SASOL PROVIDES ADDITIONAL HISTORICAL DISCLOSURE FOR PERFORMANCE CHEMICALS SEGMENT

On 1 July 2014, Sasol introduced a value chain-based operating model for the group, replacing Sasol's previous operating model, which was based on business units organised by product lines. This resulted in a change of its segmental reporting for the 2015 financial year. In order to assist its investors, analysts and other stakeholders to better understand the new segmental reporting structure, Sasol published revised historical segmental reporting for its 2013, 2014 and half-year 2014 financial periods on 21 November 2014. This included other non-financial information, such as Business Performance Metrics for these periods.

Following the publication of this information in November last year, Sasol has been engaging with various stakeholders regarding its new operating model and the revised segmental disclosure. Based on feedback received during these interactions, Sasol has decided to provide some additional historical performance metrics for its Performance Chemicals segment. These additional metrics will also be provided in future quarterly releases of the Business Performance Metrics.
