PROXY STATEMENT FOR ANNUAL MEETING OF STOCKHOLDERS

To Be Held on November 12, 2015

SOLICITATION AND REVOCATION OF PROXIES

The accompanying proxy is solicited by the Board of Directors of Matrix Service Company (“Matrix”, the “Company”, “we”, “our” or “us”) for use at the Annual Meeting of Stockholders to be held on November 12, 2015, and at any adjournments thereof for the purposes set forth in the accompanying Notice of 2015 Annual Meeting of Stockholders. The Annual Meeting will be held at 2:00 p.m., Central time, at the Company’s Corporate Headquarters, 5100 East Skelly Drive, Tulsa, Oklahoma. This proxy statement and accompanying proxy were first sent on or about October 9, 2015 to stockholders of record on September 25, 2015. The annual report of the Company on Form 10-K for the fiscal year ended June 30, 2015 accompanies this proxy statement.

If the accompanying proxy is properly executed and returned or a stockholder votes his or her proxy by Internet or telephone, the shares represented by the proxy will be voted at the meeting in accordance with the directions noted thereon or, if no direction is indicated, that stockholder’s shares will be voted in favor of the proposals described in this proxy statement. In addition, the proxy confers authority on the persons named in the proxy to vote, in their discretion, on any other matters properly presented at the Annual Meeting. The Board of Directors is not currently aware of any other such matters. Any stockholder who has given a proxy, whether by mail, Internet or telephone, has the power to revoke it at any time before it is voted by executing a subsequent proxy and sending it to Kevin S. Cavanah, Secretary, Matrix Service Company, 5100 East Skelly Drive, Suite 500, Tulsa, Oklahoma, 74135, or by a later dated vote by Internet or by telephone. The proxy also may be revoked if the stockholder is present at the meeting and elects to vote in person.

The expenses of this proxy solicitation, including the cost of preparing and mailing this proxy statement and accompanying proxy, will be borne by the Company. Such expenses will also include the charges and expenses of banks, brokerage firms and other custodians, nominees or fiduciaries for forwarding solicitation material regarding the Annual Meeting to beneficial owners of the Company’s common stock. In addition to solicitation by mail, certain directors, officers and regular employees of the Company may solicit proxies in person or by telephone, electronic transmission and facsimile transmission. Any such directors, officers or employees will not be additionally compensated, but may be reimbursed for their out-of-pocket expenses in connection therewith.

STOCKHOLDERS ENTITLED TO VOTE

At the close of business on the record date of September 25, 2015 there were 26,520,455 shares of the Company’s common stock, par value \$0.01 per share (the “Common Stock”), outstanding. Each outstanding share of Common Stock is entitled to one vote upon each of the matters to be voted on at the meeting. There is no cumulative voting with respect to the election of directors. The presence, in person or by proxy, of at least a majority of the outstanding shares of common stock is required for a quorum for the transaction of business.

The affirmative vote of a plurality of the votes cast at the meeting is required for the election of directors. Votes withheld from nominees for directors, abstentions and broker non-votes will be counted for purposes of determining whether a quorum has been reached. Votes will be tabulated by an inspector of election appointed by the Board of Directors of the Company. With regard to the election of directors, votes may be cast in favor of or withheld from each nominee; votes that are withheld will have no effect on the vote. Abstentions may be specified on all proposals, except the election of directors. Abstentions on Proposal Numbers 2 and 3 will have the effect of a negative vote. A “broker non-vote” will have no effect on the outcome of the election of directors or the other proposals.

If you hold your shares through an account with a bank or broker, the bank or broker may vote your shares on some matters even if you do not provide voting instructions. Brokerage firms have the authority to vote shares on certain matters (such as the ratification of auditors) when their customers do not provide voting instructions. However, on other matters (such as the election of directors), when the brokerage firm has not received voting instructions from its

customers, the brokerage firm cannot vote the shares on that matter and a “broker non-vote” occurs. Please note that an uncontested election of directors is no longer considered a routine matter. This means that brokers may not vote your shares on the election of directors if you have not given your broker specific instructions as to how to vote. Please be sure to give specific voting instructions to your broker so that your vote can be counted.

PROPOSAL NUMBER 1:

Election of Directors

The Company's Certificate of Incorporation and Bylaws provide that the number of directors on the Board shall be fixed from time to time by the Board of Directors but shall not be less than three nor more than 15 persons. The Board has fixed its size at seven members. Directors hold office until the next annual meeting of the stockholders of the Company or until their successors have been elected and qualified. Vacancies may be filled by a majority vote of the remaining directors based on the recommendations of the Nominating and Corporate Governance Committee. In accordance with the recommendation of the Nominating and Corporate Governance Committee, the Board of Directors has nominated and recommends that you vote "For" the election of the seven nominees identified below who have been nominated to serve as directors until the next annual meeting of stockholders or until their successors are duly elected and qualified. Proxies solicited hereby will be voted "For" all seven nominees unless stockholders specify otherwise in their proxies. The seven nominees who receive the highest number of affirmative votes of the shares voting shall be elected as directors.

If, at the time of the 2015 Annual Meeting of Stockholders, any of the nominees should be unable or decline to serve, the discretionary authority provided in the proxy may be used to vote for a substitute or substitutes who may be recommended by the Nominating and Corporate Governance Committee and who the Board of Directors may propose to replace such nominee. The Board of Directors has no reason to believe that any substitute nominee or nominees will be required.

#### **CORPORATE GOVERNANCE AND BOARD MATTERS**

The Board of Directors and corporate management use their best efforts to adopt and implement sound corporate governance practices and believe strongly that effective corporate governance practices are an important component of their efforts to focus the entire organization on generating long-term stockholder value through conscientious, safe and ethical operations.

The Board of Directors has adopted and implemented Corporate Governance Guidelines and a Code of Business Conduct and Ethics. The Code of Business Conduct and Ethics applies to all of the Company's directors, officers (including its Chief Executive Officer, Chief Operating Officer, Chief Financial Officer, Controller and any person performing similar functions) and employees. The Corporate Governance Guidelines and Code of Business Conduct and Ethics are available on the Corporate Governance page included in the "Investor Relations" section of the Company's website at [matrixservicecompany.com](http://matrixservicecompany.com).

Director Independence Guidelines

Pursuant to the applicable rules for companies traded on the NASDAQ Global Market System (“NASDAQ”) and the rules and regulations of the Securities and Exchange Commission (“SEC”), the Board of Directors has adopted director independence guidelines. In accordance with these guidelines, each independent director must be determined to have no relationship with the Company which, in the opinion of the Company’s Board of Directors, would interfere with the exercise of independent judgment in carrying out the responsibilities of a director. The guidelines specify criteria by which the independence of the Company’s directors will be determined, including strict guidelines for directors and their immediate families with respect to past employment or affiliation with the Company or its independent registered public accounting firm.

## Table of Contents

The Board of Directors has affirmatively determined that each of Mr. Hall, Mr. Hendrix, Mr. Lackey, Mr. Maxwell, Mr. Mogg and Mr. Miller are “independent” under the guidelines. Mr. Hewitt is not considered to be independent because of his current employment as President and Chief Executive Officer of the Company. In evaluating Mr. Miller's independence, the Board considered his indirect interest, as an executive officer of the seller, in the December 2013 acquisition of Kvaerner North American Construction. The acquisition is described in the Company's fiscal 2015 Annual Report on Form 10-K. The Board concluded that his independence was not impaired since Mr. Miller joined the Board approximately five months after the transaction closed and, subsequent to the acquisition, the companies have had no client/customer, vendor/supplier, contractor/subcontractor or other relationship that could potentially impair Mr. Miller's independent judgment.

The Board also considered Mr. Miller's familial relationships in assessing his independence. Mr. Miller's son and son-in-law are employees of Kvaerner North American Construction, subsequently renamed Matrix North American Construction. The Board concluded that these relationships do not impair Mr. Miller's independence as neither his son nor his son-in-law hold executive officer positions within Matrix North American Construction and are several levels below the level of executive officers of Matrix Service Company.

The full text of the Company's director independence guidelines is included in the Company's Corporate Governance Guidelines, which is available on the Corporate Governance page included in the “Investor Relations” section of the Company's website at [matrixservicecompany.com](http://matrixservicecompany.com).

### Board Leadership Structure and Role in Risk Oversight

The Board of Directors has no policy mandating the separation of the offices of Chairman of the Board and Chief Executive Officer. However, as the oversight responsibilities of directors continues to increase, we believe it is beneficial to have an independent chairman whose sole job for the Company is leading the Board. We believe the separation of the Chairman and Chief Executive Officer roles provides strong leadership for our board, while positioning our Chief Executive Officer as the leader of the Company in the eyes of our customers, employees and other stakeholders.

If, in the future, the Chief Executive Officer is serving as Chairman of the Board, then the Board of Directors will name a lead director who would, among other specified responsibilities, serve as the leader of the independent directors and facilitate communication between the Chairman/CEO and the other directors.

Our Board of Directors has six independent members and only one non-independent member. A number of our independent board members have served as members of senior management or as directors of other public companies. Our Audit, Compensation and Nominating and Corporate Governance Committees are comprised solely of independent directors, each with a different independent director serving as chair of the committee. We believe that the number of independent, experienced directors that make up our Board of Directors, along with the independent oversight of the board by the non-executive Chairman, benefits our Company and our stockholders.

The Audit Committee and full Board jointly oversee the Company's risk management processes. The Audit Committee receives regular reports from management regarding the Company's assessment of risks. In addition, the Audit Committee and the full Board of Directors focus on the most significant risks facing the Company and the Company's general risk management strategy, and also ensure that risks undertaken by the Company are consistent with the Board of Directors' appetite for risk. While the Board of Directors oversees the Company's risk management, Company management is responsible for day-to-day risk management processes. We believe this division of responsibilities is the most effective approach for addressing the risks facing our Company and that our Board leadership structure supports this approach.

### Meetings and Committees of the Board of Directors

The Company's Board of Directors met nine times during fiscal year 2015. The Board has three standing committees – the Audit Committee, the Compensation Committee, and the Nominating and Corporate Governance Committee. Each of the members of each of the committees qualifies as an “independent director” under the NASDAQ listing standards. During fiscal 2015, each director attended a minimum of 75% of the total number of meetings of the Board and of the total number of meetings held by all committees of which he was a member.

The Company's Corporate Governance Guidelines provide that each director is expected to attend the annual meetings of stockholders of the Company. All of the members of the Company's Board of Directors attended the 2014 annual meeting.

In carrying out these purposes, the Audit Committee, among other things, appoints, evaluates and approves the compensation of the Company's independent registered public accounting firm, reviews and approves the scope of the annual audit and the audit fee, pre-approves all auditing services and permitted non-audit services, annually considers the qualifications and independence of the independent registered public accounting firm, reviews the results of internal audits, compliance with certain of the Company's written policies and procedures and the adequacy of the Company's system of internal accounting controls, prepares the Audit Committee report for inclusion in the annual proxy statement and annually reviews the Audit Committee charter and the committee's performance. ### Director Nomination Process

The Nominating and Corporate Governance Committee will consider director candidates submitted to it by other directors, employees and stockholders. In evaluating such nominations, the Nominating and Corporate Governance Committee seeks to achieve a balance of knowledge, experience and capability to address the director qualifications discussed below.

The Nominating and Corporate Governance Committee regularly assesses the appropriate size of the Board of Directors and whether any vacancies on the Board are expected due to retirement or otherwise. In the event that vacancies are anticipated or otherwise arise, the Committee considers various potential candidates. Candidates may come to the attention of the Committee through current directors, senior management, professional search firms, stockholders or other persons.

Once a prospective nominee has been identified, the Committee makes an initial determination as to whether to conduct a full evaluation of the candidate. The initial determination involves an evaluation of the candidate against the qualifications set forth in the Corporate Governance Guidelines, which require broad experience, wisdom, integrity, the ability to make independent analytical inquiries, an understanding of the Company's business environment and a willingness to devote adequate time to Board duties, including service on no more than four other public company boards.

The Committee does not assign specific weights to particular criteria and no particular criterion is a prerequisite for each prospective nominee. Our Board of Directors believes that the backgrounds and qualifications of its directors, considered as a group, should provide a composite mix of experience, knowledge and abilities that will allow it to fulfill its responsibilities. Although the Committee may also consider other aspects of diversity, including geographic, gender, age and ethnic diversity, these factors are not a prerequisite for any prospective nominee. Consequently, while the Committee evaluates the mix of experience and skills of the Board of Directors as a group, the Committee does not monitor the effectiveness of its policies with respect to geographic, gender, age or ethnic diversity.

The Committee also assesses the candidate's qualifications as an "independent director" under the NASDAQ's current director independence standards and the Company's director independence guidelines. If the Committee determines that additional consideration is warranted, it may request a professional search firm to gather additional information about the candidate. The Committee designates, after consultation with the CEO, which candidates are to be interviewed. After completing its evaluation, the Committee makes a recommendation to the full Board of Directors as to the persons who should be nominated by the Board and the Board determines the nominees after considering the recommendation of the Committee.

Holders of common stock wishing to recommend a person for consideration as a nominee for election to the Board can do so in accordance with the Company's Bylaws by giving timely written notice to Kevin S. Cavanah, Secretary of Matrix Service Company, at 5100 East Skelly Drive, Suite 500, Tulsa, Oklahoma 74135. The written notice should give each such nominee's name, address, appropriate biographical information, a description of all arrangements or understandings between the stockholder and each such nominee and any other person or persons (naming such person or persons), relating to such nominee's service on the Board of Directors, if elected, as well as any other information that would be required in a proxy statement. Any such recommendation should be accompanied by a written statement from the person recommended, giving his or her consent to be named as a nominee and, if nominated and elected, to serve as a director. The written notice must be delivered to the Secretary of the Company not later than 80 days prior to the date of any annual or special meeting; provided, however, that in the event that the date of such annual or special meeting is not publicly announced by the Company more than 90 days prior to the meeting, notice by the stockholder must be delivered to the Secretary of the Company not later than the close of business on the tenth day following the day on which public announcement of the date of such meeting is communicated to the stockholders. The written notice to the Secretary of the Company must also set forth the name and address of the stockholder who intends to make the nomination and a representation that the stockholder is a holder of record of stock of the Company entitled to vote at such meeting and intends to appear in person or by proxy at the meeting to nominate the person or persons specified in the notice.

### Executive Sessions

Executive sessions of the Board of Directors are held periodically. The sessions are chaired by the independent, non-executive Chairman of the Board. Any non-management director may request that an additional executive session be scheduled. Executive sessions of the independent directors are held on an as needed basis.

Board or any of the directors via the Company's online submission form by clicking on the "Contact the Board" link included on the Corporate Governance page included in the "Investor Relations" section of the Company's website at matrixservicecompany.com. ### Equity Ownership Guidelines for Directors

Each non-employee director is strongly encouraged to have a significant investment in the Company. The Company's Stock Ownership Guidelines for Directors, which were revised in August 2014, require each non-employee director own a number shares of our common stock equal to five times the annual cash retainer. For purposes of determining the guideline, the cash retainer does not include fees earned as Chairman of the Board or as Chairman of the Audit, Compensation or Nominating and Corporate Governance committees. The following types of equity can be used to satisfy the stock ownership requirements:

- (1) shares owned separately by the director or owned either jointly with, or separately by, immediate family members residing in the same household;
- (2) shares held in trust for the benefit of the director or his immediate family members;
- (3) shares purchased in the open market;
- (4) shares purchased through the Company's Employee Stock Purchase Plan;
- (5) vested and unvested time-based restricted stock or restricted stock units;
- (6) unvested performance or market based restricted stock or restricted stock units but only to the extent that the Company recognizes compensation expense with respect to such restricted stock or restricted stock units;
- (7) in-the-money vested unexercised stock options; and
- (8) any phantom shares held on behalf of a director under the Board's deferred compensation plan.

Existing directors have five years from the August 2014 date of adoption or revision of the guidelines to attain this level of ownership. Directors elected or appointed after the date of the adoption of the Stock Ownership Guidelines will have five years from the date of their election or appointment to the Board to attain this level of ownership. Furthermore, once the guidelines are met, the directors will remain in compliance with the stock ownership guidelines if a drop in the Company's stock price causes the director's ownership level to drop below five times the annual retainer so long as the director has not sold any shares subsequent to passing the ownership test. All of the non-employee directors with the exception of Mr. Jim W. Mogg, who was appointed in August 2013, and Mr. James H. Miller, who was appointed in May 2014, currently satisfy the requirements.

Since Mr. Hewitt is the Chief Executive Officer of the Company, he must comply with the Equity Ownership Guidelines for Executive Officers, which are discussed in this proxy statement under the caption "Equity Ownership Guidelines."

## DIRECTOR COMPENSATION

### General

Management directors receive no additional compensation for service on the Board of Directors or any committee thereof. Directors of the Company are reimbursed for out-of-pocket expenses incurred in attending the Board of Directors and committee meetings.

The elements of our non-employee director compensation consist of cash and equity. Our objective with director compensation is to position ourselves to attract and retain individuals with relevant business and leadership backgrounds and experience by providing a competitive package of cash and equity compensation.

Total compensation for the Company's non-employee directors is determined in a manner similar to that for executives, which is described under the caption "Compensation Discussion and Analysis." The Compensation Committee of the Board of Directors (the "Committee") engages a third party compensation consultant to periodically review director compensation and make recommendations. The Committee reviews benchmark data from outside consultants and makes recommendations to the full Board for approval.

Director compensation is generally reviewed on a bi-annual basis. In August 2014, the Committee engaged a third party compensation consultant, Meridian Compensation Partners, LLC ("Meridian"), to conduct a market study of director compensation. Meridian obtained benchmark data using published compensation surveys and proxy analysis

of selected benchmark companies similar in size, location and industry. The companies included in the survey are consistent with those that we use to benchmark executive compensation.

Based on the consultant's findings and recommendations, the Committee concluded that total annual compensation for directors, exclusive of retainers for services as a committee chair, of \$150,000 was slightly below the median amount. Since

9

---

Table of Contents

the compensation was below the median and is reviewed only on a bi-annual basis, the Compensation Committee approved an increase of the annual compensation to \$170,000. The Committee reiterated that the objective of director compensation is to provide both a short-term cash component and a long-term equity component that aligns the interests of directors with those of our stockholders through stock ownership. Therefore, the Committee recommended that the relative values of the equity component and cash component should continue to be equal. The Committee also concluded that the form of equity compensation remain unchanged and should continue to be time-based restricted stock units (“RSUs”) that cliff vest on the earlier of three years after the grant date or the directors' departure from the Board for any reason. The Committee also concluded that retainers for other Board duties are appropriate and should remain at the following amounts:

Retainer	Amount (\$)
Audit Committee Chair	15,000
Compensation Committee Chair	10,000
Nominating and Corporate Governance Committee Chair	7,500
Chairman of the Board	50,000

The Board of Directors also has a Deferred Fee Plan which allows directors to defer all or a portion of their cash compensation with interest. The effective interest rate for the subsequent calendar year is researched and approved by the Committee at the regularly-scheduled meeting each November. For fiscal 2015, the average interest rate was 5.0%. Non-employee directors are also permitted to invest their cash retainer in Company common stock through the Company's 2011 Employee Stock Purchase Plan (“ESPP”). Investment through the ESPP is limited to \$60,000 per calendar year.

**Director Compensation**

The compensation earned by each director in fiscal 2015 is summarized in the table below:

Mr. Miller did not defer any fees. The Deferred Fee Plan is discussed in note (5) below.

The amounts shown represent the grant date fair value for awards granted during the period determined in accordance with the applicable accounting guidance for equity-based awards. For further information on the valuation of these awards, see Notes 1 and 10 to the Consolidated Financial Statements included in our fiscal 2015 Annual Report on Form 10-K. For services provided as a member of the Board of Directors, each non-employee director received an award of 3,629 RSUs with a grant date fair value of \$85,390, with the exception of Mr. Miller, (3) who received an award of 5,444 RSUs with a grant date fair value of \$128,097 which represented Mr. Miller's award for fiscal 2015 service and an additional pro rata equity award for the period commencing with his appointment to the Board in May 2014 and ending with his election to a full term in November 2014. As of June 30, 2015, Mr. Hall, Mr. Hendrix, Mr. Lackey, and Mr. Maxwell each had 15,429 unvested RSUs, Mr. Mogg had 8,329 unvested RSUs and Mr. Miller had 5,444 unvested RSUs.

(4) There were no stock option awards granted to non-employee directors in fiscal 2015. As of June 30, 2015, Mr. Hendrix had 5,000 stock options outstanding.

A non-employee director may defer all or part of director fees earned into the Deferred Fee Plan for Members of the Board of Directors of Matrix Service Company (the "Deferred Fee Plan"). Under the Deferred Fee Plan, directors (5) are allowed to defer fees and earn interest. The amounts shown represent interest earned under the plan in excess of a market rate. For fiscal 2015, the market rate for the deferrals was 3.0% as compared to the actual average rate paid of 5.0%.

Table of Contents

Previously, directors were allowed to defer fees in the form of phantom shares. The fees were converted into phantom shares based on the price of our stock on the deferral election date. At June 30, 2014, Mr. Maxwell held 1,565 phantom shares valued at \$51,316. These shares vested in fiscal 2015 and Mr. Maxwell received cash of \$30,048.

## COMPENSATION DISCUSSION AND ANALYSIS

### Executive Summary

This Compensation Discussion and Analysis explains our compensation philosophy, objectives and practices in place for our President and Chief Executive Officer (“CEO”), our Chief Financial Officer (“CFO”) and our other named executive officers (collectively, the “Named Executive Officers”) during fiscal 2015. Compensation for our Named Executive Officers is determined by the Compensation Committee of the Board of Directors (the “Committee”) and is supported by market data and advice from their independent compensation consultant, Meridian Compensation Partners, LLC (“Meridian”).

Fiscal 2015 operating results were adversely affected by recorded charges on an acquired EPC joint venture project that reduced operating income by \$53.4 million and after tax income attributable to Matrix Service Company by \$18.3 million. The charges were recorded in the second fiscal quarter ended December 31, 2014 and the third fiscal quarter

ended March 31, 2015 and are more fully discussed in Note 3 - Customer Contracts, included in the Company's fiscal 2015 Annual Report on Form 10-K. These charges had a direct negative impact on the fiscal 2015 short-term incentive compensation of the Named Executive Officers as well as amounts which are likely to be earned on the long-term incentive compensation awards which is determined based on the Company's Average Return on Invested Capital. However, since the acquired EPC joint venture

Table of Contents

project charges occurred subsequent to the annual review and effective date of the annual salary adjustments, the charges had no impact on the fiscal 2015 base salary compensation of the Named Executive Officers.

There have been no changes to the Company's Named Executive Officers in fiscal 2015. They continue to be the Chief Executive Officer, the Chief Financial Officer, the Chief Operating Officer and the presidents of the Company's two major operating companies.

Summarized below are the highlights of key decisions and actions taken regarding the compensation of our Named Executive Officers in fiscal 2015 as well as a summary of the impact of the acquired EPC joint venture project charges on each component of the Named Executive Officers' compensation. These actions were approved by the Compensation Committee, with advice from Meridian and are consistent with our stated compensation philosophy.

**Base Salaries:** Consistent with normal practice, the Compensation Committee reviewed Named Executive Officer compensation at the August 2014 meeting. In determining compensation adjustments, the Committee considered market data provided by Meridian, the Company's strong financial performance in fiscal 2014, and the individual performance of the Named Executive Officer. The market data indicated that the CEO's, CFO's, and one of the operating company president's base compensation was below median. Based on these factors, the Board approved increases of 14.5% for the CEO, 15.0% for the CFO, 5.0% for the COO and 5.0% and 11.0% for the two operating company presidents effective September 1, 2014.

Due to disappointing 2015 financial performance, none of the Named Executive Officers received salary increases during the fiscal 2016 annual salary review performed in August of 2015 except for one operating company president whose operating company achieved record fiscal 2015 financial results.

**Target Short-Term Incentive Bonuses:** Based on market data, the Committee increased the CEO's target bonus payout from 85% of his base compensation to 100% of his base compensation.

**Fiscal 2015 Short-Term Incentive Payout:** The fiscal 2015 short-term incentive plan metrics were based on the achievement of various financial and safety goals. The achievement of the financial goals determine 80% of the payout while the achievement of the safety goals determine the remaining 20%. In addition, the Company must earn 50% of its budgeted pre-incentive operating income before any bonuses are paid. Due to the charges on the acquired EPC joint venture project, pre-incentive operating income in fiscal 2015 did not meet this threshold. However, one operating company president received a discretionary bonus based on his operating company achieving record fiscal 2015 financial results. This executive did not receive any bonuses attributable to safety performance or consolidated financial performance. No other Named Executive Officers received a short term incentive payout in fiscal 2015.

**Fiscal 2014 Cash-Based Long-Term Incentive Award Payout:** The cash-based portion of the fiscal 2014 long-term incentive award was based on the Return on Average Invested Capital for fiscal 2014 and fiscal 2015. The acquired EPC joint venture project charges reduced the fiscal 2015 Return on Invested Capital to 8.3% which reduced the overall award to the threshold level. Prior to the charges, the Company was anticipating a payout level of between target and maximum. The actual payouts for the cash-based portion of the fiscal 2014 long-term incentive award are shown in the Non-Equity Incentive Plan Compensation column of the Summary Compensation Table.

¶The long-term incentive, or LTI, awards for fiscal 2015 were comprised of the following:

One-third of the award consisted of service-based restricted stock units ("RSUs"). Restrictions on the RSUs lapse in four equal annual installments;

One-third of the award consisted of performance units. Award recipients may receive anywhere from zero to two shares of our common stock for each performance unit on the third anniversary of the date of the award depending on

the Company's relative Total Shareholder Return in comparison to the performance of a peer group of companies.

One-third of the award consisted of a cash-based long-term incentive award. The payout for the cash-based long-term incentive award will range from zero to 150% of the target payout and is based on the Company's Average Return on Invested Capital for fiscal years 2015 and 2016.

This pay-for-performance philosophy is reflected in each aspect of the compensation package for executive officers and other management team members. All components of compensation for executive officers and key management are reviewed periodically to ensure consistency with our compensation philosophy and to verify that the overall level of compensation is competitive. We use the following principles in the design and administration of our executive compensation program:

**Competitiveness** – Our compensation programs are designed to ensure we can attract, motivate and retain the talent needed to lead and grow the business. Targets for base salary, short-term and long-term compensation are generally based on median (50<sup>th</sup> percentile) market levels.

**Support Business Objectives, Strategy and Values** – Ultimately our compensation program is designed to drive the achievement of short and long-term business objectives, support the creation of long-term value for our stockholders, and promote and encourage behavior consistent with our core values and guiding principles.

**Pay for Performance** – While we establish target pay levels at or near the median or 50<sup>th</sup> percentile market levels for target level performance, our plans provide the opportunity for significantly greater rewards for outstanding performance. At the same time, performance that does not meet expectations is not rewarded.

**Individual Performance** – In addition to company-wide, business unit and operating unit measures, our programs emphasize individual performance and the achievement of personal objectives.

**Integrated Approach** – We look at compensation in total and strive to achieve an appropriate balance of immediate, annual and long-term compensation components, with the ultimate goal of aligning executive compensation with the creation of long-term stockholder value.

Our executive compensation program is administered by the Committee. The role of the Committee is to provide oversight and direction to ensure the establishment of executive compensation programs that are competitive in nature, enable us to attract top talent, and align the interests of our executive officers and our stockholders.

The Committee is supported by our Vice President, Human Resources in the design, review and administration of our executive compensation programs. The Committee engaged Meridian to evaluate executive officer compensation, evaluate Company practices in relation to other companies and provide associated recommendations.

The CEO considers all relevant information and provides recommendations to the Committee regarding compensation for review, discussion and approval for all executive officers with the exception of himself. The Committee establishes CEO compensation. The Committee reviews the performance and approves the compensation of the executive officers based on the CEO's recommendations, and then reviews the performance and establishes appropriate compensation for the CEO in executive session without the CEO present.

In implementing our compensation philosophy, the Committee also compares our CEO's total compensation to the total compensation of the other Named Executive Officers. However, the Committee has not established a targeted level of difference between the total compensation of the CEO and the median total compensation level for the next lower tier of management. The Committee also considers internal pay equity among the other Named Executive Officers, and in relation to the next lower tier of management, in order to maintain compensation levels that are consistent with the individual contributions and responsibilities of those officers.

Committee Consideration of the 2014 Stockholder Vote on Executive Compensation

We conducted our advisory vote on executive compensation last year at our 2014 annual meeting. While this vote was not binding on us, we believe that it is important for our stockholders to have an opportunity to vote on this proposal on an annual basis as a means of expressing their views regarding our executive compensation philosophy, our compensation policies and programs, and our decisions regarding executive compensation, all as disclosed in our proxy statement. The Committee values the opinions of our stockholders and, to the extent there is any significant vote against the compensation of our Named Executive Officers, we will consider our stockholders' concerns, and the Committee will evaluate whether any actions are necessary to address those concerns.

Table of Contents

The Committee has reviewed the voting results from the advisory vote on executive compensation (commonly known as a say-on-pay proposal) conducted at our 2014 annual meeting of stockholders. At this meeting, more than 96% of the votes cast on the say-on-pay proposal were in favor of our Named Executive Officers' compensation as disclosed in the proxy statement for that meeting. The Committee determined that, given the high level of support, no changes to our executive compensation policies and decisions were necessary based on last year's voting results. The Committee intends to continue making executive compensation decisions with a focus on aligning pay with performance and promoting stockholder value.

Key Elements of Executive Compensation

The primary elements of our executive compensation program include:

- Base Pay;
- Annual/Short-Term Cash Incentive Compensation;
- Long-Term Incentive Compensation;
- Other Benefits; and
- Change of Control Agreements.

The Committee engaged Meridian to evaluate the mix of targeted compensation and the other types of programs that we offer. Meridian was engaged exclusively by the Committee and does not provide other services to the Company or senior management. The Committee has assessed the independence of Meridian pursuant to SEC rules and concluded that Meridian's work for the Committee does not raise any conflict of interest.

The Committee evaluated the competitiveness of the compensation package offered to our executives in both form and structure. Meridian's executive compensation practices analysis included a review of general industry survey data and of proxy information for the following companies:

Base Pay

Base pay is the foundation of our executive compensation package. Our practice in establishing executive base pay, and that for other managers and employees, is to determine the market median or "50<sup>th</sup> percentile" among comparable companies. For fiscal 2015, this data was obtained through Meridian. Base pay is then established based on the Named Executive Officer's responsibilities, role in the organization, level and type of work experience, and individual job performance. We expect to continue to engage a compensation consultant to review and benchmark competitive market pay data on no less than a bi-annual basis.

We utilize a market-based job evaluation system to establish and ensure equitable, competitive pay levels throughout the organization. Salary grades and ranges are established by evaluating positions based on the external market data and internal equity. All of our employees, including the Named Executive Officers, are assigned to a salary grade.

Broad ranges of salary are associated with each grade.

Base pay and salary grade also play a factor in determining other short- and long-term incentive compensation awards. Short-term incentive awards are a percentage of base salary and long-term incentives are based on a Named Executive Officer's salary grade.

Consistent with the Committee's normal practice of reviewing executive compensation, Meridian's observations and recommendations regarding the competitiveness of executive compensation were presented to the Committee at the August 2014 meeting. The Committee's decisions are discussed below:

John R. Hewitt - Chief Executive Officer - According to the Meridian study, Mr. Hewitt's base salary of \$655,000 was below the median of the peer group. The Committee then determined that Mr. Hewitt's performance during fiscal 2014 was very strong. Accordingly, the Committee concluded that it would be appropriate to increase his base salary by \$95,000 to \$750,000 effective September 1, 2014.

Joseph F. Montalbano - Chief Operating Officer - The Meridian study indicated that Mr. Montalbano's base salary was near the median. Mr. Hewitt recommended, based on Mr. Montalbano's performance, a salary increase of 5.0%.

The Committee approved Mr. Hewitt's recommendation and Mr. Montalbano's salary was increased by \$22,500 to \$472,500 effective September 1, 2014.

Table of Contents

Kevin S. Cavanah - Chief Financial Officer - The Meridian study indicated that Mr. Cavanah's base salary was significantly below the median. Mr. Hewitt recommended, based on Mr. Cavanah's exceptional performance, a salary increase of 15.0%, or \$54,450, to \$417,450. After the increase, Mr. Cavanah's salary is near the median level. The pay increase was effective September 1, 2014.

James R. Ryan - President Matrix Service - The Meridian study indicated that Mr. Ryan's base salary was slightly below the median. Based on Mr. Hewitt's recommendation, the Committee approved a salary increase of 5.0%, to \$358,155 effective September 1, 2014.

Jason W. Turner - President Matrix North American Construction - The Meridian study indicated that Mr. Turner's base salary was below the median. Based on Mr. Hewitt's recommendation, the Committee approved a salary increase of 11.0%, to \$344,100 effective September 1, 2014.

Annual/Short-Term Incentive Compensation

Our annual/short-term incentive compensation plan is designed to offer the opportunity for substantial annual cash incentive awards for delivering outstanding performance. Rewards under our short-term incentive compensation plan are based on overall company, business unit and individual performance, as compared to pre-established objectives that are tied to enhancement of stockholder value. Our short-term incentive compensation objectives are designed to:

- support and drive performance toward achieving our strategic objectives;
- emphasize overall company and business unit performance in the structuring of reward opportunities;
- motivate and reward superior performance; and
- provide incentive compensation opportunities that are competitive with the industry.

The base calculation of incentives is generally tied to objective measures for financial and safety performance.

Incentives for executive officers below the CEO in the form of targeted percentages of base salary are recommended by the CEO and reviewed and approved by the Committee, which is free to reject or revise the CEO's recommendations. The targeted incentive compensation percentage of base salary for the CEO is determined solely by the Committee in executive session, without the CEO present.

For fiscal year 2015, the Committee approved, at the August 2014 meeting, the following key provisions of the annual/short-term incentive compensation plan:

- The incentive pool would fund at 15% of pre-incentive operating income. If 50% of budgeted fiscal 2015 pre-incentive operating income is not earned, no non-discretionary payments are earned under the plan.

- Incentives would be weighted at 80% for performance against financial metrics and 20% for performance against safety metrics.

Safety incentives would be paid based on our Total Recordable Incident Rate ("TRIR") and the timely reporting of work place safety incidents. Financial incentives would be based on operating income and Return on Invested Capital ("ROIC"). The metric attributable to ROIC for all of the Names Executive Officers is measured based on the consolidated results of Matrix Service Company. The safety metrics for Messrs. Ryan and Turner are calculated based on the performance of their respective operating companies (Matrix Service Inc. and Matrix North American Construction, Inc.) while the operating income metric is based on the consolidated operating performance of the Company and the operating performance of their respective operating company.

- Once the Committee approved the incentive metrics, Threshold, Target and Maximum levels of performance were defined.

Target short-term incentives for fiscal 2015 were established for each of the Named Executive Officers. Based on market data provided by Meridian, Mr. Hewitt's target was increased from 85% to 100% of his base salary, Messrs. Montalbano's and Cavanah's targets remained at 65% of their respective base salaries and Messrs. Ryan's and Turner's targets remained at 60% of their respective base salaries.

Incentive targets for the Named Executive Officers are as follows:

-

Safety performance targets were established based on our TRIR and the timely reporting of workplace safety incidents. Incentives for Mr. Hewitt, Mr. Montalbano, and Mr. Cavanah were tied to our consolidated safety metrics.  
Incentives

for Mr. Ryan and Mr. Turner were tied to the safety metrics of their respective operating companies. The specific criteria were as follows:

	Threshold	Target	Maximum
TRIR	0.85	0.70	0.37
Timely incident reporting	75.0%	85.0%	95.0%

The financial incentive tied to pre-tax operating income represents 70% of the total bonus opportunity for the Named Executive officers. For Mr. Hewitt, Mr. Montalbano, and Mr. Cavanah the incentive opportunity was measured at the consolidated level. The specific consolidated pre-tax operating income criteria were as follows: Threshold - \$51.5 million, Target - \$66.9 million, Maximum - \$80.2 million. Incentives for Mr. Ryan and Mr. Turner were tied to the operating income of their respective operating companies.

Ten percent of the total bonus opportunity is tied to the achievement of ROIC. The specific criteria are as follows: Threshold - 15.0%; Target - 17.0%; and Maximum - 19.0%. The incentive attributable to ROIC is measured at the consolidated level for all Named Executive Officers.

The Committee evaluated actual results in each category against the safety and performance goals:

**Safety:** In fiscal 2015, we achieved a TRIR of 0.60 and an incident reporting rate of 90%, representing performance between target and maximum under both the TRIR and incident reporting metrics.

**Financial:** In fiscal 2015, we achieved pre-incentive operating income of \$33.0 million. This level of pre-incentive operating income is less than the 50% necessary to trigger non-discretionary payments under the plan and less than the threshold performance level for pre-incentive operating income described above. The fiscal 2015 ROIC was 8.3%, which was below threshold.

Performance measures are established shortly after the beginning of the fiscal year and do not include the impact of any acquisitions, positive or negative, completed within the fiscal year. However, it is anticipated that the Committee would evaluate any acquisitions which may be completed during the fiscal year on a case-by-case basis to determine their impact on the plan and adjust performance measures appropriately.

Actual incentive payouts for fiscal 2015 to the Named Executive Officers were approved by the Committee at the August 2015 Compensation Committee Meeting and are as follows:

**John R. Hewitt** - Since the Company did not generate the 50% of pre-incentive operating income necessary for incentive payout, Mr. Hewitt did not receive a short term incentive payout in fiscal 2015.

**Joseph F. Montalbano** - Since the Company did not generate the 50% of pre-incentive operating income necessary for incentive payout, Mr. Montalbano did not receive a short term incentive payout in fiscal 2015.

**Kevin S. Cavanah** - Since the Company did not generate the 50% of pre-incentive operating income necessary for incentive payout, Mr. Cavanah did not receive a short term incentive payout in fiscal 2015.

**Jason W. Turner** - Since the Company did not generate the 50% of pre-incentive operating income necessary for incentive payout, Mr. Turner did not receive a short term incentive payout in fiscal 2015.

**James R. Ryan** - Since Mr. Ryan's operating company achieved its budgeted income target in fiscal 2015, the Committee, based on Mr. Hewitt's recommendation, awarded Mr. Ryan a discretionary short term incentive compensation bonus of \$78,042, or 21.8% of his base salary at June 30, 2015. Mr. Ryan's bonus was based on record financial performance for his operating company. He did not receive any bonus attributable to the safety, consolidated operating income or ROIC portions of the plan.

The Annual/Short-Term Incentive Compensation Plan is reviewed and evaluated periodically to ensure that it meets our objectives and may be modified, discontinued or replaced based on our changing objectives and requirements.

#### Long-Term Incentive Compensation

The purpose for providing long-term incentive compensation to executive officers is to tie executive rewards directly to the enhancement of long-term stockholder value and Company profitability. Offering the opportunity for executive officers and other key members of management to earn an ownership position in the Company along with a long-term cash incentive enables us to remain competitive and attract, retain and motivate top executive and management talent. We believe that long-

Table of Contents

term incentive awards help to create and maintain a long-term perspective among executive officers and provide a direct link to our long-term growth and profitability. However, we also understand that equity awards create dilution in our earnings per share and therefore, believe that a portion of our long-term incentive compensation should be in the form of cash.

The Committee believes that a combination of RSUs and performance units are the most appropriate forms of equity awards to achieve our stated objectives. RSUs strongly and directly link management and stockholder interests. As a full value award, RSUs are less dilutive to stockholders than stock options, since we are able to issue fewer shares in order to attain the desired level of equity compensation for our executive officers and managers. Under the long-term incentive program, all awards are issued on an annual basis. A portion of the annual award is in the form of service-based RSUs that vest over a specified period of time. Service-based shares are an excellent tool to promote executive officer/management retention. The second portion of the award is in the form of performance units with performance criteria that link the equity reward to achievement of stockholder value. Finally, the remaining portion of the award is cash-based and includes performance incentives tied to achievement of important strategic goals. Specific, individual grants vary by level/role in the organization. The amount of each award corresponds to the respective salary grade for each executive officer and manager.

Based on the Meridian study, trends of our peer companies, compensation objectives of retention and value creation, and the objective of conserving shares available for grant under our equity incentive plan and reducing earnings dilution, the Committee approved the following structure for the fiscal 2015 long-term incentive grant.

One third of the grant consisted of service-based RSUs. Vesting will occur evenly over a four-year period beginning on the first anniversary of the grant date.

One third of the grant is in the form of performance units. The performance units cliff vest on the third anniversary of the grant. The shares of Company common stock received can vary from zero to two for each performance unit based on the relative Total Shareholder Return of the Company's common stock when compared to the Total Shareholder Return of a group of peer companies over the vesting period. The potential award levels are as follows:

Shareholder Return Goal	Total Shareholder Return	Shares of Common Stock for Each Performance Unit
Threshold	25th percentile of Peer Group	0.25
Above Threshold	35th percentile of Peer Group	0.50
Target	50th percentile of Peer Group	1.00
Above Target	75th percentile of Peer Group	1.50
Maximum	90th percentile of Peer Group	2.00

The peer group for the fiscal 2015 performance unit award was as follows:

AECOM Technology Corporation	MasTec, Inc.
Aegion Corp.	McDermott International Inc.
AMEC PLC	Mistras Group Inc.
Chicago Bridge & Iron Company N.V.	MYR Group Inc.
Emcor Group, Inc.	Primoris Services Corporation
Fluor Corporation	Quanta Services Inc.
Furmanite Corp.	Team Inc.
Jacobs Engineering Group Inc.	Willbros Group Inc.
KBR Inc.	

The remaining one-third of the grant was a performance-based award to be paid in the form of cash. The award cliff vests after two years and is based on the Average Return on Invested Capital ("AROIC") achieved by the Company over fiscal years 2015 and 2016. The threshold AROIC goal is 15%, the target AROIC goal is 17% and the maximum AROIC goal is 19%. At these performance levels, the payouts would be 50%, 100% and 150% of the target award. Long-term incentive awards are reviewed and evaluated periodically to ensure that they meet our objectives and may be modified, discontinued or replaced based on the changing objectives and requirements of the Company. Grants made during fiscal 2015 to our Named Executive Officers are shown in the Grants of Plan-Based Awards table.

Perquisites and Other Benefits

Our executive officers do not receive significant compensation in the form of perquisites or supplemental benefits. In general, our executive officers are eligible to participate in the same retirement and health and welfare plans as all of our other eligible employees. We offer the following benefits to executive officers.

We sponsor a 401(k) Savings Plan which allows executive officers, and other employees, to contribute up to 25% of their salary (up to the annual IRS maximum). The Company's Safe Harbor Matching Contribution is a 100% matching contribution on salary deferrals up to the first 3% of compensation and 50% on the next 2% of salary deferrals. All matching contributions are 100% vested. Executive officers participate and receive benefits under the plan in the same manner as all other eligible participants. We do not sponsor or maintain any other pension, deferred compensation or other supplemental retirement plans for executive officers.

In addition to the group term life policy offered to all eligible employees, we provide additional life insurance to our executive officers, at no cost to the officer. Specifically, the Company provides a term life insurance policy equal to 2 times base salary to a maximum of \$1.5 million. For the CEO, an additional corporate term life insurance policy of \$600,000 is provided.

The Company provides long-term disability to all administrative employees. Under this plan, the employee may receive disability payments of up to 60% of their base compensation subject to a maximum of \$12,000 per month. The Company also provides a supplemental executive long-term disability plan to the NEOs. Under the plan, the NEOs may receive disability payments of up to 60% of the sum of their base compensation and the average of their prior two years short-term incentive cash bonuses. The supplemental plan also increases the benefit up to maximum of \$20,000 per month.

In addition to the company-provided life insurance policies described above, all executive officers, along with other eligible employees and managers, have the option to purchase supplemental life insurance for themselves, their spouses and dependents.

Change of Control/Severance Agreements

We have entered into Change of Control/Severance Agreements with each of our Named Executive Officers. These agreements are designed to promote stability, continuity and focus for key members of leadership during periods of uncertainty that may be created by change of control situations. Additionally, the use of such agreements is a competitive practice that enhances our ability to attract and retain leadership talent. For further details regarding our Change of Control/Severance Agreements, see the discussion under the caption "Potential Payments Upon Termination or Change of Control."

### Clawback Policy

Consistent with the principles of responsible oversight, the Company's Board of Directors has adopted a clawback policy, and the Company's equity award agreements also include a clawback provision. The clawback policy provides that, to the extent permitted by law, if the Board of Directors, with the recommendation of the Committee, determines that:

any bonus, equity award, equity equivalent award or other incentive compensation has been awarded or received by an executive officer, and such compensation was based on the achievement of any financial results that were subsequently the subject of any material restatement of our financial statements filed with the SEC;

the executive officer engaged in grossly negligent or intentional misconduct that caused or substantially caused the material restatement; and

the amount of the compensation would have been less had the financial statements been correct,

we will seek to recover from the executive officer such compensation, in whole or in part, as we deem appropriate under the circumstances. The Board of Directors has sole discretion in determining whether an officer's conduct has or has not met any particular standard of conduct under law or Company policy.

Pursuant to the Dodd-Frank Wall Street Reform and Consumer Protection Act, which was signed into law on July 21, 2010, the SEC was directed to issue rules requiring the national securities exchanges to amend their listing standards to require listed companies to adopt mandatory clawback policies. The Company anticipates that it will modify its clawback policy to conform to the requirements of any such rules or listing requirements upon their adoption.

### Policy on Hedging and Pledging of Company Securities

Hedging transactions may permit a director, officer or employee to continue to own our securities obtained through employee benefit plans or otherwise, but without the full risks and rewards of ownership. When that occurs, the director, officer or employee may no longer have the same objectives as our other stockholders. Our Insider Trading Policy specifically prohibits our directors, Named Executive Officers and other employees from engaging in any hedging activities with respect to our securities.

Securities held in a margin account as collateral for a margin loan may be sold by the broker without the customer's consent if the customer fails to meet a margin call. Similarly, securities pledged as collateral for a loan may be sold in foreclosure if the borrower defaults on the loan. Because a margin sale or foreclosure sale may occur at a time when the pledgor is aware of material non-public information or otherwise is not permitted to trade in the Company's securities, our Insider Trading Policy prohibits directors, Named Executive Officers and other employees from holding our securities in a margin account or otherwise pledging our securities.

### Compensation Program as it Relates to Risk

We have reviewed our compensation policies and practices for both executives and non-executives as they relate to risk and have determined that they are not reasonably likely to have a material adverse effect on the Company. In reaching this conclusion, we considered the various elements of our compensation program that are designed to help mitigate excessive risk taking, including:

**Components of Compensation:** We use a mix of compensation elements including base salary, short-term incentives and long-term incentives to avoid placing too much emphasis on any one component of compensation.

**Short-term Incentive:** Our short-term incentive compensation plan does not allow for unlimited payouts. For fiscal 2015 short-term incentive payments cannot exceed 150% of target levels.

**Long-term Incentive Awards:** Our long-term incentive awards drive a long-term perspective and vest over a period of two or four years. Our performance-based long-term incentive awards are capped and cannot exceed 200% of target levels.

**Committee Oversight:** The Committee reviews and administers all awards under short- and long-term incentive plans.

**Performance Measures:** Our performance goal setting process is aligned with our business strategy and the interests of our stockholders.

Clawback Policy: We have the ability to recover any excess incentive-based compensation awarded to any of our executive officers as a result of an accounting restatement due to material non-compliance with the reporting requirements under federal securities laws.

Stock Ownership Guidelines: Our stock ownership guidelines require our senior management to maintain a significant portion of their personal wealth in our common stock for the duration of their employment with our Company.

Table of Contents

Our compensation program is designed to motivate our Named Executive Officers and other Company officers to achieve business objectives that generate strong stockholder returns and to encourage ethical behaviors.

Equity Ownership Guidelines

The Board of Directors believes that our executive officers should demonstrate their commitment to, and belief in, the Company's long-term profitability. Stock ownership more closely aligns our executive officers' interests and actions with the interests of the Company's stockholders. Accordingly, each officer is expected to maintain a significant investment in the Company through the ownership of our common stock. See the discussion under the caption "Equity Ownership Guidelines" for a description of our guidelines.

Report of the Compensation Committee of the Board of Directors

The Compensation Committee of the Board of Directors has reviewed and discussed the Compensation Discussion and Analysis required by Item 402(b) of Regulation S-K with management and, based on such review and discussions, the Compensation Committee recommended to the Board of Directors that the Compensation Discussion and Analysis be included in this proxy statement.

A portion of the awards that were granted in fiscal years 2013, 2014, and 2015 are subject to certain market conditions; accordingly, the grant date fair value of these

awards is based upon the probable outcome of those conditions. Amounts have not been adjusted for expected forfeitures. Represents the number of shares which may be issued pursuant to fiscal 2015 performance unit awards to the Named Executive Officers that cliff vest three years after the grant date. The number of shares of common stock received upon vesting of the performance units will range between 0% and 200% of the number of performance (1) units awarded as determined by the three-year Total Shareholder Return on the Company's common stock when compared to the Total Shareholder Return on the common stock of a group of peer companies selected by the Compensation Committee of the Board of Directors. The fiscal 2015 performance unit awards are described under the caption "Compensation Discussion and Analysis".

(2) Amounts shown represent service-based restricted stock units granted to the Named Executive Officers in fiscal 2015. The awards vest in four equal annual installments beginning one year after the grant date.

Amounts shown are calculated based upon the grant date fair value calculated in accordance with ASC718 – Compensation—Stock Compensation. The grant date fair value of the service-based restricted stock units is calculated by multiplying the number of restricted stock units awarded by the closing stock price on the date of grant. The grant date fair value of the performance units is calculated using a Monte Carlo model. The model (3) estimated the fair value of the award based on approximately 100,000 simulations of the future prices of the Company's common stock compared to the future prices of its peer companies based on historical volatilities. The model also took into account the expected dividends over the performance period. See Notes 1 and 10 of the Notes to the Consolidated Financial Statements included in the Company's fiscal 2015 Annual Report on Form 10-K for a full discussion of the Company's stock based compensation accounting policies.

The amounts shown are the cash incentive compensation award potential for each Named Executive Officer under our annual/short-term incentive compensation plan described under the caption "Compensation Discussion and (4) Analysis". Actual payouts to the Named Executive Officers for the applicable fiscal year are reported in the Summary Compensation Table as a portion of the amount shown under the column "Non-Equity Incentive Plan Compensation". No amounts were paid for fiscal 2015 under the annual/short-term incentive compensation plan.

Amounts shown represent the potential cash awards for each Named Executive Officer under the cash portion of our fiscal 2015 long-term incentive award described under the caption "Compensation Discussion and Analysis". (5) The actual cash payout can range from 0% to 150% of the target payout and is based on average Return on Invested Capital for fiscal 2015 and fiscal 2016. Actual payouts for the applicable fiscal year are reported in the Summary Compensation Table as a portion of the amount shown under the column "Non-Equity Incentive Plan Compensation."

Represents fiscal 2013, 2014 and 2015 performance unit awards to the Named Executive Officers that cliff vest three years after the grant date. If threshold performance is achieved, the performance units are converted to the Company's common stock upon vesting. The number of shares of common stock received for each performance unit will vary from zero to two based on the Total Shareholder Return on the Company's common stock when compared to Total Shareholder Return on common stock of peer companies selected by the Compensation Committee of the Board of Directors. The Total Shareholder Return Goals are as follows:

Table of Contents

Shareholder Return Goal	Total Shareholder Return	Shares of Common Stock for Each Performance Unit
Threshold	25th percentile of Peer Group	0.25
Above Threshold	35th percentile of Peer Group	0.50
Target	50th percentile of Peer Group	1.00
Above Target	75th percentile of Peer Group	1.50
Maximum	90th percentile of Peer Group	2.00

The performance period (fiscal 2013, 2014 and 2015) for the fiscal 2013 performance unit award has been completed. In August 2015, the Compensation Committee certified that the Company's relative Total Shareholder Return for the performance period resulted in an award of 1.84 shares for each performance unit granted. Accordingly, the number of shares presented for the fiscal 2013 performance unit award is equal to the number of shares actually earned for that period. Based on the Company's relative Total Shareholder Return for fiscal 2014 and 2015 (two-thirds of the performance period for the fiscal 2014 award), the fiscal 2014 award is presented at the Maximum performance level. Based on the Company's relative Total Shareholder Return for fiscal 2015 (one-third of the performance period for the fiscal 2015 award), the fiscal 2015 award is presented at the Threshold performance level.

**Option Exercises and Stock Vested During Fiscal 2015**

The following table sets forth information with respect to the value realized by our Named Executive Officers upon the exercise of stock options and the vesting of restricted stock units in fiscal 2015.

Name	Fiscal 2015 Option Awards		Stock Awards	
	Number of Shares Acquired on Exercise (#)	Value Realized on Exercise (\$ (1))	Number of Shares Acquired on Vesting (#)	Value Realized on Vesting (\$ (2))
John R. Hewitt	—	—	44,307	1,054,219
Joseph F. Montalbano	—	—	19,854	458,506
Kevin S. Cavanah	—	—	14,122	333,327
James P. Ryan	—	—	15,014	348,854
Jason W. Turner	—	—	7,954	182,828

(1) The value realized is the difference between the option exercise price and the sales price of the common stock on the date of exercise, multiplied by the number of shares for which the options were exercised.

(2) The value realized is the closing sales price of the common stock on the vesting date, multiplied by the number of shares for which the restrictions lapsed.

**Potential Payments Upon Termination or Change of Control**

We have entered into Change of Control/Severance Agreements with Mr. Hewitt, Mr. Cavanah, Mr. Montalbano, Mr. Ryan and Mr. Turner. These agreements are designed to promote stability, continuity and focus for key members of leadership during periods of uncertainty that may be created by change of control situations. Additionally, the use of such agreements is a competitive practice that enhances our ability to attract and retain leadership talent.

Under these agreements, payment of benefits may occur under two circumstances:

• If we experience a "Change of Control" and the executive suffers an "Adverse Event" or is terminated without "Cause," either on the date of the Change of Control or within 24 months following the Change of Control date; or

¶The executive is terminated from employment at any time for reasons other than Cause.

“Change of Control” means (i) a “change in ownership” of the Company of greater than 50% of the outstanding voting stock of the Company within a six month period; (ii) a “change in the effective control” of the Company as determined by a change of greater than 35% of the outstanding voting stock of the Company by a person or persons acting as a group within a twelve month period; or (iii) a “change in the ownership” of a substantial portion of the assets of the Company as these terms are defined under Internal Revenue Code § 409A(a)(2)(A)(v) and Treasury Regulations § 1.409A-3(g)(5) or other then existing and applicable Treasury Regulations promulgated under Code § 409A that define the terms “change of control” for deferred compensation arrangements.

“Cause” means, with reference to a severance event, that the executive has been severed from employment with the Company because of the executive’s theft of Company property, embezzlement or dishonesty that results in harm to the Company;

Table of Contents

continued gross or willful neglect of his or her job responsibilities after receiving written warnings regarding such neglect from the Company; conviction of a felony or pleading nolo contendere to a felony charged under state or federal law; or willful violation of Company policy. A determination by the Company's Board of Directors that an event constituting "Cause" under this Agreement has occurred is binding upon the Company and the executive.

"Adverse Event" means that the executive has experienced an event that has a material adverse impact on the executive's job position, responsibilities, duties, authorities, compensation or opportunities within the Company. An Adverse Event shall be considered "material" when: (i) the executive experiences any reduction in base salary; (ii) the executive experiences a reduction in salary range or opportunity for increases in salary; (iii) the executive experiences a reduction in incentive compensation range or opportunity; (iv) there is a material reduction in the executive's executive benefits or perquisites; (v) the executive is reassigned to a position or role with a lower salary range, salary opportunity, incentive range or incentive opportunity; or (vi) the executive experiences a material reduction in responsibilities.

In the event payment of benefits is triggered under these agreements, the executive officer will be paid in the manner outlined below. All benefits paid under these agreements are conditioned upon the executive executing a non-interference, non-solicitation, waiver and release of claims and confidentiality agreement in a form satisfactory to us. Failure to execute such an agreement prior to the payment date is considered an absolute forfeiture of the severance benefit. In the event an executive officer is terminated for Cause, all benefits and payments under the agreement are forfeited.

In the event an executive suffers an Adverse Event within 24 months of a Change of Control, benefits are paid as follows:

Mr. Hewitt, Mr. Cavanah and Mr. Montalbano – Paid an amount equal to two years of base salary plus the average annual bonus compensation paid to the executive in the lesser of the previous three years or the number of full fiscal years the executive has been employed in the position. All forms of equity benefits vest and restrictions on such benefits lapse immediately.

Mr. Ryan and Mr. Turner – Paid an amount equal to one year of base salary plus the average annual bonus compensation paid to the executive in the previous three calendar years. All forms of equity benefits vest and restrictions on such benefits lapse immediately.

In the event an executive is terminated from employment for reasons other than Cause, benefits are paid as follows:

Mr. Hewitt – Paid an amount equal to one year of base salary plus bonus compensation in an amount equal to 75% of base salary.

Mr. Cavanah, Mr. Montalbano, Mr. Ryan and Mr. Turner – Paid an amount equal to one year of base salary plus the lesser of the average annual bonus compensation paid to the executive in the previous three years or the number of full fiscal years the executive has been employed in the position.

We have also entered into Change of Control Agreements with other executive officers and key members of management. These agreements are designed to promote stability, continuity and focus for key personnel during periods of uncertainty that may be created by potential change of control situations. We seek to offer some security and protection when asking officers and managers to remain engaged through uncertain times.

Under these agreements, payment of benefits occurs in the event of a Change of Control and the executive officer/manager has suffered an Adverse Event or been terminated from employment for reasons other than Cause, either on the date of the Change of Control or within six months of the Change of Control date. There is no general severance clause in these agreements.

In the event payment of benefits is triggered under these agreements, the executive officer/manager will be paid an amount equal to one year of base salary. In addition, all equity awards immediately vest and all restrictions on such benefits lapse. All benefits paid under these agreements are conditional upon the executive officer/manager executing a non-interference, non-solicitation, waiver and release of claims and confidentiality agreement in a form satisfactory

to us. Failure to execute such an agreement prior to the payment date will be considered an absolute forfeiture of the severance benefit. In the event an executive officer/manager is terminated for Cause, all benefits and payments under the agreement are forfeited.

Benefits will be paid in the calendar year the event occurs and, generally, within thirty days of the date of the event. In no case shall the payment of the severance benefits be paid later than March 15 following the calendar year in which the event occurred.

The following table shows potential payments to our Named Executive Officers under existing contracts, agreements, plans or arrangements, whether written or unwritten for various scenarios involving a termination of each of such Named Executive Officers, assuming a June 30, 2015 termination date and, where applicable, using the closing price of our common stock on

Table of Contents

June 30, 2015 of \$18.28. These amounts are estimates only. The actual amounts to be paid out can only be determined at the time of such executive officer's separation from us.

Except for certain terminations which entitle a Named Executive Officer to severance payments under the agreements described above, and except for the acceleration of vesting of equity awards upon retirement, death or disability to which a Named Executive Officer may be entitled under his respective award agreements, there are no agreements, arrangements or plans that entitle the Named Executive Officers to severance, perquisites or other enhanced benefits upon their termination of employment. Any agreement to provide such other payments or benefits to a terminating executive would be at the discretion of the Compensation Committee.

(1) Represents payment of one or two years of base salary for the event specified based on base salary as of June 30, 2015.

(2) Represents payment of non-equity incentive severance for the event specified based on the average annual bonus compensation paid to the executive in the lesser of the previous three years or the number of full fiscal years the executive has been employed in the position.

(3) Represents the value the Named Executive Officer would realize for the vesting of all nonvested stock options for the specified event. The value is the difference between the option exercise price and the market price of the

common stock as of the close of business on June 30, 2015, multiplied by the number of nonvested stock options at June 30, 2015. At June 30, 2015, all of the stock options held by the NEOs were already exercisable.

Represents the value the Named Executive Officer would realize upon the lapsing of restrictions on RSUs, performance units and cash LTI awards due to the specified event. The value shown is the number of unvested (4) RSUs and performance units, assuming a target performance level, at June 30, 2015 multiplied by the market price of common stock at the close of business on June 30, 2015 plus the value of the cash LTI awards, which are also assumed to vest based on the target level of performance.

Represents 75% of annual salary for Mr. Hewitt. For Mr. Montalbano, Mr. Cavanah, Mr. Turner and Mr. Ryan, the amount represents payment of non-equity incentive severance for the event specified based on the average annual (5) bonus compensation paid to the executive in the lesser of the previous three years or the number of full fiscal years the executive has been employed in the position.

Represents the value the Named Executive Officer would realize for the lapsing of restrictions on RSUs, performance units and cash LTI awards due to the Named Executive Officer's retirement. The value shown is the number of unvested RSUs at June 30, 2015 for which restrictions would lapse at retirement multiplied (6) by the market price of common stock at the close of business on June 30, 2015. Restrictions lapse on performance units and cash LTI awards upon retirement on a pro rata basis based on the number of full and partial months served in the applicable performance period. The performance units and cash LTI awards are assumed to vest at the target level of performance. Messrs. Hewitt, Cavanah, Ryan, and Turner were not eligible for retirement at June 30, 2015.

This vote is not intended to address any specific item of compensation, but rather the overall compensation of our Named Executive Officers and the policies and practices described in this proxy statement. As discussed under the heading "Compensation Discussion and Analysis," our executive compensation and benefit programs are designed to attract, motivate and retain a talented management team and to appropriately reward individual contributions to

the achievement of our strategic goals. The Board of Directors believes this approach establishes a solid alignment of our executives' and stockholders' interests.

We use the following principles in the design and administration of our executive compensation program:

**Competitiveness** – Our compensation programs are designed to ensure we can attract, motivate and retain the talent needed to lead and grow the business. Targets for base salary, short-term and long-term compensation are generally based on median (50<sup>th</sup> percentile) market levels.

**Support Business Objectives, Strategy and Values** – Ultimately our compensation program is designed to drive the achievement of annual business objectives, support the creation of long-term value for our stockholders, and promote and encourage behavior consistent with our core values and guiding principles.

**Pay for Performance** – While we establish target pay levels at or near the median or 50<sup>th</sup> percentile market levels for target level performance, our plans provide the opportunity for significantly greater rewards for outstanding performance. At the same time, performance that does not meet expectations is not rewarded.

**Individual Performance** – In addition to objective company-wide, business unit and operating unit financial measures, our programs emphasize individual performance and the achievement of personal objectives.

**Integrated Approach** – We look at compensation in total and strive to achieve an appropriate balance of immediate, short-term and long-term compensation components, with the ultimate goal of aligning executive compensation with long-term stockholder value.

Approval of this advisory vote requires the affirmative vote of the majority of shares present in person or by proxy at the Annual Meeting and entitled to vote for the adoption of this proposal. The Board of Directors recommends a vote “For” the approval of the compensation of our Named Executive Officers as disclosed in this proxy statement pursuant to the compensation disclosure rules of the SEC.

The Board of Directors welcomes our stockholders' views on this subject, and will carefully consider the outcome of this vote. However, as an advisory vote, the outcome is not binding on us or the Board.

### CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS

#### Transactions with Related Persons

In fiscal 2015, there were no related person transactions required to be disclosed under SEC rules and regulations.

#### Review, Approval or Ratification of Transactions with Related Persons

The Company's Corporate Governance Guidelines, which are available on the Corporate Governance page in the Investor Relations section of our website, [matrixservicecompany.com](http://matrixservicecompany.com), provide that the Company shall conduct an appropriate review of all transactions with related persons for potential conflict of interest situations on an ongoing basis, and all such transactions shall be approved by the Audit Committee or another independent body of the Board. The Corporate Governance Guidelines further provide that the term “transactions with related persons” refers to all transactions which are required to be disclosed pursuant to Item 404 of Regulation S-K.

In the course of its review and approval or ratification of a transaction, the Audit Committee will consider:

- the nature of the related person's interest in the transaction;
- the material terms of the transaction;
- the significance of the transaction to the related person;
- the significance of the transaction to us;
- whether the transaction would impair the judgment of a director or executive officer to act in our best interest; and
- any other matters the Audit Committee deems appropriate.

Our Corporate Governance Guidelines also provide that each director and executive officer is required to complete a Director and Officer Questionnaire on an annual basis, and to update such information when the questionnaire

responses become incomplete or inaccurate. The Director and Officer Questionnaire requires disclosure of any transactions with the Company in which the director or executive officer, or any member of his or her immediate family, has a direct or indirect material interest.

#### Equity Ownership Guidelines

The Board of Directors believes that our executive officers should demonstrate their commitment to and belief in the Company's long-term profitability. Accordingly, each executive officer is expected to maintain a significant investment in the Company through the ownership of Company stock. Stock ownership more closely aligns our executive officers' interests and actions with the interests of the Company's stockholders.

Our Equity Ownership Guidelines, which were most recently revised in August 2011, are as follows:

CFO/COO/Presidents of the two principal operating subsidiaries	3 times base salary
All other executive officers	1 times base salary

Timing: The executive officers have until the later of August 2016 or five years after the date of their appointment as an executive officer to acquire the ownership levels discussed above. Thereafter, they are expected to retain this level of ownership during their tenure with the Company. Compliance will be evaluated on an annual basis as of June 30 of each year.

Eligible Forms of Equity:
