EXPLANATORY NOTE

This Amendment No. 1 on Form 10-K/A ("Amendment No. 1") amends the Kaiser Aluminum Corporation (the "Company") Annual Report on Form 10-K of for the year ended December 31, 2011, as filed with the Securities and Exchange Commission (the "SEC") on February 29, 2012 ("Form 10-K"). The purpose of this Amendment No. 1 is to amend Item 9A. Controls and Procedures to replace an inadvertent reference to "our disclosure controls and procedures" with a reference to "our internal control over financial reporting." See the third paragraph under the caption "Management's Annual Report on Internal Control Over Financial Reporting." While the foregoing items have been updated, no other items in the Form 10-K are amended. This Amendment No. 1 speaks as of the original filing date of the Form 10-K, does not reflect events that may have occurred subsequent to the original filing date, and except as specifically described in the immediately preceding paragraph, does not modify or update in any way disclosures made in the Form 10-K.

Item 9A. Controls and Procedures

Evaluation of Disclosure Controls and Procedures. We maintain disclosure controls and procedures that are designed to ensure that information required to be disclosed in our reports under the Securities Exchange Act of 1934 is processed, recorded, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms and that such information is accumulated and communicated to management, including the principal executive officer and principal financial officer, to allow for timely decisions regarding required disclosure. In designing and evaluating the disclosure controls and procedures, management recognizes that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives, and management is required to apply its judgment in evaluating the cost-benefit relationship of possible controls and procedures. An evaluation of the effectiveness of the design and operation of our disclosure controls and procedures was performed as of the end of the period covered by this Report under the supervision of and with the participation of our management, including the principal executive officer and principal financial officer. Based on that evaluation, our principal executive officer and principal financial officer concluded that our disclosure controls and procedures were not effective as of December 31, 2011 because of the identification of a material weakness relating to our review of the completeness and accuracy of the information used to value the postretirement benefit obligations of the voluntary employee's beneficiary association that provides benefits for certain eligible retirees represented by certain unions and their spouses and eligible dependents (the "Union VEBA"). Information regarding the identified material weakness and the resulting remediation activities are discussed more fully below in Management's Annual Report on Internal Control Over Financial Reporting.

Management's Annual Report on Internal Control Over Financial Reporting. Our management is responsible for establishing and maintaining adequate internal control over financial reporting as defined in Rule 13a-15(f) under the Securities Exchange Act of 1934. Our internal control over financial reporting is designed under the supervision of our principal executive officer and principal financial officer, and effected by our Board of Directors, management and other personnel, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with accounting principles generally accepted in the United States and include those policies and procedures that:

- (1) Pertain to the maintenance of records that in reasonable detail accurately and fairly reflect our transactions and the dispositions of our assets;
- (2) Provide reasonable assurance that our transactions are recorded as necessary to permit preparation of financial statements in accordance with accounting principles generally accepted in the United States, and that our receipts and expenditures are being made only in accordance with authorizations of our management and Board of Directors; and
- (3) Provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use or disposition of our assets that could have a material effect on our financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Therefore, even those systems determined to be effective can provide only reasonable assurance with respect to

financial statement preparation and presentation.

Under the supervision and with the participation of our management, including our principal executive officer and principal financial officer, we assessed the effectiveness of our internal control over financial reporting as of December 31, 2011, using the criteria set forth by the Committee of Sponsoring Organizations of the Treadway Commission in Internal Control - Integrated Framework. Based on that evaluation, our principal executive officer and principal financial officer concluded that our internal control over financial reporting were not effective as of December 31, 2011 because of the identification of a

material weakness relating to our review of the completeness and accuracy of the information used to value the postretirement benefit obligations of the Union VEBA.

As discussed in this Report, although (1) our only financial obligation to the Union VEBA is to pay to the Union VEBA an annual variable contribution that does not depend on the funding status of the Union VEBA and to pay to the Union VEBA 50% of its administrative expenses, up to \$250,000 per year, (2) the Union VEBA assets and liabilities have no impact on our liquidity or cash flow and (3) we have no control over the plan assets or the benefits provided by the Union VEBA, we are required to account for the Union VEBA's net periodic postretirement benefit costs and record any difference between the Union VEBA assets and the Union VEBA's accumulated postretirement benefit obligation in our financial statements. To determine the value and develop appropriate assumptions for the valuation of the Union VEBA assets and obligations required for this treatment, we must obtain from the Union VEBA administrators, on an annual basis, information regarding the Union VEBA assets, Union VEBA benefit structures, Union VEBA plan participants and Union VEBA participant coverage elections. We have identified that, in certain circumstances, the information and assumptions we used for the valuation of the Union VEBA's postretirement benefit obligations did not accurately reflect the Union VEBA benefit structure, plan participants or participant coverage election.

Deloitte & Touche LLP, the independent registered public accounting firm that audited our consolidated financial statements for the year ended December 31, 2011 included in Item 8. "Financial Statements and Supplementary Data" of this Report, has issued an audit report on the effectiveness of our internal control over financial reporting.

Changes in Internal Controls Over Financial Reporting. We had no changes in our internal control over financial reporting during our most recently completed fiscal quarter that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.
