Item 2.02 Results of Operations and Financial Condition.

On August 11, 2009, Microfluidics International Corporation (“Microfluidics” or the “Company”) held an earnings conference call for the second quarter ended June 30, 2009. Microfluidics had previously furnished its earnings release as Exhibit 99.1 to the Company’s Current Report on Form 8-K filed on August 11, 2009, which earnings release provided a reconciliation of Non-GAAP EBITDA to GAAP net income. On the earnings call, Microfluidics also referred to EBITDA on a pro forma basis, or adjusted EBITDA, for the three month period ended June 30, 2009. Adjusted EBITDA is a Non-GAAP financial measure and is EBITDA, which is defined as earnings before interest, taxes, depreciation, and amortization, excluding non-cash stock compensation expense recognized under SFAS No. 123(R) and severance payments. Management believes these Non-GAAP measures are useful and relevant to management for operational planning and decision-making purposes, and informative to investors in their analysis of the Company’s underlying business and operating performance. Non-GAAP financial measures should not be considered a substitute for any GAAP measures. Additionally, non-GAAP measures as presented by Microfluidics may not be comparable to similarly titled measures reported by other companies. A reconciliation of GAAP net income to Non-GAAP EBITDA and Non-GAAP adjusted EBITDA for the periods indicated below is contained in the table below.

The information being provided in this report shall not be deemed to be “filed” for purposes of Section 18 of the Securities Exchange Act of 1934 (the “Exchange Act”) or otherwise subject to the liabilities of that section, nor shall it be deemed incorporated by reference in any filing under the Securities Act of 1933, as amended, or the Exchange Act, except as expressly set forth by specific reference in such a filing.
