REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Plan Administrator and Participants of the
Savings Plan of Entergy Corporation and Subsidiaries VII

We have audited the accompanying statements of net assets available for benefits of the Savings Plan of Entergy Corporation and Subsidiaries VII (the "Plan") as of December 31, 2015 and 2014, and the related statement of changes in net assets available for benefits for the year ended December 31, 2015. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The Plan is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, such financial statements present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2015 and 2014, and the changes in net assets available for benefits for the year ended December 31, 2015, in conformity with accounting principles generally accepted in the United States of America. The supplemental schedule of assets (held at end of year) as of December 31, 2015 has been subjected to audit procedures performed in conjunction with the audit of the Plan's financial statements. The supplemental schedule is the responsibility of the Plan's management. Our audit procedures included determining whether the supplemental schedule reconciles to the financial statements or the underlying accounting and other records, as applicable, and performing procedures to test the completeness and accuracy of the information presented in the supplemental schedule. In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content is presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. In our opinion, such schedule is fairly stated, in all material respects, in relation to the financial statements as a whole.

SAVINGS PLAN OF ENTERGY CORPORATION AND SUBSIDIARIES VII

Notes to Financial Statements

As of December 31, 2015 and 2014, and for the Year Ended December 31, 2015

Note 1. General Description of the Plan

The Savings Plan of Entergy Corporation and Subsidiaries VII, as Amended and Restated Effective January 1, 2013, (Entergy Savings Plan VII) was established on April 11, 2007 effective with the closing date of the sale of the Palisades Nuclear Power Plant (Palisades) from Consumers Energy Company to Entergy Nuclear Palisades, LLC.

The following description of Entergy Savings Plan VII is provided for general information only. Entergy Savings Plan VII participants should refer to the Savings Plan of Entergy Corporation and Subsidiaries VII Plan Document as well as the Summary Plan Description and Summaries of Material Modifications for a more complete description of Entergy Savings Plan VII's provisions.

General: Entergy Savings Plan VII is a defined contribution plan of Entergy Corporation and Subsidiaries, collectively the Entergy System Companies, subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). The ERISA provisions set forth the requirements for participation, vesting of benefits, fiduciary conduct for administering and handling of assets, and disclosure of Entergy Savings Plan VII information. Entergy Savings Plan VII is also governed by the Internal Revenue Code (IRC) of 1986, as amended.

Entergy Savings Plan VII is intended to constitute two types of plans qualified under IRC Section 401(a) as follows:

- A profit-sharing plan with a cash or deferred arrangement that satisfies applicable requirements for qualification and exemption under IRC Section 401(k); and
- A stock bonus plan which constitutes an Employee Stock Ownership Plan (ESOP), as defined in IRC Section 4975(e)(7).

Entergy Savings Plan VII is administered by the Employee Benefits Committee. The chairman of the Employee Benefits Committee, who is appointed by the Personnel Committee of the Board of Directors of Entergy Corporation, appoints members to the Employee Benefits Committee.

Plan amendments in 2015: Entergy Savings Plan VII was amended September 30, 2015, but effective October 1, 2015, to provide that (i) general administrative expenses of Entergy Savings Plan VII will be charged against the accounts of Entergy Savings Plan VII participants and (ii) expenses for individual services may be charged against the account of the Entergy Savings Plan VII participant for whom the service is provided.

Entergy Savings Plan VII was amended December 16, 2015, but effective January 1, 2016, to provide that an active participant in the Entergy Corporation Cash Balance Plan for Non-Bargaining Employees or the Entergy Corporation Cash Balance Plan for Bargaining Employees is not eligible to be an active participant in Entergy Savings Plan VII.

Entergy Savings Plan VII was amended December 16, 2015, but effective December 27, 2015, to provide that certain technical employees represented by Local 150 of the Utility Workers Union of America, AFL-CIO, and its Michigan State Utility Workers Council, whose principal work location is the Palisades Nuclear Power Plant in Covert, Michigan or the Big Rock Independent Spent Fuel Storage Installation in Charlevoix County, Michigan and whose participation in Entergy Savings Plan VII is provided for by their collective bargaining agreement are eligible to participate in Entergy Savings Plan VII.

The significant provisions of Entergy Savings Plan VII, including the effect of these amendments, are described throughout this note.

Trustee: Entergy Savings Plan VII utilizes T. Rowe Price Trust Company (Trustee) as its Trustee and T. Rowe Price Retirement Plan Services, Inc. as its recordkeeper and provider of other administrative services. Entergy Savings Plan

- ☒ TradeLink Participant-Directed Brokerage Accounts

In addition, the Trustee manages the participant loan fund which is discussed below.

Eligibility: Entergy Savings Plan VII is available to any employee of Entergy Nuclear Operations, Inc. who is represented by Local 150 of the United Workers Union of America, AFL-CIO, and its Michigan State Utility Workers Council, whose principal work location is the Palisades Nuclear Power Plant in Covert, Michigan or the Big Rock Independent Spent Fuel Storage Installation in Charlevoix County, Michigan and whose participation in Entergy Savings Plan VII is provided for by their collective bargaining agreement, as soon as administratively practicable following the later of the employee's employment commencement date or eligibility to participate in Entergy Savings Plan VII. Generally, eligible employees include those employees who are hired or rehired in, or who transfer to, such a bargaining employee position before January 1, 2016, and those employees who transfer to such a bargaining employee position on or after January 1, 2016, provided their most recent hire or rehire date is before July 1, 2014.

Automatic enrollment: If an eligible newly hired, rehired, or transferred bargaining employee does not enroll in Entergy Savings Plan VII and does not affirmatively opt out of participation, he or she will automatically be enrolled in Entergy Savings Plan VII as soon as administratively practicable following 180 calendar days after his or her hire date, rehire date, the date he or she is eligible due to transfer, or the date a suspension for hardship ends if the employee first becomes eligible for participation in Entergy Savings Plan VII during the suspension. If the employee does not opt out of participation in Entergy Savings Plan VII, before-tax contributions of 6% of the employee's

eligible earnings will be made automatically to Entergy Savings Plan VII on his or her behalf.

Contributions: Contributions to Entergy Savings Plan VII made by or on behalf of participants are deposited with the Trustee. Participants may elect to contribute, through payroll deductions, up to a total of 50% of their eligible earnings each pay period. Contributions may be made on a before-tax basis (before-tax deferral contributions), an after-tax

SAVINGS PLAN OF ENTERGY CORPORATION AND SUBSIDIARIES VII

Notes to Financial Statements

As of December 31, 2015 and 2014, and for the Year Ended December 31, 2015

basis, or a combination of both. Contributions are subject to certain IRC limitations. The before-tax deferral contribution dollar limit for the calendar year 2015 was \$18,000 per participant. The overall annual limit for 2015 for before-tax, after-tax, and company matching contributions was the lesser of 100% of the employee's compensation for the year or \$53,000. Participants who are age 50 and over at the end of the calendar year may make catch-up deferral contributions. The dollar limit for catch-up deferral contributions for the calendar year 2015 was \$6,000. Based on nondiscrimination testing provisions under Entergy Savings Plan VII, contributions made by highly paid employees may be limited based on the average contribution rate of non-highly paid employees.

The employing Entergy System Company will make matching contributions on participant contributions each pay period. Employer matching contributions are equal to 60% of the participant's before-tax deferral and after-tax contributions made by the participant for a given pay period that do not exceed 6% of the Participant's eligible earnings. Employer matching contributions shall not be made with respect to (i) catch-up deferral contributions and (ii) deferral contributions that were initially designated by the participant as catch-up deferral contributions, but are subsequently determined not to be catch-up deferral contributions.

The employing Entergy System Company also will make defined company contributions on behalf of those eligible employees who do not participate in one of the Entergy defined benefit pension plans. Eligible participants will share in the allocation of defined company contributions beginning with the first full pay period following 90 calendar days from the participant's first day of active employment with the employing Entergy System Company. Defined company contributions for eligible participants are equal to 5% of the participant's eligible earnings for each applicable pay period.

Entergy Savings Plan VII provides that certain amounts that originated from an employee benefit plan qualified under Section 401(a) or 403(a) of the IRC of 1986, as amended, under an annuity contract described in Section 403(b) of the Code, under an eligible plan described in Section 457(b) of the Code or under an individual retirement account or annuity described in Section 408(a) or 408(b) of the Code may be accepted under Entergy Savings Plan VII as a direct rollover or a participant rollover contribution. Entergy Savings Plan VII does not accept direct rollovers or participant rollover contributions of distributions from a Roth IRA or Roth 401(k) account.

Investments: Participant contributions, employer matching contributions, and defined company contributions are invested as directed by participants in accordance with Entergy Savings Plan VII's investment options. Participant contributions, employer matching contributions, and defined company contributions not directed to specific investment options by the participant are invested by the Trustee in one of the following T. Rowe Price Retirement Trusts designated as Entergy Savings Plan VII's Qualified Default Investment Alternatives, based on the year the participant was born:

See Accompanying Notes to Condensed Consolidated Financial Statements

Table of Contents

DOLE FOOD COMPANY, INC.

**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)**

NOTE 1 BASIS OF PRESENTATION

In the opinion of management, the accompanying unaudited condensed consolidated financial statements of Dole Food Company, Inc. and its consolidated subsidiaries (Dole or the Company) include all adjustments necessary, which are of a normal recurring nature, to present fairly Dole s financial position, results of operations and cash flows. Dole operates under a 52/53-week year. The quarters ended March 27, 2010 and March 28, 2009 are twelve weeks in duration. For a summary of significant accounting policies and additional information relating to Dole s financial statements, refer to the Notes to Consolidated Financial Statements in Item 8 of Dole s Annual Report on Form 10-K (Form 10-K) for the year ended January 2, 2010.

Interim results are subject to seasonal variations and are not necessarily indicative of the results of operations for a full year. Dole s operations are sensitive to a number of factors including weather-related phenomena and their effects on industry volumes, prices, product quality and costs. Operations are also sensitive to fluctuations in foreign currency exchange rates in both sourcing and selling locations as well as economic crises and security risks.

In March 2003, Dole completed a going-private merger transaction. As a result of the transaction, Dole became wholly-owned by David H. Murdock, Dole s Chairman. On October 28, 2009, Dole completed a \$446 million initial public offering (IPO) of 35,715,000 common shares at \$12.50 per share. On October 23, 2009, Dole s common stock began trading on the New York Stock Exchange under the ticker symbol DOLE. At the completion of the IPO, Dole s chairman, David H. Murdock, and his affiliates beneficially own approximately 51,710,000 common shares, or 58.6% of Dole s outstanding common shares.

NOTE 2 RECENTLY ISSUED AND ADOPTED ACCOUNTING PRONOUNCEMENTS

During May 2009, the Financial Accounting Standards Board (FASB) issued a statement which establishes general standards of accounting for and disclosure of events that occur after the balance sheet date but before financial statements are issued. In February 2010, the FASB issued Accounting Standards Update (ASU) No. 2010-09, *Subsequent Events (Topic 855) Amendments to Certain Recognition and Disclosure Requirements (ASU 2010-09)*. ASU 2010-09 amends the previous guidance on subsequent events and no longer requires Securities and Exchange Commission (SEC) filers to disclose the date through which subsequent events have been evaluated. The subsequent event provisions are effective for interim and annual reporting periods ending after June 15, 2009 and were effective for Dole beginning in the first quarter of fiscal 2010. The adoption of this standard had no impact on Dole s financial position, results of operations, or cash flows.

During June 2009, the FASB issued ASU No. 2009-17, *Consolidations (Topic 810) Improvements to Financial Reporting by Enterprises Involved with Variable Interest Entities (ASU 2009-17)*. ASU 2009-17 amended the consolidation guidance applicable to variable interest entities (VIE) and changed the approach for determining the primary beneficiary of a VIE. Among other things, the new guidance requires a qualitative rather than a quantitative analysis to determine the primary beneficiary of a VIE; requires continuous assessments of whether an enterprise is the primary beneficiary of a VIE; enhances disclosures about an enterprise s involvement with a VIE; and amends certain guidance for determining whether an entity is a VIE. This accounting guidance is effective for annual periods beginning after November 15, 2009 and was effective for Dole beginning in the first quarter of fiscal 2010. The adoption of this standard had no impact on Dole s results of operations or financial position.

Table of Contents**DOLE FOOD COMPANY, INC.****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)
(Unaudited)****NOTE 3 OTHER INCOME (EXPENSE), NET**

Included in other income (expense), net in Dole's condensed consolidated statements of operations for the quarters ended March 27, 2010 and March 28, 2009 are the following items:

	Quarter Ended	
	March 27, 2010	March 28, 2009
	(In thousands)	
Unrealized gain (loss) on the cross currency swap	\$ (3,588)	\$ 17,716
Realized gain on the cross currency swap	2,256	2,320
Unrealized gain on foreign denominated borrowings	5,409	5,538
Realized gain on foreign denominated borrowings		1,172
Foreign currency exchange gain on vessel obligations	5,174	422
Write-off of debt issuance costs	(4,650)	(5,222)
Other	6	6
Other income (expense), net	\$ 4,607	\$ 21,952

Refer to Note 13 Derivative Financial Instruments for further discussion regarding Dole's cross currency swap.

NOTE 4 DISCONTINUED OPERATIONS

During the second quarter of 2008, Dole approved and committed to a formal plan to divest its fresh-cut flowers operations (Flowers transactions). The first phase of the Flowers transaction was completed during the first quarter of 2009. The operating results of fresh-cut flowers for the quarters ended March 27, 2010 and March 28, 2009 are reported in the following table:

	Quarter Ended	
	March 27, 2010	March 28, 2009
	(In thousands)	
Revenues	\$ 415	\$ 2,780
Income before income taxes	354	159
Income taxes	(7)	(37)
Income from discontinued operations, net of income taxes	\$ 347	\$ 122

Gain on disposal of discontinued operations, net of income taxes	\$	\$	1,308
--	----	----	-------

For all periods presented, noncontrolling interests' shares of income from discontinued operations were not material.

NOTE 5 INCOME TAXES

Dole recorded \$3.2 million of income tax expense on \$24.1 million of pretax income from continuing operations for the quarter ended March 27, 2010. Income tax expense included an interest benefit of \$0.7 million related to Dole's unrecognized tax benefits. Income tax expense of \$8 million was recorded for the quarter ended March 28, 2009 which included interest expense of \$0.6 million (net of associated income tax benefits of approximately \$0.2 million) related to Dole's unrecognized tax benefits. Dole's effective tax rate varies significantly from period to period due to the level, mix and seasonality of earnings generated in its various U.S. and

Table of Contents

DOLE FOOD COMPANY, INC.

**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)
(Unaudited)**

foreign jurisdictions. Income tax expense for the quarter ended March 27, 2010 included \$2.4 million recorded to establish a valuation allowance against deferred income tax assets in Ecuador which, as the result of a recently enacted tax law, have been determined to not be recoverable. This was offset by a reduction in Dole's liability for unrecognized tax benefits related to certain foreign jurisdictions.

Under ASC Topic 270, *Interim Reporting* (ASC 270) and ASC Topic 740, *Income Taxes* (ASC 740), Dole is required to adjust its effective tax rate for each quarter to be consistent with the estimated annual effective tax rate.

Jurisdictions with a projected loss where no tax benefit can be recognized are excluded from the calculation of the estimated annual effective tax rate. Applying the provisions of ASC 270 and ASC 740 could result in a higher or lower effective tax rate during a particular quarter, based upon the mix and timing of actual earnings versus annual projections.

For the periods presented, Dole's income tax provision differs from the U.S. federal statutory rate applied to Dole's pretax income primarily due to operations in foreign jurisdictions that are taxed at a rate lower than the U.S. federal statutory rate.

Dole recognizes accrued interest and penalties related to its unrecognized tax benefits as a component of income taxes in the accompanying condensed consolidated statements of operations. Accrued interest and penalties before tax benefits were \$27.6 million and \$28.3 million at March 27, 2010 and January 2, 2010, respectively, and are included as a component of other long-term liabilities in the accompanying condensed consolidated balance sheets.

Dole Food Company, Inc. or one or more of its subsidiaries file income tax returns in the U.S. federal jurisdiction, and various state and foreign jurisdictions. With few exceptions, Dole is no longer subject to U.S. federal, state and local, or non-U.S. income tax examinations by tax authorities for years prior to 2001.

Income Tax Audits: Dole believes its tax positions comply with the applicable tax laws and that it has adequately provided for all tax related matters. Matters raised upon audit may involve substantial amounts and could result in material cash payments if resolved unfavorably; however, management does not believe that any material payments will be made related to these matters within the next twelve months. Management considers it unlikely that the resolution of these matters will have a material adverse effect on Dole's results of operations.

Internal Revenue Service Audit: On August 27, 2009, the IRS completed its examination of Dole's U.S. federal income tax returns for the years 2002-2005 and issued a Revenue Agent's report (RAR) that includes various proposed adjustments, including with respect to the going-private merger transactions. The IRS is proposing that certain funding used in the going-private merger is currently taxable and that certain related investment banking fees are not deductible. The net tax deficiency associated with the RAR is \$122 million, plus interest. On October 27, 2009, Dole filed a protest letter vigorously challenging the proposed adjustments contained in the RAR and is pursuing resolution of these issues with the Appeals Division of the IRS. Dole believes, based in part upon the advice of its tax advisors, that its tax treatment of such transactions was appropriate. Although the timing and ultimate resolution of any issues arising from the IRS examination are highly uncertain, at this time Dole does not anticipate that the total unrecognized tax benefits will significantly change within the next twelve months nor does Dole believe that any material tax payments will be made related to these matters within the next twelve months.

On November 6, 2009, The Worker, Homeownership, and Business Assistance Act of 2009 was signed into law allowing companies to carry back net operating losses for up to five years for losses incurred in taxable years beginning or ending in either 2008 or 2009. Dole estimates that this new law effectively reduces the amount of the IRS claim from \$122 million to \$91 million. As noted, however, Dole is pursuing its objection to the proposed adjustments in the RAR.

Table of Contents**DOLE FOOD COMPANY, INC.****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)**
(Unaudited)

There was no impact to Dole from the changes made to the tax treatment of the Medicare Part D program as a result of the March 2010 enactment of the Patient Protection and Affordable Care Act.

NOTE 6 INVENTORIES

The major classes of inventories were as follows:

	March 27, 2010	January 2, 2010
	(In thousands)	
Finished products	\$ 366,482	\$ 355,387
Raw materials and work in progress	105,482	100,843
Crop-growing costs	189,263	207,312
Operating supplies and other	56,703	54,649
	\$ 717,930	\$ 718,191

NOTE 7 GOODWILL AND INTANGIBLE ASSETS

Goodwill has been allocated to Dole's reporting segments as follows:

	Fresh Fruit	Fresh Vegetables	Packaged Foods	Total
	(In thousands)			
Balance as of January 2, 2010 and March 27, 2010	\$ 275,430	\$ 71,206	\$ 60,611	\$ 407,247

Details of Dole's intangible assets were as follows:

	March 27, 2010	January 2, 2010
	(In thousands)	
Amortized intangible assets:		
Customer relationships	\$ 39,631	\$ 39,631
Other amortized intangible assets	2,024	2,126

	41,655	41,757
Accumulated amortization customer relationships	(24,864)	(23,989)
Other accumulated amortization	(1,446)	(1,530)
Accumulated amortization intangible assets	(26,310)	(25,519)
Amortized intangible assets, net	15,345	16,238
Indefinite-lived intangible assets:		
Trademark and trade names	689,615	689,615
Total identifiable intangible assets, net	\$ 704,960	\$ 705,853

Amortization expense of intangible assets totaled \$0.9 million in each of the quarters ended March 27, 2010 and March 28, 2009, respectively.

Table of Contents**DOLE FOOD COMPANY, INC.****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)**
(Unaudited)

As of March 27, 2010 the estimated remaining amortization expense associated with Dole's intangible assets for the remainder of 2010 and in each of the next four fiscal years is as follows (in thousands):

Fiscal Year	Amount
2010	\$ 2,915
2011	\$ 3,790
2012	\$ 3,790
2013	\$ 1,611
2014	\$ 955

NOTE 8 NOTES PAYABLE AND LONG-TERM DEBT

Notes payable and long-term debt consisted of the following:

	March 27, 2010	January 2, 2010
	(In thousands)

Notes Payable

Dole borrows funds primarily on a short-term basis to finance current operations. The terms of these borrowings range from one month to three months. Dole's notes payables at March 27, 2010 consist primarily of foreign borrowings in Asia and Latin America.

2010 Debt Refinancing

On March 2, 2010, Dole amended its senior secured credit facilities. The amendments, among other things: (i) reduced the applicable Eurodollar interest rate for the term loan facilities to LIBOR plus 3.25%, with a LIBOR floor of 1.75%, or the base rate plus 2.25%; (ii) for the revolving credit facility, kept interest rates on borrowed funds unchanged at a range of LIBOR plus 3.00% to 3.50% or the base rate plus 2.00% to 2.50%, with the rate at any time determined by the average historical borrowing availability; (iii) changed the financial covenant metrics to a maximum total leverage ratio and a minimum interest coverage ratio; (iv) added significant operating and financial

Table of Contents

DOLE FOOD COMPANY, INC.

**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)
(Unaudited)**

flexibility for Dole; and (v) provided for other technical and clarifying changes. The amended senior secured credit facilities provided \$850 million of term loan facilities due 2017 and a \$350 million revolving credit facility due 2014.

In March 2010, subsequent to the amendments, Dole repaid \$13.9 million of the term loan facilities due 2017.

The 8.875% Senior Notes due 2011 (2011 Notes) are scheduled to mature during March 2011. As a result, during the quarter ended March 27, 2010, the remaining \$70 million of notes outstanding were reclassified to current liabilities. On March 2, 2010, Dole called for redemption all of the remaining 2011 Notes. On April 1, 2010, Dole redeemed the remaining \$70 million of the 2011 Notes outstanding with the proceeds from the senior secured credit facilities amendments.

Term Loans and Revolving Credit Facility

As of March 27, 2010, the term loan facilities consisted of \$240 million of Term Loan B and \$596.1 million of Term Loan C. The term loan facilities bear interest, at Dole's option, at a rate per annum equal to either (i) LIBOR plus a base rate of 3.25%, with a LIBOR floor of 1.75%; or (ii) the base rate plus 2.25%. Interest on the term loan facilities is payable quarterly in arrears. The weighted average variable interest rate at March 27, 2010 for Term Loan B and Term Loan C was 5.02%. The term loan facilities require quarterly principal payments, plus a balloon payment due in 2017. Dole has an interest rate swap to hedge future changes in interest rates and a cross currency swap to lower the U.S. dollar fixed interest rate to a Japanese yen fixed interest rate on Term Loan C through June 2011. Refer to Note 13 Derivative Financial Instruments for additional information related to these instruments.

As of March 27, 2010, the asset based lending senior secured revolving credit facility (ABL revolver) borrowing base was \$271.3 million. There were no borrowings under the ABL revolver at March 27, 2010. Amounts outstanding under the ABL revolver bears interest, at Dole's option, at a rate per annum equal to either (i) LIBOR plus 3.00% to 3.50%, or (ii) a base rate plus 2.00% to 2.50%, in each case, based upon Dole's historical borrowing availability under this facility. The ABL revolver matures in March 2014. After taking into account approximately \$92 million of outstanding letters of credit issued under the ABL revolver, Dole had approximately \$179.3 million available for borrowings as of March 27, 2010. In addition, Dole had approximately \$89.1 million of letters of credit and bank guarantees outstanding under its \$100 million pre-funded letter of credit facility as of March 27, 2010.

Capital Lease Obligations

At March 27, 2010 and January 2, 2010, included in capital lease obligations were \$56.4 million and \$62.2 million, respectively, of vessel financing related to two vessel leases denominated in British pound sterling. The decrease in the capital lease obligation was primarily due to the weakening of the British pound sterling against the U.S. dollar during 2010, which resulted in Dole recognizing \$5.2 million of unrealized gains. These unrealized gains were recorded as other income (expense), net in the condensed consolidated statement of operations for the quarter ended March 27, 2010.

Covenants

Provisions under the senior secured credit facilities and the indentures governing Dole's senior notes and debentures require Dole to comply with certain covenants. These covenants include limitations on, among other things,

indebtedness, investments, loans to subsidiaries, employees and third parties, the issuance of guarantees and the payment of dividends. The ABL revolver also contains a springing covenant, which would not be effective unless the availability under the ABL revolver were to fall below the greater of \$37.5 million and 12.5% of the Total Commitment (as defined) for any three consecutive business days. To date, the springing covenant had never been effective and Dole does not currently anticipate that the springing covenant will become effective.

Table of Contents**DOLE FOOD COMPANY, INC.****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)
(Unaudited)**

In addition, as a result of the March 2, 2010 amendments to Dole's senior secured credit facilities, Dole is subject to a maximum total leverage and a minimum interest coverage ratio. At March 27, 2010, Dole's total leverage ratio was 3.90x and interest coverage ratio was 2.00x as compared with the required maximum total leverage ratio of 5.00x and the minimum interest coverage ratio of 1.50x.

A breach of a covenant or other provision in any debt instrument governing Dole's current or future indebtedness could result in a default under that instrument and, due to customary cross-default and cross-acceleration provisions, could result in a default under Dole's other debt instruments. Upon the occurrence of an event of default under the senior secured credit facilities or other debt instrument, the lenders or holders of such other debt instruments could elect to declare all amounts outstanding to be immediately due and payable and terminate all commitments to extend further credit. If Dole were unable to repay those amounts, the lenders could proceed against the collateral granted to them, if any, to secure the indebtedness. If the lenders under Dole's current indebtedness were to accelerate the payment of the indebtedness, Dole cannot give assurance that its assets would be sufficiently liquid to repay in full its outstanding indebtedness on an accelerated basis.

Debt Discounts and Debt Issuance Costs

In connection with the March 2, 2010 amendments of the senior secured credit facilities, Dole incurred debt issuance costs of \$17 million. Debt issuance costs are capitalized and amortized into interest expense over the term of the underlying debt. During the quarters ended March 27, 2010 and March 28, 2009, Dole amortized deferred debt issuance costs of \$1.2 million and \$0.9 million, respectively.

Dole wrote off \$4.6 million of deferred debt issuance costs during the quarter ended March 27, 2010 resulting from the amendments of the senior secured credit facilities as well as repayment of the term loan facilities subsequent to the amendments. In accordance with ASC Topic 470, Debt, the term loans and a portion of the ABL revolver, as a result of the amendments, were accounted for as extinguishment of debt. The write-off related to these amendments was recorded in other income (expense), net in the condensed consolidated statement of operations for the quarter ended March 27, 2010.

Debt discounts on term loan facilities in connection with the 2010 amendments of the senior secured credit facilities totaled \$8.5 million. Debt discounts are amortized into interest expense over the term of the underlying debt. During the quarter ended March 27, 2010, Dole amortized debt discounts of \$0.9 million.

Fair Value of Debt

Dole estimates the fair value of its secured and unsecured notes and debentures based on current quoted market prices. The term loans are traded between institutional investors on the secondary loan market, and the fair values of the term loans are based on the last available trading price. The carrying values and estimated fair values of Dole's debt are summarized below:

March 27, 2010		January 2, 2010	
Carrying Value	Estimated Fair Value	Carrying Value	Estimated Fair Value

(In thousands)

Secured and unsecured notes and debentures	\$ 747,887	\$ 828,175	\$ 747,067	\$ 824,412
Term loans	827,689	844,461	739,216	743,836

Carrying values are net of debt discounts.

NOTE 10 SEGMENT INFORMATION

Dole has three reportable operating segments: fresh fruit, fresh vegetables and packaged foods. These reportable segments are managed separately due to differences in their products, production processes, distribution channels and customer bases.

Management evaluates and monitors segment performance primarily through, among other measures, earnings before interest expense and income taxes (EBIT). EBIT is calculated by adding interest expense and income taxes to income from continuing operations. Management believes that segment EBIT provides useful information for analyzing the underlying business results as well as allowing investors a means to evaluate the financial results of each segment in relation to Dole as a whole. EBIT is not defined under U.S. GAAP and should not be considered in isolation or as a substitute for net income or cash flow measures prepared in accordance with U.S. GAAP or as a measure of Dole's profitability. Additionally, Dole's computation of EBIT may not be comparable to other similarly titled measures computed by other companies, because not all companies calculate EBIT in the same manner.

Revenues from external customers and EBIT for the reportable operating segments and corporate were as follows:

	Quarter Ended	
	March 27, 2010	March 28, 2009
	(In thousands)	
Revenues from external customers:		
Fresh fruit	\$ 1,122,963	\$ 1,121,982
Fresh vegetables	230,526	233,442
Packaged foods	252,243	240,850
Corporate	142	316
	\$ 1,605,874	\$ 1,596,590

Table of Contents**DOLE FOOD COMPANY, INC.****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)**
(Unaudited)

	Quarter Ended	
	March 27,	March 28,
	2010	2009
	(In thousands)	
EBIT:		
Fresh fruit	\$ 43,153	\$ 98,822
Fresh vegetables	10,490	16,473
Packaged foods	29,014	21,890
Total operating segments	82,657	137,185
Corporate:		
Unrealized gain (loss) on cross currency swap	(3,588)	17,716
Unrealized gain on foreign denominated instruments	4,726	5,538
Operating and other expenses	(17,155)	(12,558)
Corporate	(16,017)	10,696
Interest expense	(41,050)	(37,546)
Income taxes	(3,175)	(8,048)
Income from continuing operations, net of income taxes	\$ 22,415	\$ 102,287

Dole's earnings from equity method investments, which have been included in EBIT in the table above, relate primarily to the fresh fruit operating segment.

Total assets for the three reportable operating segments, corporate and fresh-cut flowers were as follows:

	March 27,	January 2,
	2010	2010
	(In thousands)	
Total assets:		
Fresh fruit	\$ 2,218,132	\$ 2,165,234

Fresh-cut flowers discontinued operation	12,639	12,639
	\$ 4,242,384	\$ 4,107,023

NOTE 11 CONTINGENCIES

Dole is a guarantor of indebtedness of some of its key fruit suppliers and other entities integral to Dole's operations. At March 27, 2010, guarantees of \$6.1 million consisted primarily of amounts advanced under third-party bank agreements to independent growers that supply Dole with product. Dole has not historically experienced any significant losses associated with these guarantees.

Dole issues letters of credit and bank guarantees through its ABL revolver and its pre-funded letter of credit facilities, and, in addition, separately through major banking institutions. Dole also provides insurance-company-issued bonds. These letters of credit, bank guarantees and insurance company bonds are required by certain regulatory authorities, suppliers and other operating agreements. As of March 27, 2010, total letters of credit, bank

Table of Contents

DOLE FOOD COMPANY, INC.

**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)
(Unaudited)**

guarantees and bonds outstanding under these arrangements were \$217.4 million, of which \$89.1 million was issued under Dole's pre-funded letter of credit facility.

Dole also provides various guarantees, mostly to foreign banks, in the course of its normal business operations to support the borrowings, leases and other obligations of its subsidiaries. Dole guaranteed \$200.8 million of its subsidiaries' obligations to their suppliers and other third parties as of March 27, 2010.

Dole has change of control agreements with certain key executives, under which severance payments and benefits would become payable in the event of specified terminations of employment in connection with a change of control (as defined) of Dole.

Dole is involved from time to time in claims and legal actions incidental to its operations, both as plaintiff and defendant. Dole has established what management currently believes to be adequate reserves for pending legal matters. These reserves are established as part of an ongoing worldwide assessment of claims and legal actions that takes into consideration such items as changes in the pending case load (including resolved and new matters), opinions of legal counsel, individual developments in court proceedings, changes in the law, changes in business focus, changes in the litigation environment, changes in opponent strategy and tactics, new developments as a result of ongoing discovery, and past experience in defending and settling similar claims. In the opinion of management, after consultation with outside counsel, the claims or actions to which Dole is a party are not expected to have a material adverse effect, individually or in the aggregate, on Dole's financial position or results of operations.

DBCP Cases: A significant portion of Dole's legal exposure relates to lawsuits pending in the United States and in several foreign countries, alleging injury as a result of exposure to the agricultural chemical DBCP (1,2-dibromo-3-chloropropane). DBCP was manufactured by several chemical companies including entities of The Dow Chemical Company and Royal Dutch Shell plc and registered by the U.S. government for use on food crops. Dole and other growers applied DBCP on banana farms in Latin America and the Philippines and on pineapple farms in Hawaii. Specific periods of use varied among the different locations. Dole halted all purchases of DBCP, including for use in foreign countries, when the U.S. EPA cancelled the registration of DBCP for use in the United States in 1979. That cancellation was based in part on a 1977 study by a manufacturer which indicated an apparent link between male sterility and exposure to DBCP among factory workers producing the product, as well as early product testing done by the manufacturers showing testicular effects on animals exposed to DBCP. To date, there is no reliable evidence demonstrating that field application of DBCP led to sterility among farm workers, although that claim is made in the pending lawsuits. Nor is there any reliable scientific evidence that DBCP causes any other injuries in humans, although plaintiffs in the various actions assert claims based on cancer, birth defects and other general illnesses.

Currently there are 226 lawsuits, in various stages of proceedings, alleging injury as a result of exposure to DBCP or seeking enforcement of Nicaragua judgments. In addition, there are 72 labor cases pending in Costa Rica under that country's national insurance program.

Thirteen of the 226 lawsuits are currently pending in various jurisdictions in the United States. One case pending in Los Angeles Superior Court with 12 Nicaraguan plaintiffs initially resulted in verdicts which totaled approximately \$5 million in damages against Dole in favor of six of the plaintiffs. As a result of the court's March 7, 2008 favorable rulings on Dole's post-verdict motions, including, importantly, the court's decision striking down punitive damages in

the case on U.S. Constitutional grounds, the damages against Dole have now been reduced to \$1.58 million in total compensatory awards to four of the plaintiffs; and the court granted Dole's motion for a new trial as to the claims of one of the other plaintiffs. On July 7, 2009, the California Second District Court of Appeals issued an order to show cause why this \$1.58 million judgment should not be vacated and judgment be entered in defendants' favor on the grounds that the judgment was procured through fraud. Plaintiffs were to provide their response to the order to show cause to the trial court within 30 days of the issuance of the order. In that order, the Court of Appeals stated that the trial court need not hold an evidentiary hearing to decide whether the judgment was

Table of Contents

DOLE FOOD COMPANY, INC.

**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)
(Unaudited)**

procured by fraud, but instead can rely on the record that was presented in support of Dole's request to have the case sent back to the trial court. Since the Court of Appeal's order, the four plaintiffs who prevailed against Dole, and the one as to whom a new trial was granted, responded to the Court's order to show cause. They moved to dismiss Dole's petition to set aside the judgment based on fraud, which motion was denied. The Court has set a hearing for May 10, 2010 on Dole's petition to set aside the judgment based on fraud.

The remaining lawsuits are pending in Latin America and the Philippines. Claimed damages in DBCP cases worldwide total approximately \$44.9 billion, with lawsuits in Nicaragua representing approximately 87% of this amount. Typically in these cases Dole is a joint defendant with the major DBCP manufacturers. Except as described below, none of these lawsuits has resulted in a verdict or judgment against Dole.

In Nicaragua, 197 cases are currently filed (of which 29 are active) in various courts throughout the country, all but one of which were brought pursuant to Law 364, an October 2000 Nicaraguan statute that contains substantive and procedural provisions that Nicaragua's Attorney General formally opined are unconstitutional. In October 2003, the Supreme Court of Nicaragua issued an advisory opinion, not connected with any litigation, that Law 364 is constitutional. Thirty-two cases have resulted in judgments in Nicaragua: \$489.4 million (nine cases consolidated with 468 claimants) on December 11, 2002; \$82.9 million (one case with 58 claimants) on February 25, 2004; \$15.7 million (one case with 20 claimants) on May 25, 2004; \$4 million (one case with four claimants) on May 25, 2004; \$56.5 million (one case with 72 claimants) on June 14, 2004; \$64.8 million (one case with 86 claimants) on June 15, 2004; \$27.7 million (one case with 36 claimants) on March 17, 2005; \$98.5 million (one case with 150 claimants) on August 8, 2005; \$46.4 million (one case with 62 claimants) on August 20, 2005; \$809 million (six cases consolidated with 1,248 claimants) on December 1, 2006; \$38.4 million (one case with 192 claimants) on November 14, 2007; and \$357.7 million (eight cases with 417 claimants) on January 12, 2009, which Dole learned of unofficially. Except for the latest one, Dole has appealed all judgments, with Dole's appeal of the August 8, 2005 \$98.5 million judgment and of the December 1, 2006 \$809 million judgment currently pending before the Nicaragua Court of Appeal. Dole will appeal the \$357.7 million judgment once it has been served.

Of the 29 active cases currently pending in civil courts in Nicaragua, all have been brought under Law 364 except for one. In all of the active cases where the proceeding has reached the appropriate stage (7 of 29 cases), Dole has sought to have the cases returned to the United States. In three of the cases where Dole has sought return to the United States, the courts have denied Dole's request and Dole has appealed that decision. Dole's requests remain pending in the other four cases.

The claimants' attempted enforcement of the December 11, 2002 judgment for \$489.4 million in the United States resulted in a dismissal with prejudice of that action by the United States District Court for the Central District of California on October 20, 2003. The claimants have voluntarily dismissed their appeal of that decision, which was pending before the United States Court of Appeals for the Ninth Circuit. Defendants' motion for sanctions against plaintiffs' counsel is still pending before the Court of Appeals in that case. A Special Master appointed by the Court of Appeals recommended that plaintiffs' counsel be ordered to pay defendants' fees and costs up to \$130,000 each to Dole and the other two defendants; and following such recommendation, the Court of Appeals appointed a special prosecutor. The Court held oral argument on the recommendation of the special prosecutor and a follow up hearing on such recommendation was held on October 15, 2009.

On October 20, 2009, the United States District Court for the Southern District of Florida issued an order denying recognition and enforcement of the \$98.5 million Nicaragua judgment against Dole and another U.S. company. That order cited separate and independent grounds for non-recognition: the Nicaragua trial court did not have jurisdiction over the defendant companies; the judgment did not arise out of proceedings that comported with the international concept of due process; the judgment was rendered under a system which does not provide an impartial tribunal or procedures compatible with the requirements of due process of law; and the cause of action or claim for relief on which the judgment is based is repugnant to the public policy of Florida. Final judgment in favor of Dole (and the other defendant companies) was entered November 10, 2009, and the Court ordered the

Table of Contents

DOLE FOOD COMPANY, INC.

**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)
(Unaudited)**

case closed. On March 10, 2010, Plaintiffs filed an appeal which is currently pending before the United States Court of Appeals for the Eleventh Circuit.

Claimants have also sought to enforce the Nicaraguan judgments in Colombia, Ecuador and Venezuela. In Venezuela, the claimants have attempted to enforce five of the Nicaraguan judgments in that country's Supreme Court: \$489.4 million (December 11, 2002); \$82.9 million (February 25, 2004); \$15.7 million (May 25, 2004); \$56.5 million (June 14, 2004); and \$64.8 million (June 15, 2004). The Venezuela Supreme Court dismissed three of these enforcement actions, the one for \$15.7 million, one for \$56.5 million and one for \$82.9 million, because plaintiffs failed to properly serve the defendants. An action filed to enforce the \$27.7 million Nicaraguan judgment (March 17, 2005) in the Colombian Supreme Court was dismissed. In Ecuador, the claimants attempted to enforce the five Nicaraguan judgments issued between February 25, 2004 through June 15, 2004 in the Ecuador Supreme Court. The First, Second and Third Chambers of the Ecuador Supreme Court issued rulings refusing to consider those enforcement actions on the ground that the Supreme Court was not a court of competent jurisdiction for enforcement of a foreign judgment. The plaintiffs subsequently refiled those five enforcement actions in the civil court in Guayaquil, Ecuador. Two of these subsequently filed enforcement actions have been dismissed by the 3rd Civil Court \$15.7 million (May 25, 2004) and the 12th Civil Court \$56.5 million (June 14, 2004) in Guayaquil; plaintiffs have sought reconsideration of those dismissals. The remaining three enforcement actions are still pending.

Dole believes that none of the Nicaraguan judgments will be enforceable against any Dole entity in the U.S. or in any other country, because Nicaragua's Law 364 is unconstitutional and violates international principles of due process. Among other things, Law 364 is an improper special law directed at particular parties; it requires defendants to pay large, non-refundable deposits in order to even participate in the litigation; it provides a severely truncated procedural process; it establishes an irrebuttable presumption of causation that is contrary to the evidence and scientific data; and it sets unreasonable minimum damages that must be awarded in every case.

On October 23, 2006, Dole announced that Standard Fruit de Honduras, S.A. reached an agreement with the Government of Honduras and representatives of Honduran banana workers. This agreement establishes a Worker Program that is intended by the parties to resolve in a fair and equitable manner the claims of male banana workers alleging sterility as a result of exposure to DBCP. The Honduran Worker Program will not have a material effect on Dole's financial position or results of operations. The official start of the Honduran Worker Program was announced on January 8, 2007. On August 15, 2007, Shell Oil Company was included in the Worker Program.

As to all the DBCP matters, Dole has denied liability and asserted substantial defenses. While Dole believes there is no reliable scientific basis for alleged injuries from the agricultural field application of DBCP, Dole continues to seek reasonable resolution of pending litigation and claims in the U.S. and Latin America. For example, as in Honduras, Dole is committed to finding a prompt resolution to the DBCP claims in Nicaragua, and is prepared to pursue a structured worker program in Nicaragua with science-based criteria. The Los Angeles Superior Court previously appointed a mediator to explore possible settlement of all DBCP cases currently pending before the court.

Although no assurance can be given concerning the outcome of the DBCP cases, in the opinion of management, after consultation with legal counsel and based on past experience defending and settling DBCP claims, the pending lawsuits are not expected to have a material adverse effect on Dole's financial position or results of operations.

European Union Antitrust Inquiries Northern and Southern Europe:

Northern Europe

On October 15, 2008, the European Commission (EC) adopted a Decision against Dole Food Company, Inc. and Dole Fresh Fruit Europe OHG and against other unrelated banana companies, finding violations of the European competition (antitrust) laws. The Decision imposes 45.6 million in fines on Dole.

Table of Contents

DOLE FOOD COMPANY, INC.

**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)
(Unaudited)**

The Decision follows a Statement of Objections, issued by the EC on July 25, 2007, and searches carried out by the EC in June 2005 at certain banana importers and distributors, including two of Dole's offices.

Dole received the Decision on October 21, 2008 and appealed the Decision to the European Court of First Instance in Luxembourg on December 24, 2008.

Dole made an initial \$10 million (7.6 million) provisional payment towards the 45.6 million fine on January 22, 2009. As agreed with the European Commission (DG Budget), Dole provided the required bank guaranty for the remaining balance of the fine to the EC by the deadline of April 30, 2009. The bank guaranty renews annually during the appeals process (which may take several years) and carries interest of 6.15% (accrued from January 23, 2009). If the European Court of First Instance fully agrees with Dole's arguments presented in its appeal, Dole will be entitled to the return of all monies paid, plus interest.

Although no assurances can be given, and although there could be a material adverse effect on Dole, Dole believes that it has not violated the European competition laws. No accrual for the Decision has been made in the accompanying condensed consolidated financial statements, since Dole cannot determine at this time the amount of probable loss, if any, incurred as a result of the Decision.

Southern Europe

On November 28 and 29, 2007, the EC conducted searches of Dole offices in Italy and Spain, as well as of other companies' offices located in these countries. Throughout the EC's investigation, Dole cooperated with the EC in its inquiries, while maintaining that Dole had not violated European competition law. In December 2009, the EC issued a Statement of Objections to a number of companies active in the import and marketing of bananas in Southern Europe. No Dole entities were addressees of this Statement of Objections.

Honduran Tax Case: In 2005, Dole received a tax assessment from Honduras of approximately \$137 million (including the claimed tax, penalty, and interest through the date of assessment) relating to the disposition of all of Dole's interest in Cervecería Hondureña, S.A in 2001. Dole believes the assessment is without merit and filed an appeal with the Honduran tax authorities, which was denied. As a result of the denial in the administrative process, in order to negate the tax assessment, on August 5, 2005, Dole proceeded to the next stage of the appellate process by filing a lawsuit against the Honduran government in the Honduran Administrative Tax Trial Court. The Honduran government sought dismissal of the lawsuit and attachment of assets, which Dole challenged. The Honduran Supreme Court affirmed the decision of the Honduran intermediate appellate court that a statutory prerequisite to challenging the tax assessment on the merits is the payment of the tax assessment or the filing of a payment plan with the Honduran courts; Dole has challenged the constitutionality of the statute requiring such payment or payment plan. Although no assurance can be given concerning the outcome of this case, in the opinion of management, after consultation with legal counsel, the pending lawsuits and tax-related matters are not expected to have a material adverse effect on Dole's financial position or results of operations.

NOTE 12 ASSETS HELD-FOR-SALE

Dole continuously reviews its assets in order to identify those assets that do not meet Dole's future strategic direction or internal economic return criteria. As a result of this review, Dole has identified and is in the process of selling

specific businesses and long-lived assets. In accordance with ASC Topic 205, Presentation of Financial Statements, Dole has reclassified these assets as held-for-sale.

Table of Contents**DOLE FOOD COMPANY, INC.****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)
(Unaudited)**

Total assets held-for-sale by segment were as follows:

	Fresh Fruit	Fresh Vegetables	Packaged Foods (In thousands)	Fresh-Cut Flowers - Discontinued Operation	Total Assets Held-for-Sale
Balance as of January 2, 2010	\$ 76,317	\$ 3,850	\$ 3,214	\$ 12,639	\$ 96,020
Additions	4,947				4,947
Reclassification		(3,251)			(3,251)
Sales	(767)				(767)
Balance as of March 27 2010	\$ 80,497	\$ 599	\$ 3,214	\$ 12,639	\$ 96,949

Assets held-for-sale included in Dole's balance sheet at March 27, 2010 consist of property, plant and equipment, net of accumulated depreciation. There were no liabilities held-for-sale.

Dole received total cash proceeds of approximately \$9.5 million during the quarter ended March 27, 2010, which are related to Dole's asset sale program. The total realized gain recorded from the asset sale program was \$2 million for the quarter ended March 27, 2010, which is shown as a separate component of operating income in the condensed consolidated statement of operations for the quarter ended March 27, 2010.

Dole received total proceeds of \$81.8 million on assets sold during the quarter ended March 28, 2009, which had been classified as held-for-sale. The total realized gain recorded on assets classified as held-for-sale, was \$17.9 million for the quarter ended March 28, 2009, which included \$1.3 million related to the first phase of the Flowers transaction. Realized gains related to continuing operations, of \$16.6 million, are shown as a separate component of operating income in the condensed consolidated statement of operations for the quarter ended March 28, 2009.

Fresh Fruit

During the first quarter of 2010, Dole added \$4.9 million to the assets held-for-sale balance, which represented approximately 1,000 acres of land in Hawaii. For the quarter ended March 27, 2010, Dole sold a farm located in Chile and land in Hawaii for \$1.7 million and recorded a gain of \$0.9 million. In addition, Dole collected \$1.1 million during the first quarter of 2010 related to the sale of a Colombian container port yard in the fourth quarter of 2009 and recorded a gain of \$1.1 million. Dole also collected \$6.7 million in notes receivable during the first quarter of 2010 related to the sale of a portion of its Latin American banana operations and certain box plants completed during fiscal 2009.

Fresh Vegetables

During the first quarter of 2010, Dole decided to cease to actively market a former headquarters facility located in California due to weakness in the California real estate market. As a result, the assets related to the California campus facility were reclassified to property, plant, and equipment on the condensed consolidated balance sheet as of March 27, 2010.

Fresh-Cut Flowers Discontinued Operation

As of March 27, 2010, the assets held-for-sale balance in the fresh-cut flowers discontinued operation consists of a portion of the real estate of the former flowers division to be sold in subsequent phases of the transaction. During January 2010, Dole was notified by the buyer of the flowers business that it was exercising its option to purchase a portion of the assets with closing expected during the second quarter of 2010. The buyer also has notified Dole that it intends to purchase another group of assets in the second or third quarter of 2010. An option

Table of Contents

**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)
(Unaudited)**

for the final group of assets expires in July 2010. Upon completion of the sale in 2010 and the sale of the remaining assets, Dole will have received sales proceeds of approximately \$28 million with a net book value of \$10 million.

NOTE 13 DERIVATIVE FINANCIAL INSTRUMENTS

Dole is exposed to foreign currency exchange rate fluctuations, bunker fuel price fluctuations and interest rate changes in the normal course of its business. As part of its risk management strategy, Dole uses derivative instruments to hedge certain foreign currency, bunker fuel and interest rate exposures. Dole's objective is to offset gains and losses resulting from these exposures with losses and gains on the derivative contracts used to hedge them, thereby reducing volatility of earnings. Dole does not hold or issue derivative financial instruments for trading or speculative purposes.

Cash Flow Hedges

During the first quarter of 2010, Dole designated a majority of its foreign currency derivative instruments as cash flow hedges in accordance with guidance provided by ASC Topic 815, Derivatives and Hedging (ASC 815). Specifically, Dole designated a majority of its foreign currency exchange forward contracts and participating forward contracts as cash flow hedges of its forecasted revenue and operating expense transactions. As a result, changes in fair value of the foreign currency derivative instruments since hedge designation, to the extent effective, are recorded as a component of accumulated other comprehensive income (loss) (AOCI) in the condensed consolidated balance sheet and are reclassified into earnings in the same period the underlying transactions affect earnings. Any portion of a cash flow hedge deemed ineffective is recognized into current period earnings.

As discussed in Note 8, certain terms of Dole's senior secured credit facilities were amended in connection with the March 2010 refinancing transactions. Dole has evaluated the impact of these amendments on its hedge designation for its interest rate swap and has determined not to re-designate the interest rate swap as a cash flow hedge of its interest rate risk associated with Term Loan C. As a result, changes in the fair value of the interest rate swap after de-designation on March 2, 2010 is recorded into interest expense. The unrealized loss of \$20.4 million at March 2, 2010 will be recognized into interest expense as the underlying Term Loan C interest payments are made.

Interest Rate Swap and Cross Currency Swap

Dole entered into an interest rate swap in 2006 to hedge future changes in interest rates. This agreement effectively converted \$320 million of borrowings under Term Loan C, which was variable-rate debt, to a fixed-rate basis through 2011. The interest rate swap fixed the interest rate at 7.2%. The paying and receiving rates under the interest rate swap were 5.5% and 0.3% as of March 27, 2010, with an outstanding notional amount of \$320 million.

During 2006 (subsequently amended in 2009), Dole executed a cross currency swap to synthetically convert \$320 million of Term Loan C into Japanese yen denominated debt in order to effectively lower the U.S. dollar fixed interest rate of 7.2% to a Japanese yen interest rate of 3.6%. Payments under the cross currency swap were converted from U.S. dollars to Japanese yen at an exchange rate of JPY 114.9.

Dole also entered into a collateral arrangement which requires Dole to provide collateral to its counterparties when the fair market value of the cross currency and interest rate swaps exceeds a combined liability of \$35 million. The measurement date for the collateral required at March 27, 2010 was March 25, 2010, and the fair value of the swaps at

the measurement date was a liability of approximately \$91 million. Dole provided cash collateral of \$21.3 million, which was recorded as restricted deposits in the accompanying condensed consolidated balance sheet, and the remaining \$35 million of collateral was issued through letters of credit.

At March 27, 2010, the exchange rate of the Japanese yen to U.S. dollar was JPY 92.7. The value of the cross currency swap will fluctuate based on changes in the U.S. dollar to Japanese yen exchange rate and market interest rates until maturity in 2011, at which time it will settle in cash at the then current exchange rate.

Settlement of the foreign currency and bunker fuel hedges will occur during 2010.

Table of Contents**DOLE FOOD COMPANY, INC.****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)**
(Unaudited)

The effects of the interest rate swap and foreign currency hedges designated as cash flow hedging instruments on accumulated other comprehensive income (loss) and the condensed consolidated statements of operations for the quarters ended March 27, 2010 and March 28, 2009 were as follows:

	Gains Recognized in AOCI During Quarter Ended		Income Statement Classification	Gains (Losses) Reclassified into Income Quarter Ended		Gains (Losses) Recognized in Income due to Hedge Ineffectiveness or Amounts Excluded from Effectiveness Testing	
	March 27, 2010	March 28, 2009		March 27, 2010	March 28, 2009	March 27, 2010	March 28, 2009
Derivatives designated as cash flow hedging instruments:							
Interest rate swap	\$ 680	\$ 421	Interest expense	\$ (1,157)	\$ (546)	\$	\$
Foreign currency hedges	7,942		Cost of products sold			(102)	

(In thousands)

Unrealized gains and losses on the interest rate swap were recorded through AOCI through the de-designation date. To the extent effective, unrecognized gains and losses on the foreign currency hedges are recorded through AOCI from the designation date. Unrecognized losses of \$16.1 million related to the interest rate swap are expected to be realized into earnings in the next twelve months, with the remaining \$3.2 million expected to be realized into earnings through June 2011. Unrecognized gains of \$7.9 million related to the foreign currency hedges are expected to be realized into earnings in the next twelve months.

Net unrealized gains (losses) and realized gains (losses) on derivatives not designated as hedging instruments for the quarters ended March 27, 2010 and March 28, 2009:

Income Statement Classification	Quarter Ended		Quarter Ended

Interest rate swap	Interest expense	1,120			
Total		\$ (2,490)	\$ 30,459	\$ 2,223	\$ 32

NOTE 14 FAIR VALUE MEASUREMENTS

Dole's financial instruments primarily consist of short-term trade and grower receivables, trade payables, notes receivable and notes payable, as well as long-term grower receivables, capital lease obligations, term loans, a revolving loan, and notes and debentures. For short-term instruments, the carrying amount approximates fair value because of the short maturity of these instruments. For the long-term financial instruments, excluding Dole's secured and unsecured notes and debentures, and term loans, the carrying amount approximates fair value since they bear interest at variable rates or fixed rates which approximate market.

Table of Contents**DOLE FOOD COMPANY, INC.****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)**
(Unaudited)

Dole performs fair value measurements in accordance with guidance provided by ASC Topic 820, Fair Value Measurements and Disclosures (ASC 820). ASC 820 establishes a fair value hierarchy that prioritizes observable and unobservable inputs to valuation techniques used to measure fair value. These levels, in order of highest to lowest priority are described below:

Level 1: Quoted prices (unadjusted) in active markets that are accessible at the measurement date for identical assets or liabilities.

Level 2: Observable prices that are based on inputs not quoted on active markets, but corroborated by market data.

Level 3: Unobservable inputs that are not corroborated by market data.

The following table provides a summary of the assets and liabilities measured at fair value on a recurring basis under the ASC 820 hierarchy:

	March 27, 2010		January 2, 2010	
	Fair Value		Fair Value	
	Measurements		Measurements	
	Using		Using	
	Significant		Significant	
	Other Observable		Other Observable	
	Inputs		Inputs	
	Total	(Level 2)	Total	(Level 2)
	(In thousands)			
Assets and Liabilities Measured on a Recurring Basis				
<i>Assets:</i>				
Foreign currency exchange contracts	\$ 11,723	\$ 11,723	\$ 2,738	\$ 2,738
Bunker fuel contracts	412	412	505	505
	\$ 12,135	\$ 12,135	\$ 3,243	\$ 3,243
<i>Liabilities:</i>				
Foreign currency exchange contracts	\$ 1,908	\$ 1,908	\$ 247	\$ 247
Interest rate swap(1)	18,760	18,760	20,560	20,560
Cross currency swap, net	65,127	65,127	61,540	61,540
	\$ 85,795	\$ 85,795	\$ 82,347	\$ 82,347

(1)

Included in accrued liabilities on the condensed consolidated balance sheets as of March 27, 2010 and January 2, 2010 were \$3.4 million and \$3.7 million, respectively, of accrued interest related to the interest rate swap.

For Dole, the assets and liabilities that are required to be recorded at fair value on a recurring basis are the derivative instruments. The fair values of Dole's derivative instruments are determined using Level 2 inputs, which are defined as significant other observable inputs. The fair values of the foreign currency exchange contracts, bunker fuel contracts, interest rate swap and cross currency swap were estimated using internal discounted cash flow calculations based upon forward foreign currency exchange rates, bunker fuel futures, interest-rate yield curves or quotes obtained from brokers for contracts with similar terms less any credit valuation adjustments. Dole recorded a credit valuation adjustment at March 27, 2010 which reduced the derivative liability balances. The credit valuation adjustment was \$1.3 million and \$2.3 million at March 27, 2010 and January 2, 2010, respectively. For the quarter ended March 27, 2010, the net change in the credit valuation adjustment resulted in a loss of \$1 million. Of this loss, \$0.3 million was recorded as interest expense and \$0.7 million was recorded as other income (expense), net. For the quarter ended March 28, 2009, the net change in credit valuation adjustment resulted in a loss of

Table of Contents**DOLE FOOD COMPANY, INC.****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)
(Unaudited)**

\$7.5 million. Of this loss, \$0.7 million was recorded as interest expense and \$6.8 million was recorded as other income (expense), net.

In addition to assets and liabilities that are recorded at fair value on a recurring basis, Dole is required to record assets and liabilities at fair value on a nonrecurring basis. Nonfinancial assets such as goodwill, indefinite-lived intangible assets and long-lived assets are measured at fair value when there is an indicator of impairment and recorded at fair value only when an impairment is recognized. Dole did not measure any assets or liabilities at fair value on a nonrecurring basis during the quarter ended March 27, 2010.

Credit Risk

The counterparties to the foreign currency and bunker fuel forward contracts and the interest rate and cross currency swaps consist of a number of major international financial institutions. Dole has established counterparty guidelines and regularly monitors its positions and the financial strength of these institutions. While counterparties to hedging contracts expose Dole to credit-related losses in the event of a counterparty's non-performance, the risk would be limited to the unrealized gains on such affected contracts. Dole does not anticipate any such losses.

NOTE 15 EARNINGS PER SHARE

DOLE FOOD COMPANY, INC.

**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)
(Unaudited)**

The above computation of first quarter 2010 weighted average common shares outstanding diluted excludes 1,395,001 shares related to stock options as their inclusion would have an antidilutive effect on earnings per share.

NOTE 16 SHARE-BASED COMPENSATION

In connection with the IPO, in October 2009, the 2009 Stock Incentive Plan (2009 Plan) was approved by Dole s Board of Directors and stockholder, in which 6 million shares of Dole common stock have been authorized for issuance. As of March 27, 2010, 808,289 restricted shares and 35,211 restricted stock units and 1,395,001 nonqualified stock options were outstanding to officers, directors, and eligible employees. During the quarter ended March 27, 2010 there were no grants, exercises, forfeitures or cancellations. Share-based compensation expense totaled \$1.4 million for the quarter ended March 27, 2010.

NOTE 17 SUBSEQUENT EVENT

On May 3, 2010, Dole was awarded \$30.7 million, plus Dole s reasonable and incurred attorney s fees and costs, plus interest, in a binding arbitration case involving faulty manufactured refrigerated containers sold to Dole. The arbitration award is not included in Dole s operating results for the first quarter; Dole expects that the award will be received and recorded in income in a subsequent quarter during 2010.

NOTE 18 GUARANTOR FINANCIAL INFORMATION

Dole s wholly-owned domestic subsidiaries (Guarantors) have fully and unconditionally guaranteed, on a joint and several basis, Dole s obligations under the indentures related to the 2011 Notes, Dole s 8.75% debentures due 2013, the 13.875% senior secured notes due 2014 and the 8% senior secured notes due 2016 (the Guarantees). Each Guarantee is subordinated in right of payment to the Guarantors existing and future senior debt, including obligations under the senior secured credit facilities, and will rank pari passu with all senior subordinated indebtedness of the applicable Guarantor.

The accompanying Guarantor consolidating financial information is presented on the equity method of accounting for all periods presented. Under this method, investments in subsidiaries are recorded at cost and adjusted for subsidiaries cumulative results of operations, capital contributions and distributions and other changes in equity. Elimination entries relate to the elimination of investments in subsidiaries and associated intercompany balances and transactions as well as cash overdraft and income tax reclassifications.

The following are condensed consolidating statements of operations of Dole for the quarters ended March 27, 2010 and March 28, 2009; condensed consolidating balance sheets as of March 27, 2010 and January 2, 2010; and condensed consolidating statements of cash flows for the quarters ended March 27, 2010 and March 28, 2009.

Item 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

This Management's Discussion and Analysis contains forward-looking statements that involve a number of risks and uncertainties. Forward-looking statements, which are based on management's assumptions and describe Dole's future plans, strategies and expectations, are generally identifiable by the use of terms such as "anticipate," "will," "expect," "believe," "should" or similar expressions. The potential risks and uncertainties that could cause Dole's actual results to differ materially from those expressed or implied herein are set forth in Item 1A and Item 7A of Dole's Annual Report on Form 10-K for the year ended January 2, 2010 and include: weather-related phenomena; market responses to industry volume pressures; product and raw materials supplies and pricing; changes in interest and currency exchange rates; economic crises; quotas, tariffs and other governmental actions and international conflict.

Overview

Significant highlights for Dole Food Company, Inc. and its consolidated subsidiaries ("Dole," the "Company" or "we") for the quarter ended March 27, 2010 were as follows:

Operating income for the first quarter of 2010 was \$59 million compared to \$123.1 million in the first quarter of 2009, a decrease of 52%. First quarter 2010 operating income included a net \$1.8 million benefit due to gains on asset sales and unrealized hedging losses, compared with a net \$29.4 million benefit due to asset sales and unrealized hedging gains for the same period in 2009.

Earnings in our fresh fruit segment decreased \$55.7 million. Earnings from fresh fruit products decreased \$43.1 million mainly due to lower banana earnings in Europe and Asia as a result of lower pricing that was driven by weather related issues.

Earnings in our packaged foods segment increased \$7.1 million, or 33%, due to lower worldwide product costs and higher volumes.

Earnings in our fresh vegetables segment increased \$3.1 million, or 44% (excluding the 2009 gain on sale of property), primarily due to improved pricing for strawberries and lower raw material costs in the packaged salads business.

Cash flows provided by operating activities for the quarter ended March 27, 2010 were \$18.8 million compared to cash flows provided by operating activities of \$39 million for the same period in 2009. Cash flows provided by operating activities decreased primarily due to lower net income partially offset by improved working capital.

Dole completed amendments to its senior secured credit facilities during the first quarter of 2010. The amendments will reduce interest expense on these facilities, and as a result of the second quarter 2010 redemption of the remaining \$70 million outstanding on the 8.875% notes due 2011 ("2011 Notes") will also extend Dole's nearest maturities to 2013.

On May 3, 2010, Dole was awarded \$30.7 million, plus Dole's reasonable and incurred attorney's fees and costs, plus interest, in a binding arbitration case involving faulty manufactured refrigerated containers sold to Dole. The arbitration award is not included in Dole's operating results for the first quarter; Dole expects that the award will be received and recorded in income in a subsequent quarter during 2010.

Table of Contents***Non-GAAP Financial Measures***

The following is a reconciliation of Adjusted EBITDA to the most directly comparable U.S. Generally Accepted Accounting Principle (U.S. GAAP) financial measure:

	Quarter Ended	
	March 27, 2010	March 28, 2009
	(In thousands)	
Net income	\$ 22,762	\$ 103,717
Income from discontinued operations, net of income taxes	(347)	(122)
Gain on disposal of discontinued operations, net of income taxes		(1,308)
Interest expense	41,050	37,546
Income taxes	3,175	8,048
EBIT	66,640	147,881
Depreciation and amortization	26,267	26,929
Net unrealized (gain) loss on derivative instruments	3,779	(30,459)
Foreign currency exchange gain on vessel obligations	(5,174)	(422)
Net unrealized gain on foreign denominated instruments	(4,612)	(5,336)
Gain on asset sales	(1,971)	(16,634)
Adjusted EBITDA	\$ 84,929	\$ 121,959

EBIT and Adjusted EBITDA are measures commonly used by financial analysts in evaluating the performance of companies. EBIT is calculated by subtracting income from discontinued operations, net of incomes taxes, from net income, by subtracting the gain on disposal of discontinued operations, net of income taxes, by adding interest expense and by adding income tax expenses to net income. Adjusted EBITDA is calculated by adding depreciation and amortization from continuing operations to EBIT, by adding the net unrealized loss or subtracting the net unrealized gain on certain derivative instruments (foreign currency and bunker fuel hedges and the cross currency swap), to and from EBIT, respectively, by adding the foreign currency loss or subtracting the foreign currency gain on the vessel obligations to and from EBIT, respectively, by adding the net unrealized loss or subtracting the net unrealized gain on foreign denominated instruments to and from EBIT, respectively, and by subtracting the gain on asset sales from EBIT. These items have been adjusted because management excludes these amounts when evaluating the performance of Dole.

EBIT and Adjusted EBITDA are not calculated or presented in accordance with U.S. GAAP and EBIT and Adjusted EBITDA are not a substitute for net income attributable to Dole Food Company, Inc., net income, income from continuing operations, cash flows from operating activities or any other measure prescribed by U.S. GAAP. Further, EBIT and Adjusted EBITDA as used herein are not necessarily comparable to similarly titled measures of other companies. However, Dole has included EBIT and Adjusted EBITDA herein because management believes that EBIT and Adjusted EBITDA are useful performance measures for Dole. In addition, EBIT and Adjusted EBITDA are presented because management believes that these measures are frequently used by securities analysts, investors and others in the evaluation of Dole.

EBIT and Adjusted EBITDA have limitations as analytical tools and should not be considered in isolation from, or as an alternative to, operating income, cash flow or other combined income or cash flow data prepared in accordance with U.S. GAAP. Because of its limitations, EBIT and Adjusted EBITDA and the related ratios presented throughout this Item 2 should not be considered as measures of discretionary cash available to invest in business growth or reduce indebtedness. Dole compensates for these limitations by relying primarily on its U.S. GAAP results and using EBIT and Adjusted EBITDA only supplementally.

Table of Contents**Results of Operations**

Selected results of operations for the quarters ended March 27, 2010 and March 28, 2009 were as follows:

	Quarter Ended	
	March 27, 2010	March 28, 2009
	(In thousands)	
Revenues, net	\$ 1,605,874	\$ 1,596,590
Operating income	58,980	123,099
Other income (expense), net	4,607	21,952
Interest expense	(41,050)	(37,546)
Income taxes	(3,175)	(8,048)
Net income	22,762	103,717
Less: Net income attributable to noncontrolling interests	(609)	(897)
Net income attributable to Dole Food Company, Inc.	22,153	102,820

Revenues

Revenues rose slightly in the quarter ended March 27, 2010 compared to the quarter ended March 28, 2009. Packaged foods sales increased \$11.4 million mainly due to higher volumes sold worldwide. Fresh fruit sales rose slightly due to higher sales in Dole's European ripening and distribution businesses and higher sales of bananas in North America, partially offset by lower sales of bananas in Europe and Asia and lower volumes sold of Chilean deciduous fruit. In addition, fresh fruit revenues were impacted by the sale of Dole's box plants located in Ecuador, Costa Rica, Honduras and Chile in the third and fourth quarters of 2009. The box plants contributed \$43 million to first quarter 2009 revenues. Favorable foreign currency exchange movements during the first quarter of 2010 in Dole's selling locations positively impacted revenues by approximately \$54 million. These factors were partially offset by slightly lower sales in Dole's North America fresh vegetables operations due to lower volumes of lettuce sold.

Operating Income

For the quarter ended March 27, 2010, operating income was \$59 million compared to \$123.1 million in the first quarter of 2009. Operating income in the first quarter of 2010 included a net benefit of \$1.8 million from gains on asset sales and unrealized hedging losses, compared with a net benefit of \$29.4 million in 2009 from gains on asset sales and net unrealized hedging gains. Fresh fruit operating results decreased primarily due to lower earnings in Dole's worldwide banana operations and in the Chilean deciduous fruit business. Europe banana earnings were impacted by lower pricing, and higher product and shipping costs. Asia banana earnings were lower mainly due to lower local pricing. North America banana earnings were slightly lower as a result of higher product costs. Chilean deciduous fruit earnings were impacted by the absence of box plant earnings as a result of the box plant sale. These factors were partially offset by improved earnings in the Asia fresh pineapple business. Packaged foods operating results increased primarily due to lower product costs as a result of lower commodity costs and higher volumes. Fresh vegetables operating results, excluding the impact of the first quarter 2009 gain from sale of property, were higher due to improved pricing for strawberries and lower raw material costs. If foreign currency exchange rates in Dole's significant foreign operations during the first quarter of 2010 had remained unchanged from those experienced during the same period in 2009, Dole estimates that its operating income would have been lower by approximately \$6 million. Operating income in the first quarter of 2010 also included realized foreign currency transaction losses of \$3 million.

Other Income (Expense), Net

For the quarter ended March 27, 2010, other income (expense), net decreased to income of \$4.6 million from income of \$22 million in the prior year. The change was primarily due to an unrealized loss of \$3.6 million generated on Dole's cross currency swap in the first quarter of 2010 compared to an unrealized gain of \$17.7 million

Table of Contents

generated in the first quarter of 2009. This factor was partially offset by an increase in foreign currency exchange gains of \$4.8 million on Dole's British pound sterling denominated vessel obligation.

Interest Expense

Interest expense for the quarter ended March 27, 2010 was \$41.1 million compared to \$37.5 million for the quarter ended March 28, 2009. Interest expense increased primarily as a result of higher effective borrowing rates resulting from Dole's March 2009 refinancing transactions, higher commitment fees as a result of unused ABL revolver borrowing capacity, and amortization of debt discounts.

As a result of Dole's debt reduction during 2009 and the March 2010 senior secured credit facilities amendments, Dole expects interest expense for 2010 to be lower by approximately \$40 million as compared to 2009.

Income Taxes

Dole recorded \$3.2 million of income tax expense on \$24.1 million of pretax income from continuing operations for the quarter ended March 27, 2010. Income tax expense included an interest benefit of \$0.7 million related to Dole's unrecognized tax benefits. Income tax expense of \$8 million was recorded for the quarter ended March 28, 2009 which included interest expense of \$0.6 million (net of associated income tax benefits of approximately \$0.2 million) related to Dole's unrecognized tax benefits. Dole's effective tax rate varies significantly from period to period due to the level, mix and seasonality of earnings generated in its various U.S. and foreign jurisdictions. Income tax expense for the quarter included \$2.4 million recorded to establish a valuation allowance against deferred income tax assets in Ecuador which, as the result of a recently enacted tax law, have been determined to be not recoverable. This was offset by a reduction in Dole's liability for unrecognized tax benefits related to certain foreign jurisdictions.

Under ASC Topic 270, *Interim Reporting* (ASC 270) and ASC Topic 740, *Income Taxes* (ASC 740), Dole is required to adjust its effective tax rate for each quarter to be consistent with the estimated annual effective tax rate.

Jurisdictions with a projected loss where no tax benefit can be recognized are excluded from the calculation of the estimated annual effective tax rate. Applying the provisions of ASC 270 and ASC 740 could result in a higher or lower effective tax rate during a particular quarter, based upon the mix and timing of actual earnings versus annual projections.

For the periods presented, Dole's income tax provision differs from the U.S. federal statutory rate applied to Dole's pretax income primarily due to operations in foreign jurisdictions that are taxed at a rate lower than the U.S. federal statutory rate.

Segment Results of Operations

Dole has three reportable operating segments: fresh fruit, fresh vegetables and packaged foods. These reportable segments are managed separately due to differences in their products, production processes, distribution channels and customer bases.

Management evaluates and monitors segment performance primarily through, among other measures, earnings before interest expense and income taxes (EBIT). EBIT is calculated by adding interest expense and income taxes to income from continuing operations. Management believes that segment EBIT provides useful information for analyzing the underlying business results as well as allowing investors a means to evaluate the financial results of each segment in relation to Dole as a whole. EBIT is not defined under U.S. GAAP and should not be considered in isolation or as a substitute for net income or cash flow measures prepared in accordance with U.S. GAAP or as a measure of Dole's profitability. Additionally, Dole's computation of EBIT may not be comparable to other similarly titled measures

computed by other companies, because not all companies calculate EBIT in the same manner.

Table of Contents

Revenues from external customers and EBIT for the reportable operating segments and corporate were as follows:

	Quarter Ended	
	March 27, 2010	March 28, 2009
	(In thousands)	
Revenues from external customers:		
Fresh fruit	\$ 1,122,963	\$ 1,121,982
Fresh vegetables	230,526	233,442
Packaged foods	252,243	240,850
Corporate	142	316
	\$ 1,605,874	\$ 1,596,590

	Quarter Ended	
	March 27, 2010	March 28, 2009
	(In thousands)	
EBIT:		
Fresh fruit	\$ 43,153	\$ 98,822
Fresh vegetables	10,490	16,473
Packaged foods	29,014	21,890
Total operating segments	82,657	137,185
Corporate:		
Unrealized gain (loss) on cross currency swap	(3,588)	17,716
Unrealized gain on foreign denominated instruments	4,726	5,538
Operating and other expenses	(17,155)	(12,558)
Corporate	(16,017)	10,696
Interest expense	(41,050)	(37,546)
Income taxes	(3,175)	(8,048)
Income from continuing operations, net of income taxes	\$ 22,415	\$ 102,287

Fresh Fruit

Fresh fruit revenues for the quarter ended March 27, 2010 increased slightly from revenues for the quarter ended March 28, 2009. European ripening and distribution revenues increased \$42 million primarily as a result of favorable euro and Swedish krona foreign currency exchange movements and higher volumes sold in Germany, Italy and Romania. Fresh pineapple sales increased \$2.5 million due to higher volumes sold in North America and Europe partially offset by lower sales in Asia. Worldwide banana sales increased as higher banana revenues in North America were partially offset by lower sales in Europe and lower local pricing in Asia. Chilean deciduous fruit sales decreased

\$36 million as a result of lower volumes and no sales by the former Chilean box plant. Fresh fruit sales decreased \$43 million due to the sale of box plants in Latin America. Net favorable foreign currency exchange movements in Dole's foreign selling locations resulted in higher revenues of approximately \$51 million during the first quarter ended March 27, 2010.

Table of Contents

Dole's fresh fruit segment EBIT is significantly impacted by certain items, which are included in the table below:

	Quarter Ended	
	March 27, 2010	March 28, 2009
	(In thousands)	
Fresh fruit products	\$ 36,248	\$ 79,311
Unrealized gain (loss) on foreign currency and fuel hedges	(70)	12,591
Foreign currency exchange gain on vessel obligations	5,174	422
Net unrealized loss on foreign denominated instruments	(170)	(202)
Gain on asset sales	1,971	6,700
Total Fresh fruit EBIT.	\$ 43,153	\$ 98,822

Fresh fruit EBIT for the quarter ended March 27, 2010 decreased to \$43.2 million from \$98.8 million for the quarter ended March 28, 2009. Bananas EBIT decreased primarily due to lower earnings in Dole's Europe and Asia banana operations as a result of lower local pricing. In addition, banana EBIT in North America and Europe was impacted by higher fruit costs due to increased contract prices from Latin American growers. EBIT in the Chilean deciduous fruit operations decreased as a result of no box plant earnings and higher product costs resulting from an unfavorable Chilean peso foreign currency exchange rate. EBIT in the fresh pineapple operations in Asia was higher as a result of lower product and distribution costs. If foreign currency exchange rates in Dole's significant fresh fruit foreign operations during the quarter ended March 27, 2010 had remained unchanged from those experienced during the quarter ended March 28, 2009, Dole estimates that fresh fruit EBIT would have been lower by approximately \$7 million. Fresh fruit EBIT for the quarter ended March 27, 2010 included realized foreign currency transaction losses of \$3 million.

Fresh Vegetables

Fresh vegetables revenues for the quarter ended March 27, 2010 decreased to \$230.5 million from \$233.4 million for the quarter ended March 28, 2009. Lower revenues in the North America fresh-packed vegetable business resulted from lower sales of iceberg and romaine lettuce, partially offset by improved pricing for strawberries and higher volumes for celery. Revenues in the packaged salads business decreased primarily due to slightly lower sales volumes and lower fuel and transportation related surcharges.

Fresh vegetables EBIT for the quarter ended March 27, 2010 decreased to \$10.5 million from \$16.5 million for the quarter ended March 28, 2009. EBIT in 2009 benefited from a gain of \$9.2 million from the sale of vegetable property in California. EBIT excluding the gain increased \$3.2 million due primarily to higher pricing for strawberries in the North America fresh-packed vegetables business as well as lower product costs in the packaged salads business due in part to lower raw material costs.

Packaged Foods

Packaged foods revenues for the quarter ended March 27, 2010 increased 5% to \$252.2 million from \$240.9 million for the quarter ended March 28, 2009. Revenues increased primarily due to higher volumes sold worldwide. Overall, net pricing in North America was slightly down as a result of new product introductions and increased coupon redemptions.

EBIT in the packaged foods segment for the quarter ended March 27, 2010 increased to \$29 million from \$21.9 million for the quarter ended March 28, 2009. EBIT benefited from lower product costs worldwide and lower distribution costs in North America. Lower product costs resulted from lower commodity costs (tinplate and plastic resins). These improvements were partially offset by higher levels of marketing expenditures and general and administrative expenses.

Table of Contents

Corporate

Corporate EBIT was a loss of \$16 million for the quarter ended March 27, 2010 compared to income of \$10.7 million for the quarter ended March 28, 2009. The decrease in EBIT was primarily due to an unrealized loss of \$3.6 million generated on the cross currency swap in 2010 compared to an unrealized gain of \$17.7 million generated on the cross currency swap in 2009. In addition, EBIT in the first quarter of 2010 was impacted by higher levels of general and administrative expenses due in part to higher incentive compensation accruals.

Discontinued Operations

During the second quarter of 2008, Dole approved and committed to a formal plan to divest its fresh-cut flowers operations (Flowers transactions). The first phase of the Flowers transaction was completed during the first quarter of 2009 and resulted in a gain of \$1.3 million.

Liquidity and Capital Resources

Cash flows provided by operating activities were \$18.8 million for the quarter ended March 27, 2010, compared to cash flows provided by operating activities of \$39 million for the quarter ended March 28, 2009. Cash flows provided by operating activities decreased by \$20.2 million primarily due to lower net income offset by improved working capital. Working capital improved due to lower payments of prepaid expenses and other assets and higher accounts payable as a result of increased inventory purchases and timing of payments. These improvements were partially offset by increase in accounts receivables attributable to timing of collections, and higher levels of inventory purchases.

Cash flows provided by investing activities were \$1.6 million for the quarter ended March 27, 2010, compared to cash flows provided by investing activities of \$45.1 million for the quarter ended March 28, 2009. The change was primarily due to lower proceeds received from the sale of assets.

Cash flows provided by financing activities were \$58.5 million for the quarter ended March 27, 2010, compared to cash flows used in financing activities of \$107.4 million for the quarter ended March 28, 2009. The net change was due to higher debt borrowings, net of repayments attributable to Dole's March 2010 refinancing transactions.

On March 2, 2010, Dole amended its senior secured credit facilities. The amendments, among other things: (i) reduced the applicable Eurodollar interest rate for the term loan facilities to LIBOR plus 3.25%, with a LIBOR floor of 1.75%, or the base rate plus 2.25%; (ii) for the revolving credit facility, kept interest rates on borrowed funds unchanged at a range of LIBOR plus 3.00% to 3.50% or the base rate plus 2.00% to 2.50%, with the rate at any time determined by the average historical borrowing availability; (iii) changed the financial covenant metrics to a maximum total leverage ratio and a minimum interest coverage ratio; (iv) added significant operating and financial flexibility for Dole; and (v) provided for other technical and clarifying changes. The amended senior secured credit facilities provided \$850 million of term loan facilities due 2017 and a \$350 million revolving credit facility due 2014.

During March 2010, subsequent to the amendments, Dole repaid \$13.9 million of the term loan facilities due 2017. On March 2, 2010, Dole called the remaining 2011 Notes for redemption. On April 1, 2010, Dole redeemed the remaining \$70 million of the 2011 Notes outstanding with the proceeds from the senior secured credit facilities amendments.

As of March 27, 2010, Dole had a cash balance of \$197.6 million and an ABL revolver borrowing base of \$271.3 million. There were no borrowings under the ABL revolver at March 27, 2010. After taking into account approximately \$92 million of outstanding letters of credit issued under the ABL revolver, Dole had approximately \$179.3 million available for borrowings as of March 27, 2010. In addition, Dole had approximately \$89.1 million of

letters of credit and bank guarantees outstanding under its \$100 million pre-funded letter of credit facility as of March 27, 2010.

Dole believes that available borrowing capacity under the revolving credit facility and subsidiaries' uncommitted lines of credit, together with its existing cash balances, future cash flow from operations, planned asset sales

Table of Contents

and access to capital markets will enable it to meet its working capital, capital expenditure, debt maturity and other commitments and funding requirements over the next 12 months. Management's plan is dependent upon the occurrence of future events which will be impacted by a number of factors including the general economic environment in which Dole operates, Dole's ability to generate cash flow from its operations, and its ability to attract buyers for assets being marketed for sale. Factors impacting Dole's cash flow from operations include, but are not limited to, items such as product pricing, commodity prices, interest rates and foreign currency exchange rates.

Other Matters

Recently Issued and Adopted Accounting Pronouncements: See Note 2 to the condensed consolidated financial statements for information regarding Dole's adoption of new accounting pronouncements.

European Union (EU) Banana Import Regime: On January 1, 2006, the EU implemented a new tariff only import regime for bananas. Under this regime, the EU mandated a tariff of 176 euro per metric ton on all banana imports to the EU market from Latin America. The EU also mandated that 775,000 metric tons of bananas from African, Caribbean, and Pacific (ACP) countries could be imported to the EU duty-free.

The preferential treatment of a zero tariff on up to 775,000 metric tons of ACP banana imports, as well as the 176 euro per metric ton tariff applied to Latin banana imports, was challenged by Panama, Honduras, Nicaragua and Colombia in consultation proceedings at the World Trade Organization, or WTO. In addition, both Ecuador and the United States formally requested the WTO Dispute Settlement Body, or DSB, to appoint panels to review the matter.

The DSB issued final and definitive written rulings in favor of Ecuador and the United States on November 27, 2008, concluding that the 176 euro per metric ton tariff is inconsistent with WTO trade rules. The DSB also considered that the prior duty-free tariff reserved for ACP countries was inconsistent with WTO trade rules but also recognized that, with the current entry into force of Economic Partnership Agreements between the EU and ACP countries, ACP bananas now may have duty-free, quota-free access to the EU market.

In light of these WTO rulings, the EU proposed a settlement in resolution of the dispute, which has been accepted by the Latin American banana producing countries and the United States. This settlement, reached on December 15, 2009, provides for a specific tariff reduction schedule, with an initial reduction of the tariff to 148 euros per metric ton and a final tariff of 114 euro per metric ton reached on January 1, 2017 or January 1, 2019 (the extended schedule of reduction applies if no further trade agreements are reached in the ongoing DDA or Doha Development Agenda global trade discussions).

The settlement, which was signed by the Latin American banana producing countries and the European Commission, still must be formally ratified through a Decision by the European Council. The tariff schedule also must be formally enacted in European legislation through the act of the European Parliament. This may take several additional months. Currently, the 176 euro per metric ton tariff must continue to be paid by importers although the December 15, 2009 settlement provides that the tariff of 148 euro per metric ton shall be applied as of December 15, 2009 and any duties paid in excess shall be reimbursed by the competent customs authorities. It is not yet clear what the EU mechanisms and timing will be for reimbursement to importers from December 15, 2009. The new tariff schedule will apply once the European Parliament adopts the legislation.

Although Dole views this settlement as a favorable development, it is too early to determine to what extent Dole's operations will capture any of these tariff savings.

Derivative Instruments and Hedging Activities: Dole uses derivative instruments to hedge against fluctuations in interest rates, foreign currency exchange rate movements and bunker fuel prices. Dole does not utilize derivatives for

trading or other speculative purposes.

During the first quarter of 2010, Dole designated the majority of its foreign currency derivative instruments as cash flow hedges in accordance with guidance provided by ASC Topic 815, Derivatives and Hedging (ASC 815). As a result, changes in fair value of the foreign currency derivative instruments since hedge designation, to the extent effective, are recorded as a component of accumulated other comprehensive income (loss) (AOCI) in

Table of Contents

the condensed consolidated balance sheet and are reclassified into earnings in the same period the underlying transactions affect earnings.

Prior to the March 2010 refinancing transactions, the interest rate swap was designated as a cash flow hedge in accordance with guidance provided by ASC 815. As a result of the March 2010 refinancing transactions, certain terms of Dole's senior secured credit facilities were amended. Dole has evaluated the impact of these amendments on its hedge designation for its interest rate swap and has determined not to re-designate the interest rate swap as a cash flow hedge of its interest rate risk associated with Term Loan C. As a result, changes in the fair value of the interest rate swap after de-designation on March 2, 2010 are recorded into interest expense instead of as a component of AOCI.

Included in the condensed consolidated statements of operations are unrealized gains (losses) on Dole's foreign currency and bunker fuel hedges and the cross currency and interest rate swaps by reporting segment as follows:

	Quarter Ended March 27, 2010				Total
	Foreign Currency Hedges	Bunker Fuel Hedges	Cross Currency Swap	Interest Rate Swap	
			(In thousands)		
Fresh fruit	\$ 23	\$ (93)	\$	\$	\$ (70)
Packaged foods	(121)				(121)
Corporate			(3,588)	1,120	(2,468)
	\$ (98)	\$ (93)	\$ (3,588)	\$ 1,120	\$ (2,659)

	Quarter Ended March 28, 2009				Total
	Foreign Currency Hedges	Bunker Fuel Hedges	Cross Currency Swap	Interest Rate Swap	
			(In thousands)		
Fresh fruit	\$ 9,350	\$ 3,241	\$	\$	\$ 12,591
Packaged foods	152				152
Corporate			17,716		17,716
	\$ 9,502	\$ 3,241	\$ 17,716	\$	\$ 30,459

For information regarding Dole's derivative instruments and hedging activities, refer to Note 13 to the condensed consolidated financial statements.

Item 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

For the quarter ended March 27, 2010, there have been no material changes in the market risk disclosure presented in Dole's Annual Report on Form 10-K for the fiscal year ended January 2, 2010. For information regarding Dole's derivative instruments and hedging activities, refer to Note 13 to the condensed consolidated financial statements.

contained in this Quarterly Report.

Item 4. CONTROLS AND PROCEDURES

An evaluation was carried out as of March 27, 2010 under the supervision and with the participation of Dole's management, including Dole's Chief Executive Officer and Chief Financial Officer, of the effectiveness of Dole's disclosure controls and procedures, as defined in Rule 13a-15(e) and Rule 15d-15(e) under the Securities Exchange Act. Based upon this evaluation, Dole's Chief Executive Officer and Chief Financial Officer concluded that Dole's disclosure controls and procedures were effective as of March 27, 2010. No change in Dole's internal control over financial reporting identified in connection with this evaluation that occurred during the first quarter of 2010 has materially affected, or is reasonably likely to materially affect, Dole's internal control over financial reporting.
