TRIARC COMPANIES, INC. AND SUBSIDIARIES
Notes to Condensed Consolidated Financial Statements
October 1, 2000
(Unaudited)

(1) Basis of Presentation

The accompanying unaudited condensed consolidated financial statements of Triarc Companies, Inc. ("Triarc" and, together with its subsidiaries, the "Company") have been prepared in accordance with Rule 10-01 of Regulation S-X promulgated by the Securities and Exchange Commission and, therefore, do not include all information and footnotes necessary for a fair presentation of financial position, results of operations and cash flows in conformity with generally accepted accounting principles. In the opinion of the Company, however, the accompanying condensed consolidated financial statements contain all adjustments, consisting only of normal recurring adjustments, necessary to present fairly the Company's financial position as of January 2, 2000 and October 1, 2000, its results of operations for the three-month and nine-month periods ended October 3, 1999 and October 1, 2000 and its cash flows for the nine-month periods ended October 3, 1999 and October 1, 2000 (see below). This information should be read in conjunction with the consolidated financial statements and notes thereto included in the Company's Annual Report on Form 10-K for the fiscal year ended January 2, 2000. Certain statements in these notes to condensed consolidated financial statements constitute "forward-looking statements" under the Private Securities Litigation Reform Act of 1995. Such forward-looking statements involve risks, uncertainties and other factors which may cause the actual results, performance or achievements of the Company to be materially different from any future results, performance or achievements expressed or implied by such forward-looking statements. See Part II - "Other Information."

The Company reports on a fiscal year basis consisting of 52 or 53 weeks ending on the Sunday closest to December 31. In accordance therewith, the Company's first nine months of 1999 commenced on January 4, 1999 and ended on October 3, 1999, with its third quarter commencing on July 5, 1999, and the Company's first nine months of 2000 commenced on January 3, 2000 and ended on October 1, 2000, with its third quarter commencing on July 3, 2000. For purposes of these condensed consolidated financial statements, the periods (1) from January 4, 1999 to October 3, 1999 and July 5, 1999 to October 3, 1999 are referred to below as the nine-month and three-month periods ended October 3, 1999, respectively, and (2) from January 3, 2000 to October 1, 2000 and July 3,

Edgar Filing: TRIARC COMPANIES INC - Form 10-Q/A

2000 to October 1, 2000 are referred to below as the nine-month and three-month periods ended October 1, 2000, respectively.

As discussed in more detail in Note 2, on October 25, 2000 the Company completed the sale of its premium beverage and soft drink concentrate businesses. Accordingly, the accompanying condensed consolidated financial statements (1) as of and for the three and nine-month periods ended October 1, 2000 report the premium beverage and soft drink concentrate businesses as discontinued operations and (2) for the three and nine-month periods ended October 3, 1999 have been reclassified to report the premium beverage and soft drink concentrate businesses as discontinued operations.

(2) Discontinued Operations

On October 25, 2000, the Company completed the sale (the "Snapple Beverage Sale") of Snapple Beverage Group, Inc. ("Snapple Beverage Group" - the Company's former premium beverage business), the parent company of Snapple Beverage Corp. ("Snapple"), Mystic Brands, Inc. ("Mistic") and Stewart's Beverages, Inc. ("Stewart's"), and Royal Crown Company, Inc. ("Royal Crown" - the Company's former soft drink concentrate business) to affiliates of Cadbury Schweppes plc (the "Purchaser") for \$901,250,000 in cash, subject to post-closing adjustment, and the assumption of \$425,112,000 of debt and related accrued interest. The assumed debt and accrued interest consists of (1) \$300,000,000 of 10 1/4% senior subordinated notes due 2009 (the "Senior Notes") co-issued by Triarc Consumer Products Group, LLC ("TCPG"), the parent company of Snapple Beverage Group and Royal Crown and a subsidiary of Triarc, and Snapple Beverage Group, (2) \$119,130,000, net of unamortized original issue discount of \$240,870,000, of Triarc's zero coupon convertible subordinated debentures due 2018 (the "Debentures") and (3) \$5,982,000 of accrued interest. Of the cash proceeds, \$426,594,000 was utilized to repay outstanding obligations under a senior bank credit facility (the "Beverage Credit Facility") maintained by Snapple, Mistic, Stewart's, Royal Crown and RC/Arby's Corporation, the parent company of Royal Crown and a subsidiary of TCPG.

The Company's former premium beverage and soft drink concentrate businesses have been accounted for as discontinued operations as of and for the three and nine-month periods ended October 1, 2000 and the accompanying condensed consolidated financial statements as of January 2, 2000 and for the three and nine-month periods ended October 3, 1999 have been reclassified accordingly. The Company's former propane business has also been reported as discontinued operations through the July 19, 1999 sale of 41.7% of its then remaining 42.7% interest in the propane business.

The income (loss) from discontinued operations consisted of the following (in thousands):

	Three months ended		Nine
	October 3, 1999	October 1, 2000	October 3 1999
	----	----	----
Income (loss) from operations of the discontinued operations, net of income taxes			
Beverage businesses.....	\$ 1,025	\$ (3,337)	\$ (3,63)
Propane business.....	(203)	--	(1,61)
	-----	-----	-----

Edgar Filing: TRIARC COMPANIES INC - Form 10-Q/A

	822	(3,337)	(5,24)
Gain on sale of propane business, net			
of income taxes.....	11,265	--	12,19
	-----	-----	-----
	\$ 12,087	\$ (3,337)	\$ 6,94
	=====	=====	=====

The income (loss) from operations of the discontinued operations consisted of the following (in thousands):

	Three months ended		Nine
	October 3, 1999	October 1, 2000	October 3 1999
	----	----	----
Revenues.....	\$ 229,820	\$ 220,578	\$ 620,63
Operating profit.....	30,184	22,342	60,88

Provision for income taxes.....	(7,524)	(4,278)	(4,78)
Net income (loss).....	822	(3,337)	(5,24)

The Company's discontinued operations had provisions for income taxes representing effective rates of 90% and 455% for the three months ended October 3, 1999 and October 1, 2000, respectively, which are significantly higher than the United States Federal statutory income tax rate of 35%, and had a provision for income taxes despite a loss before income taxes for the nine months ended October 3, 1999 and October 1, 2000 principally due to (1) the amortization of non-deductible unamortized costs in excess of net assets of acquired companies, (2) the differing impact of the mix of pre-tax loss or income among the consolidated entities since the Company files state income tax returns on an individual company basis and (3) for the three-month periods ended October 3, 1999 and October 1, 2000 the effect thereon of catch-up adjustments of year-to-date increases in the estimated full year effective tax rates due to decreases in the then estimates of full year pre-tax income of the discontinued operations.

Net current assets and net non-current liabilities of discontinued operations consisted of the following (in thousands):

=====

As a result of the Snapple Beverage Sale, the Company expects to realize a gain on the sale which will be recognized during the fiscal 2000 fourth quarter ending December 31, 2000 ("fourth quarter of 2000") and included in "Income (loss) from discontinued operations." Such gain is currently estimated to be approximately \$510,200,000, net of income tax provision of \$271,400,000; however, such estimate is preliminary, is subject to a purchase price adjustment, if any, and is subject to finalization of estimates and account balances as of the October 25, 2000 date of closing. In addition, the Company will recognize an extraordinary charge during the fourth quarter of 2000 for the early assumption or extinguishment, as applicable, of the Senior Notes, the Debentures and the obligations under the Beverage Credit Facility. Such charge is currently estimated to be approximately \$20,940,000 consisting of (1) the writeoff of previously unamortized deferred financing costs of \$27,703,000 and (2) the payment of prepayment penalties of \$5,509,000, net of income tax benefit of \$12,272,000.

(3) Income Taxes

The Internal Revenue Service (the "IRS") has completed its examination of the Company's Federal income tax returns for the fiscal year ended April 30, 1993 and transition period ended December 31, 1993. In connection therewith, the Company's net operating loss carryforwards increased by \$7,453,000 and the Company was entitled to a refund of \$2,753,000. The Company received \$1,549,000 in July 2000 and offset the remaining \$1,204,000 against amounts otherwise due the IRS from audits of years ending prior to April 30, 1993. During 1999 the Company had settled the final income tax liabilities resulting from the IRS examination of the Company's income tax returns for the tax years from 1989 through 1992. However, the IRS has not yet finalized the computation of the remaining interest due from the Company as a result of the audits of those years. Management of the Company believes that adequate interest accruals have been provided in prior periods for any further interest liabilities that may result from the finalization of such computation.

(4) Stockholders' Equity

As a result of the Snapple Beverage Sale, and in addition to normal recurring activity in the Company's stock option plans, the Company is no longer

Edgar Filing: TRIARC COMPANIES INC - Form 10-Q/A

responsible for all of the 149,284 outstanding Snapple Beverage Group stock options. In addition, the Company cashed out 912,169 outstanding Triarc stock options held by employees of Snapple Beverage Group and Royal Crown who chose to surrender these options prior to the Snapple Beverage Sale in consideration for an amount equal to the excess of \$23.75 per option over the respective exercise prices of the underlying stock option or an aggregate \$6,159,000 of cash. Further, Triarc agreed to pay cash compensation to certain of these individuals in an amount per option surrendered by such individuals equal to the excess of the average of the five highest closing prices of Triarc's common stock during the 90-day period following the October 25, 2000 date of the Snapple Beverage Sale over the \$23.75 price used in the settlement.

(5) Comprehensive Income

The following is a summary of the components of comprehensive income, net of income taxes (in thousands):

	Three months ended	
	October 3, 1999	October 1, 2000
Net income	\$ 14,246	\$ 3,368
Unrealized appreciation (depreciation) of available-for-sale securities.....	(4,979)	1,071
Reclassification adjustments for prior period (appreciation) depreciation of securities sold during the year.....	99	(669)
Equity in the decrease in unrealized gain on retained interest which is accounted for similarly to an available-for-sale security.....	(10)	(16)
Net change in currency translation adjustment.....	88	3
	-----	-----
Comprehensive income.....	\$ 9,444	\$ 3,757

(6) Income Per Share

Basic income (loss) per share for the three and nine-month periods ended October 3, 1999 and October 1, 2000 has been computed by dividing the income or loss by the weighted average number of common shares outstanding of 24,588,000, 26,780,000, 22,867,000 and 23,542,000, respectively. For the three and nine-month periods ended October 3, 1999 and October 1, 2000, diluted income (loss) per share has been computed by dividing the income by an aggregate 25,662,000, 27,439,000, 24,292,000 and 24,841,000 shares, respectively. The shares used for diluted income (loss) per share for the three and nine-month periods ended October 3, 1999 and October 1, 2000 consist of the weighted average number of common shares outstanding and potential common shares reflecting (1) the 1,068,000, 657,000, 1,425,000 and 1,057,000 share effect for the three and nine-month periods ended October 3, 1999 and October 1, 2000, respectively, of dilutive stock options computed using the treasury stock method and (2) the 6,000, 2,000 and 242,000 share effect for the three and nine-month periods ended October 3, 1999 and the nine-month period ended October 1, 2000, respectively, of a dilutive forward purchase obligation for common stock (the "Forward Purchase Obligation") under which the Company repurchased 1,999,207

Edgar Filing: TRIARC COMPANIES INC - Form 10-Q/A

shares of its Class B common stock (the "Class B Shares") for \$42,343,000 on August 10, 2000 and must repurchase an additional 1,999,207 Class B Shares for \$43,843,000 on or before August 19, 2001. The shares for diluted income (loss) per share exclude any effect of (1) the dilutive Forward Purchase Obligation for the three-month period ended October 1, 2000 and (2) the assumed conversion of the Company's convertible Debentures for all periods presented since the effect of each of these on income from continuing operations would have been antidilutive.

(7) Transactions with Related Parties

On January 19, 2000 the Company acquired 280 Holdings, LLC ("280 Holdings") for \$27,210,000 consisting of cash of \$9,210,000 and the assumption of an \$18,000,000 secured promissory note with a third-party commercial lender payable over seven years. 280 Holdings was a subsidiary of Triangle Aircraft Services Corporation ("TASCO"), a company owned by the Chairman and Chief Executive Officer and President and Chief Operating Officer of the Company, that at the time of such sale was the owner and lessor to the Company of an airplane that had previously been leased from TASCO. The purchase price was based on independent appraisals and was approved by the Audit Committee and the Board of Directors. Prior thereto the Company leased the airplane and a helicopter from TASCO or subsidiaries of TASCO under a dry lease for annual rent of \$3,360,000 as of January 1, 1999. Pursuant to this dry lease, the Company paid the operating expenses, including repairs and maintenance, of the aircraft directly to third parties. In connection with such lease and the amortization over a five-year period of a \$2,500,000 payment made in 1997 to TASCO for (1) an option to continue the lease for five years effective September 30, 1997 and (2) the agreement by TASCO to replace the helicopter covered under the lease (the "Option"), the Company had rent expense of \$2,863,000 for the nine-month period ended October 3, 1999. Effective October 1, 1999 the annual rent was increased to \$3,447,000, in connection with annual cost of living adjustments under the lease, of which \$3,078,000 was deemed to represent rent for the airplane and \$369,000 was deemed to represent rent for the helicopter. The Company continues to lease the helicopter from a subsidiary of TASCO for the annual rent of \$369,000 as of January 19, 2000 increasing to \$382,000 as of October 1, 2000 as result of the annual cost of living adjustment and owns the airplane through its ownership of 280 Holdings from whom Triarc continues to lease the airplane and to whom it pays annual intercompany rent of \$3,078,000 as of January 19, 2000 increasing to \$3,186,000 as of October 1, 2000 as a result of the annual cost of living adjustment. In connection with the lease of the airplane through January 19, 2000, the lease of the helicopter and amortization of the Option, the Company had rent expense for the nine-month period ended October 1, 2000 of \$479,000 to TASCO and its subsidiaries. In addition, on January 19, 2000 TASCO paid the Company \$1,200,000 representing the portion of the \$1,242,000 unamortized amount of the Option as of January 2, 2000 relating to the airplane now owned by 280 Holdings.

(8) Legal and Environmental Matters

The Company is involved in stockholder litigation, other litigation, claims and environmental matters incidental to its businesses. The Company has reserves for such legal and environmental matters aggregating \$2,148,000 of which \$402,000 is classified as a component of "Net current assets of discontinued operations," as of October 1, 2000. Although the outcome of such matters cannot be predicted with certainty and some of these matters may be disposed of unfavorably to the Company, based on currently available information and given the Company's aforementioned reserves, the Company does not believe that such legal and environmental matters will have a material adverse effect on its consolidated financial position or results of operations.

(9) Subsequent Events

Edgar Filing: TRIARC COMPANIES INC - Form 10-Q/A

On November 3, 2000 the Company announced that its restaurant franchising subsidiary, Arby's, Inc. ("Arby's") intends to offer approximately \$290,000,000 of fixed rate insured securitization notes (the "Notes"), through a special purpose financing vehicle, pursuant to Rule 144A of the Securities Act of 1933, as amended. The Notes will be secured by Arby's franchise royalty payments. The Company expects to receive net proceeds of approximately \$248,000,000, which is net of approximately \$30,000,000 of proceeds to be held in a reserve account and approximately \$12,000,000 of estimated transaction fees and expenses. The financing is expected to close by the end of the fourth quarter of 2000. However, there can be no assurance that the Company will be able to consummate this financing.

(10) Restatement of Financial Statements

The Company has restated the accompanying condensed consolidated statements of operations and cash flows and note 2 to the condensed consolidated financial statements to reflect the reversal of charges for general and administrative costs to discontinued operations which had been paid under management services agreements. Such charges amounted to \$1,769,000, or \$1,132,000 after-tax, and \$1,475,000, or \$944,000 after tax, for the three months ended October 3, 1999 and October 1, 2000, respectively, and \$5,091,000, or \$3,258,000 after tax, and \$4,940,000, or \$3,162,000 after tax, for the nine months ended October 3, 1999 and October 1, 2000, respectively. This reversal results in a decrease in income from continuing operations and an equal corresponding increase in income from discontinued operations or decrease in loss from discontinued operations, as applicable, for each of the periods presented. This change was determined in connection with the Company finalizing its accounting for certain discontinued operations sold during the Company's fourth fiscal quarter of 2000 and has been made in accordance with the guidance under Issue No. 87-24 of the Financial Accounting Standards Board Emerging Issues Task Force which indicates that it is preferable not to allocate general corporate overhead to discontinued operations.

Basic and diluted extraordinary charges and net income per share are unchanged. Basic income from continuing operations per share decreased by \$.04 for both the three months ended October 3, 1999 and October 1, 2000 and by \$.13 for both the nine months ended October 3, 1999 and October 1, 2000. Diluted income from continuing operations per share decreased by \$.05 for the three months ended October 3, 1999, \$.03 for the three months ended October 1, 2000 and by \$.12 for both the nine months ended October 3, 1999 and October 1, 2000. Each of these decreases in income from continuing operations per share is offset by an equal corresponding increase in income from discontinued operations per share or decrease in loss from discontinued operations per share, as applicable, for each of the periods presented.

TRIARC COMPANIES, INC. AND SUBSIDIARIES

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.

Introduction

This "Management's Discussion and Analysis of Financial Condition and Results of Operations" should be read in conjunction with the accompanying condensed consolidated financial statements and "Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations" in the Annual Report on Form 10-K for the fiscal year ended January 2, 2000 of Triarc Companies, Inc. The recent trends affecting our restaurant franchising business

Edgar Filing: TRIARC COMPANIES INC - Form 10-Q/A

are described in Item 7 of our Form 10-K.

Certain statements under this caption "Management's Discussion and Analysis of Financial Condition and Results of Operations" constitute "forward-looking statements" under the Private Securities Litigation Reform Act. Such forward-looking statements involve risks, uncertainties and other factors which may cause our actual results, performance or achievements to be materially different from any future results, performance or achievements expressed or implied by such forward-looking statements. For these statements, we claim the protection of the safe harbor for forward-looking statements contained in the Reform Act. See "Part II - Other Information."

Our fiscal year consists of 52 or 53 weeks ending on the Sunday closest to December 31. Our first nine months of fiscal 1999 commenced on January 4, 1999 and ended on October 3, 1999, with our third quarter commencing on July 5, 1999, and our first nine months of fiscal 2000 commenced on January 3, 2000 and ended on October 1, 2000, with our third quarter commencing on July 3, 2000. When we refer to the "nine months ended October 3, 1999," or the "first nine months of 1999," and the "three months ended October 3, 1999," or the "1999 third quarter," we mean the periods from January 4, 1999 to October 3, 1999 and July 5, 1999 to October 3, 1999, respectively; and when we refer to the "nine months ended October 1, 2000," or the "first nine months of 2000," and the "three months ended October 1, 2000," or the "2000 third quarter," we mean the periods from January 3, 2000 to October 1, 2000 and July 3, 2000 to October 1, 2000, respectively.

As discussed in more detail in Note 2 to the accompanying condensed consolidated financial statements and in "Liquidity and Capital Resources" below, on October 25, 2000 we completed the sale, which we refer to as the Snapple Beverage Sale, of Snapple Beverage Group, Inc., the parent company of Snapple Beverage Corp., Mystic Brands, Inc. and Stewart's Beverages, Inc., and Royal Crown Company, Inc. to affiliates of Cadbury Schweppes plc, referred to herein as the Purchaser. Our former premium beverage business consisted of Snapple Beverage Group and our former soft drink concentrate business consisted of Royal Crown Company. Accordingly, the accompanying condensed consolidated financial statements (1) as of and for the three and nine-month periods ended October 1, 2000 report the premium beverage and soft drink concentrate businesses as discontinued operations and (2) for the three and nine-month periods ended October 3, 1999 have been reclassified to report the premium beverage and soft drink concentrate businesses as discontinued operations.

Results of Operations

Nine Months Ended October 1, 2000 Compared with Nine Months Ended October 3, 1999

Royalties, Franchise Fees and Other Revenues

Our royalties, franchise fees and other revenues, which are generated entirely from our restaurant franchising business, increased \$4.2 million, or 7.0%, to \$63.3 million for the nine months ended October 1, 2000 from \$59.1 million for the nine months ended October 3, 1999. This increase reflects an increase in royalty revenue of \$4.2 million, or 7.3%, resulting from an average net increase of 90, or 2.8%, franchised restaurants, a 1.6% increase in same-store sales of franchised restaurants and an increase of 0.03%, or 0.9%, in the average domestic royalty rate.

Our royalties, franchise fees and other revenues have no associated cost of sales.

General and Administrative

Our general and administrative expenses increased \$2.2 million, or 4.2%,

Edgar Filing: TRIARC COMPANIES INC - Form 10-Q/A

to \$52.9 million for the nine months ended October 1, 2000 from \$50.7 million for the nine months ended October 3, 1999. The increase in general and administrative expenses reflects (1) higher expenses of \$1.7 million from \$5.2 million in the first nine months of 1999 to \$6.9 million in the first nine months of 2000 related to the full period effect in 2000 compared with the period from May 3 to October 3 in 1999 of new executive salary arrangements and an executive bonus plan effective May 3, 1999, (2) increases of \$2.6 million in other compensation and related benefit costs, (3) provisions of \$1.2 million in the first nine months of 2000 for costs to support a change in distributors for a majority of franchisees in our restaurant franchising business for food and other products, (4) higher insurance costs of \$0.7 million and (5) other inflationary increases. These increases were partially offset by (1) non-recurring 1999 expenses of \$2.2 million related to our lease of an airplane from Triangle Aircraft Services Corporation, a company owned by our Chairman and Chief Executive Officer and President and Chief Operating Officer, through January 19, 2000 at which time we acquired 280 Holdings, LLC, the entity that at the time of the acquisition owned the airplane, (2) a \$1.7 million decrease to \$0.3 million for the nine months ended October 1, 2000 from \$2.0 million for the nine months ended October 3, 1999 in the capital structure reorganization related charges recognized by Triarc in the first nine months of 2000 related to equitable adjustments that were made in 1999 to the terms of then outstanding options under the stock option plan of Snapple Beverage Group (see below) and (3) the favorable settlement of insurance claims by the purchaser of an insurance subsidiary that we sold in 1998 resulting in the collection in the 2000 second quarter of a \$1.5 million note receivable that we received as a portion of the sales proceeds which was fully reserved at the time of sale.

The Snapple Beverage Group stock option plan provides for an equitable adjustment of options in the event of a recapitalization or similar event. The exercise prices of then outstanding options under the Snapple Beverage Group plan were equitably adjusted in 1999 to adjust for the effects of net distributions of \$91.3 million, principally consisting of transfers of cash and deferred tax assets from Snapple Beverage Group to Triarc partially offset by the effect of the contribution of Stewart's to Snapple Beverage Group effective May 17, 1999. We have accounted for the equitable adjustment in accordance with the intrinsic value method. In addition to reducing the exercise prices of the Snapple Beverage Group stock options which did not result in the recognition of any expense because those modifications to the options did not create a new measurement date under the intrinsic value method, a cash payment of \$51.34 per share for the options granted in 1997 and \$39.40 per share for the options granted in 1998 was due from us to the option holder following the exercise of the stock options and the occurrence of certain other events. The initial charge relating to the cash payment portion of these equitable adjustments was recorded in the 1999 first quarter and, therefore, the charge of \$2.0 million recognized by Triarc for the nine months ended October 3, 1999 includes the portion of the aggregate cash to be paid to the extent of the vesting of the stock options through October 3, 1999. The \$0.3 million charge recognized by Triarc for the nine months ended October 1, 2000 represents the portion of the cash to be paid in connection with the exercise of the stock options to the extent of the vesting of the options during that period, net of credits for forfeitures of non-vested stock options of terminated employees. As a result of the Snapple Beverage Sale on October 25, 2000, all outstanding Snapple Beverage Group stock options are no longer our responsibility. We expect to recognize additional pre-tax charges of less than \$0.1 million relating to this equitable adjustment through the October 25, 2000 sale date. The accrual for such cash payment recognized by Triarc, which was \$2.4 million as of October 1, 2000, will be reversed in the 2000 fourth quarter as a component of the gain on sale of the beverage businesses included in discontinued operations.

The \$1.5 million note received in connection with the sale of a former insurance subsidiary had not been previously recognized due to uncertainty surrounding its collection which was dependent on the favorable settlement of

Edgar Filing: TRIARC COMPANIES INC - Form 10-Q/A

insurance claims. The gain from realization of the note was included as a reduction of general and administrative expenses since the gain effectively represents an adjustment of prior period insurance reserves.

Depreciation and Amortization

Our depreciation and amortization expense increased \$0.3 million to \$4.1 million, or 7.5%, for the nine months ended October 1, 2000 from \$3.8 million for the nine months ended October 3, 1999. This increase in depreciation and amortization principally reflects the 2000 depreciation of \$1.3 million on the airplane since the acquisition of 280 Holdings on January 19, 2000, partially offset by a decrease in amortization of \$0.8 million reflecting (1) an increase in the estimated useful lives on \$8.6 million of airplane leasehold improvements as a result of the acquisition of 280 Holdings on January 19, 2000 and (2) a \$2.5 million payment made in 1997 for the option to continue to lease the airplane which, commencing in January 2000, was no longer amortized since the remaining unamortized portion was repaid to us in connection with the acquisition of 280 Holdings.

Interest Expense

Interest expense decreased \$2.2 million, or 55.8%, to \$1.8 million for the nine months ended October 1, 2000 from \$4.0 million for the nine months ended October 3, 1999. This decrease in interest expense is primarily attributable to (1) \$2.0 million of non-recurring 1999 interest accruals relating to income tax matters for which interest accruals are no longer necessary due to the finalization of our final income tax liabilities resulting from the Internal Revenue Service examination of our income tax returns for the tax years from 1989 to 1992 during the third quarter of 1999 and (2) \$0.9 million of 1999 interest expense on \$300.0 million of 10 1/4% senior subordinated notes due 2009 issued by Triarc Consumer Products Group, LLC, a subsidiary of ours, which was allocated to our restaurant franchising business in 1999 but which was no longer allocated in 2000, both partially offset by interest of \$1.1 million for the first nine months of 2000 on an \$18.0 million secured promissory note assumed in connection with the acquisition of 280 Holdings.

Investment Income, Net

Investment income, net increased \$12.7 million, or 83.7%, to \$28.0 million for the nine months ended October 1, 2000 from \$15.3 million for the nine months ended October 3, 1999. This increase reflects (1) \$16.1 million of higher recognized net gains from realized or unrealized, as applicable, gains or losses on our investments, which gains may not recur in future periods and of which \$10.3 million represents our portion of the gain on the sale of an available-for-sale security held by an investment limited liability company in which we invested, and (2) a \$1.0 million increase in equity in earnings of investment limited partnerships and similar investment entities accounted for under the equity method. Such increases were partially offset by (1) a \$3.0 million decrease in interest income on cash equivalents and short term investments and (2) a \$1.6 million provision recognized in the 2000 first quarter for unrealized losses on a short-term investment deemed to be other than temporary due to declines in the underlying economics of such equity security, which provision also may not recur in future periods. The decreased interest income is due to lower average amounts of cash equivalents in the first nine months of 2000 compared with the first nine months of 1999.

Gain on Sale of Business

Gain on sale of business for the nine months ended October 3, 1999 represents our \$1.0 million equity in a gain recognized during the 1999 third quarter from the sale of common stock issued by a subsidiary of a limited partnership in which we have an investment.

Edgar Filing: TRIARC COMPANIES INC - Form 10-Q/A

Other Income, Net

Other income, net decreased \$1.5 million, or 82.0%, to \$0.3 million for the nine months ended October 1, 2000 from \$1.8 million for the nine months ended October 3, 1999. This decrease was principally due to (1) a reduction of \$2.0 million in the first nine months of 2000 in our equity in the income or loss of investees other than investment limited partnerships and similar investment entities from income of \$0.5 million in the first nine months of 1999 to a loss of \$1.5 million in the first nine months of 2000, (2) a \$0.4 million decrease in our gains on lease terminations recognized by our restaurant franchising business in the first nine months of 2000 which result from the settlement of lease obligations related to the restaurants that were sold in 1997 which were not assumed by the purchaser and (3) a non-recurring \$0.3 million gain on the sale of warrants received in connection with the 1997 sale of all of our previously owned restaurants in the 1999 second quarter. The reduction in the equity in the income or loss of investees was principally due to \$1.6 million of equity in the write-down of certain assets of an investee in the 2000 second quarter. Such decreases were partially offset by the collection in the 2000 second quarter of \$0.9 million of a receivable from a former affiliate which was written off in years prior to 1999 due to such company filing for bankruptcy protection.

Income Taxes

The provision for income taxes represented effective rates of 41% for the nine months ended October 1, 2000 and 45% for the nine months ended October 3, 1999. The effective rate is lower in the first nine months of 2000 principally due to the impact of the amortization of non-deductible costs in excess of net assets of acquired companies, which we refer to as goodwill. Such effect is lower in the first nine months of 2000 due to higher projected 2000 full-year pre-tax income compared with the then projected 1999 full-year pre-tax income as of the end of the first nine months of 1999.

Discontinued Operations

Income (loss) from discontinued operations was a loss of \$8.6 million for the nine months ended October 1, 2000 compared with income of \$6.9 million for the nine months ended October 3, 1999. This \$15.5 million decline is principally a result of (1) the absence in the 2000 period of a \$12.2 million gain on sale of our propane business, of which \$11.0 million was from the July 1999 sale of 41.7% of our then remaining 42.7% interest in National Propane Partners, L.P. and (2) a \$4.9 million increase in the net loss from our discontinued beverage businesses which were sold on October 25, 2000. The \$4.9 million increase in the net loss of our beverage businesses, despite operating profit being essentially unchanged as discussed below, was principally due to the after-tax effect of increased interest expense resulting from higher average interest rates in the 2000 period and higher average levels of debt due to the full nine month effect in the 2000 period of a February 25, 1999 debt refinancing.

Revenues of the beverage businesses increased \$15.5 million, or 2.5%, to \$636.1 million for the nine months ended October 1, 2000 from \$620.6 million for the nine months ended October 3, 1999. Premium beverage revenues increased \$13.5 million, or 2.6%, principally due to increased sales volume resulting from our newer product introductions such as Snapple Elements(R), a product platform of herbally enhanced drinks introduced in April 1999, and Mystic Zotics(TM) introduced in April 2000 and cases sold to retailers through two premium beverage distributors principally reflecting the effect of an increased focus on our products as a result of our ownership of these distributors since their acquisitions on February 25, 1999 and January 2, 2000, respectively. These increases were partially offset by decreased sales volume of Whipper Snapple(R) and Mystic tropical fruit juices. Soft drink concentrate revenues increased \$2.0

Edgar Filing: TRIARC COMPANIES INC - Form 10-Q/A

million, or 2.1%, principally due to (1) a shift primarily during the first half of 2000 in private label sales to sales of higher priced flavor concentrates from sales of lower priced cola concentrates and (2) an increase in international branded concentrate volume. Domestic branded concentrate sales declined slightly as the effect of higher average selling prices resulting from domestic concentrate price increases effective November 1999 was more than offset by a decline in domestic branded concentrate volume.

Operating profit of the beverage businesses was essentially unchanged at \$60.9 million for both the nine months ended October 1, 2000 and October 3, 1999. Premium beverage operating profit declined \$2.5 million, or 5.1%, despite the increase in revenues principally due to (1) a slight decline in gross margins due to a shift in product mix to lower-margin products in the 2000 period and increased freight and handling costs as a result of beginning the use of warehousing for our finished products during the second half of 1999 and (2) an increase in operating expenses, including amortization of goodwill, trademarks and other intangibles, primarily as a result of the 1999 and 2000 acquisitions of two of our premium beverage distributors. These decreases were partially offset by a \$2.7 million reduction in the capital structure reorganization related charges which resulted from the cash payment component of a 1999 equitable adjustment of stock option prices under the Snapple Beverage Group stock option plan recognized by Snapple Beverage Group as previously explained in more detail with respect to the charge recognized by Triarc under "General and administrative" above. The reduction is due to the initial charge in the 1999 period including the cumulative vesting of the cash to be paid compared with the 2000 charge reflecting only the vesting during that period. Soft drink concentrate operating profit increased \$2.5 million principally due to (1) the effect of the increase in revenues and (2) an increase in gross margins resulting from higher average selling prices from domestic concentrate price increases and the conversion, commencing in December 1999, from the use of the raw material aspartame to the less costly Ace-K/sucralose blend in its diet products.

Our discontinued beverage operations had a provision for income taxes despite a loss before income taxes for both the nine months ended October 3, 1999 and October 1, 2000 principally due to the amortization of non-deductible goodwill and the differing impact of the mix of pre-tax loss or income among the consolidated entities since we file state income tax returns on an individual company basis.

Extraordinary Charges

The extraordinary charges of \$12.1 million in the first nine months of 1999 resulted from the early extinguishment of borrowings under the former credit facility of Snapple Beverage Group and RC/Arby's Corporation \$275.0 million of 9 3/4% senior secured notes due 2000 and consisted of (1) the write-off of previously unamortized (a) deferred financing costs of \$11.3 million and (b) interest rate cap agreement costs of \$0.1 million and (2) the payment of a \$7.7 million redemption premium on RC/Arby's 9 3/4% notes, both less income tax benefit of \$7.0 million.

Three Months Ended October 1, 2000 Compared with Three Months Ended
October 3, 1999

Royalties, Franchise Fees and Other Revenues

Our royalties, franchise fees and other revenues, which are generated entirely from our restaurant franchising business, increased \$1.7 million, or 8.1%, to \$22.6 million for the three months ended October 1, 2000 from \$20.9 million for the three months ended October 3, 1999. This increase principally reflects an increase in royalty revenue of \$1.4 million, or 7.0%, resulting from an average net increase of 89, or 2.8%, franchised restaurants, a 1.2% increase

Edgar Filing: TRIARC COMPANIES INC - Form 10-Q/A

in same-store sales of franchised restaurants and an increase of 0.03%, or 0.9%, in the average domestic royalty rate.

Our royalties, franchise fees and other revenues have no associated cost of sales.

General and Administrative

Our general and administrative expenses decreased \$2.1 million, or 11.1%, to \$16.8 million for the three months ended October 1, 2000 from \$18.9 million for the three months ended October 3, 1999. The decrease primarily reflects (1) lower expenses of \$3.5 million from \$4.8 million in the 1999 third quarter to \$1.3 million in the 2000 third quarter related to the new executive salary arrangements and an executive bonus plan effective May 3, 1999 and (2) non-recurring 1999 expenses of \$0.8 million related to our airplane lease as discussed in more detail in the comparison of the nine-month periods. Such decreases were partially offset by (1) increases of \$1.0 million in other compensation and related benefit costs, (2) provisions of \$0.7 million in the 2000 third quarter for costs to support a change in distributors for a majority of franchisees in our restaurant franchising business for food and other products, (3) higher insurance costs of \$0.2 million and (4) other inflationary increases, all as previously discussed in the comparison of the nine-month periods. The new executive bonus plan was approved by our stockholders in September 1999 and, accordingly, we recognized charges for executive bonuses during the 1999 third quarter for the five month period from the May 3, 1999 effective date through October 3, 1999 compared with only the three month period from July 3, 2000 through October 1, 2000 in the 2000 third quarter. In addition, executive bonuses were lower in the 2000 third quarter as a result of the decline in operating profit of our premium beverage business included in "Income (loss) from discontinued operations."

Depreciation and Amortization

Our depreciation and amortization expense remained unchanged at \$1.3 million for each of the three months ended October 1, 2000 and October 3, 1999.

Interest Expense

Interest expense decreased \$1.0 million, or 66.1%, to \$0.5 million for the three months ended October 1, 2000 from \$1.5 million for the three months ended October 3, 1999. This decrease in interest expense is primarily attributable to (1) \$0.8 million of non-recurring 1999 interest accruals relating to income tax matters for which interest accruals are no longer necessary due to the finalization of our income tax liabilities resulting from the Internal Revenue Service examination of our income tax returns for the tax years from 1989 to 1992 during the third quarter of 1999 and (2) \$0.5 million of 1999 interest on TPCG's 10 1/4% Notes which was allocated to our restaurant franchising business in 1999 but which was no longer allocated in 2000, partially offset by interest of \$0.4 million in the 2000 third quarter on an \$18.0 million secured promissory note assumed in connection with the acquisition of 280 Holdings, all as previously discussed in the comparison of the nine-month periods.

Investment Income, Net

Investment income, net increased \$3.2 million, or 81.9%, to \$7.0 million for the three months ended October 1, 2000 from \$3.8 million for the three months ended October 3, 1999 principally reflecting (1) \$2.9 million of higher recognized net gains in the 2000 third quarter from realized or unrealized, as applicable, gains or losses on investments and (2) a \$0.8 million increase in equity in earnings of investment limited partnerships and similar investment entities accounted for under the equity method, both partially offset by a decrease in interest income of \$0.6 million due to lower average amounts of cash

Edgar Filing: TRIARC COMPANIES INC - Form 10-Q/A

equivalents in the 2000 third quarter compared with the 1999 third quarter.

Gain on Sale of Business

Gain on sale of business for the three months ended October 3, 1999 represents our \$1.0 million equity in a gain recognized in the 1999 third quarter from the sale of common stock issued by a subsidiary of a limited partnership in which we have an investment.

Other Income, Net

Other income, net decreased \$0.3 million, or 76.0%, to \$0.1 million for the three months ended October 1, 2000 from \$0.4 million for the three months ended October 3, 1999. This decrease was primarily due to (1) a reduction of \$0.2 million in the 2000 third quarter in our equity in the income or loss of investees other than investment limited partnerships and similar investment entities from income of \$0.1 million in the 1999 third quarter to a loss of \$0.1 million in the 2000 third quarter and (2) a \$0.2 million decrease in our gains on lease terminations recognized by our restaurant franchising business in the 2000 third quarter as previously discussed in the comparison of the nine-month periods.

Income Taxes

The provision for income taxes represented effective rates of 39% for the three months ended October 1, 2000 and 50% for the three months ended October 3, 1999. The effective rate is lower in the 2000 third quarter than in 1999 principally due to the differing effect of catch up adjustments to the year-to-date effective rates as set forth in the comparison of the nine-month periods and to a lesser extent the impact of the amortization of non-deductible goodwill. The catch up effect of a year-to-date decrease in the 2000 estimated full-year effective tax rate reflecting an increase in projected full-year pre-tax income had the effect of lowering the 2000 third quarter tax rate while the catch up effect of a year-to-date increase in the 1999 estimated full-year effective tax rate reflecting a decrease in projected full-year pre-tax income had the effect of increasing the 1999 third quarter tax rate. The effect of the amortization of goodwill is lower in the 2000 third quarter due to higher pre-tax income for the 2000 third quarter than the 1999 third quarter.

Discontinued Operations

Income (loss) from discontinued operations was a loss of \$3.3 million for the three months ended October 1, 2000 compared with income of \$12.1 million for the three months ended October 3, 1999. This \$15.4 million decline is principally a result of (1) the absence in the 2000 third quarter of an \$11.3 million gain on sale of our propane business, of which \$11.0 million was from the July 1999 sale of the 41.7% of our then remaining 42.7% interest in National Propane Partners, L.P. and (2) a \$4.3 million increase in the net loss from our discontinued beverage businesses principally due to the after-tax effect of a decline in operating profit primarily attributable to a decrease in revenues, both as discussed below.

Revenues of the beverage businesses decreased \$9.2 million, or 4.0%, to \$220.6 million for the three months ended October 1, 2000 from \$229.8 million for the three months ended October 3, 1999. Premium beverage revenues decreased \$10.4 million, or 5.2%, principally due to decreased sales volume of Whipper Snapple(R) and Mystic tropical fruit juices partially offset by increases in sales volumes from our newer product introductions such as Snapple Elements(R) and Mystic Zotics(TM) introduced in April 1999 and April 2000, respectively, and cases sold to retailers through a premium beverage distributor principally reflecting the effect of an increased focus on our products as a result of our ownership of this distributor since its acquisition on January 2, 2000. The

Edgar Filing: TRIARC COMPANIES INC - Form 10-Q/A

rainy and cooler summer weather experienced in our major Northeast premium beverage markets in the 2000 third quarter contributed significantly to the overall decline in sales volume. Soft drink concentrate revenues increased \$1.2 million, or 4.2%, principally due to increased volume of international branded concentrate sales. Domestic branded concentrate sales increased only slightly as the effect of higher average selling prices resulting from domestic concentrate price increases effective November 1999 was substantially offset by a decline in domestic branded concentrate volume.

Operating profit of the beverage businesses decreased \$7.9 million, or 26.0%, to \$22.3 million for the three months ended October 1, 2000 from \$30.2 million for the three months ended October 3, 1999. Premium beverage operating profit declined \$8.9 million, or 34.3%, due principally to (1) the effect of the decline in revenues, (2) a slight decline in gross margins due to a shift in product mix to lower-margin products in the 2000 third quarter and increased freight and handling costs as a result of increased use of warehousing for our finished products and (3) increased operating expenses resulting principally from our recent acquisition of one of our premium beverage distributors. Soft drink concentrate operating profit increased \$1.0 million, or 23.8%, due to (1) the effect of the increase in revenues and (2) an increase in gross margins resulting from higher average selling prices from domestic concentrate price increases and the conversion, commencing in December 1999, from the use of the raw material aspartame to the less costly Ace-K/sucralose blend in its diet products.

Our discontinued beverage operations had provisions for income taxes representing effective rates of 455% and 90% for the three months ended October 1, 2000 and October 3, 1999, respectively, which are significantly higher than the United States Federal statutory income tax rate of 35%, principally due to (1) the amortization of non-deductible goodwill, (2) the differing impact of the mix of pre-tax loss or income among the consolidated entities since we file state income tax returns on an individual company basis and (3) the effect on the quarters of catch-up adjustments of year-to-date increases in the estimated full year effective tax rates due to decreases in the then estimates of full year pre-tax income of the discontinued operations.

LIQUIDITY AND CAPITAL RESOURCES

Snapple Beverage Sale

On October 25, 2000, we completed the sale of Snapple Beverage Group, our premium beverage business comprised of Snapple, Mystic and Stewart's, and Royal Crown, our soft drink concentrate business, to affiliates of Cadbury Schweppes plc for \$901.2 million in cash, subject to post-closing adjustment, and the assumption of \$425.1 million of debt and related accrued interest. The assumed debt and accrued interest consists of (1) \$300.0 million of 10 1/4% senior subordinated notes due 2009 co-issued by Triarc Consumer Products Group, LLC, the parent company of Snapple Beverage Group and Royal Crown and a subsidiary of Triarc, and Snapple Beverage Group, (2) \$119.1 million, net of unamortized original issue discount of \$240.9 million, of Triarc's zero coupon convertible subordinated debentures due 2018 and (3) \$6.0 million of accrued interest. Of the cash proceeds, \$426.6 million was utilized to repay outstanding obligations under a senior bank credit facility maintained by Snapple, Mystic, Stewart's, Royal Crown and RC/Arby's Corporation, the parent company of Royal Crown and a subsidiary of Triarc Consumer Products Group.

Following the Snapple Beverage Sale, we have in excess of \$400.0 million of cash and investments, net of current cash tax liabilities related to the sale, and approximately \$20.8 million of long-term debt. We are presently evaluating our options for the use of our significant cash and investments position, including business acquisitions, repurchases of Triarc common shares (see "Treasury Stock Purchases" below) and investments.

Edgar Filing: TRIARC COMPANIES INC - Form 10-Q/A

This discussion of liquidity and capital resources reflects only our continuing operations and excludes any effect of our premium beverage and soft drink concentrate businesses sold on October 25, 2000 and the long-term debt assumed by affiliates of Cadbury Schweppes plc or repaid in connection with the sale of the two businesses.

Cash Flows From Continuing Operations

Our consolidated operating activities from continuing operations provided cash and cash equivalents, which we refer to in this discussion as cash, of \$34.8 million during the nine months ended October 1, 2000 reflecting (1) income from continuing operations of \$19.3 million, (2) non-cash charges, principally deferred income tax provision and depreciation and amortization, of \$21.4 million and (3) cash provided by changes in operating assets and liabilities of \$4.2 million, all partially offset by operating investment adjustments of \$10.1 million.

We expect continued positive cash flows from operations during the remainder of 2000.

Working Capital and Capitalization

Working capital of our continuing operations, which equals current assets less (1) net current assets of discontinued operations and (2) current liabilities, was \$167.4 million at October 1, 2000, reflecting a current ratio, which equals current assets, excluding net current assets of discontinued operations, divided by current liabilities, of 3.7:1. Working capital of our continuing operations decreased \$58.5 million from \$225.9 million at January 2, 2000 principally due to (1) the repurchase of \$42.3 million of our Class B common stock discussed below under "Treasury Stock Purchases," (2) advances aggregating \$25.3 million to discontinued operations, which were contributed to the capital of the discontinued operations in connection with the Snapple Beverage Sale and are reflected in "Net cash used in discontinued operations" in the accompanying condensed consolidated statement of cash flows for the nine months ended October 1, 2000, and (3) cash capital expenditures of \$10.4 million, all partially offset by working capital provided from continuing operations.

Our total capitalization at October 1, 2000 was a net deficit of \$88.8 million consisting of a stockholders' deficit of \$153.4 million partially offset by \$20.8 million of long-term debt, including current portion, and a \$43.8 million forward purchase obligation for common stock discussed below under "Treasury Stock Purchases." Our total capitalization decreased \$14.6 million from a net deficit of \$74.2 million at January 2, 2000 principally due to the repurchase of \$42.3 million of our Class B common stock discussed below partially offset by (1) the assumption of \$18.0 million of indebtedness in connection with the acquisition of 280 Holdings also discussed below under "Capital Expenditures," and (2) net income of \$10.7 million.

Long-Term Debt

Our continuing operations have long-term debt of approximately \$20.8 million as of October 1, 2000, of which \$16.9 million is the outstanding principal amount under an 8.95% secured promissory note payable over seven years with \$0.4 million due during the fourth quarter of 2000. This note was assumed during the first quarter of 2000 in connection with the acquisition of 280 Holdings described below under "Capital Expenditures." Our total scheduled long-term debt repayments during the fourth quarter of 2000 are \$0.8 million consisting principally of the \$0.4 million due on the 8.95% secured promissory note and a final installment of \$0.4 million on an equipment note.

Edgar Filing: TRIARC COMPANIES INC - Form 10-Q/A

Guarantees

On July 19, 1999 we sold through our wholly-owned subsidiary, National Propane Corporation, 41.7% of our remaining 42.7% interest in our former propane business retaining a 1% special limited partner interest in National Propane, L.P. National Propane Corporation, whose principal asset following the sale of the propane business is a \$30.0 million intercompany note receivable from Triarc, agreed that while it remains a special limited partner of National Propane, L.P., it would indemnify the purchaser of National Propane, L.P. for any payments the purchaser makes related to the purchaser's obligations under certain of the debt of National Propane, L.P., aggregating approximately \$138.0 million as of October 1, 2000, if National Propane, L.P. is unable to repay or refinance such debt, but only after recourse by the purchaser to the assets of National Propane, L.P. Under the purchase agreement, either the purchaser or National Propane Corporation may require National Propane L.P. to repurchase the 1% special limited partner interest. We believe that it is unlikely that we will be called upon to make any payments under this indemnity.

Arby's, Inc., a subsidiary of RC/Arby's, sold all of its company-owned restaurants in 1997. Arby's remains contingently responsible for operating and capitalized lease payments, if the purchaser of the Arby's restaurants does not make the required lease payments, assumed by the purchaser in connection with the restaurants' sale, of approximately \$117.0 million as of May 1997 when the Arby's restaurants were sold and \$83.0 million as of October 1, 2000, assuming the purchaser of the Arby's restaurants has made all scheduled payments through that date. Triarc has guaranteed mortgage notes and equipment notes payable to FFCA Mortgage Corporation assumed by the purchaser in connection with the restaurants' sale of \$54.7 million as of May 1997 and \$47.2 million as of October 1, 2000, assuming the purchaser of the Arby's restaurants has made all scheduled repayments through that date. In addition, a subsidiary of ours is a co-obligor with the purchaser of the Arby's restaurants and Triarc is a guarantor under a loan, the repayments of which are being made by the purchaser, with an aggregate principal amount of \$0.5 million as of October 1, 2000.

On January 12, 2000 we entered into an agreement to guarantee \$10.0 million principal amount of senior notes issued by MCM Capital Group, Inc., an 8.4% equity investee of ours, to a major financial institution, which original principal was outstanding as of October 1, 2000. Such guarantee was reduced to \$8.0 million as a result of our payment of \$2.0 million of fees to the financial institution referred to below in connection with the Snapple Beverage Sale. In consideration for the guarantee, we received a fee of \$0.2 million and warrants to purchase 100,000 shares of MCM Capital Group common stock at \$.01 per share with an estimated fair value on the date of grant of \$0.3 million. The \$8.0 million guaranteed amount will be further reduced by (1) any repayments of the notes, (2) any purchases of the notes by us and (3) the amount of certain additional investment banking or financial advisory services fees paid to the financial institution or its affiliates or, under certain circumstances, other financial institutions by us, MCM Capital Group or another significant stockholder of MCM Capital Group or any of their affiliates. Certain of our officers, including entities controlled by them, collectively own approximately 15.7% of MCM Capital Group and are not parties to this note guaranty and could indirectly benefit from it.

In addition to the note guaranty, we and certain other stockholders of MCM Capital Group, including our officers referred to above, on a joint and several basis, have entered into agreements to guarantee \$15.0 million of revolving credit borrowings of a subsidiary of MCM Capital Group, of which we would be responsible for approximately \$1.8 million assuming all of the parties to the guaranties of the revolving credit borrowings and certain related agreements fully perform. As of October 1, 2000 MCM Capital Group had \$14.6 million of outstanding revolving credit borrowings. On April 3, 2000 we purchased a \$15.0 million certificate of deposit from the financial institution referred to above

Edgar Filing: TRIARC COMPANIES INC - Form 10-Q/A

which on November 17, 2000 was replaced by United States government agency bonds. Such bonds under the guaranties of the revolving credit borrowings are subject to set off under certain circumstances if the parties to these guaranties of the revolving credit borrowings and related agreements fail to perform their obligations thereunder. MCM Capital Group has encountered cash flow and liquidity difficulties. We currently believe that it is possible, but not probable, that we will be required to make payments under the note guaranty and/or the bank guaranties.

Capital Expenditures

Cash capital expenditures amounted to \$10.4 million during the nine months ended October 1, 2000. On January 19, 2000, we acquired 280 Holdings, the entity which owns the airplane that had previously been leased from Triangle Aircraft Services through January 19, 2000, for \$27.2 million. The purchase price consisted of (1) cash of \$9.2 million, included in the \$10.4 million of cash capital expenditures referred to above, and (2) the assumption of the \$18.0 million 8.95% secured promissory note payable. The purchase price was based on independent appraisals and was approved by our Audit Committee and Board of Directors. As a result of the acquisition of 280 Holdings, the effect on our estimated costs for the airplane for the remainder of 2000 compared with the fourth quarter of 1999 will be lower depreciation and amortization of \$0.2 million, the elimination of rental expense under the airplane lease with Triangle Aircraft Services of \$0.8 million, the incurrence of interest expense on the 8.95% secured promissory note of \$0.4 million and lower investment income of approximately \$0.1 million with a resulting increase in income from continuing operations before income taxes of approximately \$0.5 million.

We expect that cash capital expenditures will approximate \$2.3 million for the remainder of 2000 for which there were \$0.9 million of outstanding commitments as of October 1, 2000.

Income Taxes

The Internal Revenue Service has completed its examination of our Federal income tax returns for the fiscal year ended April 30, 1993 and transition period ended December 31, 1993. In connection with this examination, our net operating loss carryforwards were increased by \$7.5 million and we were entitled to a refund of \$2.7 million. The IRS paid \$1.5 million to us in July 2000 and offset the remaining \$1.2 million against amounts otherwise due the IRS from audits of years ending prior to April 30, 1993. We had settled the final income tax liabilities resulting from the IRS examination of our income tax returns for the tax years from 1989 to 1992 during 1999. However, the IRS has not yet finalized the computation of the remaining interest due from us as a result of the audits of those years. We expect to pay approximately \$1.0 million of interest accrued in prior years upon the finalization of the interest computation by the IRS during the fourth quarter of 2000.

Treasury Stock Purchases

In May 2000, our management was authorized, when and if market conditions warrant and to the extent legally permissible, to repurchase up to \$30.0 million of our Class A common stock. This authorization will expire in May 2001. We have not purchased any shares during the first nine months of 2000 under this program or a similar one that expired on May 7, 2000. We cannot assure you that we will make any or all of the \$30.0 million of repurchases authorized under the current program.

Pursuant to a contract entered into in August 1999, on August 10, 2000 we repurchased an aggregate of 1,999,207 shares of our Class B common stock held by affiliates of Victor Posner, our former Chairman and Chief Executive Officer, for \$42.3 million. Under the contract, the remaining purchase of 1,999,207

Edgar Filing: TRIARC COMPANIES INC - Form 10-Q/A

shares is to occur on or before August 19, 2001 for \$43.8 million. The August 10, 2000 payment and the remaining payment are at negotiated fixed prices of \$21.18 and \$21.93 per share, respectively, based on the fair market value of our Class A common stock at the time the transaction was negotiated.

Cash Requirements

As of October 1, 2000, our consolidated cash requirements for the fourth quarter of 2000, exclusive of operating cash flow requirements including the payment of approximately \$1.0 million of interest accrued in connection with prior years IRS examinations, consist principally of (1) capital expenditures of approximately \$2.3 million, (2) scheduled debt principal repayments aggregating \$0.8 million, (3) the cost of business acquisitions, if any, and (4) repurchases, if any, of our Class A common stock for treasury under the repurchase program which expires in May 2001. We anticipate meeting all of these requirements through (1) an aggregate \$197.9 million of existing cash and cash equivalents and short-term investments, net of \$11.6 million of obligations for short-term investments sold but not yet purchased included in "Accrued expenses" in our accompanying condensed consolidated balance sheet as of October 1, 2000, (2) additional cash and cash equivalents and short-term investments as a result of the Snapple Beverage Sale and (3) cash flows from operations.

Planned Financing

On November 3, 2000 we announced that Arby's intends to offer approximately \$290.0 million of fixed rate insured securitization notes, through a special purpose financing vehicle, pursuant to Rule 144A of the Securities Act of 1933, as amended. The notes will be secured by Arby's franchise royalty payments. We expect to receive net proceeds of approximately \$248.0 million, which is net of approximately \$30.0 million of proceeds to be held in a reserve account and approximately \$12.0 million of estimated transaction fees and expenses. The net proceeds would initially increase our position in cash equivalents. The subsequent uses of such proceeds may include business acquisitions, repurchases of Triarc common shares and investments. The financing is expected to close by the end of the fourth quarter of 2000. However, there can be no assurance that we will be able to consummate this financing. Assuming this financing is completed, monthly royalties and franchise fee payments received from Arby's domestic and Canadian franchisees will be used in priority order to pay operating expenses of the special purpose financing entity, servicer fees to cover Arby's costs of administering the franchise license agreements, insurance premiums on the securitization notes and interest and principal on the securitization notes. Any residual cash, subject to holdback in the case that a debt service coverage ratio as defined in the securitization covenants is not met, will be available monthly for distribution to Triarc.

Triarc

Triarc is a holding company whose ability to meet its cash requirements is primarily dependent upon its (1) aggregate \$151.7 million of cash and cash equivalents and short-term investments, net of \$11.6 million of obligations for short-term investments sold but not yet purchased, as of October 1, 2000, (2) additional cash and cash equivalents and short-term investments as a result of the Snapple Beverage Sale, (3) investment income on its cash equivalents and short-term investments and (4) cash flows from Arby's, including (a) reimbursement in connection with the providing of certain management services through October 31, 2000, (b) payments under a tax-sharing agreement and (c) loans, distributions and dividends from Arby's prior to or in connection with any consummation of the planned financing discussed above.

Triarc has indebtedness to third parties under the 8.95% secured promissory note payable of \$16.9 million as of October 1, 2000 assumed in connection with the acquisition of 280 Holdings which requires principal payments of \$0.4

Edgar Filing: TRIARC COMPANIES INC - Form 10-Q/A

million during the fourth quarter of 2000. Triarc also has a \$30.0 million intercompany demand note payable to National Propane Corporation. The note, as amended, bears interest payable semi-annually in cash at the specified minimum interest rate under the Internal Revenue Code, which was 6.5% at October 1, 2000. While this note requires the payment of interest in cash, Triarc currently expects to receive dividends from National Propane Corporation equal to the cash interest. The note requires no principal payments during 2000, assuming no demand is made thereunder, and none is anticipated.

Triarc's principal cash requirements for the fourth quarter of 2000 are (1) capital expenditures of approximately \$2.1 million, (2) the payment of approximately \$1.0 million of interest accrued in connection with prior years IRS examinations, (3) debt principal repayments of \$0.4 million on the secured promissory note, (4) the cost of business acquisitions by Triarc, if any, (5) repurchases, if any, of our Class A common stock for treasury under the repurchase program which expires in May 2001 and (6) payments of general corporate expenses. Triarc expects to be able to meet all of these cash requirements through (1) existing cash and cash equivalents and short-term investments, (2) additional cash and cash equivalents and short-term investments as a result of the Snapple Beverage Sale, (3) investment income, (4) receipts from Arby's under management services and tax-sharing agreements and (5) loans, distributions and dividends from Arby's prior to or in connection with any consummation of the planned financing discussed above.

Legal and Environmental Matters

We are involved in litigation, claims and environmental matters incidental to our businesses. We have reserves for legal and environmental matters of \$1.7 million as of October 1, 2000. Although the outcome of these matters cannot be predicted with certainty and some of these matters may be disposed of unfavorably to us, based on currently available information and given our reserves, we do not believe that these legal and environmental matters will have a material adverse effect on our consolidated financial position or results of operations.

In connection with a class action lawsuit commenced in the Delaware Court of Chancery in June 1997 which asserted claims relating to certain awards of compensation in 1994-1997 to Nelson Peltz, our Chairman and Chief Executive Officer and a director, and Peter May, our President and Chief Operating Officer and a director, in August 2000 the parties to the lawsuit entered into a settlement agreement whereby, subject to the Court's approval: (1) the case will be dismissed with prejudice; (2) Messrs. Peltz and May will deliver a three-year note payable to us in the aggregate amount of \$5.0 million; and (3) Messrs. Peltz and May will surrender an aggregate of 775,000 performance options awarded to them in 1994. On November 20, 2000 the Court held a final hearing to determine, among other things, whether to approve the settlement. At that hearing, the court took the issue under advisement. Should the settlement ultimately be approved, we would record pre-tax income of \$5.0 million at that time for the payment due from Messrs. Peltz and May.

Seasonality

Our continuing operations are not significantly impacted by seasonality, however our restaurant franchising royalty revenues are somewhat higher in our fourth quarter and somewhat lower in our first quarter.

Recently Issued Accounting Pronouncements

In June 1998 the Financial Accounting Standards Board issued Statement of Financial Accounting Standards No. 133 "Accounting for Derivative Instruments and Hedging Activities." Statement 133 provides a comprehensive standard for the recognition and measurement of derivatives and hedging activities. The standard

Edgar Filing: TRIARC COMPANIES INC - Form 10-Q/A

requires derivatives be recorded on the balance sheet at fair value and establishes more restrictive criteria for hedge accounting. Statement 133, as amended by Statements of Financial Accounting Standards Nos. 137 and 138, is effective for our fiscal year beginning January 1, 2001. Although we have not yet completed the process of identifying all of our derivative instruments, the only derivatives we believe we have are the conversion component of our short-term investments in convertible bonds, put and call options on equity and debt securities and a forward purchase obligation for our common stock. Since the derivative in our common stock is excluded from the derivatives within the scope of Statement 133 and since all of these derivatives are currently carried at fair value, the accounting for them would not be impacted by Statement 133. As such, the requirement to state the conversion component of our investments in convertible bonds and the put and call options at fair value should have no impact on our consolidated financial position or results of operations. We historically have not had transactions to which hedge accounting applied and, accordingly, the more restrictive criteria for hedge accounting in Statement 133 should have no effect on our consolidated financial position or results of operations. However, the provisions of Statement 133 are complex and since we have not yet completed the process of identifying all of our derivative instruments, we are unable to determine at this time the impact it will have on our consolidated financial position and results of operations.

In December 1999 the Securities and Exchange Commission issued Staff Accounting Bulletin No. 101, "Revenue Recognition in Financial Statements," which, as amended, would be required to be implemented no later than our fourth quarter of fiscal 2000. However, in our continuing restaurant franchise operations, we record revenues in accordance with Statement of Financial Accounting Standards No. 45, "Accounting for Franchise Fee Revenue," which is excluded from the guidance under Bulletin 101. Accordingly, Bulletin 101 will not have any impact on our consolidated financial position or results of operations.
