Moody's press release

The following is an extract from a press release issued by Moody's Investors Service on 5 May 2010:

“Moody's Investors Service has today revised to negative from stable the outlook on the Aa1 senior unsecured ratings of BP plc (BP) and its guaranteed subsidiaries, and the Aa2 long term issuer ratings of BP Corporation North America Inc. and BP Finance plc.

Moody's action reflects the considerable uncertainty associated with the financial liabilities and clean-up costs that BP may incur as a result of the oil spill in the Gulf of Mexico caused by the explosion on the Transocean Deepwater Horizon drilling rig. Moody's notes the comprehensive response effort put in place by BP with the support of the US authorities and in cooperation with some of its industry peers. However, it remains impossible at this stage to assess the full extent of the costs and business impact of this accident on BP's results. Therefore, while BP's current financial position, which has recently benefited from robust operating results and cash flow generation underpinned by the recovery in oil prices, provides some cushion against the potential financial impact of the incident, Moody's believes that it is too early to exclude scenarios leading to downward pressure on the Aa1 rating.”
