Item 4.02 Non-Reliance on Previously Issued Financial Statements or a Related Audit Report or Completed Interim Review

(a) On June 13, 2007, in response to a comment raised by the staff of the Securities and Exchange Commission (“SEC”) concerning Kaman Corporation’s (the “company’s”) segment disclosure and based upon its related discussions with the SEC, the company's management determined that the company will be disaggregating its Aerospace segment into four reporting segments under Financial Accounting Standards Board Statement No. 131 “Disclosures about Segments of an Enterprise and Related Information”. The four separate reporting segments will be: the Aerostructures segment, the Fuzing segment, the Helicopters segment and the Specialty Bearings segment, which is consistent with the current Management and Discussion Analysis reporting format of the company’s periodic SEC reports. These segments will be in addition to the company's Industrial Distribution and Music segments. The company's management had discussed this matter with the Audit Committee of the Board of Directors and was authorized to make this decision.

This change in presentation of reporting segments will be reflected in our Form 10-Q for the second quarter of 2007. In addition, as a result of this change in the way that we present our reporting segments, the company’s Form 10-K for the year ended December 31, 2006 (which includes the years ended December 31, 2006, 2005 and 2004) and the Form 10-Q for the period ended March 30, 2007 (which includes the three-months ended March 30, 2007 and March 31, 2006) will be restated by Form 10-K/A and Form 10-Q/A filings, respectively, with the SEC. The restatements will provide further detail of the segment information included in the aforementioned financial statements. It is expected that the restatements will relate only to the disclosure of the company’s segment information, therefore, the previously reported amounts in the Consolidated Statements of Operations, including Net Sales, Net Earnings and Earnings Per Share, would remain unchanged. In addition, the restatement would have no effect on the Consolidated Balance Sheets, cash flows, or the liquidity or financial condition of the company. The company plans to file the amended Form 10-K and Form 10-Q reports with the SEC as soon as reasonably practicable.

As part of the restatement process, we are re-evaluating the effectiveness of the design and operation of our disclosure controls and procedures in accordance with Exchange Act Rules 13a-15 and 15d-15.

The company’s management and the Audit Committee of the Board have discussed the matters disclosed in this report with the company’s independent registered public accounting firm.
