NOTE ABOUT FORWARD-LOOKING STATEMENTS

Statements in this quarterly report on Form 10-Q that are not historical facts may constitute “forward-looking statements,” including any statements about our expectations, beliefs, plans, predictions, forecasts, objectives, assumptions or future events or performance. These statements are often, but not always, made through the use of words or phrases such as “anticipate,” “believes,” “can,” “could,” “may,” “predicts,” “potential,” “should,” “will,” “estimate,” “projects,” “continuing,” “ongoing,” “expects,” “intends” and similar words or phrases. These statements are only predictions and involve estimates, known and unknown risks, assumptions and uncertainties that could cause actual results to differ materially from those expressed in such statements, including as a result of the following factors, among others:

- our inability to make acquisitions of, or lease, aircraft on favorable terms;
- our inability to sell aircraft on favorable terms;
- our inability to obtain additional financing on favorable terms, if required, to complete the acquisition of sufficient aircraft as currently contemplated or to fund the operations and growth of our business;
 - our inability to obtain refinancing prior to the time our debt matures;
- impaired financial condition and liquidity of our lessees;
 - deterioration of economic conditions in the commercial aviation industry generally;
- increased maintenance, operating or other expenses or changes in the timing thereof;
- changes in the regulatory environment;
- potential natural disasters and terrorist attacks and the amount of our insurance coverage, if any, relating thereto; and
- the factors discussed under “Part I — Item 1A. Risk Factors,” in our Annual Report on Form 10-K for the year ended December 31, 2015, under “Part 1 — Item 1A. Risk Factors,” in this Quarterly Report on Form 10-Q for the quarterly period ended June 30, 2016, and other SEC filings.

All forward-looking statements are necessarily only estimates of future results, and there can be no assurance that actual results will not differ materially from expectations. You are therefore cautioned not to place undue reliance on such statements. Any forward-looking statement speaks only as of the date on which it is made, and we undertake no obligation to update any forward-looking statement to reflect events or circumstances after the date on which the statement is made or to reflect the occurrence of unanticipated events.

Air Lease Corporation and Subsidiaries

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

Note 1. Company Background and Overview

Air Lease Corporation, together with its subsidiaries (the “Company”, “ALC”, “we”, “our” or “us”), is a leading aircraft leasing company that was founded by aircraft leasing industry pioneer, Steven F. Udvar-Házy. We are principally engaged in purchasing new commercial jet transport aircraft directly from the manufacturers, such as The Boeing Company (“Boeing”) and Airbus S.A.S. (“Airbus”). As of June 30, 2016, we owned a fleet of 245 aircraft and had 377 aircraft on order with the manufacturers. In addition to our leasing activities, we sell aircraft from our fleet to leasing companies, financial services companies and airlines. We also provide fleet management services to investors and owners of aircraft portfolios for a management fee.

Note 2. Basis of Preparation and Critical Accounting Policies

The Company consolidates financial statements of all entities in which we have a controlling financial interest, including the accounts of any Variable Interest Entity in which we have a controlling financial interest and for which we are determined to be the primary beneficiary. All material intercompany balances are eliminated in consolidation. The accompanying Consolidated Financial Statements have been prepared in accordance with Generally Accepted Accounting Principles in the United States of America (“GAAP”) for interim financial information and in accordance with the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by GAAP for complete financial statements.

The accompanying unaudited consolidated financial statements include all adjustments, including only normal, recurring adjustments, necessary to present fairly the Company’s financial position, results of operations and cash flows at June 30, 2016, and for all periods presented. The results of operations for the three and six months ended June 30, 2016 are not necessarily indicative of the operating results expected for the year ending December 31, 2016. These financial statements should be read in conjunction with the consolidated financial statements and related notes included in our Annual Report on Form 10-K for the year ended December 31, 2015.

Initial Direct Costs

The Company records as period costs those internal and other costs incurred in connection with identifying, negotiating and delivering aircraft to the Company's lessees. Amounts paid by us to lessees and/or other parties in connection with originating lease transactions are capitalized as lease incentives and are amortized over the lease term. Additionally, regarding the extension of leases that contain maintenance reserve provisions, the Company considers maintenance reserves that were previously recorded as revenue and no longer meet the virtual certainty criteria as a function of the extended lease term as lease incentives and capitalizes such reserves. The amortization of lease incentives is recorded as a reduction of lease revenue in the Consolidated Statement of Income.

Note 3.Recently Issued Accounting Standards

In February 2016, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") No. 2016-02 ("ASU 2016-02"), "Leases (Topic 842)". The amendments in ASU 2016-02 set out the principles for the recognition, measurement, presentation and disclosure of leases for both lessees and lessors. ASU 2016-02 will be effective for annual reporting periods beginning after December 15, 2018 for public entities and is required to be applied using the modified retrospective transition approach. Early adoption is permitted. We do not believe that the adoption of the standard will have a material impact on our consolidated financial statements.

In March 2016, the FASB issued ASU No. 2016-09 ("ASU 2016-09"), "Compensation-Stock Compensation (Topic 718)". The amendments in ASU 2016-09 reduce the complexity of accounting for share-based payments and might increase volatility in reported earnings. ASU 2016-09 will be effective for interim and annual periods beginning after December 15, 2016 for public entities and is required to be adopted using the cumulative-effect and prospective approach. Early adoption is permitted. We are currently evaluating this guidance to determine the impact it will have on our financial statements.

Senior unsecured notes

As of June 30, 2016, the Company had \$5.7 billion in senior unsecured notes outstanding. As of December 31, 2015, the Company had \$5.7 billion in senior unsecured notes outstanding.

On April 11, 2016, the Company issued \$600.0 million in aggregate principal amount of senior unsecured notes due 2021 that bear interest at a rate of 3.375%.

Unsecured revolving credit facility

On May 27, 2016, the Company amended and extended its four-year unsecured revolving credit facility whereby the Company extended the maturity date from May 5, 2019 to May 5, 2020 and increased the total revolving commitments to approximately \$3.1 billion from approximately \$2.8 billion. The unsecured revolving credit facility remains priced at LIBOR plus 1.25% with a 0.25% facility fee, each subject to adjustment based on changes in the Company's credit ratings. Lenders hold revolving commitments totaling approximately \$2.8 billion that mature on May 5, 2020, commitments totaling \$290.0 million that mature on May 5, 2019, and commitments totaling \$65.0 million that mature on May 5, 2018.

The total amount outstanding under our unsecured revolving credit facility was \$1.7 billion and \$720.0 million as of June 30, 2016 and December 31, 2015, respectively.

Unsecured term financings

In March 2016, the Company entered into a \$100.0 million one-year unsecured term facility bearing interest at a rate of LIBOR plus 1.00%.

Table of Contents

The outstanding balance on our unsecured term facilities as of June 30, 2016 and December 31, 2015 was \$215.5 million and \$292.8 million, respectively.

Secured term financing

In June 2016, the availability period for our ability to draw from our warehouse facility expired. The outstanding drawn balance at the end of the availability period was converted to an amortizing, four-year term loan with an interest rate of LIBOR plus 2.00%. As of June 30, 2016, the Company's outstanding balance was \$271.0 million and 12 aircraft with a net book value of \$456.2 million were pledged as collateral. As of December 31, 2015, the Company had borrowed \$372.4 million under our warehouse facility and pledged 14 aircraft as collateral with a net book value of \$577.6 million.

As of June 30, 2016, the outstanding balance on our secured term facilities was \$689.6 million and we had pledged 25 aircraft as collateral with a net book value of \$1.3 billion. Note 5. Commitments and Contingencies

As of June 30, 2016 and through August 4, 2016, the Company had commitments to acquire a total of 377 new aircraft scheduled to deliver through 2023 as follows:

Aircraft Type	2016	2017	2018	2019	2020	Thereafter	Total
Airbus A320/A321-200	3	1	—	—	—	—	4

ATR 72-600(2)	4	—	—	—	—	—	4
Total	16	33	44	60	75	149	377

(1) Our Airbus A320/321neo aircraft orders include 30 long-range variants.

(2) We have committed to sell all of our ATR aircraft on order.

Commitments for the acquisition of these aircraft and other equipment at an estimated aggregate purchase price (including adjustments for inflation) of approximately \$29.2 billion at June 30, 2016 and through August 4, 2016 are as follows (in thousands):

Years ending December 31,	
2016	\$ 1,302,047
2017	2,646,313
2018	3,794,325
2019	4,599,513
2020	5,892,274
Thereafter	10,993,085
Total(1)	\$ 29,227,557

(1) Based on recent aircraft deliveries from our order book, we have determined that our assumptions regarding forward purchase price escalations have been higher than our actual experience. Accordingly, we have revised our forward escalation and aircraft specification assumptions to reflect current experience and a forecasted extended lower inflationary environment. The impact of this change was a decrease of \$0.7 billion in our forward purchase

commitments. We will continue to monitor and adjust, as necessary, our forecasted assumptions.

We have made non-refundable deposits on the aircraft for which we have commitments to purchase of \$1.1 billion as of June 30, 2016 and December 31, 2015, which are subject to manufacturer performance commitments. If we are unable to satisfy our purchase commitments, we may forfeit our deposits. Further, we would be subject to breach of contract claims by our lessees and manufacturers.

As of June 30, 2016, the Company had a non-binding commitment to acquire up to five A350-1000 aircraft. Deliveries of these aircraft are scheduled to commence in 2023 and continue through 2024.

Note 6. Net Earnings Per Share

Basic net earnings per share is computed by dividing net income by the weighted-average number of common shares outstanding for the period. Diluted earnings per share reflects the potential dilution that would occur if securities or other contracts to issue common stock were exercised or converted into common stock; however, potential common equivalent shares are excluded if the effect of including these shares would be anti-dilutive. The Company's two classes of common stock, Class A and Class B Non-Voting, have equal rights to dividends and income, and therefore, basic and diluted earnings per share are the same for each class of common stock. As of June 30, 2016, we did not have any Class B Non-Voting common stock outstanding.

Diluted net earnings per share takes into account the potential conversion of stock options, restricted stock units, and warrants using the treasury stock method and convertible notes using the if-converted method. For the three and six months ended June 30, 2016 and 2015, the Company did not have any potentially anti-dilutive securities which would require exclusion from the computation of dilutive earnings per share. The Company excluded 1,006,647 and 982,769 shares related to restricted stock units for which the performance metric had yet to be achieved as of June 30, 2016 and 2015, respectively.

The following table sets forth the reconciliation of basic and diluted net income per share (in thousands, except share and per share amounts):

	Three Months Ended June 30,		Six Months Ended June 30,

Note 7.Fair Value Measurements

Assets and Liabilities Measured at Fair Value on a Recurring and Non-recurring Basis

The Company had no assets or liabilities which are measured at fair value on a recurring or non-recurring basis as of June 30, 2016 or December 31, 2015.

Financial Instruments Not Measured at Fair Value

The fair value of debt financing is estimated based on the quoted market prices for the same or similar issues, or on the current rates offered to the Company for debt of the same remaining maturities, which would be categorized as a Level 2 measurement in the fair value hierarchy. The estimated fair value of debt financing as of June 30, 2016 was \$8.7 billion compared to a book value of \$8.5 billion. The estimated fair value of debt financing as of December 31, 2015 was \$7.9 billion compared to a book value of \$7.8 billion.

Table of Contents

The following financial instruments are not measured at fair value on the Company's consolidated balance sheet at June 30, 2016, but require disclosure of their fair values: cash and cash equivalents and restricted cash. The estimated fair value of such instruments at June 30, 2016 approximates their carrying value as reported on the consolidated balance sheet. The fair value of all these instruments would be categorized as Level 1 of the fair value hierarchy.

Note 8. Stock-based Compensation

On May 7, 2014, the stockholders of the Company approved the Air Lease Corporation 2014 Equity Incentive Plan (the "2014 Plan"). Upon approval of the 2014 Plan, no new awards may be granted under the Amended and Restated 2010 Equity Incentive Plan (the "2010 Plan"). As of June 30, 2016, the number of stock options ("Stock Options") and restricted stock units ("RSUs") authorized under the 2014 Plan is approximately 6,051,932, which includes 1,051,932 shares which were previously reserved for issuance under the 2010 Plan. Stock Options are generally granted for a term of 10 years and generally vest over a three year period. The Company has issued RSUs with four different vesting criteria: those RSUs that vest based on the attainment of book value goals, those RSUs that vest based on the attainment of Total Shareholder Return ("TSR") goals, time based RSUs that vest ratably over a time period of three years and RSUs that cliff-vest at the end of a one or two year period. The book value RSUs generally vest ratably over three years, if the performance condition has been met. Book value RSUs for which the performance metric has not been met are forfeited. The TSR RSUs vest at the end of a three year period. The number of TSR RSUs that will ultimately vest is based upon the percentile ranking of the Company's TSR among a peer group. The number of shares that will ultimately vest will range from 0% to 200% of the RSUs initially granted depending on the extent to which the TSR metric is achieved.

The Company recorded \$4.5 million and \$4.6 million of stock-based compensation expense related to RSUs for the three months ended June 30, 2016 and 2015, respectively. The Company recorded \$7.7 million of stock-based compensation expense related to RSUs for the six months ended June 30, 2016 and 2015.

Stock Options

A summary of stock option activity for the six month period ended June 30, 2016 follows:

		Exercise	Remaining Contractual Term	Aggregate Intrinsic Value (in thousands)(1)
	Shares	Price	(in years)	
Balance at December 31, 2015	3,309,158	\$ 20.40	4.50	\$ 43,287

Edgar Filing: AIR LEASE CORP - Form 10-Q

Exercised	—	\$ —	—	\$ —
Forfeited/canceled	—	\$ —	—	\$ —
Balance at June 30, 2016	3,309,158	\$ 20.40	4.00	\$ 21,419
Vested and exercisable as of June 30, 2016	3,309,158	\$ 20.40	4.00	\$ 21,419

- (1) The aggregate intrinsic value is calculated as the difference between the exercise price of the underlying awards and the closing stock price of our Class A common stock as of the respective date.

The Company's outstanding stock options fully vested on June 30, 2013 and there were no unrecognized compensation costs related to outstanding stock options as of June 30, 2016. As a result, there was no stock-based compensation expense related to Stock Options for the three and six months ended June 30, 2016 and 2015.

Table of Contents

The following table summarizes additional information regarding exercisable and vested stock options at June 30, 2016:

Range of exercise prices	Stock options exercisable and Vested	
	Number of Shares	Weighted- Average Remaining Life (in years)
\$20.00	3,159,158	3.96
\$28.80	150,000	4.82
\$20.00 - \$28.80	3,309,158	4.00

Restricted Stock Units

Compensation cost for stock awards is measured at the grant date based on fair value and recognized over the vesting period. The fair value of book value and time based RSUs is determined based on the closing market price of the Company's Class A common stock on the date of grant, while the fair value of TSR RSUs is determined at the grant date using a Monte Carlo simulation model. Included in the Monte Carlo simulation model were certain assumptions regarding a number of highly complex and subjective variables, such as expected volatility, risk-free interest rate and expected dividends. To appropriately value the award, the risk-free interest rate is estimated for the time period from the valuation date until the vesting date and the historical volatilities were estimated based on a historical timeframe equal to the time from the valuation date until the end date of the performance period.

During the six months ended June 30, 2016, the Company granted 594,273 RSUs of which 264,723 are TSR RSUs. The following table summarizes the activities for our unvested RSUs for the six months ended June 30, 2016:

	Unvested Restricted Stock Units	
	Number of Shares	Weighted-Average Grant-Date Fair Value
Unvested at December 31, 2015	993,092	\$ 41.62
Granted	594,273	\$ 29.61
Vested	(455,242)	\$ 35.80
Forfeited/canceled	(19,649)	\$ 38.39
Unvested at June 30, 2016	1,112,474	\$ 37.64
Expected to vest after June 30, 2016(1)	1,098,741	\$ 37.64

(1) RSUs expected to vest reflect an estimated forfeiture rate.

The Company recorded \$4.5 million and \$4.6 million of stock-based compensation expense related to RSUs for the three months ended June 30, 2016 and 2015, respectively. The Company recorded \$7.7 million of stock-based compensation expense related to RSUs for the six months ended June 30, 2016 and 2015.

As of June 30, 2016, there was \$22.0 million of unrecognized compensation cost, adjusted for estimated forfeitures, related to unvested RSUs granted to employees. Total unrecognized compensation cost will be adjusted for future changes in estimated forfeitures and is expected to be recognized over a weighted-average remaining period of 1.9 years.

Note 9. Investments

On November 4, 2014, a wholly owned subsidiary of the Company entered into an agreement with a co-investment vehicle arranged by Napier Park to participate in a joint venture formed as a Delaware limited liability company—Blackbird Capital I, LLC (“Blackbird”) for the purpose of investing in commercial aircraft and leasing them to airlines around the globe. We provide management services to the joint venture for a fee based upon aircraft assets under management. The Company’s non-controlling interest in Blackbird is 9.5% and it is accounted for as an investment under the equity method of accounting. The Company recognized \$0.8 million and \$2.1 million of gains on the sale of aircraft to Blackbird during the six months ended June 30, 2016 and 2015, respectively. As of June 30, 2016 and December 31, 2015, the amounts due from Blackbird to the Company were \$1.0 million and \$0.7 million, respectively. The Company's investment in Blackbird was \$24.2 million and \$18.6 million as of June 30, 2016 and December 31, 2015, respectively and is recorded in other assets on the Consolidated Balance Sheet.

Note 10. Flight Equipment Held for Sale

In May 2016, we entered into an agreement to sell 25 Embraer E190 and E175 aircraft to Nordic Aviation Capital A/S ("NAC"). During the quarter ended June 30, 2016, we completed sales of two E175 aircraft and two E190 aircraft. We expect to complete the sales of the remaining 21 Embraer aircraft over the next three quarters.

In December 2015, we entered into an agreement to sell our fleet of 25 ATR turboprop aircraft, comprised of 20 delivered aircraft and five undelivered aircraft. During the quarter ended June 30, 2016, we completed sales of five ATR aircraft. As of June 30, 2016, we have completed the sale of 18 ATR aircraft to NAC. We expect to complete the sale of our existing ATR fleet during the third quarter of 2016 and to sell the remaining four ATR aircraft from our order book over the next quarter at delivery.

The remaining three delivered ATR aircraft and 21 Embraer aircraft, with a carrying value of \$577.8 million, were held for sale and included in flight equipment subject to operating leases on the Consolidated Balance Sheet as of June 30, 2016. We cease recognition of depreciation expense once an aircraft is classified as held for sale.

As of December 31, 2015, we had 19 aircraft, with a carrying value of \$305.9 million, held for sale and included in flight equipment subject to operating leases on the Consolidated Balance Sheet.

Note 11. Litigation

On April 22, 2015, the Company and certain executive officers and employees of the Company entered into a settlement agreement and release ("the Settlement Agreement") with AIG, ILFC, and ILFC's parent, AerCap Holdings N.V., to settle all ongoing litigation. In the first quarter of 2015, the Company recorded settlement expense of \$72.0 million on the Consolidated Statement of Income related to this settlement. In June 2016, we received \$2.0 million in insurance recoveries related to this matter, a total of \$5.25 million in 2016, which are included in aircraft sales, trading and other revenue in our Consolidated Statement of Income.

Note 12. Subsequent Events

On August 2, 2016, the Company issued and sold \$100.0 million aggregate principal amount of its 3.00% Senior Unsecured Notes, Series A, due 2020 in a private placement that was not registered with the Securities and Exchange Commission. The Company also entered into an uncommitted shelf facility by which the Company may request that certain parties purchase, until August 2, 2020, up to \$200.0 million of additional senior unsecured notes of the Company. The interest rate of such notes will be determined at the time of purchase. The parties to the facility are under no obligation to purchase such notes.

On August 3, 2016, our board of directors approved a quarterly cash dividend of \$0.05 per share on our outstanding common stock. The dividend will be paid on October 6, 2016 to holders of record of our common stock as of September 12, 2016.

ITEM 2.MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion and analysis of our financial condition and results of operations should be read together with our consolidated financial statements and related notes included in Part I, Item 1 of this Quarterly Report on Form 10-Q.

Overview

Air Lease Corporation is a leading aircraft leasing company that was founded by aircraft leasing industry pioneer, Steven F. Udvar-Házy. We are principally engaged in purchasing new commercial jet transport aircraft directly from the manufacturers, such as Boeing and Airbus, and leasing those aircraft to airlines throughout the world with the intention to generate attractive returns on equity. In addition to our leasing activities, we sell aircraft from our operating lease portfolio to third-parties, including other leasing companies, financial services companies and airlines. We also provide fleet management services to investors and owners of aircraft portfolios for a management fee. Our operating performance is driven by the growth of our fleet, the terms of our leases, the interest rates on our debt, and the aggregate amount of our indebtedness, supplemented by the gains from our aircraft sales and trading activities and our management fees.

During the quarter ended June 30, 2016, we purchased and took delivery of 13 aircraft from our new order pipeline, purchased three incremental aircraft and sold 10 aircraft, ending the quarter with a total of 245 aircraft, with a net book value of \$11.7 billion. The weighted average lease term remaining on our operating lease portfolio was 7.0 years and the weighted average age of our fleet was 3.7 years as of June 30, 2016. Our fleet grew by 8.2% based on net book value of \$11.7 billion as of June 30, 2016 compared to \$10.8 billion as of December 31, 2015. In addition, we have a managed fleet of 33 aircraft as of June 30, 2016 and 29 aircraft as of December 31, 2015. We have a globally diversified customer base comprised of 91 airlines in 53 countries. All of the aircraft in our fleet were leased as of June 30, 2016.

During the first six months of 2016, we entered into supplemental agreements and amendments to existing agreements with Airbus and Boeing to purchase nine additional aircraft. From Airbus, we agreed to purchase one A350-900 aircraft and one A321-200. From Boeing, we agreed to purchase six additional 737-8MAX aircraft and one 787-9 aircraft. Deliveries of the aircraft are scheduled to commence in 2017 and continue through 2021. As of June 30, 2016, we had, in the aggregate, 377 aircraft on order with Boeing, Airbus and ATR for delivery through 2023, with an estimate aggregate purchase price of \$29.2 billion, making us one of the world's largest customers for new commercial jet aircraft.

In May 2016, we entered into an agreement to sell 25 Embraer E190 and E175 aircraft to Nordic Aviation Capital ("NAC"). As of June 30, 2016, four aircraft had been transferred to NAC and the remaining 21 aircraft were held for sale. We expect the sale of the 21 aircraft held for sale to be completed by the first quarter of 2017.

In April 2016, we issued \$600.0 million in senior unsecured notes which mature in 2021 and bear interest at a rate of 3.375%. In May 2016, we amended and extended our four-year unsecured revolving credit facility whereby we extended the maturity date from May 5, 2019 to May 5, 2020 and increased the total revolving commitments to approximately \$3.1 billion from approximately \$2.8 billion. The unsecured revolving credit facility remains priced at LIBOR plus 1.25% with a 0.25% facility fee, each subject to adjustment based on our credit rating. We ended the second quarter of 2016 with total debt outstanding, net of discounts and issuance costs, of \$8.4 billion, of which 71.7% was at a fixed rate and 91.2% of which was unsecured, with a composite cost of funds of 3.33%.

Our total revenues for the quarter ended June 30, 2016 increased by 14.9% to \$350.1 million, compared to the quarter ended June 30, 2015. This is comprised of rental revenues on our operating lease portfolio of \$327.3 million and aircraft sales, trading and other revenue of \$22.8 million. During the quarter ended June 30, 2016, we recorded gains of \$16.7 million from the sale of 10 aircraft from our operating lease portfolio, compared to gains of \$7.5 million from the sale of two aircraft from our operating lease portfolio for the quarter ended June 30, 2015.

Our net income for the quarter ended June 30, 2016 was \$91.8 million compared to \$76.1 million for the quarter ended June 30, 2015, an increase of \$15.7 million or 20.6%. Our diluted earnings per share for the quarter ended June 30, 2016 was \$0.84 compared to \$0.70 for the quarter ended June 30, 2015. Our pre-tax profit margin for the three months ended June 30, 2016 was 40.6% compared to 38.8% for the three months ended June 30, 2015.

Table of Contents

Excluding the effects of certain non-cash items, one-time or non-recurring items, such as settlement expense, net of recoveries, that are not expected to continue in the future and certain other items, our adjusted net income before income taxes was \$152.2 million for the three months ended June 30, 2016 compared to \$130.4 million for the three months ended June 30, 2015, an increase of \$21.7 million or 16.7%. Our adjusted margin for the three months ended June 30, 2016 was 43.7% compared to 42.8% for the three months ended June 30, 2015. Adjusted diluted earnings per share before income taxes increased to \$1.39 for the three months ended June 30, 2016, compared to \$1.19 for the three months ended June 30, 2015. Adjusted net income before income taxes, adjusted margin and adjusted diluted earnings per share before income taxes are measures of financial and operational performance that are not defined by GAAP. See Note 1 under the "Results of Operations" table for a discussion of adjusted net income before income taxes, adjusted margin and adjusted diluted earnings per share before income taxes as non-GAAP measures and reconciliation of these measures to net income.

Effective July 1, 2016, Steven F. Udvar-Házy transitioned from his role as Chief Executive Officer to Executive Chairman of our Board of Directors, a full time officer position, and John L. Plueger was appointed as our Chief Executive Officer and President. Messrs. Udvar-Házy and Plueger continue as members of our Board of Directors.

(1) Our Airbus A320/321neo aircraft orders include 30 long-range variants.

(2) We have committed to sell all of our ATR aircraft on order.

Edgar Filing: AIR LEASE CORP - Form 10-Q

Our lease placements are progressing in line with expectations. As of June 30, 2016 and through August 4, 2016, we have entered into contracts for the lease of new aircraft scheduled to be delivered as follows:

Delivery Year	Number of Aircraft	Number Leased	% Leased	
2016(1)	16	14	87.5	%
2017	33	33	100.0	%
2018	44	38	86.4	%
2019	60	38	63.3	%
2020	75	15	20.0	%
Thereafter	149	4	2.7	%
Total	377	142		

(1) Two unplaced ATR turboprop aircraft are expected to transfer to NAC upon delivery to us.

As of June 30, 2016, we had a non-binding commitment to acquire up to five A350-1000 aircraft. Deliveries of these aircraft are scheduled to commence in 2023 and continue through 2024.

Table of Contents

Aircraft industry and sources of revenues

Our revenues are principally derived from operating leases with scheduled and charter airlines. In each of the last three years, we derived more than 95% of our revenues from airlines domiciled outside of the U.S., and we anticipate that most of our revenues in the future will be generated from foreign customers.

Demand for air travel has consistently grown in terms of both passenger traffic and number of aircraft in service. According to the International Air Transport Association (“IATA”), global passenger traffic demand has grown 6.0% in the first five months of 2016 compared to the first five months of 2015. In 2015 and 2014, global passenger traffic demand grew 6.5% and 5.9% respectively, which was in line with the annual growth rate over the past 30 years. The number of aircraft in service has grown steadily and the number of leased aircraft in the global fleet has increased. The long-term outlook for aircraft demand remains robust due to increased passenger traffic and the need to replace aging aircraft.

The success of the commercial airline industry is linked to the strength of global economic development, which may be negatively impacted by macroeconomic conditions, geopolitical and policy risks. Nevertheless, across a variety of global economic conditions, the leasing industry has remained resilient over time. We remain optimistic about the long-term growth prospects for air transportation. We see a growing demand for aircraft leasing in the broader industry and a role for us in helping airlines modernize their fleets to support the growth of the airline industry. However, with the growth in aircraft leasing worldwide, we are witnessing an increase in competition among aircraft lessors.

Liquidity and Capital Resources

Overview

We finance the purchase of aircraft and our business with available cash balances, internally generated funds, including aircraft sales and trading activity, and debt financings. We have structured ourselves to have an investment-grade credit profile and our debt financing strategy has focused on funding our business on an unsecured basis. Unsecured financing provides us with operational flexibility when selling or transitioning aircraft from one airline to another. In addition, we may, to a limited extent, utilize export credit financing in support of our new aircraft deliveries.

We ended the second quarter of 2016 with total debt outstanding, net of discounts and issuance costs, of \$8.4 billion compared to \$7.7 billion as of December 31, 2015. Our unsecured debt increased to \$7.7 billion as of June 30, 2016

from \$6.9 billion as of December 31, 2015. Our unsecured debt as a percentage of total debt increased to 91.2% as of June 30, 2016 from 88.4% as of December 31, 2015.

We increased our cash flows from operations by 25.5% or \$102.7 million, to \$504.8 million for the six months ended June 30, 2016 as compared to \$402.1 million for the six months ended June 30, 2015. Our cash flows from operations increased primarily because of our increased net income. Our cash flow used in investing activities was \$1.2 billion for the six months ended June 30, 2016, which resulted primarily from the purchase of aircraft partially offset by proceeds on the sale of aircraft. Our cash flow provided by financing activities was \$697.1 million for the six months ended June 30, 2016, which resulted primarily from the net borrowings under our unsecured revolving facility and the proceeds from the issuance of \$600.0 million in unsecured notes in April 2016.

We ended the second quarter of 2016 with available liquidity of \$1.6 billion which is comprised of unrestricted cash of \$172.7 million and undrawn balances under our unsecured revolving credit facility of \$1.5 billion. We believe that we have sufficient liquidity to satisfy the operating requirements of our business through the next twelve months.

Our financing plan for the remainder of 2016 is focused on funding the purchase of aircraft and our business with available cash balances, internally generated funds, including aircraft sales and trading activities, and debt financings. Our debt financing plan is focused on continuing to raise unsecured debt in the global bank and investment grade capital markets. In addition, we may utilize, to a limited extent, export credit financing in support of our new aircraft deliveries.

Table of Contents

We are in compliance in all material respects with all covenants or other requirements in our debt agreements. While a ratings downgrade would not result in a default under any of our debt agreements, it could adversely affect our ability to issue debt and obtain new financings, or renew existing financings, and it would increase the cost of such financings. Our liquidity plans are subject to a number of risks and uncertainties, including those described in our Annual Report on Form 10-K for the year ended December 31, 2015.

Debt

Our debt financing was comprised of the following at June 30, 2016 and December 31, 2015 (dollars in thousands):

Senior unsecured notes

As of June 30, 2016, we had \$5.7 billion in senior unsecured notes outstanding. As of December 31, 2015, we had \$5.7 billion in senior unsecured notes outstanding.

On April 11, 2016, the Company issued \$600.0 million in aggregate principal amount of senior unsecured notes due 2021 that bear interest at a rate of 3.375%.

Unsecured revolving credit facility

On May 27, 2016, we amended and extended our four-year unsecured revolving credit facility whereby we extended the maturity date from May 5, 2019 to May 5, 2020 and increased the total revolving commitments to approximately \$3.1 billion from approximately \$2.8 billion. The unsecured revolving credit facility remains priced at LIBOR plus 1.25% with a 0.25% facility fee, each subject to adjustments based on our credit ratings. Lenders hold revolving commitments totaling approximately \$2.8 billion that mature on May 5, 2020, commitments totaling \$290.0 million that mature on May 5, 2019, and commitments totaling \$65.0 million that mature on May 5, 2018.

The total amount outstanding under our unsecured revolving credit facility was \$1.7 billion and \$720.0 million as of June 30, 2016 and December 31, 2015, respectively.

Unsecured term financings

In March 2016, we entered into a \$100.0 million one-year unsecured term facility bearing interest at a rate of LIBOR plus 1.00%.

Table of Contents

The outstanding balance on our unsecured term facilities as of June 30, 2016 and December 31, 2015 was \$215.5 million and \$292.8 million, respectively.

Secured term financing

In June 2016, the availability period for our ability to draw from our warehouse facility expired. The outstanding drawn balance at the end of the availability period was converted to an amortizing, four-year term loan with an interest rate of LIBOR plus 2.00%. As of June 30, 2016, the Company's outstanding balance was \$271.0 million and 12 aircraft with a net book value of \$456.2 million were pledged as collateral. As of December 31, 2015, the Company had borrowed \$372.4 million under our warehouse facility and pledged 14 aircraft as collateral with a net book value of \$577.6 million.

As of June 30, 2016, the outstanding balance on our secured term facilities was \$689.6 million and we had pledged 25 aircraft as collateral with a net book value of \$1.3 billion. The outstanding balance under our secured term facilities as of June 30, 2016 was comprised of \$45.8 million fixed rate debt and \$643.8 million floating rate debt, with interest rates ranging from 4.34% to 5.36% and LIBOR plus 1.15% to LIBOR plus 2.99%, respectively. As of June 30, 2016, the remaining maturities of all secured term facilities ranged from approximately 0.6 years to approximately 7.1 years.

As of December 31, 2015, the outstanding balance on our secured term facilities was \$477.2 million and we had pledged 15 aircraft as collateral with a net book value of \$933.4 million. The outstanding balance under our secured term facilities as of December 31, 2015 was comprised of \$75.1 million fixed rate debt and \$402.1 million floating rate debt, with interest rates ranging from 4.28% to 5.36% and LIBOR plus 1.15% to LIBOR plus 2.99%, respectively. As of December 31, 2015, the remaining maturities of all secured term facilities ranged from approximately 0.1 years to approximately 7.5 years.

Credit ratings

The following table summarizes our current credit ratings:

Rating Agency	Long-term Debt	Corporate Rating	Outlook	Date of Last Ratings Action
Standard and Poor's	BBB–	BBB–	Positive Outlook	October 26, 2015

While a ratings downgrade would not result in a default under any of our debt agreements, it could adversely affect our ability to issue debt and obtain new financings, or renew existing financings, and it would increase the cost of our financings.

(1) Adjusted net income before income taxes (defined as net income excluding the effects of certain non-cash items, one-time or non-recurring items, such as settlement expense, net of recoveries, that are not expected to continue in the future and certain other items), adjusted margin (defined as adjusted net income before income taxes divided by total revenues, excluding insurance recoveries) and adjusted diluted earnings per share before income taxes (defined as adjusted net income before income taxes divided by the weighted average diluted common shares outstanding) are measures of operating performance that are not defined by GAAP and should not be considered

as an alternative to net income, pre-tax profit margin, earnings per share, and diluted earnings per share, or any other performance measures derived in accordance with GAAP. Adjusted net income before income taxes, adjusted margin and adjusted diluted earnings per share before income taxes, are presented as supplemental disclosure because management believes they provide useful information on our earnings from ongoing operations.

Management and our board of directors use adjusted net income before income taxes, adjusted margin and adjusted diluted earnings per share before income taxes to assess our consolidated financial and operating performance. Management believes these measures are helpful in evaluating the operating performance of our ongoing operations and identifying trends in our performance, because they remove the effects of certain non-cash items, one-time or non-recurring items that are not expected to continue in the future and certain other items from our operating results. Adjusted net income before income taxes, adjusted margin and adjusted diluted earnings per share before income taxes, however, should not be considered in isolation or as a substitute for analysis of our operating results or cash flows as reported under GAAP. Adjusted net income before income taxes, adjusted margin and adjusted diluted earnings per share before income taxes do not reflect our cash expenditures or changes in or cash requirements for our working capital needs. In addition, our calculation of

adjusted net income before income taxes, adjusted margin and adjusted diluted earnings per share before income taxes may differ from the adjusted net income before income taxes, adjusted margin and adjusted diluted earnings per share before income taxes or analogous calculations of other companies in our industry, limiting their usefulness as a comparative measure.

Table of Contents

Three months ended June 30, 2016, compared to the three months ended June 30, 2015

Rental revenue

As of June 30, 2016, we owned 245 aircraft at a net book value of \$11.7 billion and recorded \$327.3 million in rental revenue for the quarter then ended, which included overhaul revenue of \$1.9 million. In the prior year, as of June 30, 2015, we owned 223 aircraft at a net book value of \$10.1 billion and recorded \$286.8 million in rental revenue for the quarter ended June 30, 2015, which included overhaul revenue of \$3.2 million. The increase in rental revenue was primarily attributable to the leasing of additional aircraft. Due to the timing of aircraft deliveries, the full impact on rental revenue will be reflected in subsequent periods.

Aircraft sales, trading and other

Aircraft sales, trading and other revenue totaled \$22.8 million for the three months ended June 30, 2016 compared to \$17.9 million for the three months ended June 30, 2015. During the quarter ended June 30, 2016, we recorded \$16.7 million in gains from the sale of 10 aircraft from our operating lease portfolio. In addition, we received insurance proceeds of \$2.0 million during the quarter ended June 30, 2016 in connection with the litigation settlement discussed in Note 11: Litigation, in the Notes to Consolidated Financial Statements included in Part I, Item 1 of this Quarterly Report on Form 10-Q. During the quarter ended June 30, 2015, we recorded \$16.5 million in gains from the sale of 14 aircraft from our operating lease portfolio.

Interest expense

Interest expense totaled \$70.6 million for the three months ended June 30, 2016 compared to \$65.8 million for the three months ended June 30, 2015. The change was primarily due to an increase in our average outstanding debt balances partially offset by a decrease in our composite rate. We expect that our interest expense will increase as our average debt balance outstanding continues to increase. Interest expense will also be impacted by changes in our composite cost of funds.

Depreciation expense

We recorded \$112.1 million in depreciation expense of flight equipment for the three months ended June 30, 2016 compared to \$98.4 million for the three months ended June 30, 2015. The increase in depreciation expense for the

three months ended June 30, 2016, compared to the three months ended June 30, 2015, is attributable to the acquisition of additional aircraft. The full impact on depreciation expense for aircraft acquired and sold during the period will be reflected in subsequent periods.

Selling, general and administrative expenses

We recorded selling, general and administrative expenses of \$20.7 million for the three months ended June 30, 2016 compared to \$17.7 million for the three months ended June 30, 2015. Selling, general and administrative expense as a percentage of total revenue increased to 5.9% for the three months ended June 30, 2016 compared to 5.8% for the three months ended June 30, 2015. As we continue to add new aircraft to our portfolio, we expect over the long-term, selling, general and administrative expense to decrease as a percentage of revenue.

Taxes

The effective tax rate was 35.5% and 35.6% for the three months ended June 30, 2016 and 2015, respectively.

Net income

For the three months ended June 30, 2016, we reported consolidated net income of \$91.8 million, or \$0.84 per diluted share, compared to a consolidated net income of \$76.1 million, or \$0.70 per diluted share, for the three months ended June 30, 2015. The increase in net income for the second quarter of 2016 compared to the second quarter of 2015, was primarily attributable to the lease of additional aircraft.

Table of Contents

Adjusted net income before income taxes

For the three months ended June 30, 2016, we recorded adjusted net income before income taxes of \$152.2 million, or \$1.39 per adjusted diluted share before income taxes, compared to an adjusted net income before income taxes of \$130.4 million, or \$1.19 per adjusted diluted share before income taxes, for the three months ended June 30, 2015. The increase in adjusted net income before income taxes for the second quarter of 2016 compared to the second quarter of 2015, was primarily attributable to the lease of additional aircraft.

Adjusted net income before income taxes and adjusted diluted earnings per share before income taxes are measures of financial and operational performance that are not defined by GAAP. See Note 1 under the "Results of Operations" table above for a discussion of adjusted net income before income taxes and adjusted diluted earnings per share before income taxes as non-GAAP measures and reconciliation of these measures to net income.

Six months ended June 30, 2016, compared to the six months ended June 30, 2015

Rental revenue

As of June 30, 2016, we owned 245 aircraft at a net book value of \$11.7 billion and recorded \$644.5 million in rental revenue for the six months ended, which included overhaul revenue of \$3.5 million. In the prior year, as of June 30, 2015, we owned 223 aircraft at a net book value of \$10.1 billion and recorded \$556.0 million in rental revenue for the six months ended June 30, 2015, which included overhaul revenue of \$10.0 million. The increase in rental revenue was primarily attributable to the leasing of additional aircraft. Due to the timing of aircraft deliveries, the full impact on rental revenue will be reflected in subsequent periods.

Aircraft sales, trading and other

Aircraft sales, trading and other revenue totaled \$49.0 million for the six months ended June 30, 2016 compared to \$27.0 million for the six months ended June 30, 2015. During the six months ended June 30, 2016, we recorded \$37.7 million in gains from the sale of 22 aircraft from our operating lease portfolio. In addition, we received insurance proceeds of \$5.25 million during the six months ended June 30, 2016 in connection with the litigation settlement discussed in Note 11: Litigation, in the Notes to Consolidated Financial Statements included in Part I, Item 1 of this Quarterly Report on Form 10-Q. During the six months ended June 30, 2015, we recorded \$24.0 million in gains from the sale of 16 aircraft from our operating lease portfolio.

Interest expense

Interest expense totaled \$138.7 million for the six months ended June 30, 2016 compared to \$128.9 million for the six months ended June 30, 2015. The change was primarily due to an increase in our average outstanding debt balances partially offset by a decrease in our composite rate. We expect that our interest expense will increase as our average debt balance outstanding continues to increase. Interest expense will also be impacted by changes in our composite cost of funds.

Depreciation expense

We recorded \$220.7 million in depreciation expense of flight equipment for the six months ended June 30, 2016 compared to \$189.4 million for the six months ended June 30, 2015. The increase in depreciation expense for the six months ended June 30, 2016, compared to the six months ended June 30, 2015, is attributable to the acquisition of additional aircraft. The full impact on depreciation expense for aircraft acquired and sold during the period will be reflected in subsequent periods.

Selling, general and administrative expenses

We recorded selling, general and administrative expenses of \$40.1 million for the six months ended June 30, 2016 compared to \$36.8 million for the six months ended June 30, 2015. Selling, general and administrative expense as a percentage of total revenue decreased to 5.9% for the six months ended June 30, 2016 compared to 6.3% for the six months ended June 30, 2015. As we continue to add new aircraft to our portfolio, we expect over the long-term, selling, general and administrative expense to decrease as a percentage of our revenue.

Table of Contents

Settlement expense

During the six months ended June 30, 2015, we recorded settlement expense of \$72.0 million resulting from the Settlement Agreement entered into by and between us, certain of our executive officers and employees, AIG, ILFC, and AerCap Holdings N.V., to settle all ongoing litigation as set forth in Note 11: Litigation in the Notes to Consolidated Financial Statements of this Quarterly Report on Form 10-Q.

Taxes

The effective tax rate was 35.5% and 35.6% for the six months ended June 30, 2016 and 2015, respectively.

Net income

For the six months ended June 30, 2016, we reported consolidated net income of \$184.7 million, or \$1.69 per diluted share, compared to a consolidated net income of \$95.5 million, or \$0.89 per diluted share, for the six months ended June 30, 2015. Net income and diluted earnings per share for the six months ended June 30, 2015 were negatively impacted by the litigation settlement discussed in Note 11: Litigation, in the Notes to Consolidated Financial Statements included in Part I, Item 1 of this Quarterly Report on Form 10-Q.

Adjusted net income before income taxes

For the six months ended June 30, 2016, we recorded adjusted net income before income taxes of \$303.3 million, or \$2.77 per adjusted diluted share before income taxes, compared to an adjusted net income before income taxes of \$243.2 million, or \$2.22 per adjusted diluted share before income taxes, for the six months ended June 30, 2015. The increase in adjusted net income before income taxes for the second quarter of 2016 compared to the second quarter of 2015, was primarily attributable to the lease of additional aircraft.

Adjusted net income before income taxes and adjusted diluted earnings per share before income taxes are measures of financial and operational performance that are not defined by GAAP. See Note 1 under the "Results of Operations" table above for a discussion of adjusted net income before income taxes and adjusted diluted earnings per share before income taxes as non-GAAP measures and reconciliation of these measures to net income.

Off-Balance Sheet Arrangements

We have not established any unconsolidated entities for the purpose of facilitating off-balance sheet arrangements or for other contractually narrow or limited purposes. We have, however, from time to time established subsidiaries and created partnership arrangements or trusts for the purpose of leasing aircraft or facilitating borrowing arrangements, all of which are consolidated.

Critical Accounting Policies

Our critical accounting policies reflecting management's estimates and judgments are described in our Annual Report on Form 10-K for the year ended December 31, 2015. We have reviewed recently adopted accounting pronouncements and determined that the adoption of such pronouncements is not expected to have a material impact, if any, on its consolidated financial statements. Accordingly, there have been no changes to critical accounting policies in the six months ended June 30, 2016.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Market risk represents the risk of changes in value of a financial instrument, caused by fluctuations in interest rates and foreign exchange rates. Changes in these factors could cause fluctuations in our results of operations and cash flows. We are exposed to the market risks described below.

Interest Rate Risk

The nature of our business exposes us to market risk arising from changes in interest rates. Changes, both increases and decreases, in our cost of borrowing, as reflected in our composite interest rate, directly impact our net income. Our lease rental stream is generally fixed over the life of our leases, whereas we have used floating-rate debt to finance a portion of our aircraft acquisitions from time to time. We had \$2.4 billion and \$1.7 billion in floating-rate debt outstanding on each of June 30, 2016 and December 31, 2015, respectively. If interest rates increase, we would be obligated to make higher interest payments to our lenders. As we incur significant fixed-rate debt in the future, increased interest rates prevailing in the market at the time of the incurrence of such debt will increase our interest expense. If the composite rate on our floating-rate debt were to increase by 1.0%, we would expect to incur additional interest expense on our existing indebtedness of approximately \$24.0 million and \$16.6 million as of June 30, 2016 and December 31, 2015, respectively, on an annualized basis, which would put downward pressure on our operating margins. Further, as of June 30, 2016, 71.7% of our total debt incurred interest at a fixed rate.

We also have interest rate risk on our forward lease placements. This is caused by us setting a fixed lease rate in advance of the delivery date of an aircraft. The delivery date is when a majority of the financing for an aircraft is arranged. We partially mitigate the risk of an increasing interest rate environment between the lease signing date and the delivery date of the aircraft by having interest rate adjusters in a majority of our forward lease contracts which would adjust the final lease rate upward if certain benchmark interest rates are higher at the time of delivery of the aircraft than at the lease signing date.

Foreign Exchange Rate Risk

We attempt to minimize currency and exchange risks by entering into aircraft purchase agreements and a majority of lease agreements and debt agreements with U.S. dollars as the designated payment currency. Thus, most of our revenue and expenses are denominated in U.S. dollars. As of June 30, 2016 and December 31, 2015, 1.1% and 0.8%, respectively, of our lease revenues were denominated in Euros. As our principal currency is the U.S. dollar, changes in the U.S. dollar as compared to other major currencies should not have a significant impact on our future operating results.

ITEM 4. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

We maintain disclosure controls and procedures that are designed to ensure that information required to be disclosed in our filings under the Securities Exchange Act of 1934, as amended, is recorded, processed, summarized and reported within the periods specified in the rules and forms of the Securities and Exchange Commission (“SEC”), and such information is accumulated and communicated to our management, including the Chief Executive Officer and Chief Financial Officer (collectively, the “Certifying Officers”), as appropriate, to allow timely decisions regarding required disclosure. Our management, including the Certifying Officers, recognizes that any set of controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives.

We have evaluated, under the supervision and with the participation of management, including the Certifying Officers, the effectiveness of our disclosure controls and procedures, as defined in Rules 13a-15(e) and 15d-15(e) of the Securities Exchange Act of 1934, as amended, as of June 30, 2016. Based on that evaluation, our Certifying Officers have concluded that our disclosure controls and procedures were effective at June 30, 2016.

Changes in Internal Control Over Financial Reporting

There have been no changes in our internal control over financial reporting during the quarter ended June 30, 2016 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II—OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

From time to time, we may be involved in litigation and claims incidental to the conduct of our business in the ordinary course. Our industry is also subject to scrutiny by government regulators, which could result in enforcement proceedings or litigation related to regulatory compliance matters. We are not presently a party to any enforcement proceedings or litigation related to regulatory compliance matters or material legal proceedings. We maintain

insurance policies in amounts and with the coverage and deductibles we believe are adequate, based on the nature and risks of our business, historical experience and industry standards.

ITEM 1A. RISK FACTORS

Other than as set forth below, there have been no material changes in our risk factors from those discussed under “Part I—Item 1A. Risk Factors,” in our Annual Report on Form 10-K for the year ending December 31, 2015.

Economic conditions and regulatory changes leading up to and following the United Kingdom’s likely exit from the European Union could have an adverse effect on our business and results of operations.

Following a referendum in June 2016 in which voters in the United Kingdom, or U.K., approved an exit from the European Union, or E.U., it is expected that the U.K. government will initiate a process, often referred to as Brexit, to leave the E.U. and will begin negotiating the terms of the U.K.’s future relationship with the E.U. The effects of Brexit will likely depend on the agreements that the U.K. is able to make to retain access to E.U. markets, either during a transitional period or more permanently. We lease aircraft to airlines in the E.U., including the U.K. We and the aviation industry face uncertainty regarding the impact of Brexit. Adverse consequences, such as instability in financial markets, deterioration in economic conditions, volatility in currency exchange rates or adverse changes in regulation of the aviation industry or bilateral agreements governing air travel, could negatively affect our financial condition, cash flow and results of operations. These impacts may include increased costs of financing; downward pressure on demand for our aircraft and reduced market lease rates and lease margins; and a higher incidence, in the U.K. in particular and the E.U. generally, of lessee defaults or other events resulting in our lessees’ failing to perform under our lease agreements. Any of the above effects of Brexit, and others that we may not be able to anticipate, could negatively impact our financial condition, cash flow and results of operations.
