PROXY STATEMENT

July 12, 2002

The accompanying proxy is solicited on behalf of the board of directors of Adaptec, Inc., a Delaware corporation, for use at the 2002 Annual Stockholders Meeting to be held at our principal executive offices located at 691 South Milpitas Boulevard, Milpitas, California 95035 on Thursday, August 22, 2002 at 10:00 a.m., local time. This proxy statement and the accompanying form of proxy were first mailed to stockholders on or about July 12, 2002. Our Annual Report for fiscal year 2002 is enclosed with this proxy statement.

Record Date; Quorum

Only holders of record of common stock at the close of business on June 24, 2002 will be entitled to vote at the meeting. At the close of business on the record date, we had 106,507,406 shares of common stock outstanding and entitled to vote.

Edgar Filing: ADAPTEC INC - Form DEF 14A

A majority of the shares outstanding on the record date, present in person or represented by proxy, will constitute a quorum for the transaction of business at the meeting. Abstentions and broker non-votes, which are the votes of shares held of record by brokers as to which the underlying beneficial owners have given no voting instructions, will be counted for purposes of determining the presence or absence of a quorum for the transaction of business at the meeting.

Voting Rights; Required Vote

Stockholders are entitled to one vote for each share of common stock held as of the record date. Directors will be elected by a plurality of the shares of common stock present in person or represented by proxy at the meeting and entitled to vote on the election of directors. Stockholders do not have the right to cumulate their votes in the election of directors. Negative votes will not affect the outcome of the election of directors. Approval of proposal No. 2 ratifying the appointment of PricewaterhouseCoopers LLP as our independent accountants for the fiscal year ending March 31, 2003 requires the affirmative vote of the holders of a majority of the shares entitled to vote that are present in person or represented by proxy at the meeting and are voted for or against the proposal. Abstentions and broker non-votes will not affect the outcome of the vote on either of the proposals. The inspector of elections appointed for the meeting will separately tabulate affirmative and negative votes, abstentions and broker non-votes for each proposal.

Voting of Proxies

Please complete, date and sign the proxy card sent with this proxy statement and promptly return it in the enclosed envelope or at the meeting. All signed, returned proxy cards that are not revoked will be voted in accordance with the specifications made on the proxy card. If no specification is made, the shares represented by the proxy will be voted "for" each proposal, including "for" the election to the board of each of the nominees named on the proxy card, and "for" any other matter that may be properly brought before the meeting.

Adjournment of Meeting

If a quorum is not present in order to transact business at the meeting or if we do not receive sufficient votes in favor of the proposals by the date of the meeting, the persons named as proxies may propose one or more adjournments of the meeting to permit solicitation of proxies. Any adjournment would require the affirmative vote of a majority of the shares present in person or represented by proxy at the meeting.

1

Expenses of Soliciting Proxies

We will pay the expenses of soliciting proxies for the meeting. After the original mailing of the proxies and other soliciting materials, we and/or our agents may also solicit proxies by mail, telephone, telegraph, facsimile, email or in person. After the original mailing of the proxies and other soliciting materials, we will request that brokers, custodians, nominees and other record holders of our common stock forward copies of the proxy and other soliciting materials to persons for whom they hold shares and request authority for the exercise of proxies. We will reimburse the record holders for their reasonable expenses if they ask us to do so.

Revocability of Proxies

Any person signing a proxy in the form accompanying this proxy statement has the power to revoke it at any time before it is voted. A proxy may be revoked by signing and returning a proxy with a later date, by delivering a written notice of revocation to Mellon Investor Services, Proxy Processing, P.O. Box 3829, S. Hackensack, NJ 07606-9529 (registered holders), that the proxy is revoked or by attending the meeting and voting in person. The mere presence at the meeting of a stockholder who has appointed a proxy will not revoke the prior appointment. Please note, however, that if a stockholder's shares are held of record by a broker, bank or other nominee and that stockholder wishes to vote at the meeting, the stockholder must bring to the meeting a letter from the broker, bank or other nominee confirming the stockholder's beneficial ownership of the shares and that the broker, bank or other nominee is not voting the shares at the meeting.

2

PROPOSAL NO. 1 ELECTION OF DIRECTORS

A board of nine directors is to be elected at the 2002 Annual Stockholders Meeting. Unless otherwise instructed, the proxy holders will vote the proxies received by them for the nine nominees named below, all of whom are presently our directors.

Edgar Filing: ADAPTEC INC - Form DEF 14A

Proxies cannot be voted for a greater number of persons than the number of nominees named. If any nominee for any reason is unable to serve or for good cause will not serve, the proxies may be voted for such substitute nominee as the proxy holder may determine. We are not aware of any nominee who will be unable to or for good cause will not serve as a director. If additional persons are nominated for election as directors, the proxy holders intend to vote all proxies received by them in such manner as will assure the election of as many of the nominees listed below as possible. In this event, the specific nominees to be voted for will be determined by the proxy holders. The term of office of each person elected as a director will continue until the next annual meeting of our stockholders or until his or her successor has been elected and qualified.

PRINCIPAL STOCKHOLDERS

Edgar Filing: ADAPTEC INC - Form DEF 14A

The following table presents information about the beneficial ownership of our common stock as of May 31, 2002 by:

each of our directors;

each executive officer named in the Summary Compensation Table below; and

all directors and executive officers as a group.

The percentage of beneficial ownership for the table is based on approximately 106,479,285 shares of our common stock outstanding as of May 31, 2002. To our knowledge, except under community property laws or as otherwise noted, the persons and entities named in the table have sole voting and sole investment power over their shares of our common stock. Each person listed below maintains a mailing address of c/o Adaptec, Inc., 691 South Milpitas Boulevard, Milpitas, California 95035.

The number of shares beneficially owned by each stockholder is determined under the rules of the Securities and Exchange Commission and is not necessarily indicative of beneficial ownership for any other purpose. Under these rules, beneficial ownership includes those shares of common stock over which the stockholder has sole or shared voting or investment power. It also includes shares of common stock that the stockholder has the right to acquire within 60 days after May 31, 2002 through the exercise of any stock option. The percentage ownership of the common stock, however, is based on the assumption, required by the rules of the Securities and Exchange Commission, that only the person whose ownership is being reported has exercised stock options into shares of our common stock. We are not aware of any person or entity that is the beneficial owner of 5% or more of our common stock.

- (5) Includes stock options that were granted on December 27, 2001 in connection with our Grant Program. The Grant Program allowed our employees, including executive officers and employee directors, to cancel certain options in exchange for the right to receive new options no sooner than December 22, 2001. See "Report on Executive Compensation Stock Option Exchange Program".

Option Grants in Fiscal 2002

The following table sets forth grants of stock options made during fiscal 2002 to the executive officers named in the Summary Compensation Table.

Potential realizable values are calculated by:

Multiplying the number of shares of common stock subject to a given option by the exercise price per share of our common stock on the date of grant;

Assuming that the aggregate option exercise price derived from that calculation compounds at the annual 5% or 10% rates shown in the table for the entire ten-year term of the option; and

Subtracting from that result the aggregate option exercise price.

The 5% and 10% assumed annual rates of stock price appreciation are required by the rules of the Securities and Exchange Commission and do not reflect our estimate or projections of future stock price growth.

The percentage of total options granted to employees in the last fiscal year is based on options to purchase an aggregate of 9,550,050 shares of common stock granted to employees during fiscal 2002. The options shown in the table were granted under our 1999 Stock Plan. These options were granted at fair market value, are primarily nonqualified stock options, are not transferable by the optionee (other than by will or the laws of descent and distribution) and will expire ten years from the date of grant. The options become exercisable at the rate of 12.5% of the shares subject to the option six months after the date of grant and at the rate of 6.25% of the shares subject to the option at the end of each of the next 14 quarters, such that the option becomes fully vested after four years. To the extent exercisable at the time of employment termination, options may be exercised for an additional three months unless termination is the result of total and permanent disability, in which case the options may be exercised within six months following termination, or unless termination is the result of death, in which case all unvested options become vested and all of the individual's outstanding options may be exercisable by the individual's estate or other successor for a period of six months measured from the date of death. Options are subject to earlier termination upon termination of the option holder's employment.

Option Exercises

The following table presents the number of shares acquired and the value realized upon exercise of stock options during fiscal 2002 by the executive officers named in the Summary Compensation Table. The table includes the number of shares covered by both exercisable and unexercisable stock options as of March 31, 2002. Also reported are values of "in-the-money" options that represent the positive difference between the exercise price of the outstanding stock option and the fair market value of the shares subject to the option at fiscal year end. The fair market value is based on \$13.37 per share, which was the closing price of our common stock as reported on the Nasdaq National Market on March 30, 2002, the last day of trading for fiscal 2002. These values, unlike the amounts in the column entitled "Value Realized," have not been, and may never be, realized.

Change in Control and Other Separation Arrangements

Under our 1990 Stock Plan, 1999 Stock Plan and 2000 Nonstatutory Stock Option Plan, in the event of a Change in Control, any Options or Rights (as such terms are defined in these plans) outstanding upon the date of such Change in Control shall have their vesting accelerated as to an additional 25% of the shares subject to such Options or Rights as of the date of such Change in Control. In the event an optionee is Involuntarily Terminated Without Cause (as defined in these plans) within 12 months following a Change in Control, any Options or Rights outstanding upon such Change in Control that are not yet exercisable and vested on such date shall become 100% exercisable and vested. Such vesting acceleration may cause part or all of the consideration involved to be treated as a "parachute payment" under the Internal Revenue Code of 1986, which may subject the recipient thereof to a 20% excise tax and which may not be deductible by the participant's employer.

Robert L. Schultz, Jr., our former Chief Operating Officer, resigned his employment effective June 28, 2002. In connection with his termination of employment, we have entered into a separation agreement with Mr. Schultz. Pursuant to the terms of the separation agreement, we have agreed to pay Mr. Schultz one year of salary, which is equal to \$400,000, extend the exercisability of his the stock options that were vested under the stock option granted to Mr. Schultz on December 27, 2001 through December 31, 2002., continue his medical benefits for one year and provide him with outplacement services. In addition, the terms of the separation agreement with Mr. Schultz includes a non-compete employment provision through January 1, 2003.

COMPENSATION COMMITTEE INTERLOCKS AND INSIDER PARTICIPATION

The Compensation Committee currently consists of John C. East and Victoria L. Cotten, neither of whom has any interlocking relationships, as defined by the Securities and Exchange Commission.

REPORT ON EXECUTIVE COMPENSATION

Overview and Philosophy

This report on executive compensation is required by the Securities and Exchange Commission. It shall not be deemed to be incorporated by reference by any general statement incorporating this proxy statement by reference into any filing under the Securities Act or under the Securities Exchange Act, except to the extent that we specifically incorporate this information by reference. Also, it shall not otherwise be deemed soliciting material or filed under these Acts.

The Compensation Committee of the board of directors regularly reviews and approves all executive officer pay plans. These include the following compensation elements: base salaries, annual incentives, stock options and various benefit plans.

The Compensation Committee is composed of two independent directors, each of whom is a non-employee director within the meaning of Section 16 of the Securities Exchange Act and an outside director within the meaning of Section 162(m) of the Internal Revenue Code. It is the Compensation Committee's objective that executive compensation be directly related to our achievement of our business goals. Specifically, our executive compensation program is designed to reward exceptional executive contribution and performance that result in enhanced corporate, economic and stockholder values over the short and long-term.

The Compensation Committee retains independent compensation consultants to provide objective and expert advice in the review of all executive compensation plans. Published industry pay survey data is also reviewed and relied upon in the Compensation Committee's assessment of appropriate total compensation levels, including compensation reports for high technology industries and data from a comparable group of companies supplied by the committee's compensation consultant.

The Compensation Committee recognizes that the industry sector and geographical areas in which we operate are both intensely competitive and are continuing to undergo rapid globalization with the result that there is heightened demand for qualified, experienced executive personnel. The Compensation Committee considers it crucial that we be assured of retaining and rewarding our top-caliber executives who are essential to the attainment of our ambitious, long-term, strategic goals.

For these reasons, the Compensation Committee believes our executive compensation arrangements must remain competitive with those offered by other higher performing companies of similar size, scope, performance levels and complexity of operations.

Annual Cash Compensation (Base Salary, Plus Performance Incentives)

The Compensation Committee believes that annual cash compensation should be paid commensurate with attained performance to plan. For these reasons, our executive cash compensation consists of base compensation (salary) and variable incentive compensation (annual bonus).

Base salaries for executive officers are established considering a number of factors, including our planned profitable growth; the executive's individual performance and measurable contribution to our success; and pay levels of similar positions with comparable companies in our industry. The Compensation Committee supports our compensation philosophy of moderation for elements such as base salary and benefits. Base salary decisions are made as part of our formal annual review process. Generally, base salaries are maintained at approximately the level of the median salaries of similar, high-technology companies.

Under the Executive Incentive Plan, an executive's incentive performance award generally depends on three performance factors: our overall financial performance; the performance of the business unit or corporate unit/functions for which the executive is accountable; and the executive's individual performance. Our performance objectives and those of the business unit or corporate function derive from the board-approved annual business plan that includes specific financial performance targets relating to revenue and profit growth for the fiscal year. The Executive Incentive Plan provides no payment until threshold revenue and earnings targets are met. Long-term strategic goals may also be incorporated for certain executives. Individual executive performance is measured against an annual incentive target that represents a percentage of base salary that the executive can earn as bonus compensation if performance warrants. The incentive target is set at a higher percentage for more senior officers, with the result that the more senior executive officers have a higher percentage of their potential total cash compensation at risk. If business plans are exceeded, executives can earn additional amounts above the established target levels. The Compensation Committee annually reviews and approves specific targets, maximums, and performance criteria for each executive officer.

Long-term Incentive: Stock Options

The Compensation Committee approves executive stock options under the 1999 Stock Plan to foster executive officer ownership, to stimulate a long-term orientation in decisions and to provide direct linkage with stockholder interests. The Compensation Committee considers the total compensation package, options previously granted, dilution effects, industry practices and trends, the executive's accountability level, and future potential stock values when granting stock options. The Compensation Committee recommends option grant amounts to provide retention considering projected earnings to be derived from option gains based upon relatively aggressive assumptions related to our growth in revenue and earnings. In this manner, executive option gains closely parallel those of other stockholders. Therefore, the stock option program serves as an effective, cost-efficient and competitive long-term incentive and retention tool for our executives, as well as other employees. The exercise prices of stock options granted to executive officers are equal to the fair market value of the stock on the date of grant. The Compensation Committee believes that our stock option plan has been administered in a manner comparable to our peer group and other high performing companies in the high technology sector.

Stock Option Exchange Program

On May 22, 2001, we announced a voluntary stock option exchange program for our employees, or the Grant Program. The compensation committee approved the Grant Program because it determined the Grant Program to be desirable to incentivize and retain employees and in the best interests of us and our stockholders. Under the Grant Program, our employees could elect to cancel their outstanding options to purchase shares of our common stock having an exercise price greater than \$15.00 per share under the 2000 Nonstatutory Stock Option Plan, the 1999 Stock Plan and the 1990 Stock Plan, in exchange for an equal number of new nonqualified stock options. In addition, employees that elected to participate in the Grant Program were required to exchange all stock options granted to them on or after December 20, 2000, even if those options had an exercise price of \$15.00 per share or less. The election was completed on June 21, 2001, and approximately 1,400 employees, including some of our executive officers, cancelled options to purchase approximately 7.6 million shares of our common stock with exercise prices ranging from \$8.87 to \$59.13 per share. All shares of our common stock subject to stock options that were cancelled in connection with the Grant Program were retired from our stock option pool and are not available for future option grants. The Grant Program was not available to our non-employee directors.

On December 27, 2001, the Replacement Grant Date, we granted options to purchase approximately 6.9 million shares of our common stock to 1,191 employees. Employees that participated in the Grant Program who were no longer employed by us as of December 27, 2001 were not eligible to receive new stock option grants under either the 2000 Nonstatutory Stock Plan or the 1999 Stock Plan. The exercise

price of each of these new stock options was \$15.29, representing the closing market price of our common stock on the Nasdaq National Market on the day before the Replacement Grant Date. The new stock options have a new ten-year term, and, as of the Replacement Grant Date, were vested to the same degree that the cancelled stock were vested as of June 21, 2001. The unvested portion of the new stock options will vest in equal installments on a quarterly basis over the two years following the Replacement Grant Date.

The following table presents, for each of the executive officers named in the Summary Compensation Table, the number of shares of common stock subject to stock options awarded in connection with the Grant Program, the market price of our common stock at the time of cancellation, the exercise price at the time of cancellation, the exercise price of the new options, and the length of the original option term remaining at the time of cancellation.

Chief Executive Officer Performance and Compensation

In setting Mr. Stephens' base salary for the fiscal year ended March 31, 2002, the Compensation Committee considered our overall business performance for the fiscal year ended March 31, 2001, as well as our market capitalization improvement. Mr. Stephens did not receive a cash bonus for the fiscal year ended March 31, 2002.

The Compensation Committee determines the number of shares of common stock underlying stock options granted to Mr. Stephens after analyzing stock option grants made to chief executive officers of comparable companies, retention effectiveness and the number of stock options previously granted to Mr. Stephens.

Compliance with Section 162(m) of the Internal Revenue Code

Certain types of compensation are deductible for us under Section 162(m) of the Internal Revenue Code of 1986 only if performance criteria are specified in detail, and payments are contingent on stockholder approval of the compensation arrangement. The 1999 Stock Option Plan complies with the requirements of Section 162(m). In addition, because we did not pay cash compensation in excess of \$1,000,000 to any of our executive officers during fiscal 2002, such cash compensation will be tax-deductible under Section 162(m). However, since corporate objectives may not always be consistent with the requirements for full deductibility, it is conceivable that we may enter into compensation arrangements in the future under which payments are not deductible under Section 162(m).

REPORT OF THE AUDIT COMMITTEE

The following is the Report of the Audit Committee with respect to our audited financial statements for our fiscal year ended March 31, 2002. The material in this report is not "soliciting material," is not deemed filed with the Securities and Exchange Commission and is not to be incorporated by reference in any of our filings under the Securities Act of 1933 or the Securities Exchange Act of 1934, whether made before or after the date of this proxy statement and irrespective of any general incorporation language in any filings.

The Audit Committee's purpose is to assist the board of directors in its oversight of our financial accounting, reporting and controls. The board of directors, in its business judgment, has determined that all members of the committee are "independent" as required by the listing standards of the Nasdaq National Market. The committee operates under a charter, which was formally adopted by the board of directors in June 2000 and most recently updated in June 2002.

Management is responsible for the preparation, presentation and integrity of our financial statements, accounting and financial reporting principles, and internal controls and procedures designed to assure compliance with accounting standards and applicable laws and regulations. Our independent accountants, PricewaterhouseCoopers LLP, are responsible for performing an independent audit of the consolidated financial statements in accordance with auditing standards generally accepted in the United States of America. The Audit Committee is responsible for providing oversight and monitoring of management and the independent accountants and their activities with respect to our financial reporting process and systems of internal control. The Audit Committee discussed with our independent accountants the overall scope and plans for the audit. The Audit Committee met with the independent accountants, with and without management present, to discuss the results of their examinations, their evaluations of our internal controls and the overall quality of our financial reporting.

In performing its oversight role, the Audit Committee reviewed and discussed the audited financial statements with management and the independent accountants. The committee also discussed with the independent accountants the matters required to be discussed by Statement of Auditing Standards No. 61, *Communication with Audit Committees*. The committee received the written disclosures and the letter from the independent accountants required by Independence Standards Board Standard No. 1, *Independence Discussions with Audit Committees*. The committee also considered whether the provision of non-audit services by the independent accountants is compatible with maintaining the accountants' independence and has discussed with the accountants the accountants' independence. Based on the review and discussions described in this report, and subject to the limitations on the role and responsibilities of the committee referred to below and in its charter, the Audit Committee recommended that the audited financial statements be included in the Annual Report on Form 10-K for the fiscal year ended March 31,

2002. The Audit Committee and the board of directors also recommended, subject to stockholder approval, the selection of PricewaterhouseCoopers LLP as independent accountants.

The members of the Audit Committee are not professionally engaged in the practice of auditing or accounting and are not experts in the fields of accounting or auditing, including in respect of auditor independence. Members of the committee rely without independent verification on the information provided to them and on the representations made by management and the independent accountants. Accordingly, the Audit Committee's oversight does not provide an independent basis to determine that management has maintained appropriate accounting and financial reporting principles or appropriate internal controls and procedures designed to assure compliance with accounting standards and applicable laws and regulations. Furthermore, the Audit Committee's considerations and discussions referred to above do not assure that the audit of our financial statements has been carried out in accordance with auditing standards generally accepted in the United States of America, that the financial statements are presented in accordance with accounting principles generally accepted in the United States of America or that PricewaterhouseCoopers LLP is in fact "independent" as required by the Nasdaq National Market.
