## Edgar Filing: CRESUD INC - Form 6-K

The result of the Agricultural Production segment increased ARS 681 million during the 9M compared period due to a larger planted area, better prices, controlled costs and average yields due to good weather conditions in Brazil and Paraguay, while Argentina and Bolivia presented more adverse conditions.

We have increased the planted crop area in the region to 208.258 ha and we expect to transform into productive 10.662 ha in the consolidated region ..

In relation to Farmland sales, we'll recognize in 4Q18 the result of "La Esmeralda" farm sale in Argentina for USD 19 million announced during IQ18 and Brasilagro's recent partial sale of Araucaria farm for BRL 61.6 million expecting to concrete new farmland sales in the last quarter of FY2018.

Our urban properties and investments business observed good operating. EBITDA of the rental segments in Argentina increased by 19.1% in the compared year ..

During the quarter, we have launched a share repurchase plan for up to ARS 500 million. As of today, we have repurchased a 78.4% of the program.

In February 2018, we have issued notes in the local market for USD 113 million at a fixed interest rate of 6.5% due 2023 to cancel short term debt.
