INTERNATIONAL STEEL GROUP TO MERGE WITH MITTAL STEEL

FOR CASH AND STOCK

-- Mittal Steel Will Be The World's Largest Steel Company, With Pro Forma Revenues In 2004 of \$30 Billion and Annual Production Capacity of 70 Million Tons --

Rotterdam, The Netherlands, and Richfield, Ohio, October 25, 2004 - Ispat International N.V. [NYSE and Euronext Amsterdam: IST] today announced that it has agreed to acquire LNM Holdings N.V. Following completion of the transaction, the company will be renamed Mittal Steel Company N.V. Simultaneously, Ispat International and International Steel Group Inc. [NYSE: ISG] announced today that their Boards of Directors have unanimously approved a definitive agreement under which Ispat International and ISG will merge. The combined Mittal Steel will be the largest and most global steel company in the world and will be listed on the New York Stock Exchange and Euronext Amsterdam.

LNM Holdings is one of the world's largest and most profitable steel companies and also has substantial mining assets. Revenues were \$9.9 billion and operating income was \$3.2 billion in the first nine months of 2004. The company has annual total raw steel production capacity of over 32 million tons and owns significant mining assets, annually producing approximately 18 million metric tonnes of iron ore, 13 million metric tonnes of coke and 12 million metric tonnes of coal. LNM Holdings believes it has opportunities to achieve additional growth and cost

reductions, particularly at recent acquisitions. For 2004, the company expects steel shipments of approximately 26 million tons(1) and revenues of approximately \$14.5 billion.

Under the terms of the agreement with LNM Holdings, Ispat International will issue 525 million new shares, valued at \$13.3 billion at Friday's closing share price on the NYSE, to the shareholder of LNM Holdings. The new shares will comprise approximately 140 million class A shares and approximately 385 million class B shares, which is in the same proportion as the Ispat International shares currently held by LNM Holdings' controlling shareholder.

Under the terms of the agreement with ISG, ISG shareholders will receive \$21.00 per share in cash and a number of Mittal Steel shares equal to \$21.00 divided by the average closing price of Mittal Steel for the 20 trading days prior to closing, up to a maximum of 0.6087 shares and a minimum of 0.4793 shares. The value in the merger would be \$42.00 per ISG share, or \$4.5 billion in the aggregate if the average price of Mittal Steel shares for the 20 trading days prior to the merger is between \$34.50 and \$43.81 per share. ISG shareholders will be able to elect between cash and Mittal Steel shares, subject to pro ration such that 50% of the total consideration will be in cash and 50% will be in Mittal Steel shares. The closing prices of Ispat International and ISG shares on Friday, October 22, 2004 on the NYSE were \$25.34 and \$29.68, respectively.

The companies have signed a Letter of Agreement with the United Steelworkers of America and the Independent Steelworkers Union.

Upon completion of both transactions, Mittal Steel will be the largest and among the most profitable steel companies in the world.

- > Mittal Steel will have operations in 14 countries on four continents and 165,000 employees
- > For the nine months ended September 30, 2004, Mittal Steel had pro forma revenues of \$22.5 billion, pro forma operating income of \$4.9 billion, and pro forma total steel shipments of 43 million tons.
- > For 2004, Mittal Steel expects pro forma revenues of over \$31.5 billion, pro forma operating income of \$6.8-7.0 billion, pro forma total steel shipments of approximately 57 million tons, pro forma net debt of \$3.2 billion, and pro forma earnings per share of \$7.20-7.40(2), based on approximately 704 million(3) shares of Mittal Steel outstanding.(4)

"These transactions dramatically change the landscape of the global steel industry," said Mr. Lakshmi N. Mittal. "We are bringing together Ispat International, LNM Holdings and ISG, one of the largest integrated steel producers in North America, creating a global powerhouse. In recent years, the steel industry has been characterized by predominantly regional consolidation. This combination represents a significant step forward in the globalisation of the industry."

Mr. Mittal continued, "The combined company will have excellent positions in raw materials, particularly coal, coke and iron ore, as well as strong positions in key end sectors. This combination also provides Mittal Steel with a more significant presence in important industrialized economies such as those in North America and Europe and in economies that are expected to experience above average growth in steel consumption, including Asia and Africa. Finally, I am particularly pleased that Wilbur Ross and Rodney Mott, who formed ISG and transformed the U.S. steel industry, will continue to have key roles at the new company."

Mr. Ross said, "This transaction achieves all our financial and business objectives. It provides our shareholders with an excellent rate of return and the potential for strong future appreciation. It accelerates by several years our strategy to become a leading global steelmaker. By joining with Mittal Steel, respected in the global steel industry for both its strategic vision and operational excellence, we have provided our shareholders immediate value, as well as participation in a new, financially strong, profitable global enterprise with excellent growth prospects."

Mr. Aditya Mittal said, "We believe that Mittal Steel will be a leader not only in terms of its global reach and operational excellence, but also among the most profitable steel producers in the world. Mittal Steel's financial strength will enable us to implement return-driven capital expenditure programs at our plants and enhance our ability to pursue future transactions. Most importantly, both the companies can share best-in-class practices at all facilities, accelerating the competitive edge Mittal Steel has due to its global management breadth and expertise."

Mr. Mott said, "For our employees and communities especially, both of whom have experienced the contraction of the industry, this combination provides a strong measure of stability and the greater potential of a financially sound and secure steel company, with a

3

diversity of operations in the United States and internationally. Our scale and capabilities, strong synergies, and a dynamic product offering will enable us to serve customers even better. This is an exciting combination borne out of strength."

Mittal Steel's strategy will be to enhance long-term shareholder value both by continuously strengthening its position as a low-cost, high quality steel producer and by continuing to play an integral role in a globally diverse steel

industry. The company is well positioned in key areas that management believes will experience significant growth in steel consumption. The combined company will encompass all aspects of modern steelmaking to produce a comprehensive portfolio of both flat and long steel products to meet a wide range of customer needs. It will serve all the major steel consuming sectors, including the automotive, appliance, machinery and construction sectors.

Ispat International operates in 6 countries in North America and Western Europe, including the United States through Ispat Inland Inc. Ispat International has annual total raw steel production capacity of over 18 million tons and is targeting 2004 revenues of approximately \$8.3 billion.

LNM Holdings operates in 8 countries in Europe, Africa and Asia. It has annual total raw steel production capacity of over 32 million tons and is targeting 2004 revenues of approximately \$14.5 billion.

ISG is one of the largest integrated steel producers in North America and among the top ten globally. Since being formed in April 2002, it has grown rapidly by acquiring the steel making assets of LTV, Acme Steel, Bethlehem Steel, Weirton Steel and Georgetown. ISG has annual total raw steel production capacity of approximately 20 million tons and is targeting 2004 revenues of approximately \$9 billion.

### LNM Holdings Transaction Highlights

The Board of Directors of Ispat International has approved a transaction under which Ispat International will acquire 100% of LNM Holdings in an all-share transaction. This acquisition is subject to a number of conditions including, among others, the approval of the shareholders of Ispat International. The LNM Holdings acquisition has received the support of Mr. Lakshmi Mittal, who is chairman of both companies and the controlling shareholder of Ispat International and LNM Holdings, either directly or indirectly. In light of Mr. Lakshmi Mittal's role at both companies, the Ispat International Board formed a special committee of independent directors to represent the interests of Ispat International's minority shareholders in evaluating and

4

negotiating the terms of the acquisition of LNM Holdings. The Special Committee unanimously approved the Acquisition Agreement and unanimously recommended that the LNM Holdings acquisition be approved by the Board of Ispat International. LNM Holdings has declared a dividend of \$2 billion to LNM Holdings' seller in the fourth quarter of 2004. At year-end 2004, LNM Holdings is expected to have a post-dividend net cash position (defined as cash and cash equivalents less payable to banks, current portion of long-term debt and long-term debt) of approximately \$100 million. The combination of Ispat International and LNM Holdings is expected to be completed by the end of 2004. Following completion of the LNM Holdings acquisition, Ispat International shareholders will own approximately 18.3% of the combined company and LNM Holdings shareholders will own approximately 81.7%. Credit Suisse First Boston LLC and Houlihan Lokey Howard & Zukin LLC acted as financial advisors to the Special Committee, and Shearman & Sterling LLP and NautaDutilh acted as legal counsels. HSBC and Citigroup acted as financial advisors and Cleary, Gottlieb, Steen & Hamilton acted as legal counsel to LNM Holdings.

### ISG Transaction Highlights

The merger with ISG is subject to approval by the shareholders of ISG and Ispat International or Mittal Steel, depending on the timing of the shareholder vote, as well as regulatory approvals and satisfaction of other customary closing conditions. In addition, the transaction is subject to the completion of the acquisition of LNM Holdings by Ispat International. The transaction is expected to be completed by the end of the first quarter of 2005. Following the completion of this transaction, ISG shareholders will own between approximately 6.9% and 8.6%, depending on the average price of Mittal Steel shares for the 20 trading days prior to the merger. Credit Suisse First Boston LLC acted as financial advisor and Shearman & Sterling LLP acted as legal counsel to Ispat International. UBS Securities LLC and Goldman, Sachs & Co. acted as financial advisors and Jones Day acted as legal counsel to ISG.
