Item 11

**ASTRAZENECA SUBMITS NEW DRUG APPLICATION (NDA) TO FDA
FOR SYMBICORT® MAINTENANCE TREATMENT OF ASTHMA**

AstraZeneca has announced submission of a New Drug Application (NDA) to the U.S. Food and Drug Administration (FDA) for approval of SYMBICORT® (budesonide/formoterol) for the maintenance treatment of asthma.

Edgar Filing: ASTRAZENECA PLC - Form 6-K

SYMBICORT is a combination of budesonide (an inhaled corticosteroid) and formoterol (a rapid and long lasting β 2-agonist). Combination products containing an inhaled corticosteroid and a long-acting β 2-agonist are recommended by the National Asthma Education and Prevention Program (NAEPP) of the National Institute of Health for patients including those whose asthma is uncontrolled on inhaled steroid therapy alone, or for patients whose asthma is currently controlled on an inhaled steroid plus a separate inhaled long-acting β 2-agonist.

The SYMBICORT NDA submission is based on 27 Phase I, II and III trials designed to assess the efficacy and safety of SYMBICORT in a Metered Dose Inhaler (MDI). This application will be for maintenance treatment of asthma in patients age 12 and above. The NDA submission seeks approval for two strengths of SYMBICORT (80/4.5 and 160/4.5 microgram).

SYMBICORT is currently available in a dry powder inhaler device, Turbuhaler®, in 93 countries around the world. The current worldwide market for fixed combination products is estimated to be worth over \$6 billion, with approximately half of this potential market in the U.S. SYMBICORT sales were up 21 percent in the first half of 2005, reaching \$502 million. In 2003 it was estimated that 20 million Americans had asthma. Of these, 11 million Americans had an asthma attack.

Item 13

SEROQUEL ANDA

AstraZeneca received a notice from Teva Pharmaceuticals USA on September 27, 2005, that Teva has submitted an Abbreviated New Drug Application (ANDA) for quetiapine fumarate tablets (25mg base) containing a Paragraph IV Certification (alleging invalidity and non-infringement) with respect to AstraZeneca's US patent number 4,879,288. AstraZeneca's US patent number 4,879,288 is listed in the Orange Book in reference to Seroquel.

AstraZeneca is evaluating Teva's notice, and the company continues to have full confidence in its intellectual property protecting Seroquel.

AstraZeneca has 45 days within which to commence a patent infringement lawsuit against the filer of an ANDA that would automatically stay, or bar, the FDA from approving the ANDA for 30 months (or until an adverse court decision, whatever may occur earlier).
