**Data I/O Reports Fourth Quarter and Year 2013 Results**

**Redmond, WA, Thursday, February 27, 2014** – Data I/O Corporation (NASDAQ: DAIO), the leading global provider of advanced programming and IP management solutions for flash, flash-memory based intelligent devices and microcontrollers, today announced financial results for the fourth quarter and year ended December 31, 2013.

**Summary**

- Net sales of \$18.7 million in 2013, up 9.6% compared to \$17.1 million in 2012. Net sales of \$3.3 million in Q4 2013, down 10.8% compared to \$3.7 million in Q4 2012.
- Net loss of \$1.6 million in Q4 2013, compared to a net loss of \$3.4 million in Q4 2012.
- Bookings of \$3.7 million in Q4 2013, up from \$3.5 million in Q4 2012. Backlog of \$1.9 million at December 31, 2013, up from \$0.9 million at December 31, 2012. The PSV7000 automated programming system began shipping.
- Cash was \$10.4 million at December 31, 2013, up \$132,000 during the fourth quarter.

“Q4 was a weak close to an otherwise improved year” stated Anthony Ambrose, President and CEO. “As we commented last quarter, bookings decelerated during the third quarter and continued to be weak until December. We are seeing a stronger start in the first two months of 2014, compared to the same period in the fourth quarter of 2013, with orders for automated handlers leading the increase”.

“We are on track with our multi-year plan announced last year” said Ambrose. “Our strategy is to deliver new and exciting products and control our costs as the means to recapture market share and grow a profitable company. Operating expenses (excluding restructuring and impairment) were down about \$2M from 2012. The actions we took in 2013 will continue to payoff in 2014. We have lowered our breakeven in 2014 to approximately \$4.7M/quarter of revenue, with a normal product mix, down from \$5.25M in the second half of 2013. We have announced and shipped our newest automated programming solution, the PSV7000. We were pleased with the European launch at the

Productronica trade show in November, where the PSV7000 won a best of show award and we met with many qualified global buyers across multiple markets. We will ramp up the PSV7000 production and continue to bring new features and products to market in 2014.”
