TO THE STOCKHOLDERS

For the six months ended June 30, 2002, our stockholders experienced a decrease of 16.5% on their investment in our Common Shares (assuming reinvestment of all dividends). The net asset value per Common Share decreased 13.6%. By comparison, our benchmark, the Standard & Poor's 500 Stock Index (including income), declined 13.2%. For the twelve months ended June 30, 2002, the results were negative as well. Our stockholders experienced a decrease of 21.3% and the net asset value per Common Share decreased 15.1%; these compare with a decline of 18% for the S&P 500. During each period, the discount at which our shares traded increased moderately and at June 30, 2002, it was 7.9%.

As set forth in the accompanying financial statements (unaudited), as of June 30, 2002, the net assets applicable to the Company's Common Stock were \$935,286,977, equal to \$30.08 per Common Share.

The decrease in net assets resulting from operations for the six months ended June 30, 2002 was \$148,701,738. During this period, net realized loss on securities sold was \$20,031,348 and the decrease in unrealized appreciation was \$124,588,557. Net investment income for the six months was \$1,318,167 and distributions to preferred stockholders amounted to \$5,400,000.

During the six months, 141,500 shares of the Company's Common Stock were repurchased for \$4,171,536 at an average discount from net asset value of 8.5%.

The decline in equities, now in its third year, accelerated in the period just ended and may be approaching a climax. We have had virtually no exposure to the debacle related to the telecommunications industry nor to any of the headline-grabbing examples of corporate malfeasance. Our cash reserves, furthermore, remain substantial. That our portfolio has declined in line with the S&P 500 benchmark, nonetheless, reflects the fact that stock valuations have remained high when viewed historically - an insuperable burden in the context of only modest economic recovery.

Our major holdings remain largely unchanged. Without exception they are sound, growing enterprises whose ownership should prove rewarding over time.

NOTES TO FINANCIAL STATEMENTS (Unaudited)

-----  
General American Investors

## 1. Significant Accounting Policies

General American Investors Company, Inc. (the "Company"), established in 1927, is registered under the Investment Company Act of 1940 as a closed-end, diversified management investment company. It is internally managed by its officers under the direction of the Board of Directors.

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Certain prior year financial statement items have been reclassified to conform to the current year presentation.

a. SECURITY VALUATION Securities traded on securities exchanges or on the NASDAQ National Market System are valued at the last reported sales price on the last business day of the period. Listed and NASDAQ securities for which no sales are reported on that day and other securities traded in the over-the-counter market are valued at the last bid price (asked price for open short positions) on the valuation date. Corporate discount notes are valued at amortized cost, which approximates market value. Special holdings are valued at fair value in the opinion of the Directors. In determining fair value, in the case of restricted shares, consideration is given to cost, operating and other financial data and, where applicable, subsequent private offerings or market price of the issuer's unrestricted shares (to which a 30 percent discount is applied); for limited partnership interests, fair value is based upon an evaluation of the partnership's net assets.

b. SHORT SALES The Company may make short sales of securities for either speculative or hedging purposes. When the Company makes a short sale, it borrows the securities sold short from a broker; in addition, the Company places cash with that broker and securities in a segregated account with the custodian, both as collateral for the short position. The Company may be required to pay a fee to borrow the securities and may also be obligated to pay any dividends declared on the borrowed securities. The Company will realize a gain if the security price decreases and a loss if the security price increases between the date of the short sale and the date on which the Company replaces the borrowed securities.

## Edgar Filing: GENERAL AMERICAN INVESTORS CO INC - Form N-30D

c. FEDERAL INCOME TAXES The Company's policy is to fulfill the requirements of the Internal Revenue Code applicable to regulated investment companies and to distribute substantially all taxable income to its stockholders. Accordingly, no provision for Federal income taxes is required.

d. OTHER As customary in the investment company industry, securities transactions are recorded as of the trade date. Dividend income and distributions to stockholders are recorded as of the ex-dividend dates.

### 2. Capital Stock and Dividend Distributions

The authorized capital stock of the Company consists of 50,000,000 shares of Common Stock, \$1.00 par value, and 10,000,000 shares of Preferred Stock, \$1.00 par value, of which 31,090,063 shares and 6,000,000 shares, respectively, were outstanding at June 30, 2002. On June 19, 1998, the Company issued and sold 6,000,000 shares of its 7.20% Tax-Advantaged Cumulative Preferred Stock. The Preferred Shares are noncallable for 5 years and have a liquidation preference of \$25.00 per share plus an amount equal to accumulated and unpaid dividends to the date of redemption.

The Company is required to allocate distributions from long-term capital gains and other types of income proportionately among holders of shares of Common Stock and Preferred Stock. To the extent that dividends on the shares of Preferred Stock are not paid from long-term capital gains, they will be paid from ordinary income or net short-term capital gains or will represent a return of capital.

Under the Investment Company Act of 1940, the Company is required to maintain an asset coverage of at least 200% for the Preferred Stock. In addition, pursuant to the Rating Agency Guidelines, the Company is required to maintain a certain discounted asset coverage for its portfolio that equals or exceeds the Basic Maintenance Amount under the guidelines established by Moody's Investors Service, Inc. The Company has met these requirements since the issuance of the Preferred Stock.

The holders of Preferred Stock have voting rights equivalent to those of the holders of Common Stock (one vote per share) and, generally, vote together with the holders of Common Stock as a single class.

At all times, holders of Preferred Stock will elect two members of the Company's Board of Directors and the holders of Preferred and Common Stock, voting as a single class, will elect the remaining directors. If the Company fails to pay dividends on the Preferred Stock in an amount equal to two full years' dividends, the holders of Preferred Stock will have the right to elect a majority of the directors. In addition, the Investment Company Act of 1940 requires that approval of the holders of a majority of any outstanding preferred shares, voting separately as a class, would be required to (a) adopt any plan of reorganization that would adversely affect the Preferred Stock and (b) take any action requiring a vote of security holders, including, among other things, changes in the Company's subclassification as a closed-end investment company or changes in its fundamental investment policies.

In accordance with Emerging Issues Task Force Topic No. D-98, "Classification and Measurement of Redeemable Securities," effective for the current period, the Company has reclassified its Preferred Stock outside of permanent equity in the Statement of Assets and Liabilities. In addition, distributions to Preferred Stockholders are now classified as a component of the "Increase (Decrease) in Net Assets Resulting from Operations" in the Statements of Operations and of Changes in Net Assets and as a component of the "Total from Investment Operations" in the Financial Highlights. This change has no impact on the Net Assets Applicable to the Common Stock of the Company.

### INDEPENDENT ACCOUNTANTS' REVIEW REPORT

---

To the Board of Directors and Stockholders of  
GENERAL AMERICAN INVESTORS COMPANY, INC.

We have reviewed the accompanying statement of assets and liabilities of General American Investors Company, Inc., including the statements of investments and securities sold short, as of June 30, 2002, and the related statements of operations and changes in net assets and financial highlights for the six month period ended June 30, 2002. These financial statements and financial highlights are the responsibility of the Company's management.

We conducted our review in accordance with standards established by the American Institute of Certified Public Accountants. A review of interim financial information consists principally of applying analytical procedures to financial data, and making inquiries of persons responsible for financial and accounting matters. It is substantially less in scope than an audit in accordance with generally accepted auditing standards, the objective of which is the expression of an opinion regarding the financial statements taken as a whole. Accordingly, we do not express such an opinion.

Based on our review, we are not aware of any material modifications that should be made to the interim financial statements referred to above for them to be in conformity with accounting principles generally accepted in the United States.

We have previously audited, in accordance with generally accepted auditing standards, the statement of changes in net assets for the year ended December 31, 2001 and financial highlights for each of the five years in the period then ended and in our report, dated January 15, 2002, we expressed an unqualified opinion on such financial statement and financial highlights.
