Item 5.02 Departure of Directors or Certain Officers; Election of Directors; Appointment of Certain Officers; Compensatory Arrangements of Certain Officers.

On May 27, 2016, Patricia N. Egan informed Harris & Harris Group, Inc. (the “Company”) of her intention to resign as Chief Financial Officer and Chief Compliance Officer, effective as of the close of business on June 30, 2016, in order to pursue other opportunities. Ms. Egan has agreed to provide certain consulting services to the Company with respect to accounting and financial reporting matters on an as-needed basis following the effective date of her resignation.

The Board of Directors has appointed Daniel B. Wolfe to resume the role of Chief Financial Officer, a role he held from 2008 to 2013, and to assume the role of Chief Compliance Officer, each beginning on July 1, 2016. Additionally, the Board of Directors of the Company has eliminated the titles of Chief Operating Officer (a title held by Daniel B. Wolfe) and Managing Director (titles held by Douglas W. Jamison and Daniel B. Wolfe) effective as of July 1, 2016. As of that date, Douglas W. Jamison will hold the positions of Chairman of the Board and Chief Executive Officer of the Company and Daniel B. Wolfe will hold the positions of President, Chief Financial Officer and Chief Compliance Officer of the Company.

## NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

### 1. CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

The accompanying condensed consolidated balance sheet as of December 31, 2017, which has been derived from audited financial statements, and the unaudited interim condensed consolidated financial statements as of June 30, 2018, and for the second quarters and six months ended June 30, 2018 and June 30, 2017 have been prepared in accordance with generally accepted accounting principles for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X. Certain information and note disclosures normally included in annual financial statements prepared in accordance with generally accepted accounting principles have been condensed or omitted pursuant to those rules and regulations. In the opinion of management, all accounting entries and adjustments (including normal, recurring adjustments) considered necessary for a fair presentation of the financial position and the results of operations for the interim periods have been made. Operating results for the second quarter and six months ended June 30, 2018 are not necessarily indicative of the results that may be expected for the fiscal year ending December 31, 2018. For further information, including a description of the critical accounting policies of Franklin Electric Co., Inc. (the "Company"), refer to the consolidated financial statements and notes thereto included in the Company's Annual Report on Form 10-K for the year ended December 31, 2017.

### 2. ACCOUNTING PRONOUNCEMENTS

#### *Adoption of New Accounting Standards*

In March 2017, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2017-07, *Compensation - Retirement Benefits (Topic 715): Improving the Presentation of Net Periodic Pension Cost and Net Periodic Postretirement Benefit Cost*. This ASU requires entities to present only the service cost component of net periodic benefit cost as an operating expense (consistent with the presentation of other employee compensation costs). The other components of net periodic benefit cost are to be presented as a non-operating expense. The Company adopted ASU 2017-07 during the first quarter ended March 31, 2018. The prior year non-service cost component of net periodic benefit costs as of June 30, 2017 was less than \$0.1 million and is not considered significant. The Company has included current year non-service costs as non-operating expense. The adoption of this pronouncement did not have a material impact to the Company's condensed consolidated financial position, results of operations, or cash flows.

In May 2014, the FASB issued ASU 2014-09, *Revenue from Contracts with Customers (Topic 606)* as modified by subsequently issued ASUs 2015-14, 2016-08, 2016-10, 2016-12 and 2016-20 (collectively ASU 2014-09). Topic 606 supersedes the revenue recognition requirements in Accounting Standards Codification ("ASC") Topic 605, *Revenue Recognition ("Topic 605")*, and requires the recognition of revenue when promised goods or services are transferred to customers in an amount that reflects the considerations to which the entity expects to be entitled to in exchange for those goods or services. The Company made the accounting policy election allowed by ASC 606-10-32-2A to continue to present sales tax on a net basis, consistent with current guidance in ASC 605-45-15-2(e). The guidance permits two methods of adoption: retrospectively to each prior reporting period presented (full retrospective method), or retrospectively with the cumulative effect of initially applying the guidance recognized at the date of initial application (modified retrospective method). The Company adopted ASU 2014-09 during the first quarter ended March 31, 2018 utilizing the modified retrospective approach. The adoption of this ASU did not have a material impact to the Company's condensed consolidated financial position, results of operations, or cash flow; however, the adoption of this ASU requires the Company to disclose sufficient information to enable users of financial statements to understand the nature, amount, timing, and uncertainty of revenue and cash flows arising from contracts with customers. The Company completed its assessment of the additional disclosure requirements with the following results:

#### *Disaggregation of Revenue*

The adoption of this ASU requires the Company to disaggregate revenue into categories to depict how the nature, timing, and uncertainty of revenue and cash flows are affected by economic factors. As evidenced in Footnote 14 Segment and Geographic Information, the Company's business consists of the Water, Fueling, Distribution, and Other segments. The Other segment includes unallocated corporate expenses and intersegment eliminations. A reconciliation

of disaggregated revenue to segment revenue as well as Water Segment revenue by geographical regions is provided in Footnote 14, consistent with how the Company evaluates financial performance.

*Performance Obligations*

A performance obligation is a promise in a contract to transfer a distinct good or service to the customer, and is the unit of account in ASC Topic 606. The Company typically sells its products to customers by purchase order, and does not have any additional performance obligations included in contracts to customers other than the shipment of products. The Company records net sales revenues after discounts at the time of sale based on specific discount programs in effect, related historical data, and experience. The Company typically ships products FOB shipping at

which point control of the products passes to the customers. Any shipping and handling fees prior to shipment are considered activities required to fulfill the Company's promise to transfer goods, and do not qualify as a separate performance obligation. Shipping and handling costs are recorded as a component of cost of sales. Additionally, the Company offers assurance-type warranties (vs. service warranties) which do not qualify as a separate performance obligation. Therefore, the Company allocates the transaction price based on a single performance obligation. The Company offers normal and customary trade terms to its customers, no significant part of which is of an extended nature. The Company considers the performance obligation satisfied and recognizes revenue at a point in time, the time of shipment. The Company does not generally allow for refunds or returns to customers and does not have outstanding performance obligations for contracts with original durations of greater than one year at the end of the reporting period.

#### *Contract Costs*

The Company does not have outstanding contracts with an original term greater than one year; therefore, the Company expenses costs to obtain a contract as incurred.

#### ***Accounting Standards Issued But Not Yet Adopted***

In February 2018, the FASB issued ASU 2018-02, *Reclassification of Certain Tax Effects from Accumulated Other Comprehensive Income*. This ASU was issued following the enactment of the U.S. Tax Cuts and Jobs Act of 2017 ("Tax Act") and permits entities to elect a reclassification from accumulated other comprehensive income to retained earnings for stranded tax effects resulting from the Tax Act. The ASU is effective for interim and annual periods beginning after December 15, 2018, with early adoption permitted, and may be applied either at the beginning of the period of adoption or retrospectively to each period in which the effect of the change in the U.S. federal corporate income tax rate in the Tax Act is recognized. The Company is currently assessing the impact of the ASU on the Company's consolidated financial position, results of operations, and cash flows.

In January 2017, the FASB issued ASU 2017-04, *Intangibles - Goodwill and Other (Topic 350): Simplifying the Test for Goodwill Impairment*. ASU 2017-04 removes step two from the goodwill impairment test and instead requires an entity to recognize a goodwill impairment charge for the amount by which the goodwill carrying amount exceeds the reporting unit's fair value. The ASU is effective on a prospective basis for interim and annual periods beginning after December 15, 2019 with early adoption permitted. The Company is still determining the date of adoption for this ASU but does not anticipate the adoption to have a material impact on the Company's consolidated financial position, results of operations, or cash flows.

In February 2016, the FASB issued ASU 2016-02, *Leases (Topic 842)*, which supersedes existing guidance on accounting for leases found in Accounting Standards Codification ("ASC") Topic 840. This ASU requires lessees to present right-of-use assets and lease liabilities on the balance sheet for all leases with terms longer than 12 months. The guidance is to be applied using a modified retrospective approach at the beginning of the earliest comparative period in the financial statements and is effective for interim and annual periods beginning after December 15, 2018 with early adoption permitted. The Company has begun the evaluation process for the adoption of the ASU, and anticipates that the majority of the Company's outstanding operating leases would be recognized as right-of-use assets and lease liabilities upon adoption, resulting in a significant impact to the Company's consolidated balance sheets. The Company is implementing a lease accounting software package for lease administration and compliance reporting and is in the process of entering its lease data into this package. The impact of this ASU is non-cash in nature and will not affect the Company's cash position. The impact to the Company's results of operations is still being evaluated.

### **3. ACQUISITIONS**

During the first quarter ended March 31, 2018, the Company acquired 100 percent of the ownership interests of Lansing, Michigan-based Valley Farms Supply, Inc. ("Valley Farms"), for a purchase price of approximately \$9.2 million. Valley Farms is a professional groundwater distributor operating four locations in the State of Michigan and one in the State of Indiana. Valley Farms was acquired to serve customers in this region of the United States as part of the Company's Distribution Segment, which is a collection of professional groundwater equipment distributors. The Company has not presented separate results of operations since closing or combined pro forma financial information of the Company and the acquired interest since the beginning of 2018, as results of operations for this acquisition is

immaterial.

During the second quarter of 2017, the Company redeemed 10 percent of the noncontrolling interest of Impo, a Turkish subsidiary, increasing the Company's ownership to 100 percent for approximately TRY 17.0 million, \$5.0 million at the then current exchange rate. The 10 percent redemption value was calculated using a specified formula and resulted in a reduction to the carrying value of TRY 0.6 million (\$0.2 million). Due to the immaterial nature of the redemption, the Company has not included full year proforma statements of income for the periods presented.

---

During the second quarter of 2017, the Company acquired controlling interests in three distributors (2M Company, Inc. (“2M”), Drillers Service, Inc. (“DSI”), and Western Hydro, LLC (“Western Hydro”), collectively referred to below as the “Headwater acquisitions”) in the U.S. professional groundwater market for a combined purchase price of approximately \$57.4 million, subject to certain terms and conditions. The Company had previously prepaid a \$3.0 million portion of the purchase price at the time of original investment. The Company funded the Headwater acquisitions with cash on hand and short-term borrowings from the Company’s Revolver (see Note 9 - Debt). The Headwater acquisitions provide the Company with a professional groundwater distribution channel throughout the United States.

The Company previously held equity interests in these entities, each of which was less than 50 percent, and accounted for by the equity method of accounting. The Company’s total interest in each of the entities is now 100 percent and the entities are included in the Company’s consolidated results effective from the date of acquisition. The original equity interests in the acquired entities were remeasured to their fair values as of the acquisition date (which aggregated was \$20.6 million) based on the income approach, which utilized management estimates and consultation with an independent third-party valuation firm. Inputs included an analysis of the enterprise value based on financial projections and ownership percentages.

Intangible assets recognized due to the Headwater acquisitions were \$5.7 million and consist of customer relationships, which will be amortized utilizing the straight-line method over 15 years. The fair value of the identifiable intangible assets has been estimated using an income approach, a valuation method that values an intangible asset by discounting the future incremental earnings that may be achieved by the subject intangible asset. The goodwill of \$33.9 million resulting from the Headwater acquisitions consists primarily of the benefits of forward channel integration opportunities and broadened product offerings. All of the goodwill was recorded as part of the Distribution segment, and only a portion (\$7.8 million) is expected to be deductible for tax purposes.

The final purchase price assigned to the major identifiable assets and liabilities for the Headwater acquisitions on an aggregated basis is as follows:

(In millions)

Cash	\$2.7
Receivables	29.9
Inventory	56.0
Other current assets	5.1
Total current assets	93.7
Property, plant, and equipment	9.8
Intangible assets	5.7
Goodwill	33.9
Other assets	0.2
Total assets	143.3
Accounts payable	(19.6 )
Accrued liabilities and other current liabilities	(11.4 )
Current maturities of long-term debt	(31.6 )
Total current liabilities	(62.6 )
Long-term debt	(2.0 )
Other long-term liabilities	(0.7 )
Total liabilities	(65.3 )
Total	78.0
Less: Fair value of original equity interest	(20.6 )
Total purchase price	\$57.4

The fair values of the assets acquired and liabilities assumed related to the Headwater acquisitions were final as of June 30, 2018. The Company utilized management estimates and consultation with an independent third-party

valuation firm to assist in the valuation process.

The following unaudited proforma financial information for the second quarters and six months ended June 30, 2018 and June 30, 2017 gives effect to the Headwater acquisitions by the Company as if the acquisitions had occurred as of January 1, 2017. These unaudited proforma condensed consolidated financial statements are prepared for informational purposes only and are not necessarily indicative of actual results or financial position that would have been achieved had the acquisitions been consummated on the dates indicated and are not necessarily indicative of future operating results or financial position of the consolidated companies. The unaudited proforma condensed consolidated financial statements do not give effect to any cost savings or incremental costs that may result from the integration of the Headwater acquisitions with the Company.

Transaction costs were expensed as incurred under the guidance of FASB Accounting Standards Codification Topic 805, *Business Combinations*. There were \$0.1 million and \$0.2 million of transaction costs included in the "Selling, general, and administrative expenses" line of the Company's condensed consolidated statements of income for the second quarter and six months ended June 30, 2018, respectively. There were \$0.1 million and \$0.3 million of transactions costs incurred in the second quarter and six months ended June 30, 2017, respectively.

#### 4. FAIR VALUE MEASUREMENTS

FASB ASC Topic 820, *Fair Value Measurements and Disclosures*, provides guidance for defining, measuring, and disclosing fair value within an established framework and hierarchy. Fair value is defined as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. The standard established a fair value hierarchy which requires an entity to maximize the use of observable inputs and to minimize the use of unobservable inputs when measuring fair value. The three levels of inputs that may be used to measure fair value within the hierarchy are as follows:

Level 1 – Quoted prices for identical assets and liabilities in active markets;

Level 2 – Quoted prices for similar assets and liabilities in active markets, quoted prices for identical or similar assets and liabilities in markets that are not active, and model-derived valuations in which all significant inputs and significant value drivers are observable in active markets; and

Level 3 – Valuations derived from valuation techniques in which one or more significant inputs or significant value drivers are unobservable.

As of June 30, 2018 and December 31, 2017, the assets measured at fair value on a recurring basis were as set forth in the table below:

14

---

(In millions)	June 30, 2018	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	
Cash equivalents \$	3.0	\$ 3.0	\$	—\$	—

	December 31, 2017	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	
Cash equivalents \$	3.0	\$ 3.0	\$	—\$	—

The Company's Level 1 assets consist of cash equivalents which are generally comprised of foreign bank guaranteed certificates of deposit.

The Company has no assets measured on a recurring basis classified as Level 2 or Level 3.

Total debt, including current maturities, have carrying amounts of \$262.6 million and \$226.0 million and estimated fair values of \$264 million and \$230 million as of June 30, 2018 and December 31, 2017, respectively. In the absence of quoted prices in active markets, considerable judgment is required in developing estimates of fair value. Estimates are not necessarily indicative of the amounts the Company could realize in a current market transaction. In determining the fair value of its debt, the Company uses estimates based on rates currently available to the Company for debt with similar terms and remaining maturities. Accordingly, the fair value of debt is classified as Level 2 within the valuation hierarchy.

## 5. FINANCIAL INSTRUMENTS

The Company's deferred compensation stock program is subject to variable plan accounting and, accordingly, is adjusted for changes in the Company's stock price at the end of each reporting period. The Company has entered into share swap transaction agreements (the "swap") to mitigate the Company's exposure to the fluctuations in the Company's stock price. The swap has not been designated as a hedge for accounting purposes and is cancellable with 30 days' written notice by either party. As of June 30, 2018, the swap had a notional value based on 235,000 shares. For the second quarter and six months ended June 30, 2018, the swap resulted in a gain of \$0.8 million and a loss of \$0.3 million, respectively. For the second quarter and six months ended June 30, 2017, the swap resulted in a loss of \$0.4 million and a gain of \$0.4 million, respectively. Gains and losses resulting from the the swap were primarily offset by gains and losses on the fair value of the deferred compensation stock liability. All gains or losses and expenses related to the swap are recorded in the Company's condensed consolidated statements of income within the "Selling, general, and administrative expenses" line.

## 6. GOODWILL AND OTHER INTANGIBLE ASSETS

The carrying amounts of the Company's intangible assets are as follows:

(In millions)	June 30, 2018	December 31, 2017
---------------	---------------	-------------------

	Gross Carrying Amount	Accumulated Amortization		Gross Carrying Amount	Accumulated Amortization	
Amortized intangibles:

Trade names	45.6	—		47.2	—	
Total intangibles	\$199.1	\$ (75.6	)	\$204.0	\$ (72.5	)

Amortization expense related to intangible assets for the second quarters ended June 30, 2018 and June 30, 2017 was \$2.2 million and 4.3 million for the six months ended June 30, 2018 and June 30, 2017.

Amortization expense for each of the five succeeding years is projected as follows:

(In millions)	2018	2019	2020	2021	2022
	\$8.5	\$8.4	\$8.3	\$7.9	\$7.7

The change in the carrying amount of goodwill by reportable segment for the six months ended June 30, 2018, is as follows:

(In millions)

	Water Systems	Fueling Systems	Distribution	Consolidated

## 7. EMPLOYEE BENEFIT PLANS

**Defined Benefit Plans** - As of June 30, 2018, the Company maintained two domestic pension plans and three German pension plans. The Company used a December 31, 2017 measurement date for these plans. One of the Company's domestic pension plans covers one active management employee, while the other domestic plan covers all eligible employees (plan was frozen as of December 31, 2011). The two domestic and three German plans collectively comprise the 'Pension Benefits' disclosure caption.

**Other Benefits** - The Company's other post-retirement benefit plan provides health and life insurance to domestic employees hired prior to 1992.

The following table sets forth the aggregated net periodic benefit cost for all pension plans for the second quarters and six months ended June 30, 2018 and June 30, 2017:

(In millions)	Pension Benefits			
	Second Quarter Ended		Six Months Ended	
	June 30, 2018	June 30, 2017	June 30, 2018	June 30, 2017

Actuarial loss	0.8	0.7	1.5	1.3
Settlement cost	—	—	—	—
Net periodic benefit cost	\$0.2	\$ 0.1	\$0.3	\$ —

In the six months ended June 30, 2018, the Company made contributions of \$1.1 million to the funded plans. The amount of contributions to be made to the plans during the calendar year 2018 will be finalized by September 15, 2018, based upon the funding level requirements identified and year-end valuation performed at December 31, 2017.

The following table sets forth the aggregated net periodic benefit cost for the post-retirement benefit plan for the second quarters and six months ended June 30, 2018 and June 30, 2017.

(In millions)	Other Benefits			
	Second Quarter Ended		Six Months Ended	
	June 30, 2018	June 30, 2017	June 30, 2018	June 30, 2017

Net periodic benefit cost	\$0.1	\$0.2	\$0.3	\$0.4

The Company adopted ASU 2017-07 in the first quarter ended March 31, 2018. The service cost component of net periodic benefit cost above is recorded in Selling, general, and administrative expenses within the Condensed Consolidated Statements of Income, while the remaining components are recorded to Other income/(expense), net. The prior year amounts have been reclassified to provide comparable presentation in line with the guidance.

## 8. INCOME TAXES

The Company's effective tax rate from continuing operations for the six month period ended June 30, 2018 was 9.2 percent as compared to 13.4 percent for the six month period ended June 30, 2017. The effective tax rate is lower than the U.S. statutory rate of 21 percent primarily due to the recognition of the foreign-derived intangible income (FDII) provisions in the U.S. Tax Cuts and Jobs Act (Tax Act) and certain discrete events. For the second quarters of both 2018 and 2017 the effective tax rate was 18.6 percent.

The decrease in the effective tax rate for the six months ended June 30, 2018, compared with the same period in 2017, was primarily affected by the Tax Act, which reduced the U.S. federal corporate income tax rate from 35 percent to 21 percent effective January 1, 2018. The Company also reflected an estimated tax benefit of \$3 million associated with the FDII provisions of the Tax Act that were effective for the first time during 2018. In addition, during the three month period ended March 31, 2018, the Company released a valuation allowance of \$5.4 million related to state NOLs and incentives as it is no longer in a three-year cumulative loss position for certain state income tax purposes.

During the second quarter 2018, the Company paid \$1.6 million to the one time transition tax liability imposed by the Tax Act, and in accordance with the IRS regulations has applied an estimated \$3.0 million of 2017 overpayments.

The Company's accounting for certain aspects of the Tax Act remains provisional. As noted at year-end 2017, the Company was able to reasonably estimate certain effects and, therefore, recorded provisional adjustments associated with the deemed repatriation transition tax and the remeasurement of deferred taxes. The Company has not made any additional measurement-period adjustments related to these items during the quarter as the analysis requires significant data from foreign subsidiaries that is not yet final due to future statutory deadlines as well as pending guidance from state and local tax authorities in the U.S. However, the Company is continuing to gather additional information to complete our accounting for these items. The accounting for the tax effects of the Tax Act will be completed in 2018.

**9. DEBT**

Debt consisted of the following:

(In millions)	June 30, December 31,	
	2018	2017
Prudential Agreement	\$30.0	\$ 60.0
Tax increment financing debt	20.3	20.8

	\$262.7	\$ 226.1
Less: current maturities	(167.8 )	(100.5 )
Long-term debt	\$94.9	\$ 125.6

Debt outstanding, excluding unamortized debt issuance costs, at June 30, 2018 matures as follows:

(In millions)	Total	Year 1	More					Than
			Year 2	Year 3	Year 4	Year 5	Year 5	
Debt	\$262.9	\$167.8	\$1.3	\$1.2	\$1.3	\$1.3	\$90.0

	\$263.0	\$167.8	\$1.4	\$1.2	\$1.3	\$1.3	\$90.0	

***Prudential Agreement***

The Company maintains the Third Amended and Restated Note Purchase and Private Shelf Agreement (the "Prudential Agreement") with an initial borrowing capacity of \$250.0 million. The Prudential Agreement bears a coupon of 5.79 percent with a final maturity in 2019. Principal installments of \$30.0 million are payable annually, including the date of maturity of April 30, 2019, with any unpaid balance due at that time. There is no additional borrowing capacity resulting from principal payments made by the Company. As of June 30, 2018, the Company has \$100.0 million borrowing capacity available under the Prudential Agreement.

***Project Bonds***

The Company, Allen County, Indiana and certain institutional investors maintain a Bond Purchase and Loan Agreement. Under the agreement, Allen County, Indiana issued a series of Project Bonds entitled "Taxable Economic Development Bonds, Series 2012 (Franklin Electric Co., Inc. Project)." The aggregate principal amount of the Project Bonds that were issued, authenticated, and are now outstanding thereunder was limited to \$25.0 million. These Project Notes ("Tax increment financing debt") bear interest at 3.6 percent per annum. Interest and principal balance of the Project Notes are due and payable by the Company directly to the institutional investors in aggregate semi-annual installments commencing on July 10, 2013, and concluding on January 10, 2033.

***New York Life***

The Company maintains an uncommitted and unsecured private shelf agreement with NYL Investors LLC, an affiliate of New York Life (the "New York Life Agreement"), entered into on May 27, 2015 for \$150.0 million maximum aggregate principal borrowing capacity and authorized issuance of \$75.0 million of floating rate senior notes due May 27, 2025. These senior notes have a floating interest rate of one-month USD LIBOR (2.10 percent as of June 30, 2018) plus a spread of 1.35 percent with interest-only payments due on a monthly basis. As of June 30, 2018, there

was \$75.0 million remaining borrowing capacity under the New York Life Agreement.

***Credit Agreement***

The Company maintains the Third Amended and Restated Credit Agreement (the "Credit Agreement"). The Credit Agreement has a maturity date of October 28, 2021 and commitment amount of \$300.0 million. The Credit Agreement provides that the Borrowers may request an increase in the aggregate commitments by up to \$150.0 million (not to exceed a total commitment of \$450.0 million). Under the Credit Agreement, the Borrowers are required to pay certain fees, including a facility fee of 0.100% to 0.275% (depending on the Company's leverage ratio) of the aggregate commitment, which fee is payable

quarterly in arrears. Loans may be made either at (i) a Eurocurrency rate based on LIBOR plus an applicable margin of 0.75% to 1.60% (depending on the Company's leverage ratio) or (ii) an alternative base rate as defined in the Credit Agreement.

As of June 30, 2018, the Company had \$133.8 million in outstanding borrowings which were primarily used for acquisition and working capital needs, \$5.6 million in letters of credit outstanding, and \$160.6 million of available capacity under the Credit Agreement.

### **Covenants**

The Company's credit agreements contain customary financial covenants. The Company's most significant agreements and restrictive covenants are in the New York Life Agreement, the Project Bonds, the Prudential Agreement, and the Credit Agreement; each containing both affirmative and negative covenants. The affirmative covenants relate to financial statements, notices of material events, conduct of business, inspection of property, maintenance of insurance, compliance with laws and most favored lender obligations. The negative covenants include limitations on loans, advances and investments, and the granting of liens by the Company or its subsidiaries, as well as prohibitions on certain consolidations, mergers, sales and transfers of assets. The covenants also include financial requirements including a maximum leverage ratio of 3.50 to 1.00 and a minimum interest coverage ratio of 3.00 to 1.00. Cross default is applicable with the Prudential Agreement, the Project Bonds, the New York Life Agreement, and the Credit Agreement but only if the Company is defaulting on an obligation exceeding \$10.0 million. The Company was in compliance with all financial covenants as of June 30, 2018.

## **10. EARNINGS PER SHARE**

The Company calculates basic and diluted earnings per common share using the two-class method. Under the two-class method, net earnings are allocated to each class of common stock and participating security as if all of the net earnings for the period had been distributed. The Company's participating securities consist of share-based payment awards that contain a nonforfeitable right to receive dividends and therefore are considered to participate in undistributed earnings with common shareholders.

Basic earnings per common share excludes dilution and is calculated by dividing net earnings allocable to common shares by the weighted-average number of common shares outstanding for the period. Diluted earnings per common share is calculated by dividing net earnings allocated to common shares by the weighted-average number of common shares outstanding for the period, as adjusted for the potential dilutive effect of non-participating share-based awards.

The following table sets forth the computation of basic and diluted earnings per share:

(In millions, except per share amounts)	Second Quarter Ended		Six Months Ended

(1) This accumulated other comprehensive income/(loss) component is included in the computation of net periodic pension cost (refer to Note 7 for additional details) and is included in the "Other income/(expense), net" line of the Company's condensed consolidated statements of income.

(2) Net of tax expense of \$0.4 million and \$0.5 million for the six months ended June 30, 2018 and June 30, 2017, respectively.

Amounts related to noncontrolling interests were not material.

### **13. SEGMENT AND GEOGRAPHIC INFORMATION**

The accounting policies of the operating segments are the same as those described in Note 1 of the Company's Form 10-K. Revenue is recognized based on the invoice price at the point in time when the customer obtains control of the product, which is typically upon shipment to the customer. During the second quarter of 2017, as a result of acquisitions, the Company revised its reportable segments to include a Distribution segment. The Company realigned its internal and external reporting in accordance with the Company's revised organization and its review of performance. The Water and Fueling segments include manufacturing operations and supply certain components and finished goods, both between segments and to the Distribution segment. In the prior year, the Company reported certain product transfers between Water and Fueling as intersegment revenue. The Company is now reporting these product transfers between Water and Fueling as inventory transfers as a significant number of the Company's manufacturing facilities are shared across segments for scale and efficiency purposes. The Company continues to report intersegment transfers from Water to Distribution as intersegment revenue at market prices to properly reflect the commercial arrangement of vendor to customer that exists between the Water and Distribution segments. Segment operating income is a key financial performance measure. Operating income by segment is based on net sales less identifiable operating expenses and allocations and includes profits recorded on sales to other segments of the Company. The Company has retrospectively revised segment results in prior periods' to conform with current period presentations. There is no impact on the Company's previously reported consolidated financial position, results of operations, or cash flows.

Financial information by reportable business segment is included in the following summary:

**14. COMMITMENTS AND CONTINGENCIES**

The Company is defending various claims and legal actions which have arisen in the ordinary course of business. In the opinion of management, based on current knowledge of the facts and after discussion with counsel, these claims and legal actions can be defended or resolved without a material effect on the Company's financial position, results of operations, and net cash flows.

At June 30, 2018, the Company had \$5.2 million of commitments primarily for capital expenditures and purchase of raw materials to be used in production.

The Company provides warranties on most of its products. The warranty terms vary but are generally two years to five years from date of manufacture or one year to five years from date of installation. Provisions for estimated expenses related to product warranty are made at the time products are sold or when specific warranty issues are identified. These estimates are established using historical information about the nature, frequency, and average cost of warranty claims. The Company actively studies trends of warranty claims and takes actions to improve product quality and minimize warranty claims. The Company believes that the warranty reserve is appropriate; however, actual claims incurred could differ from the original estimates, requiring adjustments to the reserve.

The changes in the carrying amount of the warranty accrual, as recorded in the "Accrued expenses and other current liabilities" line of the Company's condensed consolidated balance sheet for the six months ended June 30, 2018, are as follows:

(In millions)

Balance as of December 31, 2017	\$9.5
Accruals related to product warranties	5.0
Additions related to acquisitions	0.1
Reductions for payments made	(5.2 )
Balance as of June 30, 2018	\$9.4

**15. SHARE-BASED COMPENSATION**

The Franklin Electric Co., Inc. 2017 Stock Plan (the "2017 Stock Plan") is a stock-based compensation plan that provides for discretionary grants of stock options, stock awards, stock unit awards, and stock appreciation rights ("SARs") to key employees and non-employee directors. The number of shares that may be issued under the Plan is 1,400,000. Stock options and SARs reduce the number of available shares by one share for each share subject to the option or SAR, and stock awards and stock unit awards settled in shares reduce the number of available shares by 1.5 shares for every one share delivered.

The Company also maintains the Franklin Electric Co., Inc. 2012 Stock Plan (the "2012 Stock Plan"), which is a stock-based compensation plan that provides for discretionary grants of stock options, stock awards, and stock unit awards to key employees and non-employee directors.

The 2012 Stock Plan authorized 2,400,000 shares for issuance as follows:

2012 Stock Plan	Authorized Shares
Stock Options	1,680,000
Stock/Stock Unit Awards	720,000

The Company also maintains the Amended and Restated Franklin Electric Co., Inc. Stock Plan (the "2009 Stock Plan") which, as amended in 2009, provided for discretionary grants of stock options and stock awards. The 2009

Stock Plan authorized 4,400,000 shares for issuance as follows:

2009 Stock Plan Authorized Shares

Stock Options 3,200,000

Stock Awards 1,200,000

All options in the 2009 Stock Plan have been awarded.

---

The Company currently issues new shares from its common stock balance to satisfy option exercises and the settlement of stock awards and stock unit awards made under the outstanding stock plans.

**Stock Options:**

The fair value of each option award is estimated on the date of grant using the Black-Scholes option valuation model with a single approach and amortized using a straight-line attribution method over the option's vesting period.

The assumptions used for the Black-Scholes model to determine the fair value of options granted during the six months ended June 30, 2018 and June 30, 2017 are as follows:

	June 30, 2018	June 30, 2017		
Risk-free interest rate	2.69	% 1.89	%	
Dividend yield	1.05	% 0.94	%	
Volatility factor	28.71	% 31.19	%	
Expected term	5.6 years	5.5 years		

A summary of the Company's outstanding stock option activity and related information for the six months ended June 30, 2018 is as follows:

(Shares in thousands)	June 30, 2018	
	Shares	Weighted-Average Exercise Price
Stock Options		
Outstanding at beginning of period	1,388	\$ 28.79

Expected to vest after applying forfeiture rate	1,522	\$ 30.92
Vested and exercisable at end of period	1,009	\$ 27.26

A summary of the weighted-average remaining contractual term and aggregate intrinsic value as of June 30, 2018 is as follows:

	Weighted-Average Remaining Contractual Term	Aggregate Intrinsic Value (000's)
Outstanding at end of period	5.84 years	\$ 21,753
Expected to vest after applying forfeiture rate	5.78 years	\$ 21,588
Vested and exercisable at end of period	4.28 years	\$ 17,999

The total intrinsic value of options exercised during the six months ended June 30, 2018 and June 30, 2017 was \$2.0 million and \$1.6 million, respectively.

As of June 30, 2018, there was \$2.3 million of total unrecognized compensation cost related to non-vested stock options granted under the 2012 Stock Plan and the 2009 Stock Plan. That cost is expected to be recognized over a weighted-average period of 2.81 years.

***Stock/Stock Unit Awards:***

A summary of the Company's restricted stock/stock unit award activity and related information for the sixth months ended June 30, 2018 is as follows:

(Shares in thousands)	June 30, 2018	
	Shares	Weighted-Average Grant- Date Fair Value
Restricted Stock/Stock Unit Awards		
Non-vested at beginning of period	463	\$ 36.71
Awarded	164	40.48
Vested	(82 )	40.97
Forfeited	(30 )	36.35
Non-vested at end of period	515	\$ 37.25

As of June 30, 2018, there was \$12.1 million of total unrecognized compensation cost related to non-vested restricted stock/stock unit awards granted under the 2012 Stock Plan and the 2009 Stock Plan. That cost is expected to be recognized over a weighted-average period of 2.53 years.

## 16. SUBSEQUENT EVENT

On July 30, 2018, the Company entered into the Second Amendment (the “Second Amendment”) to the New York Life Agreement. The Second Amendment to the New York Life Agreement reinstates the credit facility with an expiration date of July 30, 2021 and increases the maximum aggregate principal borrowing capacity from \$150.0 million to \$200.0 million. In addition, on July 30, 2018, the Company entered into Amendment No. 2 (“Amendment No. 2”) to the Prudential Agreement, which extended the term of the facility through July 30, 2021 and increased the total undrawn facility from \$100.0 million to \$150.0 million.

The material terms of the New York Life Agreement and Prudential Agreement are more fully described in Note 9 of this Quarterly Report on Form 10-Q and the foregoing description is qualified in its entirety by reference to the New York Life Agreement and the Prudential Agreement, copies of which are filed as [Exhibits 10.2 - 10.3] hereof and are incorporated herein by reference.

## ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

### *Second Quarter 2018 vs. Second Quarter 2017*

#### OVERVIEW

Sales in the second quarter of 2018 increased from the second quarter last year. The sales increase was led by acquisition related sales, as well as all three segments experienced sales increases from volume and price. The impact of foreign currency translation on sales was less than 1 percent. The Company's consolidated gross profit was \$116.1 million for the second quarter of 2018, an increase of \$13.3 million or about 13 percent from the prior year's second quarter. Earnings per share in the second quarter of 2018 were flat to the same period last year.

#### RESULTS OF OPERATIONS

##### *Net Sales*

Net sales in the second quarter of 2018 were \$344.0 million, an increase of \$38.7 million or about 13 percent compared to 2017 second quarter sales of \$305.3 million. Acquisition related sales were \$16.6 million. Sales revenue increased by \$0.9 million or less than 1 percent in the second quarter of 2018 due to foreign currency translation.

(In millions)	Net Sales		
	Q2 2018	Q2 2017	2018 v 2017
Water Systems	\$210.4	\$198.3	\$12.1
Fueling Systems	74.1	61.0	13.1
Distribution	79.5	59.1	20.4
Eliminations/Other	(20.0 )	(13.1 )	(6.9 )
Consolidated	\$344.0	\$305.3	\$38.7

##### *Net Sales-Water Systems*

Water Systems sales were \$210.4 million in the second quarter 2018, an increase of \$12.1 million or about 6 percent versus the second quarter 2017 sales of \$198.3 million. Water Systems sales were reduced by \$1.1 million or about 1 percent in the quarter due to foreign currency translation. Excluding foreign currency translation, Water Systems sales were up about 7 percent compared to the second quarter 2017.

Water Systems sales in the U.S. and Canada increased by about 13 percent compared to the second quarter 2017. The impact of foreign currency translation increased sales by about 1 percent. Sales of Pioneer branded dewatering equipment increased by over 70 percent in the second quarter when compared to the prior year due to strength in North American oil and gas markets and continued diversification of product sales channels and geographies. Sales of groundwater pumping equipment increased by about 11 percent on stronger residential and agricultural system sales primarily to the Headwater business units, versus the second quarter 2017. Sales of other surface pumping equipment were flat to the prior year.

Water Systems sales in markets outside the U.S. and Canada declined by 1 percent overall. The impact of foreign currency translation decreased sales by about 2 percent. Excluding the impact of foreign currency translation, Water Systems sales in markets outside the U.S. and Canada grew organically by 1 percent. International Water Systems sales improved in Europe, the Middle East, and Africa by 7 percent due to volume and price, but were offset by lower sales in Asia Pacific and Latin America when compared to the second quarter 2017. In Asia Pacific, the Company's sales in Korea declined due to an overall slowdown of the economic environment and strong first quarter sales; and in Thailand, sales were adversely impacted by declines in government funding for water related projects and by weather. In Brazil, the impact of a prolonged trucking strike in the second quarter significantly hurt the Company's ability to deliver product to its customers.

***Net Sales-Fueling Systems***

Fueling Systems sales were \$74.1 million in the second quarter 2018, an increase of \$13.1 million or about 21 percent versus the second quarter 2017 sales of \$61.0 million. Fueling Systems sales increased by \$2.0 million or about 3 percent in the quarter due to foreign currency translation. Fueling Systems organic sales increased about 18 percent compared to the second quarter of 2017.

Fueling Systems sales in the U.S. and Canada increased by about 7 percent compared to the second quarter 2017. The increase was broad based and included numerous product categories including fuel management, pumping, piping and containment systems. Outside the U.S. and Canada, Fueling Systems revenue grew by about 43 percent, led by stronger sales in China and Europe, partially offset by lower sales in India. China sales were \$12.7 million in the second quarter of 2018 compared to second quarter of 2017 Fueling Systems China sales of \$4.3 million.

### ***Net Sales-Distribution***

Distribution sales were \$79.5 million in the second quarter 2018, versus second quarter 2017 sales of \$59.1 million. In the second quarter of 2018, sales from businesses acquired since the second quarter of 2017 were \$16.6 million. The Distribution segment organic sales increased about 6 percent compared to the second quarter of 2017.

### ***Cost of Sales***

Cost of sales as a percent of net sales for both the second quarter of 2018 and 2017 was 66.3 percent.

Correspondingly, the gross profit margin was unchanged for both second quarters at 33.7 percent. The Company's consolidated gross profit was \$116.1 million for the second quarter of 2018, up \$13.3 million from the gross profit of \$102.8 million in the second quarter of 2017. The gross profit increase was primarily due to higher sales. In the second quarter, management believes realized selling price increases offset inflation.

### ***Selling, General, and Administrative (“SG&A”)***

Selling, general, and administrative (SG&A) expenses were \$75.0 million in the second quarter of 2018 compared to \$68.2 million in the second quarter of the prior year. The increase in SG&A expenses from acquired businesses was \$3.3 million. Excluding the acquired entities, the Company's SG&A expenses in the second quarter of 2018 were \$71.7 million, an increase of about 5 percent from the second quarter 2017, driven by an increase in research, development and engineering spending.

### ***Restructuring Expenses***

Restructuring expenses for the second quarter of 2018 were \$0.6 million, with \$0.4 million in the Water segment and \$0.2 in Fueling from continued miscellaneous manufacturing realignment activities in North America and India. Restructuring expenses for the second quarter of 2017 were \$0.3 million, primarily from continued Brazilian miscellaneous manufacturing realignment activities.

### ***Operating Income***

Operating income was \$40.5 million in the second quarter of 2018, up \$6.2 million or about 18 percent from \$34.3 million in the second quarter of 2017.

	Operating income (loss)		
(In millions)	Q2 2018	Q2 2017	2018 v 2017
Water Systems	\$32.3	\$32.8	\$(0.5)
Fueling Systems	18.9	14.9	4.0
Distribution	4.0	3.7	0.3
Eliminations/Other	(14.7 )	(17.1 )	2.4
Consolidated	\$40.5	\$34.3	\$6.2

### ***Operating Income-Water Systems***

Water Systems operating income was \$32.3 million in the second quarter 2018, down \$0.5 million or 2 percent versus the second quarter 2017 and operating income margin was 15.4 percent compared to the 16.5 percent in the second quarter 2017 primarily due to product and geographic sales mix shifts.

### ***Operating Income-Fueling Systems***

Fueling Systems operating income was \$18.9 million in the second quarter of 2018, up \$4.0 million or about 27 percent compared to \$14.9 million in the second quarter of 2017 and the second quarter operating income margin was 25.5 percent, an increase of 110 basis points from the 24.4 percent of net sales in the second quarter of 2017. The increase in operating income was primarily due to leverage on fixed cost from higher sales.

***Operating Income-Distribution***

Distribution operating income was \$4.0 million in the second quarter of 2018 and the second quarter operating income margin was 5.0 percent. Distribution operating income was \$3.7 million in the second quarter of 2017 and the second quarter

operating income margin was 6.3 percent. The increase in operating income is primarily related to acquisitions, while the decrease in operating income margin is due to higher SG&A expenses.

***Operating Income-Eliminations/Other***

Operating income-Eliminations/Other is composed primarily of inter-segment sales and profit eliminations and unallocated general and administrative expenses. The inter-segment profit elimination impact in the second quarter of 2018 was \$0.8 million. The intersegment elimination of operating income effectively defers the operating income on sales from Water Systems to Distribution in the consolidated financial results until such time as the transferred product is sold from the Distribution segment to its customer. General and administrative expenses were higher by \$0.1 million or less than 1 percent.

***Interest Expense***

Interest expense for the second quarter of 2018 and 2017 was \$2.6 million and \$2.2 million, respectively.

***Other Income or Expense***

Other income or expense was \$0 and \$5.6 million in the second quarter of 2018 and 2017, respectively. Included in other income in the second quarter of 2018 was interest income of \$0.2 million, primarily derived from the investment of cash balances in short-term. Included in other income in the second quarter of 2017 was a gain of \$4.8 million on the previously held equity investments in three Distribution entities acquired in the second quarter 2017. Also, included in other income in the second quarter of 2017 was minority income of \$0.1 million and interest income of \$0.3 million, primarily derived from the investment of cash balances in short-term securities.

***Foreign Exchange***

Foreign currency-based transactions produced a loss for the second quarter of 2018 of \$1.0 million, primarily due to the Mexican Peso relative to the U.S. dollar. Foreign currency-based transactions produced a loss for the second quarter of 2017 of \$0.3 million, due to movements in several currencies relative to the U.S. dollar, none of which individually were significant.

***Income Taxes***

The provision for income taxes in the second quarter of both 2018 and 2017 was \$6.9 million. The effective tax rate for the second quarter of 2018 was about 19 percent and, before the impact of discrete events, was about 21 percent. The effective tax rate for the second quarter of 2017 was about 19 percent; however, before the impact of discrete events, the tax rate was about 27 percent. Discrete events in the second quarter 2017 included the tax benefit on the non-taxable gain recorded on the previously held equity investments and the statute expiration on foreign uncertain tax positions. The tax rate as a percentage of pre-tax earnings for the full year of 2018 is projected to be about 20 percent, compared to the full year 2017 tax rate of about 25 percent, both before discrete adjustments. The decrease in the effective tax rate was primarily affected by the Tax Act, which reduced the U.S. federal corporate income tax rate from 35 percent to 21 percent effective January 1, 2018. The Company has estimated a provisional tax benefit for the full year 2018 of about \$3 million associated with the Foreign Derived Intangible Income provisions of the Tax Act that were effective for the first time during 2018.

***Net Income***

Net income for the second quarter of 2018 was \$30.0 million compared to the prior year second quarter net income of \$30.2 million. Net income attributable to Franklin Electric Co., Inc. for the second quarter of 2018 was \$30.5 million, or \$0.64 per diluted share, compared to the prior year second quarter net income attributable to Franklin Electric Co., Inc. of \$29.9 million or \$0.64 per diluted share.

***First Half of 2018 vs. First Half of 2017***

## **OVERVIEW**

Sales in the first half of 2018 were up from the same period last year. The sales increase was led by acquisition related sales, as well as volume and price increases from all three segments. The impact of foreign currency translation increased sales by about 2 percent. The Company's consolidated gross profit was \$215.1 million for the first half of 2018, an increase of \$36.5 million or about 20 percent from the first half of 2017. Earnings in the first half of 2018 were up from the same period last year.

## **RESULTS OF OPERATIONS**

### *Net Sales*

Net sales in the first half of 2018 were \$639.6 million, an increase of \$114.0 million or about 22 percent compared to 2017 first half sales of \$525.6 million. The incremental impact of sales from acquired businesses was \$72.8 million or 14 percent. Sales revenue increased by \$9.0 million or about 2 percent in the first half of 2018 due to foreign currency translation.

(In millions)	Net Sales		
	YTD	YTD	2018 v 2017
	June 30, 2018	June 30, 2017	
Water Systems	\$402.2	\$365.9	\$36.3

Distribution	135.7	59.1	76.6
Eliminations/Other	(31.8 )	(13.1 )	(18.7 )
Consolidated	\$639.6	\$525.6	\$114.0

### ***Net Sales-Water Systems***

Water Systems sales were \$402.2 million in the first half 2018, an increase of \$36.3 million or about 10 percent versus the first half 2017. Foreign currency translation changes increased sales \$4.9 million, or about 1 percent, compared to sales in the first half of 2017. The Water Systems sales change in the first half of 2018, excluding foreign currency translation, was an increase of \$31.4 million or about 9 percent.

Water Systems sales in the U.S. and Canada increased by about 20 percent compared to the first half of 2017. Sales revenue increased by \$1.7 million or about 1 percent in the first half of 2018 due to foreign currency translation. In the first half of 2018, sales of Pioneer branded dewatering equipment doubled when compared to the prior year due to strength in North American oil and gas markets and continued diversification of product sales channels and geographies. Sales of groundwater pumping equipment increased by about 19 percent on stronger residential and agricultural system sales primarily to the Headwater companies, versus the first half of 2017. Sales of other surface pumping equipment increased by 4 percent in part due to wet weather conditions in the upper Midwest and Canada. Water Systems sales in markets outside the U.S. and Canada increased by about 1 percent compared to the first half of 2017. Sales revenue increased by \$3.0 million or about 2 percent in the first half of 2018 due to foreign currency translation. International Water Systems sales improved in Europe, the Middle East and Africa by about 7 percent, but were more than offset by lower sales volumes in Asia Pacific and Brazil in the first half of 2018 compared to last year. Combined, sales in Latin America and Asia Pacific declined by about 7 percent. In Latin America, the sales decline was primarily in Brazil. The sales decline in Brazil was due to an overall slowdown of the economic environment and from the impact of a trucking strike that hurt the Company's ability to deliver product to its customers. In Asia Pacific, the Company's sales in Korea declined due to an overall slowdown of the economic environment; and in Thailand, sales were adversely impacted by declines in government funding for water related projects and by weather.

### ***Net Sales-Fueling Systems***

Fueling Systems sales were \$133.5 million in the first half 2018, an increase of \$19.8 million or about 17 percent from the first half of 2017. Foreign currency translation changes increased sales \$4.1 million or about 4 percent compared to sales in the first half of 2017. The Fueling Systems sales change in the first half of 2018, excluding foreign currency translation, was an increase of \$15.7 million or about 14 percent.

Fueling Systems sales in the U.S. and Canada grew by about 9 percent during the first half with most of the sales growth coming from fuel management systems and piping. Internationally, Fueling Systems revenues grew by about 30 percent led by stronger sales in China and Europe, partially offset by lower sales in India. China sales were \$20.7 million in the first half of 2018 compared to the first half of 2017 Fueling Systems China sales of \$8.3 million.

### ***Net Sales-Distribution***

Distribution sales were \$135.7 million in the first half of 2018, versus the first half of 2017 sales of \$59.1 million. The incremental impact of sales from acquired businesses was \$72.8 million. Distribution segment organic sales increased about 6 percent compared to the first half of 2017.

### ***Cost of Sales***

Cost of sales as a percent of net sales for the first half of 2018 and 2017 was 66.4 percent and 66.0 percent, respectively. Correspondingly, the gross profit margin was 33.6 percent and 34.0 percent, respectively. The Company's consolidated gross profit was \$215.1 million for the first half of 2018, up \$36.5 million from the gross profit of \$178.6 million in the first half of 2017. The gross profit increase was primarily due to higher sales. In the back half of the year, management expects there to be about 250 to 300 basis points of selling price increases, in part from announced pricing actions, and that these price increases will offset projected inflation, including tariffs.

***Selling, General, and Administrative (“SG&A”)***

Selling, general, and administrative expenses were \$151.2 million in the first half of 2018 and increased by \$26.0 million or 21 percent in the first half of 2018 compared to \$125.2 million the first half of last year. The increase in SG&A expenses from acquired businesses were \$21.0 million. Excluding the acquired entities, the Company’s SG&A expenses in the second quarter of 2018 increased by \$5.0 million or about 4 percent.

***Restructuring Expenses***

Restructuring expenses for the first half of 2018 were \$0.6 million. Restructuring expenses were \$0.4 million in the Water segment and \$0.2 in Fueling from continued miscellaneous manufacturing realignment activities. Restructuring expenses for the first half of 2017 were \$0.6 million, primarily from continued Brazilian miscellaneous manufacturing realignment activities.

***Operating Income***

Operating income was \$63.2 million in the first half of 2018, up \$10.4 million from \$52.8 million in the first half of 2017.

Eliminations/Other	(30.0 )	(31.0 )	1.0
Consolidated	\$63.2	\$52.8	\$10.4

***Operating Income-Water Systems***

Water Systems operating income was \$57.5 million in the first half of 2018 compared to \$54.2 million in the first half of 2017, an increase of 6 percent. The first half operating income margin was 14.3 percent and decreased by 50 basis points compared to the first half of 2017. Operating income margin decreased in Water Systems primarily due to product and geographic sales mix shifts.

***Operating Income-Fueling Systems***

Fueling Systems operating income was \$32.5 million in the first half of 2018 compared to \$25.9 million in the first half of 2017. The first half operating income margin was 24.3 percent compared to 22.8 percent of net sales in the first half of 2017, an increase of 150 basis points due to leverage on fixed cost from higher sales.

***Operating Income-Distribution***

Distribution operating income was \$3.2 million in the first half of 2018 and operating income margin was 2.4 percent. Distribution operating income was \$3.7 million in the first half of 2017 and operating income margin was 6.3 percent. The Distribution segment’s operations are seasonal and product sales are significantly slower during the fourth and first quarters, i.e., the winter months in North America. The 2017 first half results were not impacted by this seasonality as the acquisitions of the Distribution entities occurred during the second quarter of 2017.

***Operating Income-Eliminations/Other***

Operating income-Eliminations/Other is composed primarily of inter-segment sales and profit eliminations and unallocated general and administrative expenses. The inter-segment profit elimination impact in the first half of 2018

was \$1.4 million. The intersegment elimination of operating income effectively defers the operating income on sales from Water Systems to Distribution in the consolidated financial results until such time as the transferred product is sold from the Distribution segment to its end third party customer. General and administrative expenses were higher by \$0.9 million or about 3 percent to last year in the first half.

***Interest Expense***

Interest expense for the first half of 2018 and 2017 was \$5.0 million and \$5.8 million, respectively.

***Other Income or Expense***

30

---

Other income or expense was a loss of \$0.2 million in the first half of 2018. Included in other income in the first half of 2018 was interest income of \$0.3 million, primarily derived from the investment of cash balances in short-term securities. The first half of 2017 other income or expense was income of \$6.2 million. Included in other income in the first half of 2017 was a gain of \$4.8 million on the previously held equity investments in three Distribution entities. Also, included in other income in the first half of 2017 was minority income \$0.6 million and interest income of \$0.6 million, primarily derived from the investment of cash balances in short-term securities.

### ***Foreign Exchange***

Foreign currency-based transactions for the first half of 2018 was a loss of \$1.6 million due to movements in several currencies relative to the U.S. dollar, with the Mexican Peso and South African Rand being the most significant. Foreign currency-based transactions for the first half of 2017 was a gain \$0.1 million, due to movements in several currencies relative to the U.S. dollar, none of which individually were significant.

### ***Income Taxes***

The provision for income taxes in the first half of 2018 and 2017 was \$5.2 million and \$7.1 million, respectively. The effective tax rate for the first half of 2018 was about 9 percent and, before the impact of discrete events, was about 20 percent. The effective tax rate in the first half of 2017 was about 13 percent and, before the impact of discrete events, was about 27 percent. The Company estimates its effective tax rate for 2018 after discrete events will be 13 to 17 percent, or about 10 points lower than the effective tax rate of 25 percent in 2017. The lower tax rate before discrete events is primarily the result of the U.S. Tax Cuts and Jobs Act of 2017. Discrete events in the first half of 2018 include the release of a valuation allowance related to state net operating losses and incentives; and in 2017 included a realized foreign currency translation loss, the release of a valuation allowance related to foreign net operating losses and the recording of a tax benefit on a non-taxable gain recorded on the previously held equity investments.

### ***Net Income***

Net income for the first half of 2018 was \$51.3 million compared to 2017 first half net income of \$46.2 million. Net income attributable to Franklin Electric Co., Inc. for the first half of 2018 was \$51.7 million, or \$1.09 per diluted share, compared to 2017 first half net income attributable to Franklin Electric Co., Inc. of \$45.6 million or \$0.97 per diluted share.

## **CAPITAL RESOURCES AND LIQUIDITY**

### ***Sources of Liquidity***

The Company's primary sources of liquidity are cash on hand, cash flows from operations, revolving credit agreements, and long-term debt funds available. The Company believes its capital resources and liquidity position at June 30, 2018 is adequate to meet projected needs for the foreseeable future. The Company expects that ongoing requirements for operations, capital expenditures, pension obligations, dividends, share repurchases, and debt service will be adequately funded from cash on hand, operations, and exiting credit agreements.

As of June 30, 2018 the Company had \$300.0 million revolving credit facility. The facility is scheduled to mature on October 28, 2021. As of June 30, 2018, the Company had \$160.6 million borrowing capacity under the Credit Agreement as \$5.6 million in letters of commercial and standby letters of credit were outstanding and undrawn and \$133.8 million in revolver borrowings were drawn and outstanding which were primarily used for acquisition and working capital needs.

The Company also has other long-term debt borrowing outstanding as of June 30, 2018. See Note 9 - Debt for additional specifics regarding these obligations and future maturities.

At June 30, 2018, the Company had \$59.9 million of cash and cash equivalents held in foreign jurisdictions, which is intended to be used to fund foreign operations. There is currently no need to repatriate these funds in order to meet

domestic funding obligations or scheduled cash distributions.

***Cash Flows***

The following table summarizes significant sources and uses of cash and cash equivalents for the first six months of 2018 and 2017.

31

---

(in millions)	2018	2017
Net cash provided by (used in) operating activities	\$5.2	\$(12.5)
Net cash used in investing activities	(19.4)	(70.6 )
Net cash provided by financing activities	17.5	31.6
Impact of exchange rates on cash and cash equivalents	(0.5 )	2.3
Change in cash and cash equivalents	\$2.8	\$(49.2)

### ***Cash Flows Provided by (Used in) Operating Activities***

#### ***2018 vs. 2017***

Net cash provided by operating activities was \$5.2 million for the six months ended June 30, 2018 compared to \$12.5 million used in operating activities for the six months ended June 30, 2017. The increase in cash provided by operating activities was due to an increase in net income of about \$5 million, a reduction in other prepaid assets of about \$4 million and timing of payments and cash receipts related to working capital which resulted in more cash generated through the first half of 2018 than the same period of the prior year.

### ***Cash Flows Used in Investing Activities***

#### ***2018 vs. 2017***

Net cash used in investing activities was \$19.4 million for the six months ended June 30, 2018 compared to \$70.6 million in the six months ended June 30, 2017. The decrease in cash used in investing activities is primarily attributable to decreased acquisition activity and lower spending for property, plant and equipment during the current year.

### ***Cash Flows Provided by Financing Activities***

#### ***2018 vs. 2017***

Net cash provided by financing activities was \$17.5 million for the six months ended June 30, 2018 compared to \$31.6 million in the six months ended June 30, 2017 . The overall decrease in cash provided by financing activities was attributable to lower net borrowings of \$37 million in the current year compared to approximately \$47 million in the prior year along with increased stock repurchases of approximately \$9.2 million for the six months ended June 30, 2018.

## **FACTORS THAT MAY AFFECT FUTURE RESULTS**

This quarterly report on Form 10-Q contains certain forward-looking information, such as statements about the Company's financial goals, acquisition strategies, financial expectations including anticipated revenue or expense levels, business prospects, market positioning, product development, manufacturing re-alignment, capital expenditures, tax benefits and expenses, and the effect of contingencies or changes in accounting policies.

Forward-looking statements are typically identified by words or phrases such as "believe," "expect," "anticipate," "intend," "estimate," "may increase," "may fluctuate," "plan," "goal," "target," "strategy," and similar expressions or future or conditional verbs such as "may," "will," "should," "would," and "could." While the Company believes that the assumptions underlying such forward-looking statements are reasonable based on present conditions, forward-looking statements made by the Company involve risks and uncertainties and are not guarantees of future performance. Actual results may differ materially from those forward-looking statements as a result of various factors, including regional or general economic and currency conditions, various conditions specific to the Company's business and industry, new housing starts, weather conditions, market demand, competitive factors, changes in distribution channels, supply constraints, effect of price increases, raw material costs and availability, technology factors, integration of acquisitions, litigation, government and regulatory actions, the Company's accounting policies, and other risks, all as described in the Company's Securities and Exchange Commission filings, included in Part I, Item 1A of the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2017, and in Exhibit 99.1 thereto. Any forward-looking statements included in this Form 10-Q are based upon information presently available. The Company does not assume any obligation to update any forward-looking information, except as required by law.

### **ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK**

There have been no significant changes in the Company's exposure to market risk during the second quarter ended June 30, 2018. For additional information, refer to Part II, Item 7A of the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2017.

### **ITEM 4. CONTROLS AND PROCEDURES**

As of the end of the period covered by this report (the "Evaluation Date"), the Company carried out an evaluation, under the supervision and with the participation of the Company's management, including the Company's Chief Executive Officer and the Company's Chief Financial Officer, of the effectiveness of the design and operation of the Company's disclosure controls and procedures pursuant to Exchange Act Rules 13a-15. Based upon that evaluation, the Company's Chief Executive Officer and the Company's Chief Financial Officer concluded that, as of the Evaluation Date, the Company's disclosure controls and procedures were effective.

In the third quarter of 2016, the Company began the process of a multi-year implementation of a global enterprise resource planning ("ERP") system. The new ERP system was designed to better support the Company's business needs in response to the changing operating environment and for many business units within the Company is an update to a legacy system product. The implementation of a worldwide ERP system affects the processes that constitute the Company's internal control over financial reporting and requires testing for effectiveness as the implementation progresses. The Company expects that the new ERP system will enhance the overall system of internal controls over financial reporting through further automation and integration of business processes, although it is not being implemented in response to any identified deficiency in the Company's internal controls over financial reporting. The Conversion will happen in two stages. The first stage involved converting the primary legacy ERP system. As of the quarter ended, all business units previously on the primary legacy system have converted to the new ERP system. The second stage will convert those companies that remained on their local ERP system after the date of acquisition. The second stage is ongoing as of June 30, 2018.

Other than the ERP implementation, there have been no changes in the Company's internal control over financial reporting identified in connection with the evaluation required by Rules 13a-15 under the Exchange Act during the last fiscal quarter that have materially affected, or are reasonably likely to materially affect the Company's internal control over financial reporting.

**PART II - OTHER INFORMATION****ITEM 1A. RISK FACTORS**

Other than the update below, there have been no material changes to our risk factors as set forth in the Company's annual report on Form 10-K for the fiscal year ended December 31, 2017. Additional risks and uncertainties, not presently known to the Company or currently deemed immaterial, could negatively impact the Company's results of operations or financial condition in the future.

The risk factor update is as follows:

***The Company's operations are dependent on information technology infrastructure and failures, interruptions or security lapses could significantly affect its business.*** The Company depends on information technology infrastructure in order to achieve business objectives. If the Company experiences a problem that impairs this infrastructure, such as a computer virus, a problem with the functioning of an important IT application, or an intentional disruption of IT systems by a third party, the resulting disruptions could impede the Company's ability to record or process orders, manufacture and ship products in a timely manner, or otherwise carry on business in the ordinary course. Any such events could cause the loss of customers or revenue and could cause significant expense to be incurred to eliminate these problems and address related security concerns.

The Company is also subject to certain U.S. and international data protection and cybersecurity regulations. Complying with these laws may subject the Company to additional costs or require changes to the Company's business practices. Any inability to adequately address privacy and security concerns or comply with applicable privacy and data security laws, rules and regulations could expose the Company to potentially significant liabilities.

The Company is also in the process of updating its global Enterprise Resource Planning (ERP) system that will redesign and deploy a common information system over a period of several years. The process of implementation can be costly and can divert the attention of management from the day-to-day operations of the business. As the Company implements the ERP system, the new system may not perform as expected, which could have an adverse effect on the Company's results.

**ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS****(c) Issuer Repurchases of Equity Securities**

In April 2007, the Company's Board of Directors approved a plan to increase the number of shares remaining for repurchase from 628,692 to 2,300,000 shares. There is no expiration date for this plan. On August 3, 2015, the Company's Board of Directors approved a plan to increase the number of shares remaining for repurchase by an additional 3,000,000 shares. The authorization was in addition to the 535,107 shares that remained available for repurchase as of July 31, 2015. The Company repurchased 46,399 shares for approximately \$2 million under the plan during the second quarter of 2018. The maximum number of shares that may still be purchased under this plan as of June 30, 2018 is 1,928,341.
