BUCKHEAD AMERICA CORPORATION
AND SUBSIDIARIES

Notes to Condensed Consolidated Financial Statements
June 30, 2002 and 2001
(Unaudited)

(1) Basis of Presentation

The accompanying unaudited condensed consolidated financial statements do not include all of the information and footnotes required by generally accepted accounting principles for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included. The results of operations for interim periods are not necessarily indicative of the results that may be expected for a full year or any other interim period. For further information, see the consolidated financial statements included in the Company's Form 10-K for the year ended December 31, 2001.

(2) Comprehensive Loss

Total comprehensive loss for the six months ended June 30, 2002 and 2001 was \$(957,732) and \$(1,853,823), respectively, and for the three months ended June 30, 2002 and 2001 was \$(369,822) and \$(447,175), respectively.

(3) Operating Segments and Discontinued Operations

The Company conducted recurring operations in three segments of the limited-service hotel industry - hotel franchising, hotel management, and hotel operations. The Company generates additional revenues and results of operations from hotel development and sale activities which also include servicing notes receivable generated from hotel sales.

During the fourth quarter of 2001, the Company adopted a plan to discontinue its hotel management activities. During the second quarter of 2002, the Company categorized its hotel franchising business as held for sale. Since the Company has determined to discontinue the hotel management and hotel franchising segments of its business, the net results of operations and cash flows from these segments are segregated and reported separately from the results of operations and cash flows from continuing operations.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS.

Material Changes in Financial Condition

The Company conducted recurring operations in three segments of the limited-service hotel industry - hotel franchising, hotel management, and hotel operations. The Company generates additional revenues and results of operations from hotel development and sale activities which also include servicing notes receivable generated from hotel sales.

During the fourth quarter of 2001, the Company adopted a plan to discontinue its hotel management activities. During the second quarter of 2002, the Company categorized its hotel franchising business as held for sale. Since the Company has determined to discontinue the hotel management and hotel franchising segments of its business, the net results of operations and cash flows from these segments are segregated and reported separately from the results of operations and cash flows from continuing operations.

The Company completed its exit from the hotel management business during the second quarter of 2002. Certain continuing obligations remain, principally rent, tax compliance, and other compliance reporting. The Company's June 30, 2002 balance sheet includes current liabilities of approximately \$350,000 relating to such obligations.

The Board of Directors has approved the sale of the Company's hotel franchising business. The Company's June 30, 2002 balance sheet includes deferred costs of \$879,145 relating to the hotel franchising business. Management expects proceeds from the sale to exceed such amount, therefore no provision for loss has been made. The timing and ultimate proceeds from the anticipated sale remain uncertain.

The Company experienced negative cash flow from operations of approximately \$1.9

Edgar Filing: BUCKHEAD AMERICA CORP - Form 10-Q

million during the first half of 2002, including approximately \$415,000 relating to the Company's discontinued hotel management and hotel franchising segments. The Company also repaid approximately \$530,000 of debt obligations, not including repayments related to the sale of properties (see below). Cash inflows of approximately \$570,000 resulted from principal receipts on notes receivable and over \$1.6 million from the sale of hotel properties after the repayment of approximately \$6.2 million of related mortgage obligations. The combined effect of these and other activities resulted in a decrease in cash of approximately \$312,000 from December 31, 2001. The Company's hotel operations are highly seasonal. Historically, the Company's hotel revenues and operating profits have been stronger during the second and third quarters as opposed to the first and fourth quarters. Management expects this trend to continue and believes that additional cash will be generated from third quarter hotel operations, from additional sales of hotel properties, and possibly from the sale of other assets.

As of December 31, 2001 the Company had 15 owned or leased properties classified as held for sale. Seven hotel properties were sold during the first and second quarters of 2002 and an additional property was sold in July 2002. Two others are presently under contract for sale. Further, three long-term hotel leases were terminated during the first quarter. All of the Company's remaining owned hotels are held for sale.

The Company is also exploring the possibility of selling its notes receivable portfolio. If the Company completes the sale of its hotel franchising business, its hotels, and its notes receivable portfolio; virtually all of the Company's assets will have been sold and the Company's operations, as presently configured, will have ceased.

Liquidity and Capital Resources

The Company has suspended payment of preferred stock dividends and has negotiated deferrals of certain note payable obligations. The Company has significantly reduced personnel and implemented a salary deferral program. Certain other overhead costs have been reduced or eliminated. The combination of these and the previously discussed actions are expected to reduce the Company's negative cash flow from operations to an amount which management expects could be funded from continued property sales and other sources.

The Company is presently in default on certain of its note payable obligations. Management is presently conducting negotiations with certain of its creditors regarding the modification of repayment terms. If such negotiations are not successful, the Company will most likely not be able to satisfy all its obligations as they become due.

Management is also exploring other sources of liquidity as further described above. No assurance can be given that any of the previously described activities will be successful. These circumstances raise substantial doubt about the Company's ability to continue as a going concern.

Contractual Commitments

Following is a summary of the Company's material contractual cash commitments as of June 30, 2002:

Edgar Filing: BUCKHEAD AMERICA CORP - Form 10-Q

Due In:	* Notes Payable	Operating Lease Payments	** Contingent Obligations
	-----	-----	-----
Remainder of 2002	\$ 8,537,680	459,596	700,068
2003	751,641	717,120	1,230,251
2004	692,507	697,184	992,228
2005	468,305	637,655	742,700
2006	325,669	617,100	674,556
Thereafter	7,289,132	5,228,300	7,220,409
	-----	-----	-----
	\$ 18,064,934	8,356,955	11,560,212
	=====	=====	=====

* Includes capital lease obligations of \$115,006 in 2002.

** Contingent obligations consist of rent and debt payments relating to leases and notes payable on which other entities are primarily obligated. (See "ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK.") The Company will become responsible for such obligations should the primary obligors default. Thus far, the Company has not been required to make any such payments. If management determines that the Company will more likely than not be required to make any payments relating to contingent obligations, the liability for such will be accrued and reported as an obligation of the Company.

Material Changes in Results of Operations

The decline in hotel revenues is principally attributable to the 2001 and 2002 property sales. Same hotel revenues in the aggregate declined from the same three and six month periods in 2001 which continues to reflect the weakened economic conditions affecting the hospitality industry. The property sales and revenue declines resulted in reduced earnings before interest, taxes, depreciation, amortization and rent ("EBITDAR") from the hotel operations segment from \$1,996,267 in the first half of 2001 to \$456,183 in the current half and from \$1,464,501 in the second quarter of 2001 to \$332,300 in the current second quarter. Negotiated first quarter rent abatements relating to terminated leases and the elimination of depreciation expense relating to properties held for sale resulted in a reduction of the first half hotel operations segment loss of approximately \$360,000. The net second quarter results declined by over \$130,000 in spite of a \$190,000 decrease in depreciation expense. This indicates that the properties which remain held by the Company are not as profitable as the properties which have been sold. Management expects continued reductions in hotel revenues, EBITDAR, and segment losses as additional properties are sold and leases terminated.

As discussed above, due to the planned sale of the Company's hotel franchising business, its results are included in discontinued operations. Had its results been included in continuing operations, the hotel franchising segment results would have been reported as follows:

Six Months June 30, 2002	Six Months June 30, 2001	Three Months June 30, 2002
-----	-----	-----

Edgar Filing: BUCKHEAD AMERICA CORP - Form 10-Q

Revenues	\$ 803,247	1,010,592	394,297
Expenses	409,757	570,842	201,286
	-----	-----	-----
EBITDAR	393,490	439,750	193,011
Amortization	63,000	63,000	31,500
	-----	-----	-----
Income before income taxes	\$ 330,490	376,750	161,511
	=====	=====	=====

11

The hotel management segment lost \$423,784 and \$168,738 during the six and three month periods ended June 30, 2001, respectively. Such amounts are included in discontinued operations. Net expenditures of approximately \$750,000 relating to the operation of and phasing out of the hotel management business were made during the first half of 2002 and were charged to previously established reserves for such. As discussed above, management expects approximately \$350,000 of additional expenditures to be made.

Net losses of approximately \$3.8 million resulting from first and second quarter 2002 hotel property sales were charged to previously established impairment allowances and therefore had no impact on 2002 net loss. Net losses of approximately \$1.3 million resulting from first and second quarter 2001 hotel property sales were charged to previously established impairment allowances and therefore had no impact on 2001 net loss.

Corporate expenses, EBITDAR loss, and loss before income taxes decreased from the first and second quarters of 2001. This is primarily attributable to expense reductions which were offset somewhat by increased professional fees. Management expects this may continue.

The Company files income tax returns and recognizes income tax expense (benefit) on an annual calendar basis. In the fourth quarter of 2000, management elected to establish a valuation allowance for the full amount of the Company's deferred tax assets. Consequently, no deferred tax benefit has been recognized in 2001 or 2002.

Risk Factors

This Form 10-Q contains forward looking statements that involve risks and uncertainties. Statements contained in this Form 10-Q that are not historical facts are forward looking statements that are subject to the safe harbor created by the Private Securities Litigation Reform Act of 1995. The Company's actual results may differ significantly from the results indicated by such forward looking statements.

The Company is subject to a number of risks, including the general risks of investing in real estate, the illiquidity of real estate, environmental risks, possible uninsured or under insured losses, fluctuations in property taxes, hotel operating risks, the impact of competition, the difficulty of managing growth, seasonality, the risks inherent in operating a hotel franchise business, and the uncertainty of obtaining additional financing or extensions of existing

Edgar Filing: BUCKHEAD AMERICA CORP - Form 10-Q

credit facilities as needed. For a discussion of these and other risk factors, see the "RISK FACTOR" section contained in the Company's Registration Statement on Form S-3 (File No. 333-37691). Also see "Liquidity and Capital Resources" above and "Item 3. Quantitative and Qualitative Disclosures About Market Risk."

Critical Accounting Policies

The Company defines critical accounting policies as those accounting policies that require management to exercise their most difficult, subjective and complex judgements.

Discontinued Operations

The Company reports its results of discontinued operations in accordance with APB Opinion No. 30, Reporting the Results of Operations - Reporting the Effects of Disposal of a Segment of a Business, and Extraordinary, Unusual and Infrequently Occurring Events and Transactions. Under APB Opinion No. 30, since the Company has determined to discontinue the hotel management segment of its business and to sell its hotel franchising business, the net results of operations and cash flows from the management and franchising segments are segregated and reported separately from the results of operations and cash flows from continuing operations. Additionally, costs associated with the phasing out of the management segment and the expected losses to be sustained during the phase out period were accrued in the fourth quarter of 2002 and reported as an additional component of discontinued operations. Such accrued costs are based on management's current best estimates and are subject to changes based on future events.

Property, Equipment, and Leasehold Interests Held for Sale

Property, equipment, and leasehold interests held for sale are stated at the lower of cost or fair value less costs to sell. Fair value of property and

12

leasehold interests held for sale has been determined by the Company based upon current market information assuming a non-distressed sale. Future events, such as a forced liquidation, could negatively impact such values. At the date on which a decision is made to dispose of a property or leasehold interest, any amount by which the carrying amount of an asset exceeds the fair value less cost to sell is reported as a provision for impairment. Due to the intent of the Company to dispose of such properties and leasehold interests in the short-term, the properties, leasehold interests, and all related notes payable are initially reflected as current in the consolidated balance sheets. Properties and leasehold interests which have remained held for sale for more than one year and are not under contract for sale are classified as noncurrent.

Going Concern

Management is continuing negotiations with creditors for extensions and/or reductions of obligations. Management believes that it is possible that current obligations in 2002 could be met through assets sales and restructuring of certain obligations. However, no assurance can be given that such activities will be successful. These circumstances raise substantial doubt about the Company's ability to continue as a going concern. The consolidated financial statements do not include any adjustments that might result from the outcome of this uncertainty.

Edgar Filing: BUCKHEAD AMERICA CORP - Form 10-Q

Effect of New Accounting Pronouncements

In April 2002, the FASB issued SFAS 145 "Rescission of FASB Statements No. 4, 44, and 64, Amendment of FASB Statement No. 13, and Technical Corrections." The Company is required to adopt SFAS 145 on January 1, 2003. SFAS 145 significantly limits the treatment of losses associated with early extinguishment of debt as an extraordinary item. SFAS 145 also impacts certain sale-leaseback transactions. Upon adoption, management does not believe that SFAS 145 will have a material impact on the Company's financial position, results of operations or cash flows.

In July 2002, the FASB issued SFAS 146 "Accounting for Costs Associated with Exit or Disposal Activities." The Company is required to adopt SFAS 146 on January 1, 2003. SFAS 146 requires that expenses associated with restructuring charges be accrued as liabilities in the period in which the liability is incurred. Management does not anticipate the adoption of SFAS 146 will have a material impact on the Company's financial position, results of operations or cash flows.

13

Item 3. Quantitative and Qualitative Disclosures About Market Risk

As of June 30, 2002, the Company's obligations included variable rate mortgage notes and a bank note with aggregate principal balances of \$1,553,095 which mature at various dates through 2015. The Company is exposed to the market risk of significant increases in future interest rates. Each incremental point increase in the prime interest rate would increase the Company's interest expense by approximately \$15,500 per year. This risk is somewhat mitigated in that inflationary increases in interest rates would theoretically result in increases in average hotel room rates. Also, significant increases in interest rates would have a dampening effect on additions of competitive hotels in the Company's markets.

At June 30, 2002, the Company's unrestricted investment securities included equity securities valued at \$21,513. The Company is exposed to the risk that such securities will become worthless. The Company's restricted investment securities also include equity securities. Such restricted securities comprise the assets of the Company's deferred compensation plan and changes in the value of such securities have no net impact on the Company's earnings.

The ultimate collection of the Company's notes receivable is subject to various credit risks. Net notes receivable at June 30, 2002 amounted to \$4,974,765 and consisted of 31 notes, most of which were collateralized by or related to various hotel assets. Additionally, the Company remains contingently liable on four mortgage notes payable on which the Company is guarantor relating to properties sold in 2000, 2001, and 2002. The notes' balances at June 30, 2002 were approximately \$5 million and the notes are due in aggregate monthly installments of \$47,945. The Company also remains contingently liable for future minimum rental payments totaling approximately \$1.9 million on sold leasehold interests and on subleased and assigned properties and equipment in the event of default by the purchasers, sublessees and/or assignees. The collection of such notes receivable and the potential financial exposure for guaranteed note obligations and contingent rents is determined by the ability of other hotel operators to satisfy these obligations. Their ability to satisfy such

Edgar Filing: BUCKHEAD AMERICA CORP - Form 10-Q

obligations is subject to many risks, including economic conditions affecting the hotel industry, their ability to effectively manage their hotel assets, new competition, and other factors. See "Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations. - Contractual Commitments" for a summary of contingent liabilities.

14

PART II - OTHER INFORMATION

ITEM 3. DEFAULTS UPON SENIOR SECURITIES

As of August 14, 2002, a total of \$231,250 of Series B preferred dividends are in arrears.

As of August 14, 2002, a total of \$293,570 of accrued interest which was previously due and payable remained unpaid on the Company's convertible debenture notes.

ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS

The Company held its Annual Meeting of Stockholders on June 20, 2002. The purpose of the meeting was to consider and vote upon the following matters:

1. To elect five directors to serve until the next annual meeting of stockholders and until their successors are elected and have qualified.
2. To transact such other business as may have properly come before the meeting.

The Company's five incumbent directors (Douglas C. Collins, David C. Glickman, Robert B. Lee, David B. Mumford, and Steven A. Van Dyke) were nominated for re-election. Each of the nominees was elected as follows:

	Votes For	Votes Withheld
	-----	-----
Douglas C. Collins	1,627,530	4,722
David C. Glickman	1,627,425	4,827
Robert B. Lee	1,627,535	4,717
David B. Mumford	1,627,294	4,958
Steven A. Van Dyke	1,627,425	4,827

No other matters came before the meeting.
