Foreign Exchange Fluctuations and Risk Hedging

Note for readers of this English translation:

Except for the information set forth below, there was no significant change from the information presented in the Foreign Exchange Fluctuations and Risk Hedging section of the Annual Report on Form 20-F filed with the SEC on June 15, 2017. Although foreign exchange rates have fluctuated during the three-month period ended June 30, 2017, there has been no significant change in Sony’s risk hedging policy as described in the Annual Report on Form 20-F.

URL: The Annual Report on Form 20-F filed with the SEC on June 15, 2017

<https://www.sec.gov/Archives/edgar/data/313838/000119312517203939/d358485d20f.htm>

During the three months ended June 30, 2017, the average rates of the yen were 111.1 yen against the U.S. dollar, which is 2.7 percent lower than the same quarter of the previous fiscal year (“year-on-year”) and 122.1 yen against the euro, which remains unchanged year-on-year.

Edgar Filing: SONY CORP - Form 6-K

For the three months ended June 30, 2017, sales were 1,858.1 billion yen, an decrease of 15.2 percent year-on-year, while on a constant currency basis, sales decreased approximately 14 percent year-on-year. For references to information on a constant currency basis, see Note at the bottom of this section.

- 5 -

Consolidated operating income of 157.6 billion yen was recorded for the three months ended June 30, 2017, an increase of 101.4 billion yen year-on-year (an increase of approximately 100.0 billion yen year-on-year on a constant currency basis). Most of the foreign exchange rate impact was attributable to the Mobile Communications (“MC”), Game & Network Services (“G&NS”), Imaging Products & Solutions (“IP&S”), Home Entertainment & Sound (“HE&S”) and Semiconductors segments.

The table below indicates the impact of changes in foreign exchange rates on sales and operating results of each of the above-mentioned five segments. For a detailed analysis of segment performance, please refer to the “*Results of Operations*” section above, which discusses the impact of foreign exchange rates within each segment.

		(Billions of yen)		
		Impact of		
		Three months ended June 30		
		changes in foreign exchange rates		
		2016	2017	
MC	Sales	185.9	181.2	+1.1
	Operating income	0.4	3.6	+1.4
G&NS	Sales	330.4	348.1	+4.0
	Operating income	44.0	17.7	-2.4
IP&S	Sales	122.2	155.6	+1.4
	Operating income	7.5	23.2	-0.0
HE&S	Sales	235.9	256.9	+4.1
	Operating income	20.2	22.6	+0.2
Semiconductors	Sales	144.4	204.3	+4.3
	Operating income (loss)	(43.5)	55.4	+2.5

In addition, sales for the Pictures segment increased 12.3 percent year-on-year to 205.8 billion yen, an approximately 9 percent increase on a constant currency (U.S. dollar) basis. In the Music segment, sales increased 18.8 percent year-on-year to 168.6 billion yen, an approximately 17 percent increase on a constant currency basis. As most of the operations in Sony’s Financial Services segment are based in Japan, Sony’s management analyzes the performance of the Financial Services segment on a yen basis only.

Note: In this section, the impact of foreign exchange rate fluctuations on sales is calculated by applying the change in the yen’s quarterly weighted average exchange rate for the three months ended June 30, 2016 from the three months ended June 30, 2017 to the major transactional currencies in which the sales are denominated. The impact of foreign exchange rate fluctuations on operating income (loss) described herein is calculated by subtracting from the impact on sales the impact on cost of sales and selling, general and administrative expenses calculated by applying the same major transactional currencies calculation process to cost of sales and selling, general and administrative expenses as for the impact on sales. Additionally, the MC segment enters into its own foreign exchange hedging transactions. The

impact of those transactions is included in the impact of foreign exchange rate fluctuations on operating income (loss) for that segment. The descriptions of sales on a constant currency basis reflects sales obtained by applying the yen's monthly average exchange rates from the three months ended June 30, 2016 to local currency-denominated monthly sales in the three months ended June 30, 2017. In the Pictures segment as well as Sony Music Entertainment and Sony/ATV Music Publishing LLC in the Music segment, the constant currency amounts are aggregated on a U.S. dollar basis. This information is not a substitute for Sony's consolidated financial statements measured in accordance with U.S. GAAP. However, Sony believes that these disclosures provide additional useful analytical information to investors regarding the operating performance of Sony.

Sony typically raises funds through straight bonds, CP programs and bank loans (including syndicated loans). If market disruption and volatility occur and Sony could not raise sufficient funds from these sources, Sony may also draw down funds from contractually committed lines of credit from various financial institutions. Sony has a total, translated into yen, of 526.8 billion yen in unused committed lines of credit, as of June 30, 2017. Details of those committed lines of credit are: a 300.0 billion yen committed line of credit contracted with a syndicate of Japanese banks, effective until July 2019, a 1.5 billion U.S. dollar multi-currency committed line of credit also with a syndicate of Japanese banks, effective until December 2018, and a 525 million U.S. dollar multi-currency committed line of credit contracted with a syndicate of foreign banks, effective until March 2018, in all of which Sony Corporation and Sony Global Treasury Services Plc are defined as borrowers. Notes to Consolidated Financial Statements (Unaudited)

Sony Corporation and Consolidated Subsidiaries

1. Summary of significant accounting policies

The accompanying consolidated financial statements are presented in accordance with accounting principles generally accepted in the United States of America (“U.S. GAAP”), except for certain disclosures required by U.S. GAAP for interim periods which have been omitted. Certain adjustments and reclassifications have been incorporated in the accompanying consolidated financial statements to conform with U.S. GAAP. These adjustments were not recorded in the statutory books and records as Sony Corporation and its subsidiaries in Japan maintain their records and prepare their statutory financial statements in accordance with accounting principles generally accepted in Japan while its foreign subsidiaries maintain their records and prepare their financial statements in conformity with accounting principles generally accepted in the countries of their domiciles.

(1) Accounting methods used specifically for interim consolidated financial statements:

Income Taxes -

Sony estimates the annual effective tax rate (“ETR”) derived from a projected annual net income before taxes and calculates the interim period income tax provision based on the year-to-date income tax provision computed by applying the ETR to the year-to-date net income before taxes at the end of each interim period. The income tax provision based on the ETR reflects anticipated income tax credits and net operating loss carryforwards; however, it excludes the income tax provision related to significant unusual or extraordinary transactions. Such income tax provision is separately reported from the provision based on the ETR in the interim period in which it occurs.

(2) Reclassifications:

Certain reclassifications of the financial statements and accompanying footnotes for the three months ended June 30, 2016 have been made to conform to the presentation for the three months ended June 30, 2017.

2. Marketable securities and securities investments

6. Sale of equity interest in Sony Electronics Huanan Co., Ltd.

On April 1, 2017, Sony transferred all of the equity interest in Sony Electronics Huanan Co., Ltd. ("SEH"), a wholly-owned subsidiary in the Semiconductors segment that manufactures camera modules, to Shen Zhen O-Film Tech Co., Ltd. The consideration for the transfer was approximately 234 million U.S. dollars, including the assumption of SEH's debt and the sales price of approximately 95 million U.S. dollars, all of which is subject to customary post-closing adjustments. As the result of the transfer, Sony recognized a gain on transfer totaling 27,529 million yen in other operating (income) expense, net in the consolidated statement of income for the three months ended June 30, 2017.

7. Commitments, contingent liabilities and other

(1) Loan commitments

Subsidiaries in the Financial Services segment have entered into loan agreements with their customers in accordance with the condition of the contracts. As of June 30, 2017, the total unused portion of the lines of credit extended under these contracts was 31,771 million yen. The aggregate amounts of future year-by-year payments for these loan commitments cannot be determined.

(2) Purchase commitments and other

Purchase commitments and other outstanding commitments as of June 30, 2017 amounted to 346,118 million yen. The major components of these commitments are as follows:

Certain subsidiaries in the Pictures segment have entered into agreements with creative talent for the development and production of motion pictures and television programming as well as agreements with third parties to acquire completed motion pictures, or certain rights therein, and to acquire the rights to broadcast certain live action sporting events. These agreements cover various periods mainly within two years. As of June 30, 2017, these subsidiaries were committed to make payments under such contracts of 129,142 million yen.

(3) Litigation

Beginning in 2009, the U.S. Department of Justice (“DOJ”), the European Commission and certain other governmental agencies outside the United States have conducted investigations relating to competition in the optical disk drives market. Sony Corporation and/or certain of its subsidiaries have been subject to these investigations. Sony understands that the investigations of several agencies, including the DOJ, have ended, and only one agency continues to investigate. However, proceedings initiated by the European Commission as a result of its investigation continue. In October 2015, the European Commission adopted a decision in which it fined Sony Corporation and certain of its subsidiaries 31 million euros; however, Sony filed an appeal against the decision with the European Union’s General Court. In addition, a number of direct and indirect purchaser lawsuits, including class actions, have been filed in certain jurisdictions in which the plaintiffs allege that Sony Corporation and certain of its subsidiaries violated antitrust laws and seek recovery of damages and other remedies. Certain of these lawsuits have been settled, including the class actions brought by the direct and indirect purchasers in the United States; however, certain other lawsuits continue. Based on the stage of the pending proceedings, it is not possible to estimate the amount of losses or range of possible losses, if any, that might ultimately result from adverse judgments, settlements or other resolution of all of these matters.

Beginning in 2011, the DOJ, the European Commission and certain other governmental agencies outside the United States conducted investigations relating to competition in the secondary batteries market. Sony Corporation and/or certain of its subsidiaries were subject to these investigations. Sony understands that the investigations by these agencies, including the DOJ and the European Commission, have ended or are no longer active. With respect to the investigation by the European Commission, in December 2016, Sony and certain of its subsidiaries reached a settlement with the European Commission to pay a fine of approximately 29.8 million euros. In addition, a number of direct and indirect purchaser lawsuits, including class actions, have been filed in certain jurisdictions in which the plaintiffs allege that Sony Corporation and certain of its subsidiaries violated antitrust laws and seek recovery of damages and other remedies. Certain of these lawsuits have been settled, including the class actions brought by the direct and indirect purchasers in the United States; however, certain other lawsuits continue. Based on the stage of the pending proceedings, it is not possible to estimate the amount of losses or range of possible losses, if any, that might ultimately result from adverse judgments, settlements or other resolution of all of these matters.

In addition, Sony Corporation and certain of its subsidiaries are defendants or otherwise involved in other pending legal and regulatory proceedings. However, based upon the information currently available, Sony believes that the outcome from such legal and regulatory proceedings would not have a material impact on Sony’s results of operations and financial position.

(4) Guarantees

Sony has issued guarantees that contingently require payments to guaranteed parties if certain specified events or conditions occur. The maximum potential amount of future payments under these guarantees as of June 30, 2017 amounted to 3,457 million yen.
