**Item 7.01. Regulation FD Disclosure.**

On January 22, 2018, we issued a letter from Thomas K. Equels, our CEO, to our employees, contractors, partners and stockholders. The letter focuses on one of our primary reasons for being, a treatment for Myalgic Encephalomyelitis/Chronic Fatigue Syndrome (“ME/CFS”), one of the disease targets for our drug Ampligen®. Mr. Equels recommends viewing of the recently released movie “Unrest”, a PBS broadcast by filmmaker Jennifer Brea, who turned the lens on herself and others suffering from severe ME/CFS to document the symptoms associated with ME/CFS. The film illustrates that ME/CFS is a seriously debilitating disease suffered by as many as 2.5 million Americans, according to the CDC. It challenges the myth that the disease is a mental disorder rather than a biological disorder.

The letter is attached hereto as Exhibit 99.1. In accordance with General Instruction B.2 of Form 8-K, the information set forth herein is deemed to be “furnished” and shall not be deemed to be “filed” for purposes of the Securities Exchange Act of 1934, as amended.
