Item 11. Executive Compensation

COMPENSATION DISCUSSION & ANALYSIS

Compensation Committee Charter

The Compensation Committee of the Board of Directors (the “Compensation Committee” or the “Committee”) of MiMedx Group, Inc. (“MiMedx” or “the Company”) operates pursuant to a written charter adopted by the Board of Directors (the “Board”). The charter is posted in the Investors section of the Company’s website at www.mimedx.com. The Compensation Committee annually reviews and reassesses the adequacy of its charter. The Compensation Committee is responsible for reviewing and evaluating all compensation and remuneration to those of the executive officers listed in the Summary Compensation Table contained herein and referred to herein as “Named Executive Officers.” For 2013, the Named Executive Officers include the Chairman and Chief Executive Officer, President and Chief Operating Officer, Chief Financial Officer, and General Counsel and Secretary. All components of compensation for the Named Executive Officers are recommended by the Compensation Committee for approval by the Board of Directors.

Philosophy

MiMedx’s executive compensation philosophy is based on the belief that competitive compensation is essential to attract and retain highly-qualified executives and motivate them to achieve the Company’s operational and financial goals. In line with this philosophy, the Company’s practice is to provide total compensation that is competitive with comparable positions within peer organizations. The compensation program is based on individual and organizational performance and includes components that reinforce the Company’s motivational and retention-related compensation objectives. The principal components of compensation for MiMedx’s Named Executive Officers are: base salary, annual cash incentives and long-term equity incentives. Cash bonuses are included to encourage and reward effective performance relative to the Company’s near-term plans and objectives. Equity incentives are included to promote longer-term focus, to help retain key contributors and to align the interests of the Company’s executives and shareholders.

Say on Pay

In 2013, the Company conducted an advisory vote on the compensation of the Named Executive Officers. While this vote is not binding on the Company, the Board, or the Compensation Committee, the Company believes that it is important for shareholders to have an opportunity to vote on compensation of the Named Executive Officers as a means to express their views regarding the Company’s executive compensation philosophy, compensation policies and programs, and decisions regarding executive compensation. To the extent there is any significant vote against the compensation of the Company’s Named Executive Officers, the Compensation Committee and Board will evaluate what actions are necessary to address those concerns. At the 2013 Annual Meeting, the shareholders approved the Company’s 2012 Named Executive Officer compensation with approximately 96% of the votes cast in favor of the proposal. The Board and Compensation Committee reviewed these final vote results together with the other factors and data discussed in this Compensation Discussion and Analysis and determined that, given the significant level of support of the Company’s approach to compensation by its shareholders, no changes to its executive compensation policies and decisions were necessary. The Company has determined that its shareholders should vote on a say-on-pay proposal every three years, consistent with the recommendation of the Board and the preference expressed by the Company’s shareholders in the advisory vote taken at the 2013 Annual Meeting of Shareholders.

Overview of Compensation and Process

The Compensation Committee is responsible for reviewing and recommending all elements of compensation for the Company’s Named Executive Officers and reviewing and approving certain elements of compensation for all of the Company’s executives.

Generally, base salaries are set for the Named Executive Officers at the regularly-scheduled February or March meetings of the Compensation Committee and the Board. At this meeting, the Compensation Committee also (i) reviews, approves and recommends for approval of the Board an annual cash incentive plan for the new fiscal year, (ii) reviews, approves and recommends for approval of the Board the calculated and earned incentives for the prior fiscal year's annual incentive plan, (iii) considers, approves and recommends for approval by the Board equity-based awards to the Named Executive Officers, and (iv) considers and approves equity-based awards for all other officers and eligible employees.

7

In making compensation decisions, the Compensation Committee considers recommendations of Parker H. Petit, Chairman and Chief Executive Officer, and Thornton A. Kuntz, Jr., Senior Vice President, Administration. In establishing the top three Named Executive Officers, Mr. Kuntz conducts a compensation analysis of the practices of peer companies. The peer group companies are publicly-traded companies in the medical device, bio-medical and tissue sectors of the healthcare industry. The peer group selection and comparability are determined using, among other things, organizational criteria, revenue, market capitalization, complexity of business, industry sector, earnings growth, science/technology and other proprietary requirements for growth, and product offerings. The data from these companies provide the Company with a “benchmark.” The Compensation Committee believes that a benchmark is a point of reference for measurement, but not the sole determining factor for the compensation of these three Named Executive Officers. Additionally, Ms. McCaw’s compensation was not bench-marked against the peer group companies because there were relatively few reported comparable positions in the peer group study. Instead, Ms. McCaw’s compensation was benchmarked against the established compensation of the other Named Executive Officers.

From time to time as the need arises, the Committee also may retain the advice of an independent consultant and/or commission compensation studies. The Committee did not retain an independent consultant or commission any compensation studies in 2013 or 2014. The Compensation Committee considers the recommendation of the Chairman and Chief Executive Officer as crucial in its review and analysis of the compensation for the Named Executive Officers reporting to the Chief Executive Officer. Although compensation survey data are useful guides for comparative purposes, MiMedx believes that a successful compensation program also requires the application of judgment and subjective determinations of individual performance. In that regard, the Compensation Committee applies its judgment in reconciling the program’s objectives with the realities of retaining valued employees.

For 2013 compensation, the Compensation Committee utilized an analysis conducted by Mr. Kuntz to benchmark the major components of total executive compensation against a peer group of 22 publicly-traded companies in the medical device, bio-medical and tissue sectors of the healthcare industry. The 22 companies selected were those deemed by the Committee, after input from senior management, to be the most comparable to the Company during the period of the compensation analysis. For the period analyzed, the average, median and 75th percentile trailing 12-month annualized revenue of the 22 peer group companies were \$131 million, \$122 million and \$189 million, respectively. For the same period, the average, median and 75th percentile market cap of the 22 peer group companies were \$343 million, \$199 million and \$549 million, respectively.

The following companies comprise the peer group of 22 publicly-traded companies in the medical device, bio-medical and tissue sectors of the healthcare industry that were utilized in the 2013 compensation decisions:

Aastron Biosciences, Inc.	Cryolife, Inc.	Meridian Bioscience, Inc.
Abiomed, Inc.	Enzon Pharmaceuticals, Inc.	Osiris Therapeutics, Inc.
Advanced Cell Technologies, Inc.	Exactech, Inc.	RTI Biologics, Inc.
Alphatec Holdings, Inc.	Fibrocell, Science, Inc.	Stereotaxis, Inc.
Anika Therapeutics, Inc.	Harvard Bioscience, Inc.	Tornier N.V.
ArthroCare Corporation	Insulet Corporation	TranS1, Inc.
BioMimetic Therapeutics, Inc.	MAKO Surgical, Inc.	
Conceptus, Inc.	Medical Action Industries, Inc.	

For 2014 compensation, the Compensation Committee revised the composition of the peer group of publicly-traded companies to better align the peer group with the current early commercial stage, revenue and market capitalization of the Company. The 21 companies selected were those deemed by the Committee, after input from senior management, to be the most comparable to the Company during the period of the compensation analysis. For the period analyzed, the average, median and 75th percentile trailing 12-month annualized revenues of the 21 peer group companies were

\$147 million, \$142 million and 235 million, respectively. For the same period, the average, median and 75th percentile market cap of the 21 peer group companies were \$941 million, \$854 million and \$1,340 million, respectively.

The following companies comprise the peer group of the 21 publicly-traded companies in the medical device, bio-medical and tissue sectors of the healthcare industry that were utilized in the 2014 compensation decisions:

Abiomed, Inc.	Cyberonics, Inc.	InterMune, Inc.
Acorda Therapeutics, Inc.	Derma Sciences, Inc.	MAKO Surgical, Inc.
Advanced Cell Technologies, Inc.	DexCom, Inc.	Meridian Bioscience, Inc.
Alphatec Holdings, Inc.	Exactech, Inc.	Osiris Therapeutics, Inc.
ArthroCare Corporation	Exelixis, Inc.	RTI Surgical, Inc.
Athersys, Inc.	Geron Corporation	Tornier N.V.
Cryolife, Inc.	Insulet Corporation	XenoPort, Inc.

In order to compete effectively for top executive-level talent, the Compensation Committee targets total direct compensation (base salary, annual cash incentives and long-term equity incentives) for Named Executive Officers between the 50th and 75th percentile of total direct compensation paid to similarly-situated executives of the companies comprising the peer group. Specific elements of compensation were targeted at the percentile of compensation paid to the peer group as set forth below:

Compensation Element	Targeted Percentile
Base Salary	50th to 60th Percentile
Annual Cash Incentives	50th to 60th Percentile
Long-Term Equity Incentives	60th to 75th Percentile

Because the Compensation Committee believes that a significant portion of total executive compensation should be tied to the annual and long-term performance of the Company, the Committee set the benchmarked mix of total direct compensation for the Named Executive Officers to be in the following range expressed as a percentage of total direct compensation

Named Executive Officer	Parker H. Petit	William C. Taylor	Michael J. Senken	Roberta L. McCaw
Base Salary As a Percentage of Total Direct Compensation	26%	30%	40%	42%
Annual Cash Incentives As a Percentage of Total Direct Compensation	15%	17%	16%	16%
Long-Term Equity Incentives As a Percentage of Total Direct Compensation	59%	53%	44%	42%
Total	100%	100%	100%	100%

The Company's overall success is dependent upon the aggressive pursuit and achievement of the Company's growth, profit, cash flow and strategic goals. The Compensation Committee believes that the Company's compensation philosophy and practices for its Named Executive Officers will continue to serve those goals and, therefore, will continue to consist of a mix of competitive base compensation, annual cash incentives and long-term equity incentives.

Base Salary

MiMedx employees, including its Named Executive Officers, are paid a base salary commensurate with the responsibilities of their positions, the skills and experience required for the position, their individual performance, business performance, labor market conditions and with reference to peer company salary levels.

The annual base salary rates in effect at the start of fiscal year 2013 and the base rates of pay effective April 1, 2013 and April 1, 2014, for the Company's Named Executive Officers are listed below:

Named Executive Officer	Base Salary Rate at		Base Salary Rate
	Start of 2013	Effective April 1, 2013	Effective April 1, 2014
Parker H. Petit	\$425,000	\$480,000	\$528,000
William C. Taylor	\$360,000	\$395,000	\$434,500
Michael J. Senken	\$250,000	\$275,000	\$302,500
Roberta L. McCaw (1)	\$240,000	\$240,000	\$264,000

(1) Prior to May 2013, Ms. McCaw was an attorney in private practice and an independent contractor, who devoted approximately 30 hours per week to services to MiMedx. In May 2013, Ms. McCaw changed her status from an independent contractor to an employee. Her hours and base compensation were unchanged.

In setting annual base salaries for the Named Executive Officers for fiscal 2013, the Compensation Committee reviewed compensation for comparable positions in the peer group companies. The Committee also took into account the scope of each executive's responsibilities, skills, experience and performance. With respect to the CEO, the Committee considered the annual performance evaluation conducted by the Compensation Committee with respect to fiscal 2012. The Committee concluded that under Mr. Petit's leadership and vision, 2012 was an excellent year with outstanding strategic and growth accomplishments and milestones:

Revenue for 2012 was approximately 3.5 times 2011 revenue and exceeded full year budgeted revenue of \$23 million by close to \$4 million. The fourth quarter of 2012 was the 5th consecutive quarter in which MiMedx met or exceeded its revenue goals.

The fourth quarter of 2012 marked the 8th consecutive quarter in which the Company reported improved gross profit margins. In the third quarter of 2012, the Company achieved its goal of gross margins in excess of 80%. The Company's fourth quarter 2012 gross margins were more than a 23 percentage point improvement over fourth quarter of 2011 gross margins.

The Company made certain key strategic decisions during 2012 that dramatically escalated the Company's share value and market cap and created the foundation for significant top line growth and increases in market share. Late in the second quarter, the Company added a National Sales Director to head up the government sector of its direct sales force. In the third quarter, the Company commenced its strategy to aggressively establish a direct sales force to serve the Veterans Administration ("VA") hospitals, adding 21 members to its government-focused team of sales executives. MiMedx also commenced the strategic move to a direct sales force in the commercial wound care vertical by adding a National Sales Director in the third quarter and five new sales executives to this team during the fourth quarter of 2012.

The Company's sales force expansion strategy proved to be extremely successful as MiMedx gained a sizeable share of the VA market sector during the second half of 2012. In concert with its direct sales force strategy, MiMedx consolidated its contracted distributors from 56 to 30.

To serve the increased demand for the Company's allografts, MiMedx implemented continual expansions to its tissue processing operations, placenta recovery operations and the infrastructure support functions, such as Information Technology, Finance & Accounting, Sales Administration, Human Resources, and Quality Assurance. Including the additions to the sales force, MiMedx hired in excess of 120 new employees from April through December of 2012, which significantly improved the quality and depth of the organization.

The Company's executives presented at nine major investor conferences and began the process of gaining institutional investors.

• Through callable warrants, the Company raised approximately \$4.9 million in 2012.

The Company completed its first EpiFix® Randomized Controlled Trial, which demonstrated that 92% of the patients treated with EpiFix® fully healed in six weeks. Also during 2012, MiMedx initiated four new clinical trials, completed

phases 1 and 2 of a study of the scientific characterization of the Company's amniotic allografts, and had two scientific articles published.

In the last quarter of 2012, MiMedx received its first patent for placental tissue grafts, and ended the year with more than 20 additional patent applications pending relating to the Company's placental tissue allografts and supporting technologies.

MiMedx received the Medicare C-code for its EpiFix® grafts on January 1, 2012. The Company recruited a team of experts in the reimbursement arena to focus on reimbursement coverage processes. With the excellent results emanating from the Company's clinical studies, by the end of 2012, MiMedx had received positive indications of coverage from five of the nine Medicare Administrative Contractors ("MACs"). In the last quarter of 2012, MiMedx brought its Reimbursement Call Center in-house to gain better control.

In the first quarter of 2012, the Company achieved its goal of positive Earnings Before Interest, Taxes, Depreciation, Amortization and Share-Based Compensation ("Adjusted EBITDA") for the first time. Even with increased spending in sales, management and other infrastructure and significant investments in clinical trials, the Company continued to maintain positive Adjusted EBITDA each quarter. Although the Company did not achieve its forecasted Adjusted EBITDA for the year due to the above referenced strategic decisions and resultant costs, the decisions proved to be in the best interest of the Company and its shareholders.

MiMedx expanded its placenta recovery network to ensure the availability of placental tissue to meet expected demand. The Company began the year with a run rate of slightly over 100 donors per month and ended the year with a run rate of 450 donors per month. During the year, MiMedx added 15 contracted hospitals for placenta procurement. The Company expanded its processing operations to ensure that the ongoing and potential demand for AmnioFix® and EpiFix® allografts can consistently be produced. During the year, MiMedx added key executives to this area of the Company and significantly expanded the laboratory operations staff and resources. Laboratory processing capacity at the beginning of the year was less than 25 placentas per week, and was expanded to 130 per week by the end of the year.

In setting annual base salaries for the Named Executive Officers for fiscal 2014, the Compensation Committee reviewed compensation for comparable positions in the peer group companies. The Committee also took into account the scope of each executive's responsibilities, skills, experience and performance. With respect to the CEO, the Committee considered the annual performance evaluation conducted by the Compensation Committee, which had concluded that Mr. Petit's performance in 2013 had been exceptional, as well as the fact that fiscal year 2013 was a monumental year for MiMedx. Under Mr. Petit's leadership, MiMedx realized significant revenue growth and achieved substantial progress and successes in reimbursement coverage, clinical studies and publications, protection of intellectual property, build-out of corporate infrastructure, and sales force expansion. The Company's achievements in 2013 are summarized as follows:

Revenue for 2013 of \$59.3 million was approximately 2.2 times 2012 revenue. The Company exceeded full year budgeted revenue of \$53 million by more than 10%. The fourth quarter of 2013 was the ninth consecutive quarter in which the Company met or exceeded its revenue goals.

The fourth quarter of 2013 marked the eighth consecutive quarter of positive Adjusted EBITDA (defined as Earnings Before Interest, Taxes, Depreciation, Amortization and Share-Based Compensation). The Company's full year 2013 gross margins of 84% represented a three percentage point improvement over 2012 record gross margins of 81%.

In the third quarter, for the first time in Company history, MiMedx achieved its goal of positive quarterly cash flow from operations. The fourth quarter cash flow from operations continued and grew this positive trend.

Throughout 2013, the Company aggressively expanded its direct sales force in key sales verticals and markets and in key geographies.

The FDA's "Untitled Letter" questioning the Company's micronized products' status for marketing solely under Section 361 was an unexpected event during the year. The organization responded extremely well to this with a quick and detailed response to the FDA and its up-front messaging to the investment community and physician customers. The Company is diligently pursuing a Biologics License Application with the FDA.

Although not as aggressive as the expansion of the sales force, on an as-needed basis, MiMedx grew the capabilities and staff within all of its infrastructure support functions.

MiMedx executives presented at a dozen highly recognized investor conferences and secured coverage from 4 analysts reporting on the Company. At the close of 2013, the Company had nearly 30% institutional ownership, as compared to approximately 2% at the beginning of 2013.

The Company's December 2013 follow-on offering of common stock was more than five times oversubscribed.

MiMedx fulfilled its strategy of securing a listing on NASDAQ. This milestone facilitated the goal of broadening the Company's exposure to the investment community and increasing the trading volume in MiMedx stock.

The Company was granted ten new patents during 2013, and by the end of 2013, MiMedx had 11 dehydrated human amnion/chorion membrane ("dHACM")-based U.S. patents. MiMedx currently has more than 50 additional amnion patent submissions under various stages of review by the US Patent and Trademark Office.

MiMedx provided a wealth of detailed analytics to the Centers for Medicare and Medicaid ("CMS") in support of their Hospital Outpatient Prospective Payment System (OPPS) Pricing Rule to package the reimbursement for certain products

used in advanced wound care with the related surgical procedure. The Company expects the CMS final rule to have a positive impact on revenues in 2014.

The Company effectively executed on its comprehensive reimbursement coverage strategy. Based on the excellent results from its clinical studies, MiMedx successfully secured coverage from six of the eight Medicare Administrative Contractors (“MACs”) by the end of 2013.

The Company maintained an aggressive schedule of clinical studies, including Randomized Controlled Trials, Crossover Studies and follow-up studies, which chronicled the clinical effectiveness of the MiMedx dHACM allografts. In the collective body of work resulting from the studies, the results achieved were remarkable and compelling.

MiMedx continued to execute on its strategic focus to expand its placenta recovery network and ensure the ongoing and potential demand for its dHACM allografts is fully served. Currently, MiMedx has secured relationships with hospitals and physician practices that will allow for placenta procurement adequate enough for close to \$500 million in revenue.

The Company continued its progress in gaining greater degrees of efficiency and capacity in its processing operations.

Cash Incentives

Annual cash bonuses for the Named Executive Officers and other executives are determined under the Company’s Management Incentive Plan (the “MIP”), which is an annual cash incentive plan that is designed to incentivize and reward achievement of the current year’s financial and operational goals.

Each of the Named Executive Officers and other executives that report directly to the Chairman and Chief Executive Officer or President and Chief Operating Officer are eligible to participate in the MIP (“MIP Participants”), with a targeted base bonus equal to a specified percentage of his/her base salary.

Payment of bonuses under the MIP is contingent on the achievement of annual performance measures specific to each fiscal year. In the first quarter of each fiscal year, the Compensation Committee approves and recommends to the full Board the MIP criteria for targeted incentive amounts, eligibility, performance measures and calculation formula of earned incentives.

2013 MIP

The 2013 MIP was adopted in March 2013. For 2013, each of the Named Executive Officers and other MIP Participants participated in the 2013 MIP with a targeted Base Bonus amount expressed as a percentage of annual base salary to be earned based upon the achievement of a combination of the Company’s consolidated 2013 revenue and 2013 Earnings Before Interest, Taxes, Depreciation, Amortization and Share-Based Compensation (“Adjusted EBITDA”) targets. Eighty percent of each Named Executive Officer’s targeted Base Bonus was based upon 2013 revenue, and 20% was based on 2013 Adjusted EBITDA. Provided a threshold level of 2013 Adjusted EBITDA was achieved, the incentive payments for revenue performance and Adjusted EBITDA performance were to be calculated independent of the other component.

An excess incentive amount (“Excess Bonus”), as recommended by the Compensation Committee and approved by the Board of Directors, could be earned for 2013 Revenue and/or 2013 Adjusted EBITDA performance that exceeded the respective targets, provided the total payment did not exceed two times the targeted Base Bonus amount for the respective Named Executive Officer or other MIP Participant.

For each MIP Participant, the Compensation Committee established a target base bonus (the “Base Bonus”). The 2013 target Base Bonus for Named Executive Officers ranged from 40% to 55% of year-end base salary. The Adjusted EBITDA target (“Adjusted EBITDA Target”) was set based on the Company’s 2013 operating budget approved by the Board of Directors in December 2012. The Compensation Committee believes that an important aspect of the MIP is

that it is “self-funding,” in that a minimum level of performance against the targets must be achieved in order for any bonus payments to be made. Therefore, the achievement of a threshold level of Adjusted EBITDA performance (“Adjusted EBITDA Threshold”) was a condition to any payment based on Adjusted EBITDA or revenue. Named Executive Officers had an opportunity to earn a base bonus as follows:

EBITDA Performance

The Board established the percentage of the applicable Base Bonus that was payable based on the achievement of specified levels of 2013 Adjusted EBITDA performance between the Adjusted EBITDA Threshold of \$4.5 million and the Adjusted EBITDA Target of \$7.7 million.

No portion of the Base Bonus allocated to Adjusted EBITDA performance was eligible for payment unless the Adjusted EBITDA Threshold was exceeded.

Between 1% and 100% of the Base Bonus allocated to Adjusted EBITDA performance was payable if EBITDA performance was between the Adjusted EBITDA Threshold and the Adjusted EBITDA Target.

Revenue Performance

The Board established a minimum level of revenue for any payment based on revenue (the "Revenue Minimum") and a target revenue level (the "Revenue Target") and the percentage of the applicable Base Bonus that was payable based on the achievement of specified levels of 2013 performance between the Revenue Minimum of \$47.7 million and the Revenue Target of \$53.0 million.

No portion of the Base Bonus allocated to revenue performance was eligible for payment unless the Adjusted EBITDA Threshold and Revenue Minimum were achieved.

Assuming the Adjusted EBITDA Threshold and Revenue Minimum were achieved, payment of between 1% and 100% of the Base Bonus allocated to revenue performance was payable.

The Company's 2013 Adjusted EBITDA was \$5.5 million. Therefore, the 2013 Adjusted EBITDA Threshold was achieved, but the 2013 Adjusted EBITDA Target was not. Based on the achieved level of 2013 Adjusted EBITDA, participants earned 50% of the Base Bonus allocated to Adjusted EBITDA. The Company's 2013 revenue of \$59.2 exceeded both the 2013 Revenue Minimum and the 2013 Revenue Target, which meant that 100% of the Base Bonus allocated to revenue performance was earned and participants were eligible for Excess Bonus as determined in the discretion of the Board. The Excess Bonus amount was recommended by the Compensation Committee and approved by the Board. The Excess Bonus represented an additional gross amount equal to 10.8% of each Named Executive Officer's respective annual base salary.

The table below presents the targeted Base Bonus in dollars and expressed as a percentage of base salary for each of the Company's Named Executive Officers, as well as the actual Base Bonus and Excess Bonus earned in 2013. The bonuses were paid in February 2014.

Named Executive Officer	Target Base Bonus as % of 2013 Base Salary	Target Base Bonus Amount	Actual Base Bonus Payment	Actual Excess Bonus Payment	Actual Total 2013 MIP Payment
Parker H. Petit	55%	\$264,000	\$237,600	\$54,921	\$292,521
William C. Taylor	55%	\$217,250	\$195,525	\$45,196	\$240,721
Michael J. Senken	40%	\$110,000	\$99,000	\$22,884	\$121,884
Roberta L. McCaw	40%	\$96,000	\$86,400	\$19,971	\$106,371

2014 MIP

The 2014 MIP was adopted in February 2014. Although the Revenue and EBITDA targets are based on expectations for the 2014 fiscal year, the design of the 2014 MIP is similar to the 2013 MIP. The Named Executive Officers' targeted Base Bonus percentages for 2014 are the same as the percentages in 2013. The key differences between the 2014 MIP and the 2013 MIP are as follows:

Ninety percent of each Named Executive's targeted Base Bonus is based upon 2014 MiMedx Revenue, and 10% is based on 2014 Adjusted EBITDA, whereas in 2013, 80% of the bonus was based on Revenue and 20% was based on Adjusted EBITDA.

The Excess Bonus is established to be earned and paid in accordance with a formula based on 2014 actual revenue that exceeds the 2014 Revenue Target, whereas in 2013, the Excess Bonus was determined by the Board in its discretion for revenue or Adjusted EBITDA that exceeded the respective targets.

Long-Term Equity Incentives

The Company's stock option and restricted stock awards are administered through the Company's Assumed 2006 Stock Incentive Plan ("2006 Stock Incentive Plan") and are designed to align the interests of the Company's Named Executive Officers and other MiMedx officers and members of management with the interests of the Company's shareholders, and serve as a key retention tool. Stock options and restricted stock vest over a period of time. The Committee believes that a vesting period is a positive motivator for the Company's officers and management to focus their strategy and efforts on the Company's long-term goals. Working toward the long term growth of the price of the Company's stock produces the ultimate financial gain for the executives' equity awards and increase in value for the Company's shareholders.

Historically, the Company granted only stock options under the 2006 Stock Incentive Plan and the Compensation Committee continues to believe that options are the most appropriate method of rewarding and incentivizing long-term performance. Beginning in October 2012, however, the Committee adopted the strategy of granting restricted stock in lieu of or in combination with stock option grants in certain instances where the Compensation Committee believes that a restricted stock grant is a more efficient way to reward and motivate superior performance. The Compensation Committee recognized that stock options are an effective form of equity compensation that motivates the Named Executive Officers and other executives to rigorously pursue the long term strategic goals of the Company. This alignment occurs because stock options only have value when the Company's stock price increases over time. The Compensation Committee also believes that restricted stock awards are an effective form of equity compensation because they are a strong retention tool for Named Executive Officers and other key executives. Restricted stock awards increase in value as the Company's stock price increases over time, but they also continue to have value in the event of a stock price decline. Thus, unlike stock options, restricted stock does not lose its retention value in the event of a decline in stock price. Additionally, the Compensation Committee recognized that restricted stock awards are becoming an increasingly prevalent tool in the incentive compensation reported by the peer group of publicly-traded companies. The Compensation Committee and management consider the circumstances of each equity grant and determine whether granting stock options exclusively, restricted stock in lieu of stock options, or restricted stock in combination with stock options is most likely to achieve the Company's motivational, retention and/or recruiting objectives.

Based on the peer group competitive data, the Committee has established a target annual long-term incentive value as a guide by which to measure the appropriate and competitive value of the annual equity grant approved for each Named Executive Officer. The target is derived from the peer group of publicly-traded companies and is expressed as a percentage of the Named Executive Officer's annual base salary.

In determining the approved level of equity grants, the Compensation Committee considers the individual's target annual long term incentive value, the Company's overall option "overhang," the employee's level of responsibility and performance, prior equity awards, comparative compensation information and the anticipated expense to the Company. Although the Compensation Committee's philosophy is to benchmark long-term equity incentive awards at the 60th to 75th percentile of awards to similarly-situated executives of companies in the peer group, because of the impact on the shares available for issuance under the Company's long-term incentive plans and the expense that would be associated with grants at that level, the actual level of the equity awards to the Named Executive Officers in 2013 were less than the target.

In 2013, all awards of stock options and restricted stock were dated and priced as follows:

- All awards of stock options and awards of restricted stock to current employees and independent contractors were granted and priced, as applicable, as of the close of the business day on which the Committee approved the grant.
- All awards of stock options and awards of restricted stock granted to newly-hired employees and independent contractors whose employment or engagement had not yet commenced on the date approved by the Committee were granted and priced, as applicable, as of the later of the business day on which the Compensation Committee approved

such grants or the date of employment or engagement, as applicable.

Vesting of awards under the 2006 Stock Incentive Plan is established by the Committee at the time of the grant. To optimize the retention value of the awards and to orient recipients to the achievement of longer-term goals, objectives and success, all 2013 awards vest in three equal installments on the first, second and third anniversaries of the Grant Date.

Historically, the Company has made a broad performance-based annual grant of stock options to its management employees, including the Named Executive Officers, in February or March of each year. It is the Compensation Committee's intention to continue the practice of granting annual awards at the time of the Compensation Committee's February or March meeting. In addition to the Company's broad performance-based annual grant to Named Executive Officers and certain other management employees, the Company made additional grants of stock options throughout the year to newly-hired officers and

managers and to existing management to attract management talent to join the Company, to reward specific performance, in connection with promotions or other achievements and to address specific retention concerns.

In 2013, all equity-based awards were issued under plans previously approved by the Company's shareholders.

2013 and 2014 Stock Options and Restricted Stock Granted to Named Executive Officers

Although the Compensation Committee's philosophy is to benchmark long-term equity incentive awards at the 60th to 75th percentile of awards to similarly-situated executives of companies in the peer group, because of the impact on the shares available for issuance under the Company's long-term incentive plans and the expense that would be associated with grants at that level, the actual level of the equity awards to the Named Executive Officers in the March 6, 2013, annual grant were less than the benchmark.

On March 6, 2013, Mr. Petit was granted an option to purchase 250,000 shares of common stock and awarded 80,000 restricted shares. On October 29, 2013, Mr. Petit was granted an option to purchase 75,000 shares and awarded 26,000 restricted shares. On February 25, 2014, Mr. Petit was granted an option to purchase 177,110 shares and awarded 57,037 restricted shares.

On March 6, 2013, Mr. Taylor was granted an option to purchase 165,000 shares and awarded 55,000 restricted shares. On October 29, 2013, Mr. Taylor was granted an option to purchase 50,000 shares and awarded 18,000 restricted shares. On February 25, 2014, Mr. Taylor was granted an option to purchase 113,359 shares and awarded 36,506 restricted shares.

On March 6, 2013, Mr. Senken was awarded a stock option to purchase 75,000 shares and awarded 25,000 restricted shares. On October 29, 2013, Mr. Senken was awarded a stock option to purchase 17,500 shares and awarded 8,250 restricted shares. On February 25, 2014, Mr. Senken was awarded a stock option to purchase 49,607 shares and awarded 15,976 restricted shares.

On March 6, 2013, Ms. McCaw was granted an option to purchase 53,000 shares and awarded 14,000 restricted shares. On February 25, 2014, Ms. McCaw was granted an option to purchase 35,780 shares and awarded 11,523 restricted shares.

The grants made to Mr. Petit, Mr. Taylor and Mr. Senken on October 29, 2013, were made in recognition of their respective contributions to the Company's outstanding performance during the first nine months of the year and to supplement their March 6, 2013, annual grants, which were less than the benchmarked grant fair value for their respective positions. The fair value of the combined March 6, 2013, and October 29, 2013, grants to Mr. Petit, Mr. Taylor, Mr. Senken and Ms. McCaw were, \$1,502,383, \$1,026,704, \$450,122, and \$227,422, respectively.

Perquisites

The Company does not provide executive officers with perquisites and other personal benefits beyond the Company benefits offered to similarly situated employees.

Employment Agreements

The Company's philosophy is to enter into employment agreements with Named Executive Officers when necessary and appropriate based upon the particular facts and circumstances involved in the individual employment relationship. Currently, the Company does not have any employment agreements with any of the Named Executive Officers; however, as described in more detail below, the Company has entered into change in control severance agreements with three of the four Named Executive Officers. If in the future, employment agreements are entered into between a Named Executive Officer and the Company, the Compensation Committee will be responsible for the review and

approval of the terms and conditions of any such employment agreements.

Retirement and Other Benefits

Savings Plan

The 401(k) savings plan is a broad-based tax-qualified retirement savings plan to which all employees, including the Named Executive Officers, may contribute an amount equal to the limit prescribed by the Internal Revenue Service on a before-tax basis. In 2013, the Company did not provide for a matching contribution. The Company intends to institute a matching contribution at a later date. The future effective date and the formula for matching of the participant's voluntary salary contributions have not yet been determined.

Benefits upon a Change in Control

The Company has entered into change-in-control severance agreements with Mr. Petit, Mr. Taylor and Mr. Senken to provide for severance compensation should their employment be terminated under certain defined circumstances. In 2013, the lump sum severance payable as a multiple of Mr. Taylor's and Mr. Senken's respective base salaries and target base bonuses was increased to be more in line with that of the peer group companies. The Compensation Committee believes that the severance arrangements are key components to a competitive compensation package and, as modified, are in line with that of companies in the peer group. In addition, the Compensation Committee believes that the change-in-control severance arrangements will help the Company retain its executive leadership in the event of a possible change in control and should such change in control occur, will help retain executive talent for the new organization.

The agreements provide for compensation to the executive in the event the executive's employment with the Company is terminated following the consummation of a "change-in-control" for reasons other than the executive's death, disability or for "Cause" (as defined in the respective agreements), or if the executive voluntarily terminates employment for "Good Reason" (as defined in the respective agreements). The compensation payable under the agreements is a lump sum severance payment equal to a multiple of the executive's annual base salary and targeted base bonus as of the date of the change-in-control. The multiple applicable to Mr. Petit is three times his base salary and targeted base bonus. The multiple applicable to Mr. Taylor is two times his base salary and targeted base bonus; and the multiple applicable to Mr. Senken is one and one-half times his base salary and targeted base bonus. In addition, following termination of employment, the executives are entitled to receive for a period of three years in the case of Mr. Petit, two years in the case of Mr. Taylor and eighteen months in the case of Mr. Senken, health insurance coverage (subject to a COBRA election), life insurance and certain other fringe benefits equivalent to those in effect at the date of termination and will be entitled to receive additional amounts, if any, relating to any excise taxes imposed on the executive as a result of Section 280G of the Code. The agreements require the executive to comply with certain covenants that preclude the executive from competing with the Company or soliciting customers or employees of the Company for a period following termination of employment equal to the period for which fringe benefits are continued under the applicable agreement. The agreements expire three years after a change in control of the Company or any successor to the Company.

The change-in-control severance agreements with Mr. Petit, Mr. Taylor and Mr. Senken do not influence the vesting status of outstanding stock options and restricted stock under the 2006 Stock Incentive Plan. However, under the terms of the 2006 Stock Incentive Plan, in the event of a Change in Control as defined in the 2006 Stock Incentive Plan, all Awards vest and become immediately exercisable in full.

A calculation of the potential post-employment payments due to the specified Named Executive Officers under the agreements discussed above assuming the triggering event for the payments occurred on the last business day of the year ended December 31, 2013, is set forth below under the heading "Potential Payments Upon Termination or Change In Control."

Tax Considerations

Section 162(m) of the Internal Revenue Code of 1986, as amended, generally limits to \$1 million the tax deductions a public company can take for compensation paid to each of the Company's Named Executive Officers. Qualifying performance-based compensation will not be subject to the deduction limitation if certain requirements are met. Since all of the Company's equity incentive programs are linked to the financial performance of the Company, the Company does not believe its executive compensation payments will be subject to the limitations of Section 162(m). The Committee reserves the right, however, to use its judgment to authorize compensation payments that would trigger non-deductibility under Section 162(m) when the Committee believes such payments are appropriate and in the best interests of the Company's shareholders.

Sections 280G and 4999 of the Internal Revenue Code impose an excise tax on certain payments to executives made in conjunction with a change in control and make such payments non-deductible to the Company. The effects of Sections 280G and 4999 generally are unpredictable and can have widely divergent and unexpected effects based on an executive's personal compensation history. To ensure that Mr. Petit, Mr. Taylor and Mr. Senken receive the levels of compensation and benefits that the Company intends, the Compensation Committee and the Board of Directors determined that it would be appropriate to pay the cost of any excise tax imposed under Sections 280G and 4999, in the event that such provisions become applicable, plus an amount needed to pay income taxes on such additional payments. Mr. Petit's, Mr. Taylor's and Mr. Senken's respective change in control severance agreements provide for such a gross-up payment. The Compensation Committee and the Board of Directors believe these gross-up payments, in the event that such payments would be applicable, are consistent with the Compensation Committee's philosophy of providing its Named Executive Officers with compensation that is competitive with the market's practices and requirements.

The Committee has reviewed the Compensation Discussion and Analysis and discussed that document with management. Potential Payments upon Termination or Change in Control

The Company has entered into change-in-control severance agreements with Messrs. Petit, Taylor and Senken. The agreements provide for compensation to the executive in the event the executive's employment with the Company is terminated following the consummation of a "change-in-control" for reasons other than the executive's death, disability or for "Cause" (as defined in the respective agreements), or if the executive voluntarily terminates employment for "Good Reason" (as defined in the respective agreements). The compensation payable under the agreements is a lump sum severance payment equal to a multiple of the executive's annual base salary and targeted base bonus as of the date of the change-in-control. The multiple applicable to Mr. Petit is three. The multiple applicable to Mr. Taylor is two and the multiple applicable to Mr. Senken is one and a half. In addition, following termination of employment, these executives are entitled to receive for a period of three years in the case of Mr. Petit, two years in the case of Mr. Taylor and eighteen months in the case of Mr. Senken life, health insurance

coverage (subject to a COBRA election), and certain other fringe benefits equivalent to those in effect at the date of termination and will be entitled to receive additional amounts, if any, relating to any excise taxes imposed on the executive as a result of Section 280G of the Code. The agreements require the executive to comply with certain covenants that preclude the executive from competing with the Company or soliciting customers or employees of the Company for a period following termination of employment equal to the period for which fringe benefits are continued under the applicable agreement. The agreements expire three years after a change in control of the Company or any successor to the Company.

Upon a “change in control,” as defined in the 2006 Stock Incentive Plan and subject to any requirements of Section 409A of the Internal Revenue Code of 1986, as amended (the “Code”), all outstanding awards vest and become exercisable.

The following table sets forth in tabular form estimates of the potential post-employment payments due to the Named Executive Officers under the agreements discussed above and the 2006 Stock Incentive Plan, assuming the triggering event for the payments occurred on the last business day of the last fiscal year.
