**NOTICE OF THE 2006 ANNUAL MEETING OF SHAREHOLDERS
To Be Held May 8, 2006**

TO THE SHAREHOLDERS OF TARGETED GENETICS CORPORATION:

We will hold the 2006 annual meeting of shareholders of Targeted Genetics Corporation on Monday, May 8, 2006, at 9:00 a.m. local time, at the Washington Athletic Club, 1325 Sixth Avenue, Seattle, Washington, for the following purposes, as more fully described in the proxy statement accompanying this notice:

to elect three Class 3 directors and one Class 2 director to the Board of Directors;

to approve an amendment and restatement of our Amended and Restated Articles of Incorporation, to (i) effect a stock combination (reverse stock split) of the Common Stock in a ratio of either one-for-five, one-for-seven, or one-for-ten, as may be determined by the Board of Directors, (ii) establish, depending on the ratio of the reverse stock split, the authorized shares of Common Stock at 36,000,000, 25,714,286, or 18,000,000 shares, respectively, and the authorized shares of our Preferred Stock to 1,200,000, 857,143, or 600,000 shares, respectively (of which 360,000, 257,143, or 180,000 shares, respectively, shall be designated Series A Participating Cumulative Preferred Stock), after giving effect to the reverse stock split and (iii) make other ministerial changes, and to authorize the Board of Directors, if determined appropriate by the Board of Directors at any time before the 2007 annual meeting of shareholders, to file such an amendment and restatement of our Amended and Restated Articles of Incorporation reflecting the ratio it has selected;

to ratify the appointment of Ernst & Young LLP as our independent registered public accounting firm for the fiscal year ending December 31, 2006; and

to transact such other business as may properly come before the annual meeting or any adjournments or postponements of the annual meeting.

At the annual meeting, we will also report on our 2005 business results and other matters of interest to our shareholders.

The Board of Directors has fixed the close of business on March 7, 2006 as the record date for the annual meeting. Only holders of record of our Common Stock on the record date are entitled to notice of and to vote at the annual meeting and any adjournments or postponements of the annual meeting.

The three Class 3 directors and the one Class 2 director who receive the greatest number of affirmative votes cast by holders of common stock present, whether in person or by proxy, and entitled to vote at the annual meeting will be elected to the Board of Directors. The affirmative vote of the holders of shares representing a majority of our outstanding Common Stock is required to approve the amendment and restatement the Amended and Restated Articles of Incorporation. The affirmative vote of the holders of shares representing a majority of the votes cast at the annual meeting, in person or by proxy, is required to ratify the appointment of our independent registered public accounting firm.

No fractional shares would be issued upon the effectiveness of a reverse stock split. Instead, holders of our Common Stock that would otherwise receive a fractional share of Common Stock pursuant to the reverse stock split will receive cash in lieu of the fractional share. Any shareholder who would otherwise have been entitled to receive only a fractional share in a reverse stock split may be entitled to a judicial appraisal of the fair value of his, her or its fractional share under Chapter 23B.13.020 of the Washington Business Corporation Act.

You are cordially invited to attend the annual meeting. To ensure your representation at the annual meeting, however, you should complete, sign, date and return the enclosed proxy card as promptly as possible in the enclosed

You may revoke your proxy at any time before it is voted by signing and returning a proxy for the same shares bearing a later date, by filing a written revocation with the secretary of Targeted Genetics or by attending the annual meeting and voting in person.

The approximate date of mailing this proxy statement and the accompanying proxy card is April , 2006.

By order of the Board of Directors,

Jonathan K. Wright

Secretary

TARGETED GENETICS CORPORATION

PROXY STATEMENT

This proxy statement is being furnished to holders of shares of Common Stock of Targeted Genetics Corporation, a Washington corporation, in connection with the solicitation of proxies by our Board of Directors for use at our 2006 annual meeting of shareholders and at any adjournments or postponements of the annual meeting. We will hold the annual meeting on Monday, May 8, 2006, at the Washington Athletic Club, 1325 Sixth Avenue, Seattle, Washington, at 9:00 a.m. local time. The approximate date of mailing of this proxy statement and the accompanying proxy card is April 10, 2006.

What is the purpose of the meeting?

At the annual meeting, holders of record of our Common Stock, as of the close of business on March 7, 2006 will consider and vote on:

the election of (i) three Class 3 directors to the Board of Directors, to hold office until the third annual meeting of shareholders following their election or until his or her successor is elected and qualified and (ii) the election of one Class 2 director, to hold office until the second annual meeting of shareholders following his election or until his successor is elected and qualified;

the approval of an amendment and restatement of our Amended and Restated Articles of Incorporation, to (i) effect a stock combination (reverse stock split) of the Common Stock in a ratio of either one-for-five, one-for-seven, or one-for-ten, as may be determined by the Board of Directors, (ii) establish, depending on the ratio of the reverse stock split, the authorized shares of Common Stock at 36,000,000, 25,714,286, or 18,000,000 shares, respectively, and the authorized shares of our Preferred Stock to 1,200,000, 857,143, or 600,000 shares, respectively (of which 360,000, 257,143, or 180,000 shares, respectively, shall be designated Series A Participating Cumulative Preferred Stock), after giving effect to the reverse stock split and (iii) make other ministerial changes, and to authorize the Board of Directors, if determined appropriate by the Board of Directors at any time before the 2007 annual meeting of shareholders, to file such an amendment and restatement of our Amended and Restated Articles of Incorporation reflecting the ratio it has selected;

the ratification of the appointment of Ernst & Young LLP as our independent registered public accounting firm for the fiscal year ending December 31, 2006; and

such other business as may properly come before the annual meeting or any adjournments or postponements of the annual meeting.

May I vote at the annual meeting?

We have one class of voting securities outstanding, which is designated as Common Stock, and each share of Common Stock is entitled to one vote. Only shareholders of record at the close of business on the record date, March 7, 2006, are entitled to notice of and to vote at the annual meeting. As of the record date, 85,707,244 shares of our Common Stock were issued and outstanding.

How many votes must be present to hold the annual meeting, i.e. a quorum?

The presence, in person or by proxy, of the holders of a majority of the shares of Common Stock entitled to vote at the annual meeting constitutes a quorum for the transaction of business.

How are directors elected?

The three Class 3 directors and the one Class 2 director who receive the greatest number of affirmative votes cast by holders of common stock present, whether in person or by proxy, and entitled to vote at the annual meeting will be elected to the Board of Directors. You are not entitled to cumulate votes in electing directors.

What is required to approve the amendment and restatement the Restated Articles?

The affirmative vote of the holders of shares representing a majority of our outstanding Common Stock is required to approve three different alternative amendments and restatements of the Restated Articles, in a ratio of either one-for-five, one-for-seven, or one-for-ten, if and at such specific ratio as determined by the Board of Directors at any time before the 2007 annual meeting of shareholders. Approval of this proposal shall constitute approval of each of the three alternative amendments and restatements of the Restated Articles, and shall authorize the Board of Directors to file an amendment and restatement with the Washington Secretary of State with respect to the specific ratio that the Board of Directors may determine appropriate. The Board of Directors will choose only one ratio and only one amendment and restatement will be made. Because the submission of the amendment and restatement of the Restated Articles is contingent upon the Board of Directors' selection of the appropriate ratio and the determination that the filing of an amendment and restatement of the Restated Articles is appropriate, no further action will be required if the Board of Directors determines not to effectuate the reverse stock split.

What is required to ratify the appointment of the independent registered public accounting firm?

The affirmative vote of the holders of shares representing a majority of the votes cast at the annual meeting, in person or by proxy, is required to ratify the appointment of the independent registered public accounting firm.

Who has the power to vote?

Any broker, bank, nominee, fiduciary or other custodian who holds shares of our Common Stock for the account of a customer who is the beneficial owner of those shares, and who does not receive specific instructions from the customer on how to vote, has the power to vote those shares at its discretion in the election of directors and for other routine matters, including the ratification of the independent registered public accounting firm for which it has not received voting instructions.

What is a broker non-vote ?

A broker non-vote occurs when the custodian may not vote, or give a proxy to vote, a customer's shares because the customer did not provide voting instructions with respect to a non-routine matter on which the custodian does not have discretionary authority to vote. Because custodians will have discretionary voting authority with respect to the election of directors and the ratification of the appointment of the independent registered public accounting firm, there will be no broker non-votes with respect to these proposals. With respect to the proposal to approve the amendment and restatement our Restated Articles, broker non-votes will have the same effect as votes against that proposal because approval of that proposal requires the affirmative vote of holders of shares representing a majority of our outstanding Common Stock.

When does an abstention occur?

An abstention occurs when a shareholder affirmatively instructs the vote to be withheld (by checking the withhold authority to vote box on the proxy card) or when a shareholder who has not given a proxy is present at the meeting but does not cast a ballot. Shares of our Common Stock subject to abstentions are treated as present at the annual meeting and will therefore be counted toward establishing the presence of a quorum. Abstentions are not treated as votes cast, however, so

abstentions will have no effect on the election of directors, which outcome is determined by a plurality of the votes cast, or on the proposal to ratify the appointment of the independent registered public accounting firm, which outcome is determined by a majority of the votes cast. With respect to the proposal to approve the amendment and restatement our Restated Articles, abstentions will have the same effect as votes against that proposal because approval of that proposal requires the affirmative vote of holders of shares representing a majority of our outstanding Common Stock.

How many shares are owned by directors, executive officers, and affiliates?

As of the record date, our directors and executive officers and their affiliates beneficially owned approximately 4.3% of the outstanding shares of our Common Stock, as beneficial ownership is defined under federal securities laws. Each of our directors and executive officers plans to vote or direct the vote of all shares of Common Stock over which he or she has voting control in favor of the election of the nominees for director, in favor of the authorization of our Board of Directors to amend and restate our Restated Articles and in favor of the ratification of the appointment of the independent registered public accounting firm.

Proxies

How are proxies voted?

Shares of Common Stock represented by properly executed proxies that we receive at or before the annual meeting that have not been revoked will be voted at the annual meeting in accordance with the instructions contained on the proxy card. Shares of Common Stock represented by properly executed proxy cards for which no instruction is given will be voted for the election of the nominees for director, for approval of the amendment and restatement our Restated Articles and for ratification of the independent registered public accounting firm.

To ensure that your shares are voted, please complete, sign, date and return promptly the enclosed proxy card in the postage-prepaid envelope we have provided.

How are proxies revoked?

You may revoke a proxy by:

submitting a later-dated proxy for the same shares at any time before the vote;

delivering written notice of revocation to the Secretary of Targeted Genetics at any time before the vote; or

attending the annual meeting and voting in person provided, however, merely attending the annual meeting will not in and of itself revoke a proxy.

If the annual meeting is postponed or adjourned for any reason, at any subsequent reconvening of the annual meeting all proxies will be voted in the same manner as the proxies would have been voted at the original convening of the annual meeting (except for any proxies that have at that time effectively been revoked or withdrawn), even if the proxies had been effectively voted on the same or any other matter at a previous meeting.

Who is soliciting this proxy?

The enclosed proxy is solicited on behalf of our Board of Directors. We will bear the cost of soliciting proxies from our shareholders. In addition to solicitation by mail, our directors, officers and employees may solicit proxies by telephone, facsimile, e-mail, in person or otherwise. We will not additionally compensate our directors, officers and employees for this solicitation but will reimburse them for the out-of-pocket expenses that they incur. We will reimburse persons who hold our Common Stock of record but not beneficially, such as brokerage firms, nominees, fiduciaries and other

custodians, for the reasonable expenses they incur in forwarding solicitation materials to, and requesting authority for the exercise of proxies from, the persons for whom they hold the shares.

What is the recommendation of the Board of Directors?

The Board of Directors recommends that our shareholders vote FOR election of the nominees for director, FOR the approval of the amendment and restatement the Restated Articles, and FOR ratification of the appointment of the independent registered public accounting firm.

**PROPOSAL ONE
ELECTION OF DIRECTORS**

**The Board of Directors recommends that you vote ☐ FOR election
of the nominees for director.**

How is the Board of Directors elected?

Every director subsequently elected to the Board of Directors generally holds office for a three-year term and until his or her successor is elected and qualified. However, if a director resigns from the Board of Directors before his or her term expires, the director elected or appointed to fill the resulting vacancy may be designated to a class such that he or she initially must be elected to a shorter term. Our bylaws provide that the Board of Directors shall be composed of not less than one nor more than nine directors. We have eight directors currently, each of whom is placed into one of three classes such that, to the extent possible, there is an equal number of directors in each class.

Who is up for election at the upcoming meeting?

At the annual meeting, three Class 3 directors are to be elected, each to hold office for a three-year term or until his or her successor is elected and qualified. H. Stewart Parker, Nelson L. Levy, and Michael S. Perry have been nominated for election to the Board of Directors as Class 3 directors. In addition, one Class 2 director is to be elected, to hold office until the second annual meeting of shareholders following his election or until his successor is elected and qualified. Roger L. Hawley has been nominated for election to the Board of Directors as a Class 2 director. Information is provided below with respect to these nominees and our continuing directors.

Unless they receive contrary instructions, the persons named as proxies on the enclosed proxy card intend to cast votes represented by properly executed proxy cards for the election of these nominees. If a nominee should become unavailable for any reason, the persons named as proxies intend to cast votes for election of a substitute nominee designated by the Board of Directors. The Board of Directors has no reason to believe that any of the nominees named will be unable to serve if elected.

If a quorum is present, the three nominees receiving the highest number of votes will be elected to serve as Class 3 directors and the one nominee receiving the highest number of votes will be elected to serve as a Class 2 director.

When do the terms of the Class 3 directors and the Class 2 director nominated for election expire?

The term of each Class 3 director will expire at the 2009 annual meeting of shareholders or when his or her successor is duly elected and qualified and term of the Class 2 director will expire at the 2008 annual meeting of shareholders or when his successor is duly elected and qualified.

We pay directors who are not employees of Targeted Genetics and members of the committees of the Board of Directors the following annual retainers:

We also reimburse our directors for travel expenses that they incur in attending meetings.

Initial NSOs granted to non-employee directors vest over a three-year period and the annual NSOs granted to non-employee directors vested over a one-year period.

How are the directors nominated?

Our Board of Directors has adopted a charter of the Nominating and Corporate Governance Committee, or Nominating Committee, that describes the process by which candidates for possible inclusion in our recommended slate of director nominees are selected. The Board of Directors may amend this charter at any time, in which case the most current version will be available on our web site at <http://www.targetedgenetics.com>. Under its charter, the Nominating Committee is responsible for developing criteria for identifying and evaluating nominees for the Board of Directors.

How are candidates identified?

Our Nominating Committee has two primary methods for identifying candidates beyond those proposed by our shareholders. On a periodic basis, the Nominating Committee may solicit ideas for possible candidates from a number of sources, including members of the Board of Directors, senior-level management, individuals personally known to the members of the Board of Directors and research, including publications, databases and internet searches. In addition, the Nominating Committee may from time to time use its authority under its charter to retain a search firm to identify candidates.

Can shareholders nominate directors?

In accordance with our bylaws and applicable law, recommendations for nominations for the election of directors for consideration by the Nominating Committee may be made by any shareholder of record entitled to vote for the election of directors at shareholder meetings held for such purpose. The requirements a shareholder must follow for recommending persons for consideration by the Nominating Committee for election as directors are set forth in our bylaws and the section of this proxy statement entitled Shareholders Proposals for the 2007 Annual Meeting.

Subject to the superior rights, if any, of the holders of any class or series of stock having a preference over our Common Stock that we may issue in the future, if a shareholder complies with the procedures for recommending persons for consideration by the Nominating Committee for election as directors, the Nominating Committee will conduct the appropriate and necessary inquiries into the backgrounds, qualifications and skills of the shareholder-recommended candidates and, in the exercise of the Nominating Committee's independent judgment in accordance with the policies and procedures adopted in the Nominating Committee charter, will determine whether to recommend the shareholder-recommended candidates to the Board of Directors for inclusion in the list of candidates for election as director at the next shareholder meeting at which directors will be elected.

How are any other candidates evaluated?

The Nominating Committee will consider all candidates identified through the processes described above, and will evaluate each of them, including incumbents, based on the same criteria. If, based on the Nominating Committee's initial evaluation, a candidate continues to be of interest, the Nominating Committee will generally conduct interviews and arrange for appropriate background and reference checks.

Are the directors independent?

Change in Control Arrangements

Senior Management Employment Agreements. In October 1996, we entered into Senior Management Employment Agreements with both H. Stewart Parker and Barrie J. Carter. We entered into a substantially similar agreement with David J. Poston in August 1999. These agreements provide that, following a change in control (as that term is defined in the agreements), each executive who continues to be employed by the surviving company will be entitled to receive an annual base salary that is not less than his or her salary in effect before the change in control and an annual bonus at least equal to the average of his or her annual bonuses for the three prior years. In addition, each of these executives will be entitled to insurance coverage and other employee benefits no less favorable than their benefits in effect before the change in control. If during the two-year period after a change in control the employment of any of these executives is terminated for any reason other than death, disability or cause or the executive terminates his or her employment for good reason (as these terms are defined in the agreements), the terminated executive will be entitled to specified additional benefits, including a lump-sum payment equal to one and one-half times (or, in the case of Ms. Parker, two times) the sum of (a) that executive's annual salary before the change in control (or on the date of termination, if the executive's salary is higher on that date) and (b) a percentage of that salary equal to the executive's percentage bonus for the year before the change in control. If no such bonus was paid or if the bonus cannot be determined, the applicable percentage will be 10%. In addition, the terminated executive will be entitled to be paid an amount sufficient to compensate the executive for any excise tax, including interest and penalties, imposed under Section 4999 of the Internal Revenue Code of 1986, as amended, and will be entitled to continuation of life insurance, disability, health, dental and other similar employee benefits for one year after termination. The Senior Management Employment Agreements generally may be terminated with 30 days' prior written notice, but we will remain liable for any obligations arising before the termination.

Option Plans. Our Restated 1992 Stock Option Plan and our 1999 Stock Option Plan each contain provisions that could result in the accelerated vesting of options granted under those plans in the event of a change in control, as that term is defined in each of the plans. The vesting of options granted to our executive officers under these plans may accelerate in the event of a change in control.

COMPENSATION COMMITTEE REPORT ON EXECUTIVE COMPENSATION

The Compensation Committee of our Board of Directors currently consists of Jack L. Bowman, Joseph M. Davie and Michael S. Perry, all of whom are independent directors as defined under Nasdaq rules. The Compensation Committee is responsible for our executive compensation program and for administering our incentive compensation and benefit plans. On an annual basis, the Compensation Committee evaluates the performance and compensation of our executive officers.

Our executive compensation philosophy is to pay competitively to:

attract qualified executive personnel capable of enabling Targeted Genetics to achieve its business objectives;

retain and motivate these executives to achieve superior performance;

link individual compensation to individual and company performance; and

align executives' financial interest with those of our shareholders.

Our executive compensation program includes the following components:

base salaries comparable to those paid by other biotechnology companies of comparable size and mission, taking into account the qualifications and performance of our executive officers;

annual bonuses that are structured to encourage executives to focus on achieving important short-term corporate and individual objectives; and

long-term incentives in the form of stock option grants, which provide financial rewards on the same basis as those realized by our shareholders.

Base Salaries. On January 13, 2006, the Compensation Committee met to consider the compensation levels of our chief executive officer and our other executive officers for 2006. In addition, the Compensation Committee discussed the performance of our executive officers with respect to our corporate objectives that were set in early 2005. The primary objectives consisted of making substantial progress in our clinical programs; successfully strengthening our financial assets; and further developing our manufacturing capabilities and processes. The Compensation Committee concluded that the executive officers had achieved substantially all of the 2005 corporate goals. While the compensation committee concluded that the executive officers had substantially achieved several, but not all, of the corporate objectives identified for 2005, in light of Targeted Genetics' financial position and generally poor market and economic conditions affecting the gene therapy product development, we chose not increase the 2006 base salaries for Ms. Parker and Dr. Carter. We recommended that Ms. Parker's base salary for 2006 remain at \$418,000 and that Dr. Carter's base salary for 2006 remain at \$278,000. In recognition of Mr. Poston's promotion to Vice President, Finance, Chief Financial Officer and Treasurer, we recommended that Mr. Poston's salary for 2006 increase by 8% to \$200,000. In October, 2005, upon being named interim Chief Financial Officer, Mr. Poston's base salary for 2005 was set at \$185,000.

Short-Term Incentive Bonuses. On January 13, 2006, the Compensation Committee met to discuss the performance of our executive officers with respect to our corporate objectives that were set in early 2005. The primary objectives consisted of advancing our clinical development programs; and strengthening our financial position. The Compensation Committee concluded that the executive officers had achieved many of the 2005 corporate goals. However, in light of Targeted Genetics' financial position and generally poor market and economic conditions affecting the gene therapy product development, we chose not to recommend a bonus for any Named Executive officer in for 2005 performance.

Stock Option Grants. We grant stock options to provide a long-term incentive opportunity that is directly linked to an increase in shareholder value. We generally grant options with an exercise price equal to the market value of our Common Stock on the date of the grant and a term of ten years, and

the options become exercisable over a four-year period in sixteen equal installments beginning three months after the date of grant. To encourage employee retention, we grant all options as incentive stock options to the maximum extent possible under the Internal Revenue Code.

When determining the size of potential option grants to our executive officers, the Compensation Committee uses a range of shares approach, referencing competitive grant guidelines prepared by a human resource and benefits consulting firm. We plan to annually review and revise these guidelines based on then-current competitive data.

Section 162(m) of the Internal Revenue Code limits the tax deductibility by a corporation of compensation in excess of \$1 million paid to the chief executive officer and any other of its four most highly compensated executive officers. Compensation that qualifies as performance-based is, however, excluded from the \$1 million limit. We do not presently expect total cash compensation payable to any of the Named Executive Officers to exceed the \$1 million limit. It is our policy, however, to have the compensation paid to the Named Executive Officers qualify as performance-based and deductible for federal income tax purposes under Section 162(m) of the Internal Revenue Code unless there is a valid compensation reason that would justify paying non-deductible amounts. We have structured our incentive plans so that bonuses and stock options are fully deductible. Non-deductible compensation for executive officers would typically take the form of signing or guaranteed bonuses agreed to at the time of hire in order to provide the individual with an incentive to join the company.

Compensation of the Chief Executive Officer. We believe that Ms. Parker continues to provide outstanding leadership for Targeted Genetics, advancing Targeted Genetics product candidates through clinical development, and successfully maintaining or expanding our current strategic partnerships and executing new strategic partnerships. The Compensation Committee fixed Ms. Parker's 2005 base salary in a manner consistent with the compensation principles described above and reflecting the performance of Targeted Genetics and Ms. Parker in 2004. The Committee's determination of Ms. Parker's compensation was qualitative in nature and based on a variety of factors, including comparison group compensation data, attainment of various corporate goals, total shareholder return, and other financial and operating performance, individual performance and other factors. All of these factors were considered collectively and no specific mathematical weights were assigned to these factors. Consistent with the foregoing, and in light of economic and poor market conditions affecting gene therapy product development, we determined Ms. Parker's base salary would be \$418,000 and should remain at \$418,000 for 2006 and that no performance bonus be given.

PROPOSAL TWO

APPROVAL OF THE AMENDMENT AND RESTATEMENT THE RESTATED ARTICLES

The Board of Directors recommends that you vote **FOR** the approval of the amendment and restatement of our Restated Articles to (i) effect a stock combination (reverse stock split) of the Common Stock in a ratio of either one-for-five, one-for-seven, or one-for-ten, as may be determined by the Board of Directors, (ii) establish, depending on the ratio of the reverse stock split, the authorized shares of Common Stock at 36,000,000, 25,714,286, or 18,000,000 shares, respectively, and the authorized shares of our Preferred Stock to 1,200,000, 857,143, or 600,000 shares, respectively (of which 360,000, 257,143, or 180,000 shares, respectively, shall be designated Series A Participating Cumulative Preferred Stock), after giving effect to the reverse stock split and (iii) make other ministerial changes, and to authorize the Board of Directors, if determined appropriate by the Board of Directors at any time before the 2007 annual meeting of shareholders, to file such an amendment and restatement of our Amended and Restated Articles of Incorporation reflecting the ratio it has selected.

What am I voting for?

You are voting to approve the amendment and restatement the Restated Articles to (i) effect a reverse stock split of our stock in a ratio of one-for-five, one-for-seven, or one-for-ten, the final ratio to be determined by the Board of Directors, if and at such specific ratio as determined by the Board of Directors at any time before the 2007 annual meeting of shareholders, and (ii) establish, depending on the ratio of the reverse stock split, the authorized shares of Common Stock at 36,000,000, 25,714,286 or 18,000,000 shares, respectively, and the authorized shares of Preferred Stock at 1,200,000, 857,143 or 600,000 shares, respectively, (of which 360,000, 257,143 or 180,000 shares, respectively, shall be designated Series A Participating Cumulative Preferred Stock) after giving effect to the reverse stock split. Approval of this proposal shall constitute approval of each of the three alternative amendments and restatements of the Restated Articles, and shall authorize the board to Board of Directors to file an amendment and restatement with the Washington Secretary of State with respect to the specific ratio that the Board of Directors may determine appropriate. The Board of Directors will choose only one ratio and only one amendment and restatement will be made. Because the submission of the amendment and restatement of the Restated Articles is contingent upon the Board of Directors' selection of the appropriate ratio and the determination that the filing of an amendment and restatement of the Restated Articles is appropriate, no further action will be required if the Board of Directors determines not to effectuate the reverse stock split.

What is the purpose of the granting the Board authority to effect a reverse stock split?

As of March 13, 2006, we had 98,498,855 shares of Common Stock outstanding and the last reported sale price of our Common Stock on the Nasdaq Capital Market was \$0.40, resulting in an aggregate market capitalization of approximately \$39 million. We are seeking to effect a reverse stock split to decrease the number of outstanding shares of Common Stock and to increase the per share market price of our Common Stock.

We also believe that a higher stock price may help generate greater investor interest in our securities and help us attract and retain employees. We believe that some institutional investors and investment funds are reluctant to invest in stocks with lower per share prices. In addition, we considered that our Common Stock may not appeal to brokerage firms that are reluctant to recommend lower-priced securities to their clients. Certain investors may also be dissuaded from purchasing lower-priced stocks because the brokerage commissions, as a percentage of the total transaction, tend to be higher for such stocks. Finally, the analysts at many brokerage firms do not monitor the trading activity or otherwise provide research coverage of lower-priced stocks. Accordingly, we concluded that it may be desirable to reduce the number of outstanding shares of our Common Stock, which might support a higher per share stock price based on our current market capitalization.

Moreover, we believe that a reverse stock split will assist in our efforts to maintain compliance with the continued listing requirements of the Nasdaq Capital Market. The continued listing requirements for the Nasdaq Capital Market require us to maintain a minimum bid price of at least \$1.00 per share. Our Board of Directors believes that maintaining our listing on the Nasdaq Capital Market is in our best interest and the best interest of our shareholders because the Nasdaq Capital Market provides a broader market for trading our Common Stock and increases our ability to use our Common Stock for strategic or financing transactions.

Are any other actions required by the shareholders to amend and restate the Restated Articles?

Our Board of Directors also adopted resolutions recommending approval of the amendment and restatement the Restated Articles, finding it advisable and directing it to be submitted to our shareholders for approval. If our shareholders approve this proposal, no further action by the shareholders will be required for the Board of Directors to either to implement or abandon the reverse stock split. Our Board of Directors may elect by unanimous written consent or at special or regular meeting to select a reverse stock split ratio of one-for-five, one-for-seven or one-for-ten and file with the Washington Secretary of State the an amendment and restatement of the Restated Articles, in the form attached hereto as Annex A, effecting such split ratio at any time before the 2007 annual meeting of shareholders. The Board of Directors will choose only one ratio and only one amendment and restatement will be made. Any such amendment and restatement of the Restated Articles to effect the reverse stock split and reestablish the amount of authorized capital stock would become effective upon filing with the Washington Secretary of State. We would notify our shareholders of the effectiveness of the reverse stock split by issuing a press release. **The Board of Directors reserves the right, even if our shareholders approve this proposal at the annual meeting, to elect not to file an amendment and restatement of the Restated Articles, if the Board of Directors determines in its sole discretion that implementing a reverse stock split is not in our best interests or the best interests of our shareholders. Because the submission of the amendment and restatement of the Restated Articles is contingent upon the Board of Directors selection of the appropriate ratio and the determination that the filing of an amendment and restatement of the Restated Articles is appropriate, no further action will be required if the Board of Directors determines not to effectuate the reverse stock split.**

What will happen if the reverse stock split is approved?

In March 2006, our Board of Directors unanimously adopted resolutions approving the amendment and restatement of the Restated Articles to effect a reverse stock split of our authorized and issued and outstanding capital stock at one of the following ratios: (i) one-for-five, (ii) one-for-seven or (iii) one-for-ten, and recommending the amendment and restatement of the Restated Articles for approval by our shareholders. The reverse stock split may be implemented if and at such specific ratio as determined by the Board of Directors any time before the 2007 annual meeting of shareholders. Pursuant to the reverse stock split, each holder of five shares, seven shares or ten shares, as the case may be, of our Common Stock immediately prior to the effectiveness of the reverse stock split, would become the holder of one share of our Common Stock, and the number of authorized shares of our Common Stock and Preferred Stock would be reduced as well. With the exception of the number of authorized shares and issued and outstanding shares, the rights and preferences of the shares of our Common Stock and Preferred Stock prior and subsequent to a reverse stock split would remain the same.

What are the risks of a reverse stock split?

There can be no assurance that the per share market price of our Common Stock will increase following any reverse stock split. The following table illustrates the effects on the number of shares that would be (i) outstanding, (ii) authorized but reserved for issuance and (iii) authorized but unissued if any of the reverse stock splits are effected and possible market prices of our Common Stock, assuming that the market price will change precisely in accordance with the multiple of the

ratio of the particular amendment to be effected (the table has been prepared based on a market price of \$0.40 per share the closing price on March 13, 2006).

We cannot predict whether any proposed reverse stock split would achieve the desired results. The price per share of our Common Stock is also a function of our financial performance and other factors, some of which may be unrelated to the number of shares outstanding. Accordingly, there can be no assurance that the closing bid price of our Common Stock after any reverse stock split would increase in an amount proportionate to the decrease in the number of issued and outstanding shares, or would increase at all, or that any increase can be sustained for a prolonged period of time. Even if we effect the reverse stock split, the total market capitalization of our Common Stock after any proposed reverse stock split may be lower than the total market capitalization before the proposed reverse stock split and, in the future, the market price of our Common Stock following any reverse stock split may not exceed or remain higher than the market price prior to the proposed reverse stock split. Moreover, even if a reverse stock split has the desired effect with respect to our stock price, there can be no assurance that we would be able to maintain compliance with all of the continued listing requirements of the Nasdaq Capital Market.

In addition, a reverse stock split may have the effect of creating odd lots of stock for some shareholders. Odd lots of our Common Stock may be more difficult to sell and any such sales could require higher than typical brokerage commissions.

What is the over all effect of a reverse stock split on the numbers of shares and price?

The following chart summarizes the effects of the reverse stock split on the number of shares outstanding, the number of shares reserved, the number of shares authorized, and the share price under the different reverse stock split ratios:

Reverse Stock Split Ratio	Shares of Common Stock Outstanding as of March 13, 2006	Approximate Number of Shares of Common Stock Outstanding After Reverse Stock Split	Approximate Number of Shares of Common Stock Reserved for Issuance After Reverse Stock Split	Approximate Number of Shares of Common Stock Authorized but Unreserved and Unissued After Reverse Stock Split	Product of Reverse Stock Split Ratio and Market Price as of March 13, 2006
None	98,498,855	98,498,855	12,034,411	69,466,734	\$ 0.40
One-for-five	98,498,855	19,699,771	2,406,882	13,893,347	\$ 2.00
One-for-seven	98,498,855	14,071,265	1,719,202	9,923,819	\$ 2.80
One-for-ten	98,498,855	9,849,886	1,203,441	6,946,673	\$ 4.00

What are the effects of a reverse stock split on odd-lots of holdings?

A reverse stock split may result in some shareholders owning odd-lots of less than 100 shares of Common Stock. Brokerage commissions and other costs of transactions in odd-lots are generally higher than the costs of transactions in round-lots of even multiples of 100 shares.

Will a reverse stock split change the par value of our Common Stock or the value of outstanding options or other convertible securities?

A reverse stock split would not change the par value per share of our Common Stock, which would remain at \$0.01 per share after giving effect to the reverse stock split. Outstanding options and warrants to purchase Common Stock, and any other convertible security, would be adjusted so that the number of shares of Common Stock issuable upon their exercise or conversion would be divided by five, seven or ten, as the case may be (and corresponding adjustments would be made to the number of shares vested under each outstanding option), and the exercise price of each option and warrant would be multiplied by five, seven or ten, as the case may be.

What happens to fractional shares resulting from a reverse stock split?

No fractional shares would be issued upon the effectiveness of a reverse stock split. Instead of any fractional shares to which a holder of Common Stock would otherwise be entitled as a result of the reverse stock split, we will pay cash equal to the fractional share multiplied by the closing price of our Common Stock on the Nasdaq Capital Market (as adjusted to reflect the reverse stock split), on the trading date that is immediately prior to the date the Amended and Restated Articles of Incorporation are filed with the Washington Secretary of State.

As a result, holders of as many as nine shares of our Common Stock would be eliminated if the outer range of the proposed reverse stock split ratio (i.e., one-for-ten) is adopted. The shareholders who will be eliminated will vary depending on the reverse stock split ratio and if the reverse stock split ratio is set at the upper-end of the range (i.e., one-for-ten), more shareholders will be eliminated than if the reverse stock split ratio is set at the lower end (i.e., one-for-five).

How do I receive a new certificate evidencing ownership?

If the Board of Directors determines to effect the reverse stock split, it would occur without any further action on the part of shareholders once we file an amendment and restatement of the Restated Articles with the Washington Secretary of State, and would not be affected by the timing of the physical surrender of the old stock certificates. After a reverse stock split becomes effective, we would notify holders of our Common Stock and request that holders of certificated shares surrender their stock certificates for new certificates representing the number of whole shares of Common Stock into which their shares have been converted. Until the old certificates are surrendered, each current certificate representing shares of Common Stock would evidence ownership of Common Stock in the appropriately reduced whole number of shares, after taking into account the reverse stock split. Shareholders holding stock certificates should not destroy any stock certificates and should not submit any certificates for exchange until requested to do so.

How would a reverse stock split affect our financial reporting?

The par value per share of our Common Stock would remain the same after giving effect to a reverse stock split. As a result, our stated capital would be reduced and capital in excess of par value (paid-in capital) would be increased accordingly. Shareholders' equity would remain unchanged. Per share net loss would be retroactively restated to reflect the reverse stock split.

What would be the effect on a potential take-over?

Although the increased proportion of unissued authorized shares to issued shares could, under certain circumstances, have an anti-takeover effect (for example, by permitting issuances that would dilute the stock ownership of a person seeking to effect a change in the composition of our Board of Directors or contemplating a tender offer or other transaction to combine us with another company), this proposal is not being proposed in response to any effort to accumulate our Common Stock or obtain control of us, nor is it part of a plan by management to recommend similar amendments to the Board of Directors and shareholders. Other than for this proposal, the Board of Directors does not currently contemplate recommending the adoption of any other amendments to the Restated Articles that could be construed to affect the ability of third parties to take over or change the control of us.

What are the rights of a dissenter to a reverse stock split?

Chapter 23B.13.020 of the Washington Business Corporation Act provides for dissenters' rights for any amendment to the articles of incorporation that results in redemption or cancellation of all of a shareholder's shares in exchange for cash. Any shareholder who would otherwise have been entitled to receive only a fractional share in a reverse stock split may be entitled to a judicial appraisal of the fair value of his or her fractional share. The reverse stock split, if consummated, may result in the reduction of the number of shares owned by a shareholder to a fraction of a share. In order to be

entitled to dissenters' rights under Chapter 23B.13.020 in connection with the reverse stock split, a shareholder must:

be within the class of shareholders who may be entitled to dissenters' rights (i.e., those shareholders who would have been entitled to receive only a fractional share);

deliver to us, before the vote to authorize the reverse stock split is taken, notice of the shareholder's intention to demand payment of his, her or its fractional share if the reverse stock split is effected; and

not vote in favor of the authorization to effect the reverse stock split.

A shareholder's failure to vote in favor of the proposed authorization to effect the reverse stock split will not be sufficient to satisfy the notice requirements of the statute; the shareholder must also deliver the required notice before the vote occurs. The foregoing summary of Chapter 23B.13 of the Washington Business Corporation Act does not purport to be complete and is qualified in its entirety by reference to the full text of Chapter 23B.13, which is set forth as Annex B attached to this proxy statement. Shareholders who wish to exercise their statutory dissenters' rights are urged to consult legal counsel for assistance in exercising their rights. Any shareholder entitled to dissenters' rights who fails to comply completely and on a timely basis with all requirements of Chapter 23B.13 for perfecting dissenters' rights will lose those rights.

What are the United States federal income tax consequences of the reverse stock split?

The following summarizes the material United States federal income tax consequences of a reverse stock split to holders whose pre-split shares of our Common Stock are exchanged for post-split shares pursuant to a reverse stock split. The summary is based on the Internal Revenue Code, applicable current and proposed United States Treasury Regulations issued thereunder, judicial authority and administrative rulings and pronouncements, all of which are subject to change, possibly with retroactive effect. The discussion applies only to holders who hold the pre-split shares and the post-split shares as capital assets (generally, property held for investment), and does not address the tax consequences that may be relevant to holders that are subject to special tax rules, such as insurance companies, tax-exempt organizations, broker-dealers, financial institutions, traders in securities that elect to mark to market, or holders who are not United States persons or who hold the pre-split shares as part of a hedge, straddle, constructive sale or conversion transaction, or who acquired the pre-split shares pursuant to the exercise of warrants, employee stock options or otherwise as compensation.

In general, for United States federal income tax purposes, (i) no gain or loss should be recognized by a holder on the exchange of the pre-split shares for the post-split shares pursuant to the reverse stock split, except that any gain realized by a holder on the exchange will be recognized to the extent that cash payments are received by the holder for fractional shares; (ii) the aggregate tax basis in the post-split shares received by a holder in the reverse stock split should be the same as the aggregate tax basis in the pre-split shares exchanged therefor, increased by any gain recognized by the holder on the exchange and decreased by the amount the cash payments received by the holder for fractional shares; and (iii) the tax holding period for the post-split shares received by a holder in the reverse stock split should include the period during which the holder held the pre-split shares exchanged therefor.

The United States federal income tax consequences set forth above are included for general informational purposes only and are based upon current law. Because individual circumstances may differ, each holder of pre-split shares of our Common Stock is urged to consult with its own tax advisor to determine the applicability of the rules discussed above to such holder and the particular tax effects of the reverse stock split, including the application and effect of state, local, foreign and other tax laws.

What is the recommendation of the Board of Directors?

The Board of Directors recommends that you vote **FOR** the approval of the amendment and restatement of the Restated Articles. The affirmative vote of the holders of a majority of the outstanding shares of Common Stock is required to approve this proposal. Abstentions and broker non-votes will have the same effect as votes against this proposal.

PROPOSAL THREE**RATIFICATION OF THE INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM****What am I voting for?**

You are voting to ratify the appointment of Ernst & Young LLP as our independent registered public accounting firm to audit and report on our consolidated financial statements for the year ending December 31, 2006.

The decision to submit the appointment of Ernst & Young to our shareholders for ratification was recommended and approved by our Audit Committee. The affirmative vote of the holders of shares representing a majority of the votes cast at the annual meeting, in person or by proxy, is required to ratify the appointment of the independent registered public accounting firm. Ernst & Young also served as our independent registered public accounting firm for each of the years ended December 31, 2004 and December 31, 2005. Representatives of Ernst & Young are expected to attend the annual meeting, be available to respond to appropriate questions from shareholders and have the opportunity to make a statement if they desire to do so. If our shareholders fail to ratify the selection of Ernst & Young, the Audit Committee and the Board of Directors will consider whether to retain Ernst & Young, and may retain that firm or another firm without resubmitting the matter to our shareholders.

Who is responsible for the financial reports?

Our management is responsible for our internal controls and the financial reporting process. Our independent registered public accounting firm, Ernst & Young LLP, is responsible for performing an independent audit of our consolidated financial statements in accordance with auditing standards generally accepted in the United States and issuing a report on its audit.

What is the cost associated with Ernst & Young LLP's services?

The fees billed by Ernst & Young LLP for the indicated services performed during the fiscal years ended December 31, 2005 and December 31, 2004 were as follows:

	Fiscal 2005	Fiscal 2004
Audit fees	\$ 420,000	\$ 307,000
Audit-related fees		74,000
Tax fees	21,000	18,000
Total fees	\$ 441,000	\$ 399,000

What are these fees for?

Audit fees: Consists of fees related to professional services rendered in connection with the audit of our annual consolidated financial statements, the reviews of the consolidated financial statements included in each of our quarterly reports on Form 10-Q and accounting consultations that relate to the audited consolidated financial statements and are necessary to comply with generally accepted auditing standards.

Audit-related fees: Consists of fees for assurance and related services and consisted primarily professional services rendered in connection with equity financings.

Tax fees: Consists of fees billed for professional services related to federal and state tax return preparation.

How are audit fees approved? What is the policy for approval of audit fees?

All fees billed by outside auditors incurred in 2005 were pre-approved by the Audit Committee. Our Audit Committee has determined that Ernst & Young's rendering of all other non-audit services is compatible with maintaining auditor independence. The Audit Committee has adopted a policy for the pre-approval of services provided by the independent registered public accounting firm. Under the policy, pre-approval is generally provided for particular services or categories of services, including planned services, project-based services and routine consultations projects. Each category is subject to a specific budget or quarterly dollar amount. In addition, the Audit Committee may also pre-approve particular services on a case-by-case basis. For each proposed service, the independent registered public accounting firm is required to provide detailed back-up documentation at the time of approval. The Audit Committee has delegated certain pre-approval authority to its Chairman. The Chairman must report any decisions to the Audit Committee at its next scheduled meeting.

What does the Board of Directors recommend?

The Board of Directors recommends that you vote FOR ratification of Ernst & Young LLP, as our independent registered public accounting firm, to audit and report on our consolidated financial statements for the year ending December 31, 2006.

AUDIT COMMITTEE REPORT

In 2005, the Audit Committee met and held discussions with management and the independent registered public accounting firm. In addition, the members of the Audit Committee individually reviewed our consolidated financial statements before we filed them with the SEC in our quarterly reports on Forms 10-Q and annual report on Form 10-K. Management represented to the Audit Committee that our consolidated financial statements were prepared in accordance with generally accepted accounting principles, and the Audit Committee reviewed and discussed the consolidated financial statements with management and the independent registered public accounting firm. The Audit Committee also discussed with the independent registered public accounting firm the matters required to be discussed by Statement on Auditing Standards, or SAS, No. 61, as amended by SAS No. 90, *Communication with Audit Committees*.

Our independent registered public accounting firm also provided to the Audit Committee the written disclosures required by the Independence Standards Board's Standard No. 1, *Independence Discussions with Audit Committees*, and discussed with the Audit Committee Ernst & Young LLP's independence and considered the compatibility of non-audit services with the firm's independence.

Based on the Audit Committee's discussion with management and the independent registered public accounting firm and its review of the representation of management and the report of the independent registered public accounting firm to the Audit Committee, the Audit Committee recommended that the Board of Directors include the audited consolidated financial statements in our annual report on Form 10-K for the year ended December 31, 2005, to be filed with the Securities and Exchange Commission. The Audit Committee also evaluated the performance of Ernst & Young LLP and recommended to the Board of Directors that Ernst & Young LLP be selected as Targeted Genetics' independent registered public accounting firm to audit and report on Targeted Genetics' consolidated financial statements for the year ending December 31, 2006.

4.3.1 Designation of Series A Participating Cumulative Preferred Stock

The shares of such series shall be designated the Series A Participating Cumulative Preferred Stock (the Series A Preferred Stock), par value \$.01 per share. The number of shares constituting the Series A Preferred Stock shall be [360,000][257,143][180,000]; *provided, however*, if more than a total of [360,000][257,143][180,000] shares of Series A Preferred Stock shall be issuable upon the exercise of Rights (the Rights) issued pursuant to the Rights Agreement dated as of October 17, 1996 between this corporation and ChaseMellon Shareholder Services, as Rights Agent, as amended (the Rights Agreement), this corporation's Board of Directors, pursuant to Section 23B.06.020 of the Revised Code of Washington, shall direct by resolution or resolutions that Articles of Amendment be properly executed and filed with the Washington Secretary of State providing for the total number of shares of Series A Preferred Stock authorized for issuance to be increased (to the extent that the Restated Articles of Incorporation then permits) to the largest number of whole shares (rounded up to the nearest whole number) issuable upon exercise of such Rights. In addition, such number of shares may be decreased by resolution of the Board of Directors; *provided, however*, that no decrease shall reduce the number of shares of Series A Preferred Stock to a number less than the number of shares then outstanding plus the number of shares reserved for issuance upon the exercise of outstanding options, rights or warrants or upon the conversion of any outstanding securities issued by this corporation convertible into Series A Preferred Stock.

4.3.2 Dividends and Distributions

(a) Subject to the prior and superior rights of the holders of shares of any other series of Preferred Stock or other class of capital stock of this corporation ranking prior and superior to the shares of Series A Preferred Stock with respect to dividends, the holders of shares of Series A Preferred Stock shall be entitled to receive, when, as, and if declared by the Board of Directors, out of the assets of this corporation legally available therefor, quarterly dividends payable in cash on the last day of each fiscal quarter in each year, or such other dates as this corporation's Board of Directors shall approve (each such date being referred to in this Designation as a Quarterly Dividend Payment Date), commencing on the first Quarterly Dividend Payment Date after the first issuance of a share or a fraction of a share of Series A Preferred Stock, in an amount per share (rounded to the nearest cent) equal to the greater of (i) \$.01 and (ii) the Formula Number (as hereinafter defined) then in effect times the cash dividends then to be paid on each share of Common Stock. In addition, if this corporation shall pay any dividend or make any distribution on the Common Stock payable in assets, securities or other forms of noncash consideration (other than dividends or distributions solely in shares of Common Stock), then, in each such case, this corporation shall simultaneously pay or make on each outstanding whole share of Series A Preferred Stock a dividend or distribution in like kind equal to the Formula Number then in effect times such dividend or distribution on each share of Common Stock. As used in this Designation and in the Rights Agreement, the Formula Number shall be 100; *provided, however*, that if at any time after October 17, 1996 this corporation shall (i) declare or pay any dividend on the Common Stock payable in shares of Common Stock or make any distribution on the Common Stock in shares of Common Stock, (ii) subdivide (by a stock split or otherwise) the outstanding shares of Common Stock into a larger number of shares of Common Stock, or (iii) combine (by a reverse stock split or otherwise) the outstanding shares of Common Stock into a smaller number of shares of Common Stock, then in each such event the Formula Number shall be adjusted to a number determined by multiplying the Formula Number in effect immediately prior to such event by a fraction, the numerator of which is the number of shares of Common Stock that are outstanding immediately after such event and the denominator of which is the number of shares of Common Stock that are outstanding immediately prior to such event (and rounding the result to the nearest whole number); and *provided further*, that if at any time after October 17, 1996 this corporation shall issue any shares of its capital stock in a merger, reclassification or change of the outstanding shares of Common Stock, then in each such event the Formula Number shall be appropriately adjusted to reflect such merger, reclassification or change so that each share of Preferred Stock continues to be the economic equivalent of a Formula Number of shares of Common Stock prior to such merger, reclassification or change.

(b) This corporation shall declare a dividend or distribution on the Series A Preferred Stock as provided in Section 4.3.2(a) immediately prior to or at the same time it declares a dividend or distribution on the Common Stock (other than a dividend or distribution solely in shares of Common Stock); *provided, however*, that in the event no dividend or distribution (other than a dividend or distribution in shares of Common Stock) shall have been declared on the Common Stock during the period between any Quarterly Dividend Payment Date and the next subsequent Quarterly Dividend Payment Date, a dividend of \$.01 per share on the Series A Preferred Stock shall nevertheless be payable on such subsequent Quarterly Dividend Payment Date. This corporation's Board of Directors may fix a record date for the determination of holders of shares of Series A Preferred Stock entitled to receive a dividend or distribution declared thereon, which record date shall be the same as the record date for any corresponding dividend or distribution on the Common Stock and which shall not be more than 60 days prior to the date fixed for payment thereof.

(c) Dividends shall begin to accrue and be cumulative on outstanding shares of Series A Preferred Stock from and after the Quarterly Dividend Payment Date next preceding the date of original issue of such shares of Series A Preferred Stock; *provided, however*, that dividends on such shares that are originally issued after the record date for the determination of holders of shares of Series A Preferred Stock entitled to receive a quarterly dividend on or prior to the next succeeding Quarterly Dividend

Payment Date shall begin to accrue and be cumulative from and after such Quarterly Dividend Payment Date. Notwithstanding the foregoing, dividends on shares of Series A Preferred Stock that are originally issued prior to the record date for the determination of holders of shares of Series A Preferred Stock entitled to receive a quarterly dividend on or prior to the first Quarterly Dividend Payment Date shall be calculated as if cumulative from and after the last day of the fiscal quarter (or such other Quarterly Dividend Payment Date as this corporation's Board of Directors shall approve) next preceding the date of original issuance of such shares. Accrued but unpaid dividends shall not bear interest. Dividends paid on the shares of Series A Preferred Stock in an amount less than the total amount of such dividends at the time accrued and payable on such shares shall be allocated pro rata on a share-by-share basis among all such shares at the time outstanding.

(d) So long as any shares of Series A Preferred Stock are outstanding, no dividends or other distributions shall be declared, paid or distributed, or set aside for payment or distribution, on the Common Stock unless, in each case, the dividend required by this Section 4.3.2 to be declared on the Series A Preferred Stock shall have been declared.

(e) The holders of shares of Series A Preferred Stock shall not be entitled to receive any dividends or other distributions except as provided in this Designation.

4.3.3 Voting Rights

The holders of shares of Series A Preferred Stock shall have the following voting rights:

(a) Each holder of Series A Preferred Stock shall be entitled to a number of votes equal to the Formula Number then in effect for each share of Series A Preferred Stock held of record on each matter on which holders of the Common Stock or shareholders generally are entitled to vote, multiplied by the maximum number of votes per share that any holders of the Common Stock or shareholders generally then have with respect to such matter (assuming any holding period or other requirement to vote a greater number of shares is satisfied).

(b) Except as otherwise provided in this Designation or by applicable law, the holders of shares of Series A Preferred Stock and the holders of shares of Common Stock and any other capital stock of this corporation having general voting rights shall vote together as one class for the election of directors of this corporation and on all other matters submitted to a vote of shareholders of this corporation.

(c) Except as provided in this Designation or by applicable law, holders of Series A Preferred Stock shall have no special voting rights and their consent shall not be required (except to the extent they are entitled to vote with holders of Common Stock as set forth in this Designation) for authorizing or taking any corporate action.

4.3.4 Certain Restrictions

(a) Whenever quarterly dividends or other dividends or distributions payable on the Series A Preferred Stock as provided in Section 4.3.2 are in arrears, thereafter and until all accrued and unpaid dividends and distributions, whether or not declared, on shares of Series A Preferred Stock outstanding shall have been paid in full, this corporation shall not:

(i) declare or pay dividends on, make any other distributions on, or redeem or purchase or otherwise acquire for consideration any shares of stock ranking junior (either as to dividends or upon liquidation, dissolution or winding up) to the Series A Preferred Stock;

(ii) declare or pay dividends on or make any other distributions on any shares of stock ranking on a parity (either as to dividends or upon liquidation, dissolution or winding up) with the Series A Preferred Stock, except dividends paid ratably on the Series A Preferred Stock and all such parity stock on which dividends are payable or in arrears in proportion to the total amounts to which the holders of all such shares are then entitled;

(iii) redeem or purchase or otherwise acquire for consideration shares of any stock ranking junior (either as to dividends or upon liquidation, dissolution or winding up) with the Series A Preferred Stock; *provided, however*, that this corporation may at any time redeem, purchase or otherwise acquire shares of any such junior stock in exchange for shares of any stock of this corporation ranking junior (either as to dividends or upon dissolution, liquidation or winding up) to the Series A Preferred Stock; or

(iv) redeem or purchase or otherwise acquire for consideration any shares of Series A Preferred Stock, or any shares of stock ranking on a parity with the Series A Preferred Stock, except in accordance with a purchase offer made in writing or by publication (as determined by this corporation's Board of Directors) to all holders of such shares upon such terms as this corporation's Board of Directors, after consideration of the respective annual dividend rates and other relative rights and preferences of the respective series and classes, shall determine in good faith will result in fair and equitable treatment among the respective series or classes.

(b) This corporation shall not permit any subsidiary of this corporation to purchase or otherwise acquire for consideration any shares of stock of this corporation unless this corporation could, under paragraph (a) of this Section 4.3.4, purchase or otherwise acquire such shares at such time and in such manner.

4.3.5 Liquidation Rights

Upon the liquidation, dissolution or winding up of this corporation, whether voluntary or involuntary, no distribution shall be made to (a) the holders of shares of stock ranking junior (either as to dividends or upon liquidation, dissolution or winding up) to the Series A Preferred Stock unless, prior thereto, the holders of shares of Series A Preferred Stock shall have received an amount equal to the greater of (i) \$.01 per share and (ii) the accrued and unpaid dividends and distributions thereon, whether or not declared, to the date of such payment, plus an aggregate amount per share equal to the Formula Number then in effect times the aggregate amount to be distributed per share to holders of Common Stock or (b) the holders of shares of stock ranking on a parity (either as to dividends or upon liquidation, dissolution or winding up) with the Series A Preferred Stock, except distributions made ratably on the Series A Preferred Stock and all other such parity stock in proportion to the total amounts to which the holders of all such shares are entitled upon such liquidation, dissolution or winding up.

4.3.6 Consolidation, Merger, etc.

In case this corporation shall enter into any consolidation, merger, combination or other transaction in which the shares of Common Stock are exchanged for or changed into other stock or securities, cash and/or any other property, then in any such case the then outstanding shares of Series A Preferred Stock shall at the same time be similarly exchanged or changed into an amount per share equal to the Formula Number then in effect times the aggregate amount of stock, securities, cash and/or any other property (payable in kind), as the case may be, into which or for which each share of Common Stock is exchanged or changed. In the event both this Section 4.3.6 and Section 4.3.2 appear to apply to a transaction, this Section 4.3.6 will control.

4.3.7 No Redemption; No Sinking Fund

(a) The shares of Series A Preferred Stock shall not be subject to redemption by this corporation or at the option of any holder of Series A Preferred Stock; *provided, however*, that this corporation may purchase or otherwise acquire outstanding shares of Series A Preferred Stock in the open market or by offer to any holder or holders of shares of Series A Preferred Stock.

(b) The shares of Series A Preferred Stock shall not be subject to or entitled to the operation of a retirement or sinking fund.

4.3.8 Ranking

The Series A Preferred Stock shall rank junior to all other series of Preferred Stock of this corporation, unless this corporation's Board of Directors shall specifically determine otherwise in fixing the powers, preferences and relative, participating, optional and other special rights of the shares of such series and the qualifications, limitations and restrictions thereof.

4.3.9 Fractional Shares

The Series A Preferred Stock shall be issuable upon exercise of the Rights issued pursuant to the Rights Agreement in whole shares or in any fractional share that is one one-hundredth (1/100th) of a share or any integral multiple of such fraction, and shall entitle the holder, in proportion to such holder's fractional shares, to receive dividends, exercise voting rights, participate in distributions and have the benefit of all other rights of holders of Series A Preferred Stock. In lieu of fractional shares, this corporation, prior to the first issuance of a share or a fractional share of Series A Preferred Stock, may elect to (a) make a cash payment as provided in the Rights Agreement for a fractional share other than one one-hundredth (1/100th) of a share or any integral multiple thereof or (b) issue depository receipts evidencing such authorized fractional share of Series A Preferred Stock pursuant to an appropriate agreement between this corporation and a depository selected by this corporation; *provided, however*, that such agreement shall provide that the holders of such depository receipts shall have all the rights, privileges and preferences to which they are entitled as holders of the Series A Preferred Stock.

4.3.10 Reacquired Shares

Any shares of Series A Preferred Stock purchased or otherwise acquired by this corporation in any manner whatsoever shall be retired and canceled promptly after the acquisition thereof. All such shares shall upon their cancellation become authorized but unissued shares of Preferred Stock, without designation as to series until such shares are once more designated as part of a particular series by this corporation's Board of Directors pursuant to the provisions of Article 4 of the Restated Articles of Incorporation.

4.3.11 Amendment

None of the powers, preferences and relative, participating, optional and other special rights of the Series A Preferred Stock as provided in this Designation or in the Restated Articles of Incorporation shall be amended in any manner that would alter or change the powers, preferences, rights or privileges of the holders of Series A Preferred Stock so as to affect them adversely without the affirmative vote of the holders of at least 66²/3% of the outstanding shares of Series A Preferred Stock, voting as a separate class.

ARTICLE 5.

The shareholders shall also have the power to adopt, amend or repeal the Bylaws of this corporation by the affirmative vote of the holders of not less than two-thirds of the outstanding shares and, to the extent, if any, provided by resolution or resolutions of the Board of Directors providing for the issuance of a series of Common or Preferred Stock, not less than two-thirds of the outstanding shares entitled to vote thereon, voting as a class.

ARTICLE 9.

Directors

The number of Directors of this corporation shall be determined in the manner provided by the Bylaws and may be increased or decreased from time to time in the manner provided therein. The Board of Directors shall be divided into three classes, with such classes to be as equal in number as may be possible, with any Director or Directors in excess of the number divisible by three being assigned to Class 3 and Class 2, as appropriate. At each annual meeting of shareholders, the number of Directors equal to the number of Directors in the class whose term expires at the time of such meeting shall be elected to serve until the third ensuing annual meeting of shareholders. Notwithstanding any of the foregoing provisions of this Article 9, Directors shall serve until their successors are elected and qualified or until their earlier death, resignation or removal from office, or until there is a decrease in the number of Directors.

The Directors of this corporation may be removed only for cause by the holders of not less than two-thirds of the shares entitled to elect the Director or Directors whose removal is sought in the manner provided by the Bylaws.

ARTICLE 10.

Amendments to Articles of Incorporation

This corporation reserves the right to amend or repeal, by the affirmative vote of the holders of a majority of the outstanding shares and, to the extent, if any, provided by resolution or resolutions of the Board of Directors providing for the issuance of a series of Common or Preferred stock, a majority of the outstanding shares entitled to vote thereon, voting as a class, any of the provisions contained in these Articles of Incorporation; provided, however, that amendment or repeal of Article 7, Article 9, Article 10, Article 12 or Article 13 shall require the affirmative vote of the holders of two-thirds of the outstanding shares. The rights of the shareholders of this corporation are granted subject to this reservation; provided, however, that the holders of the outstanding shares of a class shall be entitled

to vote as a class upon a proposed amendment if the amendment would increase or decrease the aggregate number of authorized shares of such class, increase or decrease the par value of the shares of such class, or alter or change the powers, preferences or special rights of the shares of such class so as to affect them adversely. If any proposed amendment would alter or change the powers, preferences or special rights of one or more series of any class so as to affect them adversely, but shall not affect the entire class, then only the shares of the series so affected by the amendment shall be considered as a separate class for the purposes of this Article 10. Notwithstanding the provisions of this Article 10, the number of authorized shares of any such class or classes of stock may be increased by the affirmative vote of the holders of a majority of the outstanding shares entitled to vote thereon or decreased (but not below the number of shares thereof then outstanding) by the affirmative vote of the holders of a majority of the outstanding shares entitled to vote thereon, if so provided in any amendment which created such class or classes of stock or which was adopted prior to the issuance of any shares of such class or classes of stock, or in any amendment which was authorized by a resolution or resolutions adopted by the affirmative vote of the holders of a majority of such class or classes of stock.

ARTICLE 11.

Limitation of Director Liability

To the full extent that the Washington Business Corporation Act, as it exists on the date hereof or may hereafter be amended, permits the limitation or elimination of the liability of Directors, a Director of this corporation shall not be liable to this corporation or its shareholders for monetary damages for conduct as a Director. Any amendments to or repeal of this Article 11 shall not adversely affect any right or protection of a Director of this corporation for or with respect to any acts or omissions of such Director occurring prior to such amendment or repeal.

ARTICLE 12.

Special Meetings of Shareholders

The Chairman of the Board of Directors, the President or the Board of Directors may call special meetings of the shareholders for any purpose. Further, a special meeting of the shareholders shall be held if the holders of not less than thirty percent (30%) of all the votes entitled to be cast on any issue proposed to be considered at such special meeting have dated, signed and delivered to the Secretary one or more written demands for such meeting, describing the purpose or purposes for which it is to be held.

13.2.2 Notwithstanding subsection 13.2.1 of this Article 13, if a Business Combination shall have been approved by a majority of the Continuing Directors, voting separately and as a subclass of Directors, and is otherwise required by law to be approved by this corporation's shareholders, such Business Combination shall require the affirmative vote of not less than fifty-one percent (51%) of the outstanding shares entitled to vote thereon and, to the extent, if any, provided by resolution or resolutions of the Board of Directors providing for the issuance of a series of Common or Preferred Stock, not less than fifty-one percent (51%) of the outstanding shares of such series, voting as a class; provided, however, that if a Business Combination approved by a majority of the Continuing Directors is not otherwise required by law to be approved by this corporation's shareholders, then no vote of the shareholders of this corporation shall be required.

- (2) Dissenter means a shareholder who is entitled to dissent from corporate action under RCW 23B.13.020 and who exercises that right when and in the manner required by RCW 23B.13.200 through 23B.13.280.
- (3) Fair value, with respect to a dissenter's shares, means the value of the shares immediately before the effective date of the corporate action to which the dissenter objects, excluding any appreciation or depreciation in anticipation of the corporate action unless exclusion would be inequitable.
- (4) Interest means interest from the effective date of the corporate action until the date of payment, at the average rate currently paid by the corporation on its principal bank loans or, if none, at a rate that is fair and equitable under all the circumstances.
- (5) Record shareholder means the person in whose name shares are registered in the records of a corporation or the beneficial owner of shares to the extent of the rights granted by a nominee certificate on file with a corporation.
- (6) Beneficial shareholder means the person who is a beneficial owner of shares held in a voting trust or by a nominee as the record shareholder.
- (7) Shareholder means the record shareholder or the beneficial shareholder.

[1989 c 165 § 140.]

23B.13.020

Right to dissent.

(1) A shareholder is entitled to dissent from, and obtain payment of the fair value of the shareholder's shares in the event of, any of the following corporate actions:

(a) Consummation of a plan of merger to which the corporation is a party (i) if shareholder approval is required for the merger by RCW 23B.11.030, 23B.11.080, or the articles of incorporation, and the shareholder is entitled to vote on the merger, or (ii) if the corporation is a subsidiary that is merged with its parent under RCW 23B.11.040;

(b) Consummation of a plan of share exchange to which the corporation is a party as the corporation whose shares will be acquired, if the shareholder is entitled to vote on the plan;

(c) Consummation of a sale or exchange of all, or substantially all, of the property of the corporation other than in the usual and regular course of business, if the shareholder is entitled to vote on the sale or exchange, including a sale in dissolution, but not including a sale pursuant to court order or a sale for cash pursuant to a plan by which all or substantially all of the net proceeds of the sale will be distributed to the shareholders within one year after the date of sale;

(d) An amendment of the articles of incorporation, whether or not the shareholder was entitled to vote on the amendment, if the amendment effects a redemption or cancellation of all

of the shareholder's shares in exchange for cash or other consideration other than shares of the corporation; or

(e) Any corporate action taken pursuant to a shareholder vote to the extent the articles of incorporation, bylaws, or a resolution of the board of directors provides that voting or nonvoting shareholders are entitled to dissent and obtain payment for their shares.

(2) A shareholder entitled to dissent and obtain payment for the shareholder's shares under this chapter may not challenge the corporate action creating the shareholder's entitlement unless the action fails to comply with the procedural requirements imposed by this title, RCW 25.10.900 through 25.10.955, the articles of incorporation, or the bylaws, or is fraudulent with respect to the shareholder or the corporation.

(3) The right of a dissenting shareholder to obtain payment of the fair value of the shareholder's shares shall terminate upon the occurrence of any one of the following events:

(a) The proposed corporate action is abandoned or rescinded;

(b) A court having jurisdiction permanently enjoins or sets aside the corporate action; or

(c) The shareholder's demand for payment is withdrawn with the written consent of the corporation.

23B.13.030

Dissent by nominees and beneficial owners.

(1) A record shareholder may assert dissenters' rights as to fewer than all the shares registered in the shareholder's name only if the shareholder dissents with respect to all shares beneficially owned by any one person and delivers to the corporation a notice of the name and address of each person on whose behalf the shareholder asserts dissenters' rights. The rights of a partial dissenter under this subsection are determined as if the shares as to which the dissenter dissents and the dissenter's other shares were registered in the names of different shareholders.

(2) A beneficial shareholder may assert dissenters' rights as to shares held on the beneficial shareholder's behalf only if:

(a) The beneficial shareholder submits to the corporation the record shareholder's consent to the dissent not later than the time the beneficial shareholder asserts dissenters' rights, which consent shall be set forth either (i) in a record or (ii) if the corporation has designated an address, location, or system to which the consent may be electronically transmitted and the consent is electronically transmitted to the designated address, location, or system, in an electronically transmitted record; and

(b) The beneficial shareholder does so with respect to all shares of which such shareholder is the beneficial shareholder or over which such shareholder has power to direct the vote.

(2) If corporate action creating dissenters' rights under RCW 23B.13.020 is taken without a vote of shareholders, the corporation, within ten days after the effective date of such corporate action, shall

deliver a notice to all shareholders entitled to assert dissenters' rights that the action was taken and send them the notice described in RCW 23B.13.220.

(1) If proposed corporate action creating dissenters' rights under RCW 23B.13.020 is submitted to a vote at a shareholders' meeting, a shareholder who wishes to assert dissenters' rights must (a) deliver to the corporation before the vote is taken notice of the shareholder's intent to demand payment for the shareholder's shares if the proposed action is effected, and (b) not vote such shares in favor of the proposed action.

(2) A shareholder who does not satisfy the requirements of subsection (1) of this section is not entitled to payment for the shareholder's shares under this chapter.

[2002 c 297 § 37; 1989 c 165 § 144.]

23B.13.220

(1) If proposed corporate action creating dissenters' rights under RCW 23B.13.020 is authorized at a shareholders' meeting, the corporation shall deliver a notice to all shareholders who satisfied the requirements of RCW 23B.13.210.

(2) The notice must be sent within ten days after the effective date of the corporate action, and must:

(b) Inform holders of uncertificated shares to what extent transfer of the shares will be restricted after the payment demand is received;

(d) Set a date by which the corporation must receive the payment demand, which date may not be fewer than thirty nor more than sixty days after the date the notice in subsection (1) of this section is delivered; and

(e) Be accompanied by a copy of this chapter.

[2002 c 297 § 38; 1989 c 165 § 145.]

23B.13.230

(2) The shareholder who demands payment and deposits the shareholder's share certificates under subsection (1) of this section retains all other rights of a shareholder until the proposed corporate action is effected.

(3) A shareholder who does not demand payment or deposit the shareholder's share certificates where required, each by the date set in the notice, is not entitled to payment for the shareholder's shares under this chapter.
[2002 c 297 § 39; 1989 c 165 § 146.]

23B.13.240

(2) The person for whom dissenters' rights are asserted as to uncertificated shares retains all other rights of a shareholder until the effective date of the proposed corporate action.
[1989 c 165 § 147.]

23B.13.250

(1) Except as provided in RCW 23B.13.270, within thirty days of the later of the effective date of the proposed corporate action, or the date the payment demand is received, the corporation shall pay each dissenter who complied with RCW 23B.13.230 the amount the corporation estimates to be the fair value of the shareholder's shares, plus accrued interest.

(2) The payment must be accompanied by:

(a) The corporation's balance sheet as of the end of a fiscal year ending not more than sixteen months before the date of payment, an income statement for that year, a statement of changes in shareholders' equity for that year, and the latest available interim financial statements, if any;

(b) An explanation of how the corporation estimated the fair value of the shares;

(c) An explanation of how the interest was calculated;

(d) A statement of the dissenter's right to demand payment under RCW 23B.13.280; and

(e) A copy of this chapter.

23B.13.260

Failure to take action.

(1) If the corporation does not effect the proposed action within sixty days after the date set for demanding payment and depositing share certificates, the corporation shall return the deposited certificates and release any transfer restrictions imposed on uncertificated shares.

(2) If after returning deposited certificates and releasing transfer restrictions, the corporation wishes to undertake the proposed action, it must send a new dissenters' notice under RCW 23B.13.220 and repeat the payment demand procedure.

[1989 c 165 § 149.]

23B.13.270

After-acquired shares.

(1) A corporation may elect to withhold payment required by RCW 23B.13.250 from a dissenter unless the dissenter was the beneficial owner of the shares before the date set forth in the dissenter's notice as the date of the first announcement to news media or to shareholders of the terms of the proposed corporate action.

(2) To the extent the corporation elects to withhold payment under subsection (1) of this section, after taking the proposed corporate action, it shall estimate the fair value of the shares, plus accrued interest, and shall pay this amount to each dissenter who agrees to accept it in full satisfaction of the dissenter's demand. The corporation shall send with its offer an explanation of how it estimated the fair value of the shares, an explanation of how the interest was calculated, and a statement of the dissenter's right to demand payment under RCW 23B.13.280.

[1989 c 165 § 150.]

23B.13.280

Procedure if shareholder dissatisfied with payment or offer.

(1) A dissenter may deliver a notice to the corporation informing the corporation of the dissenter's own estimate of the fair value of the dissenter's shares and amount of interest due, and demand payment of the dissenter's estimate, less any payment under RCW 23B.13.250, or reject the corporation's offer under RCW 23B.13.270 and demand payment of the dissenter's estimate of the fair value of the dissenter's shares and interest due, if:

(a) The dissenter believes that the amount paid under RCW 23B.13.250 or offered under RCW 23B.13.270 is less than the fair value of the dissenter's shares or that the interest due is incorrectly calculated;

(b) The corporation fails to make payment under RCW 23B.13.250 within sixty days after the date set for demanding payment; or

(c) The corporation does not effect the proposed action and does not return the deposited certificates or release the transfer restrictions imposed on uncertificated shares within sixty days after the date set for demanding payment.

(2) A dissenter waives the right to demand payment under this section unless the dissenter notifies the corporation of the dissenter's demand under subsection (1) of this section within thirty days after the corporation made or offered payment for the dissenter's shares.

[2002 c 297 § 40; 1989 c 165 § 151.]

23B.13.300

Court action.

(1) If a demand for payment under RCW 23B.13.280 remains unsettled, the corporation shall commence a proceeding within sixty days after receiving the payment demand and petition the court to determine the fair value of the shares and accrued interest. If the corporation does not commence the proceeding within the sixty-day period, it shall pay each dissenter whose demand remains unsettled the amount demanded.

(2) The corporation shall commence the proceeding in the superior court of the county where a corporation's principal office, or, if none in this state, its registered office, is located. If the corporation is a foreign corporation without a registered office in this state, it shall commence the proceeding in the county in this state where the registered office of the domestic corporation merged with or whose shares were acquired by the foreign corporation was located.

(3) The corporation shall make all dissenters, whether or not residents of this state, whose demands remain unsettled, parties to the proceeding as in an action against their shares and all parties must be served with a copy of the petition. Nonresidents may be served by registered or certified mail or by publication as provided by law.

(4) The corporation may join as a party to the proceeding any shareholder who claims to be a dissenter but who has not, in the opinion of the corporation, complied with the provisions of this chapter. If the court determines that such shareholder has not complied with the provisions of this chapter, the shareholder shall be dismissed as a party.

(5) The jurisdiction of the court in which the proceeding is commenced under subsection (2) of this section is plenary and exclusive. The court may appoint one or more persons as appraisers to receive evidence and recommend decision on the question of fair value. The appraisers have the powers described in the order appointing them, or in any amendment to it. The dissenters are entitled to the same discovery rights as parties in other civil proceedings.

(6) Each dissenter made a party to the proceeding is entitled to judgment (a) for the amount, if any, by which the court finds the fair value of the dissenter's shares, plus interest, exceeds the amount paid by the corporation, or (b) for the fair value, plus accrued interest, of the dissenter's after-acquired shares for which the corporation elected to withhold payment under RCW 23B.13.270.

[1989 c 165 § 152.]

23B.13.310

Court costs and counsel fees.

(1) The court in a proceeding commenced under RCW 23B.13.300 shall determine all costs of the proceeding, including the reasonable compensation and expenses of appraisers appointed by the court. The court shall assess the costs against the corporation, except that the court may assess the costs against all or some of the dissenters, in amounts the court finds equitable, to the extent the court finds the dissenters acted arbitrarily, vexatiously, or not in good faith in demanding payment under RCW 23B.13.280.

(2) The court may also assess the fees and expenses of counsel and experts for the respective parties, in amounts the court finds equitable:

(a) Against the corporation and in favor of any or all dissenters if the court finds the corporation did not substantially comply with the requirements of RCW 23B.13.200 through 23B.13.280; or

(b) Against either the corporation or a dissenter, in favor of any other party, if the court finds that the party against whom the fees and expenses are assessed acted arbitrarily, vexatiously, or not in good faith with respect to the rights provided by chapter 23B.13 RCW.

(3) If the court finds that the services of counsel for any dissenter were of substantial benefit to other dissenters similarly situated, and that the fees for those services should not be assessed against the corporation, the court may award to these counsel reasonable fees to be paid out of the amounts awarded the dissenters who were benefited.

[1989 c 165 § 153.]
