations and development of the Niobrara Asset. The Company uses the equity method to account for its 20% ownership in Condor. Accordingly, all assets and liabilities of Condor are reflected as equity investment in our consolidated balance sheets and all revenues, operating expenses and other income and expenses are reflected as earnings/loss on equity investments in our consolidated statements of operations in accordance with U.S. generally accepted accounting principles (“GAAP”) reporting requirements.

We have listed below the total production volumes and total revenue net to the Company for the three and nine months ended September 30, 2014 and 2013 attributable to our D-J Basin Asset, including the calculated production volumes and revenue numbers for our D-J Basin Asset held indirectly through Condor that would be net to our interest if reported on a consolidated basis.

	Three months ending September 30, 2013	Three months ending September 30, 2014

Business Strategy

We believe that the D-J Basin shale play represents among the most promising unconventional oil and natural gas plays in the U.S. We plan to continue to seek additional acreage proximate to our currently held core acreage located in the Wattenberg and Wattenberg Extension areas of Weld County, Colorado. Our strategy is to be the operator, directly or through our subsidiaries and joint ventures, in the majority of our acreage so we can dictate the pace of development in order to execute our business plan. The majority of our capital expenditure budget for the next 12 calendar months will be focused on the acquisition, development and expansion of our D-J Basin Asset. Due to

unexpected delays in obtaining necessary spacing, pooling and drilling permits, and securing required drilling, completion, and water sourcing and disposal vendors and resources, we have been delayed in executing upon our anticipated full development plan for 2014 by approximately 6 months. Accordingly, we plan to drill and complete, and participate in the drilling and completion of, approximately 19 additional total wells (equivalent to 3 net wells to us) in our D-J Basin Asset through mid-2015, including both operated and non-operated wells, 11 of which will be long lateral wells. Strategic Alliances

Golden Globe

On March 7, 2014, in connection with our acquisition of certain assets in the D-J Basin from Continental, we entered into a \$50 million 3-year term debt facility (the “Senior Notes”) with various investors including RJ Credit LLC, a subsidiary of a New York-based investment management group with more than \$1.3 billion in assets under management specializing in resource investments. As part of the transaction, Golden Globe Energy Corp. (“Golden Globe”) (an affiliate of RJ Credit LLC) acquired (i) an equal 13,995 net acre position in the assets acquired from Continental, and (ii) 50% of our ownership interest in Pacific Energy Development MSL, LLC, which holds our Mississippian Asset, thereby making Golden Globe an equal working interest partner with us in the development of our D-J Basin and Mississippian Assets, allowing us to undertake a more aggressive drilling and development program in 2014 and beyond.

MIE Holdings

Through the relationships developed by our founder and Chief Executive Officer, Frank Ingriselli, we formed a strategic relationship with MIE Holdings Corporation (Hong Kong Stock Exchange code: 1555.HK), one of the largest independent upstream onshore oil companies in China, which we refer to as MIE Holdings, to assist us with our plans to develop unconventional shale properties and explore acquisition opportunities in Asia. According to information provided by MIE Holdings, MIE Holdings has drilled and currently operates over 2,000 oil wells in China and Kazakhstan and brings extensive drilling and completion experience and expertise, as well as a strong geological team. MIE Holdings has also been a significant investor in our operations as discussed below. A portion of our D-J Basin Asset is held all or in part by Condor, which is a Nevada limited liability company owned 20% by us and 80% by an affiliate of MIE Holdings. Condor also drilled, completed and operates five of our horizontal wells.

MIE Holdings has been a valuable partner providing us necessary capital in the early stages of our development. It purchased 1,333,334 shares of our Series A preferred stock, which were automatically converted into 1,333,334 shares of our Common Stock in January 2013 and are still held by MIE Holdings, and acquired an 80% interest in Condor for total consideration of \$3 million, and as of September 30, 2014, had loaned us \$6.17 million through a short-term note (the “MIEJ Note”) to fund operations and development of the D-J Basin acreage operated by Condor, and \$432,433 toward the acquisition of the Mississippian Asset, of which we repaid \$432,433 in March 2014.

On October 8, 2014, MIE Holdings provided us the expected written notice stating that the MIEJ Note was past due and payable. Pursuant to the subordination language in the MIEJ Note, as amended, MIE Holdings agreed to subordinate the MIEJ Note to indebtedness for money borrowed from any bank or other non-affiliated financial institution or investment group incurred by the Company in excess of \$10 million, which subordinated the MIEJ Note to the Senior Notes issued on March 7, 2014. Notwithstanding the notice from MIE Holdings and the Company’s confidence based on the subordination language in the MIEJ Note that no payments are due or payable at this time, it is the Company’s desire that with approval of the holders of the Senior Notes, the Company will be able to use a portion of the Company’s available cash flow from operations to make payments from time to time on the MIEJ Note prior to the maturity of the Senior Notes in March 2017.

STXRA

On October 4, 2012, we established a technical services subsidiary, Pacific Energy Technology Services, LLC, which is 70% owned by us and 30% owned by South Texas Reservoir Alliance, LLC, which we refer to as STXRA, through which we plan to provide acquisition, engineering, and oil drilling and completion technology services in joint cooperation with STXRA in the United States. While Pacific Energy Technology Services, LLC currently has no

operations, only nominal assets and liabilities and limited capitalization, we anticipate actively developing this venture in 2015.

STXRA is a consulting firm specializing in the delivery of petroleum resource acquisition services and practical engineering solutions to clients engaged in the acquisition, exploration and development of petroleum resources. In April 2011, we entered into an agreement of joint cooperation with STXRA in an effort to identify suitable energy ventures for acquisition by us, with a focus on plays in shale oil and natural gas bearing regions in the United States. According to information provided by STXRA, the STXRA team has experience in their collective careers of drilling and completing horizontal wells, including over 100 horizontal wells with lengths exceeding 4,000 feet from 2010 to 2014, as well as experience in both slick water and hybrid multi-stage hydraulic fracturing technologies and in the operation of shale wells and fields. We believe that our relationship with STXRA, both directly and through our jointly-owned Pacific Energy Technology Services LLC services company, will supplement the core competencies of our management team and provide us with petroleum and reservoir engineering, petrophysical, and operational competencies that will help us to evaluate, acquire, develop and operate petroleum resources in the future.

commencement of, or involvement in, litigation;

the prices of oil and natural gas;

the success of our exploration and development operations, and the marketing of any oil and natural gas we produce;

changes in market valuations of companies similar to ours; and

domestic and international economic, legal and regulatory factors unrelated to our performance.

Our Common Stock is listed on the NYSE MKT under the symbol "PED." Our stock price may be impacted by factors that are unrelated or disproportionate to our operating performance. The stock markets in general have experienced extreme volatility that has often been unrelated to the operating performance of particular companies. These broad market fluctuations may adversely affect the trading price of our Common Stock. Additionally, general economic, political and market conditions, such as recessions, interest rates or international currency fluctuations may adversely affect the market price of our Common Stock. Due to the limited volume of our shares which trade, we believe that our stock prices (bid, ask and closing prices) may not be related to our actual value, and not reflect the actual value of our Common Stock. Shareholders and potential investors in our Common Stock should exercise caution before making an investment in us.

Additionally, as a result of the illiquidity of our Common Stock, investors may not be interested in owning our Common Stock because of the inability to acquire or sell a substantial block of our Common Stock at one time. Such illiquidity could have an adverse effect on the market price of our Common Stock. In addition, a shareholder may not be able to borrow funds using our Common Stock as collateral because lenders may be unwilling to accept the pledge of securities having such a limited market. We cannot assure you that an active trading market for our Common Stock will develop or, if one develops, be sustained.

An active liquid trading market for our Common Stock may not develop in the future.

Our Common Stock currently trades on the NYSE MKT, although our Common Stock's trading volume is very low. Liquid and active trading markets usually result in less price volatility and more efficiency in carrying out investors' purchase and sale orders. However, our Common Stock may continue to have limited trading volume, and many investors may not be interested in owning our Common Stock because of the inability to acquire or sell a substantial block of our Common Stock at one time. Such illiquidity could have an adverse effect on the market price of our Common Stock. In addition, a shareholder may not be able to borrow funds using our Common Stock as collateral because lenders may be unwilling to accept the pledge of securities having such a limited market. We cannot assure you that an active trading market for our Common Stock will develop or, if one develops, be sustained.

We do not presently intend to pay any cash dividends on or repurchase any shares of our Common Stock.

We do not presently intend to pay any cash dividends on our Common Stock or to repurchase any shares of our Common Stock. Any payment of future dividends will be at the discretion of the Board of Directors and will depend on, among other things, our earnings, financial condition, capital requirements, level of indebtedness, statutory and contractual restrictions applying to the payment of dividends and other considerations that our Board of Directors deems relevant. Cash dividend payments in the future may only be made out of legally available funds and, if we experience substantial losses, such funds may not be available. Accordingly, you may have to sell some or all of your

Common Stock in order to generate cash flow from your investment, and there is no guarantee that the price of our Common Stock that will prevail in the market will ever exceed the price paid by you.

Because we are a small company, the requirements of being a public company, including compliance with the reporting requirements of the Exchange Act and the requirements of the Sarbanes-Oxley Act and the Dodd-Frank Act, may strain our resources, increase our costs and distract management, and we may be unable to comply with these requirements in a timely or cost-effective manner.

As a public company with listed equity securities, we must comply with the federal securities laws, rules and regulations, including certain corporate governance provisions of the Sarbanes-Oxley Act of 2002 (the “Sarbanes-Oxley Act”) and the Dodd-Frank Act, related rules and regulations of the SEC and the NYSE MKT, with which a private company is not required to comply. Complying with these laws, rules and regulations will occupy a significant amount of time of our Board of Directors and management and will significantly increase our costs and expenses, which we cannot estimate accurately at this time. Among other things, we must:

establish and maintain a system of internal control over financial reporting in compliance with the requirements of Section 404 of the Sarbanes-Oxley Act and the related rules and regulations of the SEC and the Public Company Accounting Oversight Board;

comply with rules and regulations promulgated by the NYSE MKT;

prepare and distribute periodic public reports in compliance with our obligations under the federal securities laws;

maintain various internal compliance and disclosures policies, such as those relating to disclosure controls and procedures and insider trading in our Common Stock;

involve and retain to a greater degree outside counsel and accountants in the above activities;

maintain a comprehensive internal audit function; and

maintain an investor relations function.

In addition, being a public company subject to these rules and regulations may require us to accept less director and officer liability insurance coverage than we desire or to incur substantial costs to obtain coverage. These factors could also make it more difficult for us to attract and retain qualified members of our Board of Directors, particularly to serve on our audit committee, and qualified executive officers.

Future sales of our Common Stock could cause our stock price to decline.

If our shareholders sell substantial amounts of our Common Stock in the public market, the market price of our Common Stock could decrease significantly. The perception in the public market that our shareholders might sell shares of our Common Stock could also depress the market price of our Common Stock. Up to \$100,000,000 in total aggregate value of securities have been registered by us on a “shelf” registration statement on Form S-3 (File No. 333-191869) that we filed with the Securities and Exchange Commission on October 23, 2013, and which was declared effective on November 5, 2013. To date, an aggregate of \$14,705,275 in securities have been sold by us under the Form S-3, leaving \$85,294,725 in securities which will be eligible for sale in the public markets from time to time, when sold and issued by us, subject to the requirements of Form S-3, which limits us, until such time, if ever, as our public float exceeds \$75 million, from selling securities in a public primary offering under Form S-3 with a value exceeding more than one-third of the aggregate market value of the Common Stock held by non-affiliates of the Company every twelve months. Additionally, if our existing shareholders sell, or indicate an intent to sell, substantial amounts of our Common Stock in the public market, the trading price of our Common Stock could decline

significantly. The market price for shares of our Common Stock may drop significantly when such securities are sold in the public markets. A decline in the price of shares of our Common Stock might impede our ability to raise capital through the issuance of additional shares of our Common Stock or other equity securities.

Our outstanding options, warrants and convertible securities may adversely affect the trading price of our Common Stock.

As of December 17, 2014, there were outstanding stock options to purchase approximately 1,827,224 shares of our Common Stock, outstanding warrants to purchase approximately 6,594,129 shares of Common Stock, and subordinated convertible promissory notes with a current aggregate principal amount of approximately \$555,000, which are convertible at any time by the holders into a number of shares of our Common Stock determined by dividing the conversion dollar amount by the greater of (i) 80% of the average closing price per share of our publicly traded Common Stock for the five (5) trading days immediately preceding the date of the conversion notice provided by the holder, and (ii) \$0.50 per share. For the life of the options, warrants and subordinated convertible promissory notes, the holders have the opportunity to profit from a rise in the market price of our Common Stock without assuming the risk of ownership. The issuance of shares upon the exercise of outstanding securities will also dilute the ownership interests of our existing stockholders.

The availability of these shares for public resale, as well as any actual resales of these shares, could adversely affect the trading price of our Common Stock. We have previously registered (on Form S-8) certain shares of our Common Stock issuable or reserved for issuance under our equity incentive plans. Subject to the satisfaction of vesting conditions, the expiration of lockup agreements, any management 10b5-1 plans and certain restrictions on sales by affiliates, shares registered under registration statements on Form S-8 will be available for resale immediately in the public market without restriction.

We cannot predict the size of future issuances of our Common Stock pursuant to the exercise of outstanding options or warrants or conversion of other securities, or the effect, if any, that future issuances and sales of shares of our Common Stock may have on the market price of our Common Stock. Sales or distributions of substantial amounts of our Common Stock (including shares issued in connection with an acquisition and registered herein), or the perception that such sales could occur, may cause the market price of our Common Stock to decline.

Five of our directors and executive officers own approximately 13.5% of our Common Stock, and one of our major shareholders owns approximately 10% of our Common Stock, which may give them influence over important corporate matters in which their interests are different from your interests.

Five of our directors and executive officers beneficially own approximately 13.5% of our outstanding shares of Common Stock, and our largest non-director or officer shareholder owns approximately 10% of our outstanding shares of Common Stock (excluding the exercise of warrants held thereby) based on a total of 33,117,516 shares of Common Stock outstanding as of the date of this prospectus. These directors, executive officers and major shareholder will be positioned to influence or control to some degree the outcome of matters requiring a shareholder vote, including the election of directors, the adoption of amendments to our certificate of formation or bylaws and the approval of mergers and other significant corporate transactions. These directors, executive officers and major shareholder, subject to any fiduciary duties owed to the shareholders generally, may have interests different than the rest of our shareholders. Their influence or control of our company may have the effect of delaying or preventing a change of control of our company and may adversely affect the voting and other rights of other shareholders. In addition, due to the ownership interest of these directors and officers in our Common Stock, they may be able to remain entrenched in their positions.

Provisions of Texas law may have anti-takeover effects that could prevent a change in control even if it might be beneficial to our shareholders.

Provisions of Texas law may discourage, delay or prevent someone from acquiring or merging with us, which may cause the market price of our Common Stock to decline. Under Texas law, a shareholder who beneficially owns more

than 20% of our voting stock, or any “affiliated shareholder,” cannot acquire us for a period of three years from the date this person became an affiliated shareholder, unless various conditions are met, such as approval of the transaction by our Board of Directors before this person became an affiliated shareholder or approval of the holders of at least two-thirds of our outstanding voting shares not beneficially owned by the affiliated shareholder.

Our Board of Directors can authorize the issuance of preferred stock, which could diminish the rights of holders of our Common Stock and make a change of control of our company more difficult even if it might benefit our shareholders.

Our Board of Directors is authorized to issue shares of preferred stock in one or more series and to fix the voting powers, preferences and other rights and limitations of the preferred stock. Shares of preferred stock may be issued by our Board of Directors without shareholder approval, with voting powers and such preferences and relative, participating, optional or other special rights and powers as determined by our Board of Directors, which may be greater than the shares of Common Stock currently outstanding. As a result, shares of preferred stock may be issued by our Board of Directors which cause the holders to have majority voting power over our shares, provide the holders of the preferred stock the right to convert the shares of preferred stock they hold into shares of our Common Stock, which may cause substantial dilution to our then Common Stock shareholders and/or have other rights and preferences greater than those of our Common Stock shareholders including having a preference over our Common Stock with respect to dividends or distributions on liquidation or dissolution.

Investors should keep in mind that the Board of Directors has the authority to issue additional shares of Common Stock and preferred stock, which could cause substantial dilution to our existing shareholders. Additionally, the dilutive effect of any preferred stock which we may issue may be exacerbated given the fact that such preferred stock may have voting rights and/or other rights or preferences which could provide the preferred shareholders with substantial voting control over us subsequent to the date of this prospectus and/or give those holders the power to prevent or cause a change in control, even if that change in control might benefit our shareholders. As a result, the issuance of shares of Common Stock and/or preferred stock may cause the value of our securities to decrease.

Securities analysts may not cover, or continue to cover, our Common Stock and this may have a negative impact on our Common Stock's market price.

The trading market for our Common Stock will depend, in part, on the research and reports that securities or industry analysts publish about us or our business. We do not have any control over independent analysts (provided that we have engaged various non-independent analysts). We currently only have a few independent analysts that cover our Common Stock, and these analysts may discontinue coverage of our Common Stock at any time. Further, we may not be able to obtain additional research coverage by independent securities and industry analysts. If no independent securities or industry analysts continue coverage of us, the trading price for our Common Stock could be negatively impacted. If one or more of the analysts who covers us downgrades our Common Stock, changes their opinion of our shares or publishes inaccurate or unfavorable research about our business, our stock price could decline. If one or more of these analysts ceases coverage of us or fails to publish reports on us regularly, demand for our Common Stock could decrease and we could lose visibility in the financial markets, which could cause our stock price and trading volume to decline.

Shareholders may be diluted significantly through our efforts to obtain financing and satisfy obligations through the issuance of securities.

Wherever possible, our Board of Directors will attempt to use non-cash consideration to satisfy obligations. In many instances, we believe that the non-cash consideration will consist of shares of our Common Stock, preferred stock or warrants to purchase shares of our Common Stock. Our Board of Directors has authority, without action or vote of the shareholders, subject to the requirements of the NYSE MKT (which generally require shareholder approval for any transactions which would result in the issuance of more than 20% of our then outstanding shares of Common Stock or voting rights representing over 20% of our then outstanding shares of stock), to issue all or part of the authorized but unissued shares of Common Stock, preferred stock or warrants to purchase such shares of Common Stock. In addition, we may attempt to raise capital by selling shares of our Common Stock, possibly at a discount to market in the future. These actions will result in dilution of the ownership interests of existing shareholders and may further dilute

Common Stock book value, and that dilution may be material. Such issuances may also serve to enhance existing management's ability to maintain control of us, because the shares may be issued to parties or entities committed to supporting existing management.

If we are delisted from the NYSE MKT, your ability to sell your shares of our Common Stock may be limited by the penny stock restrictions, which could further limit the marketability of your shares.

If our Common Stock is delisted, it could come within the definition of “penny stock” as defined in the Exchange Act and could be covered by Rule 15g-9 of the Exchange Act. That Rule imposes additional sales practice requirements on broker-dealers who sell securities to persons other than established customers and accredited investors. For transactions covered by Rule 15g-9, the broker-dealer must make a special suitability determination for the purchaser and receive the purchaser’s written agreement to the transaction prior to the sale. Consequently, Rule 15g-9, if it were to become applicable, would affect the ability or willingness of broker-dealers to sell our securities, and accordingly would affect the ability of stockholders to sell their securities in the public market. These additional procedures could also limit our ability to raise additional capital in the future.

Due to the fact that our Common Stock is listed on the NYSE MKT, we are subject to financial and other reporting and corporate governance requirements which increase our costs and expenses.

We are currently required to file annual and quarterly information and other reports with the Commission that are specified in Sections 13 and 15(d) of the Exchange Act. Additionally, due to the fact that our Common Stock is listed on the NYSE MKT, we are also subject to the requirements to maintain independent directors, comply with other corporate governance requirements and are required to pay annual listing and stock issuance fees. These obligations require a commitment of additional resources including, but not limited to, additional expenses, and may result in the diversion of our senior management’s time and attention from our day-to-day operations. These obligations increase our expenses and may make it more complicated or time consuming for us to undertake certain corporate actions due to the fact that we may require NYSE approval for such transactions and/or NYSE rules may require us to obtain shareholder approval for such transactions.

Future sales of our Common Stock by our existing shareholders could cause our stock price to decline.

If our shareholders sell substantial amounts of our Common Stock in the public market, the market price of our Common Stock could decrease significantly. The perception in the public market that our shareholders might sell shares of our Common Stock could also depress the market price of our Common Stock. The market price for shares of our Common Stock may drop significantly if a large number of shares are sold. A decline in the price of shares of our Common Stock might impede our ability to raise capital through the issuance of additional shares of our Common Stock or other equity securities.

There may be future sales of our Common Stock, which could adversely affect the market price of our Common Stock and dilute a shareholder’s ownership of Common Stock.

The exercise of any options granted to executive officers and other employees under our equity compensation plans, and other issuances of our Common Stock could have an adverse effect on the market price of the shares of our Common Stock. We are not restricted from issuing additional shares of Common Stock, including any securities that are convertible into or exchangeable for, or that represent the right to receive shares of Common Stock, provided that we are subject to the requirements of the NYSE MKT (which generally require shareholder approval for any transactions which would result in the issuance of more than 20% of our then outstanding shares of Common Stock or voting rights representing over 20% of our then outstanding shares of stock). Sales of a substantial number of shares of our Common Stock in the public market or the perception that such sales might occur could materially adversely affect the market price of the shares of our Common Stock. Because our decision to issue securities in any future offering will depend on market conditions and other factors beyond our control, we cannot predict or estimate the amount, timing or nature of our future offerings. Accordingly, our shareholders bear the risk that our future offerings will reduce the market price of our Common Stock and dilute their stock holdings in us.

SELLING STOCKHOLDERS

This reoffer prospectus covers the reoffer and resale by the selling stockholders listed below of an aggregate of up to 1,670,000 shares of our Common Stock previously granted under the Plan, which constitute “restricted securities” or “control securities” within the meaning of Form S-8.

The following table sets forth, as of December 17, 2014, the number of shares beneficially owned by each current selling stockholder. The number of shares in the column “Number of Shares of Our Common Stock Beneficially Owned Prior to the Offering” represents the total number of shares that a selling stockholder currently owns or has the right to acquire within sixty (60) days of December 17, 2014. The number of shares in the column “Number of Shares of Our Common Stock that May be Sold” represents all of the shares that a selling stockholder may offer under this reoffer prospectus. The table and footnotes assume that the selling stockholders will sell all of the shares listed in

the column “Number of Shares of Our Common Stock that May be Sold.” However, because the selling stockholders may sell all or some of their shares under this reoffer prospectus from time to time, or in another permitted manner, we cannot assure you as to the actual number of shares that will be sold by the selling stockholders or that will be held by the selling stockholders after completion of any sales. We do not know how long the selling stockholders will hold the shares before selling them. Beneficial ownership is determined in accordance with Rule 13d-3(d) promulgated by the SEC under the Exchange Act. The selling stockholders have not had a material relationship with us within the past three years other than as described in the footnotes to the table below or as a result of their acquisition of our shares or other securities.

Information concerning the selling stockholders may change from time to time and changed information will be presented in a supplement to this reoffer prospectus if and when necessary and required. If, subsequent to the date of this reoffer prospectus, we grant additional awards to the selling stockholders or to other affiliates under the Plan, we intend to supplement this reoffer prospectus to reflect such additional awards and the names of such affiliates and the amounts of securities to be reoffered by them.

The address of each selling stockholder is c/o PEDEVCO Corp., 4125 Blackhawk Plaza Circle, Suite 201, Danville, California 94506.

PLAN OF DISTRIBUTION

Each selling stockholder of the securities and any of its transferees, distributees, pledgees or donees or their successors may, from time to time, sell any or all of their securities covered hereby on the NYSE MKT or any other stock exchange, market or trading facility on which the securities are traded or in private transactions. These sales may be at fixed or negotiated prices. A selling stockholder may use any one or more of the following methods when selling

securities:

ordinary brokerage transactions and transactions in which the broker-dealer solicits purchasers;

block trades in which the broker-dealer will attempt to sell the securities as agent but may position and resell a portion of the block as principal to facilitate the transaction;

purchases by a broker-dealer as principal and resale by the broker-dealer for its account;

an exchange distribution in accordance with the rules of the applicable exchange;

privately negotiated transactions;

settlement of short sales entered into after the effective date of the registration statement of which this prospectus is a part;

in transactions through broker-dealers that agree with the selling stockholders to sell a specified number of such securities at a stipulated price per security;

through the writing or settlement of options or other hedging transactions, whether through an options exchange or otherwise;

a combination of any such methods of sale; or

any other method permitted pursuant to applicable law.

If the selling stockholder effects such transactions by selling shares of our Common Stock to or through underwriters, broker-dealers or agents, such underwriters, broker-dealers or agents may receive commissions in the form of discounts, concessions or commissions from the selling stockholder or commissions from purchasers of our Common Stock for whom they may act as agent or to whom they may sell as principal (which discounts, concessions or commissions as to particular underwriters, broker-dealers or agents may be in excess of those customary in the types of transactions involved).

From time to time, one or more of the selling stockholders may distribute, devise, gift, pledge, hypothecate or grant a security interest in some or all of the shares of Common Stock owned by them. Any such distributees, devisees or donees will be deemed to be selling stockholders. Any such pledgees, secured parties or persons to whom the securities have been hypothecated will, upon foreclosure in the event of default, be deemed to be selling stockholders.

The selling stockholder and any broker-dealer participating in the distribution of our Common Stock may be deemed to be "underwriters" within the meaning of the Securities Act, and any commission paid, or any discounts or concessions allowed to, any such broker-dealer may be deemed to be underwriting commissions or discounts under the Securities Act. At the time a particular offering of the securities is made, a prospectus supplement, if required, will be distributed which will set forth the aggregate amount of securities being offered and the terms of the offering, including the name or names of any broker-dealers or agents, any discounts, commissions and other terms constituting compensation from the selling stockholder and any discounts, commissions or concessions allowed, reallocated or paid to broker-dealers.

The selling stockholder may choose not to sell any or may choose to sell less than all of our Common Stock registered pursuant to the registration statement, of which this reoffer prospectus forms a part.

The selling stockholder and any other person participating in such distribution will be subject to applicable provisions of the Exchange Act, and the rules and regulations thereunder, including, without limitation, Regulation M, which may limit the timing of purchases and sales of any of the shares of Common Stock by the selling stockholder and any other participating person. Regulation M may also restrict the ability of any person engaged in the distribution of the shares of Common Stock to engage in market-making activities with respect to the shares of Common Stock. All of the foregoing may affect the marketability of the Common Stock and the ability of any person or entity to engage in market-making activities with respect to the shares of our Common Stock.

We will pay the expenses of the registration of our Common Stock sold by the selling stockholders, including, without limitation, SEC filings fees, compliance with state securities or “blue sky” laws; provided, however, that the selling stockholder will pay all underwriting discounts and selling commissions, if any. As and when we are required to update this reoffer prospectus, we may incur additional expenses.

Once sold under the registration statement, of which this reoffer prospectus forms a part, our Common Stock will be freely tradable in the hands of persons other than our affiliates. We have notified the selling stockholders of the need to deliver a copy of this reoffer prospectus in connection with any sale of the shares.

In order to comply with certain state securities laws, if applicable, the shares may be sold in such jurisdictions only through registered or licensed brokers or dealers. In certain states, the shares may not be sold unless the shares have been registered or qualified for sale in such state or an exemption from regulation or qualification is available and is complied with. Sales of shares must also be made by the selling stockholders in compliance with all other applicable state securities laws and regulations.

In addition to any shares sold hereunder, selling stockholders may, at the same time, sell any shares of Common Stock owned by them in compliance with all of the requirements of Rule 144, regardless of whether such shares are covered by this reoffer prospectus.

II-1

Item 8. Exhibits

See Exhibit Index.

Item 9. Undertakings

(a) The Company hereby undertakes:

(1) To file, during any period in which offers or sales are being made, a post-effective amendment to this registration statement:

(i) To include any prospectus required by Section 10(a)(3) of the Securities Act of 1933;

(ii) To reflect in the prospectus any facts or events arising after the effective date of the registration statement (or the most recent post-effective amendment thereof) which, individually or in the aggregate, represent a fundamental change in the information set forth in the registration statement. Notwithstanding the foregoing, any increase or decrease in volume of securities offered (if the total dollar value of securities offered would not exceed that which was registered) and any deviation from the low or high end of the estimated maximum offering range may be reflected in the form of prospectus filed with the Commission pursuant to Rule 424(b) if, in the aggregate, the changes in volume and price represent no more than a 20% change in the maximum aggregate offering price set forth in the "Calculation of Registration Fee" table in the effective registration statement; and

(iii) To include any material information with respect to the plan of distribution not previously disclosed in the registration statement or any material change to such information in the registration statement.

However, paragraphs (a)(1)(i) and (a)(1)(ii) do not apply if the information required to be included in a post-effective amendment by those paragraphs is contained in periodic reports filed with or furnished to the Commission by the Company pursuant to Section 13 or Section 15(d) of the Securities Exchange Act of 1934 that are incorporated by reference in this registration statement.

(2) That, for the purpose of determining any liability under the Securities Act of 1933, each such post-effective amendment shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof; and

(3) To remove from registration by means of a post-effective amendment any of the securities being registered which remain unsold at the termination of the offering.

(b) The undersigned hereby undertakes that, for the purposes of determining any liability under the Securities Act, each filing of the Company's annual report pursuant to Section 13(a) or Section 15(d) of the Securities Exchange Act of 1934 (and, where applicable, each filing of an employee benefit plan's annual report pursuant to Section 15(d) of the Securities Exchange Act of 1934) that is incorporated by reference in this registration statement shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof.

(c) Insofar as indemnification for liabilities arising under the Securities Act of 1933 may be permitted to directors, officers and controlling persons of the Company pursuant to the foregoing provisions, or otherwise, the Company has been advised that in the opinion of the Commission such indemnification is against public policy as expressed in the Securities Act of 1933 and is, therefore, unenforceable. In the event that a claim for indemnification against such liabilities (other than the payment by the Company of expenses incurred or paid by a director, officer or controlling

person of the Company in the successful defense of any action, suit or proceeding) is asserted by such director, officer or controlling person in connection with the securities being registered, our company will, unless in the opinion of its counsel the matter has been settled by controlling precedent, submit to a court of appropriate jurisdiction the question whether such indemnification by it is against public policy as expressed in the Securities Act of 1933 and will be governed by the final adjudication of such issue.
