**Item 4.02(a) Non-Reliance on Previously issued Financial Statements or completed Interim Review.**

As part of its June 30, 2005 year-end closing process, Enercorp identified errors that resulted in a restatement of prior period financial statements. Restated financial statements for the quarters ended December 31, 2004 and March 31, 2005 have been included in the amended reports in the form 10Q/A for both these periods.

Management concluded that the realized loss from the sale of some portfolio investments in December 2004 was understated by \$380,194. This loss was mistakenly classified as unrealized loss in the equity section of statement of assets and liabilities. The amended reports reflect a realized loss on the sale of investments of \$380,194, reported in the income statement for three and six month period ended December 31, 2004 and nine month period ended March 31, 2005. As a consequence of this correction, the amended reports reflect a decrease of \$380,194 in the unrealized loss on the investments in the equity section of statement of assets and liabilities as of December 31, 2004 and March 31, 2005.

The annual report in the form 10K for the fiscal year ending June 30, 2005 filed on September 28, 2005, also reflects such amendments.
