NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

THREE MONTHS ENDED MAY 31, 2001

(Dollars in thousands, except per share amounts)

(Unaudited)

FINANCIAL STATEMENTS:

The consolidated financial statements include the accounts of A.G. Edwards, Inc., and its wholly owned subsidiaries (collectively referred to as the "Company"), including its principal subsidiary, A.G. Edwards & Sons, Inc. ("Edwards"), and are prepared in conformity with accounting principles generally accepted in the United States of America. These consolidated financial statements should be read in conjunction with the Company's Annual Report on Form 10-K for the year ended February 28, 2001. All adjustments that, in the opinion of management, are necessary for a fair presentation of the results of operations for the interim periods have been reflected. All such adjustments consist of normal recurring accruals unless otherwise disclosed in these interim consolidated financial statements. The results of operations for the three months ended May 31, 2001, are not necessarily indicative of the results for the year ending February 28, 2002. Prior period's financial information has been reclassified to conform with the current-period presentation.

RECENT ACCOUNTING PRONOUNCEMENTS:

In September 2000, the Financial Accounting Standards Board issued SFAS No. 140, "Accounting for Transfers and Servicing of Financial Assets and Extinguishments of Liabilities." This standard replaced SFAS No. 125 of the same name. SFAS No. 140 provides accounting and reporting standards for transfers and servicing of financial assets and extinguishments of liabilities. The Company adopted SFAS No. 140 in the fourth quarter of fiscal 2001 for disclosures relating to securitization transactions and collateral. The remaining provisions of SFAS No. 140 were adopted in the first quarter of fiscal 2002 for transfers and servicing of financial assets and extinguishments of liabilities and did not have a material impact on the Company's consolidated financial statements.

STOCKHOLDERS' EQUITY:

Under the Company's February 2001 stock repurchase program, the Company purchased 310,000 shares at an aggregate cost of \$11,332 in the three month period ended May 31, 2001. For the three month period ended May 31, 2000, the Company purchased 3,965,500 shares under its May 1996 stock repurchase program, which expired late in fiscal 2001, at an aggregate cost of \$141,977.

Comprehensive earnings for the three month periods ended May 31, 2001 and 2000 were equal to the Company's net earnings.

**NET CAPITAL REQUIREMENTS:**

Edwards is subject to the net capital rule administered by the Securities and Exchange Commission (SEC). This rule requires Edwards to maintain a minimum net capital, as defined, and to notify and sometimes obtain the approval of the SEC and other regulatory organizations for substantial withdrawals of capital and loans to affiliates. As of May 31, 2001, Edwards' net capital of \$771,954 was \$715,120 in excess of the minimum requirement.

**FINANCIAL INSTRUMENTS:**

The Company receives collateral in connection with resale agreements, securities borrowed transactions, customer margin loans and other loans. Under many agreements, the Company is permitted to sell or repledge these securities held as collateral and use these securities to enter into securities lending arrangements or deliver to counterparties to cover short positions. At May 31, 2001, the fair value of securities received as collateral where the Company is permitted to sell or repledge the securities was \$3,854,158 and the fair value of the collateral that had been sold or repledged was \$1,470,631.

A.G. EDWARDS, INC.MANAGEMENT'S FINANCIAL DISCUSSIONTHREE MONTHS ENDED MAY 31, 2001 COMPARED TOTHREE MONTHS ENDED MAY 31, 2000General Business Environment

The three months ended May 31, 2001, produced net revenues and net earnings which reflected the caution of the Company's clients in the current market environment. The Dow Jones Industrial Average (the Dow) began the period at 10,495 and fell as low as 9,389 then climbed as high as 11,338 before settling to 10,912 at the end of the period, an overall increase of 4%. The Nasdaq Composite Index changes were more dramatic. It began the period at 2,152, dropped to 1,639, climbed to 2,316 and ended the period at 2,110, an overall decrease of 2%. The greatest influence on this volatility was concern about the economy and inflation as evidenced by the Federal Reserve Board's three 1/2% decreases in their target rate. Overall, investor activity was not adversely affected by the market volatility as the New York Stock Exchange and the Nasdaq trading volumes increased 14% and 21%, respectively. However, this activity was primarily driven by institutions and did not extend to the Company's retail-based clients. The Company's total trades, including those in fee-based accounts, decreased 21%, while trades in commission-based accounts decreased 33%. An increasing number of clients are choosing fee-based alternatives instead of the traditional commission-based trading account. The number of branches increased 23 to 701 and the number of financial consultants increased 326 to 7,179 over the same period last year.

Results of Operations

## Edgar Filing: EDWARDS A G INC - Form 10-Q

Net revenues decreased \$181 million (23%) to \$606 million from \$787 million. Non-interest expenses were \$535 million, a decrease of \$81 million (13%). Net earnings fell 58% and profit margins dropped to 7.5% from 13.6% in the same period last year.

Total commissions decreased \$150 million (36%). Commissions from listed transactions decreased \$39 million (25%), over-the-counter equity commissions fell \$78 million (68%) and mutual fund commissions dropped \$36 million (38%). This decline reflects the decrease in client trading activity following the record level of activity in the same period last year. Many of the Company's clients have opted out of the equities markets in favor of debt products or money market funds. As a partial offset, insurance commissions increased \$4 million (8%), due to continued client demand for variable annuities.

Principal transactions revenue increased \$6 million (7%), primarily due to a \$20 million (48%) increase in sales of debt products. This was countered by a \$14 million (38%) decrease in revenues from equity transactions. Volatility in the equity markets led many investors to the debt markets.

Investment banking revenues decreased \$9 million (17%). Revenues from the sale of equity units decreased \$18 million (72%) as a result of investors' decreased demand for equity and equity-related securities. Management fees earned from investment banking activities increased \$5 million (74%) due to the Company's participation in a larger number of offerings this year as well as an increase in merger and acquisition and consulting engagements.

Asset management and service fees increased \$2 million (1%). Fee-based revenues resulting from the administration of client assets under third-party management and from the Company's management services improved \$6 million (13%) as average assets under management increased 10%, primarily due to a 44% increase in the average number of accounts in fee-based programs. However, transaction-based fees decreased \$3 million (37%) as a result of lower client trading activity.

Net interest revenue, interest revenue net of interest expense, decreased \$22 million (32%) due to a 30% decrease in average client margin balances, a decrease in the average interest rates charged to client accounts and a related decrease in average bank loans and securities lending activities used to finance client borrowings.

Compensation and benefits decreased \$118 million (33%) as commission expense and incentive-related compensation fell a combined \$125 million (31%) following decreased commissionable revenues and earnings. As a partial offset, general and administrative salaries and related benefits increased \$17 million (12%) as a result of general increases and higher employment.

Communication and technology expense increased \$16 million (33%) as a result of infrastructure upgrades and business expansion. In addition, the current period included costs associated with the development, operation and maintenance of a new financial consultant workstation, the deployment of which began in the second quarter of the prior year.

All other expenses increased a combined \$4 million (7%) primarily as a result of branch and home office expansion.

### LIQUIDITY AND CAPITAL RESOURCES

The principal sources for financing the Company's business are stockholders' equity, short-term bank loans and securities lending activities. The Company believes it has adequate sources of credit available, if needed, to finance client activities, branch and headquarters expansion, stock repurchases and other capital expenditures.

The Company is expanding its headquarters with an additional office building, learning center and parking garage. The total construction cost of these projects is estimated to be \$215 million. Total expenditures for construction through May 31, 2001 were \$51 million.

RISK MANAGEMENT

No material changes have occurred related to the Company's policies, procedures, controls or risk profile.

FORWARD LOOKING STATEMENTS

This Management's Financial Discussion contains forward-looking statements within the meaning of federal securities laws. Actual results are subject to risks and uncertainties, including both those specific to the Company and those to the industry, which could cause results to differ from those contemplated. The risks include, but are not limited to, general economic conditions, the actions of competitors, regulatory actions, changes in legislation, risk management, technology changes and estimates of capital expenditures. Undue reliance should not be placed on the forward-looking statements, which speak only as of the date of this Quarterly Report on Form 10-Q. The Company does not undertake any obligation to publicly update any forward-looking statements.
