RoboGroup engages in three business sectors. The first focuses on new high tech ventures such as e-learning and MemCall, a fabless VLSI semiconductor developer with unique Call Out Memory(TM) technology for Internet and communications applications in need of intensive Search and Filter capabilities. The second is comprised of Yaskawa Eshed Technology (YET), a joint venture with Japan's Yaskawa Electric Corp., which provides industrial motion controls, particularly those based on its patented algorithms. The third sector is devoted to RoboGroup's training products. RoboGroup is a world leader in engineering and manufacturing technology training systems. The Company is market driven, deriving its growth from technological leadership, strong partnerships and management expertise. For more information, visit <http://www.robogroup.com>.

To the extent that this press release discusses expectations about market conditions or about market acceptance and future sales of the Company's products, or otherwise makes statements about the future, such statements are forward-looking and are subject to a number of risks and uncertainties that could cause results to differ materially from the statements made. These factors include the rapidly changing technology and evolving standards in the industries in which the Company and its subsidiaries operate, risks associated with the acceptance of new products by individual customers and by the market place and other factors discussed in the business description and management discussion and analysis sections of the Company's Annual Report on Form F-20.
