### **ITEM 1. DESCRIPTION OF BUSINESS**

#### **Overview**

#### **OVERVIEW OF DATA STORAGE CORPORATION & INDUSTRY:**

Data Storage Corporation (“DSC” or “the Company”) is focused on Infrastructure, Disaster Recovery and Analytics. Our mission: Protecting our client’s data, ensuring business continuity, assisting in their compliance requirements and giving our clients better control over their information. We continue to stay on top of this dynamic industry with new solutions and services. Today, the Company owns intellectual property with our email archival and data analysis software, Message Logic. We provide Recovery Clouds for Managed Service Providers, so that these companies can enter the industry of providing Disaster Recovery and Business Continuity solutions at a lower entry point. Our IBM solutions continue to grow with our newly formed joint venture, Secure Infrastructure and Services LLC, leading the way for Infrastructure as a Service on IBM’s Power i systems.

DSC, is a 14 year veteran in cloud storage and cloud computing providing data protection, disaster recovery, business continuity and compliance solutions that assist organizations in protecting their data, minimizing downtime and ensuring regulatory compliance. Serving the rapidly emerging business continuity market, DSC’s clients save time and money, gain more control and better access to data and enable a high level of security for that data. Solutions include: Infrastructure-as-a-Service, data backup, recovery and restore, high availability data replication services; email archive and compliance solutions for e-discovery; continuous data protection; data de-duplication; and virtualized system recovery. DSC has forged relationships with leading organizations.

Headquartered in Garden City, NY, DSC offers its solutions and services to businesses within the healthcare, banking and finance, distribution services, manufacturing, construction, education, and government industries.

#### **Our Continuing Strategy**

DSC derives revenues from long-term subscription and professional services contracts related to the implementation of solutions that provide protection of critical computerized data. In 2009, revenues consisted primarily of offsite data

## Edgar Filing: Data Storage Corp - Form 10-K

backup, de-duplication, continuous data protection, Cloud Disaster Recovery solutions and Electronic Medical Records, protecting information for our clients. In 2010, we expanded our solutions based on the asset acquisition of SafeData. In 2013, we continued to assimilate organizations, expanded our technology, as well as our technical group and positioned the new organization for growth. In October 2012, we purchased the software and assets of Message Logic. We deliver our solutions over highly reliable, redundant and secure fiber optic networks with separate and diverse routes to the internet.

DSC is positioned to leverage our infrastructure, data center, equipment capacity and leadership team to grow revenue to significant levels. Positioned for organic growth, our strategy will be to grow through acquisition of synergistic solutions. DSC believes opportunities exist to acquire service providers to enhance our products and services portfolio, increase our distribution channels, expand our management and increase our cash flow.

Our objective with acquisitions is to reduce costs through economies of scale while increasing market share and consolidating efforts. We believe that through a strategy of partnership program, as well as acquisition of synergistic service providers we can create significant value.

We believe that the opportunity exists today to acquire and consolidate synergetic companies in this fragmented industry. This strategy will enable DSC to create an international presence and a recognizable premiere brand. The roll up of these technical consulting companies and system integrators will also form a powerful distribution channel for both our current and future service offerings.

## **DESCRIPTION OF SERVICES AND SOLUTIONS**

DSC's core competencies are the following: Email Archival and Data Analysis, Data Vaulting, Virtual Disaster Recovery and High Availability.

### ***BUSINESS CONTINUITY SOLUTION: The Recovery Cloud:***

DSC offers a fully automated service designed to reduce the overall costs associated with backup and recovery of application and file servers that enables organizations to centralize and streamline their data protection process. Business-critical data can be backed up any time while servers are up and running.

The essence of data backup is simply the scheduled movement of "point-in-time" snapshots of data across a network to a remote location. DSC's disk-to-disk backup and recovery solution is reliable and easy-to-use. As part of this service, DSC offers Continuous Data Protection ("CDP"), delta block processing, data de-duplication and large volume protection.

*Significant advantages over traditional backup software:*

- immediate off-site backup
- reduced backup windows
- elimination of tape management issues
- minimized costs associated with distributed backups
- elimination of human intervention
- encryption of all backed up data
- optimized bandwidth

## **BENEFITS AND FEATURES OF THE RECOVERY CLOUD:**

### **Data Archiving – Lifecycle Management**

Backup data must be managed throughout its life cycle to provide the best data protection, meet compliance regulations and to improve recovery time objectives (“RTO”). DSC offers policy-based file archiving and manages archiving and restoration of data from backup sessions, reducing the cost of inactive files on-line. DSC creates restorable point-in-time copies of backup sets for historical reference to meet compliance objectives and creates Certificates of Destruction. All of an enterprise's data can be placed into one of two categories; Critical information which is needed for day-to-day operations and resides in the system's primary storage for fast access; Important information is the historical, legal and regulatory information that can safely be archived to secondary storage, lower cost disk or tapes stored offsite.

### **Continuous Data Protection (“CDP”)**

*What if a database is corrupted in the middle of the workday? As data continually mounts in today's fast paced business environment, organizations need to protect their systems on an ongoing basis, or risk losing mission-critical data, information, and transactions, as well as associated business revenue. CDP solutions employ sophisticated I/O, CPU, and network throttling to achieve efficiency and reliability. Moreover, to protect against connectivity failures and interruptions, CDP features an auto resume mechanism that sustains replication and adapts according to the environment to achieve optimal and predictable performance.*

Our technology will identify and propagate only that sector of data to the disaster recovery site, effectively reducing bandwidth and storage consumption. CDP also employs data compression and encryption to maximize network bandwidth utilization and ensure end-to-end security between the primary and DR site.

## **Microsoft Exchange**

Ensure business-critical e-mail data is protected against application or hardware-based corruption or loss, user error, or a natural disaster with our solution. Designed with ease of use in mind, our solution provides Exchange Server 2000/2003/2007 complete protection down to the individual mailbox or even an individual mail message.

*BUSINESS CONTINUITY SOLUTION: Disaster Recovery WITH STAND BY SERVERS:* A data recovery solution leveraging electronic vaulting technology and standby servers for businesses with recovery time objectives of 10 hours or less operating on Intel or IBM system i platforms.

## **Disaster Recovery for Windows and IBM i Series**

Organizations may not require real-time recovery. For those with recovery time objectives of 10 hours or less, DSC's DR Standby Server subscription-based service is a viable option requiring little or no initial capital expenditure.

Available for the IBM System iSeries, UNIX, AIX and Windows operating systems. Instantly transfers data off-site to one of DSC's secure data centers. All data is encrypted prior to transmission and remains encrypted "in-flight" and "at rest" to ensure protection and to meet today's compliance standards.

*Benefits of DR include:*

- fast recovery times (in hours, not days)
- no tapes to get lost or damaged
- virtual recovery that fully protects your server investment
- eliminate data recovery burden on IT resources

## **High Availability / Replication for both Windows and IBM I Series**

Our cloud-based HA services provide businesses with cost-effective access to best-in-class replication technologies for organizations of all sizes, operating in Windows, IBM iSeries/AS400, MS Windows, UNIX, Linux and AIX environments. For those companies that have recovery time objectives of 1 hour or less, DSC's HA solution meets the

high availability demands of their business. DSC's HA solution is a subscription-based high availability offering. For a monthly subscription fee and long-term contract, DSC creates and maintains a mirror of its clients' mission-critical systems and data at a secure off-site data center ensuring their business is "switch ready." During either planned or unplanned downtime, DSC's HA solution ensures the business will continue to operate, by providing an essential Infrastructure-as-a-service (IaaS), switchable "mirror" of a client's data and applications.

In the event of an outage, the DSC system becomes the client's production system. When the client's production system is again operational, the DSC server updates the client's system with any new data. When downtime is planned, the customer can switch to the DSC server and run its production applications.

*Benefits of DSC's HA include:*

- data and application availability in one hour or less
- cost-effective
- easy to implement and manage
- reliable backup and recovery

**Cloud Based IBM Power i IaaS:**

A fully managed service, offering "capacity on demand" for IBM Power Systems (AS400/IBM i, AIX) and Windows based applications. This infrastructure as a service is secure and reliable solution for enterprises. IBM iSeries infrastructure is provided through our venture with Joint Venture called Secure Infrastructure and Services, LLC. IBM iSeries servers turned up in hours instead of weeks and on demand. Distributed through a partnership network.

## **Message Logic**

*Email Archival & Analytics\**: Services designed to keep email and message content safe, secure and accessible with powerful, cost-efficient email and IM archiving, monitoring and retrieval that is flexible, scalable and dependable.

Our MLArchiver has taken email archiving to a new level by combining archiving with advanced analytics. We deliver our technology as the only certified VMware Ready software, and cloud enabled software with partners such as Amazon Web Services, Windows Azure and NASDAQ OMX. We turn all emails into searchable records to meet regulatory and legal search needs and work with companies in all industries including K-12, local government, finance and healthcare which have strict regulatory requirements to archive and produce emails when requested. Our combined analytic engine also identifies potential problems and concerns for management and can alert them and the sender of a possible issue. This has become a major advantage for businesses who deal with personal and confidential information such as social security numbers or for dealing with HR concerns. Emails are introduced as evidence in nearly all court cases and are very often cited in the media. Having a system to manage emails as records with integrity has become a critical function for all organizations.

## **Benefit of MLArchiver**

### **Ease of Use, Affordable**

Intuitive design for ease of use; yet the features are advanced and powerful.

### **Records Management**

Good record keeping is essential for any organization. MLArchiver captures all emails; full-text indexes the message and attachment, applies retention policies and turns emails into non-alterable records.

### **Regulatory & Litigation Process**

MLArchiver make responding to regulatory or litigation search requests quick and easy. We meet the Federal Rules of Civil Procedure process for legal discovery and have advanced searching, dynamic folders, tagging, legal hold management and exporting options.

## **Compliant**

Nearly all industries have one or more regulations which require them to treat emails as corporate records and produce them when requested. ML is a fully compliant solution.

## **Analytics**

50 custom and standard analytics to let management “Know what is being archived” with real-time alerts. Identify and report on business critical information.

## **Employee Access & Email Storage Cost**

Emails older than 6 months are infrequently accessed. MLArchiver provides tools for employee access via web interface or Outlook. Archive storage is lower cost storage for cost reductions.

## COMPETITION

Many of the companies we compete with have substantially greater name recognition and financial resources than we have, which may limit our opportunity within the market place from a customer standpoint as well as from an acquisition standpoint.

### **High Availability and Virtual Disaster Recovery Services**

The following vendors compete with DSC within the HA and virtual DR services sector: HP Services, IBM Business Continuity and Recovery Services, and SunGard. Recently these companies have expanded into data vaulting to target smaller clients.

### **Email Archival and Data Analytics:**

Email Archival and Data Analytics:

Today there are fewer than 10 competitors in North America. Message Logic offers Software, a cloud managed service and an appliance as options for our customers:

Software competitors: GFI, Mimecast, Symantec Enterprise Vault

Cloud Managed Service: Sonian, Smarsh, Global Relay

Appliance: Barracuda Networks, ArcMail, Jatheon

### **Data Vaulting**

**Information Management and Protection Vendors:** Vendors include EMC, i365, Symantec and CommVault.

**Specialized Vendors:** Venyu, which focuses on SMBs in the US.

**Technology Providers / Service providers.** OEM-focused vendors may or may not be service providers, but they have access to a large business based on licensing their technology to other vendors. This includes vendors such as CommVault and i365. Symantec acquired online backup provider SwapDrive. i365, A Seagate Company, acquired EVault in January 2007, renaming it i365. Connected Backup has an established enterprise customer base. IBM Global Technology Services acquired Arsenal Digital Solutions in 2007, adding a range of Online backup services to its portfolio and rebranding it IBM Information Protection Services to Managed Data Vault. Venyu offers two online backup and recovery services: AmeriVault-AV and AmeriVault-EV. Its services protect PCs and servers, and while it focuses mostly on SMBs, it can also support Enterprises.

## **CORPORATE HISTORY**

To date, DSC consummated (i) a share exchange with Euro Trend Inc. in October 20, 2008, (ii) an asset acquisition of SafeData, LLC (“SafeData”) in June 2010, and (iii) an asset acquisition of Message Logic LLC, (“Message Logic”) in October 2012.

On October 20, 2008 we completed a share exchange agreement whereby we acquired all of the outstanding capital stock and ownership interests of DSC. In exchange we issued 13,357,143 shares of our common stock to the shareholders. This transaction was accounted for as a reverse merger for accounting purposes. Accordingly, DSC, the accounting acquirer, is regarded as the predecessor entity.

On June 17, 2010 we entered into an asset purchase agreement with SafeData, a provider of Cloud Storage and Cloud Computing mostly to IBM’s mid-range equipment users, under which we acquired all right, title and interest in the end user customer base of SafeData and all related current and fixed assets and contracts including the transfer of all of SafeData’s current liabilities arising out of the business or the assets acquired. Pursuant to the Agreement, we paid an aggregate purchase price equal to \$3,000,000. Giving effect to certain holdback and contingency clauses as defined in the agreement, we paid \$1,229,952 in cash and \$850,000 in shares of our common stock as well as assumption of SafeData accounts payable and receivables. In June of 2011, we made a final payment net of holdback of \$482,308 and we issued the remaining balance of \$150,000 in Common Stock. The final settlement resulted in a gain of \$176,497.

On October 31, 2012, DSC purchased the assets of Message Logic including email compliance software all source code to Message Logic’s email archival and data analytics software and select fixed assets. In exchange for the assets, at closing, DSC gave 725,960 shares of its common stock and assumed liabilities of \$102,109. The contingent purchase price provides for up to 769,290 additional shares of DSC common stock and \$800,000. This contingent purchase price is based upon the achievement of certain metrics at the end of the 7<sup>th</sup>, 13<sup>th</sup>, 19<sup>th</sup>, and 25<sup>th</sup> month as defined in the asset purchase agreement dated October 31, 2012.

In November 2012, DSC entered into a joint venture partnership with an IBM partner, ABC Services Inc. to provide an IBM Infrastructure as a service (“IaaS”) offering, marketed under the name Secure Infrastructure & Services, a New York limited liability company. The Company is required to convert ABC Services Inc.’s interest in the joint venture into shares of common stock of the Company upon the Company (i) raising \$10 million in financing through a private placement or secondary offering of stock and (ii) the market capitalization of the Company exceeding or equaling \$25 million. The value of the membership interest that is converted shall be equal to 200% of the Company’s prior fiscal year GAAP gross revenue, net of sales tax, plus the fair market value of additional assets, as determined by an independent appraiser. The Company shall be required to pay off all amounts owed to the joint venture for services prior to the conversion.

In November 2012, DSC also entered into agreements with Amazon AWS to offer its Message Logic email archiving software through the AWS marketplace and to offer stand-by-server and storage solutions.

In December 2012, DSC was accepted as an IBM Service provider for cloud solutions.

The result of these acquisitions, joint venture and strategic alliances combined with DSC’s legacy disaster recovery and business continuity solutions positions DSC as a potential leader in business to business cloud storage and cloud computing sector specializing in email compliance Software as a Service (SaaS), Windows Infrastructure as a Service (IaaS) and IBM iSeries Platform as a Service (PaaS). DSC will continue to provide our solutions and continue our planned industry consolidations.

### **COMPANY OVERVIEW**

Data Storage Corporation (“DSC” or “the Company”) is focused on Infrastructure, Disaster Recovery and Analytics. Our mission: Protecting our client’s data, ensuring business continuity, assisting in their compliance requirements and giving our clients better control over their information. We continue to stay on top of this dynamic industry with new solutions and services. Today, the Company owns intellectual property with our email archival and data analysis software, Message Logic. We provide Recovery Clouds for Managed Service Providers, so that these companies can enter the industry of providing Disaster Recovery and Business Continuity solutions at a lower entry point. Our IBM solutions continue to grow with our newly formed joint venture, Secure Infrastructure and Services LLC, leading the way for Infrastructure as a Service on IBM’s Power i systems.

DSC is a 14 year veteran in cloud storage and cloud computing providing data protection, disaster recovery, business continuity and compliance solutions that assist organizations in protecting their data, minimizing downtime and ensuring regulatory compliance. Serving the rapidly emerging business continuity market, DSC’s clients save time and money, gain more control and better access to data and enable a high level of security for that data. Solutions include: Infrastructure-as-a-Service, data backup, recovery and restore, high availability data replication services; email archive and compliance solutions for e-discovery; continuous data protection; data de-duplication; and virtualized system recovery. DSC has forged relationships with leading organizations.

Headquartered in Garden City, NY, DSC offers its solutions and services to businesses within the healthcare, banking and finance, distribution services, manufacturing, construction, education, and government industries.

DSC derives its revenues from the sale and subscription of services and solutions DSC has equipment in several technical centers: New York Metro, Boston, Chicago and New Jersey.

DSC services clients from its staffed technical offices in New York and Rhode Island, which consist of modern offices and a technology suite adapted to meet the needs of a technology based business. DSC’s mission is to provide a high level of service to organizations that need to ensure that their data is intact and available upon demand.

DSC varies its use of resource, technology and work processes to meet the changing opportunities and challenges presented by the market and the internal customer requirements.

## RESULTS OF OPERATIONS

### Year ended December 31, 2014 as compared to December 31, 2013

*Net Sales.* Net sales for the year ended December 31, 2014 were \$4,012,671 a decrease of \$563,627 or 12.39%, compared to \$4,576,298 for the year ended December 31, 2013. The decrease is attributable to the assignment of certain customers to the joint venture during 2013-2014.

*Cost of Sales.* For the year ended December 31, 2014, cost of sales were \$2,182,823 a decrease of \$401,338 from \$2,584,161 for the year ended December 31, 2013. The decrease in cost of sales is the result of lower installation costs for non-recurring sales and lower outsourcing of storage due to the Company's increased internal storage capacity. The Company's gross margin is 45.6% for the year ended December 31, 2014 as compared to 45.53% for the year ended December 31, 2013.

*Operating Expenses.* For the year ended December 31, 2014, operating expenses were \$2,326,217 a decrease of \$476,744 as compared to \$2,802,961 for the year ended December 31, 2013. The majority of the decrease in operating expenses for the year ended December 31, 2014 is a result of decreased salaries. Sales salaries decreased \$190,369 to \$224,908 for the year ended December 31, 2014, as compared to \$415,277 for the year ended December 31, 2013. Executive salaries expense decreased \$146,525 to \$257,896, as compared to \$404,421 for the year ended December 31, 2014 and 2013. Employee sales commission expense decreased \$51,004 to \$19,797, as compared to \$70,801 for the year ended December 31, 2014 and 2013. This is a result of more new sales being generated by outside distribution channels such as independent contractors, called channel partners, who are paid by commission as opposed to new sales by salaried employees.

*Other Income (Expense)* Amortization of debt discount for the year ended December 31, 2014 decreased \$8,132 to \$13,785 from \$21,917. Gain on equity method investment increased \$48,149 to \$15,699 for the year ended December 31, 2014 from a loss of (\$32,450) for the year ended December 31, 2013. Interest expense and related debt discounts for the year ended December 31, 2014 increased \$46,652 to \$166,235 from \$119,583 for the year ended December 31, 2013.

*Net Loss.* Net loss for the year ended December 31, 2014 was (\$660,247) a decrease of \$324,512 as compared to net loss of (\$984,759) for the year ended December 31, 2013. DSC through consolidation of their acquisition of Safe Data is complete with the assimilation and as a result DSC's net losses have improved.

## **LIQUIDITY AND CAPITAL RESOURCES**

The consolidated financial statements have been prepared using generally accepted accounting principles in the United States of America (“GAAP”) applicable for a going concern, which assumes that DSC will realize its assets and discharge its liabilities in the ordinary course of business. DSC has been funded by Mr. Charles M Piluso, DSC’s Chief Executive Officer and largest shareholder combined with private placements of DSC’s common stock. DSC has been successful in raising money as needed. Further it is the intention of management to continue to raise money through stock issuances and to fund DSC on an as needed basis. In 2014, we intend to continue to work to increase our presence in the IBM marketplace utilizing our increased technical expertise, capacity for data storage and managed services with our asset acquisition of SafeData.

To the extent we are successful in growing our business, identifying potential acquisition targets and negotiating the terms of such acquisition, and the purchase price includes a cash component, we plan to use our working capital and the proceeds of any financing to finance such acquisition costs. Our opinion concerning our liquidity is based on current information. If this information proves to be inaccurate, or if circumstances change, we may not be able to meet our liquidity needs.

During the year ended December 31, 2014 DSC's cash increased \$22,773 to \$110,448 from \$87,675 at December 31, 2013. Net cash of (\$132,799) was provided by DSC's operating activities and cash of \$0 was used in investing activities, primarily funding the investment in the joint venture. Net cash of \$155,572 was provided by financing activities. This is the result of a \$263,887 in advances from a company shareholder and \$37,753 due to related party offset by \$139,864 in capital lease payments and \$6,204 in contingent consideration.

DSC's working capital deficit was \$2,551,389 at December 31, 2014, decreasing \$575,858 from \$3,127,247 at December 31, 2013. The decrease is primarily due to the refinance of short-term lease obligations.

### **Share Based Compensation**

DSC follows the requirements of FASB ASC 718-10-10, *Share Based Payments* with regard to stock-based compensation issued to employees. DSC has agreements and arrangements that call for stock to be awarded to the employees and consultants at various times as compensation and periodic bonuses. The expense for this stock based compensation is equal to the fair value of the stock price on the day the stock was awarded multiplied by the number of shares awarded.

The valuation methodology used to determine the fair value of the options issued during the year was the Black-Scholes option-pricing model. The Black-Scholes model requires the use of a number of assumptions including volatility of the stock price, the average risk-free interest rate, and the weighted average expected life of the options. The risk-free interest rate assumption is based upon observed interest rates on zero coupon U.S. Treasury bonds whose maturity period is appropriate for the term of the warrants and is calculated by using the average daily historical stock prices through the day preceding the grant date.

Estimated volatility is a measure of the amount by which DSC's stock price is expected to fluctuate each year during the expected life of the award. DSC's estimated volatility is an average of the historical volatility of peer entities whose stock prices were publicly available. DSC's calculation of estimated volatility is based on historical stock prices of these peer entities over a period equal to the expected life of the awards. DSC uses the historical volatility of peer entities due to the lack of sufficient historical data of its stock price.

### **Off-Balance Sheet Arrangements**

DSC does not have any off-balance sheet arrangements, financings, or other relationships with unconsolidated entities or other persons, also known as "special purpose entities" ("SPE"s).

## **CRITICAL ACCOUNTING POLICIES**

DSC's financial statements and related public financial information are based on the application of GAAP. GAAP requires the use of estimates; assumptions, judgments and subjective interpretations of accounting principles that have an impact on the assets, liabilities, revenue, and expense amounts reported. These estimates can also affect supplemental information contained in our external disclosures including information regarding contingencies, risk and financial condition. We believe our use of estimates and underlying accounting assumptions adhere to GAAP and are consistently and conservatively applied. We base our estimates on historical experience and on various other assumptions that we believe to be reasonable under the circumstances. Actual results may differ materially from these estimates under different assumptions or conditions. We continue to monitor significant estimates made during the preparation of our financial statements.

Our significant accounting policies are summarized in Note 2 of our financial statements. While all these significant accounting policies impact our financial condition and results of operations, we view certain of these policies as critical. Policies determined to be critical are those policies that have the most significant impact on our financial statements and require management to use a greater degree of judgment and estimates. Actual results may differ from those estimates. Our management believes that given current facts and circumstances, it is unlikely that applying any other reasonable judgments or estimate methodologies would cause effect on our consolidated results of operations, financial position or liquidity for the periods presented in this report.

## **RECENTLY ISSUED AND NEWLY ADOPTED ACCOUNTING PRONOUNCEMENTS**

In May 2014, FASB issued Accounting Standards Update (ASU) No. 2014-09, Revenue from Contracts with Customers. The revenue recognition standard affects all entities that have contracts with customers, except for certain items. The new revenue recognition standard eliminates the transaction and industry-specific revenue recognition guidance under current GAAP and replaces it with a principle-based approach for determining revenue recognition. Public entities are required to adopt the revenue recognition standard for reporting periods beginning after December 15, 2016, and interim and annual reporting periods thereafter. Early adoption is not permitted for public entities. The Company has reviewed the applicable ASU and has not, at the current time, quantified the effects of this pronouncement, however it believes that there will be no material effect on the consolidated financial statements.

In June 2014, FASB issued Accounting Standards Update (ASU) No. 2014-12 Compensation - Stock Compensation (Topic 718), Accounting for Share-Based Payments When the Terms of an Award Provide That a Performance Target Could Be Achieved after the Requisite Service Period. A performance target in a share-based payment that affects vesting and that could be achieved after the requisite service period should be accounted for as a performance condition under Accounting Standards Codification (ASC) 718, Compensation - Stock Compensation. As a result, the target is not reflected in the estimation of the award's grant date fair value. Compensation cost would be recognized over the required service period, if it is probable that the performance condition will be achieved. The guidance is

effective for annual periods beginning after December 15, 2015 and interim periods within those annual periods. Early adoption is permitted. Management has reviewed the ASU and believes that they currently account for these awards in a manner consistent with the new guidance, therefore there is no anticipation of any effect to the consolidated financial statements.

We have reviewed all FASB issued Accounting Standards Update (“ASU”) accounting pronouncements and interpretations thereof that have effectiveness dates during the periods reported and in future periods. The Company has carefully considered the new pronouncements that alter previous generally accepted accounting principles and does not believe that any new or modified principles will have a material impact on the corporation’s reported financial position or operations in the near term. The applicability of any standard is subject to the formal review of our financial management and certain standards are under consideration.

Management does not believe there would have been a material effect on the accompanying financial statements had any other recently issued, but not yet effective, accounting standards been adopted in the current period.

#### **OFF-BALANCE SHEET TRANSACTIONS**

DSC has no off-balance sheet arrangements.

#### **ITEM 7A. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK**

##### **Interest Rate Sensitivity**

Interest due on the Company's loans is based upon the applicable stated fixed contractual rate with the lender. Interest earned on DSC bank accounts is linked to the applicable base interest rate. For the years ended December 31, 2014 and 2013, DSC had interest expense, net of interest income, of \$166,235 and \$119,584, respectively. DSC believes that its results of operations are not materially affected by changes in interest rates.

DSC's exposure to market risk is confined to its cash and cash equivalents, all of which have maturities of less than three months and bear and pay interest in U.S. dollars. Since DSC invests in highly liquid, relatively low yield investments, we do not believe interest rate changes would have a material impact on us.

DSC does not hold any derivative instruments and does not engage in any hedging activities.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and  
Stockholders of Data Storage Corporation

We have audited the accompanying consolidated balance sheets of Data Storage Corporation as of December 31, 2014 and 2013, and the related consolidated statements of operations, stockholders' deficit, and cash flows for each of the years then ended. Data Storage Corporation's management is responsible for these consolidated financial statements. Our responsibility is to express an opinion on these consolidated financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall consolidated financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the consolidated financial position of Data Storage Corporation as of December 31, 2014 and 2013, and the consolidated results of its operations and its cash flows for each of the years then ended in conformity with accounting principles generally accepted in the United States of America.

**DATA STORAGE CORPORATION AND SUBSIDIARY**

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

**YEARS ENDED DECEMBER 31, 2014 AND 2013**

**Note 1 - Basis of Presentation, Organization and Other Matters**

Headquartered in Garden City, N.Y., Data Storage Corporation (“DSC” or the “Company”) offers its solutions to businesses within the healthcare, banking and finance, distribution services, manufacturing, construction, education, and government industries.

DSC derives revenues from long term subscription services and professional services related to implementation of cloud based services providing businesses in the education, government and healthcare industries protection of critical data, as well as, compliance for the clients email. In 2009 revenues consisted primarily of offsite data backup, de-duplication, continuous data protection and Cloud Disaster Recovery solutions, protecting information for our clients. In 2010 DSC expanded its solutions based on the asset acquisition of SafeData. In 2012 DSC continued to assimilate organizations, expanded its technology as well as technical group and positioned the new organization for growth. In October 2012 DSC purchased the email archive and data analytics software and assets of Message Logic. DSC has equipment for cloud storage and cloud computing in our data centers in Illinois, Massachusetts, New Jersey, and New York. DSC delivers its solutions over highly reliable, redundant and secure fiber optic networks with separate and diverse routes to the Internet. The network and geographical diversity is important to clients seeking storage hosting and disaster recovery solutions, ensuring protection of data and continuity of business in the case of a network interruption.

*Liquidity*

The consolidated financial statements have been prepared using accounting principles generally accepted in the United States of America applicable for a going concern, which assumes that the Company will realize its assets and discharge its liabilities in the ordinary course of business. For the year ended December 31, 2014, the Company has generated revenues of \$4,012,671 but has incurred a net loss of \$660,247. Its ability to continue as a going concern is dependent upon achieving sales growth, reduction of operation expenses and ability of the Company to obtain the necessary financing to meet its obligations and pay its liabilities arising from normal business operations when they come due, and upon profitable operations. The Company has been funded by the Mr. Charles M. Piluso, the Company’s Chief Executive Officer (“CEO”) and largest shareholder since inception, as well as several Directors. It is the intention of Mr. Piluso to continue to fund the Company on an as needed basis.

## Note 2 - Summary of Significant Accounting Policies

### *Stock Based Compensation*

The Company follows the requirements of FASB ASC 718-10-10, *Share Based Payments* with regard to stock-based compensation issued to employees. The Company has various employment agreements and consulting arrangements that call for stock to be awarded to the employees and consultants at various times as compensation and periodic bonuses. The expense for this stock-based compensation is equal to the fair value of the stock that was determined by using closing price on the day the stock was awarded multiplied by the number of shares awarded. The Company records its options at fair value using the Black-Scholes valuation model.

### *Recently Issued and Newly Adopted Accounting Pronouncements*

In May 2014, FASB issued Accounting Standards Update (ASU) No. 2014-09, Revenue from Contracts with Customers. The revenue recognition standard affects all entities that have contracts with customers, except for certain items. The new revenue recognition standard eliminates the transaction and industry-specific revenue recognition guidance under current GAAP and replaces it with a principle-based approach for determining revenue recognition. Public entities are required to adopt the revenue recognition standard for reporting periods beginning after December 15, 2016, and interim and annual reporting periods thereafter. Early adoption is not permitted for public entities. The Company has reviewed the applicable ASU and has not, at the current time, quantified the effects of this pronouncement, however it believes that there will be no material effect on the consolidated financial statements.

In June 2014, FASB issued Accounting Standards Update (ASU) No. 2014-12 Compensation - Stock Compensation (Topic 718), Accounting for Share-Based Payments When the Terms of an Award Provide That a Performance Target Could Be Achieved after the Requisite Service Period. A performance target in a share-based payment that affects vesting and that could be achieved after the requisite service period should be accounted for as a performance condition under Accounting Standards Codification (ASC) 718, Compensation - Stock Compensation. As a result, the target is not reflected in the estimation of the award's grant date fair value. Compensation cost would be recognized over the required service period, if it is probable that the performance condition will be achieved. The guidance is effective for annual periods beginning after December 15, 2015 and interim periods within those annual periods. Early adoption is permitted. Management has reviewed the ASU and believes that they currently account for these awards in a manner consistent with the new guidance; therefore there is no anticipation of any effect to the consolidated financial statements.

We have reviewed all FASB issued Accounting Standards Update ("ASU") accounting pronouncements and interpretations thereof that have effectiveness dates during the periods reported and in future periods. The Company

has carefully considered the new pronouncements that alter previous generally accepted accounting principles and does not believe that any new or modified principles will have a material impact on the corporation's reported financial position or operations in the near term. The applicability of any standard is subject to the formal review of our financial management and certain standards are under consideration.

Management does not believe there would have been a material effect on the accompanying consolidated financial statements had any other recently issued, but not yet effective, accounting standards been adopted in the current period.

#### *Principles of Consolidation*

The consolidated financial statements include the accounts of the Company and its subsidiary, DSC, a Delaware Corporation. All significant inter-company transactions and balances have been eliminated in consolidation.

#### *Equity Investments*

Equity investments in which the Company exercises significant influence but does not control and is not the primary beneficiary are accounted for using the equity method. The Company's share of its equity method investee's earnings or losses is included in other income in the accompanying Consolidated Statements of Operations.

#### *Use of Estimates*

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from these estimates.

#### *Estimated Fair Value of Financial Instruments*

The Company's financial instruments include cash, accounts receivable, accounts payable, line of credit and due to related parties. Management believes the estimated fair value of these accounts at December 31, 2014 approximate their carrying value as reflected in the balance sheets due to the short-term nature of these instruments or the use of market interest rates for debt instruments. The carrying values of certain of the Company's notes payable and capital lease obligations approximate their fair values based upon a comparison of the interest rate and terms of such debt given the level of risk to the rates and terms of similar debt currently available to the Company in the marketplace.

*Cash, Cash Equivalents and Short-Term Investments*

The Company considers all highly liquid investments with an original maturity or remaining maturity at the time of purchase, of three months or less to be cash equivalents.

*Concentration of Credit Risk and Other Risks and Uncertainties*

Financial instruments and assets subjecting the Company to concentration of credit risk consist primarily of cash and cash equivalents, short-term investments and trade accounts receivable. The Company's cash and cash equivalents are maintained at major U.S. financial institutions. Deposits in these institutions may exceed the amount of insurance provided on such deposits.

The Company's customers are primarily concentrated in the United States.

The Company provides credit in the normal course of business. The Company performs ongoing credit evaluations of its customers and maintains allowances for doubtful accounts on factors surrounding the credit risk of specific customers, historical trends, and other information.

For the years ended December 31, 2014 and 2013 DSC did not have any customer concentrations.

*Accounts Receivable/Allowance for Doubtful Accounts*

The Company sells its services to customers on an open credit basis. Accounts receivable are uncollateralized, non-interest-bearing customer obligations. Accounts receivables are due within 30 days. The allowance for doubtful accounts reflects the estimated accounts receivable that will not be collected due to credit losses and allowances. Provisions for estimated uncollectible accounts receivable are made for individual accounts based upon specific facts and circumstances including criteria such as their age, amount, and customer standing. Provisions are also made for other accounts receivable not specifically reviewed based upon historical experience. Clients are invoiced in advance for services as reflected in deferred revenue on the Company's balance sheet.

### *Property and Equipment*

Property and equipment is recorded at cost and depreciated over their estimated useful lives or the term of the lease using the straight-line method for financial statement purposes. Estimated useful lives in years for depreciation are 5 to 7 years for property and equipment. Additions, betterments and replacements are capitalized, while expenditures for repairs and maintenance are charged to operations when incurred. As units of property are sold or retired, the related cost and accumulated depreciation are removed from the accounts, and any resulting gain or loss is recognized in income.

### *Income Taxes*

Deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases and operating loss and tax credit carry forwards. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date. At December 31, 2014, the Company had a full valuation allowance against its deferred tax assets.

### *Goodwill and Other Intangibles*

In accordance with GAAP, the Company tests goodwill and other intangible assets for impairment on at least an annual basis. Goodwill impairment exists if the net book value of a reporting unit exceeds its estimated fair value. The impairment testing is performed in two steps: (i) the Company determines impairment by comparing the fair value of a reporting unit with its carrying value, and (ii) if there is impairment, the Company measures the amount of impairment loss by comparing the implied fair value of goodwill with the carrying amount of that goodwill. To determine the fair value of these intangible assets, the Company uses many assumptions and estimates using a market participant approach that directly impact the results of the testing. In making these assumptions and estimates, the Company uses industry accepted valuation models and set criteria that are reviewed and approved by various levels of management.

In September 2011, the Financial Accounting Standards Board (the "FASB") issued Accounting Standards Update ("ASU") 2011-08, "Intangibles-Goodwill and Other (Topic 350): Testing Goodwill for Impairment", to allow entities to use a qualitative approach to test goodwill for impairment. ASU 2011-08 permits an entity to first perform a qualitative assessment to determine whether it is more likely than not that the fair value of a reporting unit is less than its carrying value. If it is concluded that this is the case, it is necessary to perform the currently prescribed two-step goodwill impairment test. Otherwise, the two-step goodwill impairment test is not required. The Company adopted

ASU 2011-08 in fiscal 2013 and thus performed a qualitative assessment. This adoption did not have a material impact on the Company's consolidated financial statements.

### *Revenue Recognition*

The Company's revenues consist principally of cloud storage and cloud computing revenues, SaaS and IaaS. Storage revenues consist of monthly charges related to the storage of materials or data (generally on a per unit basis). Sales are generally recorded in the month the service is provided. For customers who are billed on an annual basis, deferred revenue is recorded and amortized over the life of the contract. Set up fees charged in connection with storage contracts are deferred and recognized on a straight line basis over the life of the contract.

### *Impairment of Long-Lived Assets*

In accordance with FASB ASC 360-10-35, we review our long-lived assets for impairment whenever events and circumstances indicate that the carrying value of an asset might not be recoverable. An impairment loss, measured as the amount by which the carrying value exceeds the fair value, is recognized if the carrying amount exceeds estimated undiscounted future cash flows.

### *Advertising Costs*

The Company expenses the costs associated with advertising as they are incurred. The Company incurred \$85,048 and \$86,768 for advertising costs for the years ended December 31, 2014 and 2013, respectively.

### *Net Income (Loss) per Common Share*

In accordance with FASB ASC 260-10-5 *Earnings per Share*, basic income (loss) per share is computed by dividing net income (loss) by the weighted average number of shares of common stock outstanding during the period. Diluted earnings per share is computed by dividing net income (loss) adjusted for income or loss that would result from the assumed conversion of potential common shares from contracts that may be settled in stock or cash by the weighted average number of shares of common stock, common stock equivalents and potentially dilutive securities outstanding during each period. The inclusion of the potential common shares to be issued has an anti-dilutive effect on diluted loss per share and therefore they are not included in the calculation. The inclusion of the potential common shares to be issued has an anti-dilutive effect on diluted loss per share and therefore they are not included in the calculation. Potentially dilutive securities at December 31, 2014 include 6,280,560 options and 133,334 warrants.

## *Common Stock Options*

### **2008 Equity Incentive Plan**

In October 2008, the Company's board of directors (the "Board") adopted, the 2008 Equity Incentive Plan (the "2008 Plan"). Under the 2008 Plan, we may grant options (including incentive stock options) to purchase our common stock or restricted stock awards to our employees, consultants or non-employee directors. The 2008 Plan is administered by the Board. Awards may be granted pursuant to the 2008 Plan for 10 years from the date the Board approved the 2008 Plan. Any grant under the 2008 Plan may be repriced, replaced or regranted at the discretion of the Board.

The material terms of options granted under the 2008 Plan (all of which have been nonqualified stock options) are consistent with the terms described in the footnotes to the "Outstanding Equity Awards at Fiscal Year-End December 31, 2011," including 5 year graded vesting schedules and exercise prices equal to the fair market value of our common stock on the date of grant. Stock grants made under the 2008 Plan have not been subject to vesting requirements. The 2008 Plan was terminated with respect to the issuance of new awards as of February 3, 2013. There are 2,435,414 options outstanding under this plan as of December 31, 2014.

### **2010 Incentive Award Plan**

The Company has reserved 5,000,000 shares of common stock for issuance under the terms of the DSC 2010 Incentive Award Plan (the "2010 Plan"). The 2010 Plan is intended to promote the interests of the Company by attracting and retaining exceptional employees, consultants, directors, officers and independent contractors (collectively referred to as the "Participants"), and enabling such Participants to participate in the long-term growth and financial success of the Company. Under the 2010 Plan, the Company may grant stock options, which are intended to qualify as "incentive stock options" under Section 422 of the Internal Revenue Code of 1986, as amended, non-qualified stock options, stock appreciation rights and restricted stock awards, which are restricted shares of common stock (collectively referred to as "Incentive Awards"). Incentive Awards may be granted pursuant to the 2010 Plan for 10 years from the Effective Date. From time to time, we may issue Incentive Awards pursuant to the 2010 Plan. Each of the awards will be evidenced by and issued under a written agreement.

On April 23, 2013, the Board of Directors of the Company amended and restated the DSC 2010 Plan. The 2010 Plan, as amended and restated, has been renamed the "Amended and Restated DSC Incentive Award Plan". The new plan provides for flexibility in vesting periods and includes a limit of \$100,000 per employee per year for incentive stock options.

**Note 11 - Litigation**

The Company has been named as a defendant in a lawsuit filed in New York State Supreme Court, Nassau County, by Richard Rebetti, the Company's former Chief Operating Officer. In the lawsuit, *Rebetti v. Data Storage Corp. and Charles M. Piluso*, Rebetti asserts claims for unpaid wages in the amount of \$67,392 plus statutory damages and counsel fees. The Company intends to vigorously defend against this action and believes that it has counterclaims against Rebetti, and intends to interpose same in the action.

## *Preferred Stock*

### Liquidation preference

Upon any liquidation, dissolution, or winding up of the Corporation, whether voluntary or involuntary, before any distribution or payment shall be made to the holders of any Common Stock, the holders of Series A Preferred Stock shall be entitled to be paid out of the assets of the Corporation legally available for distribution to stockholders, for each share of Series A Preferred Stock held by such holder, an amount per share of Series A Preferred Stock equal to the Original Issue Price for such share of Series A Preferred Stock plus all accrued and unpaid dividends on such share of Series A Preferred Stock as of the date of the Liquidation Event.

### Conversion

The number of shares of Common Stock to which a share of Series A Preferred Stock may be converted shall be the product obtained by dividing the Original Issue Price of such share of Series A Preferred Stock by the then-effective Conversion Price (as defined herein) for such share of Series A Preferred Stock. The Conversion Price for the Series A Preferred Stock shall initially be equal to \$0.02 and shall be adjusted from time to time.

### Voting

Each holder of shares of Series A Preferred Stock shall be entitled to the number of votes, upon any meeting of the stockholders of the Corporation (or action taken by written consent in lieu of any such meeting) equal to the number of shares of Class B Common Stock into which such shares of Series A Preferred Stock could be converted.

### Dividends

Each share of Series A Preferred Stock, in preference to the holders of all Common Stock (as defined below), shall entitle its holder to receive, but only out of funds that are legally available therefore, cash dividends at the rate of ten percent (10%) per annum from the Original Issue Date on the Original Issue Price for such share of Series A Preferred Stock, compounding annually unless paid by the Corporation. Accrued dividends at December 31, 2014 and 2013 were \$417,060 and \$330,811, respectively.

Stock Issuances

During the year ended December 31, 2013 the Company issued 2,959,930 shares of the Company's common stock, \$0.001 par value per share (the "Common Stock) at a price of \$0.09 for an aggregate of \$293,990. The shares were issued to Charles M. Piluso, Chief Executive Officer in lieu of accrued compensation. The Company recognized a gain of \$27,596 as a result of this transaction.

**Note 12 - Income Taxes**

The components of the provision (benefit) for income taxes are as follows:

	Years Ended December 31,	
	2014	2013
<b>CURRENT</b>		
Federal	\$ -	\$ -
State	-	-
Total current tax provision	-	-
<b>DEFERRED</b>		
Federal	-	-
State	-	-
Total deferred tax provision	-	-
Total tax provision (benefit)	\$ -	\$ -

The components of deferred taxes are as follows:

## Deferred Tax Assets:

Net operating loss carry-forward	\$(1,862,067)	\$(1,683,764)
Less: valuation allowance	(1,862,067)	(1,683,764)
Deferred tax assets	-	-
Deferred tax liabilities	-	-
Net deferred tax asset	\$-	\$-

The Company had federal and state net operating tax loss carry-forwards of \$4,682,737 and \$4,348,696, respectively as of December 31, 2014. The tax loss carry-forwards are available to offset future taxable income with the federal and state carry-forwards beginning to expire in 2028.

Edgar Filing: Data Storage Corp - Form 10-K

In 2014, net deferred tax assets did not change due to the full allowance. The gross amount of the asset is entirely due to the Net operating loss carry forward. The realization of the tax benefits is subject to the sufficiency of taxable income in future years. The combined deferred tax assets represent the amounts expected to be realized before expiration.

The Company periodically assesses the likelihood that it will be able to recover its deferred tax assets. The Company considers all available evidence, both positive and negative, including historical levels of income, expectations and risks associated with estimates of future taxable income and ongoing prudent and feasible profits. As a result of this analysis of all available evidence, both positive and negative, the Company concluded that it is more likely than not that its net deferred tax assets will ultimately not be recovered and, accordingly, a valuation allowance was recorded as of December 31, 2014 and 2013.

The difference between the expected income tax expense (benefit) and the actual tax expense (benefit) computed by using the Federal statutory rate of 34% is as follows:

	Year Ended December	
	31,	
	2014	2013
Expected income tax benefit (loss) at statutory rate of 34%	\$ 194,315	\$ 226,964
State and local tax benefit, net of federal	40,578	47,395
Change in valuation account	(234,893)	(274,359)
Income tax expense (benefit)	\$-	\$-

**Note 13 - Subsequent Events**

The Board approved and authorized the issuance of convertible debt of \$97,671 and \$24,253 respectively totaling \$121,924 to Mr. Piluso to retire accounts payable debt and receive 10% interest rate convertible at \$0.15 per share, since this is represented as new capital into the Company.

The Board approved and authorized the issuance of convertible debt of \$848,091 and \$343,348 respectively totaling \$1,189,439 to Mr. Piluso to document the existing debt and receive 10% interest rate convertible at \$0.15 per share, since this is represented as new capital into the Company.

## **ITEM 9. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE**

Not applicable.

## **ITEM 9A. CONTROLS AND PROCEDURES**

### **Evaluation of Disclosure Controls and Procedures**

As of the end of the period covered by this Annual Report, under the supervision and with the participation of DSC's management, including its principal executive officer and principal financial officer, DSC conducted an evaluation of its disclosure controls and procedures, as such term is defined under Rule 13a-15(e) and Rule 15d-15(e) promulgated under the Securities Exchange Act of 1934, as amended (the "Exchange Act"). Based on this evaluation, DSC's principal executive officer and principal financial officers have concluded that DSC's disclosure controls and procedures are not effective to ensure that information required to be disclosed by DSC in the reports it files or submits under the Exchange Act is recorded, processed, summarized, and reported within the time periods specified in the Securities and Exchange Commission's (the "SEC") rules based on the material weakness described below.

### **Management's Report on Internal Control Over Financial Reporting**

DSC's management is responsible for establishing and maintaining effective internal control over financial reporting as defined in Rule 13a-15(f) under the Exchange Act. DSC's internal control over financial reporting is designed to provide reasonable assurance to DSC's management and Board of Directors regarding the preparation and fair presentation of published financial statements in accordance with United States' generally accepted accounting principles ("GAAP"), including those policies and procedures that: (i) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of DSC, (ii) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with GAAP and that receipts and expenditures are being made only in accordance with authorizations of DSC's management and directors and (iii) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of DSC's assets that could have a material effect on the financial statements.

Management conducted an evaluation of the effectiveness of internal control over financial reporting based on the framework in Internal Control—Integrated Framework issued by the Committee of Sponsoring Organizations of the

Treadway Commission in 1992. Management's assessment included an evaluation of the design of DSC's internal control over financial reporting and testing of the operational effectiveness of our internal control over financial reporting. Based on this evaluation, management has determined that as of December 31, 2014, there were material weaknesses in our internal control over financial reporting. The material weaknesses identified during management's assessment were (i) a lack of sufficient internal accounting expertise to provide reasonable assurance that our financial statements and notes thereto are prepared in accordance with GAAP and (ii) a lack of segregation of duties to ensure adequate review of financial statement preparation. In light of these material weaknesses, management has concluded that, as of December 31, 2014, DSC did not maintain effective internal control over financial reporting. As defined by the Public Company Accounting Oversight Board Auditing Standard No. 5, a material weakness is a deficiency or a combination of deficiencies, such that there is a reasonable possibility that a material misstatement of the annual or interim financial statements will not be prevented or detected. In order to ensure the effectiveness of DSC's disclosure controls in the future DSC intends on adding financial staff resources to our accounting and finance department.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Therefore, even those systems determined to be effective can provide only reasonable assurance with respect to financial statement preparation and presentation.

This Annual Report does not include an attestation report of DSC's registered public accounting firm regarding internal control over financial reporting. Management's report was not subject to attestation by DSC's registered public accounting firm pursuant to rules of the SEC that permit DSC to provide only management's report in this Annual Report.

### **Changes in Internal Control over Financial Reporting**

There have been no significant changes in DSC's internal control over financial reporting during the most recently completed fiscal quarter ended December 31, 2014 that have materially affected, or is reasonably likely to materially affect, DSC's internal control over financial reporting.

### **ITEM 9B. OTHER INFORMATION**

None.

**PART III****ITEM 10. DIRECTORS, EXECUTIVE OFFICERS AND CORPORATE GOVERNANCE**

The following table sets forth the names, ages, and positions of DSC's executive officers and directors as of the December 31, 2014. Executive officers are elected annually by DSC's Board of Directors. Each executive officer holds his office until he resigns, is removed by the Board, or his successor is elected and qualified. ### **Term of Office**

Our directors are appointed for a one-year term to hold office until the next annual general meeting of our shareholders or until removed from office in accordance with our bylaws. Our officers are appointed by our board of directors and hold office until removed by the board.

### **Audit Committee**

During the fiscal year ended December 31, 2014 the Company had an independent audit committee consisting of non-executive directors. The audit committee members include: John Coghlan, Cliff Stein and Chairman Jan Burman. Although the Board of Directors does have an audit committee comprised of independent directors, the audit committee does not have an audit committee financial expert at this time. DSC believes that the financial experience and combined skill set of the members of our audit committee are sophisticated enough for performance of the duties of the audit committee financial expert. In addition, DSC's securities are not listed on a national exchange securities and are not subject to the special corporate governance requirements of any such exchanges. However, DSC does intend to search for a qualified individual to fill the role of the audit committee financial expert.

### **Family Relationships**

No family relationships exist among our directors or executive officers.

### **Compliance with Section 16(A) Of the Exchange Act.**

Section 16(a) of the Exchange Act requires the Company's officers and directors, and persons who beneficially own more than 10% of a registered class of the Company's equity securities, to file reports of ownership and changes in ownership with the SEC and are required to furnish copies to the Company. To the best of the Company's knowledge, any reports required to be filed were timely filed in fiscal year ended December 31, 2014.

### **Code of Ethics**

DSC has adopted a Code of Ethics applicable to its Chief Executive Officer and Chief Financial Officer. This Code of Ethics is incorporated by reference to DSC's Form 10-K filed on March 31, 2009.

## **Employment Agreements**

The Company has no employment agreements in place.

## **2008 Equity Incentive Plan**

In October 2008, the Board adopted, the Euro Trend, Inc. 2008 Equity Incentive Plan (the “2008 Plan”). Under the 2008 Plan, we may grant options (including incentive stock options) to purchase our common stock or restricted stock awards to our employees, consultants or non-employee directors. The 2008 Plan is administered by the Board. Awards may be granted pursuant to the 2008 Plan for 10 years from the date the Board approved the 2008 Plan. Any grant under the 2008 Plan may be repriced, replaced or regranted at the discretion of the Board. From time to time, we may issue awards pursuant to the 2008 Plan.

The material terms of options granted under the 2008 Plan (all of which have been nonqualified stock options) are consistent with the terms described in the footnotes to the "Outstanding Equity Awards at Fiscal Year-End December 31, 2014" table below, including 5 year graded vesting schedules and exercise prices equal to the fair market value of our common stock on the date of grant. Stock grants made under the 2008 Plan have not been subject to vesting requirements. The 2008 Plan was terminated with respect to the issuance of new awards as of February 3, 2013. There are 2,435,414 options outstanding under this plan as of December 31, 2014.

## **2010 Incentive Award Plan**

The 2010 Incentive Award Plan was amended and restated by the Board of Directors of Data Storage Corporation on April 23, 2013 and was renamed the “Amended and Restated Data Storage Corporation Incentive Award Plan”(Restated Plan) The Company has reserved 5,000,000 shares of common stock for issuance under the terms of the Data Storage Corporation Restated Plan. The Restated Plan is intended to promote the interests of the Company by attracting and retaining exceptional employees, consultants, directors, officers and independent contractors (collectively referred to as the “Participants”), and enabling such Participants to participate in the long-term growth and financial success of the Company. Under the Restated Plan, the Company may grant stock options, which are intended to qualify as “incentive stock options” under Section 422 of the Internal Revenue Code of 1986, as amended, non-qualified stock options, stock appreciation rights and restricted stock awards, which are restricted shares of common stock (collectively referred to as “Incentive Awards”). Incentive Awards may be granted pursuant to the Restated Plan for 10 years from the Effective Date. From time to time, we may issue Incentive Awards pursuant to the Restated Plan. Each of the awards will be evidenced by and issued under a written agreement. There are 3,845,146 options outstanding under this plan as of

December 31, 2014.

If an incentive award granted under the Restated Plan expires, terminates, is unexercised or is forfeited, or if any shares are surrendered to us in connection with an incentive award, the shares subject to such award and the surrendered shares will become available for future awards under the Restated Plan. The number of shares subject to the Restated Plan, and the number of shares and terms of any Incentive Award may be adjusted in the event of any change in our outstanding common stock by reason of any stock dividend, spin-off, stock split, reverse stock split, recapitalization, reclassification, merger, consolidation, liquidation, business combination or exchange of shares, or similar transaction.

(1) All of the options to purchase shares of our common stock awarded to Messrs. Piluso, Briggs and Grosso (each a "Participant") under the 2008 Plan were unvested on the date of grant. Twenty percent (20%) of the stock options vested after the Participant remained continuously providing services to the Company through the one (1) year anniversary of the date of the grant. Thereafter, an additional one and two-thirds percent (1.67%) of the options vest upon the end of each calendar month thereafter provided that the Participant has been continuously providing services to the Company from the date of the grant through and including such calendar month. Upon the termination of a Participant's engagement with the Company for any reason, the vesting of all options shall immediately cease upon such termination, and all unvested options as of the time of such termination shall immediately expire and be forfeited. Upon the termination of the Participant's engagement with the Company for (A) Participant's failure, neglect or refusal to perform his duties to the Company, (B) any conduct of the Participant

constituting fraud, material dishonesty or breach of trust in connection with the Participant's performance of his duties to the Company or any material breach by the Participant of any statutory or common law duty of loyalty to the Company; (C) the commission by the Participant of a felony or of any crime involving theft, dishonesty or moral turpitude, or (D) any other act or omission that, in the reasonable determination of the Board, has caused or is likely to cause detrimental notoriety or other comparable material harm to the Company, all vested options shall expire and be forfeited immediately at the time notice of such termination is given. Upon the termination of the Participant's engagement with the Company due to the Participant's death or disability, all vested options shall expire and be forfeited immediately at the close of business on the ninetieth (90th) day following the date of termination. Upon any termination of the Participant's engagement with the Company other than as provided in the foregoing, all vested options shall expire and be forfeited immediately at the close of business on the first (1st) anniversary of the date of termination. In the event of a "Sale of the Company" (as defined in the 2008 Plan), the Board may modify any grant to provide for the effect of a "Sale of the Company".

(2) The Company has no unvested shares of restricted stock outstanding.

The stock grants awarded to Mr. Piluso consists of 571,429 shares of common stock valued at \$200,000, based on the closing bid price of \$0.35 on the issuance date of March 23, 2011. Mr. Piluso received these shares in lieu of a salary for 2010. All of the shares were fully vested on the date of grant. These shares were issued pursuant to the (3) 2008 Plan (described below). This issuance was reversed and replaced with options to purchase 548,780 shares of common stock valued at \$192,073 at an exercise price of \$0.394 per share on June 18, 2012. Mr. Piluso also received options to purchase 337,143 shares of common stock valued at \$118,000 at an exercise price of \$0.394 per share on June 18, 2012.

These options replace a stock grant of \$50,000 that was approved on December 16, 2010. All of the shares were (4) fully vested on the date of grant. These shares were issued pursuant to the 2008 Plan (described below). This issuance was reversed and replaced with the option to purchase 333,333 shares of common stock at an exercise price of \$0.15 per share on March 6, 2012 returned in 2011 by Mr. Briggs.

## Compensation of Directors

None

The only compensation awarded to directors for their service on the Board in respect of fiscal year 2013 included non-qualified stock options, which were granted in 2013. The 2013 stock options were awarded pursuant to the (1) 2010 Incentive Award Plan. It was determined that the Board members would receive \$5,000 each for participating in Board meetings as scheduled and participating on various committees. The stock options were granted on December 13, 2013, with an exercise price of \$0.15 per share.

The amounts shown in these columns represent the aggregate grant date fair value of stock and option awards computed in accordance with FASB ASC Topic 718. See “Management’s Discussion and Analysis of Financial Condition and Results of Operations—Share Based Compensation” on page 12 for a discussion of the assumptions made in the valuation of option awards. The \$5,000 option award to the directors in the table above represent 33,333 options to purchase our common stock with a strike price of \$0.15 per share of common stock. All the non-qualified stock options above shall vest in accordance with the following schedule: thirty three point (2) thirty-three percent (33.33%) of the options shall vest if the person remains continuously engaged as a director of the Company from the grant date (which was December 11, 2013) through and including the one (1) month anniversary of the grant date, and an additional thirty-three point thirty-three percent (33.33%) of the options shall vest upon the end of each calendar month thereafter provided that the person has been continuously engaged as a director of the Company from the grant date through and including such calendar month. The vesting of the options may be accelerated upon, among other things, consolidations or mergers of the Company or the sale of all or substantially all of our assets to another entity.

## Securities Authorized for Issuance Under Equity Compensation Plans

The Company has two share-based equity compensation plans, the 2008 Plan and the 2010 Plan which was amended, restated and renamed the “Amended and Restated Data Storage Corporation Incentive Award Plan”.
