New Residential Investment Corp.
Form 10-Q
May 15, 2014

UNITED STATES

SECURITIES AND EXCHANGE COMMISSION

Washington, D.C. 20549

FORM 10-Q

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended March 31, 2014

or

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from ________________to________________

Commission File Number: 001-35777

New Residential Investment Corp.

(Exact name of registrant as specified in its charter)

Delaware 45-3449660

(State or other jurisdiction of incorporation or organization)	(I.R.S. Employer Identification No.)
1345 Avenue of the Americas, New York, NY	10105
(Address of principal executive offices)	(Zip Code)

(212) 798-3150
(Registrant's telephone number, including area code)

(Former name, former address and former fiscal year, if changed since last report)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulations S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of "large accelerated filer," "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer Accelerated filer Non-accelerated filer (Do not check if a smaller reporting company) Smaller reporting company

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

Indicate the number of shares outstanding of each of the issuer's classes of common stock, as of the last practicable date.

Common stock, $0.01 par value per share: 281,959,669 shares outstanding as of May 8, 2014.

CAUTIONARY STATEMENT REGARDING FORWARD-LOOKING STATEMENTS

This report contains certain “forward-looking statements” within the meaning of the Private Securities Litigation Reform Act of 1995, which statements involve substantial risks and uncertainties. Such forward-looking statements relate to, among other things, the operating performance of our investments, the stability of our earnings, our financing needs and the size and attractiveness of market opportunities. Forward-looking statements are generally identifiable by use of forward-looking terminology such as “may,” “will,” “should,” “potential,” “intend,” “expect,” “endeavor “seek,” “anticipate,” “estimate,” “overestimate,” “underestimate,” “believe,” “could,” “project,” “predict,” “continue” or other or expressions. Forward-looking statements are based on certain assumptions, discuss future expectations, describe future plans and strategies, contain projections of results of operations, cash flows or financial condition or state other forward-looking information. Our ability to predict results or the actual outcome of future plans or strategies is inherently uncertain. Although we believe that the expectations reflected in such forward-looking statements are based on reasonable assumptions, our actual results and performance could differ materially from those set forth in the forward-looking statements. These forward-looking statements involve risks, uncertainties and other factors that may cause our actual results in future periods to differ materially from forecasted results. Factors which could have a material adverse effect on our operations and future prospects include, but are not limited to:

- reductions in cash flows received from our investments;
- the quality and size of the investment pipeline and our ability to take advantage of investment opportunities at attractive risk-adjusted prices;
- servicer advances may not be recoverable or may take longer to recover than we expect, which could cause us to fail to achieve our targeted return on our investment in servicer advances;
- our ability to deploy capital accretively and the timing of such deployment;
- our counterparty concentration and default risks in Nationstar, Springleaf and other third-parties;
- a lack of liquidity surrounding our investments, which could impede our ability to vary our portfolio in an appropriate manner;
- the impact that risks associated with subprime mortgage loans and consumer loans, as well as deficiencies in servicing and foreclosure practices, may have on the value of our Excess MSRs, servicer advances, RMBS and consumer loan portfolios;
- the risks that default and recovery rates on our Excess MSRs, servicer advances, real estate securities, residential mortgage loans and consumer loans deteriorate compared to our underwriting estimates;
- changes in prepayment rates on the loans underlying certain of our assets, including, but not limited to, our Excess MSRs;
- the risk that projected recapture rates on the portfolios underlying our Excess MSRs are not achieved;

- the relationship between yields on assets which are paid off and yields on assets in which such monies can be reinvested;

- the relative spreads between the yield on the assets we invest in and the cost of financing;

- changes in economic conditions generally and the real estate and bond markets specifically;

- adverse changes in the financing markets we access affecting our ability to finance our investments on attractive terms, or at all;

- changing risk assessments by lenders that potentially lead to increased margin calls, not extending our repurchase agreements or other financings in accordance with their current terms or not entering into new financings with us;

- changes in interest rates and/or credit spreads, as well as the success of any hedging strategy we may undertake in relation to such changes;
- impairments in the value of the collateral underlying our investments and the relation of any such impairments to our judgments as to whether changes in the market value of our securities or loans are temporary or not and whether circumstances bearing on the value of such assets warrant changes in carrying values;
- the availability and terms of capital for future investments;
- competition within the finance and real estate industries;
- the legislative/regulatory environment, including, but not limited to, the impact of the Dodd-Frank Act, U.S. government programs intended to stabilize the economy, the federal conservatorship of Fannie Mae and Freddie Mac and legislation that permits modification of the terms of loans;
- our ability to maintain our qualification as a real estate investment trust ("REIT") for U.S. federal income tax purposes and the potentially onerous consequences that any failure to maintain such qualification would have on our business; and
- our ability to maintain our exclusion from registration under the 1940 Act and the fact that maintaining such exclusion imposes limits on our operations.

We also direct readers to other risks and uncertainties referenced in this report, including those set forth under "Risk Factors." We caution that you should not place undue reliance on any of our forward-looking statements. Further, any forward-looking statement speaks only as of the date on which it is made. New risks and uncertainties arise from time to time, and it is impossible for us to predict those events or how they may affect us. Except as required by law, we are under no obligation (and expressly disclaim any obligation) to update or alter any forward-looking statement, whether written or oral, that we may make from time to time, whether as a result of new information, future events or otherwise.

SPECIAL NOTE REGARDING EXHIBITS

In reviewing the agreements included as exhibits to this Quarterly Report on Form 10-Q, please remember they are included to provide you with information regarding their terms and are not intended to provide any other factual or disclosure information about New Residential Investment Corp. (the "Company," "New Residential" or "we," "our" and "us") the other parties to the agreements. The agreements contain representations and warranties by each of the parties to the applicable agreement. These representations and warranties have been made solely for the benefit of the other parties to the applicable agreement and:

- should not in all instances be treated as categorical statements of fact, but rather as a way of allocating the risk to one of the parties if those statements provide to be inaccurate;
- have been qualified by disclosures that were made to the other party in connection with the negotiation of the applicable agreement, which disclosures are not necessarily reflected in the agreement;
- may apply standards of materiality in a way that is different from what may be viewed as material to you or other investors; and
- were made only as of the date of the applicable agreement or such other date or dates as may be specified in the agreement and are subject to more recent developments.

Accordingly, these representations and warranties may not describe the actual state of affairs as of the date they were made or at any other time. Additional information about the Company may be found elsewhere in this Quarterly Report on Form 10-Q and the Company's other public filings, which are available without charge through the SEC's website at http://www.sec.gov. See "Business – Corporate Governance and Internet Address; Where Readers Can Find Additional Information."

The Company acknowledges that, notwithstanding the inclusion of the foregoing cautionary statements, it is responsible for considering whether additional specific disclosures of material information regarding material contractual provisions are required to make the statements in this report not misleading.

NEW RESIDENTIAL INVESTMENT CORP. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

March 31, 2014

(dollars in tables in thousands, except share data)

1. GENERAL

New Residential Investment Corp. (together with its subsidiaries, "New Residential") is a Delaware corporation that was formed as a limited liability company in September 2011 for the purpose of making real estate related investments and commenced operations on December 8, 2011. On December 20, 2012, New Residential was converted to a corporation. Newcastle Investment Corp. ("Newcastle") was the sole stockholder of New Residential until the spin-off (Note 13), which was completed on May 15, 2013. Newcastle is listed on the New York Stock Exchange ("NYSE") under the symbol "NCT."

Following the spin-off, New Residential is an independent publicly traded real estate investment trust ("REIT") primarily focused on investing in residential mortgage related assets. New Residential is listed on the NYSE under the symbol "NRZ."

New Residential intends to elect and qualify to be taxed as a REIT for U.S. federal income tax purposes for the tax year ended December 31, 2013. As such, New Residential will generally not be subject to U.S. federal corporate income tax on that portion of its net income that is distributed to stockholders if it distributes at least 90% of its REIT taxable income to its stockholders by prescribed dates and complies with various other requirements.

New Residential has entered into a management agreement (the "Management Agreement") with FIG LLC (the "Manager"), an affiliate of Fortress Investment Group LLC ("Fortress"), under which the Manager advises New Residential on various aspects of its business and manages its day-to-day operations, subject to the supervision of New Residential's board of directors. For its services, the Manager is entitled to management fees and incentive compensation, both defined in, and in accordance with the terms of, the Management Agreement. The Manager also manages Newcastle and investment funds that own a majority of Nationstar Mortgage LLC ("Nationstar"), a leading residential mortgage servicer, and Springleaf Holdings, Inc. ("Springleaf"), managing member of the Consumer Loan Companies (Note 9).

As of March 31, 2014, New Residential conducted its business through the following segments: (i) investments in Excess MSRs, (ii) investments in servicer advances, (iii) investments in real estate securities, (iv) investments in real estate loans, (v) investments in consumer loans and (vi) corporate.

Approximately 5.3 million shares of New Residential's common stock were held by Fortress, through its affiliates, and its principals as of March 31, 2014. In addition, Fortress, through its affiliates, held options to purchase approximately 15.2 million shares of New Residential's common stock as of March 31, 2014. For recent activities related to Fortress's ownership of New Residential's common stock and options thereon, see Note 18.

The consolidated financial statements for periods prior to May 15, 2013 have been prepared on a spin-off basis from the consolidated financial statements and accounting records of Newcastle and reflect New Residential's historical results of operations, financial position and cash flows, in accordance with U.S. GAAP. As presented in the Consolidated Statements of Cash Flows, New Residential did not have any cash balance during periods prior to April 5, 2013, which is the first date Newcastle contributed cash to New Residential. All of its cash activity occurred in Newcastle's accounts during these periods. The consolidated financial statements for periods prior to May 15, 2013 do not necessarily reflect what New Residential's consolidated results of operations, financial position and cash flows would have been had New Residential operated as an independent company prior to the spin-off.

Certain expenses of Newcastle, comprised primarily of a portion of its management fee, have been allocated to New Residential to the extent they were directly associated with New Residential for periods prior to the spin-off on May 15, 2013. The portion of the management fee allocated to New Residential prior to the spin-off represents the product of the management fee rate payable by Newcastle (1.5%) and New Residential's gross equity, which management believes is a reasonable method for quantifying the expense of the services provided by the employees of the Manager to New Residential. The incremental cost of certain legal, accounting and other expenses related to

NEW RESIDENTIAL INVESTMENT CORP. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

March 31, 2014

(dollars in tables in thousands, except share data)

New Residential's operations prior to May 15, 2013 are reflected in the accompanying consolidated financial statements. New Residential and Newcastle do not share any expenses following the spin-off.

The accompanying consolidated financial statements and related notes of New Residential have been prepared in accordance with accounting principles generally accepted in the United States for interim financial reporting and the instructions to Form 10-Q and Rule 10-01 of Regulation S-X. Accordingly, certain information and footnote disclosures normally included in financial statements prepared under U.S. generally accepted accounting principles have been condensed or omitted. In the opinion of management, all adjustments considered necessary for a fair presentation of New Residential's financial position, results of operations and cash flows have been included and are of a normal and recurring nature. The operating results presented for interim periods are not necessarily indicative of the results that may be expected for any other interim period or for the entire year. These consolidated financial statements should be read in conjunction with New Residential's consolidated financial statements for the year ended December 31, 2013 and notes thereto included in New Residential's Annual Report on Form 10-K filed with the Securities and Exchange Commission. Capitalized terms used herein, and not otherwise defined, are defined in New Residential's consolidated financial statements for the year ended December 31, 2013.

Recent Accounting Pronouncements

The FASB has recently issued or discussed a number of proposed standards on such topics as consolidation, financial statement presentation, revenue recognition, financial instruments, hedging, and contingencies. Some of the proposed changes are significant and could have a material impact on New Residential's reporting. New Residential has not yet fully evaluated the potential impact of these proposals, but will make such an evaluation as the standards are finalized.

NEW RESIDENTIAL INVESTMENT CORP. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

March 31, 2014

(dollars in tables in thousands, except share data)

As reflected on the consolidated statements of cash flows, accretion of discount and other amortization is comprised of the following:

	Three Months Ended March 31,	
	2014	2013
Accretion of servicer advance interest income	$45,716	$—
Accretion of net discount on securities and loans	356	4,798
Amortization of deferred financing costs	(3,238)	—
	$42,834	$4,798

3. SEGMENT REPORTING

New Residential conducts its business through the following segments: (i) investments in Excess MSRs, (ii) investments in servicer advances, (iii) investments in real estate securities, (iv) investments in real estate loans, (v) investments in consumer loans, and (vi) corporate. The corporate segment consists primarily of (i) general and administrative expenses, (ii) the allocation of management fees by Newcastle until the spin-off on May 15, 2013, (iii) the management fees and incentive compensation owed to the Manager by New Residential following the spin-off, (iv) corporate cash and related interest income, and (v) the secured corporate loan and related interest expense.

Summary financial data on New Residential's segments is given below, together with a reconciliation to the same data for New Residential as a whole:

	Servicing Related Assets		Residential Securities and Loans				
	Excess MSRs	Servicer Advances	Real Estate	Real Estate	Consumer Loans	Corporate	Total

			Securities	Loans

4. INVESTMENTS IN EXCESS MORTGAGE SERVICING RIGHTS AT FAIR VALUE

Pool 1. On December 13, 2011, Newcastle announced the completion of the first co-investment between New Residential and Nationstar in Excess MSRs related to mortgage servicing rights acquired by Nationstar. New Residential invested approximately $43.7 million to acquire a 65% interest in the Excess MSRs on a portfolio of government-sponsored enterprise (“GSE”) residential mortgage loans (“Pool 1”). Nationstar has co-invested on a pari passu basis with New Residential in 35% of the Excess MSRs and is the servicer of the loans, performing all servicing and advancing functions, and retaining the ancillary income, the servicing obligations and liabilities associated with this portfolio as the servicer. Under the terms of this investment, to the extent that any loans in the portfolio are refinanced by Nationstar, the resulting Excess MSRs are shared on a pro rata basis by New Residential and Nationstar, subject to certain limitations.

Pool 2. On June 5, 2012, Newcastle announced the completion of a co-investment between New Residential and Nationstar in Excess MSRs related to mortgage servicing rights Nationstar acquired from Bank of America. New Residential invested approximately $42.3 million to acquire a 65% interest in the Excess MSRs on a portfolio of residential mortgage loans (“Pool 2”), comprised of loans in GSE pools. Nationstar has co-invested on a pari passu basis with New Residential in 35% of the Excess MSRs and is the servicer of the loans, performing all servicing and advancing functions, and retaining the ancillary income, servicing obligations and liabilities associated with this portfolio as the servicer. Under the terms of this investment, to the extent that any loans in the portfolio are

NEW RESIDENTIAL INVESTMENT CORP. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

March 31, 2014

(dollars in tables in thousands, except share data)

refinanced by Nationstar, the resulting Excess MSRs are shared on a pro rata basis by New Residential and Nationstar, subject to certain limitations.

Pools 3, 4 and 5. On June 29, 2012, Newcastle announced the completion of a co-investment between New Residential and Nationstar in Excess MSRs related to mortgage servicing rights Nationstar acquired from Aurora Bank FSB, a subsidiary of Lehman Brothers Bancorp Inc. New Residential invested approximately $176.5 million to acquire a 65% interest in the Excess MSRs on a portfolio of residential mortgage loans, comprised of approximately 25% conforming loans in Fannie Mae (“Pool 3”) and Freddie Mac (“Pool 4”) GSE pools as well as approximately 75% non-conforming loans in private label securitizations (“Pool 5”). Nationstar had co-invested on a pari passu basis with New Residential in 35% of the Excess MSRs and is the servicer of the loans, performing all servicing and advancing functions, and retaining the ancillary income, servicing obligations and liabilities associated with this portfolio as the servicer. In September 2013, New Residential invested an additional $26.6 million to acquire an additional 15% interest in the Excess MSRs related to Pool 5 from Nationstar. Under the terms of this investment, to the extent that any loans in the portfolio are refinanced by Nationstar, the resulting Excess MSRs are shared on a pro rata basis by New Residential and Nationstar, subject to certain limitations. In December 2013, New Residential entered into a corporate loan secured by the Excess MSRs related to Pool 5 (Note 11). New Residential, through co-investments made by its subsidiaries, has separately purchased the servicer advances and the basic fee component of the related MSRs associated with Pool 5. See Note 6 for information on New Residential’s investment in servicer advances with respect to Pool 5.

Pool 11. On May 20, 2013, New Residential entered into an excess spread agreement with Nationstar to purchase a two-thirds interest in the Excess MSRs on a portion of the loans in the pool which are eligible to be refinanced by a specific third party for a period of time for $2.4 million, with Nationstar retaining the remaining one-third interest in the Excess MSRs and all servicing rights. After this period expired, Nationstar acquired the ability to refinance all of the loans in the pool. See Note 5 for information on New Residential’s other agreements with Nationstar with respect to Excess MSRs on Pool 11.

Pool 12. On September 23, 2013, New Residential invested approximately $17.4 million to acquire a 40% interest in the Excess MSRs on a portfolio of residential mortgage loans (“Pool 12”), comprised of loans in private label securitizations. Fortress-managed funds also acquired a 40% interest in the Excess MSRs and the remaining 20%

interest in the Excess MSRs is owned by Nationstar. Nationstar performs all servicing and advancing functions, and it retains the ancillary income, servicing obligations and liabilities associated with this portfolio as the servicer. Under the terms of this investment, to the extent that any loans in the portfolio are refinanced by Nationstar, the resulting Excess MSRs are shared on a pro rata basis by New Residential, the Fortress-managed funds and Nationstar, subject to certain limitations. New Residential, through co-investments made by its subsidiaries, has separately purchased the servicer advances and the basic fee component of the related MSRs associated with this portfolio. See Note 6 for information on New Residential's investment in servicer advances with respect to Pool 12.

Pool 17. On January 17, 2014, New Residential completed an additional closing of Excess MSRs that it agreed to acquire as part of a previously committed transaction between Nationstar and First Tennessee Bank ("Pool 17"). New Residential invested approximately $19.1 million in Pool 17 on loans with an aggregate UPB of approximately $8.1 billion.

New Residential agreed to acquire a one-third interest in Excess MSRs on the portfolio. Fortress-managed funds and Nationstar each agreed to acquire a one-third interest in the Excess MSRs. Nationstar as servicer will perform all servicing and advancing functions, and retain the ancillary income, servicing obligations and liabilities as the servicer of the underlying loans in the portfolio. Under the terms of this investment, to the extent that any loans in the portfolio are refinanced by Nationstar, the resulting Excess MSRs are shared on a pro rata basis by New Residential, the Fortress-managed funds and Nationstar, subject to certain limitations. New Residential, through co-investments made by its subsidiaries, has separately purchased the servicer advances and the basic fee component of the related MSRs associated with this portfolio. See Note 6 for information on New Residential's investment in servicer advances with respect to Pool 17.

Pool 18. In the fourth quarter of 2013, New Residential invested approximately $17.0 million to acquire a 40% interest in the Excess MSRs on a portfolio of residential mortgage loans ("Pool 18") comprised of loans in private

NEW RESIDENTIAL INVESTMENT CORP. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

March 31, 2014

(dollars in tables in thousands, except share data)

label securitizations. Fortress-managed funds also acquired a 40% interest in the Excess MSRs and the remaining 20% interest in the Excess MSR is owned by Nationstar. Nationstar performs all servicing and advancing functions and it retains the ancillary income, servicing obligations and liabilities associated with the portfolio as the servicer. Under the terms of this investment, to the extent that any loans in the portfolio are refinanced by Nationstar, the resulting Excess MSRs are shared on a pro rata basis by New Residential, the Fortress-managed funds and Nationstar, subject to certain limitations. New Residential, through co-investments made by its subsidiaries, has separately purchased the servicer advances and the basic fee component of the related MSRs associated with this portfolio. See Note 6 for information on New Residential's investment in servicer advances with respect to Pool 18.

As described above, New Residential has entered into a "Recapture Agreement" in each of the Excess MSR investments to date, including those Excess MSR investments made through investments in joint ventures (Note 5). Under the Recapture Agreements, New Residential is generally entitled to a pro rata interest in the Excess MSRs on any initial or subsequent refinancing by Nationstar of a loan in the original portfolio. These Recapture Agreements do not apply to New Residential's investments in servicer advances (Note 6).

New Residential elected to record its investments in Excess MSRs at fair value pursuant to the fair value option for financial instruments in order to provide users of the financial statements with better information regarding the effects of prepayment risk and other market factors on the Excess MSRs.

The following is a summary of New Residential's direct investments in Excess MSRs:

	March 31, 2014						Three Months Ended March 31, 2014
	Unpaid Principal	Interest in	Amortized Cost	Carrying Value	Weighted Average	Weighted Average	Changes in Fair Value

	Balance ("UPB") of Underlying Mortgages	Excess MSR	Basis (A)	(B)	Yield	Life (Years) (C)	Recorded in Other Income (D)
MSR Pool 1	$6,626,389	65.0 %	$25,600	$35,442	12.5 %	5.3	$ (114)
MSR Pool 1 - Recapture Agreement	—	65.0 %	517	6,019	12.5 %	12.1	(209)

MSR Pool 4	4,940,045	65.0 %	9,581	13,605	12.5 %	4.9	77
MSR Pool 4 - Recapture Agreement	—	65.0 %	2,144	3,897	12.5 %	12.1	(51)
MSR Pool 5 (E)	35,823,960	80.0 %	115,186	141,967	12.5 %	5.4	3,691
MSR Pool 5 - Recapture Agreement	—	80.0 %	9,193	5,735	12.5 %	13.2	163
MSR Pool 11	444,667	66.7 %	2,059	2,369	12.5 %	6.6	321
MSR Pool 11 - Recapture Agreement	—	66.7 %	254	280	12.5 %	14.0	45
MSR Pool 12 (E)	4,998,929	40.0 %	15,519	17,180	12.5 %	4.5	1,601
MSR Pool 12 - Recapture Agreement	—	40.0 %	467	328	12.5 %	13.0	94
MSR Pool 17 (E)	8,096,439	33.3 %	18,112	18,471	12.5 %	5.2	359
MSR Pool 17 - Recapture Agreement	—	33.3 %	1,123	598	12.5 %	13.0	(526)
MSR Pool 18 (E)	8,463,426	40.0 %	15,157	16,785	12.5 %	4.6	1,624
MSR Pool 18 - Recapture Agreement	—	40.0 %	1,127	775	12.5 %	12.6	141
	$84,678,978		$272,382	$341,704	12.5 %	5.8	$ 6,602

(A) The amortized cost basis of the Recapture Agreements is determined based on the relative fair values of the Recapture Agreements and related Excess MSRs at the time they were acquired.
(B) Carrying Value represents the fair value of the pools or Recapture Agreements, as applicable.
(C) Weighted Average Life represents the weighted average expected timing of the receipt of expected cash flows for this investment.
(D) The portion of the change in fair value of the Recapture Agreements relating to loans recaptured to date is reflected in the respective pool.
(E) Pool in which New Residential also invested in related servicer advances, including the basic fee component of the related MSR as of March 31, 2014 (Note 6).

NEW RESIDENTIAL INVESTMENT CORP. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

March 31, 2014

(dollars in tables in thousands, except share data)

The table below summarizes the geographic distribution of the underlying residential mortgage loans of the direct investments in Excess MSRs as of March 31, 2014:

State Concentration	Percentage of UPB	
California	30.6	%
Florida	9.2	%
New York	4.6	%
Washington	4.1	%
Maryland	4.1	%
Texas	3.9	%
Virginia	3.8	%
Arizona	3.7	%
New Jersey	3.3	%
Colorado	3.0	%
Other U.S.	29.7	%
	100.0	%

Geographic concentrations of investments expose New Residential to the risk of economic downturns within the relevant states. Any such downturn in a state where New Residential holds significant investments could affect the underlying borrower's ability to make mortgage payments and therefore could have a meaningful, negative impact on the Excess MSRs.

5. INVESTMENTS IN EXCESS MORTGAGE SERVICING RIGHTS EQUITY METHOD INVESTEES

New Residential entered into investments in joint ventures ("Excess MSR joint ventures") jointly controlled by New Residential and Fortress-managed funds investing in Excess MSRs. New Residential elected to record these investments at fair value pursuant to the fair value option for financial instruments to provide users of the financial statements with better information regarding the effects of prepayment risk and other market factors.

Pool 6. On January 4, 2013, New Residential, through a joint venture, co-invested in Excess MSRs on a portfolio of Government National Mortgage Association (“Ginnie Mae”) residential mortgage loans (“Pool 6”). Nationstar acquired the related servicing rights from Bank of America in November 2012. New Residential contributed approximately $28.9 million for a 50% interest in a joint venture which acquired an approximately 67% interest in the Excess MSRs on this portfolio. The remaining interests in the joint venture are owned by a Fortress-managed fund and the remaining interest of approximately 33% in the Excess MSRs is owned by Nationstar. Nationstar performs all servicing and advancing functions, and it retains the ancillary income, servicing obligations and liabilities associated with this portfolio as the servicer. Under the terms of this investment, to the extent that any loans in the portfolio are refinanced by Nationstar, the resulting Excess MSRs are shared on a pro rata basis by the joint venture and Nationstar, subject to certain limitations.

Pools 7, 8, 9, 10. On January 6, 2013, New Residential, through joint ventures, agreed to co-invest in Excess MSRs on a portfolio of four pools of residential mortgage loans Nationstar acquired from Bank of America. At the time of acquisition, approximately 53% of the loans in this portfolio were in private label securitizations (“Pool 10”) and the remainder were owned, insured or guaranteed by Fannie Mae (“Pool 7”), Freddie Mac (“Pool 8”) or Ginnie Mae (“Pool 9”). New Residential committed to invest approximately $340 million for a 50% interest in joint ventures which were expected to acquire an approximately 67% interest in the Excess MSRs on these portfolios. The remaining interests in the joint ventures are owned by Fortress-managed funds and the remaining interest of approximately 33% in the Excess MSRs is owned by Nationstar. In September 2013, New Residential and a Fortress-managed fund each invested an additional $13.9 million into the joint venture invested in Pool 10 to acquire

NEW RESIDENTIAL INVESTMENT CORP. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

March 31, 2014

(dollars in tables in thousands, except share data)

an additional 10% in the Excess MSRs held by the joint venture. Nationstar performs all servicing and advancing functions, and it retains the ancillary income, servicing obligations and liabilities associated with this portfolio as the servicer. Under the terms of this investment, to the extent that any loans in the portfolio are refinanced by Nationstar, the resulting Excess MSRs are shared on a pro rata basis by the joint ventures and Nationstar, subject to certain limitations. New Residential, through co-investments made by its subsidiaries, has separately purchased the servicer advances and the basic fee component of the related MSRs associated with Pool 10. See Note 6 for information on New Residential's investment in servicer advances with respect to Pool 10.

Pool 11. On May 20, 2013, New Residential acquired, through a joint venture, an interest in Excess MSRs from Nationstar on a portfolio of Freddie Mac residential mortgage loans ("Pool 11"). New Residential has invested approximately $37.8 million for a 50% interest in a joint venture which acquired an approximately 67% interest in the Excess MSRs on this portfolio. The remaining interests in the joint venture are owned by a Fortress-managed fund and the remaining interest of approximately 33% in the Excess MSR is owned by Nationstar. Nationstar performs all servicing and advancing functions, and it retains the ancillary income, servicing obligations and liabilities associated with this portfolio as the servicer. Under the terms of this investment, to the extent that any loans in the portfolio are refinanced by Nationstar, the resulting Excess MSRs are included in the portfolio, subject to certain limitations. See Note 4 for information on New Residential's other agreements with respect to Pool 11.

The following tables summarize the investments in Excess MSR joint ventures, accounted for as equity method investees held by New Residential:

	March 31, 2014
Excess MSR assets	$673,718
Other assets	7,152
Debt	—
Other liabilities	(4,256)
Equity	$676,614
New Residential's investment	$338,307

New Residential's ownership 50.0 %

	Three Months Ended March 31,	
	2014	2013
Interest income	$18,493	$5,616
Other income (loss)	(5,705)	(3,154)
Expenses	(40)	(524)
Net income	$12,748	$1,938

	$167,359,386			$624,880	$673,718	12.5 %	6.3

(A) Represents the amortized cost basis of the equity method investees in which New Residential holds a 50% interest. The amortized cost basis of the Recapture Agreements is determined based on the relative fair values of the Recapture Agreements and related Excess MSRs at the time they were acquired.

(B) Represents the carrying value of the Excess MSRs held in equity method investees, in which New Residential holds a 50% interest. Carrying value represents the fair value of the pools or Recapture Agreements, as applicable.

(C) The weighted average life represents the weighted average expected timing of the receipt of cash flows of each investment.

(D) Pool in which New Residential also invested in related servicer advances, including the basic fee component of the related MSR as of March 31, 2014 (Note 6).

The table below summarizes the geographic distribution of the underlying residential mortgage loans of the Excess MSR investments made through equity method investees at March 31, 2014:

State Concentration	Percentage of UPB

6. INVESTMENTS IN SERVICER ADVANCES

On December 17, 2013, New Residential and third-party co-investors, through a joint venture entity (Advance Purchaser LLC, the “Buyer”) consolidated by New Residential, agreed to purchase $3.2 billion of outstanding servicer advances on a portfolio of loans, which is a subset of the same portfolio of loans in which New Residential invests in a portion of the Excess MSR (Pools 10, 17 and 18) (Notes 4 and 5), including the basic fee component of the related MSRs. During the three months ended March 31, 2014, the Buyer also agreed to purchase outstanding servicer advances on a portfolio of loans underlying Pools 5 and 12. As of March 31, 2014, New Residential and

NEW RESIDENTIAL INVESTMENT CORP. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

March 31, 2014

(dollars in tables in thousands, except share data)

third-party co-investors had settled $3.4 billion of servicer advances, net of recoveries, financed with $3.1 billion of notes payables outstanding (Note 11). A taxable wholly owned subsidiary of New Residential is the managing member of the Buyer that holds its investments in servicer advances and owned an approximately 33.5% interest in the Buyer as of March 31, 2014. Noncontrolling third-party investors owning the remaining interest in the Buyer have aggregate capital commitments to the Buyer of $390.3 million, which were fully funded as of March 31, 2014. As of March 31, 2014, New Residential had capital commitments to the Buyer of $197.9 million, which were fully funded. The Buyer may call capital up to the commitment amount on unfunded commitments and recall capital to the extent the Buyer makes distributions to the co-investors, including New Residential. Neither the third-party co-investors nor New Residential is obligated to fund amounts in excess of their respective capital commitments, regardless of the capital requirements of the Buyer that holds its investments in servicer advances.

The Buyer has purchased servicer advances from Nationstar, is required to purchase all future servicer advances made with respect to these pools from Nationstar, and receives cash flows from advance recoveries and the basic fee component of the related MSRs, net of compensation paid back to Nationstar in consideration of Nationstar’s servicing activities. The compensation paid to Nationstar is approximately 9.2% of the basic fee component of the related MSRs plus a performance fee that represents a portion (up to 100%) of the cash flows in excess of those required for the Buyer to obtain a specified return on its equity.

New Residential elected to record its investments in servicer advances, including the right to the basic fee component of the related MSRs, at fair value pursuant to the fair value option for financial instruments to provide users of the financial statements with better information regarding the effects of market factors.

The following is a summary of the investments in servicer advances, including the right to the basic fee component of the related MSRs, made by the Buyer, which New Residential consolidates:

March 31, 2014	Three Months Ended

	Amortized Cost Basis	Carrying Value (A)	Weighted Average Yield	Weighted Average Life (Years) (B)	March 31, 2014 Change in Fair Value Recorded in Other Income
Servicer advances	$3,457,385	$3,457,385	5.8 %	3.2	—

(A) Carrying value represents the fair value of the investments in servicer advances, including the basic fee component of the related MSRs.
(B) Weighted Average Life represents the weighted average expected timing of the receipt of expected net cash flows for this investment.

The following is additional information regarding the servicer advances, and related financing, of the Buyer, which New Residential consolidates as of March 31, 2014:

					Loan-to-Value		Cost of Funds (B)	
	UPB of Underlying Residential Mortgage Loans	Outstanding Servicer Advances	Servicer Advances to UPB of Underlying Residential Mortgage Loans	Carrying Value of Notes Payable	Gross	Net (A)	Gross	Net
Servicer advances (C)	$79,687,268	$3,430,473	4.3 %	$3,142,292	91.6 %	90.6 %	3.0 %	2.2 %

(A) Ratio of face amount of borrowings to par amount of servicer advance collateral, net of an interest reserve maintained by the Buyer.
(B) Annualized measure of the cost associated with borrowings. Gross Cost of Funds primarily includes interest expense and facility fees. Net Cost of Funds excludes facility fees.

NEW RESIDENTIAL INVESTMENT CORP. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

March 31, 2014

(dollars in tables in thousands, except share data)

(C) The following types of advances comprise the investments in servicer advances:

	March 31, 2014
Principal and interest advances	$1,615,067
Escrow advances (taxes and insurance advances)	1,393,014
Foreclosure advances	422,392
Total	$3,430,473

Interest income recognized by New Residential related to its investments in servicer advances for the three months ended March 31, 2014 was comprised of the following:

Interest income, gross of amounts attributable to servicer compensation	$67,138
Amounts attributable to servicer compensation	(21,422)
Interest income from investments in servicer advances	$45,716

7. INVESTMENTS IN REAL ESTATE SECURITIES

During the three months ended March 31, 2014, New Residential acquired $1.4 billion face amount of Non-Agency RMBS for approximately $863.4 million and no new Agency ARM RMBS. New Residential sold Non-Agency RMBS with a face amount of approximately $437.9 million and an amortized cost basis of approximately $244.6 million for approximately $248.5 million, recording a gain on sale of approximately $3.8 million. Furthermore, New Residential sold Agency ARM RMBS with a face amount of $154.2 million and an amortized cost basis of approximately $162.2 million for approximately $162.9 million, recording a gain on sale of approximately $0.7 million.

On March 6, 2014, New Residential and Merrill Lynch, Pierce, Fenner & Smith Incorporated entered into an agreement pursuant to which New Residential agreed to purchase approximately $625 million face amount of

Non-Agency residential mortgage securities for approximately $553 million. The purchased securities represent 75% of the mezzanine and subordinate tranches of a securitization previously sponsored by Springleaf. The securitization, including the purchased securities, is collateralized by residential mortgage loans with a face amount of approximately $0.9 billion.

The following is a summary of New Residential's real estate securities as of March 31, 2014, all of which are classified as available-for-sale and are, therefore, reported at fair value with changes in fair value recorded in other comprehensive income, except for securities that are other-than-temporarily impaired.

			Gross Unrealized				Weighted Average					
Asset Type	Outstanding Face Amount	Amortized Cost Basis	Gains	Losses	Carrying Value (A)	Number of Securities	Rating (B)	Coupon	Yield	Life (Years) (C)	Principal Subordination (D)
Agency ARM RMBS (E) (F)	$1,085,447	$1,162,098	$4,131	$(3,579)	$1,162,650	109	AAA	3.16%	1.53%	4.3	N/A
Non-Agency RMBS (G)	1,780,864	1,173,195	14,962	(5,586)	1,182,571	121	CC	0.97%	4.68%	8.4	14.9%
Total/Weighted Average (H)	$2,866,311	$2,335,293	$19,093	$(9,165)	$2,345,221	230	BBB-	1.80%	3.49%	6.8	

(A) Fair value, which is equal to carrying value for all securities. See Note 12 regarding the estimation of fair value.

(B) Represents the weighted average of the ratings of all securities in each asset type, expressed as an S&P equivalent rating. This excludes the ratings of the collateral underlying four bonds that are no longer rated and four bonds for which New Residential was unable to obtain rating information. For each security rated by multiple rating agencies, the lowest rating is used. New Residential used an implied AAA rating for the Agency ARM RMBS. Ratings provided were determined by third party rating agencies, and represent the most recent credit ratings available as of the reporting date and may not be current.

(C) The weighted average life is based on the timing of expected principal reduction on the assets.

17

NEW RESIDENTIAL INVESTMENT CORP. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

March 31, 2014

(dollars in tables in thousands, except share data)

(D) Percentage of the outstanding face amount of securities that is subordinate to New Residential's investments. Excludes Other ABS securities representing 0.2% of the carrying value of the Non-Agency RMBS portfolio.
(E) Includes securities issued or guaranteed by U.S. Government agencies such as the Federal National Mortgage Association ("Fannie Mae") or the Federal Home Loan Mortgage Corporation ("Freddie Mac").
(F) Amortized cost basis and carrying value include principal receivable of $8.6 million.
(G) Includes Other ABS securities representing 0.2% of the carrying value of the Non-Agency RMBS portfolio.

			Gross Unrealized				Weighted Average				
Asset Type	Outstanding Face Amount	Amortized Cost Basis	Gains	Losses	Carrying Value (A)	Number of Securities	Rating (B)	Coupon	Yield	Life (Years) (C)	Principal Subordination (D)
Other ABS	$ 207,431	$ 2,160	$ 60	$ —	$ 2,220	1	N/A	0.21 %	4.93 %	7.5	N/A

(H) The total outstanding face amount was $584.0 million for fixed rate securities and $2.3 billion for floating rate securities.

Unrealized losses that are considered other than temporary are recognized currently in earnings. During the three months ended March 31, 2014, New Residential recorded other-than-temporary impairment charges ("OTTI") of $0.3 million with respect to real estate securities. Any remaining unrealized losses on New Residential's securities were primarily the result of changes in market factors, rather than issue-specific credit impairment. New Residential performed analyses in relation to such securities, using management's best estimate of their cash flows, which support its belief that the carrying values of such securities were fully recoverable over their expected holding period. New Residential has no intent to sell, and is not more likely than not to be required to sell, these securities.

The following table summarizes New Residential's securities in an unrealized loss position as of March 31, 2014.

Amortized Cost Basis	Weighted Average

Securities in an Unrealized Loss Position	Outstanding Face Amount	Before Impairment	Other-Than-Temporary Impairment (A)	After Impairment	Gross Unrealized Losses	Carrying Value	Number of Securities	Rating (B)	Coupon	Yield	Life (Years
Less than Twelve Months	$1,165,919	$1,046,734	$(1,090)	$1,045,644	$(8,843)	$1,036,801	80	BBB	1.90%	3.55%	6.2
Twelve or More Months	47,733	51,102	(703)	50,399	(322)	50,077	8	AAA	3.32%	1.40%	3.5
Total/Weighted Average	$1,213,652	$1,097,836	$(1,793)	$1,096,043	$(9,165)	$1,086,878	88	BBB+	1.96%	3.46%	6.1

(A) This amount represents other-than-temporary impairment recorded on securities that are in an unrealized loss position as of March 31, 2014.

(B) The rating of securities in an unrealized loss position for less than twelve months excludes the rating of one bond which has not been rated.

New Residential performed an assessment of all of its debt securities that are in an unrealized loss position (an unrealized loss position exists when a security's amortized cost basis, excluding the effect of OTTI, exceeds its fair value) and determined the following:

	March 31, 2014			
		Amortized Cost Basis	Unrealized Losses	
	Fair Value	After Impairment	Credit (A)	Non-Credit (B)
Securities New Residential intends to sell (C)	$62,742	$63,825	$(121)	$ (1,084)
Securities New Residential is more likely than not to be required to sell (D)	—	—	—	N/A
Securities New Residential has no intent to sell and is not more likely than not to be required to sell:				
Credit impaired securities	238,162	240,857	(1,793)	(2,695)
Non credit impaired securities	797,997	803,384	—	(5,386)
Total debt securities in an unrealized loss position	$1,098,901	$1,108,066	$(1,914)	$ (9,165)

NEW RESIDENTIAL INVESTMENT CORP. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

March 31, 2014

(dollars in tables in thousands, except share data)

(A) This amount is required to be recorded as other-than-temporary impairment through earnings. In measuring the portion of credit losses, New Residential's management estimates the expected cash flow for each of the securities. This evaluation includes a review of the credit status and the performance of the collateral supporting those securities, including the credit of the issuer, key terms of the securities and the effect of local, industry and broader economic trends. Significant inputs in estimating the cash flows include management's expectations of prepayment speeds, default rates and loss severities. Credit losses are measured as the decline in the present value of the expected future cash flows discounted at the investment's effective interest rate.

(B) This amount represents unrealized losses on securities that are due to non-credit factors and recorded through other comprehensive income.

(C) A portion of securities New Residential intends to sell have a fair value equal to their amortized cost basis after impairment, and, therefore do not have unrealized losses reflected in other comprehensive income as of March 31, 2014.

(D) New Residential may, at times, be more likely than not to be required to sell certain securities for liquidity purposes. While the amount of the securities to be sold may be an estimate, and the securities to be sold have not yet been identified, New Residential must make its best estimate, which is subject to significant judgment regarding future events, and may differ materially from actual future sales.

The following table summarizes the activity related to credit losses on debt securities:

	Three Months Ended March 31, 2014
Beginning balance of credit losses on debt securities for which a portion of an OTTI was recognized in other comprehensive income	$ 2,071
Increases to credit losses on securities for which an OTTI was previously recognized and a portion of an OTTI was recognized in other comprehensive income	104
Additions for credit losses on securities for which an OTTI was not previously recognized	225
Reduction for credit losses on securities for which no OTTI was recognized in other comprehensive income at the current measurement date	(607)
	$ 1,793

Ending balance of credit losses on debt securities for which a portion of an OTTI was recognized in other comprehensive income

The table below summarizes the geographic distribution of the collateral securing New Residential's Non-Agency RMBS as of March 31, 2014:

Geographic Location (A)	Outstanding Face Amount	Percentage of Total Outstanding	
Western U.S.	$452,630	28.8	%
Southeastern U.S.	437,365	27.8	%
Northeastern U.S.	301,484	19.1	%
Midwestern U.S.	248,757	15.8	%
Southwestern U.S.	93,646	6.0	%
Other (B)	39,551	2.5	%
	$1,573,433	100.0	%

(A) Excludes Other ABS securities representing 0.2% of the carrying value of the Non-Agency RMBS portfolio.
(B) Represents collateral for which New Residential was unable to obtain geographic information.

New Residential evaluates the credit quality of its real estate securities, as of the acquisition date, for evidence of credit quality deterioration. As a result, New Residential identified a population of real estate securities for which it was determined that it was probable that New Residential would be unable to collect all contractually required payments. For securities acquired during the three months ended March 31, 2014, the face amount of these real estate securities was $353.0 million, with total expected cash flows of $330.0 million and a fair value of $252.0 million on the dates that New Residential purchased the respective securities.

NEW RESIDENTIAL INVESTMENT CORP. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

March 31, 2014

(dollars in tables in thousands, except share data)

The following is the outstanding face amount and carrying value for securities, for which, as of the acquisition date, it was probable that New Residential would be unable to collect all contractually required payments, at December 31, 2013 and March 31, 2014:

	Outstanding Face Amount	Carrying Value
March 31, 2014	$ 787,134	$533,155
December 31, 2013	$ 729,895	$483,680

The following is a summary of the changes in accretable yield for these securities:

	For the Three Months Ended March 31, 2014
Beginning Balance	$143,067
Additions	78,028
Accretion	(3,541)
Reclassifications from non-accretable difference	(577)
Disposals	(32,763)
Ending Balance	$184,214

8. INVESTMENTS IN RESIDENTIAL MORTGAGE LOANS

On February 27, 2013, New Residential, through a subsidiary, entered into an agreement to co-invest in reverse mortgage loans with a UPB of approximately $83.1 million as of December 31, 2012. New Residential has invested approximately $35.1 million to acquire a 70% interest in the reverse mortgage loans. Nationstar has co-invested on a pari passu basis with New Residential in 30% of the reverse mortgage loans and is the servicer of the loans performing all servicing and advancing functions and retaining the ancillary income, servicing obligations and liabilities as the servicer.

The following is a summary of residential mortgage loans at March 31, 2014, all of which are classified as held for investment:

Loan Type	Outstanding Face Amount (A)	Amortized Cost Basis (A)	Carrying Value (A)	**Loan Count**	Wtd. Avg. Yield	Weighted Average Coupon (B)	Weighted Average Life (Years) (C)	Floating Rate Loans as a % of Face Amount	Delinquent Face Amount (A)(D)
Residential Mortgage Loans Held-for-Investment (E)	$ 57,818	$ 34,045	$ 34,045	321	10.3 %	5.1 %	3.6	21.7 %	$ 47,919

(A) Represents a 70% interest New Residential holds in the reverse mortgage loans. The average loan balance outstanding based on total UPB is $0.3 million.

(B) Represents the stated interest rate on the loans. Accrued interest on reverse mortgage loans is generally added to the principal balance and paid when the loan is resolved.

(C) The weighted average life is based on the expected timing of the receipt of cash flows.

(D) Includes loans that have either experienced (i) a termination event or (ii) an event of default, substantially all of which are more than 90 days past the time at which they were considered delinquent or real estate owned ("REO"). Collateral value underlying loans considered delinquent is generally sufficient, however $3.6 million face amount of REO loans, representing New Residential's 70% interest therein, was on non-accrual status resulting from the uncertainty of cash collections as of March 31, 2014.

NEW RESIDENTIAL INVESTMENT CORP. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

March 31, 2014

(dollars in tables in thousands, except share data)

(E) 80% of these loans have reached a termination event. As a result, the borrower can no longer make draws on these loans. Each loan matures upon the occurrence of a termination event.

Activities related to the carrying value of residential mortgage loans were as follows:

	For the Three Months Ended March 31, 2014
Balance at December 31, 2013	$ 33,539
Purchases/additional fundings	—
Proceeds from repayments	(50)
Accretion of loan discount and other amortization	720
Valuation allowance	(164)
	—
Balance at March 31, 2014	$ 34,045

Activities related to the valuation allowance on residential mortgage loans were as follows:

	For the Three Months Ended March 31, 2014
Balance at December 31, 2013	$ 461

Charge-offs	—
Valuation allowance on loans	164
Balance at March 31, 2014	$ 625

The table below summarizes the geographic distribution of the underlying residential mortgage loans as of March 31, 2014:

State Concentration	Percentage of Total Outstanding Unpaid Principal Amount	
New York	22.3	%
Florida	21.4	%
Illinois	7.4	%
New Jersey	6.9	%
California	5.6	%
Massachusetts	4.2	%
Washington	4.0	%
Connecticut	3.9	%
Virginia	3.2	%
Maryland	2.8	%
Other U.S.	18.3	%
	100.0	%

NEW RESIDENTIAL INVESTMENT CORP. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

March 31, 2014

(dollars in tables in thousands, except share data)

In the first quarter of 2014, New Residential invested in portfolios of non-performing loans and financed the transactions with the same counterparties from which it purchased them. New Residential accounts for the contemporaneous purchase of the investments and the associated financings as linked transactions. Accordingly, New Residential records a non-hedge derivative instrument on a net basis, with changes in market value recorded as “Other Income” in the Consolidated Statements of Income. For further information on the transactions, see below and Note 10.

On January 15, 2014, New Residential purchased a portfolio of non-performing residential mortgage loans with a UPB of approximately $65.6 million at a price of approximately $33.7 million. To finance this purchase, on January 15, 2014, New Residential entered into a $25.3 million repurchase agreement with Credit Suisse. The repurchase agreement, which contains customary covenants and event of default provisions and is subject to margin calls, matures on January 15, 2015. This purchase was accounted for as a linked transaction (Note 10).

On March 28, 2014, New Residential purchased a portfolio of non-performing mortgage loans with a UPB of approximately $7.0 million at a price of approximately $3.8 million. The investment was financed with a $2.5 million master repurchase agreement with RBS. The repurchase agreement, which contains customary covenants and event of default provisions and is subject to margin calls, matures on November 24, 2014. This acquisition is accounted for as a "linked transaction" (Note 10).

9. INVESTMENTS IN CONSUMER LOAN EQUITY METHOD INVESTEES

On April 1, 2013, New Residential completed, through newly formed limited liability companies (together, the “Consumer Loan Companies”) a co-investment in a portfolio of consumer loans with a UPB of approximately $4.2 billion as of December 31, 2012. The portfolio includes over 400,000 personal unsecured loans and personal homeowner loans originated through subsidiaries of HSBC Finance Corporation. The Consumer Loan Companies acquired the portfolio from HSBC Finance Corporation and its affiliates. New Residential invested approximately $250 million for 30% membership interests in each of the Consumer Loan Companies. Of the remaining 70% of the membership interests, Springleaf acquired 47% and an affiliate of Blackstone Tactical Opportunities Advisors L.L.C. acquired 23%. Springleaf acts as the managing member of the Consumer Loan Companies. The Consumer Loan Companies initially financed $2.2 billion ($1.4 billion outstanding as of March 31, 2014) of the approximately $3.0

billion purchase price with asset-backed notes. In September 2013, the Consumer Loan Companies issued and sold an additional $0.4 billion of asset-backed notes for 96% of par. These notes are subordinate to the $2.2 billion of debt issued in April 2013. The Consumer Loan Companies were formed on March 19, 2013, for the purpose of making this investment, and commenced operations upon the completion of the investment. After a servicing transition period, Springleaf became the servicer of the loans and provides all servicing and advancing functions for the portfolio.

The following tables summarize the investment in the Consumer Loan Companies held by New Residential:

	March 31, 2014
Consumer loan assets	$2,428,397
Other assets	189,049
Debt (A)	(1,815,734)
Other liabilities	(30,306)
Equity	$771,406
New Residential's investment	$231,422
New Residential's ownership	30.0%

(A) Represents the Class A asset-backed notes with a face amount of $1.4 billion, an interest rate of 3.75% and a maturity of April 2021 and the Class B asset-backed notes with a face amount of $0.4 billion, an interest rate of 4.0% and a maturity of December 2024. Substantially all of the net cash flow generated by the Consumer Loan Companies is required to be used to pay down the Class A notes. When the balance of the outstanding Class A notes is reduced to 50% of the outstanding UPB of the performing consumer loans and the managing member is reimbursed by the consumer loan companies for expenses accumulated up to that date, 70% of the net cash flow generated is required to be used to pay down the Class A notes and the equity holders of the Consumer Loan Companies and holders of the Class B notes will each be entitled to receive 15% of the net cash flow of the Consumer Loan Companies on a periodic basis.

NEW RESIDENTIAL INVESTMENT CORP. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

March 31, 2014

(dollars in tables in thousands, except share data)

	Three Months Ended March 31, 2014
Interest income	$142,815
Interest expense	(22,195)
Provision for finance receivable losses	(34,156)
Other expenses, net	(20,452)
Change in fair value of debt	(16,867)
Net income	$49,145
New Residential's equity in net income	$16,360
New Residential's ownership	30.0 %

The following is a summary of New Residential's consumer loan investments made through equity method investees:

	March 31, 2014					
	Unpaid Principal Balance	Interest in Consumer Loan Companies	Carrying Value (A)	Weighted Average Coupon (B)	Weighted Average Asset Yield	Weighted Average Expected Life (Years) (C)
Consumer Loans	$3,098,138	30.0 %	$2,428,397	18.1 %	15.9 %	3.2

(A) Represents the carrying value of the consumer loans held by the Consumer Loan Companies.

(B) Substantially all of the cash flows received on the loans is required to be used to make payments on the notes described above.

(C) Weighted Average Life represents the weighted average expected timing of the receipt of expected cash flows for this investment.

New Residential's investments in consumer loans, equity method investees changed during the three months ended March 31, 2014 as follows:

	For the Three Months Ended March 31, 2014
Balance at December 31, 2013	$215,062
Contributions to equity method investees	—
Distributions of earnings from equity method investees	—
Distributions of capital from equity method investees	—
Earnings from investments in consumer loan equity method investees	16,360
Balance at March 31, 2014	$231,422

10. DERIVATIVES

As of March 31, 2014, New Residential's derivative instruments include both economic hedges that were not designated as hedges for accounting purposes as well as non-performing loans accounted for as linked transactions that were not entered into for risk management purposes or for hedging activity. New Residential uses economic hedges to hedge a portion of its interest rate risk exposure. Interest rate risk is sensitive to many factors including governmental monetary and tax policies, domestic and international economic and political considerations and other factors. New Residential's credit risk with respect to economic hedges and linked transactions is the risk of default on New Residential's investments that results from a borrower's or counterparty's inability or unwillingness to make contractually required payments.

NEW RESIDENTIAL INVESTMENT CORP. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

March 31, 2014

(dollars in tables in thousands, except share data)

As of March 31, 2014, New Residential also held to-be-announced forward contract positions ("TBAs") with $850.0 million in a long notional amount of Agency RMBS and $975.0 million in short notional amount of Agency RMBS, and any amounts or obligations owed by or to New Residential are subject to the right of set-off with the TBA counterparty. In addition, as of March 31, 2014, New Residential held a $300.0 million short position of 3-year forward U.S. Treasury ("U.S.T.") notes, and $100.0 million notional exposure of an interest rate swap. New Residential's net short position in TBAs of $125.0 million notional, 3-year forward U.S.T. short position, and interest rate swaps were entered into as economic hedges in order to mitigate New Residential's interest rate risk assumed as part of its purchased securities with Merrill Lynch, Pierce, Fenner & Smith Incorporated that were previously sponsored by Springleaf, and planned resecuritization of certain Non-Agency RMBS. Furthermore, New Residential's interest swaps are subject to certain customary margin requirements.

New Residential's derivatives are recorded at fair value on the Consolidated Balance Sheets as follows:

	Balance Sheet Location	March 31, 2014	December 31, 2013
Derivative assets			
Real Estate Securities (A)	Derivative assets	$—	$ 1,452

Interest Rate Swaps	Other liabilities	$84	$ —
		$84	$ —

(A) Investments purchased from, and financed by, the selling counterparty that New Residential accounts for as linked transactions and are reflected as derivatives.

The following table summarizes information related to derivatives:

	March 31, 2014	December 31, 2013
Notional amount of Non-Performing Loans (A)	$228,540	$164,598
Notional amount of U.S.T. Short Positions	300,000	—
Notional amount of Interest Rate Swap Agreements (B)	100,000	—
Notional amount of Real Estate Securities (C)	—	10,000
Notional amount of TBAs, long position (D)	$850,000	$—
Notional amount of TBAs, short position (D)	975,000	—
Notional amount of TBAs, net	$(125,000)	$—

(A) Represents the UPB of the underlying loans of the non-performing loan pools within linked transactions.
(B) Receives LIBOR and pays a fixed rate.
(C) Represents the current face amount of the real estate securities within linked transactions.
(D) Represents the notional amount of Agency RMBS, classified as derivatives.

The following table summarizes gains (losses) recorded in relation to derivatives:

NEW RESIDENTIAL INVESTMENT CORP. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

March 31, 2014

(dollars in tables in thousands, except share data)

	Income Statement Location	For the Three Months Ended March 31, 2014	2013
Non-Performing Loans (A)	Other income (loss)	$671	$ —
TBAs	Other income (loss)	362	—
U.S.T. Short Positions	Other income (loss)	408	—
Interest Rate Swaps	Other income (loss)	(84)	—
		$1,357	$ —

(A) Investments purchased from, and financed by, the selling counterparty that New Residential accounts for as linked transactions and are reflected as derivatives.

The following table presents both gross and net information about linked transactions:

	March 31, 2014	December 31, 2013
Non-Performing Loans		
Non-performing loan assets, at fair value (A)	$128,957	$ 95,014
Repurchase agreements (B)	84,686	60,540
	44,271	34,474
Real Estate Securities		
Real estate securities, at fair value (C)	—	9,952
Repurchase agreements (B)	—	8,500
	—	1,452
Net assets recognized as linked transactions	$44,271	$ 35,926

(A) Non-performing loans that had a UPB of $228.5 million as of March 31, 2014, which represents the notional amount of the linked transaction and accrued interest.

(B) Represents carrying amount that approximates fair value.
(C) Real estate securities that had a current face amount of $10.0 million as of December 31, 2013, which represents the notional amount of the linked transaction.

11. DEBT OBLIGATIONS

The following table presents certain information regarding New Residential's debt obligations:

March 31, 2014 (A)

Debt Obligations/ Collateral	Month Issued	Outstanding Face Amount	Carrying Value	Final Stated Maturity	Weighted Average Funding Cost	Weighted Average Life (Years)	Collateral Outstanding Face	Collateral Amortized Cost Basis	Collateral Carrying Value	Collateral Weighted Average Life (Years)
Repurchase Agreements (B)										
Agency ARM RMBS (C)	Various	$1,117,592	$1,117,592	Jun-14	0.34%	0.3	$1,085,447	$1,153,504	$1,154,057	4.3
Non-Agency RMBS (D)	Various	883,002	883,002	Apr-14 to Oct-14	1.98%	0.1	1,501,192	1,156,794	1,163,721	8.8

Total Notes Payable		3,234,805	3,234,805		3.03%	1.1				
Total		$5,377,899	$5,377,899		2.33%	0.8				

(A) Excludes debt related to linked transactions (Note 10).
(B) These repurchase agreements had approximately $0.7 million of associated accrued interest payable as of March 31, 2014.
(C)

The counterparties of these repurchase agreements are Mizuho ($160.8 million), Morgan Stanley ($160.5 million), Daiwa ($315.0 million) and Jefferies ($481.3 million) and were subject to customary margin call provisions.

(D) The counterparties of these repurchase agreements are Barclays ($34.7 million), Credit Suisse ($132.3 million), Royal Bank of Scotland ($42.5 million), Bank of America ($459.9 million), Goldman Sachs ($83.3 million), UBS ($74.6 million) and Royal Bank of Canada

25

NEW RESIDENTIAL INVESTMENT CORP. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

March 31, 2014

(dollars in tables in thousands, except share data)

($55.7 million) and were subject to customary margin call provisions. All of the Non-Agency repurchase agreements have LIBOR-based floating interest rates. Includes $103.2 million borrowed under a master repurchase agreement, which bears interest at one-month LIBOR plus 1.75%.

(E) The repurchase agreement is payable to Credit Suisse and bears interest equal to one-month LIBOR plus 4.0%.

(F) The loan bears interest equal to one-month LIBOR plus 4.0%. The outstanding face of the collateral represents the UPB of the residential mortgage loans underlying the Excess MSRs that secure this corporate loan, which is subject to monthly principal amortization payments.

(G) The notes bear interest equal to the sum of (i) a floating rate index rate equal to one-month LIBOR or a cost of funds rate, as applicable, and (ii) a margin ranging from 1.3% to 2.5%.

(H) The note is payable to Nationstar and bears interest equal to one-month LIBOR plus 3.25%.

Certain of the debt obligations included above are obligations of New Residential's consolidated subsidiaries, which own the related collateral. In some cases, including the servicer advances, such collateral is not available to other creditors of New Residential.

As of March 31, 2014, New Residential held TBA positions with $850.0 million in a long notional amount of Agency RMBS and $975.0 million in short notional amount of Agency RMBS, and any amounts or obligations owed by or to New Residential are subject to the right of set-off with the TBA counterparty. As part of executing these trades, New Residential has entered into agreements with its TBA counterparties that govern the transactions for the TBA purchases or sales made, including margin maintenance, payment and transfer, events of default, settlements, and various other provisions. New Residential has fulfilled all obligations and requirements entered into under these agreements.

On January 8, 2014, New Residential financed all of its ownership interest in each of the Consumer Loan Companies under a $150.0 million master repurchase agreement with Credit Suisse Securities (USA) LLC which matures on June 30, 2014. Borrowings under the facility bear interest equal to the sum of (i) a floating rate index rate equal to one-month LIBOR and (ii) a margin of 4.00%. The facility contains customary covenants, event of default provisions, and is subject to required monthly principal payments.

On March 31, 2014, New Residential obtained approximately $415 million in financing from Merrill Lynch, Pierce, Fenner & Smith Incorporated (a wholly-owned subsidiary of Bank of America) to settle its purchase of approximately $625 million face amount of Non-Agency RMBS for approximately $553 million, which represents 75% of the mezzanine and subordinate tranches of a securitization previously sponsored by an affiliate of Springleaf. The securitization is collateralized by residential mortgage loans with a face amount of approximately $0.9 billion. Merrill Lynch, Pierce, Fenner & Smith Incorporated purchased the remaining 25% of the mezzanine and subordinate tranches on the securitization on the same terms as New Residential's purchase.

In March 2014, the Buyer prepaid all of the notes issued pursuant to one servicer advance facility and a portion of the notes issued pursuant to another servicer advance facility. The notes were prepaid with the proceeds of new notes issued pursuant to an advance receivables trust (the "NRART Master Trust") that issued (i) variable funding notes ("VFNs") with borrowing capacity of up to $1.1 billion and (ii) $1.0 billion of term notes ("Term Notes") to institutional investors. The VFNs generally bear interest at a rate equal to the sum of (i) LIBOR or a cost of funds rate plus (ii) a spread of 1.375% to 2.5% depending on the class of the notes. The expected repayment date of the VFNs is March 2015. The Term Notes generally bear interest at approximately 2.0% and have expected repayment dates in March 2015 and March 2017. The VFNs and the Term Notes are secured by servicer advances, and the financing is nonrecourse to the Buyer, except for customary recourse provisions.

Maturities

New Residential's debt obligations as of March 31, 2014 had contractual maturities as follows:

NEW RESIDENTIAL INVESTMENT CORP. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

March 31, 2014

(dollars in tables in thousands, except share data)

Year	Nonrecourse	Recourse (A)	Total
April 1 through December 31, 2014	$ 1,633,561	$ 2,145,202	$ 3,778,763
2015	1,101,336	—	1,101,336
2016	—	—	—
2017	497,800	—	497,800
	$ 3,232,697	$ 2,145,202	$ 5,377,899

(A) Excludes recourse debt related to linked transactions (Note 10).

Borrowing Capacity

The following table represents New Residential's borrowing capacity as of March 31, 2014:

Debt Obligations/ Collateral	Collateral Type	Borrowing Capacity	Balance Outstanding	Available Financing
Repurchase Agreements				
Residential Mortgage Loans (A)	Real Estate Loans	$ 300,000	$ 59,190	$ 240,810
Notes Payable				
Secured Corporate Loan	Excess MSRs	75,000	69,055	5,945
Servicer Advances (B)	Servicer Advances	4,647,900	3,142,292	1,505,608
		$ 5,022,900	$ 3,270,537	$ 1,752,363

(A) Financing related to linked transaction (Note 10).

(B) New Residential's unused borrowing capacity is available if New Residential has additional eligible collateral to pledge and meets other borrowing conditions. New Residential pays a 0.5% fee on the unused borrowing capacity.

New Residential was in compliance with all of its debt covenants as of March 31, 2014.

12.FAIR VALUE OF FINANCIAL INSTRUMENTS

The carrying values and fair values of New Residential's financial assets recorded at fair value on a recurring basis, as well as other financial instruments for which fair value is disclosed, as of March 31, 2014 were as follows:

NEW RESIDENTIAL INVESTMENT CORP. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

March 31, 2014

(dollars in tables in thousands, except share data)

	Principal Balance or Notional Amount	Carrying Value	Fair Value

(A) Projected annualized weighted average lifetime voluntary and involuntary prepayment rate using a prepayment vector.

(B) Projected percentage of mortgage loans in the pool that will miss their mortgage payments.

(C) Percentage of voluntarily prepaid loans that are expected to be refinanced by Nationstar.

(D) Weighted average total mortgage servicing amount in excess of the basic fee.

(E) The Excess MSR will be paid on the total UPB of the mortgage portfolio (including both performing and delinquent loans until REO).

NEW RESIDENTIAL INVESTMENT CORP. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

March 31, 2014

(dollars in tables in thousands, except share data)

Excess Mortgage Servicing Rights Equity Method Investees Valuation

New Residential's investments in equity method investees measured at fair value on a recurring basis using Level 3 inputs changed during the three months ended March 31, 2014 as follows:

Balance at December 31, 2013	$352,766
Contributions to equity method investees	—
Distributions of earnings from equity method investees	(11,940)
Distributions of capital from equity method investees	(8,893)
Change in fair value of investments in equity method investees	6,374
Balance at March 31, 2014	$338,307

Investments in Servicer Advances Valuation

The following table summarizes certain information regarding the inputs used in valuing the servicer advances:

	Significant Inputs Weighted Average				
	Outstanding Servicer Advances to UPB of Underlying Residential Mortgage Loans	Prepayment Speed	Delinquency	Mortgage Servicing Amount	Discount Rate
March 31, 2014	2.3 %	15.0 %	17.0 %	19.8 bps	5.8 %
December 31, 2013	2.7 %	13.3 %	20.0 %	21.2 bps	5.6 %

Real Estate Securities Valuation

As of March 31, 2013, New Residential's securities valuation methodology and results are further detailed as follows:

			Fair Value		
Asset Type	**Outstanding Face Amount**	**Amortized Cost Basis**	**Multiple Quotes (A)**	**Total**	**Level**
Agency ARM RMBS	$ 1,085,447	$1,162,098	$1,162,650	$1,162,650	2
Non-Agency RMBS	1,780,864	1,173,195	1,182,571	1,182,571	3
Total	$ 2,866,311	$2,335,293	$2,345,221	$2,345,221	

(A) Management generally obtained pricing service quotations or broker quotations from two sources, one of which was generally the seller (the party that sold New Residential the security) for Non-Agency RMBS. Management selected one of the quotes received as being most representative of the fair value and did not use an average of the quotes. Even if New Residential receives two or more quotes on a particular security that come from non-selling brokers or pricing services, it does not use an average because management believes using an actual quote more closely represents a transactable price for the security than an average level. Furthermore, in some cases there is a wide disparity between the quotes New Residential receives. Management believes using an average of the quotes in these cases would not represent the fair value of the asset. Based on New Residential's own fair value analysis, management selects one of the quotes which is believed to more accurately reflect fair value. New Residential never adjusts quotes received. These quotations are generally received via email and contain disclaimers which state that they are "indicative" and not "actionable" — meaning that the party giving the quotation is not bound to actually purchase the security at the quoted price.

NEW RESIDENTIAL INVESTMENT CORP. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

March 31, 2014

(dollars in tables in thousands, except share data)

Residential Mortgage Loans for Which Fair Value is Only Disclosed

The fair values of New Residential's reverse mortgage loans held-for-investment were estimated based on a discounted cash flow analysis using internal pricing models. The significant inputs to these models include discount rates and the timing and amount of expected cash flows that management believes market participants would use in determining the fair values on similar pools of reverse mortgage loans. New Residential's loans held-for-investment are categorized within Level 3 of the fair value hierarchy.

The following table summarizes the inputs used in valuing reverse mortgage loans as of March 31, 2014:

					Significant Inputs	
Loan Type	Outstanding Face Amount (A)	Carrying Value (A)	Fair Value	Valuation Allowance/ (Reversal) In Current Year	Discount Rate	Weighted Average Life (Years) (B)
Reverse Mortgage Loans	$ 57,818	$34,045	$34,045	$ 164	10.3%	3.6

(A) Represents a 70% interest New Residential holds in the reverse mortgage loans.
(B) The weighted average life is based on the expected timing of the receipt of cash flows.

Derivative Valuation

New Residential financed certain investments with the same counterparty from which it purchased those investments, and accounts for the contemporaneous purchase of the investments and the associated financings as linked transactions (Note 10). The linked transactions are valued on a net basis considering their underlying components, the investment value and the related repurchase financing agreement value, generally determined consistently with the

relevant instruments as described in this note. Values of investments in non-performing loans are estimated based on a discounted cash flow analysis using internal pricing models that employ market-based assumptions regarding the timing and amount of expected cash flows primarily based upon the performance of the loan pool and liquidation attributes. The linked transactions, which are categorized as Level 3, are recorded as a non-hedge derivative instrument on a net basis.

New Residential also enters into economic hedges including interest rate swaps and U.S.T. short positions, which are categorized as Level 2 in the valuation hierarchy. Management generally values such derivatives using quotations, similarly to the method of valuation used for New Residential's other assets that are categorized as Level 2.

Liabilities for Which Fair Value is Only Disclosed

Repurchase agreements and notes payable are not measured at fair value; however, management believes that their carrying value approximates fair value. Repurchase agreements and notes payable are generally considered to be Level 2 and Level 3 in the valuation hierarchy, respectively, with significant valuation variables including the amount and timing of expected cash flows, interest rates and collateral funding spreads.

Short-term repurchase agreements and notes payable have an estimated fair value equal to their carrying value due to their short duration and generally floating interest rates. Longer-term notes payable, representing the securitized portion of the servicer advance financing, are valued based on internal models utilizing both observable and unobservable inputs. As of March 31, 2014, these recently issued notes also have an estimated fair value equal to their carrying value since market interest rates and spreads have not fluctuated significantly since their issuance.

13. EQUITY AND EARNINGS PER SHARE

Equity and Dividends

On April 26, 2013, Newcastle announced that its board of directors had formally declared the distribution of shares of common stock of New Residential, a then wholly owned subsidiary of Newcastle. Following the spin-off, New Residential is an independent, publicly-traded REIT primarily focused on investing in residential mortgage related assets. The spin-off was completed on May 15, 2013 and New Residential began trading on the New York Stock Exchange under the symbol "NRZ." The spin-off transaction was effected as a taxable pro rata distribution by Newcastle of all the outstanding shares of common stock of New Residential to the stockholders of record of Newcastle as of May 6, 2013. The stockholders of Newcastle as of the record date received one share of New Residential common stock for each share of Newcastle common stock held.

NEW RESIDENTIAL INVESTMENT CORP. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

March 31, 2014

(dollars in tables in thousands, except share data)

On April 29, 2013, New Residential's certificate of incorporation was amended so that its authorized capital stock now consists of 2,000,000,000 shares of common stock, par value $0.01 per share, and 100,000,000 shares of preferred stock, par value $0.01 per share. At the time of the completion of the spin-off, there were 253,025,645 outstanding shares of common stock which was based on the number of Newcastle's shares of common stock outstanding on May 6, 2013 and a distribution ratio of one share of New Residential common stock for each share of Newcastle common stock.

For recent activity related to New Residential's common stock and options thereon, see Note 18.

On December 17, 2013, New Residential declared a quarterly dividend of $0.175 per common share and a special cash dividend of $0.075 per common share, totaling $63.3 million, for the quarter ended December 31, 2013. The combined dividend of $0.25 was paid on January 31, 2014. On March 19, 2014, New Residential declared a quarterly dividend of $0.175 per common share, or $44.3 million, for the quarter ended March 31, 2014, which was paid in April 2014.

Approximately 5.3 million shares of New Residential's common stock were held by Fortress, through its affiliates, and its principals at March 31, 2014.

Option Plan

New Residential's outstanding options at March 31, 2014 consisted of the following:

	Number of Options	Strike Price	Maturity Date

	343,275	$13.86	05/25/14
	162,500	16.95	11/22/14
	330,000	15.97	01/12/15
	2,000	16.68	08/01/15
	170,000	15.87	11/01/16
	242,000	16.90	01/23/17
	456,000	14.96	04/11/17
	1,580,166	3.29	03/29/21
	2,424,833	2.49	09/27/21
	2,000	2.74	12/20/21
	1,867,167	3.41	04/03/22
	2,265,000	3.67	05/21/22
	2,499,167	3.67	07/31/22
	5,750,000	5.12	01/11/23
	2,300,000	5.74	02/15/23
	8,000	6.79	06/02/23
Total/Weighted Average	20,402,108	$5.11	

As of March 31, 2014, New Residential's outstanding options were summarized as follows:

NEW RESIDENTIAL INVESTMENT CORP. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

March 31, 2014

(dollars in tables in thousands, except share data)

Held by the Manager	15,232,638
Issued to the Manager and subsequently transferred to certain of the Manager's employees	5,157,470
Issued to the independent directors	12,000
Total	20,402,108

For recent activities related to option exercises, see Note 18.

Income and Earnings Per Share

Net income earned prior to the spin-off is included in additional paid-in capital instead of retained earnings since the accumulation of retained earnings began as of the date of spin-off.

New Residential is required to present both basic and diluted earnings per share ("EPS"). Basic EPS is calculated by dividing net income by the weighted average number of shares of common stock outstanding. Diluted EPS is computed by dividing net income by the weighted average number of shares of common stock outstanding plus the additional dilutive effect, if any, of common stock equivalents during each period. New Residential's common stock equivalents are its outstanding stock options. During the three months ended March 31, 2014, based on the treasury stock method, New Residential had 6,630,915 dilutive common stock equivalents. During the three months ended March 31, 2013, New Residential did not have any dilutive common stock equivalents outstanding.

For the purposes of computing EPS for periods prior to the spin-off on May 15, 2013, New Residential treated the common shares issued in connection with the spin-off as if they had been outstanding for all periods presented, similar to a stock split. For the purposes of computing diluted EPS for periods prior to the spin-off on May 15, 2013, New

Residential treated the 21.5 million options issued on the spin-off date as a result of the conversion of Newcastle options as if they were granted on May 15, 2013 since no New Residential awards were outstanding prior to that date.

Noncontrolling Interests

Noncontrolling interests is comprised of the interests held by third parties in consolidated entities that hold New Residential's investments in servicer advances (Note 6).

14. COMMITMENTS AND CONTINGENCIES

Litigation – New Residential may, from time to time, be a defendant in legal actions from transactions conducted in the ordinary course of business. As of March 31, 2014, New Residential is not subject to any material litigation, individually or in the aggregate, nor, to management's knowledge, is any material litigation currently threatened against New Residential.

Indemnifications – In the normal course of business, New Residential and its subsidiaries enter into contracts that contain a variety of representations and warranties and that provide general indemnifications. New Residential's maximum exposure under these arrangements is unknown as this would involve future claims that may be made against New Residential that have not yet occurred. However, based on Newcastle's and its own experience, New Residential expects the risk of material loss to be remote.

Capital Commitments — As of March 31, 2014, New Residential had outstanding capital commitments related to investments in the following investment types (also refer to Note 18 for additional capital commitments entered into subsequent to March 31, 2014, including investments in residential mortgage loans):

NEW RESIDENTIAL INVESTMENT CORP. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

March 31, 2014

(dollars in tables in thousands, except share data)

Excess MSRs — As of March 31, 2014, New Residential had outstanding capital commitments of $26.0 million related to the acquisition of four pools (Pools 13-16) of Excess MSRs on portfolios comprised of Fannie Mae and Freddie Mac residential mortgage loans. See Notes 4 and 5 for information on New Residential's investments in excess MSRs, as well as Note 18 for Excess MSR pools subsequently closed.

Servicer Advances — New Residential and third-party co-investors agreed to purchase, through the Buyer, future servicer advances related to the Non-Agency mortgage loans. The actual amount of future advances purchased will be based on: (a) the credit and prepayment performance of the underlying loans, (b) the amount of advances recoverable prior to liquidation of the related collateral and (c) the percentage of the loans with respect to which no additional advance obligations are made. The actual amount of future advances is subject to significant uncertainty. See Note 6 for information on New Residential's investments in servicer advances.

Debt Covenants — New Residential's debt obligations contain various customary loan covenants (Notes 8 & 11).

Certain Tax-Related Covenants — If New Residential is treated as a successor to Newcastle under applicable U.S. federal income tax rules, and if Newcastle fails to qualify as a REIT, New Residential could be prohibited from electing to be a REIT. Accordingly, Newcastle has (i) represented that it has no knowledge of any fact or circumstance that would cause New Residential to fail to qualify as a REIT, (ii) covenanted to use commercially reasonable efforts to cooperate with New Residential as necessary to enable New Residential to qualify for taxation as a REIT and receive customary legal opinions concerning REIT status, including providing information and representations to New Residential and its tax counsel with respect to the composition of Newcastle's income and assets, the composition of its stockholders, and its operation as a REIT; and (iii) covenanted to use its reasonable best efforts to maintain its REIT status for each of Newcastle's taxable years ending on or before December 31, 2014 (unless Newcastle obtains an opinion from a nationally recognized tax counsel or a private letter ruling from the IRS to the effect that Newcastle's failure to maintain its REIT status will not cause New Residential to fail to qualify as a REIT under the successor REIT rule referred to above). Additionally, New Residential covenanted to use its reasonable best efforts to qualify for taxation as a REIT for its taxable year ended December 31, 2013.

15. TRANSACTIONS WITH AFFILIATES AND AFFILIATED ENTITIES

Due to affiliate is comprised of the following amounts:

	March 31, 2014	December 31, 2013
Management fees	$1,495	$ 1,495
Incentive compensation	5,855	16,847
Expense reimbursements and other	647	827
	$7,997	$ 19,169

Affiliate expenses and fees were comprised of:

	Three Months Ended March 31,	
	2014	2013
Management fees	$4,486	$2,325
Incentive compensation	3,338	—
Expense reimbursements (A)	125	—
Total	$7,949	$2,325

(A) Included in General and Administrative Expenses in the Consolidated Statements of Income.

NEW RESIDENTIAL INVESTMENT CORP. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

March 31, 2014

(dollars in tables in thousands, except share data)

See Notes 4, 5, 6, 7, 8, 11, 14 and 18 for a discussion of transactions with Nationstar. As of March 31, 2014, a total face amount of $900.0 million of New Residential's Non-Agency portfolio was serviced by Nationstar. The total UPB of the loans underlying these Nationstar serviced Non-Agency RMBS was approximately $12.2 billion as of March 31, 2014.

See Notes 9 and 18 for a discussion of a transaction with Springleaf.

16. RECLASSIFICATION FROM ACCUMULATED OTHER COMPREHENSIVE INCOME INTO NET INCOME

The following table summarizes the amounts reclassified out of accumulated other comprehensive income into net income:

Accumulated Other Comprehensive Income Components	Statement of Income Location	Three Months Ended March 31, 2014
Reclassification of net realized (gain) loss on securities into earnings	Gain on settlement of securities	$ (4,492)
Reclassification of net realized (gain) loss on securities into earnings	Other-than-temporary impairment on securities	328
Total reclassifications		$ (4,164)

17. INCOME TAXES

The provision for income taxes consists of the following:

	Three Months Ended March 31,	
	2014	2013
Current:		
Federal	$217	$ —
State and Local	70	—
Total Current Provision	287	—
Deferred:		
Federal	—	—
State and Local	—	—
Total Deferred Provision	—	—
Total Provision for Income Taxes	$287	$ —

New Residential intends to qualify as a REIT for the tax years ending December 31, 2013 and 2014. A REIT is generally not subject to U.S. federal corporate income tax on that portion of its income that is distributed to stockholders if it distributes at least 90% of its REIT taxable income to its stockholders by prescribed dates and complies with various other requirements. New Residential was a wholly owned subsidiary of Newcastle until May 15, 2013 and, as a qualified REIT subsidiary, was a disregarded entity until such date. As a result, no provision or liability for U.S. federal or state income taxes has been included in the accompanying consolidated financial statements for the three months ended March 31, 2013.

NEW RESIDENTIAL INVESTMENT CORP. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

March 31, 2014

(dollars in tables in thousands, except share data)

New Residential has made certain investments, particularly its investments in servicer advances (Note 6), through TRSs and is subject to regular corporate income taxes on these investments. New Residential and its TRSs will file income tax returns with the U.S. federal government and various state and local jurisdictions for the tax years ending December 31, 2013 and 2014. Generally, these income tax returns will be subject to tax examinations by tax authorities for a period of three years after the date of filing.

18. RECENT ACTIVITIES

These financial statements include a discussion of material events that have occurred subsequent to March 31, 2014 (referred to as "subsequent events") through the issuance of these consolidated financial statements. Events subsequent to that date have not been considered in these financial statements.

Excess MSRs

On May 12, 2014 New Residential invested approximately $34.0 million to acquire a one-third interest in the Excess MSRs on each of three portfolios of GSE residential mortgage loans (Pools 14, 16 and 19) with an aggregate UPB of $12.9 billion. Fortress-managed funds and Nationstar each agreed to acquire a one-third interest in the Excess MSRs. On May 13, 2014, New Residential invested approximately $2.2 million to acquire a one-third interest in the Excess MSRs on a portfolio of GSE residential mortgage loans (Pool 20) with an aggregate UPB of $0.7 billion. Fortress-managed funds and Nationstar each agreed to acquire a one-third interest in the Excess MSRs.

Nationstar as servicer will perform all servicing and advancing functions, and retain the ancillary income, servicing obligations and liabilities as the servicer of the underlying loans in each of the portfolios. Under the terms of these investments, to the extent that any loans in the portfolios are refinanced by Nationstar, the resulting Excess MSRs are shared on a pro rata basis by New Residential, the Fortress-managed funds and Nationstar, subject to certain limitations.

New Residential has remaining commitments of $20.8 million to invest in Excess MSRs on portfolios of GSE residential mortgages comprised of two pools (Pools 13 and 15) with an aggregate outstanding unpaid principal balance of approximately $8.3 billion that New Residential committed to in 2013. Commitments related to GSE residential mortgage loans are contingent upon GSE approval of Nationstar to service such loans and transfer Excess MSRs to New Residential.

Servicer Advances

Subsequent to March 31, 2014 and prior to May 5, 2014, the Buyer funded a total of $911.0 million of servicer advances, including the purchase of $617.5 million of additional advances described below, and recovered $545.2 million of existing servicer advances. Notes payable outstanding increased by $346.9 million and restricted cash increased approximately $5.0 million in relation to these fundings. Additionally, the Buyer received $12.3 million from Nationstar to satisfy a targeted return shortfall.

On May 2, 2014, the Buyer received $86.4 million from New Residential to fund the purchase of $617.5 million of additional servicer advances, which were financed with a new note issued to Morgan Stanley bearing interest at a rate equal 2.10% and maturing in May 2016. As of May 2, 2014, the principal balance of this note was approximately $580.5 million.

Real Estate Securities

Subsequent to March 31, 2014, New Residential acquired Agency ARM RMBS with an aggregate face amount of approximately $223.9 million for approximately $238.1 million, financed with repurchase agreements. Furthermore, New Residential acquired Non-Agency RMBS with an aggregate face amount of approximately $50.7 million for approximately $14.2 million, financed with repurchase agreements. New Residential sold no Agency ARM RMBS and sold Non-Agency RMBS with a face amount of $207.1 million and an amortized cost basis of approximately $138.5 million for approximately $145.0 million and recorded a gain of $6.5 million.

Subsequent to March 31, 2014, New Residential acquired additional net short TBA positions that increased our net short notional position by $30.0 million of Agency RMBS, and any amounts or obligations owed by or to

NEW RESIDENTIAL INVESTMENT CORP. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

March 31, 2014

(dollars in tables in thousands, except share data)

New Residential are subject to the right of set-off with the TBA counterparty. New Residential also entered into two additional interest rate swaps with a total notional amount of $400.0 million in order to mitigate New Residential's interest rate risk assumed as part of its purchased securities with Merrill Lynch, Pierce, Fenner & Smith Incorporated that were previously sponsored by Springleaf, and its planned resecuritization of certain Non-Agency RMBS.

Other Investments

Subsequent to March 31, 2014, New Residential paid down approximately $7.5 million of the master repurchase agreement secured by its ownership interest in the consumer loan companies.

Corporate Activities

On March 19, 2014, New Residential's board of directors declared a first quarter 2014 dividend of $0.175 per share of common stock, or $44.3 million, which was paid on April 30, 2014 to stockholders of record as of March 31, 2014.

In April 2014, New Residential issued 27,750,000 shares of its common stock in a public offering at a price to the public of $6.10 per share for net proceeds of approximately $164.1 million. One of New Residential's executive officers participated in this offering and purchased an additional 1,000,000 shares at the public offering price for net proceeds of approximately $6.1 million. For the purpose of compensating the Manager for its successful efforts in raising capital for New Residential, in connection with this offering, New Residential granted options to the Manager to purchase 2,875,000 shares of New Residential's common stock at a price of $6.10, which had a fair value of approximately $1.4 million as of the grant date. The assumptions used in valuing the options were: a 2.87% risk-free rate, a 12.584% dividend yield, 25.66% volatility and a 10 year term.

An employee of the Manager exercised 215,000 options with a weighted average exercise price of $2.81 on May 7, 2014. Upon exercise, 215,000 shares of common stock of New Residential were issued.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Management's discussion and analysis of financial condition and results of operations is intended to help the reader understand the results of operations and financial condition of New Residential. The following should be read in conjunction with the unaudited consolidated financial statements and notes thereto included herein, and with Part II, Item 1A, "Risk Factors."

GENERAL

New Residential is a publicly traded REIT (NYSE: NRZ) primarily focused on investing in residential mortgage related assets. We became an independent public company following our spin-off from Newcastle on May 15, 2013. We are externally managed by an affiliate of Fortress. Our goal is to drive strong risk-adjusted returns primarily through investments in servicing related assets, residential securities and loans and other investments including, but not limited to, Excess MSRs, servicer advances, real estate securities and real estate loans. Our investment guidelines are purposefully broad to enable us to make investments in a wide array of assets in diverse markets, including non-real estate related assets such as consumer loans. We generally target assets that generate significant current cash flows and/or have the potential for meaningful capital appreciation. We aim to generate attractive returns for our stockholders without the excessive use of financial leverage.

Our portfolio is currently composed of servicing related assets, residential securities and loans and other investments. Our asset allocation and target assets may change over time, depending on our Manager's investment decisions in light of prevailing market conditions. The assets in our portfolio are described in more detail below under "—Our Portfolio."

Market CONsiderations

Various market factors, which are outside of our control, affect our results of operations and financial condition. One such factor is developments in the U.S. residential housing market, which we believe are generating significant investment opportunities. Since the 2008 financial crisis, the residential mortgage industry has been undergoing major structural changes that are transforming the way mortgages are originated, owned and serviced. Historically, the majority of the approximately $10 trillion mortgage market has been serviced by large banks, which generally focus on conventional mortgages with low delinquency rates. This has allowed for low-cost routine payment processing and required minimal borrower interaction. Following the credit crisis, the need for "high-touch" specialty servicers, such as Nationstar, increased as loan performance declined, delinquencies rose and servicing complexities broadened. Specialty servicers have proven more willing and better equipped to perform the operationally intensive activities (e.g., collections, foreclosure avoidance and loan workouts) required to service credit-sensitive loans.

Since 2010, banks have sold or committed to sell MSRs totaling more than $1 trillion. An MSR provides a mortgage servicer with the right to service a pool of mortgages in exchange for a portion of the interest payments made on the underlying mortgages. This amount typically ranges from 25 to 50 bps multiplied by the UPB of the mortgages. Approximately 77% of MSRs were owned by banks as of the fourth quarter of 2013, according to Inside Mortgage Finance. We expect this number to decline as banks face pressure to reduce their MSR exposure as a result of heightened capital reserve requirements under Basel III, regulatory scrutiny and a more challenging servicing environment. As a result, we believe the volume of MSR sales is likely to be substantial for some period of time.

We estimate that MSRs on approximately $200 – 300 billion of mortgages are currently for sale, which would require a capital investment of approximately $2 – 3 billion based on current pricing dynamics. We believe that non-bank servicers who are constrained by capital limitations, such as Nationstar, will continue to sell a portion of the Excess MSRs or other servicing assets, such as advances. We also estimate that approximately $1 – 2 trillion of MSRs could be sold over the next several years. In addition, approximately $1.2 trillion of new loans are expected to be created annually, according to the Mortgage Bankers Association. We believe this creates an opportunity to enter into "flow arrangements," whereby loan originators agree to sell Excess MSRs on newly originated loans on a recurring basis (often monthly or quarterly). We believe that MSRs are being sold at a discount to historical pricing levels, although increased competition for these assets has driven prices higher recently. There can be no assurance that we will make additional investments in Excess MSRs or that any future investment in Excess MSRs will generate returns similar to the returns on our original investments in Excess MSRs.

Beginning in April 2012, we began to invest in RMBS as a complement to our Excess MSR portfolio. As of the fourth quarter of 2013, approximately $7 trillion of the $10 trillion of residential mortgages outstanding had been securitized, according to Inside Mortgage Finance. Approximately $6 trillion were Agency RMBS according to Inside Mortgage Finance, which are securities issued or guaranteed by a U.S. Government agency, such as Ginnie Mae, or by a GSE, such as Fannie Mae or Freddie Mac. The balance has been securitized by either public trusts or PLS, and are referred to as Non-Agency RMBS.

Since the onset of the financial crisis in 2007, there has been significant volatility in the prices for Non-Agency RMBS, which resulted from a widespread contraction in capital available for this asset class, deteriorating housing fundamentals, and an increase in forced selling by institutional investors (often in response to rating agency downgrades). While the prices of these assets have started to recover from their lows, from time to time there may be opportunities to acquire Non-Agency RMBS at attractive risk-adjusted yields, with the potential for upside if the U.S. economy and housing market continue to strengthen. We believe the value of existing Non-Agency RMBS may also rise if the number of buyers returns to pre-2007 levels. Furthermore, we believe that in many Non-Agency RMBS vehicles there is a meaningful discrepancy between the value of the Non-Agency RMBS and the recovery value of the underlying collateral. We intend to pursue opportunities to structure transactions that would enable us to realize this difference. We actively monitor the market for Non-Agency RMBS and our portfolio to determine when to strategically purchase and sell Non-Agency RMBS from time to time. We currently expect that the size of our Non-Agency portfolio will fluctuate depending primarily on our Manager's assessment of expected yields and alternative investment opportunities. The primary causes of mark-to-market changes in our RMBS portfolio are changes in interest rates and credit spreads.

Interest rates have risen significantly in recent months and may continue to increase, although the timing of any further increases is uncertain. In periods of rising interest rates, the rates of prepayments and delinquencies with respect to mortgage loans generally decline. Generally, the value of our Excess MSRs is expected to increase when interest rates rise or delinquencies decline, and the value is expected to decrease when interest rates decline or delinquencies increase, due to the effect of changes in interest rates on prepayment speeds and delinquencies. However, prepayment speeds and delinquencies could increase even in the current interest rate environment, as a result of, among other things, a general economic recovery, government programs intended to foster refinancing activity or other reasons, which could reduce the value of our investments. Moreover, the value of our Excess MSRs is subject to a variety of factors, as described under "Risk Factors." In the first quarter of 2014, the fair value of our investments in Excess MSRs (directly and through equity method investees) increased by approximately $3.6 million and the weighted average discount rate of the portfolio remained relatively unchanged at 12.5%.

We do not expect changes in interest rates to have a meaningful impact on the net interest spread of our Agency ARM and Non-Agency portfolios. Our RMBS are primarily floating rate or hybrid (i.e., fixed to floating rate) securities, which we generally finance with floating rate debt. Therefore, while rising interest rates will generally result in a higher cost of financing, they will also result in a higher coupon payable on the securities. The net interest spread on our Agency ARM RMBS portfolio as of March 31, 2014 was 1.19%, compared to 0.94% as of December 31, 2013. The net interest spread on our Non-Agency RMBS portfolio as of March 31, 2014 was 2.67%, compared to 2.83% as of December 31, 2013.

In November 2013, we made our first investment in non-performing loans. We are seeing substantial volumes of distressed residential mortgage loan sales.

Credit performance also affects the value of our portfolio. Higher rates of delinquency and/or defaults can reduce the value of our Excess MSRs, Non-Agency RMBS, Agency RMBS and loan portfolios. For our Excess MSRs on Agency portfolios and our Agency RMBS, delinquency and default rates have an effect similar to prepayment rates. Our Excess MSRs on Non-Agency portfolios are not affected by delinquency rates because the servicer continues to advance principal and interest until a default occurs on the applicable loan; defaults have an effect similar to prepayments. For our Non-Agency RMBS and loans, higher default rates can lead to greater loss of principal.

Credit spreads continued to decrease, or “tighten,” in the first quarter of 2014 relative to the fourth quarter of 2013, which has had a favorable impact on the value of our securities and loan portfolio. Credit spreads measure the yield relative to a specified benchmark that the market demands on securities and loans based on such assets’ credit risk. For a discussion of the way in which interest rates, credit spreads and other market factors affect us, see “Quantitative and Qualitative Disclosures About Market Risk.”

The value of our consumer loan portfolio is influenced by, among other factors, the U.S. macroeconomic environment, and unemployment rates in particular. We believe that losses are highly correlated to unemployment; therefore, we expect that an improvement in unemployment rates would support the value of our investment, while deterioration in unemployment rates would result in a decline in its value.

OUR Portfolio

Our portfolio is currently composed of servicing related assets, residential securities and loans and other investments, as described in more detail below. Our asset allocation and target assets may change over time, depending on our Manager's investment decisions in light of prevailing market conditions. The assets in our portfolio are described in more detail below.

	Outstanding Face Amount	Amortized Cost Basis (A)	Percentage of Total Amortized Cost Basis	**Carrying** Value	Weighted Average Life (years) (B)
Investments in:					
Excess MSRs (C)	$252,038,364	$584,822	9.1 %	$680,011	6.1
Servicer Advances (C)	3,430,473	3,457,385	53.9 %	3,457,385	3.2
Agency ARM RMBS	1,085,447	1,162,098	18.1 %	1,162,650	4.3
Non-Agency RMBS	1,780,864	1,173,195	18.3 %	1,182,571	8.4
Residential Mortgage Loans	57,818	34,045	0.6 %	34,045	3.6
Consumer Loans (C)	3,098,138	N/A	N/A	231,422	3.2
Total/ Weighted Average	$261,491,104	$6,411,545	100.0 %	$6,748,084	4.6
Reconciliation to GAAP total assets:					
Cash and restricted cash				175,102	
Derivative assets				45,040	
Other assets				30,608	
GAAP total assets				$6,998,834	

(A) Net of impairment.
(B) Weighted average life is based on the timing of expected principal reduction on the asset.
(C) The outstanding face amount of Excess MSRs, servicer advances, and consumer loans is based on 100% of the face amount of the underlying residential mortgage loans, currently outstanding advances, and consumer loans respectively.

Servicing Related Assets

Excess MSRs

As of March 31, 2014, we had approximately $680.0 million estimated carrying value of Excess MSRs (held directly and through joint ventures). As of March 31, 2014, our completed investments represent an effective 33% to 80% interest in the Excess MSRs (held either directly or through joint ventures) on pools of mortgage loans with an aggregate UPB of approximately $252.0 billion. Nationstar is the servicer of the loans underlying all of our investments in Excess MSRs to date, and it earns a basic fee in exchange for providing all servicing functions. In addition, Nationstar retains a 20% to 35% interest in the Excess MSRs and all ancillary income associated with the portfolios. In our capacity as owner of the Excess MSR, we do not have any servicing duties, liabilities or obligations associated with the servicing of the portfolios underlying any of our Excess MSRs. However, we, through co-investments made by our subsidiaries, may separately agree to do so and have separately purchased the servicer advances, including the right to receive the basic fee component of related MSRs, on the Non-Agency portfolios (Pools 5, 10, 12, 17 and 18) underlying our Excess MSR investments. See “—Servicer Advances” below.

Each of our Excess MSR investments to date is subject to a recapture agreement with Nationstar. Under the recapture agreements, we are generally entitled to a pro rata interest in the Excess MSRs on any initial or subsequent refinancing by Nationstar of a loan in the original portfolio. In other words, we are generally entitled to a pro rata interest in the Excess MSRs on both (i) a loan resulting from a refinancing by Nationstar of a loan in the original portfolio, and (ii) a loan resulting from a refinancing by Nationstar of a previously recaptured loan.

The tables below summarize the terms of our investments in Excess MSRs completed as of March 31, 2014.

Summary of Direct Excess MSR Investments as of March 31, 2014

					MSR Component(A)			Excess MSR	
	Investment Date	Initial UPB (bn)	**Current UPB (bn)(B)**	**Loan Type(C)**	MSR (bps)	Excess MSR (bps)	Interest in Excess MSR (%)	Purchase Price (mm)	Carrying Value (mm)
Pool 1	Dec-11	$9.9	$ 6.6	GSE	32 bps	26 bps	65 %	$43.7	$41.5
Pool 2	Jun-12	10.4	7.7	GSE	30	22	65 %	42.3	40.3
Pool 3	Jun-12	9.8	7.6	GSE	30	22	65 %	36.2	37.9
Pool 4	Jun-12	6.3	4.9	GSE	26	17	65 %	15.4	17.5
Pool 5(D)	Jun-12	47.6	35.8	PLS	33	14	80 %	151.5	147.7
Pool 11 (direct portion)(E)	May-13	—	0.5	GSE	25	19	67 %	2.4	2.6
Pool 12(D)	Sep-13	5.4	5.0	PLS	50	26	40 %	17.4	17.5
Pool 17(D)	Jan-14	8.1	8.1	PLS	34	19	33 %	19.1	19.1
Pool 18(D)	Nov-13	9.2	8.5	PLS	37	16	40 %	17.0	17.6
Total/Weighted Average		$106.7	$ 84.7		33 **bps**	18 **bps**		$345.0	$341.7

(A) The MSR is a weighted average as of March 31, 2014, and the Excess MSR represents the difference between the weighted average MSR and the basic fee (which fee remains constant).

(B) As of March 31, 2014.

(C) "GSE" refers to loans in Fannie Mae or Freddie Mac securitizations. "PLS" refers to loans in private label securitizations.

(D) Pool in which we also invested in related servicer advances, including the basic fee component of the related MSR as of March 31, 2014 (Note 6 to our consolidated financial statements included herein).

(E) A portion of our investment in Pool 11 was made as a direct investment, and the remainder was made as an investment through a joint venture accounted for as an equity method investee, as described in the chart below. The direct investment in Pool 11 includes loans that, upon refinancing by a third-party, became serviced by Nationstar and subject to a 67% Excess MSR owned by us.

Summary Excess MSR Investments Through Equity Method Investees as of March 31, 2014

				MSR Component(A)					
Commitment/ Investment Date	**Initial UPB (bn)**	**Current UPB (bn)(B)**	**Loan Type(C)**	**MSR (bps)**	**Excess MSR (bps)**	**NRZ Interest in Investee**	**Investee Interest in Excess**	**NRZ Effective Ownership (%)(D)**	**Investee Carrying Value (mm)**

							(%)	**MSR (%)** **(D)**		
Pool 6	Jan-13	$13.0	$9.6	GM	40 bps	25 bps	50 %	67 %	33.5 %	$55.4
Pool 7	Jan-13	38.0	30.6	GSE	26	15	50 %	67 %	33.5 %	123.8
Pool 8	Jan-13	17.6	13.5	GSE	28	19	50 %	67 %	33.5 %	67.5
Pool 9	Jan-13	33.8	29.7	GM	39	22	50 %	67 %	33.5 %	157.6
Pool 10[E]	Jan-13	75.6	66.7	PLS	34	11	50 %	67-77 %	33.5-38.5 %	201.8
Pool 11 (indirect portion)[F]	May-13	22.8	17.3	GSE	25	15	50 %	67 %	33.5 %	67.6
Total/Weighted Average		$200.8	$167.4		32 **bps**	16 **bps**				$673.7

(A) The MSR is a weighted average as of March 31, 2014, and the Excess MSR represents the difference between the weighted average MSR and the basic fee (which fee remains constant).

(B) As of March 31, 2014.

(C) "GM" refers to loans in Ginnie Mae securitizations. "GSE" refers to loans in Fannie Mae or Freddie Mac securitizations. "PLS" refers to loans in private label securitizations.

(D) The equity method investee purchased an additional interest in a portion of Pool 10. Investee interest in Excess MSR and NRZ effective ownership in Pool 10 represent the range of ownership interests in the pool.

(E) Pool in which we also invested in related servicer advances, including the basic fee component of the related MSR as of March 31, 2013 (Note 6 to our consolidated financial statements included herein).

(F) A portion of our investment in Pool 11 was made as a direct investment and the remainder was made as an investment through a joint venture accounted for as an equity method investee, as described in the chart above.

41

The tables below summarize the terms of our investments in Excess MSRs that were not yet completed as of May 12, 2014:

Summary of Pending Excess MSR Investments (Committed but Not Closed)

	Commitment Date	Initial UPB (bn)	**Current UPB (bn)**[(B)]	**Loan Type**[(C)]	**MSR Component**[(A)] MSR (bps)	Excess MSR (bps)	NRZ Interest in Investee (%)	Direct Interest in Excess MSR (%)	**NRZ Excess MSR Initial Investment (mm)**[(D)]
Pool 13 (Direct Investment)	Nov-13	$ 6.1	$ 6.1	GSE	25 bps	19 bps	N/A	33 %	$ 14.5
Pool 15 (Direct Investment)	Nov-13	2.2	2.2	GSE	37	27	N/A	33 %	6.3

(A) The WA FICO score is based on the weighted average of information provided by the loan servicer on a monthly basis. The loan servicer generally updates the FICO score on a monthly basis. Weighted averages exclude collateral information for which collateral data was not available as of the report date.

(B) Adjustable Rate Mortgage % represents the percentage of the total principal balance of the pool that corresponds to adjustable rate mortgages.

(C) 1 Month CPR, or the constant prepayment rate, represents the annualized rate of the prepayments during the month as a percentage of the total principal balance of the pool.

(D) 1 Month CRR, or the voluntary prepayment rate, represents the annualized rate of the voluntary prepayments during the month as a percentage of the total principal balance of the pool.

44

(E) 1 Month CDR, or the involuntary prepayment rate, represents the annualized rate of the involuntary prepayments (defaults) during the month as a percentage of the total principal balance of the pool.

(F) Pool in which we also invested in related servicer advances, including the basic fee component of the related MSR as of March 31, 2014 (Note 6 to our consolidated financial statements included herein).

(G) A portion of our investment in Pool 11 was made as a direct investment, and the remainder was made as an investment through a joint venture accounted for as an equity method investee, the collateral of which is described in the chart below. The direct investment in Pool 11 includes loans that, upon refinancing by a third-party, became serviced by Nationstar and subject to a 67% Excess MSR owned by us.

(H) Uncollected Payments represents the percentage of the total principal balance of the pool that corresponds to loans for which the most recent payment was not made. Delinquency 30 Days, Delinquency 60 Days and Delinquency 90+ Days represent the percentage of the total principal balance of the pool that corresponds to loans that are delinquent by 30–59 days, 60–89 days or 90 or more days, respectively.

The following table summarizes the collateral characteristics as of March 31, 2014 of the loans underlying Excess MSR investments made through joint ventures accounted for as equity method investees (dollars in thousands). For each of these pools, we own a 50% interest in an entity that invested in a 67% to 77% interest in the Excess MSRs.

(A) The WA FICO score is based on the weighted average of information provided by the loan servicer on a monthly basis. The loan servicer generally updates the FICO score on a monthly basis.

(B) Adjustable Rate Mortgage % represents the percentage of the total principal balance of the pool that corresponds to adjustable rate mortgages.

(C)

1 Month CPR, or the constant prepayment rate, represents the annualized rate of the prepayments during the month as a percentage of the total principal balance of the pool.

(D) 1 Month CRR, or the voluntary prepayment rate, represents the annualized rate of the voluntary prepayments during the month as a percentage of the total principal balance of the pool.

(E) 1 Month CDR, or the involuntary prepayment rate, represents the annualized rate of the involuntary prepayments (defaults) during the month as a percentage of the total principal balance of the pool.

(F) Pool in which we also invested in related servicer advances, including the basic fee component of the related MSR as of March 31, 2014 (Note 6 to our consolidated financial statements included herein).

(G) A portion of our investment in Pool 11 was made as a direct investment and the remainder was made as an investment through a joint venture accounted for as an equity method investee, the collateral of which is described in the chart above.

(H) Uncollected Payments represents the percentage of the total principal balance of the pool that corresponds to loans for which the most recent payment was not made. Delinquency 30 Days, Delinquency 60 Days and Delinquency 90+ Days represent the percentage of the total principal balance of the pool that corresponds to loans that are delinquent by 30-59 days, 60-89 days or 90 or more days, respectively.

Servicer Advances

In December 2013, we made our first investment in servicer advances, referred to as Transaction 1. We made the investment through the Buyer, a joint venture entity capitalized by us and certain third-party co-investors.

In Transaction 1, the Buyer acquired from Nationstar Mortgage LLC (“Nationstar”) approximately $3.2 billion of outstanding servicer advances (including deferred servicing fees) and the basic fee component of the related MSRs on Non-Agency mortgage loans with an aggregate UPB of approximately $54.6 billion. In exchange, the Buyer (i) paid approximately $3.2 billion (the “Initial Purchase Price”), and (ii) agreed to purchase future servicer advances related to the loans at par. The Initial Purchase Price is equal to the value of the discounted cash flows from the outstanding and future advances and from the basic fee. We previously acquired an interest in the Excess MSRs related to these loans, which are in Pools 10, 17 and 18. See above “—Our Portfolio—Servicing Related Assets—Excess MSRs.” The Buyer funded the Initial Purchase Price with approximately $2.8 billion of debt and $0.4 billion of equity, excluding working capital. As of March 31, 2014, the Buyer had settled approximately $3.2 billion of servicer advances related to Transaction 1, which represents substantially all of Transaction 1.

See “–Call Right” below for a discussion of Transaction 2.

Nationstar remains the named servicer under the related servicing agreements and continues to perform all servicing duties for the underlying loans. The Buyer has the right, but not the obligation, to become the named servicer, subject to obtaining consents and ratings agency letters required for a formal change of the named servicer. In exchange for Nationstar’s performance of servicing duties, the Buyer pays Nationstar the Servicing Fee and, in the event that the aggregate cash flows from the advances and the basic fee generate the Targeted Return on the Buyer’s invested equity, the Performance Fee. Nationstar is majority owned by private equity funds managed by an affiliate of our manager. For more information about the fee structure, see below.

The following is a summary of the investments in servicer advances, including the right to the basic fee component of the related MSRs, made by the Buyer, which we consolidate (dollars in thousands):

	March 31, 2014				Three Months Ended March 31, 2014
	Amortized Cost Basis	Carrying Value (A)	Weighted Average Yield	Weighted Average Life (Years)(B)	Change in Fair Value Recorded in Other Income
Servicer Advances	$3,457,385	$3,457,385	5.8 %	3.2	—

(A) Carrying value represents the fair value of the investment in servicer advances, including the basic fee component of the related MSRs.
(B) Weighted Average Life represents the weighted average expected timing of the receipt of expected net cash flows for this investment.

47

The following is additional information regarding the servicer advances, and related financing, of the Buyer, which we consolidate as of March 31, 2014 (dollars in thousands):

	UPB of Underlying Residential Mortgage Loans	Outstanding Servicer Advances	Servicer Advances to UPB of Underlying Residential Mortgage Loans	Carrying Value of Notes Payable	Loan-to-Value		Cost of Funds (B)	
					Gross	Net (A)	Gross	Net
Servicer advances (C)	$79,687,268	$3,430,473	4.3 %	$3,142,292	91.6 %	90.6 %	3.0%	2.2%

(A) Ratio of face amount of borrowings to value of servicer advance collateral, net of an interest reserve maintained by the Buyer.
(B) Annualized measure of the cost associated with borrowings. Gross Cost of Funds primarily includes interest expense and facility fees. Net Cost of Funds excludes facility fees.
(C) The following types of advances comprise the investment in servicer advances:

	March 31, 2014
Principal and interest advances	$1,615,067
Escrow advances (taxes and insurance advances)	1,393,014
Foreclosure advances	422,392
Total	$3,430,473

	As of 12/31/13	As of 03/31/14	As of 5/5/2014 (D)
Advances Purchased	$2,687,813	$4,252,654	$4,870,156
Activity Since Purchase	(26,683)	(822,181)	(1,073,851)
Ending Advance Balance	$2,661,130	$3,430,473	$3,796,305
Net Debt (A)	$2,357,440	$3,107,685	$3,435,858
Total Equity Invested (B)	$363,324	$587,574	$674,009
Distributions Since Purchase	$—	$172,732	$172,732
Net Equity Invested (B)	$363.324	$414,842	$501,277
New Residential's Equity % in Buyer (C)	31.8 %	33.5 %	42.2 %
Co-investors' Equity % in Buyer (C)	68.2 %	66.5 %	57.8 %

(A) Outstanding debt net of restricted cash.
(B) Includes working capital.

(C) Based on cash basis equity.
(D) Includes new capital contribution of $86 million on May 2, 2014.

Call Right

In Transaction 1, the Buyer also acquired the right, but not the obligation (the “Call Right”), to purchase additional servicer advances, including the basic fee component of the related MSRs, on terms substantially similar to the terms of Transaction 1. As in Transaction 1, (i) the purchase price for the servicer advances, including the basic fee, will be the outstanding balance of the advances at the time of purchase and (ii) the Buyer will be obligated to purchase future servicer advances on the related loans. As of March 31, 2014, the remaining outstanding balance of the advances subject to the Call Right was approximately $1.4 billion and the UPB of the related loans was approximately $42.8 billion (an approximately $750 million balance of the advances, with a UPB of the related loans of approximately $30.8 billion, were outstanding as of May 5, 2014). We previously acquired an interest in the Excess MSRs related to these loans, which are in Pools 5, 10 and 12. See above “—Our Portfolio—Servicing Related Assets—Excess MSRs.” The Cal Right expires on June 30, 2014.

The Buyer exercised the Call Right, in part, in Transaction 2. The outstanding balance of the servicer advances subject to the portion of the Call Right that was exercised was approximately $1.1 billion as of the exercise dates,

February 28, 2014 and March 7, 2014. On May 2, 2014, $617.5 of the remaining portion of the outstanding balance of the servicer advances subject to the Call Right was exercised. If the Buyer exercises the Call Right in full, it expects to fund the total purchase price with approximately $2.5 billion of debt and $0.3 billion of equity, excluding working capital. As of March 31, 2014, the Buyer has settled $1.1 billion of advances related to Transaction 2, which was financed with approximately $0.9 billion of debt.

The remaining balance of the Call Right is expected to be settled in the second quarter of 2014. There can be no assurance that the remainder of the Call Right will be settled. The servicer advances subject to the Call Right cannot be purchased unless and until the related financings are repaid or renegotiated or until the related collateral is released in accordance with the terms of such financings (which would require the consent of various third parties.) For more information about the financing, see "—Liquidity and Capital Resources—Debt Obligations."

The Buyer

We, through a wholly owned subsidiary, are the managing member of the Buyer. As of March 31, 2014, we owned approximately 33.5% of the Buyer, which corresponds to a $139.0 million equity investment (net of distributions). On May 2, 2014, we have funded another $86.4 million and have brought our current ownership to approximately 42%. At the expiry of the Call Right and the settlement of the associated advances, we expect to own approximately 45-50% of the Buyer. As noted above, there can be no assurance that the Call Right will be settled in full.

The following is a summary of our interests in the Buyer's equity:

	March 31, 2014
Required equity (A)(B)	$508,539
Working capital (A)(B)	79,035
Other	12,994
Distributions	(172,732)
Total GAAP equity (B)	$427,836
GAAP equity attributable to New Residential	$143,501
New Residential's GAAP ownership	33.5 %

(A) Equity on which the Buyer applies its specified return.
(B) Capital held at the Buyer to invest in additional servicer advances and provide compensating balances for financing facilities.

In the event that any member does not fund its capital contribution, each other member has the right, but not the obligation, to make pro rata capital contributions in excess of its stated commitment, provided that any member's decision not to fund any such capital contribution will result in a reduction of its membership percentage.

Servicing Fee

Nationstar remains the named servicer under the applicable servicing agreements and will continue to perform all servicing duties for the related mortgage loans. The Buyer has the right, but not the obligation, to become the named servicer, subject to obtaining consents and ratings agency letters required for a formal change of the named servicer. In exchange for its services, the Buyer will pay Nationstar a monthly Servicing Fee representing a portion of the amounts from the purchased basic fee.

The Servicing Fee is equal to a fixed percentage (the "Servicing Fee Percentage") of the amounts from the purchased basic fee. The Servicing Fee Percentage as of March 31, 2014 is equal to approximately 9.2%, which is equal to (i) 2 basis points divided by (ii) the basic fee, which is 21.8 basis points on a weighted average basis as of March 31, 2014.

Targeted Return

The Targeted Return and the Performance Fee are designed to achieve three objectives: (i) provide a reasonable risk-adjusted return to the Buyer based on the expected amount and timing of estimated cash flows from the purchased basic fee and advances, with both upside and downside based on the performance of the investment, (ii) provide Nationstar with a sufficient fee to compensate it for acting as servicer, and (iii) provide Nationstar with an incentive to effectively service the underlying loans. The Targeted Return implements these objectives by allocating payments in respect of the purchased basic fee between the Buyer and Nationstar.

The amount available to satisfy the Targeted Return is equal to: (i) the amounts from the purchased basic fee, minus (ii) the Servicing Fee ("Net Collections"). The Buyer will retain the amount of Net Collections necessary to achieve the Targeted Return. Amounts in excess of the Targeted Return will be used to pay the Performance Fee.

The Targeted Return, which is payable monthly, is generally equal to (i) 14% multiplied by (ii) the Buyer's total invested capital. Total invested capital is generally equal to the sum of the Buyer's (i) equity in advances as of the beginning of the prior month, plus (ii) working capital (equal to a percentage of the equity as of the beginning of the prior month), plus (iii) equity and working capital contributed during the course of the prior month.

The Targeted Return is calculated after giving effect to (i) interest expense on the advance financing, (ii) other expenses and fees of the Buyer and its subsidiaries related to financing facilities, (iii) write-offs on account of any non-recoverable servicer advances, and (iv) any shortfall with respect to a prior month in the satisfaction of the Targeted Return.

Performance Fee

The Performance Fee is calculated as follows. Pursuant to a Master Servicing Rights Purchase Agreement and related Sale Supplements, Net Collections is divided into two subsets: the "Retained Amount" and the "Surplus Amount." If the amount necessary to achieve the Targeted Return is equal to or less than the Retained Amount, then 50% of the excess Retained Amount (if any) and 100% of the Surplus Amount is paid to Nationstar as the Performance Fee. If the amount necessary to achieve the Targeted Return is greater than the Retained Amount but less than Net Collections, then 100% of the excess Surplus Amount is paid to Nationstar as a Performance Fee.

Residential Securities and Loans

Real Estate Securities

As of March 31, 2014, we had approximately $2.9 billion face amount of real estate securities, including $1.1 billion of Agency ARM RMBS and $1.8 billion of Non-Agency RMBS. These investments were financed with repurchase agreements with an aggregate face amount of approximately $1.1 billion for Agency ARM RMBS and approximately $883.0 million for Non-Agency RMBS. As of March 31, 2014, a total face amount of $900.0 million of our Non-Agency portfolio was serviced by Nationstar. The total UPB of the loans underlying these Nationstar serviced Non-Agency RMBS was approximately $12.2 billion as of March 31, 2014.

On March 6, 2014, Merrill Lynch, Pierce, Fenner & Smith Incorporated and we entered into an agreement pursuant to which we agreed to purchase approximately $625 million face amount of Non-Agency residential mortgage securities for approximately $553 million. The purchased securities represent 75% of the mezzanine and subordinate tranches of a securitization previously sponsored by Springleaf. The securitization, including the purchased securities, is collateralized by residential mortgage loans with a face amount of approximately $0.9 billion.

Subsequent to March 31, 2014, we acquired Agency ARM RMBS with an aggregate face amount of approximately $223.9 million for approximately $238.1 million, financed with repurchase agreements. Furthermore, we acquired Non-Agency RMBS with an aggregate face amount of approximately $50.7 million for approximately $14.2 million, financed with repurchase agreements. We sold no Agency ARM RMBS and sold Non-Agency RMBS with a face amount of $207.1 million and an amortized cost basis of approximately $138.5 million for approximately $145.0 million and recorded a gain of $6.5 million.

Agency ARM RMBS

The following table summarizes our Agency ARM RMBS portfolio as of March 31, 2014 (dollars in thousands):

Asset Type	Outstanding Face Amount	**Amortized Cost Basis(A)**	Gross Unrealized Gains	Gross Unrealized Losses	**Carrying Value(A)(B)**	Outstanding Repurchase Agreements
Agency ARM RMBS	$1,085,447	$1,153,504	$4,131	$(3,579)	$1,154,057	$1,117,592

(A) Amortized cost basis and carrying value exclude $8.6 million of principal receivables as of March 31, 2014.
(B) Fair value, which is equal to carrying value for all securities.

The following table summarizes the reset dates of our Agency ARM RMBS portfolio as of March 31, 2014 (dollars in thousands):

						Weighted Average					
								Periodic Cap			
Months to Next Reset (A)	**Number of Securities**	**Outstanding Face Amount**	**Amortized Cost Basis (B)**	**Percentage of Total Amortized Cost Basis**	**Carrying Value (B)**	**Coupon**	**Margin**	**1st Coupon Adjustment (C)**	**Subsequent Coupon Adjustment (D)**	**Lifetime Cap (E)**	**Months to Reset (F)**
1 - 12	78	$673,603	$716,617	62.1 %	$716,720	3.0%	1.8%	N/A (G)	2.0%	9.8%	7
13 - 24	26	294,346	312,778	27.1 %	313,264	3.4%	1.8%	5.0 %	2.0%	8.5%	17
25 - 36	5	117,498	124,109	10.8 %	124,073	3.3%	1.8%	5.0 %	2.0%	8.3%	25
Total/Weighted Average	109	$1,085,447	$1,153,504	100.0%	$1,154,057	3.2%	1.8%	5.0 %	2.0%	9.3%	12

(A) Of these investments, 89.0% reset based on 12 month LIBOR index, 2.1% reset based on 6 month LIBOR Index, 0.5% reset based on 1 month LIBOR, and 8.4% reset based on the 1 year Treasury Constant Maturity Rate. After the initial fixed period, 97.4% of these securities will reset annually and 2.6% will reset semi-annually.
(B) Amortized cost basis and carrying value exclude $8.6 million of principal receivables as of March 31, 2014.
(C) Represents the maximum change in the coupon at the end of the fixed rate period.
(D) Represents the maximum change in the coupon at each reset date subsequent to the first coupon adjustment.

(E) Represents the maximum coupon on the underlying security over its life.
(F) Represents recurrent weighted average months to the next interest rate reset.
(G) Not applicable as 57 of the securities (66% of the current face of this category) are past the first coupon adjustment period. The remaining 21 securities (34% of the current face of this category) have a maximum change in the coupon of 5.0% at the end of the fixed rate period.

The following table summarizes the characteristics of our Agency ARM RMBS portfolio and of the collateral underlying our Agency ARM RMBS as of March 31, 2014 (dollars in thousands):

Vintage (A)	Agency ARM RMBS Characteristics						Collateral Characteristics
	Number of Securities	Outstanding Face Amount	Amortized Cost Basis (B)	Percentage of Total Amortized Cost Basis	Carrying Value (B)	Weighted Average Life (Years)	3 Month CPR (C)
Pre-2006	26	$ 139,853	$ 148,236	12.9 %	$ 149,105	5.4	10.5 %
2006	6	30,538	32,699	2.8 %	32,646	4.1	19.4 %
2007	15	79,151	84,199	7.3 %	84,266	4.8	21.3 %
2008	8	62,054	65,776	5.7 %	66,146	6.7	6.6 %
2009	8	70,296	75,452	6.5 %	75,264	3.8	19.9 %
2010	27	324,083	344,591	29.9 %	344,660	3.9	25.4 %
2011	14	229,801	242,861	21.1 %	243,082	3.8	18.6 %
2012 and later	5	149,671	159,690	13.8 %	158,888	3.8	21.8 %
Total/Weighted Average	109	$ 1,085,447	$ 1,153,504	100.0 %	$ 1,154,057	4.3	19.6 %

(A) The year in which the securities were issued.
(B) Amortized cost basis and carrying value exclude $8.6 million of principal receivables as of March 31, 2014.
(C) Three month average constant prepayment rate.

The following table summarizes the net interest spread of our Agency ARM RMBS portfolio as of March 31, 2014:

Net Interest Spread (A)	
Weighted Average Asset Yield	1.53 %
Weighted Average Funding Cost	0.34 %
Net Interest Spread	1.19 %

(A) The entire Agency ARM RMBS portfolio consists of floating rate securities. See table above for details on rate resets.

Non-Agency RMBS

The following table summarizes our Non-Agency RMBS portfolio as of March 31, 2014 (dollars in thousands):

Asset Type	Gross Unrealized	
	Gains	Losses

	Outstanding Face Amount	Amortized Cost Basis			**Carrying Value**[(A)]	Outstanding Repurchase Agreements
Non-Agency RMBS (B)	$1,573,433	$1,171,035	$14,902	$(5,586)	$1,180,351	$ 883,002
Other ABS	207,431	2,160	60	—	2,220	—
Non-Agency RMBS	$1,780,864	$1,173,195	$14,962	$(5,586)	$1,182,571	$ 883,002

(A) Fair value, which is equal to carrying value for all securities.
(B) Excludes Other ABS securities representing 0.2% of the carrying value of the Non-Agency RMBS portfolio.

The following tables summarize the characteristics of our Non-Agency RMBS portfolio and of the collateral underlying our Non-Agency RMBS as of March 31, 2014 (dollars in thousands):

Vintage (B)	**Non- Agency RMBS Characteristics (A)** Average Minimum Rating (C)	Number of Securities	Outstanding Face Amount	Amortized Cost Basis	Percentage of Total Amortized Cost Basis	Carrying Value	Principal Subordination (D)	Excess Spread (E)	Weighted Average Life (Years)
Pre 2004	CCC	50	$86,634	$59,099	5.0 %	$60,681	17.4 %	1.9 %	6.3
2004	D	16	85,709	64,986	5.5 %	67,272	18.3 %	3.6 %	9.7
2005	C	10	131,080	102,163	8.7 %	102,585	10.5 %	2.0 %	10.0

2007 and later	CCC	24	911,421	719,167	61.4 %	723,573	19.9 %	2.1 %	5.8
Total/Weighted Average	CC	120	$1,573,433	$1,171,035	100.0 %	$1,180,351	14.9 %	2.5 %	8.5

Vintage (B)	Collateral Characteristics (A)(F) Average Loan Age (years)	Collateral Factor (G)	3 month CPR (H)	Delinquency (I)	Cumulative Losses to Date
Pre 2004	11.9	0.06	9.3 %	14.1 %	3.4 %
2004	9.8	0.07	9.5 %	17.9 %	3.7 %
2005	10.7	0.14	8.7 %	19.0 %	10.3 %
2006	7.9	0.23	9.8 %	30.9 %	25.8 %
2007 and later	8.3	0.45	13.7 %	8.4 %	13.6 %
Total / WA	8.7	0.33	11.9 %	15.2 %	15.0 %

(A) Excludes Other ABS securities representing 0.2% of the carrying value of the Non-Agency RMBS portfolio.
(B) The year in which the securities were issued.
(C) Ratings provided above were determined by third party rating agencies, represent the most recent credit ratings available as of the reporting date and may not be current. This excludes the ratings of the collateral underlying four bonds which are no longer rated and four bonds for which we were unable to obtain rating information. We had no assets that were on negative watch for possible downgrade by at least one rating agency as of March 31, 2014.
(D) The percentage of the outstanding face amount of securities and residual interests that is subordinate to our investments.
(E) The current amount of interest received on the underlying loans in excess of the interest paid on the securities, as a percentage of the outstanding collateral balance for the quarter ended March 31, 2014.
(F) The weighted average loan size of the underlying collateral is $181.8 thousand. This excludes the collateral underlying one bond, due to unavailable information.
(G) The ratio of original UPB of loans still outstanding.
(H) Three month average constant prepayment rate and default rates.
(I) The percentage of underlying loans that are 90+ days delinquent, or in foreclosure or considered REO.

The following table sets forth the geographic diversification of the loans underlying our Non-Agency RMBS as of March 31, 2014 (dollars in thousands):

Geographic Location (A)	Outstanding Face Amount	Percentage of Total Outstanding	
Western U.S.	$452,630	28.8	%
Southeastern U.S.	437,365	27.8	%
Northeastern U.S.	301,484	19.1	%
Midwestern U.S.	248,757	15.8	%
Southwestern U.S.	93,646	6.0	%
Other (B)	39,551	2.5	%
	$1,573,433	100.0	%

53

(A) Excludes Other ABS securities representing 0.2% of the carrying value of the Non-Agency RMBS portfolio.
(B) Represents collateral for which we were unable to obtain geographical information.

The following table summarizes the net interest spread of our Non-Agency RMBS portfolio as of March 31, 2014:

Net Interest Spread (A)	
Weighted Average Asset Yield	4.65%
Weighted Average Funding Cost	1.98%
Net Interest Spread	2.67%

(A) The Non-Agency RMBS portfolio consists of 76.1% floating rate securities and 23.9% fixed rate securities. Excludes Other ABS securities representing 0.2% of the carrying value of the Non-Agency RMBS portfolio.

Real Estate Loans

Residential Mortgage Loans

As of March 31, 2014, we had approximately $57.8 million outstanding face amount of residential mortgage loans. In February 2013, we invested approximately $35.1 million to acquire a 70% interest in the mortgage loans. Nationstar co-invested pari passu with us in 30% of the mortgage loans and is the servicer of the loans, performing all servicing and advancing functions, and retaining the ancillary income, servicing obligations and liabilities as the servicer.

In the fourth quarter of 2013, we invested approximately $92.7 million in a pool of residential mortgage loans with a UPB of approximately $170.1 million. The investment was financed with $60.1 million under a $300.0 million master repurchase agreement with RBS. On March 28, 2014, we invested approximately $3.8 million in a pool of residential mortgage loans with a UPB of approximately $7.0 million. The investment was financed with a $2.5 million master repurchase agreement with RBS. These acquisitions are accounted for as “linked transactions” (derivatives), as described in Note 10 to our consolidated financial statements included in this report.

On January 15, 2014, we purchased a portfolio of non-performing residential mortgage loans with a UPB of approximately $65.6 million at a price of approximately $33.7 million. To finance this purchase, on January 15, 2014, we entered into a $25.3 million repurchase agreement with Credit Suisse Securities (USA) LLC, which matures on January 14, 2015. Borrowings under the agreement bear interest equal to the sum of (i) a floating rate index rate equal to one-month LIBOR and (ii) a margin of 3.00%. The agreement contains customary covenants and event of default provisions. This acquisition is accounted for as a linked transaction, as described in Note 10 to our consolidated

financial statements included in this report.

On April 8, 2014, we agreed to purchase from an affiliate of Natixis a portfolio of non-performing and re-performing residential mortgage loans with a UPB of approximately $93 million for a price of approximately $67 million. We expect to finance approximately 70% of the purchase price with a repurchase agreement. The purchase is expected to settle in the second quarter of 2014, although there can be no assurance that the transaction will be completed as expected or at all.

On April 11, 2014, we agreed to purchase from JPMorgan Chase Bank, N.A. a portfolio of non-performing residential mortgage loans with a UPB of approximately $525 million for a price of approximately $392 million. We expect to finance approximately 75% of the purchase price with a repurchase agreement. The purchase is expected to settle in the second quarter of 2014, although there can be no assurance that the transaction will be completed as expected or at all.

The following table summarizes the characteristics of our reverse mortgage loans as of March 31, 2013 (dollars in thousands):

	Outstanding Face Amount	Loan Count	Weighted Average Coupon (A)	Weighted Average Maturity (Years) (B)	Floating Rate as a % of Face Amount
Reverse Mortgage Loans (C)	$ 57,818	321	5.1 %	3.6	21.7 %

54

(A) Represents the stated interest rate on the loans. Accrued interest on reverse mortgage loans is generally added to the principal balance and paid when the loan is resolved.
(B) The weighted average maturity is based on the timing of expected principal reduction on the assets.
(C) 80% of these loans have reached a termination event. As a result, the borrower can no longer make draws on these loans.

Other

Consumer Loans

On April 1, 2013, we completed, through newly formed limited liability companies (together, the “Consumer Loan Companies”), a co-investment in a portfolio of consumer loans with a UPB of approximately $4.2 billion as of December 31, 2012. The portfolio included over 400,000 personal unsecured loans and personal homeowner loans originated through subsidiaries of HSBC Finance Corporation. The Consumer Loan Companies acquired the portfolio from HSBC Finance Corporation and its affiliates. We invested approximately $250 million for 30% membership interests in each of the Consumer Loan Companies. Of the remaining 70% of the membership interests, Springleaf, which is majority-owned by Fortress funds managed by our Manager, acquired 47% and an affiliate of Blackstone Tactical Opportunities Advisors LLC acquired 23%. Springleaf acts as the managing member of the Consumer Loan Companies. After a servicing transition period, Springleaf became the servicer of the loans and provides all servicing and advancing functions for the portfolio. The Consumer Loan Companies initially financed $2.2 billion ($1.4 billion outstanding as of March 31, 2014) of the approximately $3.0 billion purchase price with asset-backed notes that have a maturity of April 2021, and pay a coupon of 3.75%. In September 2013, the Consumer Loan Companies issued and sold an additional $0.4 billion of asset-backed notes for 96% of par. These notes are subordinate to the debt issued in April 2013, have a maturity of December 2024, and pay a coupon of 4%.

Subsequent to March 31, 2014, we paid down approximately $7.5 million of the master repurchase agreement secured by our ownership interest in the consumer loan companies.

The table below summarizes the collateral characteristics of the consumer loans as of March 31, 2014 (dollars in thousands):

Collateral Characteristics													
UPB	Personal Unsecured Loans %	Personal Homeowner Loans %	Number of Loans	Weighted Average Original FICO Score	Weighted Average Coupon	Adjustable Rate Loan %	Average Loan Age (months)	Average Expected Life (Years)	Delinquency 30 Days (B)	Delinquency 60 Days (B)	Delinquency 90+ Days (B)	3 Month Weighted Average Charge-	3 Month CRR (D)

					(A)								off Rate (C)	
Consumer Loans	$3,098,138	67.5%	32.5%	323,570	634	18.1%	10.3%	106	3.2	3.4%	1.9%	5.1%	9.6%	15.4%

(A) Weighted average original FICO score represents the FICO score at the time the loan was originated.

(B) Delinquency 30 Days, Delinquency 60 Days and Delinquency 90+ Days represent the percentage of the total principal balance of the pool that corresponds to loans that are delinquent by 30-59 days, 60-89 days or 90 or more days, respectively.

(C) 3 Month weighted average charge-off rate represents the loans charged-off during the three months as a percentage of total principal balance of the pool.

(D) 3 Month CRR, or the voluntary prepayment rate, represents the annualized rate of the voluntary prepayments during the three months as a percentage of the total principal balance of the pool.

(E) 3 Month CDR, or the involuntary prepayment rate, represents the annualized rate of the involuntary prepayments (defaults) during the three months as a percentage of the total principal balance of the pool.

APPLICATION OF CRITICAL ACCOUNTING POLICIES

Management's discussion and analysis of financial condition and results of operations is based upon our consolidated financial statements, which have been prepared in accordance with GAAP. The preparation of financial statements in conformity with GAAP requires the use of estimates and assumptions that could affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities and the reported amounts of revenue and expenses. Actual results could differ from these estimates. Management believes that the estimates and assumptions utilized in the preparation of the consolidated financial statements are prudent and reasonable. Actual results historically have been in line with management's estimates and judgments used in applying each of the accounting policies described below, as modified periodically to reflect current market conditions. The following is a summary of our accounting policies that are most affected by judgments, estimates and assumptions.

Excess MSRs

Upon acquisition, we elected to record each investment in Excess MSRs at fair value. We elected to record our investments in Excess MSRs at fair value in order to provide users of the financial statements with better information regarding the effects of prepayment risk and other market factors on the Excess MSRs.

GAAP establishes a framework for measuring fair value of financial instruments and a set of related disclosure requirements. A three-level valuation hierarchy has been established based on the transparency of inputs to the valuation of a financial instrument as of the measurement date. The three levels are defined as follows:

Level 1—Quoted prices in active markets for identical instruments.

Level 2—Valuations based principally on other observable market parameters, including:

- Quoted prices in active markets for similar instruments,
- Quoted prices in less active or inactive markets for identical or similar instruments,
- Other observable inputs (such as interest rates, yield curves, volatilities, prepayment speeds, loss severities, credit risks and default rates), and
- Market corroborated inputs (derived principally from or corroborated by observable market data).

Level 3—Valuations based significantly on unobservable inputs.

The level in the fair value hierarchy within which a fair value measurement or disclosure in its entirety is based on the lowest level of input that is significant to the fair value measurement or disclosure in its entirety.

Our Excess MSRs are categorized as Level 3 under the GAAP hierarchy. The inputs used in the valuation of Excess MSRs include prepayment speed, delinquency rate, recapture rate, excess mortgage servicing amount and discount rate. The determination of estimated cash flows used in pricing models is inherently subjective and imprecise. The methods used to estimate fair value may not result in an amount that is indicative of net realizable value or reflective of future fair values. Changes in market conditions, as well as changes in the assumptions or methodology used to determine fair value, could result in a significant increase or decrease in fair value. Management validates significant inputs and outputs of our models by comparing them to available independent third party market parameters and models for reasonableness. We believe the assumptions we use are within the range that a market participant would use, and factor in the liquidity conditions in the markets. Any changes to the valuation methodology will be reviewed by management to ensure the changes are appropriate.

In order to evaluate the reasonableness of its fair value determinations, management engages an independent valuation firm to separately measure the fair value of its Excess MSRs pools. The independent valuation firm determines an estimated fair value range based on its own models and issues a “fairness opinion” with this range. Management compares the range included in the opinion to the values generated by its internal models. For Excess MSRs acquired prior to the current quarter, the fairness opinion relates to the valuation at the current quarter end date. For Excess MSRs acquired during the current quarter, the fairness opinion relates to the valuation at the time of acquisition. To date, we have not made any significant valuation adjustments as a result of these fairness opinions.

For Excess MSRs acquired during the current quarter, we revalue the Excess MSRs at the quarter end date if a payment is received between the acquisition date and the end of the quarter. Otherwise, Excess MSRs acquired during the current quarter are carried at their amortized cost basis if there has been no change in assumptions since acquisition.

Investments in Excess MSRs are aggregated into pools as applicable; each pool of Excess MSRs is accounted for in the aggregate. Interest income for Excess MSRs is accreted using an effective yield or "interest" method, based upon the expected income from the Excess MSRs through the expected life of the underlying mortgages. Changes to expected cash flows result in a cumulative retrospective adjustment, which will be recorded in the period in which the change in expected cash flows occurs. Under the retrospective method, the interest income recognized for a reporting period would be measured as the difference between the amortized cost basis at the end of the period and the amortized cost basis at the beginning of the period, plus any cash received during the period. The amortized cost basis is calculated as the present value of estimated future cash flows using an effective yield, which is the yield that equates all past actual and current estimated future cash flows to the initial investment. In addition, our policy is to recognize interest income only on Excess MSRs in existing eligible underlying mortgages.

Under the fair value election, the difference between the fair value of Excess MSRs and their amortized cost basis is recorded as "Change in fair value of investments in excess mortgage servicing rights," as applicable. Fair value is generally determined by discounting the expected future cash flows using discount rates that incorporate the market risks and liquidity premium specific to the Excess MSRs, and therefore may differ from their effective yields.

The following tables summarize the estimated change in fair value of our interests in the Excess MSRs owned directly as of March 31, 2014 given several parallel shifts in the discount rate, prepayment rate, delinquency rate and recapture rate (dollars in thousands):

Fair value at March 31, 2014	$341,704			
Discount rate shift in %	-20%	-10%	10%	20%
Estimated fair value	$373,543	$356,846	$327,908	$315,297
Change in estimated fair value:				
Amount	$31,838	$15,141	$(13,797)	$(26,408)
%	9.3 %	4.4 %	-4.0 %	-7.7 %
Prepayment rate shift in %	-20%	-10%	10%	20%
Estimated fair value	$370,632	$355,661	$328,659	$316,454
Change in estimated fair value:				
Amount	$28,927	$13,956	$(13,046)	$(25,251)
%	8.5 %	4.1 %	-3.8 %	-7.4 %
Delinquency rate shift in %	-20%	-10%	10%	20%

Estimated fair value	$345,985	$343,842	$339,558	$337,415
Change in estimated fair value:				
Amount	$4,280	$2,137	$(2,147)	$(4,290)
%	1.3 %	0.6 %	-0.6 %	-1.3 %

Recapture rate shift in %	-20%	-10%	10%	20%
Estimated fair value	$335,264	$338,449	$344,809	$347,727
Change in estimated fair value:				
Amount	$(6,441)	$(3,256)	$3,104	$6,022
%	-1.9 %	-1.0 %	0.9 %	1.8 %

The following tables summarize the estimated change in fair value of our interests in the Excess MSRs owned through equity method investees as of March 31, 2014 given several parallel shifts in the discount rate, prepayment rate, delinquency rate and recapture rate (dollars in thousands):

Fair value at March 31, 2014	$338,307			
Discount rate shift in %	-20%	-10%	10%	20%
Estimated fair value	$371,364	$353,980	$324,049	$311,088
Change in estimated fair value:				
Amount	$33,057	$15,673	$(14,258)	$(27,219)
%	9.8 %	4.6 %	-4.2 %	-8.0 %
Prepayment rate shift in %	-20%	-10%	10%	20%
Estimated fair value	$365,567	$351,470	$325,927	$314,324
Change in estimated fair value:				
Amount	$27,260	$13,163	$(12,380)	$(23,983)
%	8.1 %	3.9 %	-3.7 %	-7.1 %
Delinquency rate shift in %	-20%	-10%	10%	20%
Estimated fair value	$343,836	$341,060	$335,509	$332,736
Change in estimated fair value:				
Amount	$5,529	$2,753	$(2,798)	$(5,571)
%	1.6 %	0.8 %	-0.8 %	-1.6 %
Recapture rate shift in %	-20%	-10%	10%	20%
Estimated fair value	$327,204	$332,685	$344,009	$349,860
Change in estimated fair value:				
Amount	$(11,103)	$(5,622)	$5,702	$11,553
%	-3.3 %	-1.7 %	1.7 %	3.4 %

The sensitivity analysis is hypothetical and should be used with caution. In particular, the results are calculated by stressing a particular economic assumption independent of changes in any other assumption; in practice, changes in one factor may result in changes in another, which might counteract or amplify the sensitivities. Also, changes in the fair value based on a 10% variation in an assumption generally may not be extrapolated because the relationship of the change in the assumption to the change in fair value may not be linear.

Servicer Advances

We account for investments in servicer advances, which include the basic fee component of the related MSR (the “servicer advance investments”), as financial instruments, since we are not a licensed mortgage servicer.

We have elected to account for the servicer advance investments at fair value. Accordingly, we estimate the fair value of the servicer advance investments at each reporting date and reflect changes in the fair value of the servicer advance investments as gains or losses.

We initially recorded the servicer advance investments at the purchase price paid, which we believe reflects the value a market participant would attribute to the investments at the time of our purchase. We recognize interest income from our servicer advance investments using the interest method, with adjustments to the yield applied based

upon changes in actual or expected cash flows under the retrospective method. The servicer advances are not interest-bearing, but we accrete the effective rate of interest applied to the aggregate cash flows from the servicer advances and the basic fee component of the related MSR.

We categorize servicer advance investments under Level 3 of the GAAP hierarchy described above under "—Application of Critical Accounting Policies—Excess MSRs," since we use internal pricing models to estimate the future cash flows related to the servicer advance investments that incorporate significant unobservable inputs and include assumptions that are inherently subjective and imprecise. In order to evaluate the reasonableness of its fair value determinations, management engages an independent valuation firm to separately measure the fair value of its servicer advances investment. The independent valuation firm determines an estimated fair value range based on its own models and issues a "fairness opinion" with this range.

Our estimations of future cash flows include the combined cash flows of all of the components that comprise the servicer advance investments: existing advances, the requirement to purchase future advances and the right to the basic fee component of the related MSR. The factors that most significantly impact the fair value include (i) the rate at which the servicer advance balance declines, which we estimate is approximately $700.0 million per year on average over the weighted average life of the investment held as of March 31, 2014, (ii) the duration of outstanding servicer advances, which we estimate is approximately nine months on average for an advance balance at a given point in time (not taking into account new advances made with respect to the pool), and (iii) the UPB of the underlying loans with respect to which we have the obligation to make advances and own the basic fee component.

As described above, we recognize income from servicer advance investments in the form of (i) interest income, which we reflect as a component of net interest income and (ii) changes in the fair value of the servicer advances, which we reflect as a component of other income.

We remit to Nationstar a portion of the basic fee component of the MSR related to our servicer advance investments as compensation for acting as servicer, as described in more detail under "—Our Portfolio—Servicing Related Assets—Servicer Advances." Our interest income is recorded net of the servicing fee owed to Nationstar.

Real Estate Securities (RMBS)

Our Non-Agency RMBS and Agency ARM RMBS are classified as available-for-sale. As such, they are carried at fair value, with net unrealized gains or losses reported as a component of accumulated other comprehensive income, to the extent impairment losses are considered temporary, as described below.

We expect that any RMBS we acquire will be categorized under Level 2 or Level 3 of the GAAP hierarchy described above under "—Application of Critical Accounting Policies—Excess MSRs," depending on the observability of the inputs. Fair value may be based upon broker quotations, counterparty quotations, pricing service quotations or internal pricing models. The significant inputs used in the valuation of our securities include the discount rate, prepayment speeds, default rates and loss severities, as well as other variables.

The determination of estimated cash flows used in pricing models is inherently subjective and imprecise. The methods used to estimate fair value may not be indicative of net realizable value or reflective of future fair values. Changes in market conditions, as well as changes in the assumptions or methodology used to determine fair value, could result in a significant increase or decrease in fair value. Management validates significant inputs and outputs of our models by comparing them to available independent third party market parameters and models for reasonableness. We believe the assumptions we use are within the range that a market participant would use, and factor in the liquidity conditions in the markets. Any changes to the valuation methodology will be reviewed by management to ensure the changes are appropriate.

We must also assess whether unrealized losses on securities, if any, reflect a decline in value that is other-than-temporary and, if so, record an other-than-temporary impairment through earnings. A decline in value is deemed to be other-than-temporary if (i) it is probable that we will be unable to collect all amounts due according to the contractual terms of a security that was not impaired at acquisition (there is an expected credit loss), or (ii) if we

have the intent to sell a security in an unrealized loss position or it is more likely than not that we will be required to sell a security in an unrealized loss position prior to its anticipated recovery (if any). For the purposes of performing this analysis, we will assume the anticipated recovery period is until the expected maturity of the applicable security. Also, for securities that represent beneficial interests in securitized financial assets within the scope of ASC 325-40, whenever there is a probable adverse change in the timing or amounts of estimated cash flows of a security from the cash flows previously projected, an other-than-temporary impairment will be deemed to have occurred. Our Non-Agency RMBS acquired with evidence of deteriorated credit quality for which it was probable, at acquisition, that we would be unable to collect all contractually required payments receivable, fall within the scope of ASC 310-30, as opposed to ASC 325-40. All of our other Non-Agency RMBS, those not acquired with evidence of deteriorated credit quality, fall within the scope of ASC 325-40.

Income on these securities is recognized using a level yield methodology based upon a number of cash flow assumptions that are subject to uncertainties and contingencies. Such assumptions include the rate and timing of principal and interest receipts (which may be subject to prepayments and defaults). These assumptions are updated on at least a quarterly basis to reflect changes related to a particular security, actual historical data, and market changes. These uncertainties and contingencies are difficult to predict and are subject to future events, and economic and market conditions, which may alter the assumptions. For securities acquired at a discount for credit losses, we recognize the excess of all cash flows expected over our investment in the securities as Interest Income on a "loss adjusted yield" basis. The loss-adjusted yield is determined based on an evaluation of the credit status of securities, as described in connection with the analysis of impairment above.

Real Estate Loans

We invest in loans, including but not limited to, residential mortgage loans. Loans for which we have the intent and ability to hold for the foreseeable future, or until maturity or payoff, are classified as held-for-investment. Loans are presented in the consolidated balance sheet at cost net of any unamortized discount (or gross of any unamortized premium). We determine at acquisition whether loans will be aggregated into pools based on common risk characteristics (credit quality, loan type, and date of origination or acquisition); loans aggregated into pools are accounted for as if each pool were a single loan.

Income on these loans is recognized similarly to that on our securities using a level yield methodology and is subject to similar uncertainties and contingencies, which are also analyzed on at least a quarterly basis.

Valuation of Derivatives

We financed certain investments with the same counterparty from which we purchased those investments, and we accounted for the contemporaneous purchase of the investments and the associated financings as linked transactions. Accordingly, we recorded a non-hedge derivative instrument on a net basis. We also enter into various economic hedges. Changes in market value of non-hedge derivative instruments and economic hedges are recorded as "Other Income" in the Consolidated Statements of Income.

Impairment of Loans

To the extent that they are classified as held-for-investment, we must periodically evaluate each of these loans or loan pools for possible impairment. Impairment is indicated when it is deemed probable that we will be unable to collect all amounts due according to the contractual terms of the loan, or for loans acquired at a discount for credit losses, when it is deemed probable that we will be unable to collect as anticipated. Upon determination of impairment, we would establish a specific valuation allowance with a corresponding charge to earnings. We continually evaluate our loans receivable for impairment.

Our residential mortgage loans are aggregated into pools for evaluation based on like characteristics, such as loan type and acquisition date. Pools of loans are evaluated based on criteria such as an analysis of borrower performance, credit ratings of borrowers, loan to value ratios, the estimated value of the underlying collateral, the key terms of the loans and historical and anticipated trends in defaults and loss severities for the type and seasoning of loans being evaluated. This information is used to estimate provisions for estimated unidentified incurred losses on pools of loans. Significant judgment is required in determining impairment and in estimating the resulting loss

allowance. Furthermore, we must assess our intent and ability to hold our loan investments on a periodic basis. If we do not have the intent to hold a loan for the foreseeable future or until its expected payoff, the loan must be classified as “held for sale” and recorded at the lower of cost or estimated value.

Investment Consolidation

The analysis as to whether to consolidate an entity is subject to a significant amount of judgment. Some of the criteria considered are the determination as to the degree of control over an entity by its various equity holders, the design of the entity, how closely related the entity is to each of its equity holders, the relation of the equity holders to each other and a determination of the primary beneficiary in entities in which we have a variable interest. These analyses involve estimates, based on the assumptions of management, as well as judgments regarding significance and the design of entities.

Variable interest entities (“VIEs”) are defined as entities in which equity investors do not have the characteristics of a controlling financial interest or do not have sufficient equity at risk for the entity to finance its activities without additional subordinated financial support from other parties. A VIE is required to be consolidated by its primary beneficiary, and only by its primary beneficiary, which is defined as the party who has the power to direct the activities of a VIE that most significantly impact its economic performance and who has the obligation to absorb losses or the right to receive benefits from the VIE that could potentially be significant to the VIE.

Our investments in Non-Agency RMBS are variable interests. We monitor these investments and analyze the potential need to consolidate the related securitization entities pursuant to the VIE consolidation requirements.

These analyses require considerable judgment in determining whether an entity is a VIE and determining the primary beneficiary of a VIE since they involve subjective determinations of significance, with respect to both power and economics. The result could be the consolidation of an entity that otherwise would not have been consolidated or the de-consolidation of an entity that otherwise would have been consolidated.

We have not consolidated the securitization entities that issued our Non-Agency RMBS. This determination is based, in part, on our assessment that we do not have the power to direct the activities that most significantly impact the economic performance of these entities, such as if we owned a majority of the currently controlling class. In addition, we are not obligated to provide, and have not provided, any financial support to these entities.

We have not consolidated the entities in which we hold a 50% interest that made an investment in Excess MSRs. We have determined that the decisions that most significantly impact the economic performance of these entities will be made collectively by us and the other investor in the entities. In addition, these entities have sufficient equity to permit the entities to finance their activities without additional subordinated financial support. Based on our analysis, these entities do not meet any of the VIE criteria.

We have invested in servicer advances, including the basic fee component of the related MSRs, through the Buyer, of which we are the managing member. The Buyer was formed through cash contributions by us and third-parties in exchange for membership interests. As of May 5, 2014, we owned an approximately 42% interest in the Buyer, and the third-party investors owned the remaining membership interests. Through our managing member interest, we direct substantially all of the day-to-day activities of the Buyer. The third-party investors do not possess substantive participating rights or the power to direct the day-to-day activities that most directly affect the operations of the Buyer. In addition, no single third-party investor, or group of third-party investors, possesses the substantive ability to remove us as the managing member of the Buyer. We have determined that the Buyer is a voting interest entity. As a result of our managing member interest, which represents a controlling financial interest, we consolidate the Buyer and its wholly owned subsidiaries and reflect membership interests in the Buyer held by third parties as noncontrolling interests.

Investments in Equity Method Investees

We account for our investment in the Consumer Loan Companies pursuant to the equity method of accounting because we can exercise significant influence over the Consumer Loan Companies, but the requirements for

consolidation are not met. Our share of earnings and losses in these equity method investees is included in "Earnings from investments in consumer loans, equity method investees" on the Consolidated Statements of Income. Equity method investments are included in "Investments in consumer loans, equity method investees" on the Consolidated Balance Sheets.

The Consumer Loan Companies classify their investments in consumer loans as held-for-investment, as they have the intent and ability to hold for the foreseeable future, or until maturity or payoff. The Consumer Loan Companies record the consumer loans at cost net of any unamortized discount or loss allowance. The Consumer Loan Companies determined at acquisition that these loans would be aggregated into pools based on common risk characteristics (credit quality, loan type, and date of origination or acquisition); the loans aggregated into pools are accounted for as if each pool were a single loan.

We account for our investments in equity method investees that are invested in Excess MSRs pursuant to the equity method of accounting because we can exercise significant influence over the investees, but the requirements for consolidation are not met. We have elected to measure our investments in equity method investees which are invested in Excess MSRs at fair value. The equity method investees have also elected to measure their investments in Excess MSRs at fair value.

Income Taxes

Our financial results are generally not expected to reflect provisions for current or deferred income taxes. We intend to operate in a manner that allows us to qualify for taxation as a REIT. As a result of our expected REIT qualification, we do not generally expect to pay U.S. federal or state and local corporate level taxes. Many of the REIT requirements, however, are highly technical and complex. If we were to fail to meet the REIT requirements, we would be subject to U.S. federal, state and local income and franchise taxes, and we would face a variety of adverse consequences. See "Risk Factors – Risks Related to Our Taxation as a REIT." We have made certain investments, particularly our investments in servicer advances, through TRSs and are subject to regular corporate income taxes on these investments. Our investments through TRSs did not generate any material taxable income in 2013.

RECENT ACCOUNTING PRONOUNCEMENTS

The FASB has recently issued or discussed a number of proposed standards on such topics as consolidation, financial statement presentation, revenue recognition, financial instruments and hedging. Some of the proposed changes are significant and could have a material impact on our reporting. We have not yet fully evaluated the potential impact of these proposals, but will make such an evaluation as the standards are finalized.

62

RESULTS OF OPERATIONS

The following table summarizes the changes in our results of operations for the three months ended March 31, 2014 compared to the three months ended March 31, 2013 (dollars in thousands). Our results of operations are not necessarily indicative of our future performance, particularly because we were not an independent public company until May 15, 2013.

	Three Months Ended March 31,		Increase (Decrease)	
	2014	2013	Amount	%
Interest income	$71,490	$16,191	$55,299	341.5 %
Interest expense	38,997	899	38,098	4237.8%
Net Interest Income	32,493	15,292	17,201	112.5 %
Impairment				
Other-than-temporary impairment (“OTTI”) on securities	328	—	328	N.M.
Valuation allowance on loans	164	—	164	N.M.
	492	—	492	N.M.
Net interest income after impairment	32,001	15,292	16,709	109.3 %
Other Income				
Change in fair value of investments in excess mortgage servicing rights	6,602	1,858	4,744	255.3 %
Change in fair value of investments in excess mortgage servicing rights, equity method investees	6,374	969	5,405	557.8 %
Earnings from investments in consumer loans, equity method investees	16,360	—	16,360	N.M.
Gain on settlement of securities	4,357	—	4,357	N.M.
Other income	1,357	—	1,357	N.M.
	35,050	2,827	32,223	1139.8%

Net Income (Loss)	$56,865	$13,075	$43,790	334.9 %
Noncontrolling Interests in Income (Loss) of Consolidated Subsidiaries	$8,093	$—	$8,093	N.M.
Net Income (Loss) Attributable to Common Shareholders	$48,772	$13,075	$35,697	273.0 %

Interest Income

Three months ended March 31, 2014 compared to the three months ended March 31, 2013.

Interest income increased by $55.3 million primarily due to increases in interest income as a result of new investments in servicing related assets and real estate securities.

Interest Expense

Three months ended March 31, 2014 compared to the three months ended March 31, 2013.

Interest expense increased by $38.1 million due to repurchase agreements and notes payable financing entered into since March 2013 on our servicer advances, real estate securities and loans, and other investments.

Other than Temporary Impairment ("OTTI") on Securities

Three months ended March 31, 2014 compared to the three months ended March 31, 2013.

The other-than-temporary impairment on securities increased by $0.3 million due to the recognition of impairment on certain of our Non-Agency RMBS securities during the three months ended March 31, 2014.

Valuation Allowance on Loans

Three months ended March 31, 2014 compared to the three months ended March 31, 2013.

The valuation allowance on loans increased by $0.2 million due to the recognition of loan losses on our residential mortgage loans during the three months ended March 31, 2014.

Change in Fair Value of Investments in Excess Mortgage Servicing Rights

Three months ended March 31, 2014 compared to the three months ended March 31, 2013.

The change in fair value of investments in excess mortgage servicing rights increased $4.7 million due to the acquisition of new investments in 2013 and 2014 and subsequent net increases in value.

Change in Fair Value of Investments in Excess Mortgage Servicing Rights, Equity Method Investees

Three months ended March 31, 2014 compared to the three months ended March 31, 2013.

The change in fair value of investments in excess mortgage servicing rights, equity method investees increased $5.4 million due to the acquisition of these investments in 2013 and subsequent net increases in value.

Earnings from Investments in Consumer Loans, Equity Method Investees

Three months ended March 31, 2014 compared to the three months ended March 31, 2013.

Earnings from investments in consumer loans, equity method investees increased $16.4 million due to the acquisition of these investments in the second quarter of 2013 and subsequent income recognized by the investees.

Gain on Settlement of Securities

Three months ended March 31, 2014 compared to the three months ended March 31, 2013.

Gain on settlement of securities increased by $4.3 million due to the sale of Agency ARM RMBS and Non-Agency RMBS during the three months ended March 31, 2014.

Other Income

Three months ended March 31, 2014 compared to the three months ended March 31, 2013.

Other income increased by $1.4 million primarily due to an unrealized gain on derivatives and linked transactions accounted for as derivatives during the three months ended March 31, 2014.

General and Administrative Expenses

Three months ended March 31, 2014 compared to the three months ended March 31, 2013.

General and administrative expenses decreased by $0.6 million primarily due to a non-recurring deal expense of $2.0 million related to our investment in consumer loans, equity method investees that was incurred during the three months ended March 31, 2013, partially offset by an increase in expenses incurred to maintain and monitor our increasing asset base.

Management Fee Allocated by Newcastle

Three months ended March 31, 2014 compared to the three months ended March 31, 2013.

Management fee allocated by Newcastle decreased $2.3 million due to the management agreement becoming effective on May 15, 2013 and no management fees being allocated subsequent to that date.

Management Fee to Affiliate

Three months ended March 31, 2014 compared to the three months ended March 31, 2013.

Management fee to affiliate increased $4.5 million as a result of the management agreement becoming effective on May 15, 2013.

Incentive Compensation to Affiliate

Three months ended March 31, 2014 compared to the three months ended March 31, 2013.

Incentive compensation to affiliate increased $3.3 million as a result of the management agreement becoming effective on May 15, 2013 and subsequent investment performance.

Income Tax Expense

Three months ended March 31, 2014 compared to the three months ended March 31, 2013.

Income tax expense increased $0.3 million due to the acquisition of servicer advances held in a taxable subsidiary in the fourth quarter of 2013 and subsequent taxable income recognized.

Noncontrolling Interests in Income (Loss) of Consolidated Subsidiaries

Three months ended March 31, 2014 compared to the three months ended March 31, 2013.

Noncontrolling interest in income (loss) of consolidated subsidiaries increased $8.1 million due to the acquisition of investments in servicer advances held by a less than wholly owned subsidiary at the end of the fourth quarter of the year ended December 31, 2013 and subsequent income recognized.

LIQUIDITY AND CAPITAL RESOURCES

Liquidity is a measurement of our ability to meet potential cash requirements, including ongoing commitments to repay borrowings, fund and maintain investments, and other general business needs. Additionally, to maintain our status as a REIT under the Internal Revenue Code, we must distribute annually at least 90% of our REIT taxable income. We note that a portion of this requirement may be able to be met in future years through stock dividends, rather than cash, subject to limitations based on the value of our stock.

Our primary sources of funds for liquidity generally consist of cash provided by operating activities (primarily income from our investments in Excess MSRs, servicer advances, RMBS and residential mortgage loans), sales of and repayments from our investments, potential debt financing sources, including securitizations, and the issuance of equity securities, when feasible and appropriate. Our primary uses of funds are the payment of interest, management fees, incentive compensation, outstanding commitments and other operating expenses, and the repayment of borrowings, as well as dividends.

Our primary sources of financing currently are notes payable and repurchase agreements, although we may also pursue other sources of financing such as securitizations and other secured and unsecured forms of borrowing. As of March 31, 2014, we had outstanding repurchase agreements with an aggregate face amount of approximately $142.5 million to finance our ownership interest in each of the consumer loan companies, approximately $883.0 million to finance $1.5 billion face amount of Non-Agency RMBS and approximately $1.1 billion to finance $1.1 billion face

amount of Agency ARM RMBS. The financing of our entire RMBS portfolio, which generally has 30 to 90 day terms, is subject to margin calls. Under repurchase agreements, we sell a security to a counterparty and concurrently agree to repurchase the same security at a later date for a higher specified price. The sale price represents financing proceeds and the difference between the sale and repurchase prices represents interest on the financing. The price at which the security is sold generally represents the market value of the security less a discount or "haircut," which can range broadly, for example from 4%-5% for Agency ARM RMBS to between 15% and 40% for Non-Agency RMBS. During the term of the repurchase agreement, the counterparty holds the security as collateral. If the agreement is subject to margin calls, the counterparty monitors and calculates what it estimates to be the value of the collateral during the term of the agreement. If this value declines by more than a de minimis threshold, the counterparty could require us to post additional collateral (or "margin") in order to maintain the initial haircut on the collateral. This margin is typically required to be posted in the form of cash and cash equivalents. Furthermore, we may, from time to time, be a party to derivative agreements or financing arrangements that may be subject to margin calls based on the value of such instruments. We seek to maintain adequate cash reserves and other sources of available liquidity to meet any margin calls resulting from decreases in value related to a reasonably possible (in the opinion of management) change in interest rates.

Our ability to obtain borrowings and to raise future equity capital is dependent on our ability to access borrowings and the capital markets on attractive terms. Our Manager's senior management team has extensive long-term relationships with investment banks, brokerage firms and commercial banks, which we believe will enhance our ability to source and finance asset acquisitions on attractive terms and access borrowings and the capital markets at attractive levels.

As of March 31, 2014, we have sufficient liquid assets, which include unrestricted cash and Agency ARM RMBS, to satisfy all of our short-term recourse liabilities. With respect to the next twelve months, we expect that our cash on hand combined with our cash flow provided by operations will be sufficient to satisfy our anticipated liquidity needs with respect to our current investment portfolio, including related financings, potential margin calls and operating expenses. While it is inherently more difficult to forecast beyond the next twelve months, we currently expect to meet our long-term liquidity requirements through our cash on hand and, if needed, additional borrowings, proceeds received from repurchase agreements and other financings, proceeds from equity offerings and the liquidation or refinancing of our assets.

These short-term and long-term expectations are forward-looking and subject to a number of uncertainties and assumptions, including those described under "—Market Considerations" as well as "Risk Factors." If our assumptions about our liquidity prove to be incorrect, we could be subject to a shortfall in liquidity in the future, and this shortfall may occur rapidly and with little or no notice, which could limit our ability to address the shortfall on a timely basis and could have a material adverse effect on our business.

Our cash flow provided by operations differs from our net income due to these primary factors: (i) accretion of discount or premium on our residential securities and loans, (ii) unrealized gains or losses on our Excess MSRs owned directly and through equity method investees, (iii) the difference between (a) accretion and unrealized gains and losses recorded with respect to our servicer advance investments and (b) cash received therefrom, and

(iv) other-than-temporary impairment, if any. In addition, cash received by our consumer loan joint ventures is currently required to be used to repay the related debt and is therefore not available to fund other cash needs.

In addition to the information referenced above, the following factors could affect our liquidity, access to capital resources and our capital obligations. As such, if their outcomes do not fall within our expectations, changes in these factors could negatively affect our liquidity.

Access to Financing from Counterparties – Decisions by investors, counterparties and lenders to enter into transactions with us will depend upon a number of factors, such as our historical and projected financial performance, compliance with the terms of our current credit arrangements, industry and market trends, the availability of capital and our investors', counterparties' and lenders' policies and rates applicable thereto, and the relative attractiveness of alternative investment or lending opportunities. Recent conditions and events have limited the array of capital resources available. Our business strategy is dependent upon our ability to finance certain of our investments at rates that provide a positive net spread.

- *Impact of Expected Repayment or Forecasted Sale on Cash Flows* – The timing of and proceeds from the repayment or sale of certain investments may be different than expected or may not occur as expected. Proceeds from sales of assets are unpredictable and may vary materially from their estimated fair value and their carrying value. Further, the availability of investments that provide similar returns to those repaid or sold investments is unpredictable and returns on new investments may vary materially from those on existing investments.

Debt Obligations

The following table presents certain information regarding our debt obligations:

March 31, 2014 (A)

								Collateral			
Debt Obligations/ Collateral	Month Issued	Outstanding Face Amount	Carrying Value	Final Stated Maturity	Weighted Average Funding Cost		Weighted Average Life (Years)	Outstanding Face	Amortized Cost Basis	Carrying Value	Wei Ave Life (Yea
Repurchase Agreements (B)											
Agency ARM RMBS (C)	Various	$1,117,592	$1,117,592	Jun-14	0.34	%	0.3	$1,085,447	$1,153,504	$1,154,057	4.3
Non-Agency RMBS (D)	Various	883,002	883,002	Apr-14 to Oct-14	1.98	%	0.1	1,501,192	1,156,794	1,163,721	8.8
Consumer Loans (E)	Jan-14	142,500	142,500	Jun-14	4.16	%	0.3	N/A	N/A	231,422	3.2
Total Repurchase Agreements		2,143,094	2,143,094		1.27	%	0.2				
Notes Payable											
Secured Corporate Loan (F)	Dec-13	69,055	69,055	May-14	4.16	%	0.2	35,823,960	124,379	147,702	6.0
Servicer Advances (G)	Various	3,142,292	3,142,292	Sep-14 to Mar-17	3.01	%	1.2	3,430,473	3,457,385	3,457,385	3.2
Residential Mortgage Loans (H)	Dec-13	23,458	23,458	Sep-14	3.41	%	0.5	57,818	34,045	34,045	3.6

Total Notes Payable	3,234,805	3,234,805	3.03	%	1.1
Total	$5,377,899	$5,377,899	2.33	%	0.8

(A) Excludes debt related to linked transactions (Note 10).
(B) These repurchase agreements had approximately $0.7 million of associated accrued interest payable as of March 31, 2014.
(C) The counterparties of these repurchase agreements are Mizuho ($160.8 million), Morgan Stanley ($160.5 million), Daiwa ($315.0 million) and Jefferies ($481.3 million) and were subject to customary margin call provisions.
(D) The counterparties of these repurchase agreements are Barclays ($34.7 million), Credit Suisse ($132.3 million), Royal Bank of Scotland ($42.5 million), Bank of America ($459.9 million), Goldman Sachs ($83.3 million), UBS ($74.6 million) and Royal Bank of Canada ($55.7 million) and were subject to customary margin call provisions. All of the Non-Agency repurchase agreements have LIBOR-based floating interest rates. Includes $103.2 million borrowed under a master repurchase agreement, which bears interest at one-month LIBOR plus 1.75%.
(E) The repurchase agreement is payable to Credit Suisse and bears interest equal to one-month LIBOR plus 4.0%.
(F) The loan bears interest equal to one-month LIBOR plus 4.0%. The outstanding face of the collateral represents the UPB of the residential mortgage loans underlying the Excess MSRs that secure this corporate loan.
(G) The notes bore interest equal to the sum of (i) a floating rate index rate equal to one-month LIBOR or a cost of funds rate, as applicable, and (ii) a margin ranging from 1.3% to 2.5%.
(H) The note is payable to Nationstar and bears interest equal to one-month LIBOR plus 3.25%.

Certain of the debt obligations included above are obligations of our consolidated subsidiaries, which own the related collateral. In some cases, including servicer advances, such collateral is not available to other creditors of ours.

The following table provides additional information regarding our short-term borrowings (dollars in thousands). All of the Agency ARM RMBS repurchase agreements and $792.6 million face amount of the Non-Agency RMBS repurchase agreements have full recourse to us, while $90.4 million face amount of the Non-Agency RMBS repurchase agreements is non-recourse debt. The weighted average differences between the fair value of the assets and the face amount of available financing for the Agency ARM RMBS repurchase agreements and Non-Agency RMBS repurchase agreements were 4.0% and 24.0%, respectively, during the three months ended March 31, 2014. Additional short-term borrowings are noted in the table and descriptions below.

	Outstanding Balance at March 31, 2014	Three Months March 31, 2014 (A) Average Daily Amount Outstanding (B)	Maximum Amount Outstanding	Weighted Average Daily Interest Rate
Repurchase Agreements				
Agency ARM RMBS	$1,117,592	$1,192,924	$1,332,954	0.37 %
Non-Agency RMBS	883,002	516,675	883,002	1.90 %
Consumer Loans	142,500	149,726	150,000	4.16 %
Notes Payable				
Secured Corporate Loan	69,055	71,839	75,000	4.16 %
Servicer Advances	2,644,492	2,817,373	3,386,396	2.29 %
Residential Mortgage Loans	23,458	22,943	23,458	3.41 %
Total/Weighted Average	$4,880,099	$4,771,480
