Caution Regarding Forward-Looking Statements

This report contains certain forward-looking statements within the meaning of the Securities Act of 1933, as amended, and the Securities Exchange Act of 1934, as amended. Forward-looking statements include statements regarding the goals, beliefs, plans or current expectations of First Trust Advisors L.P. ("First Trust" or the "Advisor") and/or MacKay Shields LLC ("MacKay" or the "Sub-Advisor") and their respective representatives, taking into account the information currently available to them. Forward-looking statements include all statements that do not relate solely to current or historical fact. For example, forward-looking statements include the use of words such as "anticipate," "estimate," "intend," "expect," "believe," "plan," "may," "should," "would" or other words that convey uncertainty of future events or outcomes.

Forward-looking statements involve known and unknown risks, uncertainties and

Edgar Filing: FIRST TRUST HIGH INCOME LONG/SHORT FUND - Form N-CSR

other factors that may cause the actual results, performance or achievements of First Trust High Income Long/Short Fund (the "Fund") to be materially different from any future results, performance or achievements expressed or implied by the forward-looking statements. When evaluating the information included in this report, you are cautioned not to place undue reliance on these forward-looking statements, which reflect the judgment of the Advisor and/or Sub-Advisor and their respective representatives only as of the date hereof. We undertake no obligation to publicly revise or update these forward-looking statements to reflect events and circumstances that arise after the date hereof.

Performance and Risk Disclosure

There is no assurance that the Fund will achieve its investment objectives. The Fund is subject to market risk, which is the possibility that the market values of securities owned by the Fund will decline and that the value of the Fund's shares may therefore be less than what you paid for them. Accordingly, you can lose money by investing in the Fund. See "Risk Considerations" in the Notes to Financial Statements for a discussion of certain other risks of investing in the Fund.

Performance data quoted represents past performance, which is no guarantee of future results, and current performance may be lower or higher than the figures shown. For the most recent month-end performance figures, please visit <http://www.ftportfolios.com> or speak with your financial advisor. Investment returns, net asset value and common share price will fluctuate and Fund shares, when sold, may be worth more or less than their original cost.

How to Read This Report

This report contains information that may help you evaluate your investment. It includes details about the Fund and presents data and analysis that provide insight into the Fund's performance and investment approach.

By reading the portfolio commentary by the portfolio management team of the Fund, you may obtain an understanding of how the market environment affected the Fund's performance. The statistical information that follows may help you understand the Fund's performance compared to that of relevant market benchmarks.

It is important to keep in mind that the opinions expressed by personnel of MacKay are just that: informed opinions. They should not be considered to be promises or advice. The opinions, like the statistics, cover the period through the date on the cover of this report. The risks of investing in the Fund are spelled out in the prospectus, the statement of additional information, this report and other Fund regulatory filings.

SHAREHOLDER LETTER

First Trust High Income Long/Short Fund (FSD)
Annual Letter from the Chairman and CEO
October 31, 2012

Dear Shareholders:

I am pleased to present you with the annual report for your investment in First Trust High Income Long/Sort Fund (the "Fund").

Edgar Filing: FIRST TRUST HIGH INCOME LONG/SHORT FUND - Form N-CSR

The report you hold contains detailed information about your investment; a portfolio commentary from the Fund's management team that provides a recap of the period; a performance analysis and a market and Fund outlook. Additionally, you will find the Fund's financial statements for the period this report covers. I encourage you to read this document and discuss it with your financial advisor. A successful investor is also typically a knowledgeable one, as we have found to be the case at First Trust.

First Trust remains committed to being a long-term investor and investment manager and to bringing you quality financial solutions regardless of market ups and downs. We have always believed, as I have written previously, that there are two ways to attain success in reaching your financial goals: staying invested in quality products and having a long-term investment horizon. We are committed to this approach in the products we manage or supervise and offer to investors.

As you know, First Trust offers a variety of products that we believe could fit many financial plans to help investors seeking long-term investment success. We encourage you to talk to your advisor about the other investments First Trust offers that might also fit your financial goals and to discuss those goals with your advisor regularly so that he or she can help keep you on track.

First Trust will continue to make available up-to-date information about your investments so you and your financial advisor are current on any First Trust investments you own. We value our relationship with you, and thank you for the opportunity to assist you in achieving your financial goals. I look forward to the New Year and to the next edition of your Fund's report.

Sincerely,

/s/ James A. Bowen

James A. Bowen

Chairman of the Board of Trustees of First Trust High Income Long/Short Fund and Chief Executive Officer of First Trust Advisors L.P.

PORTFOLIO COMMENTARY

First Trust High Income Long/Short Fund - FSD
October 31, 2012

Sub-Advisor

MacKay Shields LLC ("MacKay Shields" or the "Sub-Advisor") is a registered investment adviser founded in 1938, and is Sub-Advisor to First Trust High Income Long/Short Fund (the "Fund"). The Fund trades under the ticker symbol FSD on the New York Stock Exchange. As of October 31, 2012, MacKay Shields had approximately \$76.4 billion in assets under management.

First Trust High Income Long/Short Fund

The Fund's primary investment objective is to provide current income. As a secondary objective, the Fund seeks capital appreciation. The Fund is designed to give investors a portfolio for varying market cycles and economic conditions. In an expanding economy, the strategy of buying U.S. and foreign (including emerging markets) high-yield corporate securities that are rated below investment-grade is designed to generate monthly income and capital appreciation (total return over the long term). However, if the market takes a downturn, the "short" strategy of having sold borrowed securities that the Global Fixed Income Team ("Investment Team") of MacKay Shields believes could decline in price, may help lessen the impact of a significant net asset value decline.

Portfolio Management Team

Dan Roberts, PhD
Senior Managing Director, Head of Global Fixed Income Division and its Chief Investment Officer

Mr. Roberts is Head of the Global Fixed Income Division and its Chief Investment Officer. In October 2004, Mr. Roberts came to MacKay Shields when the firm acquired the high-yield and global high-yield assets of Pareto Partners. He was the Chief Investment Officer and an equity shareholder at Pareto Partners. Mr. Roberts assembled the U.S. fixed-income team while serving 10 years at UBS Asset Management, most recently as Managing Director and head of the fixed-income group. Prior to its acquisition by UBS, he was a Financial Economist for Chase Manhattan Bank, NA and later was head of Global Interest Rate and Currency Swaps Trading. In 1997, Mr. Roberts' fixed-income group was lifted out of UBS by Forstmann-Leff International and was subsequently purchased by Pareto Partners, effective February 2000. His regulatory and government experience included a two-year stint at the U.S. Securities and Exchange Commission, serving at The White House with the President's Council of Economic Advisors and as an Executive Director (Chief of Staff) of the U.S. Congress Joint Economic Committee. Mr. Roberts holds a BBA and a PhD from the University of Iowa.

Louis N. Cohen, CFA

Edgar Filing: FIRST TRUST HIGH INCOME LONG/SHORT FUND - Form N-CSR

Managing Director, Global Fixed Income Division

Mr. Cohen is a Senior Portfolio Manager for the Global Fixed Income Division. He joined MacKay Shields in October 2004 as a Director of Research and portfolio manager for Core Plus Opportunities after MacKay Shields acquired the high-yield and global high-yield assets of Pareto Partners, where he was an equity shareholder. He joined Dan Roberts' fixed-income team at UBS in 1991 as a Core/Core Plus Portfolio Manager and was Co-Chairman of the Credit Committee while at UBS. Mr. Cohen's extensive credit experience began at Bankers Trust in 1978 where he was in the Commercial Banking Department. In 1981 he moved to specialize in fixed-income as a Fixed Income Credit Analyst at Kidder Peabody. He furthered his fixed-income credit experience as a fixed income credit manager at several major Street firms, namely, Shearson, Drexel Burnham Lambert and Paine Webber, prior to his move into portfolio management at UBS. With experience in the fixed income markets since 1978, Mr. Cohen received his BA and MBA from New York University and is a past President of the Capital Markets Credit Analyst Society, and a member of the New York Society of Security Analysts.

Michael Kimble, CFA
Managing Director, Global Fixed Income Division

Mr. Kimble is a Senior Portfolio Manager for the Global Fixed Income Division. He joined MacKay Shields in October 2004 as Director and Co-Head of High-Yield portfolio management when MacKay Shields acquired the high-yield and global high-yield assets of Pareto Partners. Previously the Co-Head of Pareto Partners' High-Yield Investments, Mr. Kimble began his investment career with positions at Citicorp and E.F. Hutton as a fixed-income credit analyst. In 1988 he moved to Home Insurance Company as a High-Yield Bond Analyst and Portfolio Manager. Shortly thereafter Mr. Kimble was recruited by Dan Roberts to join the UBS team in the same capacity. While at UBS, he was Co-Chairman of the Credit Committee. He received a BA from Columbia University, an MBA from New York University and a JD from Fordham School of Law. With fixed-income experience since 1984, Mr. Kimble is a member of the Capital Markets Credit Analyst Society, the New York Society of Security Analysts and the New York and Louisiana State Bar Associations.

Taylor Wagenseil
Managing Director, Global Fixed Income Division

Mr. Wagenseil is a Senior Portfolio Manager for the Global Fixed Income Division. He became Director and Co-Head of High-Yield portfolio management after MacKay Shields acquired the high-yield and global high-yield assets of Pareto Partners, where he was Co-Head of High-Yield Investments and an equity

Page 3

PORTFOLIO COMMENTARY - (CONTINUED)

shareholder. He began his investment career with Citibank in 1979, specializing in troubled loan workouts and recoveries. In 1986, Mr. Wagenseil moved to Drexel Burnham Lambert as a Senior Vice President to head High-Yield Commercial Paper Research. He remained at Drexel through the bankruptcy and then joined Bear Stearns as a Managing Director in the Financial Restructuring Group. He was recruited to join UBS in 1993 as a Senior Portfolio Manager for High-Yield and High-Yield Arbitrage Portfolios. Mr. Wagenseil's public service and military

Edgar Filing: FIRST TRUST HIGH INCOME LONG/SHORT FUND - Form N-CSR

experience includes the U.S. Navy (Lieutenant) during the Vietnam War and five years as the Commissioner, Department of Elderly Affairs for the City of Boston. He received a BA from Dartmouth College and a MBA (Finance) from the Harvard Business School and has experience in the high yield market since 1979.

Market Recap

This report covers the First Trust High Income Long/Short Fund (the "Fund") for the twelve-month period ending October 31, 2012.

In general, the rally that began in last year's fourth quarter continued through 2012 with risk being rewarded. U.S. equities were the top performer, with the S&P 500 up 15.21%. High yield, as measured by the Merrill Lynch High Yield Master II Constrained Index, was close behind, returning 13.15%. The small-cap Russell 2000 gained 12.08%, while U.S. investment-grade corporate bonds rose 10.21%, according to Barclays. The MSCI EAFE, burdened by concerns of the European debt crisis during the period, only rose 5.15%. The 10-year Treasury posted a 7.46% return as its yield declined 50 basis points (bps).

The events in Europe, which weighed heavily on the market at times, were the primary driver of the rally during the previous twelve months. In November, the period opened with a flight to quality trade, when Eurozone leaders failed to meet expectations for a comprehensive solution to the sovereign debt crisis after announcing that they finally understood the severity of the situation. In December, concerns eased when a distinction was finally made between Europe, which is most likely facing a recession, and the other global economies, most notably the U.S., that are experiencing moderate growth. However, the major turning point surrounding the events in Europe, and the single biggest factor behind the rally at the beginning of the year, was the European Central Bank's ("ECB") Long Term Refinancing Operation ("LTRO"). On December 23rd, the ECB extended (euro)489 billion in 3-year loans to 523 banks. Then, at the end of February, another tranche of the LTRO provided more financial institutions (800 in total) an additional (euro)525.5 billion. When one combines this with the sovereign bonds that were purchased through the Securities Market Program and the fact that most banks are already in compliance with post stress test minimum capital requirements, it is evident that there is substantial support for European banks and the financial markets. Banks essentially are fully provisioned for sovereign defaults, and their near-term funding needs are satisfied. This leaves them not needing to sell any more of their sovereign debt holdings, while also benefitting from the low-cost LTRO loans in lieu of floating any more of their own public bonds.

In spite of these improved fundamentals, the weakness and uncertainty in Europe resulted in tumultuous politics and markets during the first half of the year. The debate surrounding how to resolve the economic woes in Europe centered on how best to balance growth with austerity. In April, this crisis caused the Dutch government to resign. In France, the demand for growth over austerity drove the presidential campaign and the eventual victory of French Socialist Francois Hollande. The balance between growth and austerity was also the focus for the very tight election in Greece, which concluded with a modest majority for the New Democracy party, a proponent of maintaining Greece's place in the Euro and upholding the previously agreed upon austerity measures. While the Greek election did not rule out that the country may exit the Euro at some future point, it appears to have forestalled that event for the time being.

Thankfully, the sentiment surrounding the events in Europe turned around during the summer months due to a persistent drumbeat of positive news, leading to a rally in the third quarter. The rally was ignited by ECB President Mario Draghi's statements in the last week of July that the Euro is "irreversible," and that speculation to the contrary is unacceptable. He further stated that the ECB will do "whatever it takes" to preserve the Euro and "believe me, it will be enough." As we have stated before, we believe the crux of the current crisis is

Edgar Filing: FIRST TRUST HIGH INCOME LONG/SHORT FUND - Form N-CSR

the separation between the ECB and the Eurozone treasuries. In other words, if a country issues debt in its own currency and has the capacity to create this currency, it can never be made to default. Therefore, the ECB statements cannot be overemphasized. If the ECB is "all in", then we believe the current crisis is over. This does not mean that recession in Europe won't occur or that long-term inflation is not a threat. It does mean, however, that the threat of a Euro collapse is clearly receding. As a natural and not unexpected follow-up at the beginning of September, the ECB announced an unlimited bond-buying program to stop further erosion in European debt markets. In September, Germany's highest court rejected attempts to delay the ratification of key elements of the Eurozone's debt management efforts. This cleared the path of the most significant impediment to the ECB's plan, which in turn helped lift much of the anxiety overhanging markets. Additionally, supporting the Eurozone, was that two centrist, pro-European parties won general elections in the Netherlands.

It has also been constructive that central banks around the world continue to be accommodative. In Asia, China recently lowered its lending rate to 6% and the Bank of Japan announced that it would expand its asset purchase program by 10 trillion yen. In Europe, the ECB cut its rates to 0.75% and the Bank of England

Page 4

PORTFOLIO COMMENTARY - (CONTINUED)

also recently announced an asset purchase plan. In the U.S., the Fed announced further quantitative easing in August, additional mortgage purchases and extended Operation Twist through the end of the year, citing concerns about the employment situation. The Fed's focus is on the job market as many large disparate employers announced layoffs. However, positive news that supports a slow growth scenario for the U.S. economy included the ISM manufacturing survey at the end of September, which was 51.5. Housing, auto sales and employment have also showed improvements. Housing starts in the U.S. are up substantially year to date, while inventories are at multi-year lows and home sales and construction reached the highest level in two years. In fact, Jamie Dimon, the CEO of JPMorgan Chase, stated that housing "has turned the corner." Further bolstering the case for a U.S. acceleration were U.S. auto sales, which reached a 4 1/2 year high in September. Non-farm payrolls beat expectations, rising 171,000 in October, while estimates for August and September were revised higher.

Equities, on the other hand, were recently under pressure due to disappointing earnings. Although U.S. corporate earnings continue to grow, the rate of growth has slowed. With the corporate sector in such good health, however, even modest earnings growth is more than enough to please credit markets, whereas equity investors clearly had to adjust their estimate of fair value due to a lower growth rate in the dividend discount model. However, as previously noted, earnings growth is still positive. With 78% of the S&P 500 having reported for the third quarter of 2012, the average growth in sales since last year is 3.6%, while the average growth in earnings is 9.9%. This is still supportive of very high levels of corporate credit quality. In addition, issuers have very high levels of cash and have been lowering their interest expense through refinancing and extending maturities on their debt.

The technicals of high yield remain strong. From the demand side, retail high-yield bond funds saw net inflows of \$35 billion year to date which is more

Edgar Filing: FIRST TRUST HIGH INCOME LONG/SHORT FUND - Form N-CSR

than double the amount for all of 2011. Anecdotally, we continue to see strong interest from institutional investors in the asset class. On the supply side, the new issue market was extremely active for most of the year. In this rally over the year, all of the sectors of the high-yield market produced positive returns; in fact, even the lagging sectors produced returns close to 8%. The best-performing sectors were insurance, banking and real estate. The lagging sectors were consumer basic industry, energy and utilities.

Performance Analysis

The Fund had a strong year, with significant outperformance versus its benchmark for the twelve-month period ending October 31, 2012. The Fund returned a net asset value ("NAV") total return(1) of 17.09% compared with the Bank of America Merrill Lynch U.S. High Yield Master II Constrained Index, which gained 13.15%. For the period, the Fund traded from a discount to NAV of 6.68% to a discount to NAV of 1.42%, resulting in a market value total return(1) of 23.69%.

The Fund's beta(2) positioning was highly beneficial during the rally over the previous year. Two sectors that we have successfully used in the past to help lift the beta of the portfolio are financials (banks, financial services and insurance) and housing related (home building and building materials). These sectors helped the Fund's relative performance because they are overweight and outperformed the broader market. As the concerns about Europe have eased and the financial markets have rallied, the financial industry has directly benefitted. Among the portfolio's top performers for the year from the financial sector were insurance companies: AIG, Liberty Mutual and L-incoln National; banks: Ally and Bank of America; as well as financial service companies: CIT and SLM Corp. ("Sallie Mae"). The positive trends in the housing market lifted the Fund's housing-related companies, specifically: Pulte, Hovnanian, Beazer, USG and Texas Industries. Sprint Nextel was also among the top performers in the Fund for the year. The rally in Sprint bonds was due in part to an announcement that Softbank, the Japanese technology company, would acquire a 70% stake in the company.

On the negative side, the Fund's exposure to the coal, steel, utilities and energy sectors was a drag on performance during the year. Coal producers, which include holdings in Arch Coal and Alpha Natural Resources, were under pressure as more utilities turn from coal to natural gas due to lower natural gas prices and the Obama administration's new carbon-dioxide emissions regulations, which have virtually eliminated the planned construction of new coal fired plants. Additionally, our exposure to steel companies, US Steel and Aperam, were a drag on the portfolio as steel prices declined. The warm winter in early 2012 caused difficulties for utilities after the previous year's intense cold. As a result, Texas Competitive Electricity (TXU) and Edison Mission were among the bottom performers. Additionally, some energy and energy service companies weighed down the Fund's performance, including OGX, Basic Energy Services, and Oil Insurance. Geokinetics, the seismic data company, was also a laggard during the year. The company had reported disappointing earnings earlier in the year as well as some operating difficulties in this inherently cyclical industry, and it has been reported that the company has hired an advisor to explore alternatives.

1 Total return is based on the combination of reinvested dividends, capital gain and return of capital distributions, if any, at prices obtained by the Dividend Reinvestment Plan and changes in NAV per share for net asset value returns and changes in Common Share price for market value returns. Total returns do not reflect sales load and are not annualized for periods less than one year. Past performance is not indicative of future results.

2 Beta is a measure of volatility of risk relative to the market as a whole.

 PORTFOLIO COMMENTARY - (CONTINUED)

Additionally, the Fund's short position in Treasuries was somewhat of a drag on performance during the year due to the decline in Treasury yields; however, this position provided the Fund with leverage that was reinvested in the high-yield market, magnifying the portfolio's absolute and relative gains.

Market and Fund Outlook

With the U.S. Presidential election behind us, the focus is now entirely on the "fiscal cliff". As we have stated previously, we did not believe the outcome of the election would have a material impact on the near-term trajectory of credit spreads, nor do we think the U.S. economy will fall off the proverbial "fiscal cliff" due to the potentially severe impact it could have on the real economy. Virtually no one in Congress wants to be responsible for tipping the U.S. into recession, and we believe a satisfactory compromise will be reached. However, political theater, aided by 24-hour news coverage, should be expected through the balance of the year.

Longer term, the markets remain flush with liquidity and investors continue to be paid to hold high-yield bonds. Therefore, we still favor the high-yield market for its yield advantage and capital appreciation potential relative to other asset classes. We remain constructive on the fundamental underpinnings of the issuer base and the positive market technicals helping to support bond prices. We recognize earnings season is pointing to an environment of moderate to slow growth, but we are not concerned about a meaningful pullback that would negatively impact credit costs.

-
- (a) This security or a portion of this security is segregated as collateral for investments sold short.
 - (b) The non-transferable trust units were originally issued to facilitate distribution of General Motors common stock and warrants pursuant to the General Motors Bankruptcy Plan of Reorganization. On June 12, 2012, the holders of these units received new transferable General Motors Unsecured Claim (GUC) Trust Units, which were created to hold and administer the common stock and warrants of General Motors Company to be contributed to the GUC Trust under the General Motors Bankruptcy Plan of Reorganization. As such, the non-transferable trust units currently exist only for the purpose of receiving any residual cash, if any, from the General Motors Bankruptcy. These units were received in exchange for the previously owned General Motors 8.375% Corporate Notes that were scheduled to mature on 7/15/33.
 - (c) Security issued by a U.S. incorporated entity, that has its principal value denominated in the listed foreign currency.
 - (d) Fixed-to-floating rate security. The interest rate shown reflects the fixed rate in effect at October 31, 2012. At a predetermined date, the fixed rate will change to a floating rate.

Edgar Filing: FIRST TRUST HIGH INCOME LONG/SHORT FUND - Form N-CSR

- (e) This security, sold within the terms of a private placement memorandum, is exempt from registration upon resale under Rule 144A of the Securities Act of 1933, as amended (the "1933 Act"), and may be resold in transactions exempt from registration, normally to qualified institutional buyers. Pursuant to procedures adopted by the Fund's Board of Trustees, this security has been determined to be liquid by MacKay Shields LLC, the Fund's sub-advisor. Although market instability can result in periods of increased overall market illiquidity, liquidity for each security is determined based on security specific factors and assumptions, which require subjective judgment. At October 31, 2012, securities noted as such amounted to \$196,816,624, or 28.66% of net assets.
- (f) Floating rate security. The interest rate shown reflects the rate in effect at October 31, 2012.
- (g) Senior Loans in which the Fund invests generally pay interest at rates which are periodically predetermined by reference to a base lending rate plus a premium. These base lending rates are generally (i) the lending rate offered by one or more major European banks, such as the London Inter-Bank Offered Rate ("LIBOR"), (ii) the prime rate offered by one or more United States banks or (iii) the certificate of deposit rate. Certain Senior Loans are subject to a LIBOR floor that establishes a minimum LIBOR rate. The interest rate shown reflects the rate in effect at October 31, 2012.
- (h) Senior Loans generally are subject to mandatory and/or optional prepayment. As a result, the actual remaining maturity of Senior Loans may be substantially less than the stated maturities shown.
- (i) Non-income producing security.
- (j) Aggregate cost for federal income tax purposes is \$833,010,875. As of October 31, 2012, the aggregate gross unrealized appreciation for all securities in which there was an excess of value over tax cost was \$39,953,322 and the aggregate gross unrealized depreciation for all securities in which there was an excess of tax cost over value was \$24,526,383.

NOTES TO FINANCIAL STATEMENTS

First Trust High Income Long/Short Fund (FSD)
October 31, 2012

1. Fund Description

First Trust High Income Long/Short Fund (the "Fund") is a diversified, closed-end management investment company organized as a Massachusetts business trust on June 18, 2010, and is registered with the Securities and Exchange Commission ("SEC") under the Investment Company Act of 1940, as amended (the "1940 Act"). The Fund trades under the ticker symbol FSD on the New York Stock Exchange ("NYSE").

The Fund's primary investment objective is to provide current income. The Fund's secondary objective is capital appreciation. The Fund seeks to achieve its investment objectives by investing, under normal market conditions, a majority of its assets in a diversified portfolio of U.S. and foreign (including emerging markets) high-yield corporate fixed-income securities of varying maturities that are rated below-investment grade at the time of purchase. For purposes of this strategy, "corporate fixed-income securities" include corporate bonds, debentures, notes, commercial paper and other similar types of corporate debt instruments, including instruments issued by corporations with direct or

Edgar Filing: FIRST TRUST HIGH INCOME LONG/SHORT FUND - Form N-CSR

indirect government ownership, as well as asset backed securities, preferred shares, senior floating-rate loan participations, commitments and assignments ("Senior Loans")¹, payment-in-kind securities, zero-coupon bonds, bank certificates of deposit, fixed time deposits, bankers' acceptances and derivative instruments that provide the same or similar economic impact as a physical investment in the above securities. Below-investment grade fixed-income securities are commonly referred to as "high-yield" or "junk" bonds and are considered speculative with respect to the issuer's capacity to pay interest and repay principal. As part of its investment strategy, the Fund intends to maintain both long and short positions in securities under normal market conditions. The Fund will take long positions in securities that MacKay Shields LLC ("MacKay" or the "Sub-Advisor") believes offer the potential for attractive returns and that it considers in the aggregate to have the potential to outperform the Fund's benchmark, the Bank of America Merrill Lynch U.S. High Yield Master II Constrained Index (the "Index"). The Fund will take short positions in securities that the Sub-Advisor believes in the aggregate will underperform the Index. The Fund's long positions, either directly or through derivatives, may total up to 130% of the Fund's Managed Assets. The Fund's short positions, either directly or through derivatives, may total up to 30% of the Fund's Managed Assets. "Managed Assets" means the average daily gross asset value of the Fund (which includes the principal amount of any borrowings), minus the sum of the Fund's liabilities. There can be no assurance that the Fund will achieve its investment objectives. The Fund may not be appropriate for all investors.

2. Significant Accounting Policies

The following is a summary of significant accounting policies consistently followed by the Fund in the preparation of its financial statements. The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP") requires management to make estimates and assumptions that affect the reported amounts and disclosures in the financial statements. Actual results could differ from those estimates.

A. Portfolio Valuation:

The net asset value ("NAV") of the Common Shares of the Fund is determined daily, as of the close of regular trading on the NYSE, normally 4:00 p.m. Eastern time, on each day the NYSE is open for trading. If the NYSE closes early on a valuation day, the NAV is determined as of that time. Domestic debt securities and foreign securities are priced using data reflecting the earlier closing of the principal markets for those securities. The NAV per Common Share is calculated by dividing the value of all assets of the Fund (including accrued interest and dividends), less all liabilities (including accrued expenses, dividends declared but unpaid and any borrowings of the Fund), by the total number of Common Shares outstanding.

The Fund's investments are valued daily in accordance with valuation procedures adopted by the Fund's Board of Trustees and in accordance with provisions of the 1940 Act. The Fund's securities will be valued as follows:

Corporate bonds, notes, U.S. Government Securities, Mortgage-backed Securities ("MBS"), Asset-backed Securities ("ABS") and other debt securities are valued on the basis of valuations provided by dealers who make markets in such securities or by an independent pricing service approved by the Fund's Board of Trustees, which may use the following valuation inputs when available:

- 1) benchmark yields;
- 2) reported trades;
- 3) broker/dealer quotes;
- 4) issuer spreads;

Edgar Filing: FIRST TRUST HIGH INCOME LONG/SHORT FUND - Form N-CSR

- 5) benchmark securities;
- 6) bids and offers; and
- 7) reference data including market research publications.

A ready market does not exist for some of these investments. As such, these values may differ from the values that would have been used had a ready market for these investments existed, and the differences could be material.

-
- 1 The terms "security" and "securities" used throughout the Notes to Financial Statements include Senior Loans.

Page 23

NOTES TO FINANCIAL STATEMENTS - (CONTINUED)

First Trust High Income Long/Short Fund (FSD)
October 31, 2012

Common stocks and other equity securities listed on any national or foreign exchange (excluding the NASDAQ(R) Stock Market LLC ("NASDAQ") and the London Stock Exchange Alternative Investment Market ("AIM")) are valued at the last price on the exchange on which they are principally traded or, for NASDAQ and AIM securities, the official closing price. Securities traded on more than one securities exchange are valued at the last sale price or official closing price, as applicable, at the close of the securities exchange representing the principal market for such securities.

Securities traded in the over-the-counter market are valued at their closing bid prices.

Credit default swaps, if any, are valued using a pricing service or, if the pricing service does not provide a value, by quotes provided by the selling dealer or financial institution.

The Senior Loans held in the Fund are not listed on any securities exchange or board of trade. Senior Loans are typically bought and sold by institutional investors in individually negotiated private transactions that function in many respects like an over-the-counter secondary market, although typically no formal market-makers exist. This market, while having grown substantially since its inception, generally has fewer trades and less liquidity than the secondary market for other types of securities. Some Senior Loans have few or no trades, or trade infrequently, and information regarding a specific Senior Loan may not be widely available or may be incomplete. Accordingly, determinations of the market value of Senior Loans may be based on infrequent and dated information. Because there is less reliable, objective data available, elements of judgment may play a greater role in valuation of Senior Loans than for other types of securities. Typically, Senior Loans are valued using information provided by a third party pricing service. The third party pricing service primarily uses over-the-counter pricing from dealer runs and broker quotes from indicative sheets to value the Senior Loans.

Forward foreign currency contracts are valued at the current day's interpolated foreign exchange rate, as calculated using the current day's spot rate, and the thirty, sixty, ninety, and one-hundred eighty day forward rates provided by an independent pricing service.

Edgar Filing: FIRST TRUST HIGH INCOME LONG/SHORT FUND - Form N-CSR

Debt securities having a remaining maturity of sixty days or less when purchased are valued at cost adjusted for amortization of premiums and accretion of discounts.

In the event the pricing service or dealer does not provide a valuation, or the valuations received are deemed unreliable, the Fund's Board of Trustees has designated First Trust Advisors L.P. ("First Trust") to use a fair value method to value the Fund's securities. Additionally, if events occur after the close of the principal markets for certain securities (e.g., domestic debt and foreign securities) that could materially affect the Fund's NAV, First Trust may use a fair value method to value the Fund's securities. The use of fair value pricing is governed by valuation procedures adopted by the Fund's Board of Trustees, and in accordance with the provisions of the 1940 Act. As a general principle, the fair value of a security is the amount which the Fund might reasonably expect to receive for the security upon its current sale. However, in light of the judgment involved in fair valuations, there can be no assurance that a fair value assigned to a particular security will be the amount which the Fund might be able to receive upon its current sale. Fair valuation of a security is based on the consideration of all available information, including, but not limited to, the following:

- 1) the fundamental business data relating to the issuer;
- 2) an evaluation of the forces which influence the market in which these securities are purchased and sold;
- 3) the type, size and cost of a security;
- 4) the financial statements of the issuer;
- 5) the credit quality and cash flow of the issuer, based on the Sub-Advisor's or external analysis;
- 6) the information as to any transactions in or offers for the security;
- 7) the price and extent of public trading in similar securities (or equity securities) of the issuer/borrower, or comparable companies;
- 8) the coupon payments;
- 9) the quality, value and salability of collateral, if any, securing the security;
- 10) the business prospects of the issuer, including any ability to obtain money or resources from a parent or affiliate and an assessment of the issuer's management;
- 11) the prospects for the issuer's industry, and multiples (of earnings and/or cash flows) being paid for similar businesses in that industry; and
- 12) other relevant factors.

The Fund is subject to fair value accounting standards that define fair value, establish the framework for measuring fair value and provide a three-level hierarchy for fair valuation based upon the inputs to the valuation as of the measurement date. The three levels of the fair value hierarchy are as follows:

- o Level 1 - Level 1 inputs are quoted prices in active markets for identical investments. An active market is a market in which transactions for the investment occur with sufficient frequency and volume to provide pricing information on an ongoing basis.
- o Level 2 - Level 2 inputs are observable inputs, either directly or indirectly, and include the following:
 - o Quoted prices for similar investments in active markets.

NOTES TO FINANCIAL STATEMENTS - (CONTINUED)

First Trust High Income Long/Short Fund (FSD)
October 31, 2012

- o Quoted prices for identical or similar investments in markets that are non-active. A non-active market is a market where there are few transactions for the investment, the prices are not current, or price quotations vary substantially either over time or among market makers, or in which little information is released publicly.
- o Inputs other than quoted prices that are observable for the investment (for example, interest rates and yield curves observable at commonly quoted intervals, volatilities, prepayment speeds, loss severities, credit risks, and default rates).
- o Inputs that are derived principally from or corroborated by observable market data by correlation or other means.
- o Level 3 - Level 3 inputs are unobservable inputs. Unobservable inputs may reflect the reporting entity's own assumptions about the assumptions that market participants would use in pricing the investments.

The inputs or methodology used for valuing investments are not necessarily an indication of the risk associated with investing in those investments. A summary of the inputs used to value the Fund's investments as of October 31, 2012, is included with the Fund's Portfolio of Investments.

B. SECURITIES TRANSACTIONS AND INVESTMENT INCOME:

Securities transactions are recorded as of the trade date. Realized gains and losses from securities transactions are recorded on the identified cost basis. Interest income is recorded daily on the accrual basis. Amortization of premiums and accretion of discounts are recorded using the effective interest method.

Securities purchased on a when-issued, delayed-delivery or forward purchase commitment basis may have extended settlement periods. The value of the security so purchased is subject to market fluctuations during this period. The Fund maintains liquid assets with a current value at least equal to the amount of its when-issued, delayed-delivery or forward purchase commitments until payment is made. At October 31, 2012, the Fund had no when-issued, delayed-delivery or forward purchase commitments.

C. UNFUNDED LOAN COMMITMENTS:

The Fund may enter into certain credit agreements, all or a portion of which may be unfunded. The Fund is obligated to fund these loan commitments at the borrower's discretion. The Fund did not have unfunded delayed draw loan commitments as of October 31, 2012.

D. FORWARD FOREIGN CURRENCY CONTRACTS:

The Fund is subject to foreign currency risk in the normal course of pursuing its investment objectives. Forward foreign currency contracts are agreements to

Edgar Filing: FIRST TRUST HIGH INCOME LONG/SHORT FUND - Form N-CSR

exchange one currency for another at a future date and at a specified price. The Fund uses forward foreign currency contracts to facilitate transactions in foreign securities and to manage the Fund's foreign currency exposure. These contracts are valued daily, and the Fund's net equity therein, representing unrealized gain or loss on the contracts as measured by the difference between the forward foreign exchange rates at the dates of entry into the contracts and the forward rates at the reporting date, is included in "Unrealized appreciation/(depreciation) on forward foreign currency contracts" on the Statement of Assets and Liabilities. When the forward contract is closed, the Fund records a realized gain or loss equal to the difference between the proceeds from (or the cost of) the closing transaction and the Fund's basis in the contract. This realized gain or loss is included in "Net realized gain (loss) on forward foreign currency contracts" on the Statement of Operations. Risks arise from the possible inability of counterparties to meet the terms of their contracts and from movement in currency and securities values and interest rates. Due to the risks, the Fund could incur losses in excess of the net unrealized value shown on the Schedule of Forward Foreign Currency Contracts.

During the year ended October 31, 2012, the open and close notional values of forward foreign currency contracts were \$1,650,694,375 and \$(1,628,560,858), respectively.

E. FOREIGN CURRENCY:

The books and records of the Fund are maintained in U.S. dollars. Foreign currencies, investments and other assets and liabilities are translated into U.S. dollars at the exchange rates prevailing at the end of the period. Purchases and sales of investments and items of income and expense are translated on the respective dates of such transactions. Unrealized gains and losses on assets and liabilities, other than investments in securities, which result from changes in foreign currency exchange rates have been included in "Net change in unrealized appreciation (depreciation) on foreign currency translation" on the Statement of Operations. Unrealized gains and losses on investments in securities which result from changes in foreign exchange rates are included with fluctuations arising from changes in market price and are shown in "Net change in unrealized appreciation (depreciation) on investments" on the Statement of Operations. Net realized foreign currency gains and losses include the effect of changes in exchange rates between trade date and settlement date on investment security transactions, foreign currency transactions and interest and dividends received. The portion of foreign currency gains and losses related to fluctuation in exchange rates between the initial purchase trade date and subsequent sale trade date is included in "Net realized gain (loss) on foreign currency transactions" on the Statement of Operations.

NOTES TO FINANCIAL STATEMENTS - (CONTINUED)

First Trust High Income Long/Short Fund (FSD)
October 31, 2012

F. SHORT SALES:

Edgar Filing: FIRST TRUST HIGH INCOME LONG/SHORT FUND - Form N-CSR

Short sales are utilized for investment and risk management purposes and are transactions in which securities or other instruments (such as options, forwards, futures or other derivative contracts) are sold that are not currently owned in the Fund's portfolio. When a short sale is engaged in, the security sold short must be borrowed and delivered to the counterparty. Short selling allows the Fund to profit from a decline in a market price to the extent such decline exceeds the transaction costs and the costs of borrowing the securities. The Fund will pay a fee or premium to borrow the securities and is obligated to repay the lenders of the securities. Any dividends or interest that accrues on the securities during the period of the loan are due to the lenders. A gain, limited to the price at which the security was sold short, or a loss, unlimited in size, will be recognized upon the termination of the short sale. Any such gain or loss may be offset, completely or in part, by the change in the value of the long portion of the Fund's portfolio. The Fund is subject to the risk it may be unable to reacquire a security to terminate a short position except at a price substantially in excess of the last quoted price. Also, there is the risk that the counterparty to a short sale may fail to honor its contractual terms, causing a loss to the Fund.

G. Credit Default Swaps:

The Fund may enter into credit default swap contracts ("CDS") for investment purposes or to manage credit risk. A CDS is an agreement between two parties ("Counterparties") to exchange the credit risk of an issuer. A buyer of a CDS is said to buy protection by paying a fixed payment over the life of the agreement and in some situations an upfront payment to the seller of the CDS. If a defined credit event occurs (such as payment default or bankruptcy), the Fund as a protection buyer would cease paying its fixed payment, the Fund would deliver eligible bonds issued by the reference entity to the seller, and the seller would pay the full notional value, or the "par value", of the referenced obligation to the Fund. A seller of a CDS is said to sell protection and thus would receive a fixed payment over the life of the agreement and an upfront payment, if applicable. If a credit event occurs, the Fund as a protection seller would cease to receive the fixed payment stream, the Fund would pay the buyer "par value" or the full notional value of the referenced obligation, and the Fund would receive the eligible bonds issued by the reference entity. In turn, these bonds may be sold in order to realize a recovery value. Alternatively, the seller of the CDS and its counterparty may agree to net the notional amount and the market value of the bonds and make a cash payment equal to the difference to the buyer of protection. If no credit event occurs, the Fund receives the fixed payment over the life of the agreement. As the seller, the Fund would effectively add leverage to its portfolio because, in addition to its total net assets, the Fund would be subject to investment exposure on the notional amount of the CDS. In connection with these agreements, cash and securities may be identified as collateral in accordance with the terms of the respective swap agreements to provide assets of value and recourse in the event of default under the swap agreement or bankruptcy/insolvency of a party to the swap agreement. In the event of a default by the Counterparty, the Fund will seek withdrawal of this collateral and may incur certain costs exercising its right with respect to the collateral. If a Counterparty becomes bankrupt or otherwise fails to perform its obligations due to financial difficulties, the Fund may experience significant delays in obtaining any recovery in a bankruptcy or other reorganization proceeding. The Fund may obtain only limited recovery or may obtain no recovery in such circumstances.

Credit default swap contracts are marked to market daily based upon quotations from brokers, market makers or an independent pricing service and the change in value, if any, is recorded as unrealized appreciation (depreciation). For a credit default swap contract sold by the Fund, payment of the agreed upon amount made by the Fund in the event of default of the referenced debt obligation is recorded as the cost of the reference debt obligation purchased/received.

Edgar Filing: FIRST TRUST HIGH INCOME LONG/SHORT FUND - Form N-CSR

During the year ended October 31, 2012, the open and close notional values of credit default swap contracts were \$0 and \$(14,500,000), respectively. At October 31, 2012, the Fund had no credit default swap contracts.

H. Dividends and Distributions to Shareholders:

Level dividend distributions are declared and paid monthly to Common Shareholders after the payment of interest and/or dividends in connection with leverage. The level dividend rate may be modified by the Board of Trustees from time to time. If, for any monthly distribution, net investment company taxable income, if any (which term includes net short-term capital gain), is less than the amount of the distribution, the difference will generally be a tax-free return of capital distributed from the Fund's assets. Distributions of any net long-term capital gains earned by the Fund are distributed at least annually. Distributions will automatically be reinvested into additional Common Shares pursuant to the Fund's Dividend Reinvestment Plan unless cash distributions are elected by the shareholder.

Distributions from income and capital gains are determined in accordance with income tax regulations, which may differ from U.S. GAAP. Certain capital accounts in the financial statements are periodically adjusted for permanent differences in order to reflect their tax character. These permanent differences are primarily due to the varying treatment of income and gain/loss on portfolio securities held by the Fund and have no impact on net assets or NAV per share. Temporary difference, which arise from recognizing certain items of income, expense and gain/loss in different periods for financial statement and tax purposes, will reverse at some point in the future. Permanent differences incurred during the fiscal year ended October 31, 2012, resulting in book and tax accounting differences, have been reclassified at year end to reflect a decrease in accumulated net investment income (loss) by \$865,842, an increase in accumulated net realized gain (loss) on investments by \$900,574 and a decrease to paid-in capital of \$34,732. Net assets were not affected by this reclassification.

Page 26

NOTES TO FINANCIAL STATEMENTS - (CONTINUED)

First Trust High Income Long/Short Fund (FSD)
October 31, 2012

The tax character of distributions paid during the fiscal years ended October 31, 2012 and October 31, 2011 was as follows:

Distributions paid from:	2012	2011
Ordinary income.....	\$ 57,752,609	\$ 52,948,469
Capital gain.....	9,358	--
Return of capital.....	--	--

As of October 31, 2012, the distributable earnings and net assets on a tax basis were as follows:

Undistributed ordinary income.....	\$ 3,058,633
Undistributed capital gains.....	--

Edgar Filing: FIRST TRUST HIGH INCOME LONG/SHORT FUND - Form N-CSR

Total undistributed earnings.....	3,058,633
Accumulated capital and other losses.....	(17,746,452)
Net unrealized appreciation (depreciation).....	13,675,154

Total accumulated earnings (losses).....	(1,012,665)
Other.....	--
Paid-in capital.....	687,727,395

Net assets.....	\$686,714,730
=====	

I. Income and Other Taxes:

The Fund intends to continue to qualify as a regulated investment company by complying with the requirements under Subchapter M of the Internal Revenue Code of 1986, as amended, which includes distributing substantially all of its net investment income and net realized gains to shareholders. Accordingly, no provision has been made for federal or state income taxes. However, due to the timing and amount of distributions, the Fund may be subject to an excise tax of 4% of the amount by which approximately 98% of the Fund's taxable income exceeds the distributions from such taxable income for the calendar year.

Under the Regulated Investment Company Modernization Act of 2010 (the "Act"), net capital losses recognized after December 31, 2010, may be carried forward indefinitely, and their character is retained as short-term and/or long-term losses. Previously, net capital losses were carried forward eight years and treated as short-term losses. As a transition rule, the Act requires that post-enactment net capital losses be used before pre-enactment net capital losses. At October 31, 2012, the Fund had no pre-enactment net capital losses for federal income tax purposes. At October 31, 2012 the Fund had post-enactment net capital losses for federal income tax purposes of \$17,746,452 to be carried forward indefinitely.

The Fund is subject to certain limitations under the U.S. tax rules on the use of capital loss carryforwards and net unrealized built-in losses. These limitations apply when there has been a 50% change in ownership.

The Fund is subject to accounting standards that establish a minimum threshold for recognizing, and a system for measuring, the benefits of a tax position taken or expected to be taken in a tax return. Taxable years ending 2010, 2011 and 2012 remain open to federal and state audit. As of October 31, 2012, management has evaluated the application of these standards to the Fund and has determined that no provision for income tax is required in the Fund's financial statements for uncertain tax positions.

J. Expenses:

The Fund will pay all expenses directly related to its operations.

K. Organization and Offering Costs:

Organization costs consisted of costs incurred to establish the Fund and enable it to legally conduct business. These costs included filing fees, listing fees, fees for legal services pertaining to the organization of the business and audit fees relating to auditing the initial statement of assets and liabilities, among other fees. Offering costs consisted of legal fees pertaining to the Fund's shares offered for sale, registration fees, underwriting fees, and printing of the initial prospectus, among other fees. First Trust paid all organization expenses. The Fund's Common Share offering costs of \$967,500 were recorded as a reduction of the proceeds from the sale of Common Shares during the period ended October 31, 2010. During the fiscal year ended October 31, 2012, it was

Edgar Filing: FIRST TRUST HIGH INCOME LONG/SHORT FUND - Form N-CSR

determined that the actual offering costs were less than the estimated offering costs by \$88,650. Therefore, paid-in capital was increased by that amount in the current year, as reflected on the Statements of Changes in Net Assets.

L. Accounting Pronouncements:

In May 2011, the Financial Accounting Standards Board ("FASB") issued ASU 2011-04 "Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRSs," modifying Topic 820, "Fair Value Measurements and Disclosures." At the same time, the International Accounting Standards Board ("IASB") issued International Financial Reporting Standard ("IFRS") 13, "Fair Value Measurement." The objective of the FASB and IASB is convergence of their guidance on fair value measurements and disclosures. Specifically, the ASU requires reporting entities to disclose (i) the amounts of

Page 27

NOTES TO FINANCIAL STATEMENTS - (CONTINUED)

First Trust High Income Long/Short Fund (FSD) October 31, 2012

any transfers between Level 1 and Level 2, and the reasons for the transfers, (ii) for Level 3 fair value measurements, quantitative information about significant unobservable inputs used, (iii) a description of the valuation processes used by the reporting entity, and (iv) a narrative description of the sensitivity of the fair value measurement to changes in unobservable inputs if a change in those inputs might result in a significantly higher or lower fair value measurement. The effective date of the ASU is for interim and annual periods beginning after December 15, 2011, and it is therefore not effective for the current fiscal year. Management is in the process of assessing the impact of the updated standards on the Fund's financial statements, if any.

3. Investment Advisory Fee, Affiliated Transactions and Other Fee Arrangements

First Trust, the investment advisor to the Fund, is a limited partnership with one limited partner, Grace Partners of DuPage L.P., and one general partner, The Charger Corporation. The Charger Corporation is an Illinois corporation controlled by James A. Bowen, Chief Executive Officer of First Trust. First Trust is responsible for the ongoing monitoring of the Fund's investment portfolio, managing the Fund's business affairs and providing certain administrative services necessary for the management of the Fund. For these investment management services, First Trust is entitled to a monthly fee calculated at an annual rate of 1.00% of the Fund's Managed Assets. First Trust also provides fund reporting services to the Fund for a flat annual fee in the amount of \$9,250.

MacKay serves as the Fund's sub-advisor and manages the Fund's portfolio subject to First Trust's supervision. The Sub-Advisor receives a portfolio management fee at an annual rate of 0.50% of Managed Assets that is paid by First Trust from its investment advisory fee.

BNY Mellon Investment Servicing (US) Inc. serves as the Fund's Administrator,

Edgar Filing: FIRST TRUST HIGH INCOME LONG/SHORT FUND - Form N-CSR

Fund Accountant and Transfer Agent in accordance with certain fee arrangements. The Bank of New York Mellon serves as the Fund's Custodian in accordance with certain fee arrangements.

Effective January 23, 2012, James A. Bowen resigned from his position as the President and Chief Executive Officer of the Fund. He continues as a Trustee, the Chairman of the Board of Trustees and a member of the Executive Committee. The Board elected Mark R. Bradley to serve as the President and Chief Executive Officer of the Fund and James M. Dykas to serve as the Treasurer, Chief Financial Officer and Chief Accounting Officer of the Fund.

Effective January 1, 2012, each Trustee who is not an officer or employee of First Trust, any sub-advisor or any of their affiliates ("Independent Trustees") is paid a fixed annual retainer of \$125,000 per year and an annual per fund fee of \$4,000 for each closed-end fund or other actively managed fund and \$1,000 for each index fund in the First Trust Fund Complex. The fixed annual retainer is allocated pro rata among each fund in the First Trust Fund Complex based on net assets. Prior to January 1, 2012, each Independent Trustee received an annual retainer of \$10,000 per trust for the first 14 trusts of the First Trust Fund Complex and an annual retainer of \$7,500 per trust for each additional trust in the First Trust Complex. The annual retainer was allocated equally among each of the trusts.

Additionally, the Lead Independent Trustee is paid \$15,000 annually, the Chairman of the Audit Committee is paid \$10,000 annually, and each of the Chairmen of the Nominating and Governance Committee and the Valuation Committee is paid \$5,000 annually to serve in such capacities, with such compensation allocated pro rata among each fund in the First Trust Fund Complex based on net assets. Prior to January 1, 2012, the annual amounts paid were \$10,000, \$5,000 and \$2,500, respectively. Trustees are reimbursed for travel and out-of-pocket expenses in connection with all meetings. The Lead Independent Trustee and each Committee chairman will serve two-year terms until December 31, 2013 before rotating to serve as chairman of another committee or as Lead Independent Trustee. After December 31, 2013, the Lead Independent Trustee and Committee Chairman will rotate every three years. The officers and "Interested" Trustee receive no compensation from the funds for acting in such capacities.

4. Purchases and Sales of Securities

Cost of purchases and proceeds from sales of investments, excluding short-term investments, for the year ended October 31, 2012, were \$189,184,504 and \$211,630,193, respectively.

5. Indemnification

The Fund has a variety of indemnification obligations under contracts with its service providers. The Fund's maximum exposure under these arrangements is unknown. However, the Fund has not had prior claims or losses pursuant to these contracts and expects the risk of loss to be remote.

6. Risk Considerations

Risks are inherent in all investing. The following summarizes some, but not all, of the risks that should be considered for the Fund. For additional information about the risks associated with investing in the Fund, please see the Fund's prospectus and statement of additional information, as well as other Fund regulatory filings.

Investment and Market Risk: An investment in the Fund's Common Shares is subject to investment risk, including the possible loss of the entire principal invested. An investment in Common Shares represents an indirect investment in the securities owned by the Fund. The value of these securities, like other

Edgar Filing: FIRST TRUST HIGH INCOME LONG/SHORT FUND - Form N-CSR

market investments, may move up or down, sometimes rapidly and unpredictably. Common Shares at any point in time may be worth less than the original investment, even after taking into account the reinvestment of Fund dividends and distributions. Security prices can fluctuate for several reasons including the general condition of the securities markets, or when political or economic

Page 28

NOTES TO FINANCIAL STATEMENTS - (CONTINUED)

First Trust High Income Long/Short Fund (FSD)
October 31, 2012

events affecting the issuers occur. When the Advisor or Sub-Advisor determines that it is temporarily unable to follow the Fund's investment strategy or that it is impractical to do so (such as when a market disruption event has occurred and trading in the securities is extremely limited or absent), the Fund may take temporary defensive positions.

Below-Investment Grade Securities Risk: The Fund invests in below-investment grade securities. The market values for high-yield securities tend to be very volatile, and these securities are less liquid than investment grade debt securities. For these reasons, an investment in the Fund is subject to the following specific risks: (a) increased price sensitivity to changing interest rates and to a deteriorating economic environment; (b) greater risk of loss due to default or declining credit quality; (c) adverse issuer specific events are more likely to render the issuer unable to make interest and/or principal payments; and (d) a negative perception of the high-yield market may depress the price and liquidity of high-yield securities ..

Distressed Securities Risk: The Fund may invest in securities issued by companies in a bankruptcy reorganization proceeding, subject to some other form of a public or private debt restructuring or otherwise in default or in significant risk of default in the payment of interest or repayment of principal or trading at prices substantially below other below-investment grade debt securities of companies in similar industries. Distressed securities frequently do not produce income while they are outstanding. The Fund may be required to incur certain extraordinary expenses in order to protect and recover its investment. Therefore, to the extent the Sub-Advisor seeks capital appreciation through investment in distressed securities, the ability to achieve current income may be diminished.

Economic Conditions Risk: Adverse changes in economic conditions are more likely to lead to a weakened capacity of a high-yield issuer to make principal payments and interest payments than an investment grade issuer. An economic downturn could severely affect the ability of highly leveraged issuers to service their debt obligations or to repay their obligations upon maturity. Under adverse market or economic conditions, the secondary market for high-yield securities could contract further, independent of any specific adverse changes in the condition of a particular issuer and these securities may become illiquid. As a result, the Sub-Advisor could find it more difficult to sell these securities or may be able to sell the securities only at prices lower than if such securities were widely traded.

Fixed-Income Securities Risk: Debt securities, including high-yield securities,

Edgar Filing: FIRST TRUST HIGH INCOME LONG/SHORT FUND - Form N-CSR

are subject to certain risks, including: (i) issuer risk, which is the risk that the value of fixed-income securities may decline for a number of reasons which directly relate to the issuer, such as management performance, financial leverage and reduced demand for the issuer's goods and services or, in the case of asset-backed issuers, a decline in the value and/or cash flows of the underlying assets; (ii) reinvestment risk, which is the risk that income from the Fund's portfolio will decline if the proceeds from matured, traded or called bonds are reinvested at market interest rates that are below the portfolio's current earnings rate; (iii) prepayment risk, which is the risk that during periods of declining interest rates, the issuer of a security may exercise its option to prepay principal earlier than scheduled, forcing the reinvestment in lower yielding securities; and (iv) credit risk, which is the risk that a security in the Fund's portfolio will decline in price or the issuer fails to make interest payments when due because the issuer of the security experiences a decline in its financial status.

Interest Rate Risk: The Fund's portfolio is also subject to interest rate risk. Interest rate risk is the risk that fixed-income securities will decline in value because of changes in market interest rates. Investments in debt securities with long-term maturities may experience significant price declines if long-term interest rates increase.

Short Selling Risk: Short selling allows the Fund to profit from a decline in market price to the extent such decline exceeds the transaction costs and the costs of borrowing the securities. If a security sold short increases in price, the Fund may have to cover its short position at a higher price than the short sale price, resulting in a loss. The Fund may have substantial short positions and must borrow those securities to make delivery to the buyer. The Fund may not be able to borrow a security that it needs to deliver or it may not be able to close out a short position at an acceptable price and may have to sell related long positions before it had intended to do so. Thus, the Fund may not be able to successfully implement its short sale strategy due to limited availability of desired securities or for other reasons. Also, there is the risk that the counterparty to a short sale may fail to honor its contractual terms, causing a loss to the Fund. Because losses on short sales arise from increases in the value of the security sold short, such losses are theoretically unlimited. The use of short sales in combination with long positions in the Fund's portfolio in an attempt to improve performance or reduce overall portfolio risk may not be successful and may result in greater losses or lower positive returns than if the Fund held only long positions. It is possible that the Fund's long securities positions will decline in value at the same time that the value of its short securities positions increase, thereby increasing potential losses to the Fund.

By investing the proceeds received from selling securities short, the Fund could be deemed to be employing a form of leverage, which creates special risks. The use of leverage may increase the Fund's exposure to long securities positions and make any change in the Fund's NAV greater than it would be without the use of leverage. This could result in increased volatility of returns. There is no guarantee that any leveraging strategy the Fund employs will be successful during any period in which it is employed.

Currency Risk: The value of securities denominated or quoted in foreign currencies may be adversely affected by fluctuations in the relative currency exchange rates and by exchange control regulations. The Fund's investment performance may be negatively affected by a devaluation of a currency in which the Fund's investments are denominated or quoted. Further, the Fund's investment performance may be significantly affected, either positively or negatively, by currency exchange rates because the U.S. dollar value of securities denominated or quoted in another currency will increase or decrease in response to changes in the value of such currency in relation to the U.S. dollar. While certain of the Fund's non-U.S. dollar-denominated securities may be hedged into U.S.

dollars, hedging may not alleviate all currency risks.

Page 29

7. Subsequent Events

Management has evaluated the impact of all subsequent events to the Fund through the date the financial statements were issued, and has determined that there were the following subsequent events:

On November 20, 2012, the Fund declared a dividend of \$0.1155 per share to Common Shareholders of record on December 5, 2012, payable December 10, 2012. This was a decrease from the prior month's distribution paid on November 15, 2012 of \$0.1335 per share.

On December 20, 2012, the Fund declared a dividend of \$0.1155 per share to Common Shareholders of record on December 31, 2012, payable January 15, 2013.

Page 30

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Trustees and Shareholders of First Trust High Income Long/Short Fund:

We have audited the accompanying statement of assets and liabilities of First Trust High Income Long/Short Fund ("the Fund"), including the portfolio of investments, as of October 31, 2012, and the related statements of operations and cash flows for the year then ended, the statements of changes in net assets for each of the two years in the period then ended, and the financial highlights for each of the periods presented. These financial statements and financial highlights are the responsibility of the Fund's management. Our responsibility is to express an opinion on these financial statements and financial highlights based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements and financial highlights are free of material misstatement. The Fund is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control over

Edgar Filing: FIRST TRUST HIGH INCOME LONG/SHORT FUND - Form N-CSR

financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. Our procedures included confirmation of securities owned as of October 31, 2012 by correspondence with the Fund's custodian, agent banks, and brokers; where replies were not received, we performed other auditing procedures. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements and financial highlights referred to above present fairly, in all material respects, the financial position of the First Trust High Income Long/Short Fund as of October 31, 2012, the results of its operations and its cash flows for the year then ended, the changes in its net assets for each of the two years in the period then ended, and the financial highlights for each of the periods presented, in conformity with accounting principles generally accepted in the United States of America.

ADDITIONAL INFORMATION

First Trust High Income Long/Short Fund (FSD)
October 31, 2012 (Unaudited)

DIVIDEND REINVESTMENT PLAN

If your Common Shares are registered directly with the Fund or if you hold your Common Shares with a brokerage firm that participates in the Fund's Dividend Reinvestment Plan (the "Plan"), unless you elect, by written notice to the Fund, to receive cash distributions, all dividends, including any capital gain distributions, on your Common Shares will be automatically reinvested by BNY Mellon Investment Servicing (US) Inc. (the "Plan Agent"), in additional Common Shares under the Plan. If you elect to receive cash distributions, you will receive all distributions in cash paid by check mailed directly to you by the Plan Agent, as the dividend paying agent.

If you decide to participate in the Plan, the number of Common Shares you will receive will be determined as follows:

- (1) If Common Shares are trading at or above net asset value ("NAV") at the time of valuation, the Fund will issue new shares at a price equal to the greater of (i) NAV per Common Share on that date or (ii) 95% of the market price on that date.
- (2) If Common Shares are trading below NAV at the time of valuation, the Plan Agent will receive the dividend or distribution in cash and will purchase Common Shares in the open market, on the NYSE or elsewhere, for the participants' accounts. It is possible that the market price for the Common Shares may increase before the Plan

Edgar Filing: FIRST TRUST HIGH INCOME LONG/SHORT FUND - Form N-CSR

Agent has completed its purchases. Therefore, the average purchase price per share paid by the Plan Agent may exceed the market price at the time of valuation, resulting in the purchase of fewer shares than if the dividend or distribution had been paid in Common Shares issued by the Fund. The Plan Agent will use all dividends and distributions received in cash to purchase Common Shares in the open market within 30 days of the valuation date except where temporary curtailment or suspension of purchases is necessary to comply with federal securities laws. Interest will not be paid on any uninvested cash payments.

You may elect to opt-out of or withdraw from the Plan at any time by giving written notice to the Plan Agent, or by telephone at (866) 340-1104, in accordance with such reasonable requirements as the Plan Agent and the Fund may agree upon. If you withdraw or the Plan is terminated, you will receive a certificate for each whole share in your account under the Plan, and you will receive a cash payment for any fraction of a share in your account. If you wish, the Plan Agent will sell your shares and send you the proceeds, minus brokerage commissions.

The Plan Agent maintains all Common Shareholders' accounts in the Plan and gives written confirmation of all transactions in the accounts, including information you may need for tax records. Common Shares in your account will be held by the Plan Agent in non-certificated form. The Plan Agent will forward to each participant any proxy solicitation material and will vote any shares so held only in accordance with proxies returned to the Fund. Any proxy you receive will include all Common Shares you have received under the Plan.

There is no brokerage charge for reinvestment of your dividends or distributions in Common Shares. However, all participants will pay a pro rata share of brokerage commissions incurred by the Plan Agent when it makes open market purchases.

Automatically reinvesting dividends and distributions does not mean that you do not have to pay income taxes due upon receiving dividends and distributions. Capital gains and income are realized although cash is not received by you. Consult your financial advisor for more information.

If you hold your Common Shares with a brokerage firm that does not participate in the Plan, you will not be able to participate in the Plan and any dividend reinvestment may be effected on different terms than those described above.

The Fund reserves the right to amend or terminate the Plan if in the judgment of the Board of Trustees the change is warranted. There is no direct service charge to participants in the Plan; however, the Fund reserves the right to amend the Plan to include a service charge payable by the participants. Additional information about the Plan may be obtained by writing BNY Mellon Investment Servicing (US) Inc., 301 Bellevue Parkway, Wilmington, Delaware 19809.

PROXY VOTING POLICIES AND PROCEDURES

A description of the policies and procedures that the Fund uses to determine how to vote proxies and information on how the Fund voted proxies relating to portfolio investments during the most recent 12-month period ended June 30 is available (1) without charge, upon request, by calling (800) 988-5891; (2) on the Fund's website located at <http://www.ftportfolios.com>; and (3) on the Securities and Exchange Commission's ("SEC") website located at <http://www.sec.gov>.

PORTFOLIO HOLDINGS

The Fund files its complete schedule of portfolio holdings with the SEC for the first and third quarters of each fiscal year on Form N-Q. The Fund's Forms N-Q are available (1) by calling (800) 988-5891; (2) on the Fund's website located at <http://www.ftportfolios.com>; (3) on the SEC's website at <http://www.sec.gov>; and (4) for review and copying at the SEC's Public Reference Room ("PRR") in Washington, DC. Information regarding the operation of the PRR may be obtained by calling (800) SEC-0330.

TAX INFORMATION

Of the ordinary income (including short-term capital gain) distributions made by the Fund during the year ended October 31, 2012, none qualify for the corporate dividends received deduction available to corporate shareholders or as qualified dividend income.

For the year ended October 31, 2012, the amount of long-term capital gain distributions designated by the Fund was \$9,358 which is taxable at the maximum rate of 15% for federal income tax purposes.

NYSE CERTIFICATION INFORMATION

In accordance with Section 303A-12 of the New York Stock Exchange ("NYSE") Listed Company Manual, the Fund's President has certified to the NYSE that, as of May 8, 2012, he was not aware of any violation by the Fund of NYSE corporate governance listing standards. In addition, the Fund's reports to the SEC on Forms N-CSR, N-CSRS and N-Q contain certifications by the Fund's principal executive officer and principal financial officer that relate to the Fund's public disclosure in such reports and are required by Rule 30a-2 under the 1940 Act.

SUBMISSION OF MATTERS TO A VOTE OF SHAREHOLDERS

The Joint Annual Meeting of Shareholders of the Common Shares of First Trust Energy Income and Growth Fund, First Trust Enhanced Equity Income Fund, First Trust/Aberdeen Global Opportunity Income Fund, First Trust Mortgage Income Fund, First Trust Strategic High Income Fund II, First Trust/Aberdeen Emerging Opportunity Fund, First Trust Specialty Finance and Financial Opportunities Fund, First Trust Active Dividend Income Fund and First Trust High Income Long/Short Fund was held on April 18, 2012 (the "Annual Meeting"). At the Annual Meeting, Richard E. Erickson and Thomas R. Kadlec were elected by the Common Shareholders of the First Trust High Income Long/Short Fund as Class II Trustees for a three-year term expiring at the Fund's annual meeting of shareholders in 2015. The number of votes cast in favor of Mr. Erickson was 32,666,816, and the number of votes against was 754,614 and the number of abstentions was 2,634,729. The number of votes cast in favor of Mr. Kadlec was 32,669,966, and

Edgar Filing: FIRST TRUST HIGH INCOME LONG/SHORT FUND - Form N-CSR

the number of votes against was 751,464 and the number of abstentions was 2,634,729. James A. Bowen, Niel B. Nielson and Robert F. Keith are the other current and continuing Trustees.

ADVISORY AND SUB-ADVISORY AGREEMENTS

BOARD CONSIDERATIONS REGARDING APPROVAL OF CONTINUATION OF INVESTMENT MANAGEMENT AGREEMENT AND SUB-ADVISORY AGREEMENT

The Board of Trustees of First Trust High Income Long/Short Fund (the "Fund"), including the Independent Trustees, approved the Investment Management Agreement (the "Advisory Agreement") between the Fund and First Trust Advisors L.P. (the "Advisor") and the Investment Sub-Advisory Agreement (the "Sub-Advisory Agreement" and together with the Advisory Agreement, the "Agreements") among the Fund, the Advisor and MacKay Shields LLC (the "Sub-Advisor"), at a meeting held on June 10-11, 2012. The Board determined that the continuation of the Agreements is in the best interests of the Fund in light of the extent and quality of the services provided and such other matters as the Board considered to be relevant in the exercise of its reasonable business judgment.

To reach this determination, the Board considered its duties under the Investment Company Act of 1940, as amended (the "1940 Act"), as well as under the general principles of state law in reviewing and approving advisory contracts; the requirements of the 1940 Act in such matters; the fiduciary duty of investment advisors with respect to advisory agreements and compensation; the standards used by courts in determining whether investment company boards have fulfilled their duties; and the factors to be considered by the Board in voting on such agreements. To assist the Board in its evaluation of the Agreements, the Independent Trustees received a separate report from each of the Advisor and the Sub-Advisor in advance of the Board meeting responding to a request for information from counsel to the Independent Trustees. The reports, among other things, outlined the services provided by the Advisor and the Sub-Advisor (including the relevant personnel responsible for these services and their experience); the advisory and sub-advisory fees for the Fund as compared to fees charged to other clients of the Advisor and the Sub-Advisor and as compared to fees charged by investment advisors and sub-advisors to comparable funds; expenses of the Fund as compared to expense ratios of comparable funds; the nature of expenses incurred in providing services to the Fund and the potential for economies of scale, if any; financial data on the Advisor and the Sub-Advisor; any fall-out benefits to the Advisor and the Sub-Advisor; and information on the Advisor's and the Sub-Advisor's compliance programs.

Page 33

ADDITIONAL INFORMATION - (CONTINUED)

First Trust High Income Long/Short Fund (FSD)
October 31, 2012 (Unaudited)

Following receipt of this information, counsel to the Independent Trustees posed follow-up questions, and the Independent Trustees and their counsel then met separately to discuss the information provided by the Advisor and the Sub-Advisor, including the supplemental responses. The Board applied its business judgment to determine whether the arrangements between the Fund and the

Edgar Filing: FIRST TRUST HIGH INCOME LONG/SHORT FUND - Form N-CSR

Advisor and among the Fund, the Advisor and the Sub-Advisor are reasonable business arrangements from the Fund's perspective as well as from the perspective of shareholders. The Board considered that shareholders chose to invest or remain invested in the Fund knowing that the Advisor and the Sub-Advisor manage the Fund.

In reviewing the Agreements, the Board considered the nature, extent and quality of services provided by the Advisor and the Sub-Advisor under the Agreements. The Board considered the Advisor's statements regarding the incremental benefits associated with the Fund's advisor/sub-advisor management structure. With respect to the Advisory Agreement, the Board considered that the Advisor is responsible for the overall management and administration of the Fund and reviewed the services provided by the Advisor to the Fund, including the oversight of the Sub-Advisor. The Board noted the compliance program that had been developed by the Advisor and considered that it includes a robust program for monitoring the Sub-Advisor's compliance with the 1940 Act and the Fund's investment objectives and policies. With respect to the Sub-Advisory Agreement, the Board received a presentation from representatives of the Sub-Advisor discussing the services that the Sub-Advisor provides to the Fund and how the Sub-Advisor manages the Fund's investments. In light of the information presented and the considerations made, the Board concluded that the nature, extent and quality of services provided to the Fund by the Advisor and the Sub-Advisor under the Agreements have been and are expected to remain satisfactory and that the Sub-Advisor, under the oversight of the Advisor, has managed the Fund consistent with its investment objectives and policies.

The Board considered the advisory and sub-advisory fees paid under the Agreements. The Board considered the advisory fees charged by the Advisor to similar funds and other non-fund clients, noting that the Advisor does not provide advisory services to other funds with investment objectives and policies similar to the Fund's, but does provide services to certain separately managed accounts with investment objectives and policies similar to the Fund's. The Board noted that the Advisor charges a lower advisory fee rate to the separately managed accounts, as well as the Advisor's statement that the nature of the services provided to the separately managed accounts is not comparable to those provided to the Fund. The Board considered the sub-advisory fee and how it relates to the Fund's overall advisory fee structure and noted that the sub-advisory fee is paid by the Advisor from its advisory fee. The Board also considered the terms of the relationship agreement between the Advisor and Sub-Advisor, which expires in September 2014 (the "Expiration Date"). The Board noted that under the terms of the relationship agreement, the Advisor will reimburse the Sub-Advisor for a percentage of the Fund's underwriting and offering costs paid by the Sub-Advisor in the event the Sub-Advisor is terminated prior to the Expiration Date (except for certain defined events that constitute "termination for cause"). The Board noted the potential conflict of interest for the Advisor created by the relationship agreement. The Board also considered information provided by the Sub-Advisor as to the fees it charges to other similar clients, noting that the sub-advisory fee rate is generally lower than the fee rate charged by the Sub-Advisor to other similar clients. In addition, the Board received data prepared by Lipper Inc. ("Lipper"), an independent source, showing the advisory fees and expense ratios of the Fund as compared to the advisory fees and expense ratios of a peer group selected by Lipper and similar data for a separate peer group selected by the Advisor. The Board also received advisory fee and expense ratio data for a peer group of funds compiled by Morningstar Associates, LLC ("Morningstar"), an independent source. The Board noted that the Lipper, Advisor and Morningstar peer groups did not include any overlapping peer funds. The Board discussed with representatives of the Advisor the limitations in creating a relevant peer group for the Fund, including that (i) the Fund is unique in its composition, which makes assembling peers with similar strategies and asset mix difficult; (ii) peer funds may use different types of leverage which have different costs associated with them or may use no leverage, noting that the Fund uses non-traditional leverage by

Edgar Filing: FIRST TRUST HIGH INCOME LONG/SHORT FUND - Form N-CSR

shorting bonds and reinvesting the proceeds; and (iii) most peer funds do not employ an advisor/sub-advisor management structure. The Board took these limitations into account in considering the peer data. In reviewing the peer data, the Board noted that the Fund's contractual advisory fee was above the median of the Lipper, Advisor and Morningstar peer groups.

The Board also considered performance information for the Fund, noting that the performance information included the Fund's quarterly performance report, which is part of the process that the Board has established for monitoring the Fund's performance and portfolio risk on an ongoing basis. The Board determined that this process continues to be effective for reviewing the Fund's performance. In addition to the Board's ongoing review of performance, the Board also received data prepared by Lipper comparing the Fund's performance to the Lipper peer group, as well as to a larger peer universe and to a benchmark. In reviewing the Fund's performance as compared to the performance of the Lipper peer group and Lipper peer universe, the Board took into account the limitations described above with respect to creating a relevant peer group for the Fund. The Board also noted that, because the Fund launched in September 2010, it only had one full calendar year of performance. The Board considered the Fund's dividend yield as of March 30, 2012 and an analysis prepared by the Advisor on the continued benefits provided by the Fund's leverage. In addition, the Board compared the Fund's premium/discount over the past five quarters to the average and median premium/discount of the Advisor peer group over the same period, noting that the Fund's premium/discount was generally indicative of the asset class and market events.

Page 34

ADDITIONAL INFORMATION - (CONTINUED)

First Trust High Income Long/Short Fund (FSD)
October 31, 2012 (Unaudited)

On the basis of all the information provided on the fees, expenses and performance of the Fund, the Board concluded that the advisory and sub-advisory fees were reasonable and appropriate in light of the nature, extent and quality of services provided by the Advisor and Sub-Advisor under the Agreements.

The Board noted that the Advisor has continued to invest in personnel and infrastructure and considered whether fee levels reflect any economies of scale for the benefit of shareholders. The Board noted the Advisor's statement that economies of scale in providing services to the Fund are not available at current asset levels. The Board determined that due to the Fund's closed-end structure, the potential for realization of economies of scale as Fund assets grow was not a material factor to be considered. The Board also considered the costs of the services provided and profits realized by the Advisor from serving as investment advisor to the Fund for the twelve months ended December 31, 2011, as set forth in the materials provided to the Board. The Board noted the inherent limitations in the profitability analysis, and concluded that the Advisor's estimated profitability appeared to be not excessive in light of the services provided to the Fund. In addition, the Board considered fall-out benefits described by the Advisor that may be realized from its relationship with the Fund, including the Advisor's compensation for fund reporting services pursuant to a separate Fund Reporting Services Agreement.

Edgar Filing: FIRST TRUST HIGH INCOME LONG/SHORT FUND - Form N-CSR

The Board noted the Sub-Advisor's statement that it will not experience significant economies of scale based on the current level of assets of the Fund. The Board considered that the sub-advisory fee rate was negotiated at arm's length between the Advisor and the Sub-Advisor, an unaffiliated third party. The Board also considered data provided by the Sub-Advisor as to the profitability of the Sub-Advisory Agreement to the Sub-Advisor. The board noted the inherent limitations in the profitability analysis and concluded that the profitability analysis for the Advisor was more relevant. The Board considered fall-out benefits realized by the Sub-Advisor from its relationship with the Fund, noting that the Sub-Advisor did not identify any material fall-out benefits.

Based on all of the information considered and the conclusions reached, the Board, including the Independent Trustees, unanimously determined that the terms of the Agreements continue to be fair and reasonable and that the continuation of the Agreements is in the best interests of the Fund. No single factor was determinative in the Board's analysis.

 PRIVACY POLICY

First Trust High Income Long/Short Fund (FSD)
 October 31, 2012 (Unaudited)

Privacy Policy

First Trust values our relationship with you and consider your privacy an important priority in maintaining that relationship. We are committed to protecting the security and confidentiality of your personal information.

Sources of Information

We collect nonpublic personal information about you from the following sources:

- o Information we receive from you and your broker-dealer, investment advisor or financial representative through interviews, applications, agreements or other forms;
- o Information about your transactions with us, our affiliates or others;
- o Information we receive from your inquiries by mail, e-mail or telephone;

Edgar Filing: FIRST TRUST HIGH INCOME LONG/SHORT FUND - Form N-CSR

and

- o Information we collect on our website through the use of "cookies". For example, we may identify the pages on our website that your browser requests or visits.

Information Collected

The type of data we collect may include your name, address, social security number, age, financial status, assets, income, tax information, retirement and estate plan information, transaction history, account balance, payment history, investment objectives, marital status, family relationships and other personal information.

Disclosure of Information

We do not disclose any nonpublic personal information about our customers or former customers to anyone, except as permitted by law. In addition to using this information to verify your identity (as required under law), the permitted uses may also include the disclosure of such information to unaffiliated companies for the following reasons:

- o In order to provide you with products and services and to effect transactions that you request or authorize, we may disclose your personal information as described above to unaffiliated financial service providers and other companies that perform administrative or other services on our behalf, such as transfer agents, custodians and trustees, or that assist us in the distribution of investor materials such as trustees, banks, financial representatives, proxy services, solicitors and printers.
- o We may release information we have about you if you direct us to do so, if we are compelled by law to do so, or in other legally limited circumstances (for example to protect your account from fraud).

In addition, in order to alert you to our other financial products and services, we may share your personal information within First Trust.

Privacy Online

We allow third-party companies, including AddThis, to collect certain anonymous information when you visit our website. These companies may use non-personally identifiable information during your visits to this and other websites in order to provide advertisements about goods and services likely to be of greater interest to you. These companies typically use a cookie, third party web beacon or pixel tags, to collect this information. To learn more about this behavioral advertising practice, you can visit www.networkadvertising.org.

Confidentiality and Security

With regard to our internal security procedures, First Trust restricts access to your nonpublic personal information to those First Trust employees who need to know that information to provide products or services to you. We maintain physical, electronic and procedural safeguards to protect your nonpublic personal information.

Policy Updates and Inquiries

As required by federal law, we will notify you of our privacy policy annually. We reserve the right to modify this policy at any time, however, if we do change it, we will tell you promptly. For questions about our policy, or for additional copies of this notice, please go to www.ftportfolios.com, or contact us at

ITEM 2. CODE OF ETHICS.

- (a) The registrant, as of the end of the period covered by this report, has adopted a code of ethics that applies to the registrant's principal executive officer, principal financial officer, principal accounting officer or controller, or persons performing similar functions, regardless of whether these individuals are employed by the registrant or a third party.
- (c) There have been no amendments, during the period covered by this report, to a provision of the code of ethics that applies to the registrant's principal executive officer, principal financial officer, principal accounting officer or controller, or persons performing similar functions, regardless of whether these individuals are employed by the registrant or a third party, and that relates to any element of the code of ethics description.
- (d) The registrant has not granted any waivers, including an implicit waiver, from a provision of the code of ethics that applies to the registrant's principal executive officer, principal financial officer, principal accounting officer or controller, or persons performing similar functions, regardless of whether these individuals are employed by the registrant or a third party, that relates to one or more of the items set forth in paragraph (b) of this item's instructions.

ITEM 3. AUDIT COMMITTEE FINANCIAL EXPERT.

As of the end of the period covered by the report, the Registrant's board of trustees has determined that Thomas R. Kadlec and Robert F. Keith are qualified to serve as audit committee financial experts serving on its audit committee and that each of them is "independent," as defined by Item 3 of Form N-CSR.

ITEM 4. PRINCIPAL ACCOUNTANT FEES AND SERVICES.

(a) Audit Fees (Registrant) -- The aggregate fees billed for each of the last two fiscal years for professional services rendered by the principal accountant for the audit of the registrant's annual financial statements or services that are normally provided by the accountant in connection with statutory and regulatory filings or engagements for those fiscal years were \$51,000 for the fiscal year ended October 31, 2011 and \$52,000 for the fiscal year ended October 31, 2012.

(b) Audit-Related Fees (Registrant) -- The aggregate fees billed in each of the last two fiscal years for assurance and related services by the principal accountant that are reasonably related to the performance of the audit of the registrant's financial statements and are not reported under paragraph (a) of this Item were \$0 for the fiscal year ended October 31, 2011 and \$0 for the fiscal year ended October 31, 2012.

Audit-Related Fees (Investment Adviser) -- The aggregate fees billed in each of the last two fiscal years for assurance and related services by the

Edgar Filing: FIRST TRUST HIGH INCOME LONG/SHORT FUND - Form N-CSR

principal accountant that are reasonably related to the performance of the audit of the registrant's financial statements and are not reported under paragraph (a) of this Item were \$10,000 for the fiscal year ended October 31, 2011 and \$0 for the fiscal year ended October 31, 2012.

(c) Tax Fees (Registrant) -- The aggregate fees billed in each of the last two fiscal years for professional services rendered by the principal accountant for tax compliance, tax advice, and tax planning were \$5,200 for the fiscal year ended October 31, 2011 and \$0 for the fiscal year ended October 31, 2012. The fees for 2011 were for tax return preparation.

Tax Fees (Investment Adviser) -- The aggregate fees billed in each of the last two fiscal years for professional services rendered by the principal accountant for tax compliance, tax advice, and tax planning were \$0 for the fiscal year ended October 31, 2011 and \$0 for the fiscal year ended October 31, 2012.

(d) All Other Fees (Registrant) -- The aggregate fees billed in each of the last two fiscal years for products and services provided by the principal accountant to the Registrant, other than the services reported in paragraphs (a) through (c) of this Item were \$0 for the fiscal year ended October 31, 2011 and \$0 for the fiscal year ended October 31, 2012.

All Other Fees (Investment Adviser) -- The aggregate fees billed in each of the last two fiscal years for products and services provided by the principal accountant to the Registrant, other than the services reported in paragraphs (a) through (c) of this Item were \$0 for the fiscal year ended October 31, 2011 and \$0 for the fiscal year ended October 31, 2012.

(e) (1) Disclose the audit committee's pre-approval policies and procedures described in paragraph (c) (7) of Rule 2-01 of Regulation S-X.

Pursuant to its charter and its Audit and Non-Audit Services Pre-Approval Policy, the Audit Committee (the "Committee") is responsible for the pre-approval of all audit services and permitted non-audit services (including the fees and terms thereof) to be performed for the Registrant by its independent auditors. The Chairman of the Committee authorized to give such pre-approvals on behalf of the Committee up to \$25,000 and report any such pre-approval to the full Committee.

The Committee is also responsible for the pre-approval of the independent auditor's engagements for non-audit services with the Registrant's adviser (not including a sub-adviser whose role is primarily portfolio management and is sub-contracted or overseen by another investment adviser) and any entity controlling, controlled by or under common control with the investment adviser that provides ongoing services to the Registrant, if the engagement relates directly to the operations and financial reporting of the Registrant, subject to the de minimis exceptions for non-audit services described in Rule 2-01 of Regulation S-X. If the independent auditor has provided non-audit services to the Registrant's adviser (other than any sub-adviser whose role is primarily portfolio management and is sub-contracted with or overseen by another investment adviser) and any entity controlling, controlled by or under common control with the investment adviser that provides ongoing services to the Registrant that were not pre-approved pursuant to the de minimis exception, the Committee will consider whether the provision of such non-audit services is compatible with the auditor's independence.

(e) (2) The percentage of services described in each of paragraphs (b) through (d) for the Registrant and the Registrant's investment adviser of this Item that were approved by the audit committee pursuant to the pre-approval exceptions included in paragraph (c) (7) (i) (c) or paragraph (c) (7) (ii) of Rule 2-01 of Regulation S-X are as follows:

Edgar Filing: FIRST TRUST HIGH INCOME LONG/SHORT FUND - Form N-CSR

(b) 0%

(c) 0%

(d) 0%

(f) The percentage of hours expended on the principal accountant's engagement to audit the registrant's financial statements for the most recent fiscal year that were attributed to work performed by persons other than the principal accountant's full-time, permanent employees was less than fifty percent.

(g) The aggregate non-audit fees billed by the registrant's accountant for services rendered to the registrant, and rendered to the registrant's investment adviser (not including any sub-adviser whose role is primarily portfolio management and is subcontracted with or overseen by another investment adviser), and any entity controlling, controlled by, or under common control with the adviser that provides ongoing services to the registrant for the Registrant's fiscal year ended October 31, 2011 were \$5,200 for the Registrant and \$3,720 for the Registrant's investment adviser and for the Registrant's fiscal year ended October 31, 2012 were \$0 for the Registrant and \$6,600 for the Registrant's investment adviser.

(h) The Registrant's audit committee of its Board of Trustees has determined that the provision of non-audit services that were rendered to the Registrant's investment adviser (not including any sub-adviser whose role is primarily portfolio management and is subcontracted with or overseen by another investment adviser), and any entity controlling, controlled by, or under common control with the investment adviser that provides ongoing services to the Registrant that were not pre-approved pursuant to paragraph (c)(7)(ii) of Rule 2-01 of Regulation S-X is compatible with maintaining the principal accountant's independence.

ITEM 5. AUDIT COMMITTEE OF LISTED REGISTRANTS.

- (a) The Registrant has a separately designated audit committee consisting of all the independent directors of the Registrant. The members of the audit committee are: Thomas R. Kadlec, Niel B. Nielson, Richard E. Erickson and Robert F. Keith.

ITEM 6. INVESTMENTS.

- (a) Schedule of Investments in securities of unaffiliated issuers as of the close of the reporting period is included as part of the report to shareholders filed under Item 1 of this form.
- (b) Not applicable.

ITEM 7. DISCLOSURE OF PROXY VOTING POLICIES AND PROCEDURES FOR CLOSED-END MANAGEMENT INVESTMENT COMPANIES.

MACKAY SHIELDS LLC PROXY VOTING POLICIES AND PROCEDURES

1. INTRODUCTION

MacKay Shields LLC ("MacKay Shields" or the "Firm"), has adopted these "Proxy Voting Policy and Procedures" (the "Policy") to ensure the Firm's compliance

Edgar Filing: FIRST TRUST HIGH INCOME LONG/SHORT FUND - Form N-CSR

with Rule 206(4)-6 under the Investment Advisers Act of 1940, as amended (the "Advisers Act") and other applicable fiduciary obligations. The Policy applies to proxies relating to securities held by clients of MacKay Shields who have delegated the responsibility of voting proxies to the Firm. The Policy is designed to assist Firm employees in meeting their specific responsibilities in this area and to reasonably ensure that proxies are voted in the best interests of the Firm's clients.

2. STATEMENT OF POLICY

2.1 It is the policy of MacKay Shields that where the Firm has voting authority, all proxies are to be voted in the best interest of the client without regard to the interests of MacKay Shields or other related parties. Specifically, MacKay Shields shall not subordinate the interests of clients to unrelated objectives, including MacKay Shields' interests. MacKay Shields shall act with the care, skill, prudence and diligence under the circumstances then prevailing that a prudent person acting in a like capacity and familiar with such matters would use in the conduct of an enterprise of a like character and with like aims. For purposes of the Policy, the "best interests of clients" shall mean, unless otherwise specified by the client, the clients' best economic interests over the long term - that is, the common interest that all MacKay Shields clients share in seeing the value of a common investment increase over time. It is further the policy of the Firm that complete and accurate disclosure concerning its proxy voting policies and procedures and proxy voting records as required by the Advisers Act, be made available to its clients.

2.2 When proxies with respect to securities held by clients of MacKay Shields have not been received by MacKay Shields or its proxy voting service provider, MacKay Shields will make reasonable efforts to obtain missing proxies. MacKay Shields is not responsible for voting proxies it or its proxy voting service provider does not receive.

2.3 MacKay Shields may choose not to vote proxies under the following circumstances:

- o If the effect on the client's economic interests or the value of the portfolio holding is indeterminable or insignificant;
- o If the cost of voting the proxy outweighs the possible benefit to the client; or
- o If a jurisdiction imposes share blocking restrictions which prevent the Firm from trading shares.

1

3. USE OF THIRD PARTY PROXY VOTING SERVICE PROVIDER

To discharge its responsibility, MacKay Shields has examined third-party services that assist in the researching and voting of proxies and the development of voting guidelines. After such review, the Firm has selected Institutional Shareholder Services, Inc., a wholly owned subsidiary of MSCI, Inc. ("ISS"), to research voting proposals, analyze the financial implications of voting proposals and vote proxies. MacKay Shields utilizes the research and analytical services, operational implementation, administration, record-keeping and reporting services provided by ISS.

4. PROXY VOTING GUIDELINES

Edgar Filing: FIRST TRUST HIGH INCOME LONG/SHORT FUND - Form N-CSR

4.1 MacKay Shields has determined that, except as set forth in Sections 6 and 7, proxies for non-union clients who so specify will be voted in accordance with the voting recommendations contained in the applicable ISS non-union domestic or global proxy voting guidelines, as in effect from time to time ("Non-Union Guidelines"). A summary of the current Non-Union Guidelines is attached as Exhibit A.

4.2 MacKay Shields has determined that, except as set forth in Sections 6 and 7, proxies for union or Taft-Hartley clients who so specify will be voted in accordance with the voting recommendations contained in the applicable ISS Taft-Hartley domestic or global proxy voting guidelines, as in effect from time to time ("Union Guidelines"). A summary of the current Union Guidelines is attached as Exhibit B.

4.3 For purposes of the Policy, the Non-Union and Union Guidelines are collectively referred to as the Standard Guidelines.

4.4 A client may choose to use proxy voting guidelines different from the Standard Guidelines ("Custom Guidelines"). Any Custom Guidelines must be furnished by the client to MacKay Shields in writing.

4.5 In the event the Standard Guidelines or any client's Custom Guidelines do not address how a proxy should be voted or state that the vote is to be determined on a "case-by-case" basis, the proxy will be voted in accordance with ISS recommendations, subject to Section 6. In the event that ISS has not made a recommendation, MacKay Shields will follow the procedure set forth in Section 7.

4.6 Notwithstanding the foregoing, MacKay Shields will vote a proxy with respect to a particular security held by a client in accordance with such client's specific request even if it is in a manner inconsistent with the Standard Guidelines or the client's Custom Guidelines, as the case may be. Any such specific requests must be furnished to MacKay Shields by the client in writing and must be received by MacKay on a timely basis for instructing ISS how to cast the vote.

4.7 In order to avoid possible conflicts of interest, MacKay Shields votes proxies based on the Standard Guidelines or a client's Custom Guidelines, as the case may be. However, it is recognized that the Firm's portfolio management team has the ultimate responsibility for proxy voting.

2

4.8 For clients using the Standard Guidelines, the Firm will instruct ISS to cast votes in accordance with the Standard Guidelines. For clients using Custom Guidelines, the Firm will provide ISS with a copy of such Custom Guidelines and will instruct ISS to cast votes in accordance with such Custom Guidelines. ISS will cast votes in accordance with the Standard Guidelines or Custom Guidelines, as the case may be, unless instructed otherwise by MacKay Shields as set forth in Sections 6 and 7. Upon receipt of a specific request from a client pursuant to Section 4.6, the Firm will instruct ISS to cast such client's proxy in accordance with such request.

5. CLIENT ACCOUNT SET-UP AND REVIEW

5.1 Initially, MacKay Shields must determine whether the client seeks to retain the responsibility of voting proxies, or seeks to delegate that responsibility to the Firm. The marketing or client service person responsible for setting up the account, in conjunction with MacKay's Legal/Compliance Department, will have

Edgar Filing: FIRST TRUST HIGH INCOME LONG/SHORT FUND - Form N-CSR

primary responsibility for making that determination. In its sole discretion, the Firm may decline to accept authority to vote a client's proxies. Any such refusal shall be in writing.

5.2 If MacKay Shields has authority to vote a client's proxies, the marketing or client service person responsible for setting up the account will ask the client to specify in writing (which may be by e-mail) whether the Firm should vote proxies in accordance with the Non-Union Guidelines, Union Guidelines or Custom Guidelines.

5.3 In most cases, the delegation of voting authority to MacKay Shields, and the Firm's use of a third-party proxy voting service provider shall be memorialized in the client's investment management agreement.

5.4 MacKay Shields shall notify ISS of new client accounts using such form as ISS shall specify from time to time. Designated personnel within the Firm will be responsible for ensuring that each new client's account for which the Firm has proxy voting authority is established on the appropriate systems and that each such account is properly coded for voting under the appropriate Non-Union Guidelines, Union Guidelines or Custom Guidelines, as the case may be.

6. OVERRIDING GUIDELINES

A portfolio manager may propose that a particular proxy vote be cast in a manner different from the Standard Guidelines or a ISS voting recommendation, or may propose an abstention from voting, if he/she believes that to do so, based on all facts and circumstances, is in the best interest of the Firm's clients as a whole. Any portfolio manager who proposes to override the Standard Guidelines or a ISS voting recommendation on a particular vote or to abstain from voting must complete a Proxy Vote Override/Decision Form, which is set forth in Schedule C.

3

7. REFERRAL OF VOTING DECISION BY ISS TO MACKAY SHIELDS

7.1 In the event that the Standard Guidelines or a client's Custom Guidelines do not address how a proxy should be voted on a specific proposal for an issuer and ISS has not made a recommendation as to how such proxy should be voted, ISS will so advise MacKay Shields. In that event, the Legal/Compliance Department will request that the appropriate portfolio manager make a voting recommendation and complete a Proxy Vote Override/Decision Form.

7.2 In the event that the Standard Guidelines or a client's Custom Guidelines require a "case-by-case" determination on a particular proxy vote and ISS has not made a recommendation as to how such proxy should be voted, ISS will so advise MacKay Shields. In that event, the Legal/Compliance Department will request that the appropriate portfolio manager make a voting recommendation and complete a Proxy Vote Override/Decision Form.

7.3 In the event that ISS determines that a conflict of interest exists as a result of which ISS is precluded from making a recommendation as to how a proxy should be voted on a specific proposal for an issuer, ISS will so advise MacKay Shields. In that event, the Legal/Compliance Department will request that the appropriate portfolio manager make a voting recommendation and complete a Proxy Vote Override/Decision Form.

8. CONFLICTS OF INTEREST

8.1 The Firm's portfolio managers may make proxy voting decisions in connection

Edgar Filing: FIRST TRUST HIGH INCOME LONG/SHORT FUND - Form N-CSR

with (i) overriding the Standard Guidelines or an ISS voting recommendation pursuant to Section 6, or (ii) deciding on a vote pursuant to Section 7. In such event, the portfolio managers have an affirmative duty to disclose any potential conflict of interest known to them that exists between the Firm and the client on whose behalf the proxy is to be voted ("Conflict").

8.2. By way of example, Conflicts may exist in situations where the Firm is called to vote on a proxy involving an issuer or proponent of a proxy proposal regarding the issuer where MacKay Shields or an affiliated person of the Firm also:

- o Manages the issuer's or proponent's pension plan;
- o Administers the issuer's or proponent's employee benefit plan;
- o Provided brokerage, underwriting, insurance or banking services to the issuer or proponent; or
- o Manages money for an employee group.

4

Additional Conflicts may exist, among others, if an executive of the Firm or its control affiliates is a close relative of, or has a personal or business relationship with:

- o An executive of the issuer or proponent;
- o A director of the issuer or proponent;
- o A person who is a candidate to be a director of the issuer;
- o A participant in the proxy contest; or
- o A proponent of a proxy proposal.

8.3 Whether a relationship creates a Conflict will depend on the facts and circumstances. Even if these parties do not attempt to influence the Firm with respect to voting, the value of the relationship to MacKay Shields or an affiliate can create a Conflict.

8.4 After a Proxy Vote Override/Decision Form is completed pursuant to Sections 6 or 7, such Form, which elicits information as to whether a potential Conflict exists, must be submitted to the Legal/Compliance Department for review. If the Firm's General Counsel ("GC") or Chief Compliance Officer ("CCO") determines that there is no potential Conflict, the GC or CCO or their designee may instruct ISS to vote the proxy issue as set forth in the completed Form.

8.5 If the GC or CCO determines that there exists or may exist a Conflict, he or she will refer the issue to the Compliance Committee for consideration by convening (in person or via telephone) an emergency meeting of the Compliance Committee. For purposes of this Policy, a majority vote of those members present shall resolve any Conflict. The Compliance Committee will consider the facts and circumstances of the pending proxy vote and the potential or actual Conflict and make a determination as to how to vote the proxy - i.e., whether to permit or deny the recommendation of the portfolio manager, or whether to take other action, such as delegating the proxy vote to an independent third party or obtaining voting instructions from clients.

Edgar Filing: FIRST TRUST HIGH INCOME LONG/SHORT FUND - Form N-CSR

8.6 In considering the proxy vote and potential Conflict, the Compliance Committee may review the following factors, including but not limited to:

- o The percentage of outstanding securities of the issuer held on behalf of clients by the Firm.
- o The nature of the relationship of the issuer or proponent with the Firm, its affiliates or its executive officers.
- o Whether there has been any attempt to directly or indirectly influence the portfolio manager's decision.
- o Whether the direction (for or against) of the proposed vote would appear to benefit the Firm or a related party.
- o Whether an objective decision to vote in a certain way will still create a strong appearance of a Conflict.

MacKay Shields may not abstain from voting any such proxy for the purpose of avoiding Conflict.

5

9. SECURITIES LENDING

If MacKay Shields portfolio managers or their designees become aware of an upcoming shareholder meeting where there is an important vote to be taken, or become aware of a request for consent of security holders on a material matter affecting the investment, MacKay Shields will consider whether to request that clients call back securities loans, if applicable. In determining whether to request that clients call back securities loans, the relevant portfolio manager(s) shall consider whether the benefit to the client in voting the matter or giving or withholding consent outweighs the benefit to the client in keeping the security on loan. There may be instances when MacKay Shields may not be aware of the upcoming shareholder meeting or request for consent with sufficient time in advance to make such a request, or when MacKay Shields' request that a client call back a securities loan in sufficient time to vote or give or withhold consent may not be successful.

10. REPORTING

Upon request, MacKay Shields shall report annually (or more frequently if specifically requested) to its clients on proxy votes cast on their behalf. MacKay Shields will provide any client who makes a written or verbal request with a copy of a report disclosing how MacKay Shields voted securities held in that client's portfolio. The report will generally contain the following information:

- o The name of the issuer of the security;
- o The security's exchange ticker symbol;
- o The security's CUSIP number;
- o The shareholder meeting date;
- o A brief identification of the matter voted on;
- o Whether the matter was proposed by the issuer or by a security

Edgar Filing: FIRST TRUST HIGH INCOME LONG/SHORT FUND - Form N-CSR

holder;

- o Whether MacKay Shields cast its vote on the matter on behalf of the client;
- o How MacKay Shields voted on behalf of the client; and
- o Whether MacKay Shields voted for or against management on behalf of the client.

11. RECORD-KEEPING

Either MacKay Shields or ISS as indicated below will maintain the following records:

- o A copy of the Policy and MacKay's Standard Guidelines and Custom Guidelines;
- o A copy of each proxy statement received by MacKay Shields or forwarded to ISS by the client's custodian regarding client securities;
- o A record of each vote cast by MacKay Shields on behalf of a client;
- o A copy of all documents created by MacKay Shields that were material to making a decision on the proxy voting (or abstaining from voting) of client securities or that memorialize the basis for that decision including the resolution of any Conflict, a copy of all guideline override requests and all supporting documents; and
- o A copy of each written request by a client for information on how MacKay Shields voted proxies on behalf of the client, as well as a copy of any written

6

response by MacKay Shields to any request by a client for information on how MacKay Shields voted proxies on behalf of the client; records of oral requests for information or oral responses will not be kept.

Such records must be maintained for at least eight years, the first two years in an appropriate office of MacKay Shields.

12. REVIEW OF VOTING AND GUIDELINES

As part of its periodic reviews, MacKay Shields' Legal/Compliance Department will conduct an annual review of the prior year's proxy voting as well as the guidelines established for proxy voting. Documentation shall be maintained of this review and a report setting forth the results of the review will be presented annually to the Compliance Committee.

13. HOW TO REQUEST INFORMATION ON HOW THE FIRM VOTED PROXIES

Clients may, at anytime, request and receive information from MacKay Shields as to how the Firm voted proxies for securities held in their account. Any such proxy information request should be in writing and mailed or faxed [(212)-754-9205] to MacKay Shields Client Services Department at:

ITEM 8. PORTFOLIO MANAGERS OF CLOSED-END MANAGEMENT INVESTMENT COMPANIES.

(A) (1) IDENTIFICATION OF PORTFOLIO MANAGER(S) OR MANAGEMENT TEAM MEMBERS AND DESCRIPTION OF ROLE OF PORTFOLIO MANAGER(S) OR MANAGEMENT TEAM MEMBERS.

INFORMATION PROVIDED AS OF JANUARY 6, 2013

MacKay Shields LLC ("MacKay Shields" or the "Sub-Advisor") is a registered investment adviser founded in 1938, and serves as the sub-advisor to the Registrant. As of October 31, 2012, MacKay Shields had approximately \$76.4 billion in assets under management.

DAN ROBERTS, PHD, SENIOR MANAGING DIRECTOR, CHIEF INVESTMENT OFFICER, GLOBAL FIXED INCOME DIVISION

Mr. Roberts has 36 years of investment experience. During Mr. Roberts' career, he has served as a Chief Investment Officer/Managing Director and head of several fixed-income groups. His regulatory and government experience includes two years at the U.S. Securities and Exchange Commission, serving at The White House with the President's Council of Economic Advisors and as Executive Director (Chief of Staff) of the U.S. Congress Joint Economic Committee. Mr. Roberts holds a BBA and a PhD from University of Iowa. In October 2004, Mr. Roberts joined MacKay Shields when the firm acquired the fixed income assets of Pareto Partners.

Edgar Filing: FIRST TRUST HIGH INCOME LONG/SHORT FUND - Form N-CSR

LOUIS N. COHEN, CFA, SENIOR PORTFOLIO MANAGER, GLOBAL FIXED INCOME DIVISION

Mr. Cohen has 35 years of investment experience. During his career, Mr. Cohen has served as a Core/Core Plus Portfolio Manager and was Co-Chairman of a Credit Committee. He has extensive credit experience, beginning in a Commercial Banking Department. He began to specialize in fixed-income in 1981, and became a fixed-income credit manager at several major firms. With experience in the fixed-income markets since 1978, Mr. Cohen is a past President of the Capital Markets Credit Analyst Society and a member of the New York Society of Security Analysts. Mr. Cohen received his BA and MBA from New York University. He also holds the Chartered Financial Analyst designation. Mr. Cohen joined MacKay Shields in October 2004 when the firm acquired the fixed income assets of Pareto Partners.

MICHAEL KIMBLE, CFA, MANAGING DIRECTOR, GLOBAL FIXED INCOME DIVISION

Mr. Kimble has 29 years of investment experience. During Mr. Kimble's career, he has served as a fixed-income credit analyst, a high-yield bond analyst and a portfolio manager. He has also been Co-Chairman of a Credit Committee. With fixed-income experience since 1984, Mr. Kimble is a member of the Capital Markets Credit Analyst Society, the New York Society of Security Analysts and the New York and Louisiana State Bar Associations. Mr. Kimble received a BA from Columbia University, an MBA from New York University and a JD from Fordham School of Law. He also holds the Chartered Financial Analyst designation. Mr. Kimble joined MacKay Shields in October 2004 when the firm acquired the fixed income assets of Pareto Partners.

TAYLOR WAGENSEIL, MANAGING DIRECTOR, GLOBAL FIXED INCOME DIVISION

Mr. Wagenseil has 34 years of investment experience. During his career, Mr. Wagenseil has served as a specialist in troubled loan workouts and recoveries. He headed a High Yield Commercial Paper Research department and has been a managing director of a Financial Restructuring Group. He was a Senior Portfolio Manager for High Yield and High Yield Arbitrage Portfolios. His public service and military experience includes the U.S. Navy (Lieutenant) during the Vietnam War and five years as the Commissioner, Department of Elderly Affairs for the City of Boston. Mr. Wagenseil received a BA from Dartmouth College and an MBA (finance) from the Harvard Business School. Mr. Wagenseil joined MacKay Shields in October 2004 after the firm acquired the fixed income assets of Pareto Partners.

* The Global Fixed Income Team utilizes a team approach in all aspects of investment management and decision-making. No one portfolio manager is singularly responsible for any particular account.

POTENTIAL CONFLICTS OF INTERESTS

Most of Mackay Shields' clients pay an investment advisory or management fee that is based on the amount of assets in the clients' accounts. These are commonly referred to as "asset-based fees". Some of Mackay Shields' clients pay fees calculated as a percentage of returns, or as a percentage of the increase in net asset value. These fees may be tied to a client-directed benchmark and may be subject to a loss carry forward. They are commonly referred to as "performance-based fees".

Managing accounts that have a performance-based fee at the same time as managing accounts that only have an asset-based fee is commonly referred to as "side-by-side management." Mackay Shields' portfolio managers may manage multiple accounts, including separate accounts, unregistered funds and registered funds, according to the same or similar investment strategies. This creates a conflict of interest by giving an incentive to favor those accounts for which Mackay Shields receives a performance-based fee because Mackay Shields will receive a higher fee if performance exceeds the applicable benchmark. Higher fees benefit Mackay Shields as well as Mackay Shields' employees because the asset-based fees and performance-based fees are included in the pool from which incentive bonuses are paid to Mackay Shields' employees. In addition, the long-term incentive plan for our senior employees is based on our company's financial results.

It is our policy not to favor the interest of one client over another. We address the conflicts of interest created by "side-by-management" by having a trade allocation policy designed so that trades are allocated among client accounts in a fair and equitable manner over time.

Regardless of their fee arrangements, when we manage accounts according to the same investment strategy, we anticipate that those accounts will generally have the same investment opportunities and be invested in the same or similar securities with the same or similar weighting. However, there are often differences in the nature or amount of securities that we buy or sell for client accounts, because of a variety of factors, including, among others:

1. Specific client investment objectives
2. Cash available in the account for investment

Edgar Filing: FIRST TRUST HIGH INCOME LONG/SHORT FUND - Form N-CSR

3. Client-imposed investment restrictions
4. Initial investment periods for new accounts
5. Investment restrictions that laws or regulations impose
6. Actual and anticipated cash inflows and outflows in client accounts
7. Duration and/or average maturity of the client account
8. Size of client account
9. Deal size
10. Current industry or issuer exposure in the client account
11. Rounding to whole lots (for example, 100 shares or 10,000 bonds)
12. Other practical limitations

We allocate securities among client accounts based on the above factors and usually do so before executing the trade. When it is impractical or not feasible to allocate prior to the execution of the trade, we will allocate the trade after the trade is executed but in no event later than the end of the day, in a fair and equitable manner among all the participating accounts, based on the above factors. In those situations in which there is a limited supply of a security, it is our general policy to make a pro rata allocation based on the original amounts targeted for the accounts. However, if in our portfolio managers' judgment the amount that would then be allocated to an account would be too small to properly manage, that account could be excluded from the pro rata allocation.

In addition, our policies include (a) that we will not permit cross trades between clients unless the portfolio manager instructing the trade deems it in the best interest of both clients at the time and obtains advance approval of the transaction, (b) a general prohibition against same day opposite direction transactions, and (c) short sale trade procedures requiring pre-approval of short sales and restricting certain short sales.

Finally, Mackay Shields' Code of Ethics and other policies and procedures reinforce a manager's obligation to treat all clients fairly and equitably. These policies, procedures, and the Code are designed to restrict a portfolio manager from favoring one client over another.

(A) (3) COMPENSATION STRUCTURE OF PORTFOLIO MANAGER(S) OR MANAGEMENT TEAM MEMBERS

INFORMATION PROVIDED AS OF OCTOBER 31, 2012.

MacKay Shields establishes salaries at competitive levels in an effort to attract and maintain high caliber professional employees, including the portfolio management team. In addition, short-term incentive compensation, in the form of bonus equal to a significant percentage of the firm's pre-tax profits, is paid annually to the firm's employees. The bonus generally represents a sizable amount relative to the base salary, and when considered with the base salary, results in a highly attractive level of total cash compensation for the firm's professional employees. Most employees, including the portfolio management team, participate in the bonus pool. This approach instills a strong sense of commitment on the part of each employee towards the overall success of the firm.

Edgar Filing: FIRST TRUST HIGH INCOME LONG/SHORT FUND - Form N-CSR

The compensation received by portfolio managers is based on both quantitative and qualitative factors. The quantitative factors may include (i) the portfolio managers' overall investment performance, (ii) the assets under their management, (iii) the overall profitability of their investment team and the firm, and (iv) industry benchmarks. The qualitative factors include, among others, leadership and adherence to the firm's policies and procedures. To the extent that an increase in the size of an account (including a mutual fund) managed by a portfolio manager results in an increase in the firm's profitability, the portfolio manager's compensation may also increase. There is no difference between the method used in determining portfolio managers' compensation with respect to one account and other accounts they manage.

Performance-based fees may be calculated as a percentage of returns, or as a percentage of the increase in net asset value, and may be tied to a client-directed benchmark or loss carry forward. A portion of these performance-based fees forms a part of the bonus pool for all employees. Of course, there are periods in which the firm does not earn any performance fee.

Historically, long-term incentive compensation for some of MacKay Shields' senior employees, including the senior members of the portfolio management team, has been phantom stock and options of New York Life Investment Management Holdings LLC ("NYL Investments Holdings"), the immediate corporate parent of MacKay, based on the overall performance of NYL Investments Holdings. Beginning January 1, 2010, MacKay Shields adopted the MacKay Shields Equity Plan, which provides phantom stock to senior employees, including the senior members of the portfolio management team, and which replaces the prior plan for our employees. Awards under the prior plan continue to vest and pay out according to the terms of that plan.

The senior portfolio managers involved in managing the Registrant's investments have each entered into Executive Employment Agreements with MacKay Shields, which include provisions relating to base salary and incentive salary as described above. The Executive Employment Agreements are for renewable one year terms and can be terminated on 60 days' prior written notice. There is also a provision for termination by MacKay Shields for cause, as defined in the Agreements. The Agreements contain restrictions regarding non-solicitation of clients and non-hiring of employees following termination of the portfolio managers' employment. None of the portfolio managers is subject to a non-compete agreement that could potentially affect the portfolio manager's ability to manage the Registrant.

(A) (4) DISCLOSURE OF SECURITIES OWNERSHIP

INFORMATION PROVIDED AS OF OCTOBER 31, 2012.

Name	Dollar Range of Fund Shares Beneficially Owned
Dan Roberts	\$0
Taylor Wagenseil	\$0
Louis Cohen	\$100,001-\$500,000
Michael Kimble	\$0

(B) Not applicable.

Edgar Filing: FIRST TRUST HIGH INCOME LONG/SHORT FUND - Form N-CSR

ITEM 9. PURCHASES OF EQUITY SECURITIES BY CLOSED-END MANAGEMENT INVESTMENT COMPANY AND AFFILIATED PURCHASERS.

Not applicable.

ITEM 10. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS.

There have been no material changes to the procedures by which the shareholders may recommend nominees to the registrant's board of directors, where those changes were implemented after the registrant last provided disclosure in response to the requirements of Item 407(c)(2)(iv) of Regulation S-K (17 CFR 229.407) (as required by Item 22(b)(15) of Schedule 14A (17 CFR 240.14a-101)), or this Item.

ITEM 11. CONTROLS AND PROCEDURES.

- (a) The registrant's principal executive and principal financial officers, or persons performing similar functions, have concluded that the registrant's disclosure controls and procedures (as defined in Rule 30a-3(c) under the Investment Company Act of 1940, as amended (the "1940 Act") (17 CFR 270.30a-3(c))) are effective, as of a date within 90 days of the filing date of the report that includes the disclosure required by this paragraph, based on their evaluation of these controls and procedures required by Rule 30a-3(b) under the 1940 Act (17 CFR 270.30a-3(b)) and Rules 13a-15(b) or 15d-15(b) under the Securities Exchange Act of 1934, as amended (17 CFR 240.13a-15(b) or 240.15d-15(b)).
- (b) There were no changes in the registrant's internal control over financial reporting (as defined in Rule 30a-3(d) under the 1940 Act (17 CFR 270.30a-3(d))) that occurred during the registrant's second fiscal quarter of the period covered by this report that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting.

ITEM 12. EXHIBITS.

- (a) (1) Code of ethics, or any amendment thereto, that is the subject of disclosure required by Item 2 is attached hereto.
- (a) (2) Certifications pursuant to Rule 30a-2(a) under the 1940 Act and Section 302 of the Sarbanes-Oxley Act of 2002 are attached hereto.
- (a) (3) Not applicable.
- (b) Certifications pursuant to Rule 30a-2(b) under the 1940 Act and Section 906 of the Sarbanes-Oxley Act of 2002 are attached hereto.
