

CONMED CORP
Form 10-Q
August 08, 2006

**UNITED STATES
SECURITIES AND EXCHANGE COMMISSION**

Washington, D.C. 20549

FORM 10-Q

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15 (d) OF THE
SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended
June 30, 2006

Commission File Number 0-16093

CONMED CORPORATION

(Exact name of the registrant as specified in its charter)

New York

(State or other jurisdiction of
incorporation or organization)

16-0977505

(I.R.S. Employer
Identification No.)

525 French Road, Utica, New York
(Address of principal executive offices)

13502
(Zip Code)

(315) 797-8375

(Registrant's telephone number, including area code)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days.

Yes No

Indicate by check mark whether the Registrant is a large accelerated filer, an accelerated filer, or a non-accelerated filer. See definition of "accelerated filer and large accelerated filer" in Rule 12b-2 of the Exchange Act (Check one).

Large accelerated filer

Accelerated filer

Non-accelerated filer

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act).

Yes No

The number of shares outstanding of registrant's common stock, as of August 1, 2006 is 27,885,768 shares.

CONMED CORPORATION

CONMED CORPORATION
NOTES TO CONSOLIDATED CONDENSED FINANCIAL STATEMENTS
(Unaudited, in thousands except per share amounts)

Note 1 - Operations and Significant Accounting Policies

Organization and operations

The accompanying consolidated condensed financial statements include the accounts of CONMED Corporation and its controlled subsidiaries (“CONMED”, the “Company”, “we” or “us”). All intercompany accounts and transactions have been eliminated. CONMED is a medical technology company with an emphasis on surgical devices and equipment for minimally invasive procedures and monitoring. The Company’s products serve the clinical areas of arthroscopy, powered surgical instruments, electrosurgery, cardiac monitoring disposables, endosurgery and endoscopic technologies. They are used by surgeons and physicians in a variety of specialties including orthopedics, general surgery, gynecology, neurosurgery, and gastroenterology.

CONMED conducts its business through five principal operating units, CONMED Electrosurgery, CONMED Endoscopic Technologies, CONMED Endosurgery, CONMED Linvatec and CONMED Patient Care. All of our operating units qualify for aggregation under SFAS 131 except CONMED Patient Care. The economic characteristics of CONMED Patient Care do not meet the criteria for aggregation due to the lower overall operating income in this segment. Accordingly, we have provided comparable information for the prior year. Based upon the aggregation criteria for segment reporting, we have grouped all of our operating units except CONMED Patient Care into a single segment comprised of medical instruments and systems used in surgical and other medical procedures. CONMED Patient Care is comprised of cardiac monitoring disposables as well as a variety of other medical products.

Note 2 - Interim financial information

The accompanying unaudited consolidated condensed financial statements have been prepared in accordance with generally accepted accounting principles for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by generally accepted accounting principles for annual financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included. Results for the period ended June 30, 2006 are not necessarily indicative of the results that may be expected for the year ending December 31, 2006.

The consolidated condensed financial statements and notes thereto should be read in conjunction with the financial statements and notes for the year-ended December 31, 2005 included in our Annual Report on Form 10-K.

[Back to Table of Contents](#)

Note 3 - Other comprehensive income

Comprehensive income consists of the following:

	<u>Three months ended</u>		<u>Six months ended</u>	
	<u>June 30,</u>		<u>June 30,</u>	
	<u>2005</u>	<u>2006</u>	<u>2005</u>	<u>2006</u>
Net income	\$ 10,508	\$ 3,414	\$ 21,273	\$ 7,754
Other comprehensive income:				
Foreign currency translation adjustment	(2,186)	1,149	(2,702)	1,322
Comprehensive income	\$ 8,322	\$ 4,563	\$ 18,571	\$ 9,076

Accumulated other comprehensive income consists of the following:

	<u>Minimum Pension Liability</u>	<u>Cumulative Translation Adjustments</u>	<u>Accumulated Other Comprehensive Income (loss)</u>
Balance, December 31, 2005	\$ (10,135)	\$ 399	\$ (9,736)
Foreign currency translation adjustments	-	1,322	1,322
Balance, June 30, 2006	\$ (10,135)	\$ 1,721	\$ (8,414)

Note 4 - Stock-based compensation

The Financial Accounting Standards Board (“FASB”) issued Statement of Financial Accounting Standards No. 123 (revised 2004), “Share-Based Payment” (“SFAS 123R”) in December 2004. We adopted SFAS 123R effective January 1, 2006. SFAS 123R requires that all share-based payments to employees, including grants of employee stock options, be recognized in the financial statements based on their fair values.

Prior to January 1, 2006, we accounted for stock-based compensation in accordance with Accounting Principles Board Opinion No. 25 “Accounting for Stock Issued to Employees” (“APB 25”). No compensation expense was recognized for stock options under the provisions of APB 25 since all options granted had an exercise price equal to the market value of the underlying stock on the grant date.

SFAS No. 123R was adopted using the modified prospective transition method. Under this method, the provisions of SFAS No. 123R apply to all awards granted or modified after the date of adoption. In addition, compensation expense must be recognized for any nonvested stock option awards outstanding as of the date of adoption. Prior periods have not been restated.

We have elected to adopt the alternative transition method, as permitted by FASB Staff Position No. FAS 123R-3 “Transition Election Related to Accounting for Tax Effects of Share-Based Payment Awards,” to calculate the tax effects of stock-based compensation pursuant to SFAS 123R for those employee awards that were outstanding upon adoption of SFAS 123R. The alternative transition method allows the use of a simplified method to calculate the

beginning pool of excess tax benefits available to absorb tax deficiencies recognized subsequent to the adoption

[Back to Table of Contents](#)

5

of SFAS 123R.

Prior to the adoption of SFAS 123R, the Company reported all tax benefits resulting from the exercise of stock options as operating cash flows in the Consolidated Condensed Statements of Cash Flows. SFAS 123R requires cash flows resulting from the tax deductions in excess of the related compensation cost recognized in the financial statements (excess tax benefits) to be classified as financing cash flows. In accordance with SFAS 123R, excess tax benefits recognized in periods after the adoption date have been properly classified as financing cash flows. Excess tax benefits recognized in periods prior to the adoption date are classified as operating cash flows.

During the second quarter of 2006, the shareholders approved the 2006 Stock Incentive Plan ("the 2006 Plan"). Awards under this plan may be made to any officer, director, employee, consultant or to any other individual who may perform services for the Company and its subsidiaries and affiliates selected by the committee that administers the 2006 Plan. The 2006 Plan provides for grants of options, stock appreciation rights ("SARs"), dividend equivalent rights, restricted stock, restricted stock units ("RSUs"), and other equity-based and equity-related awards (collectively, "Awards").

We have reserved 7.7 million shares of common stock for issuance to employees and directors under four shareholder-approved share-based compensation plans (the "Plans") of which approximately 859,000 shares remain available for grant at June 30, 2006. The exercise price on all outstanding options and SARs is equal to the quoted fair market value of the stock at the date of grant. RSUs are valued at the market value of the underlying stock on the date of grant. Stock options, SARs and RSUs are non-transferable other than on death and generally become exercisable over a five year period from date of grant. Stock options and SARs expire ten years from date of grant. SARs are only settled in shares of the Company's stock.

Total pre-tax stock-based compensation expense recognized in the Consolidated Condensed Statements of Income was \$771 and \$1,585 for the three and six months ended June 30, 2006, respectively. This amount is included in selling and administrative expenses on the Consolidated Condensed Statements of Income. Tax related benefits of \$79 and \$135 were also recognized for the three and six months ended June 30, 2006. Cash received from the exercise of stock options was \$13.0 million and \$1.2 million for the six months ended June 30, 2005 and 2006, respectively and is reflected in cash flows from financing activities in the Consolidated Condensed Statements of Cash Flows.

The weighted average fair value of awards of options and SARs granted in the three and six months ended June 30, 2006 were \$8.91 and \$8.92, respectively. The fair value of these options and SARs was estimated at the date of grant using a Black-Scholes option pricing model with the following weighted-average assumptions for options and SARs granted for the three and six months ended June 30, 2006, respectively: risk-free interest rate of 5.17% and 5.16%; volatility factor of the expected market price of the Company's common stock of 37.90% and 37.97%; a weighted-average expected life of the option and SAR of 5.7 years; and that no dividends would be paid on common stock. The risk free interest rate is based on the option and SAR grant date for a traded zero-coupon U.S. Treasury bond with a maturity date equal to the expected life. Expected volatilities are based upon historical volatility of the Company's stock over a period equal to the expected life of each option and SAR grant. The expected life selected for options and SARs granted

[Back to Table of Contents](#)

6

during the three and six months ended June 30, 2006 represents the period of time that the options and SARs are expected to be outstanding based on a study of historical data of option holder exercise and termination behavior.

The following table illustrates the stock option and SAR activity for the six months ended June 30, 2006:

	Number of Shares	Weighted- Average Exercise Price
Outstanding at December 31, 2005	3,085	\$ 22.12
Granted	228	19.93
Exercised	(29)	14.66
Forfeited	(26)	25.51
Outstanding at June 30, 2006	3,258	\$ 22.05
Exercisable at June 30, 2006	2,264	\$ 21.24

The weighted average remaining contractual term for stock options and SARs outstanding and exercisable at June 30, 2006 was 6.4 years and 5.6 years, respectively. The aggregate intrinsic value of stock options and SARs outstanding and exercisable at June 30, 2006 was \$5.2 million and \$4.6 million, respectively. The aggregate intrinsic value of stock options exercised during the six months ended June 30, 2005 and 2006 was \$11.3 million and \$0.2 million, respectively.

The following table illustrates the RSU activity as of June 30, 2006, including changes during the six months ended June 30, 2006:

	Number of Shares	Weighted- Average Grant-Date Fair Value
RSUs outstanding at December 31, 2005	-	-
Granted	91	\$ 19.93
Vested	-	-
Outstanding at June 30, 2006	91	\$ 19.93

As of June 30, 2006, there was \$10.0 million of total unrecognized compensation cost related to nonvested stock options, SARs and RSUs granted under the Plan which is expected to be recognized over 5.0 years (weighted average period of 1.9 years).

SFAS No. 123R requires disclosure of pro forma information for periods prior to the adoption. The pro forma disclosures are based on the fair value of awards at the grant date, amortized to expense over the service period. The following table illustrates the effect on net earnings and earnings per share if the company had applied the fair value recognition provisions of SFAS No. 123R to stock-based employee compensation for the three and six months ended June 30, 2005.

[Back to Table of Contents](#)

7

	Three months ended <u>June 30,</u> <u>2005</u>	2005	Six months ended <u>June 30,</u> <u>2005</u>	2005
Net income - as reported	\$	10,508	\$	21,273
Pro forma stock-based employee compensation expense, net of related income tax effect		(1,158)		(1,581)
Net income - pro forma	\$	9,350	\$	19,692
Earnings per share - as reported:				
Basic	\$.36	\$.73
Diluted		.35		.71
Earnings per share - pro forma:				
Basic	\$.32	\$.67
Diluted		.31		.66

Note 5 - Inventories

Inventories consist of the following:

	December 31, <u>2005</u>	June 30, <u>2006</u>
Raw materials	\$ 45,991	\$ 44,343
Work-in-process	16,472	20,044
Finished goods	89,965	89,274
Total	\$ 152,428	\$ 153,661

Note 6 - Earnings per share

We compute basic earnings per share ("basic EPS") by dividing net income by the weighted average number of common shares outstanding for the reporting period. Diluted earnings per share ("diluted EPS") gives effect to all dilutive potential shares outstanding resulting from employee share-based awards during the period. The following table sets forth the computation of basic and diluted earnings per share for the three and six month periods ended June 30, 2005 and 2006.

Three months ended <u>June 30,</u>	Six months ended <u>June 30,</u>
---	---

Edgar Filing: CONMED CORP - Form 10-Q

	<u>2005</u>	<u>2006</u>	<u>2005</u>	<u>2006</u>
Net income	\$ 10,508	\$ 3,414	\$ 21,273	\$ 7,754
Basic - weighted average shares outstanding	29,494	28,061	29,301	28,068
Effect of dilutive potential securities	566	205	529	244
Diluted - weighted average shares outstanding	30,060	28,266	29,830	28,312
Basic EPS	\$.36	\$.12	\$.73	\$.28
Diluted EPS	.35	.12	.71	.27

[Back to Table of Contents](#)

8

The shares used in the calculation of diluted EPS exclude options to purchase shares where the exercise price was greater than the average market price of common shares for the period. Shares excluded from the calculation of diluted EPS aggregated 0.3 million for the three and six months ended June 30, 2005. Shares excluded from the calculation of diluted EPS aggregated 1.9 and 1.7 million for the three and six months ended June 30, 2006, respectively. Upon conversion of our 2.50% convertible senior subordinated notes (the "Notes"), the holder of each Note will receive the conversion value of the Note payable in cash up to the principal amount of the Note and CONMED common stock for the Note's conversion value in excess of such principal amount. As of June 30, 2006, our share price has not exceeded the conversion price of the Notes, therefore the conversion value was less than the principal amount of the Notes. Under the net share settlement method and in accordance with Emerging Issues Task Force ("EITF") Issue 04-8, "The Effect of Contingently Convertible Debt on Diluted Earnings per Share", there were no potential shares issuable under the Notes to be used in the calculation of diluted EPS. The maximum number of shares we may issue with respect to the Notes is 5,750,000.

Note 7 - Goodwill and other intangible assets

The changes in the net carrying amount of goodwill for the six months ended June 30, 2006 are as follows:

Balance as of January 1, 2006	\$ 335,651
Adjustments to goodwill resulting from business acquisitions finalized	436
Foreign currency translation	63
Balance as of June 30, 2006	\$ 336,150

Goodwill associated with each of our principal operating units is as follows:

	<u>December 31,</u> <u>2005</u>	<u>June 30,</u> <u>2006</u>
CONMED Electrosurgery	\$ 16,645	\$ 16,645
CONMED Endoscopic Technologies	46,649	46,671
CONMED Endosurgery	42,404	42,411
CONMED Linvatec	175,853	175,894
CONMED Patient Care	54,100	54,529
	\$ 335,651	\$ 336,150

[Back to Table of Contents](#)

Other intangible assets consist of the following:

	<u>December 31, 2005</u>		<u>June 30, 2006</u>	
	<u>Gross Carrying Amount</u>	<u>Accumulated Amortization</u>	<u>Gross Carrying Amount</u>	<u>Accumulated Amortization</u>
Amortized intangible assets:				
Customer relationships	\$ 110,612	\$ (21,317)	\$ 112,634	\$ (22,832)
Patents and other intangible assets	37,344	(22,581)	37,740	(23,630)
Unamortized intangible assets:				
Trademarks and tradenames	87,344	-	87,344	-
	\$ 235,300	\$ (43,898)	\$ 237,718	\$ (46,462)

Other intangible assets primarily represent allocations of purchase price to identifiable intangible assets of acquired businesses. The weighted average amortization period for intangible assets which are amortized is 26 years. Customer relationships are being amortized over a weighted average life of 37 years. Patents and other intangible assets are being amortized over a weighted average life of 11 years.

Amortization expense related to intangible assets which are subject to amortization totaled \$1,286 and \$2,564 in the three and six months ended June 30, 2006, respectively, and \$1,408 and \$2,868 in the three and six months ended June 30, 2005, respectively, and is included in selling and administrative expense on the consolidated condensed statement of income.

The estimated amortization expense for the year ending December 31, 2006, including the six month period ended June 30, 2006 and for each of the five succeeding years is as follows:

2006	\$ 5,288
2007	5,433
2008	5,433
2009	5,235
2010	4,855
2011	4,629

We perform annual impairment tests of goodwill and indefinite-lived intangible assets and evaluate the useful lives of acquired intangible assets subject to amortization. These tests and evaluations are performed in accordance with Statement of Financial Accounting Standards No. 142, "Goodwill and Other Intangible Assets." No impairment losses or adjustments to useful lives have been recognized as a result of these tests. It is our policy to perform our annual impairment tests in the fourth quarter.

Note 8 — Guarantees

We provide warranties on certain of our products at the time of sale. The standard warranty period for our capital and reusable equipment is generally one year. Liability under service and warranty policies is based upon a review of

historical warranty and service claim experience. Adjustments are made to accruals

[Back to Table of Contents](#)

10

as claim data and historical experience warrant.

Changes in the carrying amount of service and product warranties for the six months ended June 30, 2006 are as follows:

Balance as of January 1, 2006	\$ 3,416
Provision for warranties	2,629
Claims made	(2,570)
Balance as of June 30, 2006	\$ 3,475

Note 9 - Pension plan

Net periodic pension costs consist of the following:

	Three months ended June 30,		Six months ended June 30,	
	<u>2005</u>	<u>2006</u>	<u>2005</u>	<u>2006</u>
Service cost	\$ 962	\$ 1,405	\$ 1,955	\$ 2,810
Interest cost on projected benefit obligation	727	827	1,478	1,654
Expected return on plan assets	(784)	(795)	(1,593)	(1,590)
Net amortization and deferral	202	298	410	596
Net periodic pension cost	\$ 1,107	\$ 1,735	\$ 2,250	\$ 3,470

We previously disclosed in our Annual Report on Form 10-K for the year-ended December 31, 2005 that we expected to fund our pension in 2006 by an amount not to exceed \$4.5 million. No pension funding was required during the three and six month periods ended June 30, 2006, however a discretionary \$1.5 million pension contribution was made in the second quarter of 2006.

Note 10 - Other expense

Other expense consists of the following:

	Three months ended June 30,		Six months ended June 30,	
	<u>2005</u>	<u>2006</u>	<u>2005</u>	<u>2006</u>
Acquisition-related costs	\$ 1,449	\$ 962	\$ 2,829	\$ 1,476
Termination of product offering	429	27	949	83
Environmental settlement costs	698	-	698	-
Write-off of inventory in settlement of a patent dispute	-	595	-	595

Other expense	\$	2,576	\$	1,584	\$	4,476	\$	2,154
---------------	----	-------	----	-------	----	-------	----	-------

On September 30, 2004, we acquired the business operations of the Endoscopic Technologies Division of C.R. Bard, Inc. (the “Bard Endoscopic Technologies acquisition”). As part of the acquisition, manufacturing of the acquired products

[Back to Table of Contents](#)

11

was conducted in various C.R. Bard facilities under a transition agreement. The transition of the manufacturing of these products from C.R. Bard facilities to CONMED facilities was completed during the three months ended June 30, 2006. During the three and six months ended June 30, 2005, we incurred \$1.4 and \$2.8 million, respectively, of acquisition-related charges associated with the Bard Endoscopic Technologies acquisition which have been recorded in other expense. These expenses principally consist of severance and other transition related charges. During the three and six months ended June 30, 2006, we incurred an additional \$1.0 million and \$1.5 million, respectively, of such acquisition, transition and integration related charges.

During the quarter ended December 31, 2004, we elected to terminate our surgical lights product line. We instituted a customer replacement program whereby all currently installed surgical lights have been or will be replaced by CONMED. The entire cost of the replacement program, including the write-off of the remaining surgical lights inventory, purchase of new surgical lights from an alternative supplier and installation costs are expected to approximate \$5.8 million. Through December 31, 2005, we recorded charges totaling \$3.9 million related to the surgical lights customer replacement program (including \$0.4 million and \$0.9 million in the three and six months ended June 30, 2005, respectively). During the three and six months ended June 30, 2006, we incurred an additional \$27 and \$83, respectively, in such charges. It is anticipated that the remaining \$1.8 million in costs will be incurred during the remainder of 2006 as the surgical lights customer replacement program is completed.

During the quarter ended June 30, 2005, we entered into a settlement of certain environmental claims related to the operations of one of our subsidiaries during the 1980s, before it was acquired by CONMED, at a site other than the one it currently occupies. The current owner alleged that the acquired subsidiary caused environmental contamination of the property. In order to avoid litigation, the Company agreed to reimburse the owner for a certain percentage of past remediation costs, and to participate in the funding of the remediation activities. The total sum of past costs, including attorney's fees, together with the current estimate of future costs, amounts to approximately \$0.7 million and has been recorded in other expense for the three and six months ended June 30, 2005.

During the quarter ended June 30, 2006, we were notified by Dolphin Medical, Inc. ("Dolphin"), that it would discontinue its Dolphin ONE® product line as a result of an agreement between Dolphin and Masimo Corporation in which Masimo agreed to release Dolphin and its affiliates from certain patent infringement claims. We sell the Dolphin ONE® and certain other pulse oximetry products manufactured by Dolphin under a distribution agreement. As a result of the product line discontinuation, we recorded a one time \$0.6 million charge to write-off on-hand inventory of the discontinued product line. We do not expect the discontinuation of Dolphin ONE® to have a material impact on our financial position, results of operations, or cash flows. This matter does not affect the majority of our pulse oximetry products and also does not affect sales of our proprietary Pro2® pulse oximetry product line.

Note 11 — Business Segments and Geographic Areas

CONMED conducts its business through five principal operating units, CONMED Endoscopic Technologies, CONMED Endosurgery, CONMED Electrosurgery, CONMED Linvatec

[Back to Table of Contents](#)

and CONMED Patient Care. In accordance with Statement of Financial Accounting Standards No. 131 “Disclosures About Segments of an Enterprise and Related Information” (“SFAS 131”), our chief operating decision-maker has been identified as the President and Chief Operating Officer, who reviews operating results and makes resource allocation decisions for the entire company. We believe each of our segments are similar in the nature of products, production processes, customer base, distribution methods and regulatory environment.

All of our operating units qualify for aggregation under SFAS 131 except CONMED Patient Care. The economic characteristics of CONMED Patient Care do not meet the criteria for aggregation due to the lower overall operating income in this segment. Accordingly, we have provided comparable information for the prior year. Based upon the aggregation criteria for segment reporting, we have grouped all of our operating units except CONMED Patient Care into a single segment comprised of medical instruments and systems used in surgical and other medical procedures. CONMED Patient Care is comprised of cardiac monitoring disposables as well as a variety of other medical products.

The following is net sales information by product line and reportable segment:

	Three months ended		Six months ended	
	June 30,		June 30,	
	<u>2005</u>	<u>2006</u>	<u>2005</u>	<u>2006</u>
Medical Instruments and Systems	\$ 139,169	\$ 144,364	\$ 281,896	\$ 283,219
Patient Care	19,107	19,109	32,239	38,720
Total	\$ 158,276	\$ 163,473	\$ 314,135	\$ 321,939

Total assets, capital expenditures, depreciation and amortization information are not available by segment.

The following is a reconciliation between segment operating income and income before income taxes:

	Three months ended		Six months ended	
	June 30,		June 30,	
	<u>2005</u>	<u>2006</u>	<u>2005</u>	<u>2006</u>
Medical Instruments and Systems	\$ 17,711	\$ 12,281	\$ 36,360	\$ 23,148
Patient Care	1,903	(1,712)	3,448	(1,448)
Total operating income	19,614	10,569	39,808	21,700
Loss on early extinguishment of debt	-	678	-	678
Interest expense	3,571	4,675	7,330	9,541
Total income before income taxes	\$ 16,043	\$ 5,216	\$ 32,478	\$ 11,481

Note 12 - Legal proceedings

From time to time, we are a defendant in certain lawsuits alleging product liability, patent infringement, or other claims incurred in the ordinary course of business. Likewise, from time to time, the Company may receive a subpoena from a government agency such as the Equal Employment Opportunity Commission, Occupational Safety and Health Administration, the Department of Labor, the Treasury Department, and other federal and state agencies. These subpoenas may or may not be routine inquiries. These claims are generally covered by various insurance policies,

[Back to Table of Contents](#)

subject to certain deductible amounts and maximum policy limits. When there is no insurance coverage, as would typically be the case primarily in lawsuits alleging patent infringement or in connection with certain government investigations, we establish sufficient reserves to cover probable losses associated with such claims. We do not expect that the resolution of any pending claims or investigations will have a material adverse effect on our financial condition or results of operations. There can be no assurance, however, that future claims or investigations, the costs associated with claims or investigations, especially claims and investigations not covered by insurance, will not have a material adverse effect on our future performance.

Manufacturers of medical products may face exposure to significant product liability claims. To date, we have not experienced any material product liability claims, but any such claims arising in the future could have a material adverse effect on our business or results of operations. We currently maintain commercial product liability insurance of \$25 million per incident and \$25 million in the aggregate annually, which we believe is adequate. This coverage is on a claims-made basis. There can be no assurance that claims will not exceed insurance coverage or that such insurance will be available in the future at a reasonable cost to us.

Our operations are subject, and in the past have been subject, to a number of environmental laws and regulations governing, among other things, air emissions, wastewater discharges, the use, handling and disposal of hazardous substances and wastes, soil and groundwater remediation and employee health and safety. In some jurisdictions environmental requirements may be expected to become more stringent in the future. In the United States certain environmental laws can impose liability for the entire cost of site restoration upon each of the parties that may have contributed to conditions at the site regardless of fault or the lawfulness of the party's activities. While we do not believe that the present costs of environmental compliance and remediation are material, there can be no assurance that future compliance or remedial obligations could not have a material adverse effect on our financial condition or results of operations.

In November 2003, we commenced litigation against Johnson & Johnson and several of its subsidiaries, including Ethicon, Inc. for violation of federal and state antitrust laws. The lawsuit claims that Johnson & Johnson engaged in illegal and anticompetitive conduct with respect to sales of product used in endoscopic surgery, resulting in higher prices to consumers and the exclusion of competition. We have sought relief which includes an injunction restraining Johnson & Johnson from continuing its anticompetitive practice as well as receiving the maximum amount of damages allowed by law. The discovery phase is now essentially completed. Johnson & Johnson filed a motion for summary judgment on October 21, 2005. The hearing on the motion was held on December 16, 2005. On May 2, 2006, the court issued an order denying Johnson & Johnson's motion for summary judgment. In its order, the Court found that there are genuine issues of material fact and that summary judgment was therefore not appropriate. The order does not represent a determination on the merits with respect to the Company's claims against Johnson & Johnson, but rather represents a ruling that the Company has produced sufficient evidence to warrant submitting the case to a jury.

The Court held a pre-trial conference on June 19, 2006, and has scheduled the case for a jury trial to commence on February 5, 2007. The Company believes that its claims are well-grounded in fact and law, but there can be no assurance that it will be successful in its claims in a trial before a jury.

[Back to Table of Contents](#)

On April 7, 2006, CONMED received a copy of a complaint filed in the United States District for the Northern District of New York on behalf of a purported class of former CONMED Linvatec sales representatives. The complaint alleges that the former sales representatives were entitled to, but did not receive, severance in 2003 when Linvatec restructured its distribution channels. CONMED believes that the maximum exposure is \$2.5 to \$3.0 million, not including any interest, fees or costs that might be awarded if the five named plaintiffs were to prevail on their own behalf as well as on behalf of all members of the purported class. Conmed Linvatec did not generally pay severance during the 2003 restructuring because the former sales representatives were offered sales positions with Linvatec's new manufacturer's representatives. Other than three of the five named plaintiffs in the class action, nearly all of Linvatec's former sales representatives accepted such positions.

Four of the named plaintiffs submitted formal ERISA claims for severance, and said claims have been forwarded to the Plan Administrator for review and action. By letter dated June 9, 2006, the Plan Administrator denied the claims, although the four named plaintiffs are permitted sixty days from their receipt of the Plan Administrator's initial determination, or until approximately August 15, 2006 to appeal the initial decision of the Plan Administrator. Unless the four named plaintiffs are able to prevail in any appeal to the Plan Administrator, the Company believes there would be no merit to the claims asserted in the Complaint, although there can be no assurance that the Company would prevail in the litigation.

Note 13 - New accounting pronouncements

In February 2006, the FASB issued Statement of Financial Accounting Standard No. 155 "Accounting for Certain Hybrid Financial Instruments" ("SFAS 155"), which eliminates the exemption from applying Statement of Financial Accounting Standard No. 133 "Accounting for Derivative Instruments and Hedging Activities" to interests in securitized financial assets so that similar instruments are accounted for similarly regardless of the form of the instruments. SFAS 155 also allows the election of fair value measurement at acquisition, at issuance, or when a previously recognized financial instrument is subject to a re-measurement event. Adoption is effective for all financial instruments acquired or issued after the beginning of the first fiscal year that begins after September 15, 2006. Early adoption is permitted. The adoption of SFAS 155 is not expected to impact our consolidated financial position, results of operations or cash flows.

In March 2006, the FASB issued Statement of Financial Accounting Standard No. 156 "Accounting for Servicing of Financial Assets" ("SFAS 156"), which requires all separately recognized servicing assets and servicing liabilities be initially measured at fair value. SFAS 156 permits, but does not require, the subsequent measurement of servicing assets and servicing liabilities at fair value. Adoption is required as of the beginning of the first fiscal year that begins after September 15, 2006. Early adoption is permitted. The adoption of SFAS 156 is not expected to impact our consolidated financial position, results of operations or cash flows.

In June 2006, the FASB issued FASB Interpretation No. 48 "Accounting for Uncertainty in Income Taxes (an interpretation of FASB Statement No. 109)" which is effective for fiscal years beginning after December 15, 2006 with earlier adoption

[Back to Table of Contents](#)

encouraged. This interpretation was issued to clarify the accounting for uncertainty in income taxes recognized in the financial statements by prescribing a recognition threshold and measurement attribute for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. We are currently evaluating the potential impact of this interpretation.

Note 14 - New senior credit agreement

On April 13, 2006, we entered into an amended and restated \$235.0 million senior credit agreement (the "amended and restated senior credit agreement"). The amended and restated senior credit agreement consists of a \$100.0 million revolving credit facility and a \$135.0 million term loan. The proceeds of the term loan portion of the amended and restated senior credit agreement were used to repay borrowings outstanding on the term loan and revolving credit facility of \$142.5 million under the then existing senior credit agreement. In connection with the refinancing, we recorded a \$0.7 million loss on early extinguishment of debt of which \$0.5 million related to the write-off of unamortized deferred financing costs under the previously existing senior credit agreement and \$0.2 million related to financing costs associated with the amended and restated senior credit agreement.

The scheduled principal payments on the term loan portion of the amended and restated senior credit agreement are \$1.4 million annually through December 2011, increasing to \$95.5 million in 2012 with the remaining balance outstanding due and payable on April 12, 2013. We may also be required, under certain circumstances, to make additional principal payments based on excess cash flow as defined in the amended and restated senior credit agreement. Initial interest rates on the term loan portion of the amended and restated credit agreement are at LIBOR plus 1.75% (7.03% at June 30, 2006) or an alternative base rate; initial interest rates on the revolving credit facility portion of the amended and restated credit agreement are at LIBOR plus 1.50% or an alternative base rate. For those borrowings where the Company elects to use the alternative base rate, the base rate will be the greater of the Prime Rate or the Federal Funds Rate in effect on such date plus 0.50%, plus a margin of 0.75% for term loan borrowings or 0.50% for borrowings under the revolving credit facility.

The amended and restated senior credit agreement is collateralized by substantially all of our personal property and assets, except for our accounts receivable and related rights which are pledged in connection with our accounts receivable sales agreement. The amended and restated credit agreement contains covenants and restrictions which, among other things, require the maintenance of certain financial ratios, and restrict dividend payments and the incurrence of certain indebtedness and other activities, including acquisitions and dispositions. We are also required, under certain circumstances, to make mandatory prepayments from net cash proceeds from any issue of equity and asset sales.

16

Item 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Forward-Looking Statements

In this Report on Form 10-Q, we make forward-looking statements about our financial condition, results of operations and business. Forward-looking statements are statements made by us concerning events that may or may not occur in the future. These statements may be made directly in this document or may be "incorporated by reference" from other documents. You can find many of these statements by looking for words like "believes," "expects," "anticipates," "estimates" or similar expressions.

Forward-Looking Statements are not Guarantees of Future Performance

Forward-looking statements involve known and unknown risks, uncertainties and other factors, including those that may cause our actual results, performance or achievements, or industry results, to be materially different from any future results, performance or achievements expressed or implied by such forward-looking statements. Such factors include those identified under "Risk Factors" in our Annual Report on Form 10-K for the year-ended December 31, 2005 and the following, among others:

- general economic and business conditions;
- cyclical customer purchasing patterns due to budgetary and other constraints;
- changes in customer preferences;
- competition;
- changes in technology;
- the ability to evaluate, finance and integrate acquired businesses, products and companies;
- the introduction and acceptance of new products;
- changes in business strategy;
- the availability and cost of materials;
- the possibility that United States or foreign regulatory and/or administrative agencies may initiate enforcement actions against us or our distributors;
- future levels of indebtedness and capital spending;
- changes in foreign exchange and interest rates;
- quality of our management and business abilities and the judgment of our personnel;
- the risk of litigation, especially patent litigation as well as the cost associated with patent and other litigation;
- changes in regulatory requirements; and

the availability, terms and deployment of capital.

See “Management’s Discussion and Analysis of Financial Condition and Results of Operations” below and “Risk Factors” and “Business” in our Annual Report on Form

[Back to Table of Contents](#)

17

10-K for the year-ended December 31, 2005 for a further discussion of these factors. You are cautioned not to place undue reliance on these forward-looking statements, which speak only as of the date hereof. We do not undertake any obligation to publicly release any revisions to these forward-looking statements to reflect events or circumstances after the date of this Quarterly Report on Form 10-Q or to reflect the occurrence of unanticipated events.

Overview:

CONMED Corporation (“CONMED”, the “Company”, “we” or “us”) is a medical technology company with six principal product lines. These product lines and the percentage of consolidated revenues associated with each, are as follows:

	Three months ended June 30,		Six months ended June 30,	
	2005	2006	2005	2006
Arthroscopy	34.6%	36.0%	34.6%	35.2%
Powered Surgical Instruments	21.4	20.4	22.1	21.0
Patient Care	12.1	11.7	12.1	12.1
Electrosurgery	14.3	14.8	13.9	14.8
Endosurgery	8.1	8.1	8.0	7.8
Endoscopic Technologies	9.5	9.0	9.3	9.1
Consolidated Net Sales	100.0%	100.0%	100.0%	100.0%

Business Environment and Opportunities

The aging of the worldwide population along with lifestyle changes, continued cost containment pressures on healthcare systems and the desire of clinicians and administrators to use less invasive (or noninvasive) procedures are important trends which are driving the growth in our industry. We believe that with our broad product offering of high quality surgical and patient care products, we can capitalize on this growth for the benefit of the Company and our shareholders.

In order to further our growth prospects, we have historically used strategic business acquisitions and exclusive distribution relationships to continue to diversify our product offerings, increase our market share and realize economies of scale.

We have a variety of research and development initiatives focused in each of our principal product lines. Among the most significant of these efforts is the Endotracheal Cardiac Output Monitor (“ECOM”). Our ECOM product offering is expected to replace catheter monitoring of cardiac output with a specially designed endotracheal tube which utilizes proprietary bio-impedance technology. Also of significance are our research and development efforts in the area of tissue-sealing for electrosurgery and high definition minimally-invasive surgery camera systems for arthroscopy.

Continued innovation and commercialization of new proprietary products and processes are essential elements of our long-term growth strategy. In March 2006, we unveiled several new products at the American Academy of Orthopaedic Surgeons Annual Meeting which will enhance our arthroscopy and powered instrument product offerings. Our reputation as an innovator is exemplified by these recent product

[Back to Table of Contents](#)

introductions, which include the following: the MPower™ System, a battery-powered surgical instrument system that merges the power of a large bone handpiece with the size and design of a small bone handpiece; the MicroPower™ electric powered instrument system for small bone procedures; the Dry-Doc® Cannula System which offers an improved design for arthroscopic surgical access; the Spectrum® II - Tissue Repair System allowing precise suture placement in arthroscopic shoulder procedures and Bio Mini Revo™ Shoulder Anchor shoulder repair implant.

Business Challenges

During the second half of 2005, we experienced lower than expected sales, as a result, we believe, of lower than anticipated surgical procedures. In addition, during the second half of 2005 and into the first half of 2006, we experienced significant cost increases with respect to petroleum-based raw materials such as plastic resins and polymers used in the production of many of our products, particularly our disposable products, as a result of the increased cost of oil. We also experienced significant increases in in-bound and out-bound freight costs. We believe we are beginning to see a return to more normal levels in the number of surgical procedures performed as sales have increased sequentially in the first two quarters of 2006. We are also in the process of implementing limited price increases to offset the manufacturing cost increases as a result of the increases in the price of oil.

Our facilities are subject to periodic inspection by the United States Food and Drug Administration (“FDA”) for, among other things, conformance to Quality System Regulation and Current Good Manufacturing Practice (“CGMP”) requirements. Following an inspection, the FDA typically provides its observations, if any, in the form of a Form 483 (Notice of Inspectional Observations) with specific observations concerning potential violation of regulations. In December 2004, the FDA initiated an inspection of our Largo, Florida manufacturing facility. Following the inspection, the FDA issued to us a Form 483 notice which included observations related to our corrective and preventative action procedures for nonconforming products and other quality problems. Although we responded to the Form 483 to address and correct the deficiencies, the FDA further issued a warning letter in June 2005 relating to these observations. We subsequently responded to the FDA with a plan of the corrective actions that we have taken or proposed to take. In May 2006, the FDA initiated a re-inspection of our Largo, Florida manufacturing facility to verify issues related to the June 2005 warning letter and December 2004 Form 483 observations had been corrected. No further Form 483 observations were issued by FDA during the May 2006 inspection and all previous observations were verified as complete. We will continue implementing and monitoring continuous improvement activities through our Company-wide quality systems initiative. However, there can be no assurance that the actions undertaken by the Company will ensure that we will not receive an additional Form 483 or warning letter, or other regulatory actions which may include consent decrees or fines.

We remain in litigation against Johnson & Johnson and several of its subsidiaries, including Ethicon, Inc. for violation of federal and state antitrust laws. The lawsuit claims that Johnson & Johnson engaged in illegal and anticompetitive conduct with respect to sales of product used in endoscopic surgery, resulting in higher prices to consumers and the exclusion of competition. We have sought relief which includes an injunction restraining Johnson & Johnson from continuing its anticompetitive practice as well as receiving the maximum amount of damages allowed by law. While we believe that our claims are well-grounded in fact

[Back to Table of Contents](#)

and law, there can be no assurance that we will be successful in our claim. In addition, the costs associated with pursuing this claim have been substantial. See Note 12 to the Consolidated Condensed Financial Statements.

Critical Accounting Estimates

Preparation of our financial statements requires us to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenues and expenses. Note 1 to the consolidated financial statements in our Annual Report on Form 10-K for the year-ended December 31, 2005 describes the significant accounting policies used in preparation of the consolidated financial statements. The most significant areas involving management judgments and estimates are described below and are considered by management to be critical to understanding the financial condition and results of operations of CONMED Corporation. There have been no significant changes in our critical accounting estimates during the second quarter of 2006.

Revenue Recognition

Revenue is recognized when title has been transferred to the customer which is at the time of shipment. The following policies apply to our major categories of revenue transactions:

- Sales to customers are evidenced by firm purchase orders. Title and the risks and rewards of ownership are transferred to the customer when product is shipped under our stated shipping terms. Payment by the customer is due under fixed payment terms.
- We place certain of our capital equipment with customers in return for commitments to purchase disposable products over time periods generally ranging from one to three years. In these circumstances, no revenue is recognized upon capital equipment shipment and we recognize revenue upon the disposable product shipment. The cost of the equipment is amortized over the term of individual commitment agreements.
- Product returns are only accepted at the discretion of the Company and in accordance with our “Returned Goods Policy”. Historically the level of product returns has not been significant. We accrue for sales returns, rebates and allowances based upon an analysis of historical customer returns and credits, rebates, discounts and current market conditions.
- Our terms of sale to customers generally do not include any obligations to perform future services. Limited warranties are provided for capital equipment sales and provisions for warranty are provided at the time of product sale based upon an analysis of historical data.
- Amounts billed to customers related to shipping and handling have been included in net sales. Shipping and handling costs are included in selling and administrative expense.
- We sell to a diversified base of customers around the world and, therefore, believe there is no material concentration of credit risk.

[Back to Table of Contents](#)

20

We assess the risk of loss on accounts receivable and adjust the allowance for doubtful accounts based on this risk assessment. Historically, losses on accounts receivable have not been material. Management believes that the allowance for doubtful accounts of \$1.7 million at June 30, 2006 is adequate to provide for probable losses resulting from accounts receivable.

Inventory Reserves

We maintain reserves for excess and obsolete inventory resulting from the inability to sell our products at prices in excess of current carrying costs. The markets in which we operate are highly competitive, with new products and surgical procedures introduced on an on-going basis. Such marketplace changes may result in our products becoming obsolete. We make estimates regarding the future recoverability of the costs of our products and record a provision for excess and obsolete inventories based on historical experience, expiration of sterilization dates and expected future trends. If actual product life cycles, product demand or acceptance of new product introductions are less favorable than projected by management, additional inventory write-downs may be required. We believe that our current inventory reserves are adequate.

Business Acquisitions

We have a history of growth through acquisitions, including most recently, the Bard Endoscopic Technologies acquisition in September 2004. Assets and liabilities of acquired businesses are recorded under the purchase method of accounting at their estimated fair values as of the date of acquisition. Goodwill represents costs in excess of fair values assigned to the underlying net assets of acquired businesses. Other intangible assets primarily represent allocations of purchase price to identifiable intangible assets of acquired businesses. We have accumulated goodwill of \$336.2 million and other intangible assets of \$191.3 million at June 30, 2006.

In accordance with Statement of Financial Accounting Standards No. 142, "Goodwill and Other Intangible Assets," ("SFAS 142"), goodwill and intangible assets deemed to have indefinite lives are not amortized, but are subject to at least annual impairment testing. The identification and measurement of goodwill impairment involves the estimation of the fair value of our business. Estimates of fair value are based on the best information available as of the date of the assessment, which primarily incorporate management assumptions about expected future cash flows and contemplate other valuation techniques. Future cash flows may be affected by changes in industry or market conditions or the rate and extent to which anticipated synergies or cost savings are realized with newly acquired entities.

Intangible assets with a finite life are amortized over the estimated useful life of the asset. Intangible assets which continue to be subject to amortization are also evaluated to determine whether events and circumstances warrant a revision to the remaining period of amortization. An intangible asset is determined to be impaired when estimated undiscounted future cash flows indicate that the carrying amount of the asset may not be recoverable. An impairment loss is recognized by reducing the recorded value to its current fair value. Although no goodwill or other intangible asset impairment has been recorded to date, there can be no assurance that future impairment will not occur. It is our policy to perform annual impairment tests in the fourth quarter.

[Back to Table of Contents](#)

Pension Plan

We sponsor a defined benefit pension plan covering substantially all our employees. Major assumptions used in the accounting for the plan include the discount rate, expected return on plan assets, rate of increase in employee compensation levels and expected mortality. Assumptions are determined based on Company data and appropriate market indicators, and are evaluated annually as of the plan's measurement date. A change in any of these assumptions would have an effect on net periodic pension costs reported in the consolidated financial statements.

Lower market interest rates have resulted in us lowering the discount rate used in determining pension expense from 5.75% in 2005 to 5.55% in 2006. This rate was determined by using the Citigroup Pension Liability Index rate which, we believe, is a reasonable indicator of our plan's future payment stream.

We have used an expected rate of return on pension plan assets of 8.0% for purposes of determining the net periodic pension benefit cost. In determining the expected return on pension plan assets, we consider the relative weighting of plan assets, the historical performance of total plan assets and individual asset classes and economic and other indicators of future performance. In addition, we consult with financial and investment management professionals in developing appropriate targeted rates of return.

We have estimated our rate of increase in employee compensation levels at 3.0% consistent with our internal budgeting.

Based on these and other factors, pension expense for the year-ended December 31, 2006 is estimated at approximately \$6.9 million as compared to \$5.6 million in 2005. Actual expense may vary significantly from this estimate. For the six month period ended June 30, 2006 we recorded \$3.5 million in pension expense.

Income Taxes

The recorded future tax benefit arising from net deductible temporary differences and tax carryforwards is approximately \$21.7 million at June 30, 2006. Management believes that our earnings during the periods when the temporary differences become deductible will be sufficient to realize the related future income tax benefits.

We operate in multiple taxing jurisdictions, both within and outside the United States. We face audits from these various tax authorities regarding the amount of taxes due. Such audits can involve complex issues and may require an extended period of time to resolve. Our United States federal income tax returns examination by the Internal Revenue Service ("IRS") for calendar years 2001 through 2003 was settled in the first quarter of 2006. As a result of the settlement of the income tax examinations, we adjusted our reserves to consider positions taken in our income tax return for periods subsequent to 2003. The net effect of these adjustments and the settlement was a \$0.5 million reduction in income tax expense in the first quarter of 2006.

We have established a valuation allowance to reflect the uncertainty of realizing the benefits of certain net operating loss carryforwards recognized in connection with an acquisition. Any subsequently recognized tax benefits associated with the valuation allowance would be allocated to reduce goodwill. In assessing

[Back to Table of Contents](#)

the need for a valuation allowance, we estimate future taxable income, considering the feasibility of ongoing tax planning strategies and the realizability of tax loss carryforwards. Valuation allowances related to deferred tax assets may be impacted by changes to tax laws, changes to statutory tax rates and future taxable income levels.

Results of Operations

The following table presents, as a percentage of net sales, certain categories included in our consolidated statements of income for the periods indicated:

	Three months ended June 30,		Six months ended June 30,	
	2005	2006	2005	2006
Net sales	100.0%	100.0%	100.0%	100.0%
Cost of sales	48.1	52.4	48.2	51.6
Gross profit	51.9	47.6	51.8	48.4
Selling and administrative expense	33.8	35.5	33.8	36.2
Research and development expense	4.0	4.6	3.9	4.8
Other expense	1.6	1.4	1.4	0.9
Income from operations	12.4	6.1	12.7	6.5
Interest expense	2.3	2.9	2.3	2.9
Income before income taxes	10.1	3.2	10.3	3.6
Provision for income taxes	3.5	1.1	3.6	1.2
Net income	6.6%	2.1%	6.8%	2.4%

Three months ended June 30, 2006 compared to three months ended June 30, 2005

Sales for the quarter ended June 30, 2006 were \$163.5 million, an increase of \$5.2 million (3.3%) compared to sales of \$158.3 million in the same period a year ago. Favorable foreign currency exchange rates (when compared to the foreign currency exchange rates in the same period a year ago) increased sales by approximately \$1.1 million.

Arthroscopy sales increased \$4.0 million (7.3%) in the quarter ended June 30, 2006 to \$58.8 million from \$54.8 million in the same period a year ago, principally as a result of increased sales of our procedure specific, resection and video imaging products for arthroscopy and general surgery, and our integrated operating room systems and equipment.

Powered surgical instrument sales decreased \$0.6 million (1.8%) in the quarter ended June 30, 2006 to \$33.3 million from \$33.9 million in the same period a year ago, principally as a result of decreased sales of our small bone and specialty powered instrument products.

Patient care sales remained flat with a \$0.1 million (0.5%) increase in the quarter ended June 30, 2006 to \$19.2 million from \$19.1 million in the same period a year ago, principally as a result of increased sales of our pulse oximetry products.

Electrosurgery sales increased \$1.6 million (7.1%) in the quarter ended June 30, 2006 to \$24.2 million from \$22.6 million in the same period a year ago, principally as a result of increased sales of our System 5000™ electrosurgical generator and ground pads.

[Back to Table of Contents](#)

Endosurgery sales increased \$0.4 million (3.1%) in the quarter ended June 30, 2006 to \$13.3 million from \$12.9 million in the same period a year ago. This increase is principally a result of increased sales of our hand held instruments.

Endoscopic Technologies sales decreased \$0.3 million (2.0%) in the quarter ended June 30, 2006 from \$15.0 million to \$14.7 million in the same period a year ago. This decrease is principally due to decreased sales in our forceps products as a result of increased competition and pricing pressures.

Cost of sales increased to \$85.7 million in the quarter ended June 30, 2006 as compared to \$76.2 million in the same period a year ago on increased sales volumes in each of our principal product lines as described above. Gross profit margins decreased to 47.6% in the quarter ended June 30, 2006 as compared to 51.9% in the same period a year ago as a result of significant cost increases with respect to petroleum-based raw materials such as plastic resins and polymers used in the production of many of our products and higher spending related to quality assurance.

Selling and administrative expense increased to \$58.1 million in the quarter ended June 30, 2006 as compared to \$53.6 million in the same period a year ago. Selling and administrative expense as a percentage of net sales increased to 35.5% in the quarter ended June 30, 2006 as compared to 33.8% in the same period a year ago. This increase of 1.7 percentage points is primarily attributable to expensing stock options and other share-based payments in 2006 (0.5 percentage points) due to the requirements under the Statement of Financial Accounting Standards No. 123(R), "Share-Based Payment" (see Note 4 to the Consolidated Condensed Financial Statements); higher pension costs (0.3 percentage points) due primarily as a result of changes in actuarial assumptions (see "Pension Plan" section of "Critical Accounting Estimates" above); increased spending on corporate quality systems and management (0.2 percentage points) to ensure we continue to maintain appropriate regulatory compliance; other increases in selling and administrative costs (0.7 percentage points) including the Johnson & Johnson litigation (see Note 12 to the Consolidated Condensed Financial Statements).

Research and development expense totaled \$7.5 million in the quarter ended June 30, 2006 as compared to \$6.4 million in the same period a year ago. As a percentage of net sales, research and development expense increased to 4.6% in the quarter ended June 30, 2006, as compared to 4.0% in the same period a year ago. This increase of 0.6 percentage points reflects an increased emphasis on new product development across all of our product lines with the most significant increases occurring in the areas of arthroscopy and powered instruments as well as endoscopic technologies.

As discussed in Note 10 to the Consolidated Condensed Financial Statements, other expense in the quarter ended June 30, 2006 consisted of \$0.6 million in costs related to the write-off of inventory in settlement of a patent dispute and \$1.0 million in Bard Endoscopic Technologies acquisition-related costs. In the quarter ended June 30, 2005, other expense consisted of \$0.7 million in environmental settlement costs, \$0.4 million in charges related to the termination of a product line, and \$1.4 million in Bard Endoscopic Technologies acquisition-related costs.

As discussed in Note 14 to the Consolidated Condensed Financial Statements, in the three months ended June 30, 2006, we recorded \$0.7 million in losses on the early extinguishment of debt in connection with the refinancing of our senior credit

[Back to Table of Contents](#)

agreement.

Interest expense in the quarter ended June 30, 2006 was \$4.7 million compared to \$3.6 million in the same period a year ago. The increase in interest expense is due primarily to higher weighted average borrowings outstanding in the quarter ended June 30, 2006 as compared to the same period a year ago coupled with increased interest rates on our variable rate debt obligations. The weighted average interest rates on our borrowings (inclusive of the finance charge on our accounts receivable sale facility) increased to 5.47% in the quarter ended June 30, 2006 as compared to 4.34% in the same period a year ago.

A provision for income taxes has been recorded at an effective tax rate of 34.5% for the quarter ended June 30, 2006 consistent with the 34.5% recorded in the same period a year ago. A reconciliation of the United States statutory income tax rate to our effective tax rate is included in our Annual Report on Form 10-K for the year-ended December 31, 2005, Note 7 to the Consolidated Financial Statements.

Six months ended June 30, 2006 compared to six months ended June 30, 2005

Sales for the six months ended June 30, 2006 were \$321.9 million, an increase of \$7.8 million (2.5%) compared to sales of \$314.1 million in the same period a year ago. Unfavorable foreign currency exchange rates (when compared to the foreign currency exchange rates in the same period a year ago) reduced sales by approximately \$0.2 million.

Arthroscopy sales increased \$4.7 million (4.3%) in the six months ended June 30, 2006 to \$113.5 million from \$108.8 million in the same period a year ago, principally as a result of increased sales of our resection and video imaging products for arthroscopy and general surgery, and our integrated operating room systems and equipment.

Powered surgical instrument sales decreased \$1.9 million (2.7%) in the six months ended June 30, 2006 to \$67.5 million from \$69.4 million in the same period a year ago, principally as a result of decreased sales of large bone handpieces.

Patient care sales increased \$0.8 million (2.1%) in the six months ended June 30, 2006 to \$38.8 million from \$38.0 million in the same period a year ago, principally as a result of increased sales of defibrillator pads and ECG electrode products.

Electrosurgery sales increased \$4.0 million (9.2%) in the six months ended June 30, 2006 to \$47.5 million from \$43.5 million in the same period a year ago, principally as a result of increased sales of our System 5000™ electrosurgical generator, UltraClean products and ground pads.

Endosurgery sales remained flat at \$25.2 million in the six months ended June 30, 2006 and 2005 as increased sales of hand held instruments and various laparoscopic instrument products and systems were offset by decreased sales of trocars.

Endoscopic Technologies sales remained flat with a \$0.2 million (0.7%) increase in the six months ended June 30, 2006 to \$29.4 million from \$29.2 million in the same period a year ago. Increased sales of pulmonary products were offset by

[Back to Table of Contents](#)

decreased sales of our forceps and hemostasis products.

Cost of sales increased \$14.8 million in the six months ended 2006 to \$166.3 million from \$151.5 million in the same period a year ago on increased sales volumes in each of our principal product lines as described above. Gross profit margins decreased 3.4% in the six months ended June 30, 2006 to 48.4% from 51.8% in the same period a year ago as a result of significant cost increases with respect to petroleum-based raw materials such as plastic resins and polymers used in the production of many of our products and higher spending related to quality assurance.

Selling and administrative expense increased \$10.4 million in the six months ended June 30, 2006 to \$116.5 million from \$106.1 million in the same period a year ago. As a percentage of sales, selling and administrative expense was 36.2% in the six months ended June 30, 2006 as compared to 33.8% in the same period a year ago. This increase of 2.4 percentage points is primarily attributable to expensing stock options and other share-based payments in 2006 (0.5 percentage points) due to the requirements under the Statement of Financial Accounting Standards No. 123(R), "Share-Based Payment" (see Note 4 to the Consolidated Condensed Financial Statements); increased administrative expenses associated with higher distribution costs (0.3 percentage points) due in part to higher petroleum prices; higher pension costs (0.3 percentage points) due primarily as a result of changes in actuarial assumptions (see "Pension Plan" section of "Critical Accounting Estimates" above); increased spending on corporate quality systems and management (0.1 percentage points) to ensure we continue to maintain appropriate regulatory compliance; other increases in selling and administrative costs (1.2 percentage points) including the Johnson & Johnson litigation (see Note 12 to the Consolidated Condensed Financial Statements).

Research and development expense totaled \$15.3 million in the six months ended June 30, 2006 as compared to \$12.2 million in the same period a year ago. As a percentage of net sales, research and development expense increased to 4.8% in the six months ended June 30, 2006, as compared to 3.9% in the same period a year ago. This increase of 0.9 percentage points reflects an increased emphasis on new product development across all of our product lines with the most significant increases occurring in the areas of arthroscopy and powered instruments as well as endoscopic technologies.

As discussed in Note 10 to the Consolidated Condensed Financial Statements, other expense in the six months ended June 30, 2006 consisted of \$0.6 million in costs related to the write-off of inventory in settlement of a patent dispute, \$0.1 million in charges related to the termination of a product line and \$1.5 million in Bard Endoscopic Technologies acquisition-related costs. In the six months ended June 30, 2005, other expense consisted of \$0.7 million in environmental settlement costs, \$0.9 million in charges related to the termination of a product line, and \$2.8 million in Bard Endoscopic Technologies acquisition-related costs.

As discussed in Note 14 to the Consolidated Condensed Financial Statements, in the six months ended June 30, 2006, we recorded \$0.7 million in losses on the early extinguishment of debt in connection with the refinancing of our senior credit agreement.

Interest expense in the six months ended June 30, 2006 was \$9.5 million compared to \$7.3 million in the same period a year ago. The increase in interest expense is due primarily to higher weighted average borrowings outstanding in the

[Back to Table of Contents](#)

six months ended June 30, 2006 as compared to the same period a year ago coupled with increased interest rates on our variable rate debt obligations. The weighted average interest rates on our borrowings (inclusive of the finance charge on our accounts receivable sale facility) increased to 5.40% in the six months ended June 30, 2006 as compared to 4.37% in the same period a year ago.

A provision for income taxes has been recorded at an effective tax rate of 32.5% for the six months ended June 30, 2006 and 34.5% for the same period a year ago. The effective rate for the six months ended June 30, 2006 is lower than that recorded in the same period a year ago and the United States statutory rate of 35.0% as a result of the settlement in the first quarter of 2006 of the 2001 through 2003 IRS income tax return examinations. Due to the settlement of the income tax examinations, we adjusted our reserves to consider positions taken in our income tax return for periods subsequent to 2003. The net effect of these adjustments and the settlement was a reduction in income tax expense of \$0.5 million. This favorable adjustment offset unfavorable tax effects caused by the adoption of SFAS 123(R). A reconciliation of the United States statutory income tax rate to our effective tax rate is included in our Annual Report on Form 10-K for the year-ended December 31, 2005, Note 7 to the Consolidated Financial Statements.

Liquidity and Capital Resources

Our liquidity needs arise primarily from capital investments, working capital requirements and payments on indebtedness under the senior credit agreement. We have historically met these liquidity requirements with funds generated from operations, including sales of accounts receivable and borrowings under our revolving credit facility. In addition, we use term borrowings, including borrowings under our senior credit agreement and borrowings under separate loan facilities, in the case of real property purchases, to finance our acquisitions. We also have the ability to raise funds through the sale of stock or we may issue debt through a private placement or public offering. We generally attempt to minimize our cash balances on-hand and use available cash to pay down debt or repurchase our common stock.

Operating cash flows

Our net working capital position was \$193.9 million at June 30, 2006. Net cash provided by operating activities was \$27.5 million in the six months ended June 30, 2006 and \$29.9 million in the same period a year ago.

Net cash provided by operating activities declined \$2.4 million in 2006 as compared to 2005 on a \$13.5 million decline in net income as the rate of growth in inventories declined by \$12.2 million compared with the same period a year ago resulting in lower overall growth in working capital. The decline in inventory growth is due to the build-up of inventories in the 2005 period associated with the transition in manufacturing of the product lines acquired as a result of the Bard Endoscopic Technologies acquisition.

Improved inventory management and collections performance on our accounts receivable contributed toward offsetting the negative operating cash flow impact associated with the decrease in accounts payable compared to the same period a year ago.

[Back to Table of Contents](#)

Investing cash flows

Net cash used in investing activities in the six months ended June 30, 2006 consisted of capital expenditures, the sale of an equity investment and the purchase of a distributor's business. Capital expenditures were \$10.2 million and \$8.1 million for the six months ended June 30, 2006 and 2005, respectively. The increase in capital expenditures in the six months ended June 30, 2006 as compared to the same period a year ago is primarily due to the ongoing expansion of our manufacturing and distribution capacity as a result of the Bard Endoscopic Technologies acquisition and other infrastructure and technology upgrades. The sale of the equity investment resulted in proceeds of \$1.2 million. The purchase of a distributor's business resulted in a \$2.0 million payment.

Financing cash flows

Net cash used in financing activities in the six months ended June 30, 2006 consisted primarily of the following: \$1.2 million in proceeds from the issuance of common stock under our stock option plans and employee stock purchase plan; \$7.8 million used to repurchase our common stock under our Board of Directors approved stock repurchase program; \$98.5 million in repayments of term borrowings under our senior credit agreement; \$43.0 million in repayments under the revolving credit facility of our senior credit agreement and \$1.3 million in payments related to the issuance of long-term debt. These payments were offset by proceeds of \$135.0 million from the term loan portion of our amended and restated senior credit agreement as described below.

On April 13, 2006, we entered into an amended and restated \$235.0 million senior credit agreement (the "senior credit agreement"). The senior credit agreement consists of a \$100.0 million revolving credit facility and a \$135.0 million term loan. The proceeds of the term loan portion of the senior credit agreement were used to repay borrowings outstanding on the term loan and revolving credit facility as of such date under the then existing senior credit agreement.

The scheduled principal payments on the term loan portion of the amended and restated senior credit agreement are \$1.4 million annually through December 2011, increasing to \$95.5 million in 2012 with the remaining balance outstanding due and payable on April 12, 2013. We may also be required, under certain circumstances, to make additional principal payments based on excess cash flow as defined in the senior credit agreement. Initial interest rates on the term loan portion of the senior credit agreement are at LIBOR plus 1.75% (7.03% at June 30, 2006) or an alternative base rate; initial interest rates on the revolving credit facility portion of the senior credit agreement are at LIBOR plus 1.50% or an alternative base rate. For those borrowings where the Company elects to use the alternative base rate, the base rate will be the greater of the Prime Rate or the Federal Funds Rate in effect on such date plus 0.50%, plus a margin of 0.75% for term loan borrowings or 0.50% for borrowings under the revolving credit facility.

The senior credit agreement is collateralized by substantially all of our personal property and assets, except for our accounts receivable and related rights which are pledged in connection with our accounts receivable sales agreement. The amended and restated credit agreement contains covenants and restrictions which, among other things, require the maintenance of certain financial ratios, and restrict dividend payments and the incurrence of certain indebtedness and other

[Back to Table of Contents](#)

activities, including acquisitions and dispositions. We are also required, under certain circumstances, to make mandatory prepayments from net cash proceeds from any issue of equity and asset sales.

Mortgage notes outstanding in connection with the property and facilities utilized by our CONMED Linvatec subsidiary consist of a note bearing interest at 7.50% per annum with semiannual payments of principal and interest through June 2009 (the "Class A note"); and a note bearing interest at 8.25% per annum compounded semiannually through June 2009, after which semiannual payments of principal and interest will commence, continuing through June 2019 (the "Class C note"). The principal balances outstanding on the Class A note and Class C note aggregated \$6.1 million and \$9.2 million, respectively, at June 30, 2006. These mortgage notes are secured by the CONMED Linvatec property and facilities.

On November 11 2004, we completed an offering of \$150.0 million in 2.50% convertible senior subordinated notes (the "Notes") due 2024. This offering has allowed us to fix interest rates on \$150.0 million of our total outstanding long-term debt at 2.50%. The Notes represent subordinated unsecured obligations and are convertible under certain circumstances, as defined in the bond indenture, into a combination of cash and CONMED common stock. Upon conversion, the holder of each Note will receive the conversion value of the Note payable in cash up to the principal amount of the Note and CONMED common stock for the Note's conversion value in excess of such principal amount. Amounts in excess of the principal amount are at an initial conversion rate, subject to adjustment, of 26.1849 shares per \$1,000 principal amount of the Note (which represents an initial conversion price of \$38.19 per share). The Notes mature on November 15, 2024 and are not redeemable by us prior to November 15, 2011. Holders of the Notes will be able to require that we repurchase some or all of the Notes on November 15, 2011, 2014 and 2019.

Our Board of Directors has authorized a share repurchase program under which we may repurchase up to \$100.0 million of our common stock, although no more than \$50.0 million may be purchased in any calendar year. We repurchased \$7.8 million under the share repurchase program during the six months ended June 30, 2006. We have financed the repurchases and may finance additional repurchases through the proceeds from the issuance of common stock under our stock option plans, from operating cash flow and from available borrowings under our revolving credit facility.

Management believes that cash flow from operations, including accounts receivable sales, cash and cash equivalents on hand and available borrowing capacity under our senior credit agreement will be adequate to meet our anticipated operating working capital requirements, debt service, funding of capital expenditures and common stock repurchases in the foreseeable future.

Off-balance sheet arrangements

We have an accounts receivable sales agreement pursuant to which we and certain of our subsidiaries sell on an ongoing basis certain accounts receivable to CONMED Receivables Corporation ("CRC"), a wholly-owned, bankruptcy-remote, special-purpose subsidiary of CONMED Corporation. CRC may in turn sell up to an aggregate \$50.0 million undivided percentage ownership interest in such receivables (the "asset interest") to a bank (the "purchaser"). The purchaser's share of collections on accounts receivable are calculated as defined in the accounts receivable sales agreement, as amended. Effectively, collections on the pool of receivables flow

[Back to Table of Contents](#)

first to the purchaser and then to CRC, but to the extent that the purchaser's share of collections may be less than the amount of the purchaser's asset interest, there is no recourse to CONMED or CRC for such shortfall. For receivables which have been sold, CONMED Corporation and its subsidiaries retain collection and administrative responsibilities as agent for the purchaser. As of June 30, 2006, the undivided percentage ownership interest in receivables sold by CRC to the purchaser aggregated \$40.0 million, which has been accounted for as a sale and reflected in the balance sheet as a reduction in accounts receivable. Expenses associated with the sale of accounts receivable, including the purchaser's financing costs to purchase the accounts receivable were \$1.1 million in the six months ended June 30, 2006 and are included in interest expense.

There are certain statistical ratios, primarily related to sales dilution and losses on accounts receivable, which must be calculated and maintained on the pool of receivables in order to continue selling to the purchaser. The pool of receivables is in full compliance with these ratios. Management believes that additional accounts receivable arising in the normal course of business will be of sufficient quality and quantity to meet the requirements for sale under the accounts receivables sales agreement. In the event that new accounts receivable arising in the normal course of business do not qualify for sale, then collections on sold receivables will flow to the purchaser rather than being used to fund new receivable purchases. To the extent that such collections would not be available to CONMED in the form of new receivables purchases, we would need to access an alternate source of working capital, such as our \$100.0 million revolving credit facility. Our accounts receivable sales agreement, as amended, also requires us to obtain a commitment (the "purchaser commitment"), on an annual basis, from the purchaser to fund the purchase of our accounts receivable. The purchaser commitment was amended effective October 21, 2005 whereby it was extended for an additional year under substantially the same terms and conditions.

New accounting pronouncements

See Note 13 to the Consolidated Condensed Financial Statements for a discussion of new accounting pronouncements.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

There have been no significant changes in our primary market risk exposures or in how these exposures are managed during the three and six month periods ended June 30, 2006. Reference is made to Item 7A. of our Annual Report on Form 10-K for the year-ended December 31, 2005 for a description of Qualitative and Quantitative Disclosures About Market Risk.

Item 4. Controls and Procedures

An evaluation of the effectiveness of the design and operation of the Company's disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended ("Exchange Act")) was carried out under the supervision and with the participation of the Company's management, including the Chairman and Chief Executive Officer and the Vice President-Finance and Chief Financial Officer ("the Certifying Officers") as of June 30, 2006. Based on that evaluation, the Certifying Officers concluded that the Company's disclosure controls and procedures are effective to bring to the attention

[Back to Table of Contents](#)

of the Company's management the relevant information necessary to permit an assessment of the need to disclose material developments and risks pertaining to the Company's business in its periodic filings with the Securities and Exchange Commission. There have been no changes in the Company's internal control over financial reporting (as such term is defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) during the quarter ended June 30, 2006 that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

PART II OTHER INFORMATION

Item 1. Legal Proceedings

Reference is made to Item 3 of the Company's Annual Report on Form 10-K for the year-ended December 31, 2005 and to Note 12 of the Notes to Consolidated Condensed Financial Statements included in Part I of this Report for a description of certain legal matters.

Item 2. Issuer Purchase of Equity Securities

The following table provides information about Company purchases of equity securities that are registered by the Company pursuant to Section 12 of the Exchange Act during the quarter ended June 30, 2006:

ISSUER PURCHASES OF EQUITY SECURITIES

Period	(a) Total Number Of Shares Purchased	(b) Average Price Paid per Share ¹	(c) Total Number of Shares Purchased as Part of Publicly Announced Programs ²	(d) Approximate Dollar Value of Shares that May Yet Be Purchased Under the Program
April 1, 2006 - April 30, 2006	-	\$ -	-	\$ 51,219,000
May 1, 2006 - May 31, 2006	-	-	-	51,219,000
June 1, 2006 - June 30, 2006	233,481	19.02	233,481	46,778,000
Total	233,481	\$ 19.02	233,481	

¹ Average price paid per share includes cash paid for commissions.

² On February 15, 2005, the Company announced that its Board of Directors authorized a share repurchase program under which it may repurchase up to \$50.0 million of the Company's common stock, although no more than \$25.0 million may be purchased in any calendar year. The Board of Directors subsequently amended this program on December 2, 2005 to authorize repurchases of \$100.0 million of the Company's common stock, although no more than \$50.0 million may be purchased in a calendar year. There is no expiration date governing the period over which the Company can make its share repurchases under the \$100.0 million share repurchase program.

[Back to Table of Contents](#)

31

In addition to the above contractual obligations, we are required to make periodic interest payments on our long-term debt obligations. (See additional discussion under “Liquidity and Capital Resources”).

Item 4. Submission of Matters to a Vote of Security Holders

The annual meeting of stockholders of CONMED Corporation was held on May 16, 2006 (the “Annual Meeting”). Holders of Common Stock were entitled to elect seven directors. On all matters which came before the Annual Meeting, holders of Common Stock were entitled to one vote for each share held. Proxies for 26,986,074 of the 28,086,192 shares of Common Stock entitled to vote were received in connection with the Annual Meeting.

The following table sets forth the names of the seven persons elected at the Annual Meeting to serve as directors until the first annual meeting of stockholders following the end of the Company’s fiscal year ending December 31, 2006 and the number of votes cast for, against or withheld with respect to each person.

Election of Directors

<u>Director</u>	<u>Votes Received</u>	<u>Votes Withheld</u>
Eugene R. Corasanti	26,344,778	641,296
