RARE Hospitality International, Inc. Notes to Consolidated Financial Statements (Unaudited)

1. Basis of Presentation

The consolidated financial statements of RARE Hospitality International, Inc. and subsidiaries (the Company) as of September 26, 2004 and December 28, 2003 and for the quarters and nine months ended September 26, 2004 and September 28, 2003 have been prepared by the Company, pursuant to the rules and regulations of the Securities and Exchange Commission. The information furnished herein reflects all adjustments (consisting of normal recurring accruals and adjustments), which are, in the opinion of management, necessary to fairly present the operating results for the respective periods. Certain information and footnote disclosures normally presented in annual financial statements prepared in accordance with generally accepted accounting principles have been omitted pursuant to such rules and regulations. Certain amounts for the prior year have been reclassified to conform with the current year's presentation. These financial statements should be read in conjunction with the consolidated financial statements and notes thereto contained in the Company's Annual Report on Form 10-K for the year ended December 28, 2003.

The Company records revenues for normal recurring sales upon the performance of services. Revenues from the sales of franchises are recognized as income when substantially all of the Company's material obligations under the franchise agreement have been performed. Continuing royalties, which are a percentage of net sales of franchised restaurants, are accrued as income when earned.

The Company operates on a 52- or 53-week fiscal year ending on the last Sunday in each calendar year. Each of the four fiscal quarters is typically made up of 13 weeks. The fiscal quarters and year-to-date periods ended September 26, 2004, and September 28, 2003 each contained 13 weeks and 39 weeks, respectively.

2. New Accounting Pronouncements

In January 2003, the FASB issued FASB Interpretation No. 46 (FIN 46), Consolidation of Variable Interest Entities, an Interpretation of ARB No. 51, which addresses consolidation by business enterprises of variable interest entities (VIEs) either: (1) that do not have sufficient equity investment at risk to permit the entity to finance its activities without additional subordinated financial support, or (2) in which the equity investors lack an essential characteristic of a controlling financial interest. In December 2003, the FASB issued modifications to FIN 46 (Revised Interpretations) resulting in multiple effective dates based on the nature as well as the creation date of the VIE. VIEs created after January 31, 2003, but prior to January 1, 2004, may be accounted for either based on the original interpretation or the Revised Interpretations. However, the Revised Interpretations must be applied no later than the first quarter of 2004. VIEs created after January 1, 2004 must be accounted for under the Revised Interpretations. Non-Special Purpose Entities created prior to February 1, 2003, should be accounted for under the revised interpretation's provisions no later than the first quarter of fiscal 2004. As of the beginning of 2004, the Company adopted FIN 46 and the Revised Interpretations, neither of which had an impact on the Company's consolidated financial statements.

3. Shareholders' Equity and Stock Based Compensation

During the second quarter of 2004, the Company purchased 300,000 shares of its common stock for a total purchase price of approximately \$8,188,000 (average price of \$27.29 per share). As of September 26, 2004, approximately \$16,812,000 remained available under the Company's \$25.0 million share repurchase authorization.

The Company has stock option plans that provide for the granting of incentive and non-qualified stock options to employees, officers, directors, consultants, and advisors. Under the plans, options are granted at an exercise price equal to the fair market value of the underlying common stock on the date of grant. The Company applies APB Opinion No. 25 and related interpretations in accounting for its stock option plans as permitted under SFAS 123 and SFAS 148. Accordingly, no compensation cost has been recognized for the Company's stock option plans. Had the compensation cost for the Company's stock option plans been determined based on the fair value at the grant dates for awards under those plans consistent with the fair value methodology of SFAS 123, the Company's net earnings and earnings per share would have been as follows (in thousands, except per share data):

Edgar Filing: RARE HOSPITALITY INTERNATIONAL INC - Form 10-Q

Diluted - proforma	\$ 0.21	\$ 0.19	\$ 0.95	\$ 0.79

4. Long-Term Debt

At September 26, 2004, no borrowings were outstanding under the Company's \$100 million revolving credit agreement, and the Company was in compliance with all of its compliance provisions. Interest expense is reported net of interest income, which equated to \$64,000 and \$70,000 for the third quarter of 2004 and 2003, respectively and to \$251,000 and \$257,000 for the first nine months of 2004 and 2003, respectively. Interest capitalized in the third quarter of 2004 and 2003 was \$264,000 and \$238,000, respectively, and was \$1,094,000 and \$741,000, for the first nine months of 2004 and 2003, respectively.

5. Income Taxes

Income tax expense for the third quarter and first nine months of 2004 has been provided for based on an estimated 33.25% effective tax rate expected to be applicable for the full 2004 fiscal year. The effective income tax rate differs from applying the statutory federal income tax rate of 35% to pre-tax earnings primarily due to employee FICA tip tax credits (a reduction in income tax expense) and work opportunity tax credits partially offset by state income taxes.

6. Earnings Per Share

Basic earnings per common share equals net earnings divided by the weighted average number of common shares outstanding and does not include the dilutive effect of stock options or restricted stock. Diluted earnings per common share equals net earnings divided by the weighted average number of common shares outstanding, after giving effect to dilutive stock options and restricted stock. A reconciliation between basic and diluted weighted average shares outstanding and the related earnings per share calculation is presented below (in thousands, except per share amounts):

Diluted earnings per common share	\$ 0.24	\$ 0.22	\$ 1.03	\$ 0.87

7. Comprehensive Income

For the quarter and nine months ended September 26, 2004, there was no difference between the Company's net earnings and comprehensive income.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Results of Operations

Revenues

The Company currently derives all of its revenues from restaurant sales and franchise revenues. Total revenues increased 17.0% and 20.2% for the quarter and nine months ended September 26, 2004, respectively, as compared to the same periods of the prior fiscal year.

Same store sales comparisons for each of the Company's restaurant concepts for the quarter ended September 26, 2004, consist of sales at restaurants opened prior to December 30, 2002.

LongHorn Steakhouse:

Sales in the LongHorn Steakhouse restaurants for the quarter and nine months ended September 26, 2004 increased 16.1% and 19.8%, respectively, as compared to the same periods of the prior year. The increase reflects (i) a 12.6% and 12.4% increase in restaurant operating weeks in the quarter and nine months ended September 26, 2004, respectively, as compared to the same periods of the prior fiscal year, resulting from an increase in the restaurant base from 183 LongHorn Steakhouse restaurants at the end of the third quarter of 2003 to 206 at the end of the third quarter of 2004 and (ii) an increase in average weekly sales. Average weekly sales for all LongHorn Steakhouse restaurants in the third quarter of 2004 were \$52,498, a 3.1% increase over the comparable period in 2003. Same store sales for the comparable LongHorn Steakhouse restaurants increased 3.0% in the third quarter of 2004 as compared to the same period in 2003, due to an increase in average check partially offset by a decrease in customer counts.

Edgar Filing: RARE HOSPITALITY INTERNATIONAL INC - Form 10-Q

The Capital Grille:

Sales in The Capital Grille restaurants for the quarter and nine months ended September 26, 2004, increased 27.6% and 27.0%, respectively, as compared to the same periods of the prior fiscal year. The increase reflects (i) a 15.4% and 13.9% increase in restaurant operating weeks for the quarter and nine months ended September 26, 2004, as compared to the same periods of the prior fiscal year, resulting from an increase in the restaurant base from 16 The Capital Grille restaurants at the end of the third quarter 2003 to 19 restaurants at the end of the third quarter of 2004 and (ii) an increase in average weekly sales. Average weekly sales for all The Capital Grille restaurants in the third quarter of 2004 were \$125,449, a 10.6% increase from the comparable period in 2003. Same store sales for the comparable The Capital Grille restaurants increased 11.0% in the third quarter of 2004, due to approximately equal increases in customer counts and average check.

Bugaboo Creek:

Sales in the Bugaboo Creek Steak House restaurants increased for the quarter and nine months ended September 26, 2004, by 12.3% and 16.3%, respectively, as compared to the same periods of the prior fiscal year. The increase reflects (i) an 11.9% and 14.9% increase in restaurant weeks in the quarter and nine months ended September 26, 2004, respectively, as compared to the same periods of the prior fiscal year, resulting from an increase in the restaurant base from 24 Bugaboo Creek Steak House restaurants at the end of the third quarter of 2003 to 26 restaurants at the end of the third quarter of 2004 and (ii) an increase in average weekly sales. Average weekly sales for all Bugaboo Creek Steak House restaurants in the third quarter of 2004 were \$69,471, a 0.3% increase from the comparable period for 2003. Same store sales for the comparable Bugaboo Creek Steak House restaurants in the third quarter of 2004 increased 2.3% as compared to the same period in 2003, due to an increase in average check partially offset by a decrease in customer counts.

Franchise Revenue:

Franchise revenues increased to \$94,000 for the third quarter of 2004, from \$91,000 for the same period in 2003 due to sales increases at the three franchised LongHorn Steakhouse restaurants in Puerto Rico.

Costs and Expenses

Cost of restaurant sales as a percentage of restaurant sales increased to 37.1% for the third quarter of 2004, from 36.3% for the third quarter of 2003, and increased to 36.7% for the first nine months of 2004 as compared to 36.0% during the same period of 2003. This increase resulted primarily from higher contract pricing on commodities in 2004, particularly pricing with respect to beef contracts, and was partially offset by a 2% - 3% increase in menu prices. The Company is currently under fixed price contracts with respect to its anticipated beef needs and these contracts are in effect for the remainder of 2004. The Company expects its cost of restaurant sales as a percentage of restaurant sales in the fourth quarter of 2004 to be higher than the comparable quarter of 2003 by 90 to 100 basis points. Many of the food products, other than protein products, purchased by the Company are affected by commodity pricing and are, therefore, subject to price volatility caused by weather, production problems, delivery difficulties and other factors, which are outside the control of the Company.

Restaurant operating expense as a percentage of restaurant sales decreased to 45.3% for the third quarter of 2004 from 45.5% for the third quarter of 2003 and decreased to 43.7% for the first nine months of 2004, as compared to 44.1% for the same period of 2003. These decreases in restaurant operating expenses as a percentage of restaurant sales for the 2004 periods as compared to the prior year are primarily due to the favorable leveraging effect on labor, utilities and other fixed and semi-fixed expenses of increases in average weekly sales.

Restaurant depreciation as a percentage of restaurant sales remained flat at 4.0% for the third quarter of 2004 and 2003 and decreased slightly for the first nine months of 2004, as compared to the same periods of the prior fiscal year due to the favorable leveraging effect of higher average weekly sales.

Pre-opening expense for the third quarter of 2004 was approximately \$2.1 million, an increase of approximately \$0.6 million from the same period of the prior year. Pre-opening expense for the first nine months of 2004 was \$5.3 million as compared to \$4.2 million during the same period of the prior year. The increase in pre-opening expense for the first nine months of 2004, as compared to the same period of the prior year, was primarily due to increased expenditures in the first quarter of 2004, resulting from a greater number of planned new restaurant openings in 2004, as compared to 2003.

Edgar Filing: RARE HOSPITALITY INTERNATIONAL INC - Form 10-Q

General and administrative expenses, as a percentage of total revenues, decreased to 5.7% for the third quarter of 2004 from 6.1% for the same period in 2003, and decreased to 5.8% for the first nine months of 2004 from 6.0% for the same period of 2003. These decreases were principally due to greater leverage of fixed and semi-fixed general and administrative expenses resulting from higher average weekly sales volumes.

As a result of the relationships between revenues and expenses discussed above, the Company's operating income increased to \$13.2 million for the third quarter of 2004 and increased to \$55.8 million for the first nine months of 2004 as compared to \$11.9 million and \$45.9 million, respectively, for the same periods of the prior year.

Interest expense, net increased to \$459,000 in the third quarter of 2004, and \$782,000 for the first nine months of 2004, from \$283,000 and \$742,000 during the same periods of the prior year, due to the interest expense associated with new capital lease obligations partially offset by an increase in the level of capitalized interest associated with the Company's new restaurant construction program. The Company had no amounts outstanding under the revolving credit facility during 2004 or 2003.

Minority interest expense decreased to \$37,000 for the third quarter and \$238,000 for the first nine months of 2004, from \$54,000 and \$254,000 for the same periods of the prior year, which reflects the joint venture partner's share of the decreased profitability of the Company's three joint venture restaurants located in Florida. This decrease in profitability was primarily due to the impact of the hurricanes during the third quarter of 2004.

Income tax expense for the third quarter and first nine months of 2004 was 33.25% of earnings before income taxes, which reflects the effective tax rate expected to be applicable for the full 2004 fiscal year. These rates in 2004 compared to a rate of 32.5% for the third quarter and first nine months of 2003, which reflected the effective income tax rate for the full 2003 fiscal year. The Company's effective income tax rate differs from applying the statutory federal income tax rate of 35% to pre-tax income, primarily due to employee FICA tip tax credits and work opportunity tax credits partially offset by state income taxes. The American Jobs Creation Act of 2004 was signed into law on October 22, 2004. No significant changes to the Company's deferred tax asset and liability account balances or effective tax rate are anticipated as a result of this Act.

Net earnings increased to \$8.5 million for the third quarter of 2004 from net earnings of \$7.8 million for the third quarter of 2003 and increased to \$36.6 million for the nine months ended September 26, 2004 from \$30.3 million for the nine months ended September 28, 2003, reflecting the net effect of the items discussed above.

Liquidity and Capital Resources:

The Company requires capital primarily for the development of new restaurants, selected acquisitions and the remodeling of existing restaurants. During the first nine months of 2004 the Company's principal sources of working capital were cash provided by operating activities (\$48.6 million) and proceeds from the exercise of employee stock options (\$5.6 million). For the first nine months of 2004, the principal uses of working capital were capital expenditures (\$68.0 million) for new and improved facilities and the purchase of common stock for treasury (\$8.2 million). As of September 26, 2004, the Company had no borrowings outstanding under its \$100 million revolving credit facility.

The Company intends to open 24 Company-owned LongHorn Steakhouse restaurants, three Bugaboo Creek Steak House restaurants and three The Capital Grille restaurants in fiscal year 2004. The Company estimates that its capital expenditures for fiscal year 2004 will be approximately \$85-\$88 million. During the first nine months of 2004, the Company opened 20 LongHorn Steakhouse restaurants, two The Capital Grille restaurants and one Bugaboo Creek Steak House restaurant. Management believes that available cash, cash provided by operations, and available borrowings under the Company's \$100 million revolving credit facility will provide sufficient funds to finance the Company's expansion plans through the year 2006.

Since substantially all sales in the Company's restaurants are for cash, and accounts payable are generally due in seven to 30 days, the Company operates with little or negative working capital.

Forward-Looking Statements

Statements contained in this report concerning liquidity and capital resources and future operating results contain certain forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. These statements include statements regarding the intent, belief or current expectations of the Company and members of its management team, as well as assumptions on which such statements are based. All forward-looking statements in this Form 10-Q are based upon information available to the Company on the date of this report. Forward-looking statements involve a number of risks and uncertainties, and in addition to the factors discussed elsewhere in this Form 10-Q, other factors that could cause actual results, performance or developments to differ materially from those expressed or implied by those forward-looking statements include the following: failure of facts to conform to necessary management estimates and assumptions regarding financial and operating matters; the Company's ability to identify and secure suitable locations for new restaurants on acceptable terms, open the anticipated number of new restaurants on time and within budget, achieve anticipated rates of same store sales, hire and train additional restaurant personnel and integrate new restaurants into its operations; the continued implementation of the Company's business discipline over a large restaurant base; unexpected increases in cost of sales or employee, pre-opening or other expenses; the economic conditions in the new markets into which the Company expands and possible uncertainties in the customer base in these areas; fluctuations in quarterly operating results; seasonality; unusual weather patterns or events; changes in customer dining patterns; the impact of any negative publicity or public attitudes related to the consumption of beef; unforeseen increases in commodity pricing; disruption of established sources of product supply or distribution; competitive pressures from other national and regional restaurant chains; legislation affecting the restaurant industry; business conditions, such as inflation or a recession, or other negative effect on dining patterns, or some other negative effect on the economy, in general, including (without limitation) war, insurrection and/or terrorist attacks on United States soil; growth in the restaurant industry and the general economy; changes in monetary and fiscal policies, laws and regulations; and the risks identified from time to time in the Company's SEC reports, including the Company's Annual Report on Form 10-K for 2003, registration statements and public announcements. The Company undertakes no obligation to update or revise forward-looking statements to reflect changed assumptions, the occurrence of unanticipated events or changes to future operating results over time.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

Interest Rate Risk

The Company may be exposed to market risk from changes in interest rates on debt.

As of September 26, 2004, the Company had no borrowings outstanding under its \$100 million revolving credit facility. Amounts outstanding under such credit facility bear interest at LIBOR plus a margin of 1.25% to 2.0% (depending on the Company's leverage ratio), or the administrative agent's prime rate of interest plus a margin of 0% to 0.75% (depending on the Company's leverage ratio) at the Company's option. Accordingly, the Company may be exposed to the impact of interest rate fluctuations. To achieve the Company's objective of managing its exposure to interest rate changes, the Company may from time to time use interest rate swaps.

Cash Equivalents and Investment Portfolio

The Company invests portions of its excess cash, if any, in highly liquid investments. At September 26, 2004, the Company had \$5.6 million invested in high-grade overnight repurchase agreement cash equivalents, and \$24.6 million in short-term investments in the form of Federal, state and municipal bonds. As of September 26, 2004, the Company has classified all short-term investments as trading securities. The market risk on such investments is minimal due to their short-term nature.

Item 4. Controls and Procedures

In accordance with the Securities Exchange Act Rules 13a-15 and 15d-15, the Company's management, under the supervision of the Chief Executive Officer and Chief Financial Officer, conducted an evaluation of the effectiveness of the design and operation of the Company's disclosure controls and procedures as of the end of the period covered by this report. Based on that evaluation, the Company's Chief Executive Officer and Chief Financial Officer concluded that the design and operation of the Company's disclosure controls and procedures were effective. There have been no significant changes in internal controls over financial reporting or in other factors that could significantly affect internal controls over financial reporting subsequent to the date of such evaluation.
