Edgar Filing: DELTA & PINE LAND CO - Form 8-K

Item 1.01. Entry into a Material Definitive Agreement.

Attached and incorporated herein by reference as Exhibit 99.1 is a copy of a press release of Delta and Pine Land Company ("D&PL") dated July 3, 2006 announcing agreements entered into on June 30, 2006.

As described in the press release, D&PL entered into a series of licensing agreements with DuPont subsidiary Pioneer Hi-Bred International, Inc. Under the agreements, D&PL acquired several licenses, including DuPont's Optimum(TM) GAT(TM) herbicide tolerance technology for cotton and soybeans, enabling D&PL to enhance its leading product portfolio. Additionally, D&PL acquired licenses for other products developed by the DuPont biotechnology research program and certain enabling technologies for use in cotton, soybeans and other crops. D&PL and DuPont, through its subsidiary Pioneer Hi-Bred International, Inc., are partners in a joint venture, DeltaMax Cotton LLC, which was initially formed to develop and commercialize glyphosate tolerance technology in cotton. D&PL paid DuPont \$20.5 million for the licenses to these technologies. Technology fee sharing for the Optimum(TM) GAT(TM) technology for cotton is essentially consistent with the existing terms in the DeltaMax Collaboration agreement.

On June 30, 2006, D&PL also entered into a licensing agreement for soybean lines suitable for planting in the Southern U.S. soybean market through the involvement of GreenLeaf Genetics LLC.

Item 9.01. Financial Statements and Exhibits.

(d) Exhibits.

Exhibit No. -----	Description -----
99.1	Press Release dated July 3, 2006.
