FOOTNOTES TO CONSOLIDATED FINANCIAL STATEMENTS

The accompanying statements, which should be read in conjunction with the Consolidated Financial Statements included in the

Edgar Filing: RESERVE INDUSTRIES CORP /NM/ - Form 10QSB

November 30, 2000 fiscal year end Annual Report filed on Form 10-KSB, are unaudited but have been prepared in the ordinary course of business for the purpose of providing information with respect to the interim periods, and are subject to audit at the close of the year. However, it is the opinion of the management of the Company that all adjustments (none of which were other than normal recurring accruals) necessary for a fair presentation of such periods have been included.

The Consolidated Financial Statements prepared for fiscal years 2000, 1999, 1998, 1997, 1996, 1995, 1994, 1993, 1992 and 1991 were unaudited because the Company elected to not incur the expense of an audit and to conserve its cash for other corporate requirements.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.

Results of Operations

Third quarter ended August 31, 2001 compared
to the third quarter ended August 31, 2000

For the third quarter ended August 31, 2001, the Registrant had revenues of \$319,896, which resulted in a net loss of \$384,721 or \$0.14 per share. For the third quarter ended August 31, 2000, the Registrant had revenues of \$638,632, which resulted in a net loss of \$130,042 or \$0.05 per share.

The revenues in the third quarter of 2001 decreased from 2000 as a result of a decrease in sales from \$584,884 to \$555,385, a decrease in gain on sale of property by \$244,653, which was related to the final distribution of L-Bar Product assets, an increase in equity losses from \$196,866 to \$235,812, and a loss of \$67,254 from sale of the Registrant's Singapore investment. The sales at the Registrant's silica sand operation decreased as a result of a drop in cement sand sales, which was partially offset by an increase in demand for the Registrant's low iron glass sand.

The plant improvement program was completed during the third quarter 2001. Included in revenues is royalty income from the Registrant's interest in the McArthur River uranium mine. The Registrant's equity income decreased as a result of the continuing problems in the primary steel industry, including the bankruptcy by LTV Steel. On July 31, 2001, the Registrant's affiliate Rossborough Manufacturing Co. LP completed the transaction describe in item 5 below. It is expected that the combination will improve the results in the affiliate.

The costs and expenses were \$704,617 and \$768,674 in the third quarter of 2001 and 2000, respectively. The cost of sales decreased by \$92,753 from 2000 to 2001 as a direct result of the plant improvements, which were completed during the quarter. The Registrant intends to continue its efforts to lower the production costs related to its low iron sand. The G&A and interest costs increased slightly from 2000 to 2001. Some of the expenses contained in the general and administrative costs pertaining to salaries of the officers and deferred compensation have been accrued but not paid, as the Company is conserving its cash.

Nine months ended August 31, 2001 compared
to the nine months ended August 31, 2000

For the nine months ended August 31, 2001, the Registrant had revenues of

Edgar Filing: RESERVE INDUSTRIES CORP /NM/ - Form 10QSB

\$990,808, which resulted in a net loss of \$1,423,407 or \$0.51 per share. For the nine months ended August 31, 2000, the Registrant had revenues of \$1,738,903, which resulted in a net loss of \$559,463 or \$0.20 per share.

The revenues for the nine months of 2001 decreased from 2000 primarily as a result of an increase in equity losses from \$265,364 to \$669,308, a decrease in gain on sale of equipment of \$90,667, a decrease in the sale property by \$244,653, which was related to the final distribution of L-Bar Product assets, and a loss of \$67,254 from sale of the Registrant's Singapore investment. The Registrant's equity income decreased as a result of the continuing problems in the primary steel industry, including the bankruptcy by LTV Steel.

The costs and expenses were \$2,414,215 and \$2,298,366 in the nine months of 2001 and 2000, respectively. For the current nine month period, the cost of sales increased by \$61,709 from 2000 to 2001 as a result of operating problems in the first quarter; these problems were corrected during the third quarter as the project was completed during the third quarter. The Registrant intends to continue its efforts to lower the production costs related to its low iron sand. The G&A and interest costs increased slightly from 2000 to 2001. Some of the expenses contained in the general and administrative costs pertaining to salaries of the officers and deferred compensation have been accrued but not paid, as the Company is conserving its cash.

Liquidity and Capital Resources

Period from December 1, 2000 to August 31, 2001

The Company's net cash (used) provided by operating activities was \$(271,090) and \$121,276 for the nine months ended August 31, 2001 and August 31, 2000, respectively. The net cash provided by investing activities was \$503,266 and \$12,667 for the same nine months in 2001 and 2000, respectively. The cash provided by investing activities was from the sale of the Company's Singapore investment and surplus equipment, and the capital expenditures were for capital improvements to the sand project. The Company decreased its long-term debt by \$116,941 and \$95,365 for the nine months ended August 31, 2001 and 2000, respectively. The Company's cash and cash equivalents increased (decreased) by \$99,403 and \$(9,573) for the nine months ended August 31, 2001 and 2000, respectively.

The Company had working capital deficits of approximately \$4.98 million and \$4.86 million for the nine months ended August 31, 2001 and the year ended November 30, 2000, respectively. The working capital deficit increased as a result of the operating losses. As part of the Company's program to conserve cash in order to operate the company, part of the salaries due to the officers of the Company, all of the deferred compensation due to the deceased chairman's spouse, and part of the interest due on certain loans were accrued but not paid for the nine months ended August 31, 2001 and 2000, respectively. As of August 31, 2001, these accruals (salaries, deferred compensation and deferred interest) exceeded \$4.9 million.

For the current year, the Company plans to continue to accrue part of the obligations described in the preceding paragraph and expects to continue to generate sufficient cash flow to operate.

Forward-Looking Statements. The Company may from time to time make written or oral "forward-looking statements", within the meaning of the Private Securities Litigation Reform Act of 1995, including statements contained in this Form 10QSB and in other documents filed by the Company with the Securities and Exchange Commission and in its reports to stockholders,

Edgar Filing: RESERVE INDUSTRIES CORP /NM/ - Form 10QSB

as well as elsewhere. "Forward-looking statements" are statements such as those contained in projections, plans, objectives, estimates, statements of future economic performance, and assumptions related to any of the forgoing, and may be identified by the use of forward-looking terminology, such as "may", "expect", "anticipate", "estimate", "goal", "continued", or other comparable terminology. By their very nature, forward-looking statements are subject to known and unknown risks and uncertainties relating to the Company's future performance that may cause the actual results, performance or achievements of the Company, or industry results, to differ materially from those expressed or implied in such "forward-looking statements". Any such statement is qualified by reference to the following cautionary statements.

The Company's business operates in highly competitive markets and is subject to changes in general economic conditions, competition, customer and market preferences, government regulation, the impact of tax regulation, foreign exchange rate fluctuations, the degree of market acceptance of the products, the uncertainties of potential litigation, as well as other risks and uncertainties detailed elsewhere herein and from time to time in the Company's Securities and Exchange Commission filings. This Form 10QSB contains forward looking statements, particularly in the section: Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations, and Part II Item 5. other information, and in some of the footnotes to the financial statements. Actual results could differ materially from those projected in the forward looking statements as a result of known and unknown risks, uncertainties, and other factors, including but not limited market acceptance of the Company's products and services, changes in expected research and development requirements, and the effects of changing economic conditions and business conditions generally. The Company does not undertake and assumes no obligation to update any forward-looking statement that may be made from time to time by or on behalf of the Company.

PART II OTHER INFORMATION

Item 1. Legal Proceedings

Not Applicable

Item 2. Changes in Securities

Not Applicable

Item 3. Defaults upon Senior Securities

Not Applicable

Item 4. Submission of Matters to a Vote of Security Holders

Not Applicable

Item 5. Other Information

On July 31, 2001, Rossborough Manufacturing Co. L.P. (Rossborough), in which the Registrant has a 44% equity interest, finalized the acquisition of substantially all of the assets and certain of the liabilities of Reactive Metals and Alloys Corporation (Remacor) of West Pittsburgh, PA. Both companies service the global steel industry by providing hot metal

Edgar Filing: RESERVE INDUSTRIES CORP /NM/ - Form 10QSB

desulfurization, desulfurization equipment, and metallurgical additives for secondary steel refining, technology and field service. Other products and services are also provided to the global die casting industry.

The acquisition entity is Rossborough-Remacor LLC, and the LLC will also contain substantially all of Rossborough's assets and liabilities. Rossborough-Remacor LLC will have global sales in excess of \$80 million and will be better able to compete in the steel industry, which has been plagued by financial problems related to over capacity. By consolidating the companies, the LLC plans to lower its cost structure to the benefit of all parties. The purchase price for the Remacor assets was the assumption of certain liabilities, a subordinated note in an amount equal to \$4,000,000 and a 35% membership interest in Rossborough-Remacor.

Gerald R. Zebrowski, President and CEO of Rossborough, will retain the position of President and CEO of Rossborough-Remacor. Joseph R. Jackman, President and CEO of Remacor, will be elected Vice President and Chief Operating Officer of Rossborough-Remacor.

Item 6. Exhibits and Reports on Form 8-K

- (a) Exhibits - None
- (b) Reports - A form 8K was filed March 7, 2001 - see Item 5 above.

SIGNATURES

In accordance with the requirements of the Exchange Act, the Registrant caused this report to be signed on its behalf by the undersigned, thereunto duly authorized.
