5. RETIREMENT PLANS

The Corporation's qualified defined benefit pension plan covers all employees with at least one year of service. In addition, the Corporation has a nonqualified defined benefit plan which provides eligible employees with retirement benefits to supplement the qualified plan. Benefits are based on length of service and compensation during the last five years of employment. ### 6. Stock-Based Compensation

The Stock Option Plan adopted in 1985 ("1985 Plan") permits the issuance of stock options and stock appreciation rights for the purchase of up to 895,522 shares of the Corporation's Common Stock at the fair market value on the date of grant. The exercise price of the options and related stock appreciation rights is reduced by the per share amount of capital gains paid by the Corporation during subsequent years. Options are exercisable beginning not less than one year after the date of grant and stock appreciation rights are exercisable beginning not less than two years after the date of grant. The stock appreciation rights allow the holders to surrender their rights to exercise their options and receive cash in an amount equal to the difference between the option exercise price and the fair market value of the Common Stock at the date of surrender. All options terminate 10 years from the date of grant if not exercised. With the adoption of the 2005 Equity Incentive Compensation Plan ("2005 Plan") at the 2005 Annual Meeting, no further grants will be made under the 1985 Plan, although unexercised awards granted in 2004 and prior years remain outstanding.

The total compensation costs for restricted stock units granted to non-employee directors under the 2005 Plan for the six months ended June 30, 2005 was \$16,836. ### REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

-----

To the Board of Directors and Stockholders of  
Petroleum & Resources Corporation:

In our opinion, the accompanying statement of assets and liabilities, including the schedule of investments, and the related statements of operations and of changes in net assets and the financial highlights present fairly, in all material respects, the financial position of Petroleum & Resources Corporation (hereafter referred to as the "Corporation") at June 30, 2005, and the results of its operations, the changes in its net assets and the financial highlights for each of the fiscal periods presented, in conformity with accounting principles generally accepted in the United States of America. These financial statements and financial highlights (hereafter referred to as "financial statements") are the responsibility of the Corporation's management; our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits of these financial statements in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits, which included confirmation of securities at June 30, 2005 by correspondence with the custodian and brokers, provide a reasonable basis for our opinion.
