Commissions and Discounts: After the initial offering of the Notes, the underwriter may from time to time vary the offering prices and other selling terms. The underwriter may offer and sell Notes through certain of its affiliates.

CUSIP / ISIN: 035710AA0 / US035710AA05

Mandatory conversion: The Issuer may at any time cause the notes, in whole or in part, to be automatically converted into shares of its common stock if the daily VWAP of its common stock exceeds 130% of the applicable conversion price for at least 10 trading days in a period of 15 consecutive trading days.

Coupon make-whole: Upon a mandatory conversion of the notes, noteholders will be entitled to receive a "coupon make-whole" payable in additional shares of common stock and equal to the dollar amount of the remaining scheduled payments of interest that would have been made on the notes to be converted had such notes remained outstanding from the conversion date until maturity.

Fundamental change: Noteholders may require the Issuer to repurchase all or a portion of their notes at a price equal to 100% of the principal amount of notes to be repurchased plus any accrued and unpaid interest up to, but excluding, the repurchase date. Notes will be repurchased in exchange for shares of the Issuer's common stock using a price per share equal to the average daily VWAP of the Issuer's common stock for the 20 consecutive trading days ending on the trading day immediately prior to the occurrence of the fundamental change.

Change of control make-whole: Noteholders converting in connection with a fundamental change will be entitled to receive a change of control-make whole. The following table sets forth the conversion value and the change of control make-whole to be received per \$1,000 principal amount of notes:

The exact stock prices and effective dates may not be set forth in the table above, in which case:

- If the conversion value is between two conversion value amounts in the table or the effective date is between two effective dates in the table, the change of control make-whole percentage will be determined by a straight-line interpolation between the change of control make-whole percentage set forth for the higher and lower conversion value amounts and the two dates, as applicable, based on a 365-day year.
- If the conversion value is greater than 600.00%, no adjustment to the change of control make-whole percentage will be made.

- If the conversion value is less than 83.33%, no adjustment to the change of control make-whole percentage will be made.

Notwithstanding the foregoing, in no event will the change of control make-whole exceed 16.6667% of the par value of the notes.
