Item 1.01 Entry into Material Definitive Agreement.

Effective as of August 7, 2017 (the “Closing Date”), Calix, Inc. (the “Company”) entered into a loan and security agreement (the “Loan Agreement”) with Silicon Valley Bank (“SVB”). The Loan Agreement provides for a senior secured revolving credit facility (the “Credit Facility”), pursuant to which SVB agreed to make revolving advances available to the Company in a principal amount of up to \$30 million based on a customary accounts receivable borrowing base (as specified in the Loan Agreement) and subject to certain exceptions for accounts originating outside the United States and certain specific accounts, which could reduce the amount available to the Company under the Credit Facility. The Credit Facility includes a \$10 million sublimit for the issuance of letters of credit. The letters of credit issued under the Loan Agreement will reduce, on a dollar-for-dollar basis, the amount available under the Credit Facility. In addition, the Company can borrow up to \$5 million on a non-formula revolver until January 15, 2018, which will reduce, on a dollar-for-dollar basis, the amount available under the Credit Facility so that at no time will more than \$30 million in principal amount be outstanding under the Loan Agreement.

The Credit Facility otherwise matures and all outstanding amounts become due and payable on August 7, 2019. Upon the entry into the Credit Facility, the Company paid SVB a commitment fee of \$75,000. Subject to certain exceptions, the Company will also be required to pay to SVB a fee of \$300,000 if it terminates the Credit Facility prior to August 7, 2018. The Credit Facility is secured by substantially all of the Company’s assets, including the Company’s intellectual property.

Loans under the Credit Facility will bear interest through maturity at a variable annual rate based upon, at the Company’s option, and subject to certain conditions, an annual rate of either a prime rate or a LIBOR rate (each as customarily defined), plus an applicable margin which fluctuates based on the Company’s maintenance of an applicable liquidity ratio. The applicable margin is defined as a rate between 0.50% to 1.50% for prime rate advances and between 2.00% and 3.00% for LIBOR advances based on the Company’s maintenance of an applicable liquidity ratio. The fee for amounts undrawn under the formula-based revolving facility ranges from 0.25% to 0.375% based on the Company’s maintenance of a liquidity ratio.

The Credit Facility includes affirmative and negative covenants applicable to the Company and its subsidiaries. The affirmative covenants include, among others, covenants requiring the Company to maintain its legal existence and governmental approvals, deliver certain financial and accounts receivable reports and maintain insurance coverage. The Company must also maintain a liquidity ratio at minimum levels set forth in more detail in the Loan Agreement. The Company has also agreed from August 31, 2017 and for six months thereafter to keep loans outstanding under the Credit Facility in an amount equal to the lower of \$15 million in principal or the amount available for borrowing under the borrowing base. The negative covenants include, among others, restrictions on the Company’s and its subsidiaries’ transferring collateral, making changes to the nature of the business of the Company or the applicable subsidiary, incurring additional indebtedness, engaging in mergers or acquisitions, paying dividends or making other distributions, making investments, engaging in transactions with affiliates, making payments in respect of subordinated debt, creating liens and selling assets, in each case subject to certain exceptions.

The Credit Facility also includes events of default, the occurrence and continuation of which provide SVB with the right to demand immediate repayment of all principal and unpaid interest under the Credit Facility, and to exercise remedies against the Company and the collateral securing the Credit Facility, including its cash. These events of default include, among other things, the Company’s failure to pay any amounts due under the Credit Facility, a breach of covenants under the Credit Facility, the Company’s insolvency, the occurrence of a material adverse change, the occurrence of any default under certain other indebtedness and certain final judgments against the Company that are not covered by insurance.

SVB and/or their affiliates have from time to time provided and may in the future provide commercial banking and other banking and/or financial services to the Company and its affiliates, for which they received or may receive customary compensation and expense reimbursement.

The foregoing description of the Credit Facility and the Loan Agreement is only a summary of the material terms thereof, does not purport to be complete and is qualified in its entirety by reference to the Loan Agreement that will be filed as an exhibit to the Company's Quarterly Report on Form 10-Q for the period ending September 30, 2017.

The Company had no borrowings outstanding under the Credit Agreement and no penalties or fees were due in connection with the termination.
