ITEM 2.06 Material Impairments

On March 31, 2005, Southern Missouri Bancorp, Inc. (the "Company"), the parent corporation of Southern Missouri Bank and Trust Co., made the determination to record a \$972,000 net-of-tax charge against earnings for the quarter ended March 31, 2005, based on recent developments concerning an existing credit relationship of approximately \$4.9 million.

The Company's management has concluded that an additional \$1.4 million (net of tax \$842,000) provision will be made to the Company's loan loss reserves due to these developments. Based on an initial review of the documentation supporting these loans, including collateral and borrower financial information, the Company has downgraded the classification of these loans. The developing concerns involve both potentially fraudulent activities and financial statements provided by the borrower. The Company is working with attorneys for all parties involved to resolve this matter.

In connection with this relationship, the Company has also sustained a loss of \$210,000 (net of tax \$130,000) due to insufficient funds in the borrower's operating deposit account with the Company. The Company is pursuing legal action in this matter as well.

The Company is currently unable to estimate the out-of-pocket expenditures (including legal and accounting fees) it will incur in connection with the resolution of these matters. The Company accrued \$50,000 for such expenditures in the quarter ended March 31, 2005. The actual amount of such expenditures will depend on the length of time, and number of hours of professional assistance required, to finally resolve all issues, the nature of the proceedings in which these issues are resolved, and other factors not susceptible to precise estimation.

A copy of the press release issued by the Company announcing this matter is attached as Exhibit 99.1.
