Cautionary Statement for Purposes of the "Safe Harbor" Provisions of the United States Private Securities Litigation Reform Act of 1995.

The Private Securities Litigation Reform Act of 1995 provides a "safe harbor" for forward-looking statements. The press release included in this 6-K contains certain forward-looking statements, including, but not limited to, discussion of the post-transaction capital structure, cash flow and credit profile of the Telecom Italia Group, and the changing dynamics of the marketplace, including continuing developments in technologies. Actual results may differ materially from those projected or implied in such forward-looking statements. Such forward-looking information involves risks and uncertainties that could significantly affect expected results and are based on certain assumptions.

The following important factors could cause the Telecom Italia Group's actual results to differ materially from those projected or implied in its forward-looking statements:

- \* the impact and consequences of the proposed transaction on our cash flow and results of operations, as a result of the significant increase in debt levels if the proposed cash tender offers are successfully completed, which may affect our ability to take advantage of other investment opportunities and our ability to successfully achieve previously stated debt reduction targets;
- \* the continuing impact of increased competition in a liberalized market, including competition from global and regional alliances formed by other telecommunications operators in the core domestic fixed-line and wireless markets of the Telecom Italia Group;
- \* the ability of the Telecom Italia Group to introduce new services

## Edgar Filing: TELECOM ITALIA S P A - Form 6-K

stimulate increased usage of its fixed and wireless networks to offset declines in its fixed-line business due to the continuing impact of regulatory required price reductions, market share loss and price pressures generally;

- \* the continuing impact of rapid or "disruptive" changes in technologies;
- \* the ability of the Telecom Italia Group to achieve cost-reduction targets in the time frame established or to continue the process of rationalizing its non-core assets;
- \* the impact of regulatory decisions and changes in the regulatory environment;
- \* the impact of political and economic developments in Italy and other countries in which the Telecom Italia Group operates;
- \* the impact of fluctuations in currency exchange and interest rates;
- \* Telecom Italia's ability to successfully roll out its UMTS networks and services and to realize the benefits of its investment in UMTS licenses and related capital expenditures;
- \* Telecom Italia's ability to successfully implement its internet strategy;
- \* the ability of the Telecom Italia Group to achieve the expected return on the significant investments and capital expenditures it has made in Latin America and in Europe;
- \* the amount and timing of any future impairment charges for Telecom Italia's licenses, goodwill or other assets; and
- \* the impact of litigation or decreased mobile communications usage arising from actual or perceived health risks or other problems relating to mobile handsets or transmission masts.

The foregoing factors should not be construed as exhaustive. Due to uncertainties and risks, readers are cautioned not to place undue reliance on such forward-looking statements, which speak only as of the date hereof. Telecom Italia undertakes no obligation to release publicly the result of any revisions to these forward-looking statements which may be made to reflect events or circumstances after the date hereof.
