NOTES TO FINANCIAL STATEMENTS
YEARS ENDED DECEMBER 31, 2003 AND 2002

1. DESCRIPTION OF PLAN

The following description of Jack Henry & Associates, Inc. 401(k)

Edgar Filing: HENRY JACK & ASSOCIATES INC - Form 11-K

Retirement Savings Plan (the "Plan") provides only general information. Participants should refer to the Plan Agreement for a more complete description of the Plan's provisions.

General-The Plan is a defined contribution, 401(k) plan covering all full-time employees of Jack Henry & Associates, Inc. (the "Company") who have at least six months of service and have attained the age of 18. The Company is the Plan Administrator and has appointed a trustee to hold and invest Plan assets. In April 2002, the Company's Board of Directors appointed Diversified Investment Advisors as the Plan administrator and Investor's Bank and Trust as the Plan trustee effective July 1, 2002. The Plan is subject to the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended.

Investments-Participants direct the investment of their contributions and employee contributions into various investment options offered by the Plan. The Plan currently offers Jack Henry & Associates, Inc. common stock, a money market fund, fourteen mutual funds and a guaranteed separate account fund as investment options for participants.

Contributions-Participants may contribute up to the maximum contribution allowable under section 401(k) of the Internal Revenue Code. The Company matches 100 percent of participant contributions up to a maximum match of the lesser of 5% of the participant's annual compensation or \$5,000. The total amount which a participant could elect to contribute to the Plan on a pre-tax basis in 2003 could not exceed \$12,000. However, in 2003, if a participant reached age 50 by December 31, 2003, they were able to contribute an additional \$2,000 "catch up" contribution to the Plan on a pre-tax basis.

In addition, the Company may make a special discretionary contribution. The amount of the discretionary contribution is determined by the Company. Participants must be actively employed on the last day of the Plan year to share in any discretionary contributions. There were no discretionary contributions in 2003.

Vesting-Participants are immediately vested in their voluntary contributions, the employer's matching contribution and the earnings on these contributions. Vesting in the employer's discretionary portions of their accounts is based on years of continuous service with an employee vesting 20% after two years of service and subsequently vesting 20% each year until becoming fully vested with six years of continuous service.

Benefits-Upon termination of service, an employee may elect to receive a lump-sum amount equal to the value of his or her account at either the time of termination or at the end of the Plan year. An employee may also elect to receive the value of his or her account in installment payments or have the balance rolled over into an Individual Retirement Account.

Participant Loans-Participants may borrow for qualifying reasons as defined in the Plan, from their fund accounts a minimum amount of \$1,000 up to a maximum of \$50,000 or 50% of their vested account balances. Loan terms range from one to five years, unless the loan is going to be used to purchase the participant's principal residence, in which case the term may extend beyond five years. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates (ranging from 4.25% to 12.15% as of December 31, 2003), as determined by the Plan administrator. Principal and interest are paid through payroll deductions. Participants may elect to maintain their loan subsequent to their termination.

Benefits Payable-Benefits are recorded when paid. As of December 31,

Edgar Filing: HENRY JACK & ASSOCIATES INC - Form 11-K

2003 and 2002 distributions payable to Plan participants was zero.

Forfeited Accounts-At December 31, 2003 and 2002, forfeited nonvested accounts totaled \$1,988 and \$1,098, respectively. These accounts will be used to reduce future employer contributions.

2. SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting-The financial statements of the Plan are prepared on the accrual basis.

Investment Valuation and Income Recognition-Investments are stated at fair value, which is determined using public market quotations if available. Non-publicly traded investments (Diversified Investment Advisors-Managed Stability-Stable 5 Fund) have been reported based on values provided by the Plan trustee. Participant loans are reported at cost, which approximates fair value.

The Plan invests in various securities including common stock and mutual funds. Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for plan benefits.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Basis of Allocation-Investment income and gain or loss on investments are allocated to the participants based on the participant's account balance. Discretionary contributions, if any, are allocated based on eligible compensation.

Use of Estimates-The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

3. INVESTMENTS

The Plan's deposits are maintained in money market accounts until the deposits are allocated to the participant self-directed funds based on the participant's percentage allocation election. The participant can elect direction of investments upon entering the Plan and may change the direction of investment options on a daily basis. Unless directed otherwise by participants, employer matching and discretionary contributions will be allocated in the same manner as employee contributions.

The components of the Plan's individual investments which represent five percent or more of the Plan's net assets available for benefits at December 31, 2003 and 2002 are as follows:

	2003	2002

5. PLAN TERMINATION

Although it has not expressed an intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA. In the event of plan termination, employees become 100 percent vested in their accounts.

6. TAX STATUS

The Internal Revenue Service ("IRS") has determined and informed the Company by a letter dated September 10, 1996, that the Plan is designed in accordance with applicable sections of the Internal Revenue Code ("IRC").
