NEWS RELEASE

INDEPENDENCE HOLDING COMPANY ANNOUNCES

2014 FIRST-QUARTER RESULTS

Stamford, Connecticut, May 8, 2014. Independence Holding Company (NYSE: IHC) today reported 2014 first-quarter results.

Financial Results

IHC reported net income of \$.21 per diluted share, or \$3,701,000, for the three months ended March 31, 2014 compared to \$.26 per diluted share, or \$4,701,000, for the three months ended March 31, 2013. The Company reported realized gains, net of tax, of \$1,000,000 for the first three months of 2014 as compared to \$2,961,000 in 2013. Revenues increased to \$141,072,000 for the three months ended March 31, 2014 compared to revenues for the three months ended March 31, 2013 of \$137,882,000.

Chief Executive Officer's Comments

Roy Thung, Chief Executive Officer, commented, "We are pleased that our first-quarter results of \$.21 per share are significantly improved over those reported in the fourth quarter of 2013 of \$.10 per share. Our fully insured segment performed significantly better in the first quarter of 2014 than in the fourth quarter of 2013, as losses arising from the lines of major-medical business that we have exited and which are in runoff were significantly reduced due to lower premiums. We expect this runoff premium to continue to decline through the third quarter of 2014 and to terminate by the end of the year. Losses associated with the runoff are, as previously disclosed, largely attributable to the requirements of the Affordable Care Act.

Earned premium for medical stop-loss, our largest segment, grew substantially over the same quarter of last year despite the cancellation during 2013 of two independent MGUs that were unprofitable. We also are reporting an increase in earnings in this line in the first quarter of 2014 due to better results on our directly written business. We attribute these positive developments to enhanced sales efforts in our direct business, focused underwriting and a general expansion of the market as new employer groups migrate to self-funding from fully insured in response to health care reform. We expect continued growth of business written as evidenced by the 30% growth in our direct business written in the twelve months ended April 30, 2014.

Edgar Filing: INDEPENDENCE HOLDING CO - Form 8-K

Our overall investment portfolio continues to be very highly rated (on average, AA) and has a duration of approximately six years. Our book value was \$15.76 per share at March 31, 2014, an increase of 4% over the book value per share at December 31, 2013, and our total stockholders' equity is \$277 million at March 31, 2014 compared to \$269 million at December 31, 2013. Through May 1, 2014, we have repurchased 168,678 shares of IHC stock for \$2.3 million at an average price of \$13.35 per share, and our current intention is to continue to repurchase shares at current price levels.

With respect to medical stop-loss, we are quite pleased with our transformation into a direct writer. For 2014 and beyond, we expect that a growing percentage (currently 85%) of our block of stop-loss business will be written *via* our direct platform. Our fully insured division has transitioned from being focused on major-medical to being principally a specialty health insurance company with controlled distribution and higher-margin lines of business. As a result of the significant increase in the

volume and quality of our stop-loss business and the improved profitability in our fully insured segment, we expect improved operating results for the remainder of the year as compared to 2013.
