Georgia-Pacific Corporation - Georgia-Pacific Group
Canadian Employees Stock Purchase Plan

Notes to Financial Statements

December 31, 2002

1. General

The Georgia-Pacific Corporation - Georgia-Pacific Group Canadian Employees Stock Purchase Plan [the "Plan"], formerly the Fort James Corporation Canadian Employees Stock Purchase Plan, was originally adopted by the board of directors of the Fort James Corporation ["Fort James"] for the benefit of the employees of certain operating subsidiaries of Fort James located in Canada [the "Participating Companies"]. Employees become eligible to participate in the Plan after 30 days of employment.

On August 28, 1995, Fort James spun off part of its Communications Papers business, as well as the specialty paper-based portion of its Packaging Business, into a new company, Crown Vantage, Inc. ["Crown Vantage"]. On August 25, 1995, Fort James shareholders received one share of Crown Vantage common stock ["CV Stock"] for each ten shares of Fort James Common Stock ["FJ Stock"] held by the shareholder. Following the spin-off, the Plan was amended to allow for the inclusion of CV Stock as an investment. However, participants were not permitted to direct the investment of their future contributions in CV Stock. A participant may receive a

distribution, at any time, of all or a portion of CV Stock credited to the participant's account in accordance with the withdrawal provisions of the Plan.

On November 27, 2000, Fort James was acquired by Georgia-Pacific Corporation ["G-P"] and G-P assumed sponsorship of the Plan at that time.

Participants may elect to contribute into the Plan, through payroll deductions, from 1% to 10% of their compensation to be used to purchase Georgia-Pacific Group common stock ["G-P Group Stock"] for their benefit. One hundred percent of a participant's contributions are invested in G-P Group Stock. Participant contributions of up to 6% of compensation ["Basic member Contributions"] are matched by the Participating Companies ["Basic Employer Contributions"] based on the following schedule:

Participant's Contributions	Participating Company's Contributions as a Percentage of Participant's Contributions
1% of compensation	100%
2% of compensation	65%
3% to 6% of compensation	50%

Notes to Financial Statements (continued)

1. General (continued)

The Participating Companies make Additional Employer Contributions on or before the March 31 of each calendar year with respect to each participant in its employ, on the preceding December 31, who has not withdrawn any common stock from his Restricted Account [hereinafter defined] during either of the two immediately preceding calendar years. The amount of the Additional Employer Contribution allocated to the participant's account equals 10% of the participant's aggregate Basic Employer Contributions made during the two preceding calendar years.

Each participant's Restricted Account includes the Basic Member Contributions and Basic Employer Contributions made at any time during the current or immediately preceding calendar year.

Each participant is fully vested in their contributions, Basic Employer Contributions, Additional Employer Contributions, and any earnings thereon at all times.

2. Summary Of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements have been prepared using the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires the Plan's management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

Cash

Substantially all contributions to the Plan are initially invested in an interest-bearing account pending their investment in G-P Group Stock. Interest earned on such cash balances is credited to the participants' accounts. Cash balances are stated at cost, which approximates market value.

2. Summary Of Significant Accounting Policies (continued)

Investment Valuation

The investments in the G-P Group Stock and CV Stock are stated at market value, based on the closing price on the New York Stock Exchange Composite Tape [the Over-the-Counter Bulletin Board for CV Stock], on the last trading day of the Plan year. The closing market value per share of G-P Group Stock was \$16.18 and \$27.61 on

December 31, 2002 and 2001, respectively. The closing market value per share of the CV stock was \$0.01 on December 31, 2001. On April 15, 2002, the Plan wrote off its investment in Crown Vantage Inc. since Crown Vantage Ltd. declared bankruptcy.

Security Transactions and Related Investment Income

Security transactions are accounted for as of the trade date, and dividend income is recorded as of the date of declaration. The cost of securities sold is determined on an average cost basis. The assets of the Plan are held by Canada Life Securities [the "Trustee"].

Contributions

Participant and employer contributions are recorded on an accrual basis. Participant and employer contributions are transferred to the Trustee on a monthly basis. The Trustee uses such contributions to periodically purchase shares of G-P Group Stock, which are allocated to each participant's account. Residual cash amounts held by the Trustee are carried forward to the next month.

Foreign Currency Translation

The functional currency of the Plan is the U.S. dollar. Assets and liabilities of the Plan [except investments in common stock, which are stated at the U.S. dollar market value] are remeasured from Canadian dollars to U.S. dollars at the applicable year end exchange rate. Investment income, contributions, and distributions are remeasured at average exchange rates for the three years ended December 31, 2002. Any related translation adjustments are recorded in the statements of changes in plan equity.

Notes to Financial Statements (continued)

2. Summary Of Significant Accounting Policies (continued)

Withdrawals

Participants may elect, at any time, to either withdraw whole shares of common stock or have their shares sold and have the net cash proceeds distributed to them. A participant who elects an in-service withdrawal will not be allowed to make contributions to the Plan for a period of three months from the date of the withdrawal. Additionally, the participant will not receive an Additional Employer Contribution, if the participant elects an

in-service withdrawal from their Restricted Account within the preceding two calendar years before such Additional Employer Contribution is made to the Plan. Withdrawals of common stock from the Plan by participants are accounted for at the average historical cost of the common stock distributed plus cash paid in lieu of fractional shares, where applicable.

On January 31, 2000, Fort James sold one of the Participating Companies, Fort James Marathon Ltd. ["Marathon"]. As such in 2000, distributions to participants include \$1,119,638 in disbursements to Marathon participants.

Withdrawals in cash or in connection with shares sold for distribution of fractional shares are accounted for at the fair market value of the related common stock.

Administrative Costs

Administrative and operating costs, except for brokerage fees, are paid by the Participating Companies. Brokerage fees are included in the cost of acquiring common stock and thus are borne by the participants.

Risks and Uncertainties

Investment securities, in general, are exposed to various risks, including credit, interest, and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is possible that changes in the value of investment securities will occur and that such changes could materially affect the amounts reported in the financial statements.
