of Operations," is instead being furnished under Item 9, "Regulation FD
Disclosure."

GMAC SECOND QUARTER 2003 EARNINGS SUMMARY

General Motors Acceptance Corporation (GMAC) recorded its highest quarterly
earnings ever in the second quarter of 2003, in large part due to record results
at the Mortgage Group. Consolidated net income of \$834 million was up \$403
million from the \$431 million earned in the same quarter of 2002.

For the quarter, net income from financing operations totaled \$396 million, up
\$49 million from the \$347 million earned in the prior year. The increase
reflects lower credit loss provisions, which more than offset the unfavorable
impact of lower net interest margins and continued weakness in lease termination
values.

GMAC Insurance Holdings, Inc. generated net income of \$23 million in the second
quarter of 2003, down \$3 million from the same period in 2002. While
underwriting income increased, earnings were adversely affected by a write-down
of certain investment security issues that have not sufficiently recovered in
value during the recent strengthening in equity markets.

GMAC Mortgage Group, Inc. achieved another record quarter with earnings of \$415
million, reflecting exceptionally strong origination volume in the residential
sector and continued strong results at the commercial mortgage operations.
Earnings were up \$357 million compared to the second quarter last year, when
results were negatively impacted by considerably higher write-downs of mortgage
servicing rights.
